For Immediate Release

**ROYAL CARIBBEAN CRUISES LTD. REPORTS IMPACT OF HURRICANES AND  
PROVIDES FULL YEAR 2004 EARNINGS ESTIMATE**

**MIAMI** October 4, 2004 Royal Caribbean Cruises Ltd. (NYSE, OSE: RCL) today commented on the financial impact of the unusual spate of hurricanes this summer. The hurricanes impacted sailings which ended in both the third and fourth quarters. As a result, the company expects an impact of \$0.10 to its third quarter earnings and \$0.02 to \$0.03 to its fourth quarter earnings.

A portion of the impact is attributable to lost revenue and a portion to an increase in expenses. The impact of these expenses in the third quarter is expected to be partially offset by a shift in the timing of certain expenses from the third to fourth quarter.

Partially mitigating the financial impact of the hurricanes have been strong bookings for the summer. As a result, the company now estimates that Net Yields for the third quarter of 2004 will be slightly better than the company's previous forecast of an increase in the range of 10% to 11%.

Based upon these expectations, management anticipates 2004 earnings per share to be in the range of \$2.25 to \$2.35 despite the unusual events of the summer. The company intends to provide more information on the outlook after the conclusion of the quarter's financial close.

The company's earnings release will be issued on October 21, 2004. A conference call with analysts has been scheduled for 10 a.m. that day, and can be heard by all interested parties at the company's investor relations web site, [www.rclinvestor.com](http://www.rclinvestor.com). Visual aids relating to the call also will be available at the web site. A replay of the webcast will be available at the same site for a month following the call.

*Terminology*

**Available Passenger Cruise Days**

Available Passenger Cruise Days represent double occupancy per cabin multiplied by the number of cruise days for the period.

**Gross Yields**

Gross Yields represent total revenues per Available Passenger Cruise Day.

**Net Yields**

Net Yields represent Gross Yields excluding commissions, transportation and other expenses and onboard and other expenses per Available Passenger Cruise Day. We utilize Net Yields for revenue management purposes and believe that it is the most relevant measure of our pricing performance. We have not provided a quantitative reconciliation of projected Gross Yields to projected Net Yields due to the significant uncertainty in projecting the costs deducted to arrive at this measure. We utilize Net Yields to manage our business on a day-to-day basis and believe it is a more relevant measure of our performance. As such, we do not believe that reconciling information is meaningful.

**Gross Cruise Costs**

Gross Cruise Costs represent total operating expenses and marketing, selling and administrative expenses.

**Net Cruise Costs**

Net Cruise Costs represent Gross Cruise Costs excluding commissions, transportation and other expenses and onboard and other expenses. In measuring our ability to control costs in a manner that positively impacts net income, we believe changes in Net Cruise Costs to be the most relevant indicator of our performance. We have not provided a quantitative reconciliation of projected Gross Cruise Costs to projected Net Cruise Costs due to the significant uncertainty in projecting the costs deducted to arrive at this measure. We utilize Net Cruise Costs to manage our business on a day-to-day basis and believe it is a more relevant measure of our performance. As such, we do not believe that reconciling information is meaningful.

Royal Caribbean Cruises Ltd. is a global cruise vacation company that operates Royal Caribbean International and Celebrity Cruises, with a combined total of 29 ships in service and two under construction.
