Equity Grants to Jeffrey Hall

On May 27, 2008, the Compensation and Development Committee of the Board of Directors of Express Scripts, Inc. (the “Company”) approved awards of certain long term incentive compensation to Jeffrey Hall, Executive Vice President and Chief Financial Officer of the Company. The long term incentive compensation awards are comprised of a mix of performance shares, non-qualified stock options and restricted stock, granted under the Company’s 2000 Long-Term Incentive Plan, as follows:

Non-Qualified Stock Options	Restricted Stock	Performance Shares
76,331(1)	9,434	5,940

(1) The actual number of options granted were determined on a basis consistent with a method used by the Company to value options for financial reporting purposes under FAS 123R, using the fair market value of the Company’s stock on May 27, 2008.

These grants include both the initial employment grant and the 2008 annual grant for Mr. Hall.

Performance Shares. The performance shares are settled in shares of the Company’s common stock (the “Stock”) on a share-for-share basis. The number of shares of Stock to be delivered upon settlement of the performance shares is determined based upon the Company’s performance over a set period versus a peer group of companies selected by the Compensation Committee.

Specifically, the number of shares issued in settlement of the performance share awards will depend on where the Company’s performance for the period from January 1, 2008 through January 1, 2011 ranks in relation to the designated peer group in three equally-rated metrics:

- compound annual shareholder return (price appreciation plus reinvestment of monthly dividends and the compounding effect of dividends paid on reinvested dividends),
- compound annual growth in earnings per share (basic earnings per share before extraordinary items and discontinued operations), and
- average return on invested capital (income before extraordinary items (available for common stock) divided by total invested capital, which is the sum of total long-term debt, preferred stock, minority interest and total common equity).

In order for any shares to be issued under the performance share awards, the Company’s composite performance must rank in at least the 40th percentile in relation to its peer group. Assuming the Company’s composite performance for the performance period is at the 40th percentile, the actual shares of Stock issued will equal 35% of the award targeted for Mr. Hall; at the 50th percentile, the actual shares of Stock issued will equal 100% of the award targeted for Mr. Hall; and at the 80th percentile, the actual shares of Stock issued will equal 250% of the award targeted for Mr. Hall, which is the maximum number of shares that can be awarded. If the Company’s composite performance falls between these percentile rankings, the actual shares of Stock issued will be determined by interpolation.

Realization of the performance share awards and their actual value, if any, will depend on the applicable targets being met and the market value of the Stock on the date the performance share awards are settled.

The awards provide for certain rights in the event of termination of employment as a result of death, disability, retirement or termination by the Company without cause (as defined), but terminate in the event of termination of employment for any other reason prior to the last day of the performance period. Notwithstanding the foregoing, the awards provide that upon a change of control (as defined) prior to the last day of the performance period, participants who remain employed on the date of a change in control or who terminated earlier on account of death, disability or retirement will receive cash equal to the value of a portion of the Stock represented by the performance shares on the last trading day before the change in control, and that participants who were terminated earlier by the Company without cause will receive the cash value of the Stock represented by between 100% and 250% of the performance shares on the last trading day before the change in control.

The performance shares are subject to the terms of the 2000 LTIP and a Performance Share Agreement entered into with each participant. The 2000 LTIP is listed as Exhibits 10.5, 10.6 and 10.7, and the form of award agreement is listed as Exhibit 10.2, to this Current Report on Form 8 and each are hereby incorporated herein by this reference.

Stock Options . The non-qualified stock options (“options”) were granted with a specified exercise price of \$71.54 per share, which was equal to the fair market value of the Stock on the date of grant. The options vest and become exercisable in equal amounts annually over a period of three years on the anniversary date of the grant, and expire on the seventh anniversary of their grant. The actual value, if any, of the options will depend on the market value of the Stock on the date the options are exercised.

The options are subject to the terms and conditions of the 2000 LTIP as well as a Stock Option Award Agreement entered into with each participant. The 2000 LTIP is listed as Exhibits 10.5, 10.6 and 10.7, and the form of award agreement is listed as Exhibit 10.3, to this Current Report on Form 8-K and each are hereby incorporated herein by this reference.

Restricted Stock. The shares of restricted stock are initially subject to restrictions which prohibit the sale or transfer of the restricted stock. The restrictions on the restricted stock lapse as to one-third of each award annually on May 27, 2009, 2010, and 2011. Holders are entitled to the same rights to dividends on and to vote shares of restricted stock as other shareholders.

The restricted stock awards are subject to the terms and conditions of the 2000 LTIP as well as a Restricted Stock Agreement entered into with each participant. The 2000 LTIP is listed as Exhibits 10.5, 10.6 and 10.7, and the form of award agreement is listed as Exhibit 10.4, to this Current Report on Form 8-K and each are hereby incorporated herein by this reference.
