(1) MARKETABLE SECURITIES

Upon adoption of FASB No. 115, management has determined that the company's portfolio is best characterized as "Available-For-Sale". A corresponding increase in shareholders' equity has been effectuated. In accordance with the provisions of FASB No. 115, the adjustment in shareholders' equity to reflect the company's unrealized gains has been made net of the tax effect had these gains been realized.

The following tables summarize the company's investments as of :

MANAGEMENT'S DISCUSSION AND ANALYSIS RESULTS OF OPERATIONS AND FINANCIAL CONDITION

ITEM 2.

RESULTS OF OPERATIONS

Three months ended September 30, 2001 as compared with three months ended September 30, 2000.

For the three months ended September 30, 2001 total revenues were \$684,592 down from \$816,820 in 2000. Operating revenues were \$185,705 in 2001 up from \$167,211 in 2000. Dividend income was \$452,536 with a net interest expense of \$32,320 in 2001, as compared to dividend income of \$456,104 with a net interest expense of \$57,393 in 2000. In 2001, the Company had a net income of \$136,101 before income taxes versus a net income of \$78,739 before income taxes in 2000. The Company anticipates that it's sales of equipment and kits will become the major source of income for the Company.

Nine months ended September 30, 2001 as compared with nine months ended September 30, 2000.

For the nine months ended September 30, 2001, total revenues were \$2,011,806 down from \$2,174,599 in 2000. Operating revenues were \$464,699 down from \$529,208 in 2000. Dividend income was \$1,391,701 with a net interest expense of \$101,903, as compared to the dividend income of \$1,395,649 with a net interest expense of \$157,567 in 2000. In 2000, the Company had \$184,243 in capital gains vs. \$11,902 in 2001. In 2001, the Company had a net income of \$293,917 before income taxes versus \$112,331 before income taxes in 2000. Operations income in 2000 was greater than in 2001 because of direct sales of the BVA-100. The Company has adopted a policy that encourages leasing or renting of equipment to enable hospitals to test the equipment. This results in a sale of kits but a slower recognition of operating income from BVA sales.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2001 the Company had total assets of \$43,332,092 and total liabilities of \$8,770,367 with shareholders' equity of \$34,561,725. The Company has a net pre-taxed unrealized gain of \$19,863,758 and \$13,110,085 of net after tax unrealized capital gains on available-for-sale securities in its portfolio. This amount is included in the calculation of Total Shareholders' Equity. The Company's stock portfolio had a market value of \$42,379,751 with short-term loans of \$1,968,281 with 4,664,909 shares outstanding.

The Company has adequate resources for the current marketing level of its Blood Volume Analyzer as well as capital to sustain its localized semen and blood banking services. The Company is reviewing various options in regard to establishing a nationwide sales force as opposed to utilizing independent local dealer distribution networks for marketing the Blood Volume Analyzer. The Company is currently negotiating a possible agreement in the near future for distribution of the Blood Volume Analyzer in Japan. The Company has an instrument loaner reagent plan which requires use of the Company's reserves.

Under a sale or a lease plan, the Company receives income immediately on its equipment. The equipment loaner reagent plan permits a user to make a minimal initial capital commitment. This results in a slower return on capital expenditure for the Company. The Company is currently leasing its equipment

Edgar Filing: DAXOR CORP - Form 10-Q

directly. If the leasing program becomes more widely accepted, then the Company will attempt to arrange for leases through independent leasing companies, to whom it will sell the BVA-100. The Company is evaluating blood volume instrumentation management programs for hospitals. Under such a plan, the Company would provide equipment and personnel on a sub-contract basis. The Company will use its current financial reserves primarily for developing and marketing the Blood Volume Analyzer. The Company is evaluating various options to expand blood banking services in conjunction with the use of the Blood Volume Analyzer.

The Company did not file any reports on form 8-K.
