Ms. Giles attended the University of California, Davis, and received a Bachelor of Science degree in Biology.

Luis Peña joined Nuvelo in March, 2001, bringing over 16 years of experience in drug development. Mr. Peña joined Nuvelo from Theravance, Inc. (formerly Advanced Medicine Inc.), where he served as senior director of Product Development and helped build their development organization. Prior to Theravance, Mr. Peña held various positions in manufacturing, research and development during his 12 years at Genentech, Inc. There he participated in the discovery of TNKase, a thrombolytic approved for the treatment of acute myocardial infarction, and managed their cardiovascular development portfolio, which included tPA, TNK-tPA, VEGF and oral IIb/IIIa inhibitors. Mr. Peña attended San Francisco State University and the University of California, Berkeley and majored in Biochemistry.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, or the Exchange Act, requires our directors and officers and persons who beneficially own more than 10% of our common stock to file with the SEC initial reports of beneficial ownership and reports of changes in beneficial ownership of our common stock and other equity securities of ours. Officers, directors and greater than 10% beneficial owners are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Table of Contents

Based solely on review of the copies of such reports furnished to us and written representations from certain reporting persons, we believe that during the fiscal year ended December 31, 2002, all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% beneficial owners were met.

Item 11. Executive Compensation

The following table sets forth the compensation paid or accrued by us for the three fiscal years ended December 31, 2002, to or on behalf of our Chief Executive Officer, the four other most highly compensated executive officers and two additional individuals who would have been included but for the fact that they were not serving as executive officers at the end of 2002 (collectively referred to as our named executive officers).

Employment Agreements

In January 2001, we entered into an employment agreement with Dr. Love. Pursuant to the agreement, we are obligated to pay Dr. Love an initial annual salary of \$485,000. In addition, Dr. Love is entitled to participate in our management bonus pool, employee benefit plans maintained by us and in other benefits provided to our senior executives, including retirement and 401(k) plans, deferred compensation, medical and dental, annual vacation, paid holidays, sick leave and similar benefits.

In connection with Dr. Love's employment agreement, we also granted Dr. Love options to purchase an aggregate of 500,000 shares of our common stock, including:

an option under our 1995 Stock Option Plan to purchase 31,840 shares at an exercise price of \$12.56 per share, the fair market value of our common stock on the date of grant as determined under that plan, which shares become exercisable in four equal annual installments commencing one year after the date of grant, and

an option to purchase 468,160 shares at an exercise price of \$12.50 per share, the closing price on the date of grant, of which 150,000 shares became exercisable immediately and the remainder become exercisable in four equal annual installments commencing one year after the date of grant.

In the event of termination of Dr. Love's employment by us other than for cause or if there exists good reason for Dr. Love to terminate:

any options granted to Dr. Love in connection with this agreement or otherwise over the first four years of his employment, beginning January 11, 2001, will immediately become vested and exercisable;

Dr. Love's right to exercise his options will be extended by eighteen months;

Dr. Love will immediately receive a lump sum payment equal to twelve months of his then-current base salary; and

Dr. Love's health, disability and life insurance benefits and those for his family will continue for an additional twelve months.

For purposes of the employment agreement, "good reason" includes events such as the material reduction of Dr. Love's authority, duties, title or responsibilities, the material reduction of Dr. Love's salary, and termination of Dr. Love's employment within one year after a change of control. Dr. Love agreed that our recent merger with Variagenics does not constitute a change of control for purposes of defining good reason.

In the event of Dr. Love's death, the benefits described above shall be paid to his heirs. In the event Dr. Love is disabled for at least six consecutive months while employed by us, we may terminate Dr. Love, but must pay him the benefits described above.

As provided by the terms of Dr. Love's employment agreement, we have entered into a loan agreement with Dr. Love, pursuant to which he may borrow up to \$2.0 million from us. The loan agreement provides for interest on outstanding balances to accrue at the lowest applicable federal interest rate or such other higher rate of interest, if required, to constitute a market rate of interest as contemplated by the Rules and Regulations of the Financial Accounting Standards Board and the SEC. Interest accrues but is deferred and all interest and principal is due in January 2006. The employment agreement also provides that, at any time following his first year of employment but before the third anniversary of the beginning of his employment, so long as Dr. Love has not exercised his option to purchase 150,000 of the 500,000 shares described above, Dr. Love may forfeit the option to

Table of Contents

purchase 150,000 shares in exchange for \$2.0 million plus the accrued interest under the loan agreement, and the loan then becomes immediately due and payable.

In July 2002, pursuant to the loan agreement, we loaned Dr. Love \$2.0 million to repay a pre-existing loan from Dr. Rathmann to Dr. Love that had been made on February 1, 2001 in the amount of \$2.0 million. The \$2.0 million payment was made directly to Dr. Love and is considered a loan from us to Dr. Love under the same terms and conditions as the \$2.0 million loan provided for in Dr. Love's employment agreement.

Change of Control Arrangements

Dr. Love's employment agreement contains the change of control provisions described above. For purposes of this agreement, change of control means:

any event in which we sell, transfer or dispose of all or substantially all of our assets (or consummation of a similar transaction);

the dissolution or liquidation of Nuvelo; or

any merger, consolidation or transfer of securities of Nuvelo with, or into another corporation or entity, other than a merger, consolidation or transfer in which the holders of more than 50% of the shares of our capital stock immediately prior to such transaction continue to hold more than 50% of the total voting power of the surviving entity immediately after such transaction.

We have entered into severance agreements with Mr. Garcia, Ms. Fitzpatrick, Mr. Funk, Ms. Giles and Mr. Peña. We also had severance agreements with Dr. Bennett and Dr. Rin-Laures prior to their departures. Each of the severance agreements provides that, in the event we terminate an executive's employment other than for cause and other than as a result of executive's death or disability, or by the executive for good reason, within six months following the consummation of our merger with Variagenics, which we completed in January 2003, the executive will receive six months of salary continuation payments and six months of continued benefits coverage.

For purposes of the severance agreements, termination for cause generally means our termination of the executive as a result of the executive's gross negligence or willful misconduct in the performance of duties on our behalf where that gross negligence or willful misconduct has resulted or is likely to result in substantial and material damage to us or our subsidiaries, repeated unexplained or unjustified absence from Nuvelo, a material and willful violation of any federal or state law, executive's commission of any act of fraud with respect to us, or executive's conviction of a felony or a crime involving moral turpitude causing material harm to our standing and reputation.

For purposes of the severance agreements, good reason generally means the occurrence of one or more of the following events without the executive's consent:

any change in the executive's position with Nuvelo that materially reduces his or her duties or level of responsibility as in effect immediately preceding the consummation of the merger;

any reduction of the executive's base compensation (other than in connection with a general decrease in base salaries for most similarly situated employees of the company or a successor corporation); or

the relocation of our offices at which executive is principally employed immediately prior to the consummation of the merger to a location more than 30 miles from those offices.

All options granted under our 1995 Stock Option Plan, as amended, and our Directors Plan become immediately exercisable in the event of a change of control (as defined in that plan). Change of Control under these plans means:

an acquisition by any entity or group of beneficial ownership of more than 50% of our outstanding securities entitled to vote for the election of directors, or voting securities;

Table of Contents

the commencement by an entity or group of a tender offer (other than by us or one of our subsidiaries) for more than 50% of our outstanding voting securities;

a merger or consolidation in which the holders of our outstanding voting securities immediately prior to the merger hold less than 50% of the outstanding voting securities of the surviving or resulting corporation;

a transfer of all or substantially all of our assets other than to an entity of which we hold at least 80% of the voting securities; and

the election of the lesser of three directors or directors constituting a majority of our Board of Directors without the approval of the incumbent Board of Directors.

Our Board of Directors adopted a resolution providing that our recent merger with Variagenics does not constitute a change of control under these stock option plans.

In the event of an acquisition under our 2002 Equity Incentive Plan, the vesting of all options and restricted stock awards outstanding under the 2002 Plan will be accelerated and such awards will be fully exercisable. For purposes of the 2002 Plan, the term acquisition means:

the acquisition by any entity, person, or group of beneficial ownership, as that term is defined in Rule 13d-3 under the Exchange Act, of more than 50% of our outstanding voting securities;

the effective time of (1) a merger or consolidation of us with one or more corporations as a result of which the holders of our outstanding voting securities immediately prior to such merger hold less than 50% of the voting securities of the surviving or resulting corporation, or (2) a transfer of substantially all of our property or assets other than to an entity of which we own at least 50% of the voting securities; or

the election to our Board of Directors, without the recommendation or approval of the incumbent Board of Directors, of directors constituting a majority of the number of our directors then in office.

Option Grants in 2002

We granted options to our executive officers under our 1995 Stock Option Plan, as amended, and 2002 Equity Incentive Plan. The following tables show for the fiscal year ended December 31, 2002, certain information regarding options granted to, exercised by, and held at year end by our named executive officers:

(1) The securities underlying the options are shares of our common stock.

During the periods indicated above, none of the executive officers received any awards under any long-term incentive plan, and we do not have a pension plan.

COMPENSATION OF DIRECTORS

During 2002, each non-employee director earned \$6,250 for each Board meetings attended in person or by telephone subject to an overall cap of \$25,000 per year. During 2002, all non-employee directors also received fees of \$1,000 for each Committee meeting attended in person. Also, all Committee chairpersons received fees of \$6,000 per annum. Committee fees were not subject to the \$25,000 cap. Our directors who are also employees do not receive any director or committee fees. All directors are reimbursed for reasonable expenses incurred in attending Board and committee meetings.

We grant options to purchase shares of our common stock to our directors under our Non-Employee Director Stock Option Plan, as amended, or Directors Plan. Under the Directors Plan, each non-employee director receives an initial grant of options when they join our Board, and annual grants thereafter on the day of each annual meeting of stockholders. The initial grant, and each annual grant, gives each non-employee director the right to purchase up to 10,000 shares of our common stock. At each grant, the number of shares is determined by the lesser of (i) the number determined by dividing \$200,000 by the fair market value of our common stock on the date of grant or (ii) 10,000 shares. A non-employee director's initial award vests as to one-half of the underlying shares on the date of grant, and one-half of the remaining portion of the award vests on the dates of the next two annual stockholders' meetings. If a new non-employee director has not been a director for a year at the time of his or her first subsequent grant, then it becomes exercisable on the first anniversary of the date he or she joined our Board. All other subsequent option grants are exercisable in full on the date of grant.

Accordingly, Mr. McCarter, Dr. Formela, Ms. Pendergast, Mr. Vogelbaum and, if elected to our Board of Directors at the stockholders meeting, Dr. Chambon will each receive options to purchase up to 10,000 shares of our common stock immediately following this year's meeting.

Compensation Committee Interlocks and Insider Participation

During fiscal 2002, the Compensation Committee consisted of Dr. Baddour and Mr. Weist, neither of whom (i) was an officer or employee of us during 2002, (ii) was formerly an officer of us or any of our subsidiaries,

Table of Contents

or (iii) has engaged in any transactions described under the heading Certain Transactions, with the exception of Mr. Weist, who was our Chairman from March 1994 to February 1, 2000 and our President from May 1993 until March 1994.

**REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS
ON EXECUTIVE COMPENSATION**

Compensation Committee Report

During fiscal year 2002, the Compensation Committee comprised Dr. Baddour, as Chairperson, and Mr. Weist. The Compensation Committee's responsibilities include recommending to the Board the compensation for our executive officers, grants of stock options to our employees, and administering our stock option and employee stock purchase plans. The Compensation Committee bases its decisions on our executive compensation philosophy, which seeks to relate salaries, bonuses and stock option awards to our success in meeting annual and long-term performance goals, to reward individual achievement and to attract and retain qualified executives.

We previously set our executive officers' salaries in the low to mid-range compared to those with similar management positions in peer companies consisting primarily of other genomics and biotechnology companies. In an effort to attract additional executive officers with specific experience that we believe is necessary for our development as a biopharmaceutical company, we are setting new executive officer salaries in the mid to high salary range, as compared to similarly situated companies. The level of salaries paid to our executive officers also takes into account our technological achievements during the year, our success in entering into significant technology agreements with collaborators, as well as an evaluation of the individual performance and contribution of each executive to our performance for the year. Particular emphasis is placed on the individual officer's level of responsibility for and role in meeting our strategic, technological and financial objectives. Because of our stage of development, the Compensation Committee has not used either the profitability or the market value of our stock as a significant factor in consideration for setting executive officer salaries.

Bonuses

We award bonuses for accomplishments achieved during the past year. The Compensation Committee recommends to the Board the amount of the bonus, with advice from our management. The Compensation Committee makes its recommendations based upon an assessment of the individual's contributions during the year, compared to (but not restricted to) a list of goals previously approved by management and the Compensation Committee. The Compensation Committee also considers general business and economic factors relating to us in recommending the size of the bonus pool and adjusts bonuses based on those factors as well. We did not pay any bonuses for the fiscal year ended December 31, 2002.

Stock Options

Stock options awards are intended to align the interests of executives with the interests of the stockholders in our long-term performance. The Compensation Committee developed guidelines for executive stock option awards, in consultation with our management. The guidelines are based upon:

analysis of long-term incentive awards based on each individual executive's position;

responsibilities, performance and contribution to the achievement of our long-term goals; and

competitive stock option data from other genomics and biotechnology companies.

In addition, the Compensation Committee reviews the equity position of all executive officers on an annual basis and awards stock options to executive officers periodically.

Table of Contents

Chief Executive Officer's Compensation

Dr. Love's annual salary is \$583,000. Dr. Love's salary is not directly tied to our performance. However, his compensation, including stock options, takes into account our success in meeting our strategic, technological and financial objectives. Because of our stage of development, we have not used either the profitability or the market value of our stock as significant factors to be considered in setting Chief Executive Officer compensation.

Internal Revenue Code Section 162(m)

Under Section 162(m) of the Internal Revenue Code, the amount of compensation paid to certain executives that is deductible with respect to our corporate taxes is limited to \$1,000,000 annually. It is the current policy of the Compensation Committee to maximize, to the extent reasonably possible, our ability to obtain a corporate tax deduction for compensation paid to our executive officers to the extent consistent with the best interests of our company and our stockholders.

Table of Contents**STOCK PERFORMANCE GRAPH**

The following graph compares the annual percentage change in our cumulative total stockholder return on our common stock, for the period from January 1, 1998 through December 31, 2002, with the comparable return of three indexes: the Nasdaq Composite Index, the Nasdaq Biotechnology Index and the American Stock Exchange Biotech Index. We have not paid any dividends on our common stock, and no dividends are included in the representation of our performance. The graph assumes you invested \$100 in our common stock and in each of the indices on December 31, 1997. The stock price performance on the graph below is not necessarily indicative of future price performance.

Non-Stockholder Approved Equity Arrangements

On June 24, 2002, we granted an option to purchase 175,000 shares of common stock at an exercise price of \$1.89 per share to Nina Giles, our Vice President of Development, as an inducement to her commencement of employment with us. The option exercise price for this grant is equal to the closing sales price for our common stock on the last trading day prior to the date of grant. This option may be exercised for 30 days following her termination of employment (or one year in the event her employment is terminated as a result of her death or disability). This option has a 10 year term. This option vests in cumulative annual installments of 25%. In the event of a change of control (which has the same definition as under our 1995 Stock Option Plan, described on page 7), all of the option will become 100% vested and exercisable immediately. This option grant was not, and was not required to be, approved by our stockholders.

Item 13. Certain Relationships and Related Transactions

On August 6, 2001, we received a commitment from Dr. Rathmann to provide a line of credit to us of up to \$20.0 million in aggregate principal amount, available for draw down through July 24, 2003. The line of credit agreement was amended and restated as of April 3, 2002, and this description refers to the agreement as so amended and restated. Amounts outstanding under the line of credit are to bear interest at prime plus 1% and are payable in 48 equal monthly installments beginning upon the expiration date of the line of credit of August 5, 2003. The promissory note issued pursuant to the line of credit is convertible by mutual agreement by us and Dr. Rathmann into either (a) that number of shares of our common stock as shall equal the quotient obtained by dividing the aggregate principal and interest then outstanding under the note (i) by the average closing price of our common stock on the Nasdaq National Market as reported in The Wall Street Journal for the twenty trading days ending on the second trading day immediately prior to the day of such conversion, or (ii) in connection with an offering of our equity securities, by the per share price of the common stock at which such equity securities shall be offered for sale by us or (b) if within one month of the closing of any equity financing by us for aggregate gross proceeds in excess of \$10,000,000, the same equity securities issued by us in the financing, at the same purchase price, with the same exercise price, if any, at the same discount, if any, and otherwise on substantially the same terms and conditions. In the event of a change of control of us, the line of credit expires and Dr. Rathmann has no further obligation to make any advances to us. However, Dr. Rathmann agreed with us that our recent merger with Variagenics does not constitute a change of control for purposes of the line of credit.

During fiscal year 2002, we drew down \$10.0 million of the \$20.0 million line of credit. As of March 31, 2003, there was \$11.0 million aggregate principal amount, plus \$394,222 accrued and unpaid interest, outstanding under the line of credit, and \$9.0 million remained available for future draw-down.

Table of Contents

On July 8, 2002, pursuant to the employment agreement described above, we loaned Dr. Love \$2.0 million to repay a pre-existing loan from Dr. Rathmann to Dr. Love that had been made on February 1, 2001 in the amount of \$2.0 million. The \$2.0 million payment was made directly to Dr. Rathmann and is considered a loan from us to Dr. Love under the same terms and conditions as the \$2.0 million loan provided for in Dr. Love's employment agreement.
