NOTES TO SCHEDULE OF INVESTMENTS

- (+) Investments in debt securities by Lehman Brothers First Trust Income Opportunity Fund (the "Fund") are valued daily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include considerations such as: yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. If a valuation is not available from an independent pricing service, the Fund seeks to obtain quotations from principal market makers. If market quotations are not readily available, securities are valued by methods the Board of Trustees of the Fund (the "Board") has approved on the belief that they reflect fair value. Numerous factors may be considered when determining the fair value of a security, including available analyst, media or other reports, trading in futures or ADRs and whether the issuer of the security being fair valued has other securities outstanding. Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades. Securities with remaining maturities of 60 days or less are valued at amortized cost. This method involves valuing a portfolio security initially at its cost and thereafter assumes a constant amortization to maturity of any discount or premium.
- (#) At cost, which approximates market value.
- (##) At March 31, 2008, the cost of investments for U.S. federal income tax purposes was \$249,613,717. Gross unrealized appreciation of investments was \$1,866,363 and gross unrealized depreciation of investments was

Edgar Filing: LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND - Form N-Q

\$12,489,325, resulting in net unrealized depreciation of \$10,622,962, based on cost for U.S. federal income tax purposes.

- (++) Managed by an affiliate of Neuberger Berman Management Inc. and could be deemed an affiliate of the Fund
- (@) Neuberger Berman Prime Money Fund ("Prime Money") is also managed by Neuberger Berman Management Inc. and may be considered an affiliate since it has the same officers, Board members, and investment manager as the Fund and because, at times, the Fund may own 5% or more of the outstanding voting securities of Prime Money.
- (n) Restricted security subject to restrictions on resale under federal securities laws. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers under Rule 144A under the Securities Act of 1933, as amended, and have been deemed by the investment manager to be liquid. At March 31, 2008, these securities amounted to approximately \$47,744,091 or 31.3% of net assets applicable to common shareholders.
- (^^) Denotes a step-up bond: a zero coupon bond that converts to a fixed rate of interest at a designated future date.
- (u) Floating rate securities are securities whose yields vary with a designated market index or market rate. These securities are shown at their current rates as of March 31, 2008.
- (E) All or a portion of this security is on loan.
- (OO) All or a portion of this security is segregated in connection with obligations for interest rate swap contracts and/or security lending.
- (@@) At March 31, 2008, the Fund had outstanding interest rate swap contracts as follows:

				RATE TYPE	

SWAP COUNTER PARTY	NOTIONAL AMOUNT	TERMINATION DATE	FIXED-RATE PAYMENTS MADE BY THE FUND	VARIABLE- RATE PAYMENTS RECEIVED BY THE FUND (1)	ACCRUED NET INTEREST RECEIVABLE (PAYABLE)
Citibank, N.A.	\$45,000,000	January 28, 2011	2.92%	2.6775%	\$(1,213)

(1) 30 day LIBOR (London Interbank Offered Rate) at March 26, 2008.

The Fund adopted Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), effective January 1, 2008. In accordance with FAS 157, "fair value" is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. Various inputs are used in determining the value of the Fund's investments. FAS 157 established a three-tier hierarchy of inputs to

establish a classification of fair value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- o Level 1 - quoted prices in active markets for identical investments
- o Level 2 - other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- o Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of March 31, 2008:

VALUATION INPUTS	INVESTMENTS IN SECURITIES	OTHER FINANCIAL INSTRUMENTS*
Level 1 - Quoted Prices	\$ 10,540,919	\$-
