#### Independent Auditor's Report

To the Buckeye Investment Committee  
Buckeye Retirement Plan  
Memphis, Tennessee

We have audited the accompanying statements of net assets available for benefits of Buckeye Retirement Plan as of June 30, 2001 and 2000, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in

all material respects, the net assets available for benefits of Buckeye Retirement Plan at June 30, 2001 and 2000, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets held for investment purposes at end of year as of June 30, 2001 is presented for the purpose of complying with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and is not a required part of the basic financial statements. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

June 30, 2001 and 2000

## Note 1 - Description of Plan

The following description of Buckeye Retirement Plan provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

### General

Buckeye Retirement Plan (the "Plan") is a noncontributory defined contribution pension plan covering all eligible salaried and hourly employees, as defined in the plan document, of Buckeye Technologies Inc. and its wholly owned subsidiaries Buckeye Florida, Limited Partnership, Buckeye Florida Corporation, Buckeye Lumberton Inc., Buckeye Mt. Holly LLC, and BKI International Inc. (collectively the "Company"). Employees are eligible upon completion of 1,000 hours of service during their first year of employment or during any Plan year (July 1 to June 30). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### Contributions

Contributions made annually by the Company are computed based upon the following formula:

Contribution = (A+B)C A=1% B=.5% X number of years service not to exceed twenty (20) years. C=Plan year compensation. The minimum is 1 1/2% of eligible compensation and the maximum is 11% of compensation.

Contributions are generally funded in the quarter following the Plan's year end.

### Participant accounts

Each participant's account is credited with the allocation of the employer's contribution. The value of a participant's account is the contributions made on their behalf plus a proportionate interest in the investment earnings of the funds in which the contributions are invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

### Vesting

Participants are 100% vested in their accounts after completion of five years of credited service. In the event of death, disability, normal retirement (age 65) or if the Plan is discontinued, participants become 100% vested in their account balances.

### Payment of benefits

Participants may choose to receive account distributions either in the form of a lump sum payment or installments over a period of time as defined in the Plan Agreement. However, if the participant's vested balance does not exceed \$5,000, the Plan may distribute funds in the form of a lump sum payment without the consent of the participant.

### Notes to Financial Statements (Continued) June 30, 2001 and 2000

#### Note 1 - Description of Plan (continued)

##### Forfeitures

If an employee terminates before his or her account has become fully vested, such portion of the account is forfeited. Forfeitures are used to reduce future contributions by the Company.

##### Plan termination

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement.

#### Note 2 - Summary of significant accounting policies

##### Investments

Investments are stated at fair value and represent the Plan's share of the market value of fund holdings or are based upon quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

##### Benefit payments

Benefit payments to participants are recorded upon distribution.

##### Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions which affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

#### Note 3 - Investments

At June 30, 2001 and 2000, the Plan's investment assets were held in a trust account by Fidelity Management Trust Company and consist of an interest in the Buckeye Master Trust. The Master Trust also includes the investment assets of Buckeye Retirement Plus Savings Plan. The Master Trust was composed of the common stock of Buckeye Technologies Inc. and interests in ten mutual funds at June 30, 2001 and 2000.

## BUCKEYE RETIREMENT PLAN

Notes to Financial Statements (Continued)  
June 30, 2001 and 2000

### Note 5 - Tax status

The Plan has received a determination letter from the Internal Revenue Service stating that the Plan qualifies under the appropriate sections of the Internal Revenue Code (IRC), and is, therefore, not subject to tax under present income tax law. The Plan, which has been amended since receiving the determination letter, is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

### Note 6 - Concentration of market risk

The Plan has invested a significant portion of its assets in Buckeye Technologies Inc. common stock. This investment in Buckeye Technologies Inc. common stock approximates 18% of the Plan's net assets available for benefits as of June 30, 2001. As a result of this concentration, any significant reduction in the market value of this stock could adversely affect individual participant accounts and the net assets of the Plan.
