Note 1. Summary of Significant Accounting Policies

Business Overview

Healthcare Realty Trust Incorporated (the “Company”) is a real estate investment trust that integrates owning, managing, financing and developing income-producing real estate properties associated primarily with the delivery of outpatient healthcare services throughout the United States. The Company had investments of approximately \$3.2 billion in 197 real estate properties and mortgages as of June 30, 2015. The Company’s 196 owned real estate properties are located in 30 states and total approximately 14.1 million square feet. The Company provided property management services to approximately 9.5 million square feet nationwide.

Basis of Presentation

The Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements. However, except as disclosed herein, management believes there has been no material change in the information disclosed in the Notes to Consolidated Financial Statements included in the Annual Report on Form 10-K for the year ended December 31, 2014. All material intercompany transactions and balances have been eliminated in consolidation.

This interim financial information should be read in conjunction with the financial statements and Management’s Discussion and Analysis of Financial Condition and Results of Operations included in this report and in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014. Management believes that all adjustments of a normal, recurring nature considered necessary for a fair presentation have been included. In addition, the interim financial information does not necessarily represent or indicate what the operating results will be for the year ending December 31, 2015 for many reasons including, but not limited to, acquisitions, dispositions, capital financing transactions, changes in interest rates and the effects of other trends, risks and uncertainties.

Use of Estimates in the Condensed Consolidated Financial Statements

Preparation of the Condensed Consolidated Financial Statements in accordance with GAAP requires management to make estimates and assumptions that affect amounts reported in the Condensed Consolidated Financial Statements and accompanying notes. Actual results may differ from those estimates.

Fair Value of Derivative Financial Instruments

Derivative financial instruments are recorded at fair value on the Company's Condensed Consolidated Balance Sheets as other assets or other liabilities. The valuation of derivative instruments requires the Company to make estimates and judgments that affect the fair value of the instruments. Fair values of derivatives are estimated by pricing models that consider the forward yield curves and discount rates. The fair value of the Company's forward starting interest rate swap contracts are estimated by pricing models that consider foreign trade rates and discount rates. Such amounts and the recognition of such amounts are subject to significant estimates that may change in the future. See Note 4 for additional information.

New Accounting Pronouncements

Accounting Standards Update No. 2015-03

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs." This standard requires debt issuance costs to be reported in the balance sheet as a direct reduction from the face amount of the note in which it is directly related.

This standard is effective for the Company beginning on January 1, 2016 with early adoption permitted, on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Upon transition, the Company is required to comply with the applicable disclosures for a change in an accounting principle. The Company does not expect the adoption of this standard to have a material impact on the Company's consolidated financial position or cash flows.

Accounting Standards Update No. 2014-08

In April 2014, the FASB issued ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." This standard changes the requirements for reporting discontinued operations by raising the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations, and certain other disposals that do not meet the definition of a discontinued operation. The standard limits discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have (or will have) a major effect on an entity's operations and financial results.

This standard is effective for the Company on a prospective basis for annual periods beginning on January 1, 2015 and interim periods within that year. Early adoption was permitted but only for disposals (or classifications as held for sale) that had not been reported in financial statements previously issued. The Company adopted this standard on the effective date of January 1, 2015 and does not expect it to have a material impact on the Company's consolidated financial position or cash flows, but it could have a material impact on the presentation of the Consolidated Statements of Operations.

Accounting Standards Update No. 2014-09

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers", a comprehensive new revenue recognition standard that supersedes most existing revenue recognition guidance, including sales of real estate. This standard's core principle is that a company will recognize revenue when it transfers goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods and services. However, leasing contracts, representing the major source of the Company's revenues, are not within the scope of the new standard and will continue to be accounted for under existing standards.

This new standard is effective for the Company for annual and interim periods beginning on January 1, 2017 with early adoption prohibited. However, the FASB approved the deferral of the effective date for one year. The Company has not yet determined the effects on the Consolidated Financial Statements and related notes resulting from the adoption of this new standard.

Reclassifications

Certain amounts in the Company's Condensed Consolidated Balance Sheets have been reclassified for the current period presentation of assets held for sale and related liabilities.

Note 2. Real Estate Investments

2015 Acquisitions

Second Quarter

In June 2015, the Company acquired a 35,558 square foot medical office property in the state of Washington for a purchase price of \$13.9 million, including cash consideration of \$4.4 million and the assumption of debt of \$9.5

million (excluding a \$0.2 million fair value premium recorded upon acquisition). The mortgage note payable assumed by the Company bears a contractual annual interest rate of 5.75% and matures on March 3, 2020. The property is located on the Catholic Health Initiatives campus of Highline Medical Center, a 177-bed general acute care hospital. Upon acquisition, the property was 93% leased, with leases to the hospital comprising 69% of the rentable square feet.

First Quarter

In January 2015, the Company acquired a 110,679 square foot medical office building in California for a purchase price and cash consideration of \$39.3 million. The property is located adjacent to two hospital campuses, Kaiser Permanente, a 106-bed

hospital, and Washington Hospital Healthcare System, a 353-bed hospital. Upon acquisition, this property was 97% leased, with leases to the two hospitals comprising 59% of the rentable square feet.

2015 Dispositions

Second Quarter

In May 2015, the Company disposed of an off-campus, 5,323 square foot building located in Virginia in which the Company had a \$0.3 million net investment. The sales price and cash proceeds were approximately \$1.0 million. The Company recognized a \$0.7 million gain on the disposal of this property.

In June 2015, the Company disposed of an on-campus, 58,474 square foot medical office building and a 117,525 square foot surgical facility, located in Indiana, in which the Company had an aggregate net investment of \$50.5 million. The sales price for the buildings was approximately \$97.0 million comprised of net cash proceeds of \$93.3 million, closing costs of approximately \$0.6 million, and a tenant improvement allowance credit of \$3.1 million. The Company recognized a \$40.9 million gain on the disposal, net of straight-line rent receivables and other assets.

Subsequent Dispositions

In July 2015, the Company disposed of an on-campus, 63,914 square foot medical office building located in Pennsylvania pursuant to an exercised purchase option. The property was previously classified as held for sale and the Company had a \$7.8 million net investment as of June 30, 2015. The sales price and net cash proceeds were approximately \$18.4 million. The Company recognized a \$10.6 million gain upon the disposal of this property.

Assets Held for Sale

At June 30, 2015 and December 31, 2014, the Company had three and two properties classified as held for sale, respectively. Included in the three properties classified as held for sale as of June 30, 2015 are:

An off-campus medical office building located in Arizona that was reclassified to held for sale in connection with management's decision to sell the property. The Company expects that the property will be sold during 2015. The Company recorded an impairment charge of \$3.3 million in the first quarter of 2015 to record the property at estimated fair value less costs to sell, which was based on a purchase and sale agreement, a level 3 input, that was subsequently terminated.

An on-campus medical office building located in Pennsylvania. This property was sold in July 2015. See "Subsequent Dispositions" above for additional information.

An on-campus medical office building located in Georgia. This property is not currently under contract, but the Company is in discussions regarding a potential sale.

Discontinued Operations

The Company adopted Accounting Standards Update No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" during the first quarter of 2015. As of December 31, 2014, the Company had two properties classified as held for sale and recorded in discontinued operations. These two properties will remain classified as discontinued operations until the properties are sold. One of the properties was sold in July 2015. See "Subsequent Dispositions" above. During the three and six months ended June 30, 2015, the Company reclassified a property to held for sale upon management's decision to sell the property that did not meet the amended criteria as a discontinued operation. Therefore, the operating results of the property are not included in the table below which reflects the results of operations of the properties included in discontinued operations on the Company's Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2015 and 2014.

Note 3. Notes and Bonds Payable

2015 Activity

Second Quarter

On April 24, 2015, the Company issued \$250.0 million of unsecured senior notes due 2025 (the "Senior Notes due 2025") in a registered public offering. The Senior Notes due 2025 bear interest at 3.875%, payable semi-annually on May 1 and November 1, beginning November 1, 2015, and are due on May 1, 2025, unless redeemed earlier by the Company. The notes were issued at a discount of approximately \$0.2 million, which yielded a 3.885% interest rate per annum upon issuance. The Company incurred approximately \$2.3 million in debt issuance costs that are included in Other assets, which will be amortized to maturity using the effective interest method. See Note 4 for discussion regarding the concurrent termination of the four forward starting interest rate swaps and the related impact. The Senior Notes due 2025 have various financial covenants that are required to be met on a quarterly and annual basis.

On May 15, 2015, the Company redeemed its unsecured senior notes due 2017 at a redemption price equal to an aggregate of \$333.2 million, consisting of outstanding principal of \$300.0 million, accrued interest of \$6.4 million, and a "make-whole" amount of approximately \$26.8 million for the early extinguishment of debt. The unaccreted discount and unamortized costs on these notes of \$1.2 million was written off upon redemption. The Company recognized a loss on early extinguishment of debt of approximately \$28.0 million related to this redemption.

The following mortgage notes payable were repaid during the second quarter:

On April 1, 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.0% with outstanding principal of \$10.2 million. The mortgage note encumbered a 44,169 square foot medical office building located in the state of Washington.

On May 4, 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.41% with outstanding principal of \$16.3 million and accrued interest as of the redemption date of \$0.1 million. The mortgage note encumbered a 142,856 square foot medical office building located in Virginia.

On June 1, 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.25% with outstanding principal of \$4.0 million. The mortgage note encumbered a 29,423 square foot medical office building located in Texas.

On June 26, 2015, upon acquisition of a 35,558 square foot medical office property in the state of Washington, the Company assumed a \$9.5 million mortgage note payable (excluding a fair value premium adjustment of \$0.2 million). The mortgage note payable has a contractual interest rate of 5.75% (effective rate of 5.07%).

First Quarter

In January 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.45% and consisting of outstanding principal of \$15.0 million and accrued interest as of the redemption date of \$0.1 million. The mortgage note encumbered a 73,548 square foot medical office building located in the state of Washington.

Note 4. Derivative Financial Instruments

Risk Management Objective of Using Derivatives

In addition to operational risks which arise in the normal course of business, the Company is exposed to economic risks such as interest rate, liquidity, and credit risk. In certain situations, the Company may enter into derivative financial instruments such as interest rate swap and interest rate cap agreements to manage interest rate risk exposure arising from variable rate debt transactions that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's objective in using interest rate

derivatives is to manage its exposure to interest rate movements or its variable rate debt.

Cash Flow Hedges of Interest Rate Risk

Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without changing the underlying notional amount.

Notes to Condensed Consolidated Financial Statements - Continued

During the six months ended June 30, 2015, the Company entered into four forward starting interest rate swaps with a total notional value of \$225.0 million to hedge the risk of changes in the interest-related cash flows associated with the potential issuance of long-term debt. That debt was issued in April 2015, as discussed in Note 3, and the forward starting interest rate swaps were terminated. As a result, the Company realized a loss at the termination date which was deferred and will be amortized over the term of the Senior Notes due 2025. As of June 30, 2015, the Company did not have any outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk. The effective portion of changes in the fair value of derivatives designated as, and that qualify as, cash flow hedges is recorded in accumulated other comprehensive income or loss ("OCI") and is reclassified into earnings as interest expense in the period that the hedged forecasted transaction affects earnings. The effective portion of the Company's interest rate swaps that was recorded in the accompanying condensed consolidated statements of income for the three and six months ended June 30, 2015 was as follows (in thousands):

(Dollars in thousands)	Location	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015
Loss on forward starting interest rate swap agreements recognized in OCI	OCI	\$(961) \$(1,684)
Amount of loss reclassified from accumulated OCI into Income (effective portion)	Interest Expense	\$(31) \$(31)
Amount of gain (loss) recognized in income on derivative (ineffective portion and amount excluded from effectiveness testing)	—	\$0	\$0

The Company estimates that an additional \$0.2 million will be reclassified from accumulated other comprehensive loss as an increase to interest expense over the next 12 months. No gain or loss was recognized related to hedge ineffectiveness or to amounts excluded from effectiveness testing on the Company's cash flow hedges during the six months ended June 30, 2015.

Note 5. Commitments and Contingencies

Legal Proceedings

The Company is, from time to time, involved in litigation arising in the ordinary course of business. The Company is not aware of any pending or threatened litigation that, if resolved against the Company, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Redevelopment Activity

The Company is in the process of redeveloping two medical office buildings in Tennessee and began constructing an expansion of one of the buildings in the second quarter of 2015. The Company spent approximately \$12.4 million on these properties through June 30, 2015, including the acquisition of a land parcel for \$4.3 million on which the Company is building a parking garage. The total estimated budget of the redevelopment of these properties is expected to be \$51.8 million and the project is expected to be completed in the first quarter of 2017.

The Company is in the process of redeveloping a medical office building in Alabama, which includes the construction of a parking garage. Construction began in the second quarter of 2015. The total redevelopment budget is expected to be \$15.4 million, of which \$3.1 million has been spent as of June 30, 2015. Construction is expected to be completed in the fourth quarter of 2015.

The table below details the Company's construction activity as of June 30, 2015. The information included in the table below represents management's estimates and expectations at June 30, 2015, which are subject to change. The Company's disclosures regarding certain projections or estimates of completion dates may not reflect actual results.

Casualty Loss

The Company owns a medical office building in Oklahoma that sustained damage from a tornado on May 6, 2015. As of June 30, 2015, the Company estimated its expenditures related to returning the property to its previous operating condition to be approximately \$2.2 million. The Company estimates recoveries for restoration costs of approximately \$2.1 million. In addition, as of June 30, 2015, the Company estimated that it will receive insurance proceeds related to lost rental revenue of approximately \$0.2 million for the period of May 6, 2015 to June 30, 2015. This amount was recognized in rental income on the Company's Condensed Consolidated Statements of Operations. The Company believes that it is probable that it will recover any losses due to business interruption and expects all repairs to be completed and tenants to return to occupancy throughout the remainder of the year.

Common Stock Dividends

During the first six months of 2015, the Company declared and paid common stock dividends totaling \$0.60 per share. On August 4, 2015, the Company declared a quarterly common stock dividend in the amount of \$0.30 per share payable on August 28, 2015 to stockholders of record on August 17, 2015.

Accumulated Other Comprehensive Income (Loss)

During the six months ended June 30, 2015, the Company reclassified \$2.5 million from accumulated other comprehensive loss, which is included in stockholders' equity on the Consolidated Balance Sheets, to net income as a result of the termination of the defined benefit pension plan. See Note 7 for more information regarding the termination of the defined benefit pension plan. Also, during the six months ended June 30, 2015, the Company recorded an increase to accumulated other comprehensive loss of \$1.7 million, as a result of the settlement and payment of forward-starting interest rate swaps. This amount will be reclassified out of accumulated other comprehensive loss impacting net income over the 10-year term of the associated senior note issuance. See Note 4 for more information regarding the Company's forward-starting interest rate swaps.

The following table represents the changes in balances of each component and the amounts reclassified out of accumulated other comprehensive income (loss) related to the Company during the six months ended June 30, 2015 and 2014:

Incentive Plans

In May 2015, the Company's shareholders approved the 2015 Employees Stock Incentive Plan (the "Incentive Plan") which authorized the Company to issue up to 3,500,000 shares of common stock to plan participants. The Incentive Plan is administered by the Compensation Committee of the Company's Board of Directors and will continue until terminated by the Company's Board of Directors.

The Company has various stock-based incentive plans for its employees and directors. Awards under these plans include nonvested common stock issued to employees and the Company's directors. During the six months ended June 30, 2015 and 2014, the Company issued 112,269 and 128,199 shares of nonvested common stock, respectively, to participants under these incentive plans and withheld 10,119 and 16,170 shares of common stock, respectively, from participants to pay estimated withholding taxes related to shares that vested.

A summary of the activity under the stock-based incentive plans for the three and six months ended June 30, 2015 and 2014 is included in the table below.

Note 7. Defined Benefit Pension Plan

Effective May 5, 2015, the Company terminated its Executive Retirement Plan. The Company will settle benefits under the plan by paying the lump sum amounts to the four plan participants. In accordance with Section 409A of the Internal Revenue Code, these amounts will be paid no earlier than twelve and no later than twenty-four months following the termination date. The Second Amendment to the Second Amended and Restated Executive Retirement Plan (the "Termination Amendment"), which provides for the termination of the plan, is incorporated by reference into this Quarterly Report on Form 10-Q. Additional information regarding the Executive Retirement Plan can be found in the Company's definitive proxy statement filed with the Securities and Exchange Commission in connection with the Company's annual meeting of shareholders held on May 12, 2015.

At June 30, 2015, the Company recognized a total benefit obligation of \$19.6 million in connection with the termination of the Executive Retirement Plan and recorded a charge in the second quarter of 2015 of approximately \$5.3 million, inclusive of the acceleration of \$2.5 million recorded in accumulated other comprehensive loss on the Company's Condensed Consolidated Balance Sheets that was being amortized. The charge includes amounts resulting from assumed additional years of service for two plan participants who have not reached age 65 and payments associated with FICA and other tax obligations.

The Company's chairman and chief executive officer, Mr. David Emery, is the only named executive officer that is a participant under the plan. As a result of the termination of the plan, Mr. Emery will receive a lump sum amount equal to his accrued benefit under the plan of approximately \$14.4 million in May 2016. The Company expects that Mr. Emery and the other officer participants will take the settlement payments in Company stock, but they can elect to receive cash.

The preceding summary is qualified in its entirety by the full text of the Termination Amendment and, in the event of any discrepancy, the text of the Termination Amendment shall control.

Net periodic benefit cost recorded related to the Company's pension plan for the three and six months ended June 30, 2015 and 2014 is detailed in the following table.

Note 8. Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practical to estimate that value.

Cash and cash equivalents - The carrying amount approximates fair value.

Mortgage notes receivable - The fair value of mortgage notes receivable is estimated based either on cash flow analyses at an assumed market rate of interest or at a rate consistent with the rates on mortgage notes acquired by the Company recently.

Borrowings under the unsecured credit facility due 2017 - The carrying amount approximates fair value because the borrowings are based on variable market interest rates.

Senior unsecured notes payable - The fair value of notes and bonds payable is estimated using cash flow analyses, based on the Company's current interest rates for similar types of borrowing arrangements.

Mortgage notes payable - The fair value is estimated using cash flow analyses, based on the Company's current interest rates for similar types of borrowing arrangements.

The table below details the fair values and carrying values for notes and bonds payable and mortgage notes receivable at June 30, 2015 and December 31, 2014.

(Dollars in millions)	June 30, 2015		December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Notes and bonds payable ⁽¹⁾	\$1,388.8	\$1,381.1	\$1,403.7	\$1,438.8
Mortgage notes receivable ⁽¹⁾	\$1.9	\$1.9	\$1.9	\$1.9

(1) Level 3 - Fair value derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Disclosure Regarding Forward-Looking Statements

This report and other materials the Company has filed or may file with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made, or to be made, by management of the Company, contain, or will contain, disclosures that are "forward-looking statements." Forward-looking statements include all statements that do not relate solely to historical or current facts and can be identified by the use of words such as "may," "will," "expect," "believe," "anticipate," "target," "intend," "plan," "estimate," "project," "continue," "should," comparable terms. These forward-looking statements are based on the current plans and expectations of management and are subject to a number of risks and uncertainties, including the risks, as described in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, that could significantly affect the Company's current plans and expectations and future financial condition and results.

The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Stockholders and investors are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in the Company's filings and reports, including, without limitation, estimates and projections regarding the performance of development projects the Company is pursuing.

For a detailed discussion of the Company's risk factors, please refer to the Company's filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the year ended December 31, 2014.

The purpose of this Management's Discussion and Analysis ("MD&A") is to provide an understanding of the Company's consolidated financial condition, results of operations and cash flows by focusing on the changes in certain key measures from year to year. MD&A is provided as a supplement to, and should be read in conjunction with, the Company's Condensed Consolidated Financial Statements and accompanying notes. MD&A is organized in the following sections:

Liquidity and Capital Resources

- Trends and Matters Impacting Operating Results

Results of Operations

Liquidity and Capital Resources

Sources and Uses of Cash

The Company's primary sources of cash include rent and interest receipts from its real estate and mortgage portfolio based on contractual arrangements with its tenants, sponsors and borrowers, borrowings under the unsecured credit facility due 2017 ("Unsecured Credit Facility"), proceeds from the sales of real estate properties, the repayment of mortgage notes receivable, and proceeds from public or private debt or equity offerings.

The Company expects to continue to meet its liquidity needs, including funding additional investments, paying dividends, and funding debt service through cash on hand, cash flows from operations, and the cash flow sources described above. The Company had unencumbered real estate assets with a gross book value of approximately \$2.9 billion at June 30, 2015, of which a portion could serve as collateral for secured mortgage financing. The Company believes that its liquidity and sources of capital are adequate to satisfy its cash requirements. The Company cannot, however, be certain that these sources of funds will be available at a time and upon terms acceptable to the Company in sufficient amounts to meet its liquidity needs.

Investing Activities

Cash flows provided by investing activities for the six months ended June 30, 2015 were approximately \$19.8 million. Below is a summary of the significant investing activities.

•The Company acquired two real estate properties during the six months ended June 30, 2015 as listed below:

In January 2015, the Company acquired a 110,679 square foot medical office building in California for a purchase price and cash consideration of \$39.3 million. The property is located adjacent to two hospital campuses, Kaiser Permanente, a 106-bed hospital, and Washington Hospital Healthcare System, a 353-bed hospital. Upon acquisition, this property was 97% leased, with leases to the two hospitals comprising 59% of the rentable square footage.

In June 2015, the Company acquired a 35,558 square foot medical office property in the state of Washington for a purchase price of \$13.9 million, including cash consideration of \$4.4 million and the assumption of debt of \$9.5 million (excluding a \$0.2 million fair value premium recorded upon acquisition). The mortgage note payable assumed by the Company bears a contractual interest rate of 5.8% and matures on March 3, 2020. The property is located on the same Catholic Health Initiatives campus of Highline Medical Center, a 177-bed general acute care hospital where the Company purchased an on-campus medical office building in

Table of Contents

December 2014. Upon acquisition, the property was 93% leased, with leases to the hospital comprising 69% of the rentable square feet.

The Company disposed of two properties in Indiana, an on-campus medical office building and a surgical facility, and a building in Virginia in which the Company had an aggregate net investment of \$50.8 million, generating net cash proceeds of \$94.3 million.

The Company is in the process of redeveloping two medical office buildings in Tennessee and began constructing an expansion of one of the buildings in the second quarter of 2015. The Company spent approximately \$12.4 million on these properties through June 30, 2015, including the acquisition of a land parcel for \$4.3 million on which the Company is building a parking garage. The total estimated budget of the redevelopment of these properties is expected to be \$51.8 million and the project is expected to be completed in the first quarter of 2017.

- The Company is in the process of redeveloping a medical office building in Alabama, which includes the construction of a parking garage. Construction began in the second quarter of 2015. The total redevelopment budget is expected to be \$15.4 million, of which \$3.1 million has been spent as of June 30, 2015. Construction is expected to be completed in the fourth quarter of 2015.

Subsequent Dispositions

In July 2015, the Company disposed of an on-campus, 63,914 square foot medical office building located in Pennsylvania pursuant to an exercised purchase option. The property was previously classified as held for sale and the Company had a \$7.8 million net investment as of June 30, 2015. The sales price and net cash proceeds were approximately \$18.4 million. The Company recognized a \$10.6 million gain upon the disposal of this property.

Financing Activities

Cash flows used in financing activities for the six months ended June 30, 2015 were approximately \$82.7 million. Inflows from accessing the debt and equity markets totaled \$363.2 million, net of costs incurred. Aggregate cash outflows totaled approximately \$445.9 million primarily associated with dividends paid to common stockholders and repayments of indebtedness. See Notes 3, 4 and 6 to the Condensed Consolidated Financial Statements for more information on capital markets and financing activities.

Changes in Debt Structure

On April 24, 2015, the Company issued \$250.0 million of unsecured senior notes due 2025 (the "Senior Notes due 2025") in a registered public offering. The Senior Notes due 2025 bear interest at 3.875%, payable semi-annually on May 1 and November 1, beginning November 1, 2015, and are due on May 1, 2025, unless redeemed earlier by the Company. The notes were issued at a discount of approximately \$0.2 million, which yielded a 3.885% interest rate per annum upon issuance. The Company incurred approximately \$2.3 million in debt issuance costs that are included in Other assets, which will be amortized to maturity. Concurrent with this transaction, the Company settled four forward starting swap agreements for \$1.7 million. The Senior Notes due 2025 have various financial covenants that are required to be met on a quarterly and annual basis.

On May 15, 2015, the Company redeemed its unsecured senior notes due 2017 at a redemption price equal to an aggregate of \$333.2 million, consisting of outstanding principal of \$300.0 million, accrued interest of \$6.4 million, and a "make-whole" amount of approximately \$26.8 million for the early extinguishment of debt. The unaccreted discount and unamortized costs on these notes of \$1.2 million was written off upon redemption. The Company recognized a loss on early extinguishment of debt of approximately \$28.0 million related to this redemption.

The following mortgage notes payable were repaid during the six months ended June 30, 2015:

Edgar Filing: HEALTHCARE REALTY TRUST INC - Form 10-Q

In January 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.45% with outstanding principal of \$15.0 million and accrued interest as of the redemption date of \$0.1 million. The mortgage note encumbered a 73,548 square foot medical office building located in the state of Washington.

On April 1, 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.0% with outstanding principal of \$10.2 million. The mortgage note encumbered a 44,169 square foot medical office building located in the state of Washington.

Table of Contents

On May 4, 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.41% with outstanding principal of \$16.3 million and accrued interest as of the redemption date of \$0.1 million. The mortgage note encumbered a 142,856 square foot medical office building located in Virginia.

On June 1, 2015, the Company repaid in full a mortgage note payable bearing an interest rate of 5.25% with outstanding principal of \$4.0 million. The mortgage note encumbered a 29,423 square foot medical office building located in Texas.

On June 26, 2015, upon acquisition of a 35,558 square foot medical office property in the state of Washington, the Company assumed a \$9.5 million mortgage note payable (excluding a fair value premium adjustment of \$0.2 million). The mortgage note payable has a contractual interest rate of 5.75% (effective rate of 5.07%).

As of June 30, 2015, the Company's outstanding balance on the Unsecured Credit Facility was \$158.0 million, with a remaining borrowing capacity of approximately \$542.0 million. The Company's leverage ratio [debt divided by (debt plus stockholders' equity less intangible assets plus accumulated depreciation)] was approximately 41.6%.

The Company's various debt agreements contain certain representations, warranties, and financial and other covenants customary in such debt agreements. Among other things, these provisions require the Company to maintain certain financial ratios and minimum tangible net worth, and impose certain limits on the Company's ability to incur indebtedness and create liens or encumbrances. At June 30, 2015, the Company was in compliance with the financial covenant provisions under all of its various debt instruments.

Common Stock Issuances

During the six months ended June 30, 2015, the Company sold 1,445,114 shares of common stock under its at-the-market equity offering program, generating \$39.5 million in net proceeds at prices ranging from \$26.35 to \$29.15 per share (weighted average of \$27.78 per share). Of this amount, the Company sold 304,752 shares of common stock during the second quarter of 2015 generating \$8.3 million in net proceeds at prices ranging from \$27.04 to \$28.00 per share (weighted average of \$27.77 per share).

The Company's existing sales agreements with four investment banks allow sales under this program of up to 9,000,000 shares of common stock, with 936,525 authorized shares remaining available to be sold under the these agreements as of July 31, 2015.

Operating Activities

Cash flows provided by operating activities increased from \$51.2 million for the six months ended June 30, 2014 to \$67.8 million for the six months ended June 30, 2015. Several items impact cash flows from operations including, but not limited to, cash generated from property operations, interest payments and the timing related to the payment of invoices and other expenses and receipts of tenant rent.

The Company may from time to time sell additional properties and redeploy cash from property sales and mortgage repayments into new investments. To the extent revenues related to the properties being sold and the mortgages being repaid exceed income from these new investments, the Company's results of operations and cash flows could be adversely affected.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that are reasonably likely to have a current or future material effect on the Company's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

New Accounting Pronouncements

See Note 1 to the Company's Condensed Consolidated Financial Statements accompanying this report for information on new accounting standards not yet adopted. The Company is still evaluating the impact of these new standards.

Trends and Matters Impacting Operating Results

Management monitors factors and trends important to the Company and the REIT industry to gauge the potential impact on the operations of the Company. In addition to the matters discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, below are some of the factors and trends that management believes may impact future operations of the Company.

Table of Contents

Expiring Leases

The Company expects that approximately 10% to 20% of the leases in its multi-tenanted portfolio will expire each year in the ordinary course of business. There are 411 leases that have expired, or will expire during 2015 including those in holdover. Approximately 89% of the leases expiring in 2015 are located in buildings on hospital campuses, are distributed throughout the portfolio and are not concentrated with any one tenant, health system or market area. The Company typically expects 75% to 90% of multi-tenant property leases to renew upon expiration, and the renewals for the first six months of the year are within this range.

Operating Expenses

The Company has historically experienced increases in property taxes throughout its portfolio as a result of increasing assessments and tax rates levied across the country. The Company continues its efforts to appeal property tax increases and manage the impact of the increases. In addition, the Company has historically incurred variability in portfolio utilities expense based on seasonality with the first and third quarters usually reflecting greater amounts. The effects of these operating expense increases are mitigated in leases that have provisions for operating expense reimbursement. As of June 30, 2015, 83% of the Company's multi-tenant leased square footage allows for some recovery of operating expenses, with 50% recovering all allowable expenses.

Termination of Defined Benefit Pension Plan

The Company has had a defined benefit pension plan, referred to elsewhere in this report as the "Executive Retirement Plan", since its inception that provides benefits for three founding officers and the surviving spouse of another founding officer. No participants have been added to the plan since 1994. The plan is subject to non-cash valuation fluctuations each year based on changes in mortality assumptions and changing discount rates. Given these fluctuations and the applicability of the plan to only a small number of Company employees, the Company terminated the plan to eliminate a level of volatility and uncertainty to the Company's financial results. See Note 7 in this Form 10-Q for additional information regarding the plan termination and the future payments of benefits to the plan participants.

Casualty Loss

The Company owns a medical office building in Oklahoma that sustained damage from a tornado on May 6, 2015. As of June 30, 2015, the Company estimated its expenditures related to returning the property to its previous operating condition to be approximately \$2.2 million. The Company estimates recoveries for restoration costs of approximately \$2.1 million. In addition, as of June 30, 2015, the Company estimated that it will receive insurance proceeds related to lost rental revenue of approximately \$0.2 million for the period of May 6, 2015 to June 30, 2015. This amount was recognized in rental income on the Company's Condensed Consolidated Statements of Operations. The Company believes that it is probable that it will recover any losses due to business interruption and expects all repairs to be completed and tenants to return to occupancy throughout the remainder of the year.

Non-GAAP Financial Measures

Management believes that net income, as defined by GAAP, is the most appropriate earnings measurement. However, management considers certain non-GAAP financial measures to be useful supplemental measures of the Company's operating performance. A non-GAAP financial measure is generally defined as one that purports to measure historical or future financial performance, financial position or cash flows, but excludes or includes amounts that would not be so adjusted in the most comparable GAAP measure. Set forth below are descriptions of the non-GAAP financial measures management considers relevant to the Company's business and useful to investors, as well as reconciliations of these measures to the most directly comparable GAAP financial measures.

The non-GAAP financial measures presented herein are not necessarily identical to those presented by other real estate companies due to the fact that not all real estate companies use the same definitions. These measures should not be considered as alternatives to net income (determined in accordance with GAAP), as indicators of the Company's financial performance, or as alternatives to cash flow from operating activities (determined in accordance with GAAP)

as measures of the Company's liquidity, nor are these measures necessarily indicative of sufficient cash flow to fund all of the Company's needs. Management believes that in order to facilitate a clear understanding of the Company's consolidated historical operating results, these measures should be examined in conjunction with net income as presented in the Condensed Consolidated Financial Statements and other financial data included elsewhere in this report.

Funds from Operations

Funds from operations ("FFO") and FFO per share are operating performance measures adopted by the National Association of Real Estate Investment Trusts, Inc. ("NAREIT"). NAREIT defines FFO as the most commonly accepted and reported measure of a REIT's operating performance equal to "net income (computed in accordance with GAAP), excluding gains (or losses)

Table of Contents

from sales of property, plus depreciation and amortization related to real estate properties, and after adjustments for unconsolidated partnerships and joint ventures.” The Company follows the NAREIT definition in calculating and presenting FFO and FFO per share.

Management believes FFO and FFO per share to be supplemental measures of a REIT’s performance because they provide an understanding of the operating performance of the Company’s properties without giving effect to certain significant non-cash items, primarily depreciation and amortization expense. Historical cost accounting for real estate assets in accordance with GAAP assumes that the value of real estate assets diminishes predictably over time. However, real estate values instead have historically risen or fallen with market conditions. The Company believes that by excluding the effect of depreciation, amortization and gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO and FFO per share can facilitate comparisons of operating performance between periods. The Company reports FFO and FFO per share because these measures are observed by management to also be the predominant measures used by the REIT industry and by industry analysts to evaluate REITs and because FFO per share is consistently reported, discussed, and compared by research analysts in their notes and publications about REITs. For these reasons, management has deemed it appropriate to disclose and discuss FFO and FFO per share. However, FFO does not represent cash generated from operating activities determined in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs. FFO should not be considered as an alternative to net income attributable to common stockholders as an indicator of the Company’s operating performance or as an alternative to cash flow from operating activities as a measure of liquidity.

FFO for the three and six months ended June 30, 2015 compared to the same periods in 2014 was primarily impacted by the various acquisitions and dispositions during the period, the effects of capital market transactions and the results of operations of the portfolio from period to period. FFO for the three and six months ended June 30, 2015 was negatively impacted by \$28.0 million, or \$0.28 per common share, as a result of the extinguishment of debt and \$5.3 million, or \$0.05 per common share, as a result of the termination of the Executive Retirement Plan. FFO for the three and six months ended June 30, 2014 was positively impacted by \$1.9 million, or \$0.02 per common share, by a cash reimbursement for certain operating expenses paid by the Company for years 2006 through 2013.

The table below reconciles FFO to net income attributable to common stockholders for the three and six months ended June 30, 2015 and 2014:

Same Store Net Operating Income

Net operating income ("NOI") and same store NOI are non-GAAP historical financial measures of performance. Management considers same store NOI a supplemental measure because it allows investors, analysts and Company management to measure unlevered property-level operating results. The Company defines NOI as operating revenues (property operating revenue, single-tenant net lease revenue, and property lease guaranty revenue) less property operating expenses related specifically to the property portfolio. NOI excludes straight-line rent, general and administrative expenses, interest expense, depreciation and amortization, gains and losses from property sales, property management fees and other revenues and expenses not specifically related to the property portfolio. Same store NOI is historical and not necessarily indicative of future results.

The following table reflects the Company's same store NOI for the three months ended June 30, 2015 and 2014.

(Dollars in thousands)	Number of Properties	Investment at June 30, 2015	Same Store NOI for the Three Months Ended June 30,	
			2015	2014
Multi-tenant Properties	127	\$2,006,981	\$36,014	\$33,398
Single-tenant Net Lease Properties	32	455,212	11,591	11,070
Total	159	\$2,462,193	\$47,605	\$44,468

Properties included in the same store analysis are generally stabilized properties that have been included in operations and are consistently reported as leased and stabilized properties for the duration of the year-over-year comparison period presented. Accordingly, properties that were recently acquired or disposed of, and properties classified as held for sale are excluded from the same store analysis. In addition, the Company excludes properties that have less than 60% occupancy or that experience a loss of occupancy over 30% in a single quarter that is expected to continue for a period of at least two quarters.

The following tables reconcile same store NOI to the respective line items in the Condensed Consolidated Statements of Operations and the same store property count to the total owned real estate portfolio:

Results of Operations

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

The Company's results of operations for the three months ended June 30, 2015 compared to the same period in 2014 were significantly impacted by acquisitions, dispositions, impairments recorded, gains on sales of real estate, capital markets transactions and changes due to the Company's adoption of Accounting Standards Update ("ASU") No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity."

Revenues

Rental income increased \$6.2 million, or 6.9%, to approximately \$95.5 million for the three months ended June 30, 2015 compared to \$89.3 million in the prior year period and is comprised of the following:

	Three Months Ended June 30,		Change		
(Dollars in thousands)	2015	2014	\$	%	
Property operating	\$75,470	\$71,029	\$4,441	6.3	%
Single-tenant net lease	17,505	15,746	1,759	11.2	%
Straight-line rent	2,475	2,504	(29)	(1.2)	%
Total rental income	\$95,450	\$89,279	\$6,171	6.9	%

Property operating income increased \$4.4 million, or 6.3%, from the prior year period as a result of the following activity:

- Acquisitions in 2014 and 2015 contributed \$2.9 million.
- Leasing activity including contractual rent increases contributed \$1.6 million.
- Conversion from single-tenant net lease caused an increase of \$0.2 million.
- Conversion to single-tenant net lease caused a decrease of \$0.3 million.

Single-tenant net lease revenue increased \$1.8 million, or 11.2%, from the prior year period as a result of the following activity:

- The Company's 2014 acquisition contributed \$1.0 million.
- Leasing activity including contractual rent increases contributed \$0.6 million.
- Conversion to property operating income caused a decrease of \$0.3 million.
- Conversion from property operating income caused an increase of \$0.5 million.

Mortgage interest income decreased \$0.9 million, or 96.8%, from the prior year period as a result of the Company's 2014 acquisition of a property in Oklahoma affiliated with Mercy Health previously funded under a construction mortgage note receivable.

Expenses

Property operating expenses increased \$0.3 million, or 0.9%, for the three months ended June 30, 2015 compared to the prior year period as a result of the following activity:

•The Company's 2014 and 2015 acquisitions caused an increase of \$1.1 million.

22

Table of Contents

The Company experienced increases in security expense due to the refund received in the prior year of approximately \$0.2 million and compensation-related expenses of approximately \$0.1 million.

The Company experienced overall decreases in utilities of approximately \$0.4 million and real estate taxes of approximately \$0.8 million.

General and administrative expenses increased approximately \$1.1 million, or 18.6%, for the three months ended June 30, 2015 compared to the prior year period primarily due to compensation-related expenses of \$1.0 million. Depreciation expense increased \$2.1 million, or 8.4%, for the three months ended June 30, 2015 compared to the prior year period. Properties acquired in 2014 and 2015 contributed an increase of \$1.2 million. The remaining \$0.9 million increase is related to various building and tenant improvement expenditures.

Other income (expense)

In 2015, the Company recorded gains on the sale of three properties upon disposition of approximately \$41.5 million. The gains are included in Income from Continuing Operations in the Company's Condensed Consolidated Statements of Operations. Prior to the Company's January 1, 2015 adoption of ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity," this impairment charge would have been recorded in discontinued operations.

Interest expense decreased \$0.9 million for the three months ended June 30, 2015 compared to the prior year period.

The components of interest expense are as follows:

	Three Months Ended June 30,		Change		
(Dollars in thousands)	2015	2014	\$	%	
Contractual interest	\$16,289	\$17,020	\$(731)	(4.3))%
Net discount/premium accretion	123	252	(129)	(51.2))%
Deferred financing costs amortization	803	794	9	1.1	%
Interest rate swap amortization	31	—	31	—	%
Interest cost capitalization	(33)) —	(33)) —	%
Total interest expense	\$17,213	\$18,066	\$(853)	(4.7))%

Total interest expense decreased \$0.9 million primarily due to the following activity:

The redemption of the Senior Notes due 2017 resulted in a decrease in interest expense of approximately \$2.6 million.

Mortgage notes payable repayments resulted in a decrease in interest expense of approximately \$0.6 million.

The issuance of the Senior Notes due 2025 caused an increase in interest expense of approximately \$1.9 million.

A higher weighted average outstanding balance on the Company's unsecured credit facility due 2017 caused an increase in interest expense of approximately \$0.3 million.

Mortgage notes payable assumed as part of the Company's 2014 and 2015 acquisitions resulted in an increase in interest expense of approximately \$0.2 million.

Loss on extinguishment of debt of approximately \$28.0 million is associated with the redemption of the Senior Notes due 2017. See Note 3 to the Condensed Consolidated Financial Statements for more information.

Pension termination of approximately \$5.3 million represents the effect of the Company's termination of the Executive Retirement Plan in 2015. See Note 7 to the Condensed Consolidated Financial Statements for more information.

The Company recognized an impairment of internally-developed software of approximately \$0.7 million in 2015, which was abandoned for a third party program that was previously unavailable.

Interest and other income decreased approximately \$1.9 million primarily due to a refund received in 2014 of the over payment of prior year expenses.

- Mortgage notes payable repayments resulted in a decrease in interest expense of approximately \$0.8 million.
- The issuance of the Senior Notes due 2025 caused an increase in interest expense of approximately \$1.9 million.
- Borrowings under the unsecured credit facility due 2017 and unsecured term loan facility due 2019 caused an increase in interest expense of approximately \$0.7 million.
- Mortgage notes payable assumed as part of the Company's 2014 and 2015 acquisitions resulted in an increase in interest expense of approximately \$0.5 million.

Loss on extinguishment of debt of approximately \$28.0 million is associated with the redemption of the Senior Notes due 2017. See Note 3 to the Condensed Consolidated Financial Statements for more information.

Pension termination of approximately \$5.3 million represents the effect of the Company's termination of the Executive Retirement Plan in 2015. See Note 7 to the Condensed Consolidated Financial Statements for more information.

In 2015, the Company recorded an impairment charge on a property that was reclassified to held for sale due to management's decision to sell to adjust the carrying value to fair value less costs to sell. The impairment charge is included in Income from Continuing Operations in the Company's Condensed Consolidated Statements of Operations. Prior to the Company's January

Table of Contents

1, 2015 adoption of ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity," this impairment charge would have been recorded in discontinued operations. The Company recognized an impairment of internally-developed software of approximately \$0.7 million in 2015, which was abandoned for a third party program that was previously unavailable. Interest and other income decreased approximately \$1.9 million primarily due to a refund received in 2014 of the over payment of prior year expenses.

Discontinued Operations

Results from discontinued operations for the six months ended June 30, 2015 were income of \$0.7 million compared to a loss of \$6.5 million for the six months ended June 30, 2014. These amounts include the results of operations and impairments related to assets classified as held for sale or disposed of as of December 31, 2014. See Note 2 to the Company's Condensed Consolidated Financial Statements accompanying this report for more detail, regarding the impact of the Company's January 1, 2015 adoption of ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity."

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to market risk in the form of changing interest rates on its debt and mortgage notes and other notes receivable. Management uses regular monitoring of market conditions and analysis techniques to manage this risk. During the six months ended June 30, 2015, there were no material changes in the quantitative and qualitative disclosures about market risks presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports it files or submits under the Exchange Act.

Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

The Company is, from time to time, involved in litigation arising in the ordinary course of business. The Company is not aware of any pending or threatened litigation that, if resolved against the Company, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Item 1A. Risk Factors

In addition to the other information set forth in this report, an investor should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, which could materially affect the Company's business, financial condition or future results. The risks, as described in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, are not the only risks facing the Company. Additional risks and uncertainties not currently known to management or that management currently deems immaterial also may materially, adversely affect the Company's business, financial condition, operating results or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended June 30, 2015, the Company withheld shares of Company common stock to satisfy employee tax withholding obligations payable upon the vesting of nonvested stock, as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
April 1 - April 30	—	—	—	—
May 1 - May 31	2,837	\$24.56	—	—
June 1 - June 30	—	—	—	—
Total	2,837			

Item 5. Other Information

On August 4, 2015, the Company amended its 2015 Stock Incentive Plan to clarify that neither stock options nor stock appreciation rights are available for issuance under the plan. On August 4, 2015, the Company also amended its 2010 Restricted Stock Implementation for Non-Employee Directors and its Executive Incentive Program to incorporate the new 2015 Stock Incentive Plan. These programs had originally been adopted under the Company's 2007 Employees Stock Incentive Plan. The general description of these amendments is qualified in its entirety by reference to the complete text of the amendments which are filed as Exhibits 10.3, 10.4 and 10.5 to this Form 10-Q.
