ANNEXES

Explanatory notes:

All figures in this press release are in French GAAP.

In this press release, we refer to our historical sales as *reported sales*.

In addition to reported sales, we also present and discuss two other non-GAAP indicators that we believe are useful measurement tools to explain changes in our reported sales:

Comparable sales: When we refer to the change in our sales on a *comparable* basis, we mean that we exclude the impact of exchange rate fluctuations and changes in Group structure (acquisitions and divestitures of entities and rights to products as well as change in the consolidation percentage for consolidated entities).

For any two periods, we exclude the impact of exchange rates by recalculating sales for the earlier period on the basis of exchange rates used in the later period. We exclude the impact of acquisitions by including sales for a portion of the prior period equal to the portion of the current period during which we owned the entity or product rights based on sales information we receive from the party from whom we make the acquisition. Similarly, we exclude sales in the relevant portion of the prior period when we have sold an entity or rights to a product. For a change in the consolidation percentage of a consolidated entity, the prior period is recalculated on the basis of the consolidation method used for the current period.

Developed sales When we refer to *developed sales* of a product, we mean consolidated sales, excluding sales of products to our alliance partners, but including those that are made through our alliances and which are not included in our consolidated sales (with Bristol-Myers Squibb on Plavix® /Iscover® (clopidogrel) and Aprovel® /Avapro® /Karvea® (irbesartan), with Fujisawa on Stilnox® /Myslee® (zolpidem), and with Organon on Arixtra® (fondaparinux)). Our alliance partners provide us with information regarding their sales in order to allow us to calculate developed sales.

We believe that developed sales are useful measurement tool because they demonstrate trends in the overall presence of our products in the market.
