The Company has entered into employment agreements with each of Messrs. Murphy, Stote, Price, Gyurik and Horvath which set forth their relationships with the Company. The agreements expire on December 31, 2003 and renew annually for one year terms. Under the agreements, each individual is paid a base salary and provided with life insurance, with salary increases, bonuses and stock option grants at the discretion of the board's compensation committee (except for Mr. Murphy's agreement, which provides for a minimum stock option grant of 50,000 options per annum and Mr. Horvath's initial agreement, which provides for minimum salary increases of 5% per year). All employees are full time, with the exception of Dr. Stote who is a part-time employee.

The agreements may be terminated on one year's notice and, if terminated earlier without cause, upon payment of severance equal to one year's salary, a bonus equal to the greater of the employee's bonus target for the current year or actual bonus for the prior year and vesting of options based on the number of months employment during the vesting period. If the employee is terminated within 12 months of a change of control of the Company, or if the employee terminates his employment within 12 months after a change of control because his job changes, the Company breaches his employment agreement or he is required to move his residence, then the severance is increased to twice his annual salary, twice the average of bonuses in the prior two years, immediate vesting of all stock options and continuation of health benefits for two years (or until receiving comparable benefits from another employer), and the option to keep in place life insurance at the employee's expense. No severance is paid on a termination for cause. In Mr. Murphy's agreement, severance following a change in control is 2.99 times salary. Mr. Horvath's initial agreement provides that, on termination without cause, severance will be two years' salary and acceleration of all options and, following a termination after a change of control, severance will be 2.99 times salary and bonus.

To the Company's knowledge, during 2001, all Section 16(a) filing requirements have been satisfied.

401(K) RETIREMENT PLAN

The Company sponsors a 401(k) retirement plan (the "401(k) Plan") under which eligible employees may contribute, on a pre-tax basis, between 1% and 15% of their respective total annual income from the Company, subject to maximums set by U.S. tax law. All full-time employees who work for the Company in the U.S. are eligible to participate in the 401(k) Plan. All employee contributions are allocated to the employee's individual account and are invested in various investment options as directed by the employee. Employees' cash contributions are fully vested and nonforfeitable. The Company made matching contributions to the 401(k) Plan in 2001 by granting 13,658 shares of the Company's Common Stock valued at \$82,959. The Company currently matches 100% of each eligible employee's contribution in 2002 with shares of the Company's Common Stock. All of the Company's matching contributions vest 25% each year for the first four years of each employee's employment.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In March 2000 the Company made loans to three executive officers to assist each of them in making their income tax payments for shares of the Company's Common Stock which the Company granted to them in 1999. The Company loaned \$250,000 to Mr. Murphy, \$50,000 to Mr. Price and \$140,000 to Mr. Gyurik. The loans bear interest at the rate of 2.37% annually, are due in March 2003 and are secured by shares of the Company's Common Stock owned by the three individuals (Mr. Murphy, 18,700 shares; Mr. Price, 4,000 shares; Mr. Gyurik, 10,700 shares). Interest on the loans accrues quarterly. In December 2001 and January 2002, the Company agreed to forgive part of the principal and interest on the loans as detailed in the following chart. AUDIT COMMITTEE REPORT

In accordance with its charter adopted by the Board of Directors, the Audit Committee assists the Board in fulfilling its responsibilities relating to the Company's audited financial reports, accounting procedures and financial controls. The Audit Committee reviews the procedures and results of the Company's independent audits, and provides a direct communications link to the Board of Directors from Deloitte & Touche, LLP, the Company's independent auditors, and the Company's chief financial officer to help assure the quality of the Company's financial reporting and control systems.

During 2001, the Audit Committee met 2 times and the committee chair, as representative of the committee, and members of the committee held discussions with the chief financial officer and independent auditors regarding the interim financial information contained in the Company's quarterly reports on Form 10-Q prior to filing with the Securities and Exchange Commission.

Auditor Independence and 2001 Audit. To fulfill its duties, the Audit Committee obtained a formal written report of the independent auditors describing all relationships between the auditors and the Company that might bear on the auditors' independence consistent with Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committee." In addition, the Audit Committee discussed with the auditors any relationships that may impact their objectivity and independence and satisfied itself as to the auditors' independence. The Audit Committee also discussed with management and the independent auditors the quality and adequacy of the Company's internal controls. The Audit Committee reviewed with the independent auditors their audit plans, audit scope and identification of audit risks.

The Audit Committee discussed and reviewed with the independent auditors all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committee" and reviewed the results of the independent auditors' examination of the financial statements.

2001 Financial Statements and Recommendations of the Committee. The Audit Committee reviewed the Company's audited financial statements as of and for the year ended December 31, 2001 with management and the independent auditors. Management has the responsibility for the preparation of the Company's financial statements and the independent auditors have the responsibility for the examination of those statements.

Based on the review discussed above and discussions with management and the independent auditors, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 for filing with the Securities and Exchange Commission.

Audit Fees. The aggregate fees billed for professional services rendered by the independent auditors for the audit of the Company's financial statements as of and for the year ended December 31, 2001 and the review of the financial statements in the Company's Form 10-Q filings for the year were \$135,000.

All Other Fees. The aggregate fees billed by the independent auditors during 2001 for non-audit and non-information systems related services were \$86,025. These services consisted of accounting compliance and research

services, as well as tax consultation, tax compliance and tax research services. The Audit Committee considered whether, and has determined that, the provision of these services is compatible with maintaining the independent auditors' independence. The independent auditors did not provide professional services during 2001 for the operation of the Company's information systems or financial system design and implementation.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors, which is currently comprised of all non-employee Directors of the Company, determines, to the extent not fixed pursuant to the terms of applicable employment agreements, the compensation of the Chief Executive Officer, other employee members of the Board of Directors, and all other executive employees whose annual compensation exceeds \$100,000. The compensation levels of such officers, directors and employees are subject to the approval of the Board of Directors.

The Compensation Committee, being responsible for overseeing and approving executive compensation and grants of stock options, is in a position to appropriately balance the current cash compensation considerations with the longer-range incentive-oriented growth outlook associated with stock options.

The main objectives of the Company's compensation structure include rewarding individuals for their respective contributions to the Company's performance, providing executive officers with a stake in the long-term success of the Company and providing compensation programs and policies that will attract, retain and motivate qualified executive personnel. The Board of Directors and the Compensation Committee place a great deal of importance on

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form DEF 14A

recruiting, hiring, retaining and motivating high quality personnel and recognize that by offering executives employment agreements, it can be more successful in recruiting experienced executives from large, established pharmaceutical companies. Historically, the members of the Board of Directors and the Compensation Committee have chosen to achieve these objectives through salary increases, bonuses and periodic stock option grants. The Committee considered each of these factors in approving the compensation for Mr. Murphy, who serves as President and Chief Executive Officer.

In determining compensation, the Compensation Committee considers, among other things, the performance of the Company, improvement in financial position, strategic alliances, acquisition of products, product registration, raising of capital, compensation levels in competing companies, individual contributions to the Company and the length of service with the Company. The Compensation Committee also surveyed executive compensation of similarly situated companies and retained the services of an independent law firm, experienced in employment and compensation matters, for the purpose of obtaining independent, objective guidance with respect to the Committee's performance of its duties.

Compensation through the periodic grant of Common Stock and stock options under the Company's stock option plans is intended to coordinate executives' and stockholders' long-term interests by creating a direct link between a portion of executive compensation and increases in the price of Common Stock and the long-term success of the Company. This method of compensation also permits the Company to preserve its cash resources.

During 2001 the Committee undertook a comprehensive review of the employment agreements that the Company enters into with each of its officers. It updated the provisions of the agreement and the Company is entering into the new agreement with each officer as their current agreement expires.

For the year 2001, Mr. Murphy, recommended merit increases and base salary amounts for each officer other than himself based on his assessment of each officer's individual performance and accomplishment of corporate and personal objectives. We evaluated Mr. Murphy's recommendations regarding each officer's compensation, taking into account the officer's tenure and our subjective assessment of individual performance. We considered Mr. Murphy's recommendations with respect to merit increases and base salary amounts. We reviewed the accomplishments and performance of such

15

officers and comparative compensation data from similar or competing companies and then approved compensation packages for each of the Company's officers.

A significant portion of the direct compensation of officers consists of annual incentive bonuses. Bonus targets are closely tied to performance measures, at both the corporate level and at individual areas of responsibility. Mr. Murphy recommended specific bonuses for all officers other than himself. We evaluated Mr. Murphy's recommendations regarding each officer's bonus, taking into account Mr. Murphy's assessment of each officer's individual performance and our subjective assessment of individual performance, in addition to accomplishment of corporate objectives. We then approved the bonuses to be awarded for the calendar year 2001.

Future increases in executive compensation will be based upon the satisfaction of pre-established individual objectives, extraordinary individual contributions, corporate milestones and financial performance of the Company.

COMMON STOCK PERFORMANCE

The graph presented below compares the cumulative total stockholder return on the Company's Common Stock for the five years ended December 31, 2001 with the cumulative total stockholder return for such period reflected in the Standard and Poor's (S&P) 500 Stock Index and in a peer group index of three competing pharmaceutical companies (Andrx Group, Cima Labs Inc. and Noven Pharmaceuticals, Inc.) (the "New Peer Group") as well as three competing pharmaceutical companies that were listed in the Company's 2001 proxy statement (Dura Pharmaceuticals, Inc., MacroChem Coporation and Noven Pharmaceuticals, Inc. (the "Old Peer Group"). Dura Pharmaceuticals, Inc. was not included in the New Peer Group because it merged with another company and the peer group was then reconstituted to more closely reflect companies that are comparable to the Company. The graph (and the information relating to it) was obtained by the Company from S&P. The comparative returns shown in the graph assume (i) the investment of \$100 in the Company's Common Stock, the common stock of the companies included in the S&P 500 Stock Index and the common stock of the companies in the New Peer Group and the Old Peer Group at the market close on December 31, 1996 and (ii) the reinvestment of all dividends.
