COMPUTER ASSOCIATES FILES PRELIMINARY PROXY STATEMENT

ISLANDIA, N.Y., July 2, 2001 - Computer Associates International, Inc. (NYSE: CA) announced that it filed its preliminary proxy statement today with the Securities and Exchange Commission. Upon receiving SEC clearance, the proxy statement will be mailed to shareholders of record as of July 5, 2001, in advance of the Company's August 29, 2001 annual meeting. CA's preliminary proxy statement explains why shareholders should elect CA's Board of Directors and not Sam Wyly's slate of nominees at the annual meeting.

Sanjay Kumar, President and Chief Executive Officer of Computer Associates, said, "We believe Sam Wyly's reckless proposals to break up CA simply do not make sense. The Board of Directors firmly believes that a break up of Computer Associates would be harmful to all of our constituencies, including our shareholders, customers and employees. In addition to decreasing the Company's ability to offer integrated software solutions and engage in cross-selling, we believe Mr. Wyly's plan would increase overhead costs, and potentially be disruptive to employees. We believe the best course for the Company is to follow through on the initiatives already put in place, including our new business model, and focus on client service intended to create shareholder value."

At the annual meeting, in addition to electing CA's existing Directors, shareholders will be asked to approve the Company's 2001 Stock Option Plan, which has been approved by CA's Board of Directors, and to ratify KPMG LLP as

auditors for fiscal year 2002. CA's top three executives,

Charles B. Wang, Sanjay Kumar and Russell M. Artzt have agreed that their compensation for fiscal 2002 will be limited to base salary and benefits, and any stock options that may be awarded by the Compensation Committee under the new Plan. This means that these executives will not receive any restricted stock, or cash compensation other than base salary, for fiscal 2002. These individuals received no compensation other than base salary and benefits with respect to fiscal 2001. Performance-based awards were not made to these individuals in fiscal 2001, primarily due to a change in the Company's business model, which changed revenue recognition and resulted in a net loss for the year. In addition, no options were awarded to these individuals for fiscal 2001.

The 2001 Stock Option Plan, which provides for stock option awards to a broad base of CA employees, is being submitted for shareholder approval at the annual meeting. No grants have been made under the Plan, which will only go into effect if approved by shareholders. This Plan replaces the 1991 Stock Incentive program previously in place, which expired in June 2001. The 7.5 million shares available to be issued under the new Plan is equivalent to the number of shares that were unused in the previous plan prior to its expiration. If approved by shareholders, the new Plan will terminate on the third anniversary of the 2001 annual meeting.

Computer Associates intends to begin soliciting votes from its shareholders as soon as the proxy materials become effective.
