SYLVAN LEARNING SYSTEMS, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
UNAUDITED

(DOLLAR AND SHARE AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

JUNE 30, 2001

### NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month and six month periods ended June 30, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001. The traditional semester programs in the education industry, with a summer break, result in unusually large seasonality in the operating results of Sylvan Learning Systems, Inc. ("the Company"). The consolidated balance sheet at December 31, 2000 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the audited consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2000.

Certain amounts previously reported for 2000 have been reclassified to conform with the 2001 presentation. The accompanying consolidated statements of operations have been restated to reflect the discontinued operations discussed in Note 3.

### NOTE 2 - NEW ACCOUNTING STANDARDS

In June 1998, the Financial Accounting Standards Board issued Statement No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES, which was adopted effective January 1, 2001. Because of the Company's minimal use of derivatives, the adoption of the new standard did not have any effect on the Company's consolidated financial position and results of operations.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 141, BUSINESS COMBINATIONS, and No. 142, GOODWILL AND OTHER INTANGIBLE ASSETS. Under Statement No. 141, the pooling-of-interests method of accounting has been eliminated for all business combinations except for qualifying business combinations that were initiated prior to July 1, 2001. Statement No. 141 also includes new criteria to recognize intangible assets separately from goodwill, and is effective for any business combination accounted for by the purchase method that is completed after June 30, 2001. Under Statement No. 142, goodwill will no longer be amortized but will be subject to annual impairment tests for fiscal years beginning after December 15, 2001. Other intangible assets will continue to be amortized over their useful lives. The Company will apply the new rules on accounting for goodwill

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

and other intangible assets beginning in the first quarter of 2002. The Company will perform the first of the required impairment tests of goodwill as of January 1, 2002 and has not yet determined what the effect of these tests will be on the earnings and financial position of the Company. The Company has estimated that the impact of the non-amortization provisions of the Statements will be a decrease in amortization expense of approximately \$21,200 in 2002 including approximately \$8,700 related to the amortization of Sylvan Ventures equity method investments.

8

### NOTE 3 - DISCONTINUED OPERATIONS

On October 6, 2000, the Company sold its English Language immersion business, Aspect, ("Aspect") for \$19,794 in cash. The gain on the disposition recognized in the year ended December 31, 2000 was \$22,353, which includes an income tax benefit of \$3,047. The Company has estimated the domestic and foreign income taxes resulting from the sale based on the expected allocation of proceeds to subsidiaries that are parties to the transaction and the tax laws of the jurisdictions in which these subsidiaries operate, assuming that undistributed gains outside the United States will be reinvested outside the United States.

On March 3, 2000, the Company sold its computer-based testing division, Sylvan Prometric ("Prometric") for approximately \$775,000 in cash. The gain on the disposition recognized in the year ended December 31, 2000 was approximately \$288,454, net of income taxes of \$136,762. The final proceeds from the sale may change based on contractual provisions that provide for certain adjustments to the sale price, including an adjustment for changes in working capital of Prometric between November 30, 1999 and March 3, 2000. The Company and the buyer have not completed the process required to provide for a final settlement of the sale proceeds. However, management believes that any future adjustments will be immaterial to the Company's financial position and results of operations. The Company has estimated the domestic and foreign income taxes resulting from the sale based on the expected allocation of proceeds to subsidiaries that are a party to the transaction and the tax laws of the jurisdictions in which these subsidiaries operate, assuming that undistributed gains outside the United States will be reinvested outside the United States.

Summarized operating information of the Company's discontinued operations, including both Prometric and Aspect for the period owned in 2000, was as follows:

	Three months ended June 30, 2000	Six months ended June 30, 2000
	-----	-----
Revenues	\$10,263	\$57,918
	-----	-----
Loss before income taxes	(1,956)	(5,661)
Income tax expense	-	(163)
	-----	-----
Net loss	\$ (1,956)	\$ (5,824)
	=====	=====

Included in loss from discontinued operations for the three and six month periods ended June 30, 2000 is an allocation of corporate interest expense of

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

\$45 and \$723, respectively, based upon a percentage of the net equity investment in discontinued operations to the net equity of the Company including the discontinued operations.

### NOTE 4 - INVESTMENTS

#### FORMATION OF SYLVAN VENTURES

The Sylvan Ventures segment was established during the first quarter of 2000 to invest in and develop companies with emerging technology solutions for the education and training marketplace ("portfolio companies"). On June 30, 2000, affiliates of Apollo Management L.P. ("Apollo") and certain members of Sylvan's management ("management investors") joined the Company to form Sylvan Ventures, LLC, with total committed funds of \$400,000. Of the \$400,000 commitment, the Company has committed \$285,000, including investments in portfolio companies valued at \$65,000; Apollo has committed \$100,000; and the management investors have committed \$15,000.

9

### NOTE 4 - INVESTMENTS (CONTINUED)

Upon formation, Sylvan Ventures issued common membership interests to Sylvan and the management investors and preferred membership interests to Apollo. Additionally, Sylvan Ventures authorized the granting of plan membership profit interests to members of management that entitle the recipients to receive an aggregate allocation of up to 20% of any cumulative net profits. As of June 30, 2001, plan membership profit interests have been granted to management for an aggregate allocation of approximately 15% of the cumulative net profits upon the occurrence of any profits interest event.

In 2000, the membership agreement provided for the allocation of net losses to the common and preferred members on a pro rata basis, subject to certain limitations. Beginning January 1, 2001, net losses are being allocated on a pro rata basis only to the common membership interest holders until their capital account balances have been reduced to zero, at which time any losses will be allocated to Apollo until its capital account balance has been reduced to zero. Thereafter, any losses will be allocated on a pro rata basis to all membership interest holders. Any profits earned after January 1, 2001 will first be allocated to Apollo until it has recovered its 2000 allocated losses and then to the common membership interest holders to recover previously allocated losses. After all previously allocated losses have been recovered through profit allocations, any additional net profits will be allocated on a pro rata basis to all interest holders, including the plan membership profit interest holders. The preferred members also maintain a preferred position relating to cash distribution provisions of the membership agreement.

#### CONSOLIDATED INVESTMENTS

eSylvan, Inc. ("eSylvan") is a start-up organization formed to distribute the Company's learning center tutoring product to students at home via computer. Sylvan Ventures owns 85% of the common stock of eSylvan. eSylvan had not generated significant revenue through June 30, 2001, and its operating expenses have been included in the 2001 and 2000 consolidated statement of operations as a component of Sylvan Ventures' operating costs. Sylvan Ventures has committed additional funding of \$6,666 as of June 30, 2001 for eSylvan development and operating costs in 2001. During 2001, eSylvan issued common stock representing a 15% ownership interest to franchisees of Sylvan Learning Centers to more fully leverage the relationship between center-based and online tutoring.

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

### INVESTMENT IN AFFILIATES (EQUITY METHOD INVESTMENTS):

The Company's investment in and advances to affiliates consist of investments in and loans to companies in the initial or early stages of development. These companies are frequently illiquid or experiencing cash flow deficits from operations. Further, investments are generally unsecured and subordinated to the claims of other creditors. Accordingly, the Company's investments in and advances to affiliates are subject to a high degree of investment and credit risk. The Company has made estimates of the recoverability of loans and advances to its affiliates, and due to the inherent uncertainty of the operations of these affiliates, it is reasonably possible that these estimates may change in the near term.

10

### NOTE 4 - INVESTMENTS (CONTINUED)

Investments in and advances to affiliates consist principally of investments in common stock and preferred stock, as follows as of June 30, 2001 and December 31, 2000, respectively:

	JUNE 30, 2001	OWNERSHIP INTEREST	DECEMBER 31, 2000
Walden E-Learning, Inc.	\$32,415	41%	\$ 14
Chancery Software Limited	11,350	42%	13
Classwell Learning Group, Inc.	8,819	42%	15
Caliber Learning Network, Inc.	-	35%	6
HigherMarkets, Inc.	3,029	31%	5
iLearning, Inc.	3,358	27%	1
Mindsurf, Inc.	455	47%	2
EdVerify, Inc.	2,382	33%	
Other	2,856	-	
Total	\$64,664		\$57

The Company's equity in net losses related to the investments in affiliates for the three month and six month periods ended June 30, 2001 was \$15,725 and \$35,637, respectively. At June 30, 2001, the difference between the carrying amount of equity method investments and the amount of underlying equity in net assets of these investments was \$35,284. This amount is being amortized for each investment primarily over a three-year period as a component of the Company's allocable share of income or loss. For the three month and six month periods ended June 30, 2001, equity in net loss of affiliates includes amortization of \$2,174 and \$4,979, respectively. Under the provisions of Statement No. 142 (see Note 2), this goodwill related to equity method investments will no longer be amortized, effective January 1, 2002.

Sylvan Ventures has committed additional funding of \$13,300 to Mindsurf, Inc. ("Mindsurf") if specified performance targets are achieved.

The tables below include summarized financial data and results of operations of those affiliates in which Sylvan Ventures had an equity method investment.

Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

	JUNE 30, 2001	DECEMBER 31, 2000
	-----	-----
Current assets	\$45,538	\$44,4

	-----	-----	-----	-----
Net sales	\$ 16,022	\$ 6,079	\$ 26,645	
Gross profit	11,725	4,458	18,478	
Net loss	(31,423)	(6,845)	(60,502)	

11

NOTE 4 - INVESTMENTS (CONTINUED)

LOSS ON INVESTMENT

The loss on investment was prompted by the Caliber Learning Network, Inc. ("Caliber") filing for Chapter 11 bankruptcy protection on June 15, 2001. The Sylvan Ventures investment in Caliber of \$2,931 was reduced to \$0 upon recording its allocable share of losses related to Caliber prior to the bankruptcy proceedings, which is included in "Equity in net loss of affiliates". Additionally, the Company recorded a loss on investment of \$14,231 in the three month period ended June 30, 2001. This charge consists of the reserve for notes receivable and advances to Caliber of \$7,497 as well as the accrual of a \$6,734 estimated liability relating to the Company's guarantee of certain non-cancelable Caliber lease obligations and other Caliber related liabilities incurred by the Company. Due to the uncertainties surrounding the bankruptcy proceedings and the ultimate settlement of Caliber's lease and other liabilities, it is reasonably possible that the Company's loss estimate may change prior to finalization.

NOTE 5 - DUE TO SHAREHOLDERS OF ACQUIRED COMPANIES

Due to shareholders of acquired companies consists of the following amounts payable in cash:

JUNE 30,  
2001

-----

Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

Amounts payable to former shareholders of Canter	\$ -
Amounts payable to former shareholders of Les Roches	561
Amounts payable to former shareholders of Prometric	3,050
Amounts payable to former shareholders of WSI franchises	900
Amounts payable to former shareholders of UDLA	12,000
	-----
	\$16,511
	=====

NOTE 6 - INCOME TAXES

The tax provisions for the six month periods ended June 30, 2001 and 2000 were based on the estimated effective tax rates applicable for the full years, after giving effect to significant unusual items related specifically to the interim periods. The Company's income tax provisions for all periods consist of federal, state, and foreign income taxes. The Company's overall effective tax rate from continuing operations was 36% for the six months ended June 30, 2001. This rate represents the blended rate computed after taking into account the impact of Sylvan Ventures on the Company's results. Due to the volatility of Sylvan Ventures' income and losses, the Company's overall rate may fluctuate from quarter to quarter. However, on a full year basis, the Company estimates that the effective income tax rate for the continuing operations results of the Company, prior to Sylvan Ventures, and Sylvan Ventures' for the year ended December 31, 2001 will be 34% and 35%, respectively. Fluctuations in the magnitude and timing of the tax impact of Sylvan Ventures' financial results may cause the Company's consolidated effective tax rate to vary substantially from the statutory rate.

The Company's effective tax rate from continuing operations in 2000 was significantly affected by its inability to utilize tax benefits from certain investment losses of Sylvan Ventures, the impact of minority interests and the timing of recognition of corporate level tax benefits from subsidiary losses. Because of these factors, the 2000 effective tax rate varied substantially from the statutory rate.

At June 30, 2001, undistributed earnings from continuing operations of non-U.S. subsidiaries totaled \$77,100. Deferred tax liabilities have not been recognized for these undistributed earnings because it is management's intention to reinvest such undistributed earnings outside of the U.S. If all undistributed earnings were remitted to the U.S., the amount of incremental U.S. federal income taxes, net of foreign tax credits, would be approximately \$21,900.

NOTE 7 - STOCKHOLDERS' EQUITY

The components of stockholders' equity are as follows:

	COMMON STOCK	ADDITIONAL PAID-IN CAPITAL	RETAINED EARNINGS	ACCUMULATED COMPREHENSIVE INCOME
	-----	-----	-----	-----
Balance at December 31, 2000	\$373	\$205,343	\$360,232	\$

13

NOTE 9 - EARNINGS (LOSS) PER SHARE

The following table summarizes the computations of basic and diluted earnings (loss) per common share:

	THREE MONTHS ENDED JUNE 30, 2001	2000	2000
	-----	-----	-----
Numerator used in basic and diluted earnings (loss) per common share:			
Income (loss) from continuing operations	\$ (13,434)	\$ 6,625	\$ (
Loss from discontinued operations, net of tax	-	(1,956)	
Gain on disposal of discontinued operations, net of tax	-	-	
Net income (loss)	----- \$ (13,434)	----- \$ 4,669	----- \$ (

Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

Denominator:			
Weighted average common shares outstanding	37,877	45,110	
Net effect of dilutive stock options based on treasury stock method using average market price	-	645	
Effect of convertible debentures	-	70	
Weighted average common shares outstanding and additional dilution from common stock equivalents	37,877	45,825	
Earnings (loss) per common share, basic:			
Income (loss) from continuing operations	\$(0.35)	\$0.15	
Loss from discontinued operations, net of tax	-	(0.05)	
Gain on disposal of discontinued operations, net of tax	-	-	
Net income (loss)	\$(0.35)	\$0.10	
Earnings (loss) per common share, diluted:			
Income (loss) from continuing operations	\$(0.35)	\$0.14	
Loss from discontinued operations, net of tax	-	(0.04)	
Gain on disposal of discontinued operations, net of tax	-	-	
Net income (loss)	\$(0.35)	\$0.10	

Stock options and the convertible debentures were not dilutive for the three month and six month periods ended June 30, 2001 as the Company reported a net loss from continuing operations.

NOTE 10 - CONTINGENCIES

On November 18, 1996, ACT, Inc. filed suit against the Company alleging that the Company violated federal antitrust laws and committed various state law torts in connection with the operations of its computer-based testing operations and in obtaining a testing services contract from the National Association of Securities Dealers ("NASD"). The trial court has granted the Company's motion for summary judgement and ACT, Inc. has filed its appeal of the decision to the U.S. Court of Appeals for the Eighth Circuit. Management is unable to predict the ultimate outcome of the appeal, but believes that the ultimate resolution of the matter will not have a material effect on the Company's consolidated financial position.

On November 18, 1998, James Jinsoo and Christine Choi filed suit against the Company seeking damages and rescission under the Development Agreement they had entered into for Korea in 1995 and which had been terminated by the Company due to their default under the Development Agreement. The dispute was submitted to arbitration pursuant to the terms of the Agreement. On July 10, 2001 the arbitration panel found in favor of the Company on all substantive issues raised by the Chois. The only amount the arbitrators awarded to the Chois was \$108, which had been paid in fees and expenses for the arbitration.

NOTE 10 - CONTINGENCIES (CONTINUED)

The Company is subject to other legal actions arising in the ordinary course of

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

its business. In management's opinion, the Company has adequate legal defenses and/or insurance coverage with respect to the eventuality of such actions and does not believe any settlement would materially affect the Company's financial position.

### NOTE 11 - BUSINESS SEGMENT INFORMATION

	THREE MONTHS ENDED JUNE 30,		SIX M
	2001	2000	2001
Operating revenues:

NOTE 11 - BUSINESS SEGMENT INFORMATION (CONTINUED)

In July 2001, the Company's management announced the creation of an Online Higher Education business unit focused on broadening the Company's presence and reach in the sector of post-secondary and adult continuing education delivered through distance learning. Concurrent with the creation of this new business unit, the Company intends to reorganize its business segments. The new Online Higher Education business unit will encompass Canter and Associates, Sylvan Teacher Institute and the Company's related business interests in the post-secondary distance learning marketplace. The Company anticipates that the reorganization of its segments will be substantially complete in the third quarter of 2001, at which time all segment information will be restated to conform to the new presentation.

16

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Sylvan Learning Systems, Inc. ("the Company" or "Sylvan"), generates revenues from four business segments: Sylvan Learning Centers, which earns primarily franchise royalties, franchise sales fees and Company-owned Learning Center revenues; Sylvan Education Solutions, which earns revenues from providing supplemental remedial education services to public and non-public schools as well as providing teacher training services; Sylvan English Language Instruction, which earns primarily franchise royalties, company-owned center revenue and franchise sales fees; and Sylvan International Universities, which earns tuition and dormitory fees paid by the students of Universidad Europea de Madrid CEES ("UEM"), Swiss Hotel Association Hotel Management School Les Roches ("Les Roches"), Universidad del Valle de Mexico ("UVM") and Universidad de Las Americas ("UDLA"). A fifth segment, Sylvan Ventures, invests in and develops companies to bring technology solutions to the education and training marketplace. Sylvan Ventures has not generated revenues since its inception in 2000, but costs have been incurred to oversee and develop the investments.

The following table sets forth the percentage relationships of operating revenues and direct costs for each business segment, as well as certain income statement line items expressed as a percentage of total revenues for the periods

Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

indicated:

	THREE MONTHS ENDED JUNE 30, 2001	2000	SIX M 2001
Revenues:			
Sylvan Learning Centers	24%	32%	
Sylvan Education Solutions	26%	36%	
Sylvan English Language Instruction	10%	15%

Income tax benefit (expense)	5%	(4%)	
Income (loss) from continuing operations	(10%)	8%	(

RESULTS OF OPERATIONS

Sylvan is a leading international provider of educational services to families and schools. The Company provides lifelong educational services through five separate business segments. The Sylvan Learning Centers segment designs and delivers individualized tutorial programs to school age children through franchised and Company-owned Learning Centers. This segment also includes the operations of Schulerhilfe, a major provider of tutoring services in Germany. The Sylvan Education Solutions segment principally provides educational programs to students of public and non-public school districts through

17

contracts funded by Title 1 and state-based programs. This segment also provides professional development and graduate degree programs to teachers through the Canter and Associates. The Sylvan English Language Instruction segment consists of the operations of Wall Street Institute, Kft., ("WSI"), a European-based franchiser and operator of learning centers that teach the English language in a post-secondary market. Sylvan International Universities segment owns or maintains controlling interests in four private, for-profit universities located in Spain, Switzerland, Mexico and Chile. The Company's newest segment, Sylvan Ventures, invests in and develops companies that are creating emerging technology solutions for the education marketplace.

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

Consistent with the stated goal of focusing resources and management's efforts on the core business of educational services, and in order to fund expansion of technology applications in educational and training services, the Company consummated the sale of Prometric, a computer-based testing business, and Aspect Language Schools, B.V. ("Aspect"), an English Language immersion business in 2000. Unless specifically noted, all discussion of financial results excludes the results of Prometric and Aspect except as disclosed as discontinued operations.

In July 2001, the Company's management announced the creation of an Online Higher Education business unit focused on broadening the Company's presence and reach in the sector of post-secondary and adult continuing education delivered through distance learning. Concurrent with the creation of this new business unit, the Company intends to reorganize its business segments. The new Online Higher Education business unit will encompass Canter and Associates, Sylvan Teacher Institute and the Company's related business interests in the post-secondary distance learning marketplace. The Company anticipates that the reorganization of its segments will be substantially complete in the third quarter of 2001, at which time all segment information will be restated to conform to the new presentation.

COMPARISON OF RESULTS FOR THE THREE MONTHS ENDED JUNE 30, 2001 TO RESULTS FOR THE THREE MONTHS ENDED JUNE 30, 2000.

REVENUES. Total revenues from continuing operations increased by \$48.2 million, or 59%, to \$130 million for the three months ended June 30, 2001 (the "2001 fiscal quarter") from \$82.2 million for the three months ended June 30, 2000 (the "2000 fiscal quarter"). Included in the total revenues from continuing operations for the 2001 fiscal quarter were \$37.6 million of revenues from Les Roches, UVM and UDLA, which were acquired in the third and fourth quarters of 2000. Total revenues from continuing operations increased 13%, excluding the increase due to the Les Roches, UVM and UDLA acquisitions.

SYLVAN LEARNING CENTERS revenue increased by \$4.8 million, or 19%, to \$30.9 million for the 2001 fiscal quarter compared to the 2000 fiscal quarter. Franchise royalties increased by \$0.9 million, or 16%, in 2001 as a result of a net increase of 36 new centers opened after June 30, 2000, and a 10% increase in same center revenue. Revenues from Company-owned learning centers increased \$2.2 million, or 17%, to \$15.0 million during the 2001 fiscal quarter. Same center revenues increased 9%, or \$1.2 million, with the remaining revenue increase of \$1.0 million generated from five Company-owned centers acquired from franchise owners and a net of four new centers opened during the past year. In May of 2000, the Company acquired Ivy West, an SAT preparation company based in California. The acquisition of Ivy West resulted in increased revenue of \$1.5 million for the 2001 fiscal quarter. International revenues, primarily Schulerhilfe, increased by \$0.2 million, or 4% in the 2001 fiscal quarter compared to the 2000 fiscal quarter. Operating revenue for Learning Centers represents 24% of total revenues from continuing operations of the Company for the 2001 fiscal quarter.

SYLVAN EDUCATION SOLUTIONS revenue increased by \$4.1 million, or 14% to \$34.2 million for the 2001 fiscal quarter compared to the 2000 fiscal quarter. Sylvan at School revenue increased by \$2.0 million or 11% to \$20.9 million in the 2001 fiscal quarter compared to the 2000 fiscal quarter due to increased school contracts and growth in the Career Starters business. Canter teacher-training revenue increased by \$2.1

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

million or 19% to \$13.3 million in the 2001 fiscal quarter compared to the 2000 fiscal quarter. The Canter revenue increase is due to greater product demand, particularly the distance learning masters program. Operating revenue for Sylvan Education Solutions represents 26% of total revenues from continuing operations of the Company for the 2001 fiscal quarter.

SYLVAN ENGLISH LANGUAGE INSTRUCTION revenue increased \$0.4 million to \$12.5 million in the 2001 fiscal quarter from \$12.1 million in the 2000 fiscal quarter. The revenue increase comes almost entirely from tuition revenues in existing Company-owned centers and from the acquisition of three centers in Argentina. Operating revenue for Sylvan English Language Instruction represents 10% of total revenues from continuing operations of the Company for the 2001 fiscal quarter.

SYLVAN INTERNATIONAL UNIVERSITIES revenue for the 2001 fiscal quarter increased \$38.9 million, or 279%, to \$52.8 million, compared to the 2000 fiscal quarter. International Universities revenue increased \$37.6 million due to the acquisitions of controlling interests of Les Roches, UVM and UDLA, which occurred in the third and fourth quarters of 2000 and are, therefore, not included in revenue for the 2000 fiscal quarter. Revenue growth at UEM was \$1.2 million, or 9%, to \$15.1 million in the 2001 fiscal quarter as a result of increases in enrollment, increased tuition and the expansion of programs offered. Operating revenue for Sylvan International Universities represents 40% of total revenues from continuing operations of the Company for the 2001 fiscal quarter.

DIRECT COSTS. Total direct costs of revenues excluding Sylvan Ventures increased \$36.9 million, or 53%, to \$106.3 million for the 2001 fiscal quarter from \$69.4 million for the 2000 fiscal quarter. Included in direct costs in the 2001 fiscal quarter were \$31.7 million of costs of Les Roches, UVM and UDLA, which were acquired in the third and fourth quarters of 2000. Total direct costs increased \$5.2 million, or 8%, excluding the costs related to Les Roches, UVM and UDLA. Direct costs as a percentage of total revenues decreased to 81% in the 2001 fiscal quarter from 84% in the 2000 fiscal quarter. This decrease in direct costs as a percentage of revenues is primarily due to margin improvements in the Learning Centers, Education Solutions and UEM businesses. Direct costs in these divisions were effectively controlled to produce margin improvement in this period of strong revenue increases.

SYLVAN LEARNING CENTERS expenses increased \$2.3 million to \$22.0 million, or 71% of Learning Centers revenue for the 2001 fiscal quarter, compared to \$19.7 million, or 75% of Learning Centers revenue for the 2000 fiscal quarter. Approximately \$1.9 million of the 2001 fiscal quarter increase relates to expenses incurred in Company-owned learning centers due to the acquisition of franchised learning centers and costs associated with higher revenues at existing company-owned centers. The acquisition of Ivy West resulted in \$1.1 million of increased cost during the 2001 fiscal quarter. The remaining \$0.7 million cost decrease for the 2001 fiscal quarter relates to lower franchise support costs compared to the 2000 fiscal quarter. The decrease in expenses as a percentage of revenues for the 2001 fiscal quarter is primarily due to the increase to franchise royalties due to system-wide expansion combined with effective management of franchise related expenses.

SYLVAN EDUCATION SOLUTIONS expenses increased by \$2.3 million to \$26.5 million, or 77% of Sylvan Education Solutions revenue for the 2001 fiscal quarter, compared to \$24.2 million or 80% of Sylvan Education Solutions revenue for the 2000 fiscal quarter. The decrease in expenses as a percentage of revenue for 2001 fiscal quarter is primarily due to the increase in higher margin products sold during the 2001 fiscal quarter, as compared to the 2000 fiscal quarter. These higher margin products include Canter's distance learning masters programs and Career Starters' business expansion.

SYLVAN ENGLISH LANGUAGE INSTRUCTION expenses increased \$0.3 million to \$12.1 million or 97% of WSI revenues for the 2001 fiscal quarter compared to \$11.8 million or 97% of Sylvan English Language Instruction revenues for the 2000 fiscal quarter. Expenses in the 2001 fiscal quarter have been maintained at 2000 fiscal quarter levels despite increasing overhead costs related to the internal expansion of the international network of centers through controlling expenses in the operating centers.

SYLVAN INTERNATIONAL UNIVERSITIES expenses increased by \$32.0 million to \$45.8 million, or 87% of Sylvan International Universities revenue for the 2001 fiscal quarter, compared to \$13.8 million or 99% of Sylvan International Universities revenue for the 2000 fiscal quarter. This increase in expenses is primarily due to the acquisition of controlling interests of Les Roches, UVM and UDLA in the third and fourth quarters of 2000. The decrease in expenses as a percentage of revenue for the 2001 fiscal quarter is primarily due to improved operating margin performance at UEM, high margins at Les Roches and UDLA, strong operating performance at UVM and management's efforts to control divisional overhead costs while expanding the university network.

OTHER EXPENSES. General and administrative expenses increased by \$1.3 million in the 2001 fiscal quarter compared to the 2000 fiscal quarter. The increase was primarily due to a decrease in the allocation to third parties of certain administrative costs in 2001 and the additional costs of overseeing the international expansion of the Company. General and administrative expenses decreased to 5% of total revenues in the 2001 fiscal quarter, compared to 6% of revenues in the 2000 fiscal quarter due to cost controls and the strong revenue expansion in the 2001 fiscal quarter.

Sylvan Ventures operating costs increased by \$3.7 million to \$6.9 million for the 2001 fiscal quarter, compared to \$3.2 million for the 2000 fiscal quarter. Operating costs of eSylvan, a subsidiary of Sylvan Ventures, increased \$1.2 million to \$3.6 million for the 2001 fiscal quarter compared to the 2000 fiscal quarter. This increase is primarily due to increased expenses needed to advance the development of eSylvan's Internet-based tutoring service. Sylvan Ventures increased management expenses by \$2.5 million to \$3.3 million for the 2001 fiscal quarter primarily due to increased costs associated with the research, evaluation and management of an increased number of companies in the Sylvan Ventures portfolio in the 2001 fiscal quarter compared to the 2000 fiscal quarter.

Sylvan Ventures equity in net losses of affiliates increased by \$14.8 million to \$15.6 million for the 2001 fiscal quarter, compared to \$0.8 million for the 2000 fiscal quarter primarily due to the increased amount of investments in the Sylvan Ventures' portfolio in the 2001 fiscal quarter. These losses relate to Sylvan Ventures' share of operating losses generated by the early stage enterprises in the investment portfolio and the amortization of the difference between the initial carrying amount of equity method investments and the underlying equity in net assets of these investments at the time of purchase. Minority interests' share of Sylvan Ventures losses totaled \$1.8 million for the 2001 fiscal quarter.

The loss on investment was prompted by the Caliber Learning Network, Inc. ("Caliber") filing for Chapter 11 bankruptcy protection on June 15, 2001. The Sylvan Ventures investment in Caliber of \$2.9 million was reduced to \$0 upon recording its allocable share of losses related to Caliber prior to the

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

bankruptcy proceedings, which is included in "Equity in net loss of affiliates". Additionally, the Company recorded a loss on investment of \$14.2 million in the 2001 fiscal quarter. This charge consists of the reserve for notes receivable and advances to Caliber of \$7.5 million as well as the accrual of a \$6.7 million estimated liability relating to the Company's guarantee of certain non-cancelable Caliber lease obligations and other Caliber related liabilities incurred by the Company. Due to the uncertainties surrounding the bankruptcy proceedings and the ultimate settlement of Caliber's lease and other liabilities, it is reasonably possible that the Company's loss estimate may change prior to finalization.

Other non-operating items decreased by \$8.9 million for the 2001 fiscal quarter compared to the 2000 fiscal quarter. The decrease is primarily attributable to a decrease in interest income of \$5.1 million, an increase in interest expense of \$1.7 million and an increase in minority interest expense of \$2.3 million. The increased minority interest expense results from the strong operating performance of the Universities in which Sylvan International Universities maintains a controlling interest.

20

The Company's effective tax rate from continuing operations was 34% for the 2001 fiscal quarter. This reported effective income tax rate from continuing operations differs from the U.S. federal statutory tax rate due to the impact of state income taxes, minority interests, foreign income taxed at lower rates and the inability to utilize tax benefits from certain investment losses of Sylvan Ventures. On a full year basis, the Company estimates that its effective income tax rate for the Company (excluding Sylvan Ventures) and Sylvan Ventures continuing operations for the year ended December 31, 2001 will be 34% and 35% respectively.

INCOME (LOSS) FROM CONTINUING OPERATIONS. Income from continuing operations decreased by \$20.1 million, to a loss of \$13.4 million for the 2001 fiscal quarter. The decrease is primarily the result of the loss on the investment in and advances to Caliber of \$14.2 million and additional Sylvan Ventures related costs and investment losses, which increased \$18.5 million in the 2001 fiscal quarter compared to the 2000 fiscal quarter, which offset favorable operating income increases of \$9.9 million.

COMPARISON OF RESULTS FOR THE SIX MONTHS ENDED JUNE 30, 2001 TO RESULTS FOR THE SIX MONTHS ENDED JUNE 30, 2000

REVENUES. Total revenues from continuing operations increased by \$93.1 million, or 59%, to \$250.8 million for the six months ended June 30, 2001 (the "2001 fiscal six month period") from \$157.8 million for the six months ended June 30, 2000 (the "2000 fiscal six month period"). Included in the total revenues from continuing operations for the 2001 fiscal six month period were \$74.4 million of revenues from Les Roches, UVM and UDLA, which were acquired in the third and fourth quarters of 2000. Total revenues from continuing operations increased 12%, excluding the increase due to the Les Roches, UVM and UDLA acquisitions.

SYLVAN LEARNING CENTERS revenue increased by \$10.0 million, or 21%, to \$58.8 million for the 2001 fiscal six month period compared to the 2000 fiscal six month period. Franchise royalties increased by \$1.8 million, or 17%, during the 2001 fiscal six month period as a result of a net increase of 36 new centers opened after June 30, 2000, and a 10% increase in same center revenue. Revenues from Company-owned learning centers increased \$3.9 million, or 16%, to \$27.8 million during the 2001 fiscal six month period. Same center revenues increased

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

8%, or \$2.0 million, with the remaining revenue increase of \$1.9 million generated from five Company-owned centers acquired from franchise owners and a net of four new centers opened during the year. The acquisition of Ivy West resulted in increased revenue of \$3.5 million for the 2001 fiscal six month period. International revenues, primarily Schulerhilfe, increased by \$0.3 million or 4% over the 2000 fiscal six month period. Operating revenue for Learning Centers represents 23% of total revenues from continuing operations of the Company for the 2001 fiscal six month period.

SYLVAN EDUCATION SOLUTIONS revenue increased by \$4.9 million, or 9% to \$61.0 million for the 2001 fiscal six month period compared to the 2000 fiscal six month period. Sylvan at School revenue increased \$3.0 or 8% over the 2000 fiscal six month period due to new contracts and a continued high renewal rate of existing contracts. Canter teacher-training revenue increased \$1.9 million to \$18.4 million during the 2001 fiscal six month period compared to the 2000 fiscal six month period. Canter's revenue increase is due to greater demand for its products, particularly the distance learning masters program. Operating revenue for Sylvan Education Solutions represents 24% of total revenues from continuing operations of the Company for the 2001 fiscal six month period.

SYLVAN ENGLISH LANGUAGE INSTRUCTION revenue increased \$0.9 million to \$25.5 million for the 2001 fiscal six month period from \$24.6 million in the 2000 fiscal six month period. The revenue increase comes almost entirely from increased tuition revenues in existing Company-owned centers and from the acquisition of three centers in Argentina. Operating revenue for Sylvan English Language Instruction represents 10% of total revenues from continuing operations of the Company for the 2001 fiscal six month period.

21

SYLVAN INTERNATIONAL UNIVERSITIES revenue for the 2001 fiscal six month period increased \$77.2 million, or 272 %, to \$105.6 million, compared to the 2000 fiscal six month period. International Universities revenue increased \$74.4 million due to the acquisitions of controlling interests of Les Roches, UVM and UDLA, which occurred in the third and fourth quarters of 2000 and are, therefore, not included in revenue for the 2000 fiscal six month period. Revenue growth at UEM of \$2.8 million, or 10% to \$31.2 million for the 2001 six month period resulted from increased enrollment, new program offerings and tuition increases. Operating revenue for Sylvan International Universities represents 43% of total revenues from continuing operations of the Company for the 2001 fiscal six month period.

DIRECT COSTS. Total direct costs of revenues excluding Sylvan Ventures increased \$80.6 million, or 60%, to \$214.4 million for the 2001 fiscal six month period from \$133.8 million for the 2000 fiscal six month period. Included in direct costs in the 2001 fiscal six month period were \$65.7 million of costs of Les Roches, UVM and UDLA, which were acquired in the third and fourth quarters of 2000. Total direct costs increased \$14.9 million, or 11%, excluding the costs related to Les Roches, UVM and UDLA. Direct costs as a percentage of total revenues were 85% in the 2001 fiscal six month period consistent with the 2000 fiscal six month period.

SYLVAN LEARNING CENTERS expenses increased \$6.8 million to \$44.1 million, or 75% of Learning Centers revenue for the 2001 fiscal six month period, compared to \$37.3 million, or 77% of Learning Centers revenue for the 2000 fiscal six month period. Approximately \$3.6 million of the increase for the 2001 fiscal six month period relates to expenses incurred in Company-owned learning centers due to the acquisition of franchised learning centers and costs associated with higher revenues at existing Company-owned centers. The acquisition of Ivy West resulted in \$2.8 million of increased cost during 2001 fiscal six month period. The remaining \$0.4 million cost relates to increased

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

franchise support costs compared to the 2000 fiscal six month period. The decrease in expenses as a percentage of revenue for the 2001 fiscal six month period is primarily due to increased franchise royalties due to system-wide expansion combined with effective management of franchise related expenses.

SYLVAN EDUCATION SOLUTIONS expenses increased by \$3.3 million to \$51.6 million, or 85% of Sylvan Education Solutions revenue for the 2001 fiscal six month period, compared to \$48.3 million or 86% of Sylvan Education Solutions revenue for the 2000 fiscal six month period. The decrease in expenses as a percentage of revenue for the 2001 fiscal six month period is primarily due to the increase in higher margin products sold during the 2001 fiscal six month period, as compared to the 2000 fiscal six month period. These higher margin products include Canter's distance learning masters program and Career Starters' business expansion.

SYLVAN ENGLISH LANGUAGE INSTRUCTION expenses increased \$1.9 million to \$24.4 million or 96% of WSI revenues for the 2001 fiscal six month period compared to \$22.6 million or 92% of WSI revenues for the 2000 fiscal six month period. The increase in expenses as a percentage of revenue is primarily the result of increasing overhead costs related to the internal expansion of the international network of centers and the start up costs associated with the opening of new centers during the 2001 fiscal six month period.

SYLVAN INTERNATIONAL UNIVERSITIES expenses increased by \$68.7 million to \$94.3 million, or 89% of Sylvan International Universities revenue for the 2001 fiscal six month period, compared to \$25.6 million or 90% of Sylvan International Universities revenue for the 2000 fiscal six month period. This increase is primarily due to the acquisition of controlling interests of Les Roches, UVM and UDLA in the third and fourth quarters of 2000. The decrease in expenses as a percentage of revenue for the 2001 six month period is primarily due to improved UEM margins and high margins at Les Roches.

OTHER EXPENSES. General and administrative expenses increased by \$2.5 million in the 2001 fiscal six month period compared to the 2000 fiscal six month period. The increase was primarily due to a decrease in the allocation to third parties of certain administrative costs in 2001 and the additional costs of directing the international expansion of the Company. General and administrative expenses decreased to 5% of total

22

revenues in the 2001 fiscal six month period compared to 6% of revenues in the 2000 fiscal six month period due to cost controls and the strong revenue expansion in the 2001 fiscal six month period.

Sylvan Ventures operating costs increased by \$7.9 million to \$12.5 million for the 2001 fiscal six month period compared to \$4.6 million for the 2000 fiscal six month period. Operating costs of eSylvan, a subsidiary of Sylvan Ventures, increased \$3.8 million to \$7.2 million for the 2001 fiscal six month period. This increase is primarily due to increased expenses needed to advance the development of eSylvan's Internet-based tutoring service. Sylvan Ventures increased management expenses of \$4.1 million to \$5.3 million for the 2001 fiscal six month period compared to the 2000 fiscal six month period primarily due to increased costs associated with the research, evaluation and management of an increased number of companies in the Sylvan Ventures portfolio in the 2001 fiscal six month period compared to the 2000 fiscal six month period.

Sylvan Ventures equity in net losses of affiliates increased by \$34.3

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

million to \$35.4 million for the 2001 fiscal six month period compared to \$1.1 million for the 2000 fiscal six month period primarily due to the increased amount of investments in the Sylvan Ventures' portfolio in the 2001 fiscal six month period. These losses relate to Sylvan Ventures' share of operating losses generated by the early stage enterprises in the investment portfolio and the amortization of the difference between the initial carrying amount of equity method investments and the underlying equity in net assets of these investments at the time of purchase. Sylvan Ventures investment losses of \$0.6 million consisted of impairment charges related to portfolio investments. Minority interests' share of Sylvan Ventures losses totaled \$3.1 million for the 2001 fiscal six month period.

The loss on investment was prompted by the Caliber Learning Network, Inc. ("Caliber") filing for Chapter 11 bankruptcy protection on June 15, 2001. The Sylvan Ventures investment in Caliber of \$2.9 million was reduced to \$0 upon recording its allocable share of losses related to Caliber prior to the bankruptcy proceedings, which is included in "Equity in net loss of affiliates". Additionally, the Company recorded a loss on investment of \$14.2 million in the 2001 fiscal six month period. This charge consists of the reserve for notes receivable and advances to Caliber of \$7.5 million as well as the accrual of a \$6.7 million estimated liability relating to the Company's guarantee of certain non-cancelable Caliber lease obligations and other Caliber related liabilities incurred by the Company. Due to the uncertainties surrounding the bankruptcy proceedings and the ultimate settlement of Caliber's lease and other liabilities, it is reasonably possible that the Company's loss estimate may change prior to finalization.

Other non-operating items decreased by \$8.9 million for the 2001 fiscal six month period compared to the 2000 fiscal six month period. The decrease is largely attributable to a decrease in interest income of \$4.6 million, an increase in interest expense of \$2.0 million and an increase in minority interest expense of \$3.0 million. The increased minority interest expense is generated from strong operating performance of the Universities which SIU maintains a controlling interest.

The Company's effective tax rate from continuing operations was 36% for the 2001 fiscal six month period. This reported effective income tax rate from continuing operations differs from the U.S. federal statutory tax rate due to the impact of state income taxes, minority interests, foreign income taxed at lower rates and the inability to utilize tax benefits from certain investment losses of Sylvan Ventures. On a full year basis, the Company estimates that its effective income tax rate for the Company (excluding Sylvan Ventures) and Sylvan Ventures continuing operations for the year ended December 31, 2001 will be 34% and 35% respectively.

INCOME (LOSS) FROM CONTINUING OPERATIONS. Income from continuing operations decreased by \$35.1 million, to a loss of \$25.0 million for the 2001 fiscal six month period. The decrease is primarily the result of the loss on the investment in and advances to Caliber of \$14.2 million and additional Sylvan Ventures' related costs and investment losses, which increased \$42.0 million in the 2001 fiscal six month period compared to the 2000 fiscal six month period, which offset operating income increases of \$10.0 million.

### LIQUIDITY AND CAPITAL RESOURCES

Cash used by operations was \$68.0 million for the 2001 fiscal six month period, a decrease of \$59.5 million as compared to the 2000 fiscal six month

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

period. The reported net loss of \$25.0 million was offset by significant non-cash items such as depreciation and amortization charges (\$18.5 million) and equity in net loss of affiliates, primarily of Sylvan Ventures (\$35.6 million). Working capital related decreases in liquidity of \$113.6 million consisted primarily of income tax payments resulting from the sale of Prometric in the first quarter of 2000, which were not payable until 2001.

Cash provided by investing activities was \$15.9 million for the 2001 fiscal six month period compared to cash provided by investing activities of \$573.7 million for the 2000 fiscal six month. The 2001 investment activity was primarily the result of net proceeds from the sale of available-for-sale securities (\$111.7 million) partially offset by increases in investments in and advances to affiliates primarily related to Sylvan Ventures (\$36.6 million), purchases of property and equipment (\$28.3 million), the payment of contingent consideration for prior acquisitions (\$25.1 million) and net cash paid for acquired businesses (\$3.0 million). The significant investing proceeds received in the 2000 fiscal six month period related primarily to the sale of the Prometric division (\$710.3 million). At June 30, 2001, the Company has accrued obligations payable in cash of \$16.5 million related to contingent consideration for certain prior acquisitions. The amounts are expected to be paid later in 2001.

Cash provided by financing activities was \$29.7 million in the 2001 fiscal six month period compared to cash used in financing activities of \$160.5 million in the 2000 fiscal six month period. The 2001 financing activity related primarily to cash received from the minority interest members of Sylvan Ventures (\$21.9 million) and proceeds from the exercise of options (\$7.0 million). Cash used by financing activities of \$160.5 million in the 2000 fiscal six month period related primarily to the net repayment of the Company's borrowings (\$30.8 million) and the repurchase of shares of its common stock (\$140.0 million), offset by cash received from the minority interest partners in Sylvan Ventures (\$9.3 million).

The Company anticipates that cash flow from operations, available cash and existing credit facilities, will be sufficient to meet its operating requirements, including the expansion of its existing business, funding International University acquisitions, payment of contingent consideration and funding of Sylvan Ventures investments and operating costs. Sylvan Ventures has outstanding commitments to provide certain additional funding totaling \$43.0 million to certain portfolio companies. The Company continues to examine opportunities in the educational services industry for potential synergistic acquisitions.

### EURO CONVERSION

On January 1, 1999, certain countries of the European Union established fixed conversion rates between their existing currencies and one common currency, the Euro. The Euro is now traded on currency exchanges and may be used in business transactions. The Company encountered no difficulties related to the initial adoption of the Euro in 1999. Beginning in January 2002, new Euro-denominated currencies will be issued and the existing currencies will be withdrawn from circulation. The Company is currently evaluating the systems and business issues raised by the euro conversion. These issues include the need to adapt computer and other business systems and equipment and the competitive impact of cross-border transparency. At present, management does not believe the Euro conversion will have a material impact on the Company's financial condition or results of operations.

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

### CONTINGENT MATTERS

In connection with the Company's acquisition of Les Roches, variable amounts of contingent consideration are payable to the seller if specified levels of earnings are achieved in 2001 and 2002. The Company will record the contingent consideration when the contingencies are resolved and the additional consideration is payable.

In connection with the Company's acquisition of UDLA, variable amounts of contingent consideration are payable to the seller in 2006 and 2007 if specified levels of earnings are achieved in 2004, 2005 and 2006. The Company will record the contingent consideration when the contingencies are resolved and the additional consideration is payable.

The Company has entered into agreements with certain franchisees of Sylvan Learning Centers and Wall Street Institute that allow the franchisees to require that the Company repurchase the centers at a predetermined multiple of operating results if specified operating results thresholds are achieved. When the Company can assess the likelihood of this repurchase right being exercised and the amount of the related commitment to purchase the center, such obligation will be disclosed.

### EFFECTS OF INFLATION

Inflation has not had a material effect on Sylvan's revenues and income from continuing operations in the past three years. Inflation is not expected to have a material effect in the foreseeable future.

### SEASONALITY IN RESULTS OF OPERATIONS

The Company experiences seasonality in results of operations primarily as a result of changes in the level of student enrollments and the timing of semester cycles, particularly in the International Universities segment. Timing of semester breaks at the International Universities results in the most favorable operating performance being achieved in the second and fourth quarters of the year. Other factors that impact the seasonality of operating results include: timing of contracts funded under Title I, timing of summer vacations, timing of franchise license fees and the timing of Sylvan Ventures' development costs. Revenues and profits in any period will not necessarily be indicative of results in subsequent periods.

ALL STATEMENTS CONTAINED HEREIN THAT ARE NOT HISTORICAL FACTS, INCLUDING BUT NOT LIMITED TO, STATEMENTS REGARDING THE COMPANY'S CONTINGENT PAYMENT OBLIGATIONS RELATING TO ACQUISITIONS, FUTURE CAPITAL REQUIREMENTS, POTENTIAL ACQUISITIONS, AND THE COMPANY'S FUTURE DEVELOPMENT PLANS ARE BASED ON CURRENT EXPECTATIONS. THESE STATEMENTS ARE FORWARD LOOKING IN NATURE AND INVOLVE A NUMBER OF RISKS AND UNCERTAINTIES. POLITICAL, ECONOMIC, CURRENCY, TAX, REGULATORY, TECHNOLOGICAL, COMPETITIVE AND OTHER FACTORS DESCRIBED IN THE COMPANY'S REPORTS FILED FROM TIME TO TIME WITH THE SECURITIES AND EXCHANGE COMMISSION COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THE FORWARD-LOOKING STATEMENTS. THE COMPANY CAUTIONS READERS NOT TO PLACE UNDUE RELIANCE ON ANY SUCH FORWARD LOOKING STATEMENTS, WHICH STATEMENTS ARE MADE PURSUANT TO THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 AND, AS SUCH, SPEAK ONLY AS OF THE DATE MADE.

## Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from the changes in the price of financial instruments. The Company is exposed to financial market risks, including changes in foreign currency exchange rates, interest rates and investment values. The Company occasionally uses derivative financial instruments to protect against adverse currency movements related to significant foreign acquisitions. Exposure to market risks related to operating activities is managed through the Company's regular operating and financing activities.

### FOREIGN CURRENCY RISK

The Company derives approximately 55% of its revenues from continuing operations from customers outside the United States. This business is transacted through a network of international subsidiaries, generally in the local currency that is considered the functional currency of that foreign subsidiary. Expenses are also incurred in the foreign currencies to match revenues earned and minimize the Company's exchange rate exposure to operating margins. A hypothetical 10% adverse change in average annual foreign currency exchange rates would increase net loss and decrease cash flows for the fiscal six month period 2001 by \$0.9 million. The Company generally views its investment in the majority of its foreign subsidiaries as long-term. The effects of a change in foreign currency exchange rates on the Company's net investment in foreign subsidiaries are reflected in other comprehensive income (loss). A 10% depreciation in functional currencies relative to the U.S. dollar would result in a decrease in consolidated stockholders' equity at June 30, 2001 of approximately \$26.1 million.

### INTEREST RATE RISK

The Company holds its cash and cash equivalents in high quality short-term fixed income securities. Consequently, the fair value of the Company's cash and cash equivalents would not be significantly impacted by either a 100 basis point increase or decrease in interest rates due to the short-term nature of the Company's portfolio. The Company's long-term revolving credit facility bears interest at variable rates, and the fair value of this instrument is not significantly affected by changes in market interest rates. The Company's convertible debentures bear interest at 5%, which presently approximates the market rate and therefore the fair value approximates the recorded value of this liability. A 100 basis point decrease in interest rates would reduce net interest income for the 2001 fiscal six month period by \$0.7 million.

### INVESTMENT RISK

The Company's investment portfolio contains debt securities that mature within one year. A hypothetical 10% adverse change in the fair value of the debt securities would not materially adversely effect earnings or cash flows because of the Company's ability to hold the debt securities until maturity.

In addition to the debt securities, the Company also has an investment portfolio that consists of direct investment positions in education technology companies through Sylvan Ventures as well as short-term investments in available-for-sale debt and equity securities. The Company's investment portfolio is exposed to risks arising from changes in these investment values.

The Company's investment portfolio includes a number of holdings of non-publicly traded companies in the educational services industry. The Company accounts for these investments using either the cost method (cost less impairment, if any) or the equity method of accounting. Equity method investments are specifically excluded from the scope of this disclosure. Non-public investments where the Company owns less than a 20% interest are subject to fluctuations in market value, but their current illiquidity reduces

Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

the exposure to pure market risk while resulting in risk that the Company may not be able to liquidate these investments in a timely manner.

26

The Company is exposed to equity price risks on equity securities included in the portfolio of investments entered into for the promotion of business and strategic objectives. These investments are generally small capitalization stocks in the Internet segment of the educational services industry. The Company typically does not attempt to reduce or eliminate its market exposure on these securities. A 10% adverse change in equity prices would not materially impact the fair value of the Company's marketable securities or other comprehensive income (loss).

All the potential impacts noted above are based on sensitivity analysis performed on the Company's financial position at June 30, 2001. Actual results may differ materially.

27

PART II - OTHER INFORMATION

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

- (a) The Company held its 2000 annual meeting of stockholders on May 30, 2001.
- (b) The following sets forth information regarding each matter voted upon at the 2000 annual meeting. There were 37,788,077 shares of common stock outstanding as of the record date for, and entitled to vote at, the 2000 annual meeting.

Proposal No. 1. The stockholders approved election of both of the nominees to the board of directors. The tabulation of votes on this proposal is as follows:

NOMINEE	FOR	WITHHELD
Douglas L. Becker	26,251,379	3,544,296
James H. McGuire	29,465,710	329,965
Richard R. Riley	29,447,125	348,550
Judith D. Moore	29,454,118	341,557

Proposal No. 2. The stockholders ratified the selection of Ernst & Young, LLP as the Company's independent auditors. The tabulation of votes on this proposal is as follows:

For Approval	29,536,238
Against Approval	249,494

Edgar Filing: SYLVAN LEARNING SYSTEMS INC - Form 10-Q

Abstain	9,943
Total Shares Voted	29,795,675

28

PART II - OTHER INFORMATION

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

- (a) Exhibits  
None
- (b) Reports on Form 8-K  
The Company filed one report on Form 8-K during the six month period ended June 30, 2001. The 8-K dated April 4, 2001 related to Amendment to the Rights Agreement.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on behalf by the undersigned thereunto duly authorized.
