EXPLANATORY NOTE:

Beginning in the first quarter of 2002, Motorola will add new statement lines in the consolidated statement of operations to align more closely with the financial statement presentation of other technology companies. As a result, certain reclassifications have been made to previously reported quarterly and annual financial statement information for them to be comparable to the 2002 presentation. These reclassifications do not change the company's results of operations as historically reported.

**New Statement Lines**

**Cost of Sales** The statement line *Manufacturing and other costs of sales* has been renamed *Costs of sales*. *Costs of sales* includes all costs applicable to sales, including manufacturing depreciation.

## Edgar Filing: MOTOROLA INC - Form 8-K

**Gross Margin** A new subtotal *Gross margin*, has been added which reflects *Net sales* minus *Costs of sales*.

**Operating Earnings (Loss)** A new subtotal *Operating earnings (loss)* has been added which represents *Gross margin* minus operating expenses. Operating expenses include: selling, general and administrative expenses; research and development expenses; severance and exit costs; fixed asset impairments; non-manufacturing depreciation and other operating charges.

**Other Income (Expense)** The category *Other income/(expense)*, has been added and includes non-operating income/(expense) items. These items include: interest expense, interest income, gains/(losses) on sales of investments and businesses, foreign currency translation and transaction gains/(losses), investment impairments, equity in net earnings/(losses) of affiliated companies and other non-operating income/(expense) amounts.

### Reclassifications

**Depreciation Expense** Depreciation expense will no longer be presented as a separate statement line on the consolidated statement of operations. Depreciation expense related to manufacturing activities will be reflected in the statement line *Costs of sales*. Non-manufacturing depreciation will be reflected in the respective statement lines *Selling, general and administrative expenses* and *Research and development expenses*. Total depreciation expense will be disclosed in the Company's filings.

### Other Income (Expense)

**Interest Income (Expense)** Interest income and interest expense related to Motorola Credit Corporation (MCC), the Company's wholly-owned finance subsidiary, will be reflected on the statement line *Interest expense, net*. As disclosed in the Company's historical financial statements, MCC's interest income was included in *Net sales* and MCC's interest expense was included in *Manufacturing and other costs of sales*.

**Other** Foreign currency translation and transaction gains/(losses) and equity in net earnings/(losses) of affiliated companies will be reflected on the statement line *Other*. These items were included in *Selling, general and administrative expenses*.

**Segment Disclosures** The disclosure for each segment will include *Net sales*, (which has been adjusted for the reclassification of MCC's interest income) and *Operating earnings (loss)* as described above. *Earnings (loss) before income taxes* will no longer be disclosed by segment.

The sole purpose of this Form 8-K is to provide reclassified consolidated statements of operations and related segment information tables that conform to this new presentation. Exhibit 99.1, which is attached hereto, contains reclassified statements of operations and related segment information tables

1
