NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1- INTERIM RESULTS AND BASIS OF PRESENTATION:

The accompanying unaudited financial statements as of September 28, 2007 and September 29, 2006 and for the six months then ended have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Items 303 and 310 of Regulation S-B. In the opinion of management, the unaudited financial statements have been prepared on the same basis as the annual financial statements and reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the financial position as of September 28, 2007 and September 29, 2006 and the results of operations and cash flows for the six months then ended. The financial data and other information disclosed in these notes to the interim financial statements related to these periods are unaudited. The results for the six months ended September 28, 2007, are not necessarily indicative of the results to be expected for any subsequent quarter or the entire fiscal year. The balance sheet at March 30, 2007 has been derived from the audited financial statements at that date.

Certain information and footnote disclosures normally included in

Edgar Filing: IEH CORPORATION - Form 10QSB

financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the Securities and Exchange Commission's rules and regulations. The Company believes, however, that the disclosures in this report are adequate to make the information presented not misleading in any material respect. The accompanying financial statements should be read in conjunction with the audited financial statements of IEH Corporation as of March 30, 2007 and notes thereto included in the Company's report on Form 10-KSB as filed with the Securities and Exchange Commission.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Description of Business:

The Company is engaged in the design, development, manufacture and distribution of high performance electronic printed circuit connectors and specialized interconnection devices. Electronic connectors and interconnection devices are used in providing electrical connections between electronic component assemblies. The Company develops and manufactures connectors, which are designed for a variety of high technology and high performance applications, and are primarily utilized by those users who require highly efficient and dense (the space between connection pins with the connector) electrical connections.

The Company is continuously redesigning and adapting its connectors to meet and keep pace with developments in the electronics industry and has, for example, developed connectors for use with flex-circuits now being used in aerospace programs, computers, air-borne communications systems, testing systems and other areas. The Company also services its connectors to meet specified product requirements.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Revenue Recognition:

Revenues are recognized at the shipping date of the Company's products. The Company has historically adopted the shipping terms that title merchandise passes to the customer at the shipping point (FOB Shipping Point). At this juncture, title has passed, the Company has recognized the sale, inventory has been relieved, and the customer has been invoiced. The Company does not offer any discounts, credits or other sales incentives.

The Company's policy with respect to customer returns and allowances as well as product warranty is as follows:

The Company will accept a return of defective product within one year from shipment for repair or replacement at the Company's option. If the product is repairable, the Company at its own cost, will repair and return it to the customer. If unrepairable, the Company will either offer an allowance against payment or will reimburse the customer for the total cost of product.

Edgar Filing: IEH CORPORATION - Form 10QSB

Most of the Company's products are custom ordered by customers for a specific use. The Company provides engineering services as part of the relationship with its customers in developing the custom product. The Company is not obligated to provide such engineering service to its customers. The Company does not charge separately for these services.

Inventories:

Inventories are stated at cost, on a first-in, first-out basis, which does not exceed market value.

The Company manufactures products pursuant to specific technical and contractual requirements. The Company historically purchases material in excess of its requirements to avail itself of favorable pricing as well as the possibility of receiving additional orders from customers. This excess may result in material not being used in subsequent periods, which may result in this material being deemed obsolete.

The Company annually reviews its purchase and usage activity of its inventory of parts as well as work in process and finished goods to determine which items of inventory have become obsolete within the framework of current and anticipated orders. The Company based upon historical experience has determined that if a part has not been used and purchased or an item of finished goods has not been sold in three years, it is deemed to be obsolete. The Company estimates which materials may be obsolete and which products in work in process or finished goods may be sold at less than cost. A periodic adjustment, based upon historical experience is made to inventory in recognition of this impairment.

Concentration of Credit Risk:

The Company maintains cash balances at one financial institution. Amounts on deposit are insured by the Federal Deposit Insurance Corporation up to \$100,000 in the aggregate. There were no uninsured balances at either September 28, 2007 or March 30, 2007.

IEH CORPORATION

NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Property, Plant and Equipment:

Property, plant and equipment is stated at cost less accumulated depreciation and amortization. The Company provides for depreciation and amortization using the Double Declining Balance method over the estimated useful lives (5-7 years) of the related assets.

Maintenance and repair expenditures are charged to operations, and renewals and betterments are capitalized. Items of property, plant and equipment, which are sold, retired or otherwise disposed of, are removed from the asset and accumulated depreciation or amortization accounts. Any gain or loss thereon is either credited or charged to operations.

Edgar Filing: IEH CORPORATION - Form 10QSB

Income Taxes:

The Company follows the policy of treating investment tax credits as a reduction in the provision for federal income tax in the year in which the credit arises or may be utilized. Deferred income taxes arise from temporary differences resulting from different depreciation methods used for financial and income tax purposes. The Company has adopted Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes".

Net Income Per Share:

The Company has adopted the provisions of SFAS No. 128, "Earnings Per Share", which requires the disclosure of "basic" and "diluted" earnings (loss) per share. Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during each period. Diluted earnings per share is similar to basic earnings per share except that the weighted average number of common shares outstanding is increased to reflect the dilutive effect of potential common shares, such as those issuable upon the exercise of stock or warrants, as if they had been issued. For the six months ended September 28, 2007 and September 29, 2006, there were no items of potential dilution that would impact on the computation of diluted earnings or loss per share.

Fair Value of Financial Instruments:

SFAS 105, "Disclosures About Fair Value of Financial Instruments," requires disclosure of fair value information about financial instruments. Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of September 28, 2007.

The respective carrying value of certain on-balance-sheet financial instruments approximates their fair values. These financial instruments include cash, accounts receivable, accounts payable and borrowings. Fair values were assumed to approximate carrying values for these financial instruments since they are short-term in nature and their carrying amounts approximate fair value or they were receivable or payable on September 28, 2007.

10

IEH CORPORATION

NOTES TO FINANCIAL STATEMENTS
(Unaudited)

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual amounts could differ from those estimates.

Edgar Filing: IEH CORPORATION - Form 10QSB

Impairment of Long-Lived Assets:

SFAS No. 121, "Accounting For The Impairment of Long-Lived Assets To Be Disposed Of", requires that long-lived assets and certain identifiable intangibles to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company has adopted SFAS No. 121. There were no long-lived asset impairments recognized by the Company for the six months ended September 28, 2007 and September 29, 2006 respectively.

Reporting Comprehensive Income:

The Company has adopted the provisions of SFAS No. 130, "Reporting Comprehensive Income". This Statement established standards for reporting and display of comprehensive income and its components (revenues, expenses, gains and losses) in an entity's financial statements. This Statement requires an entity to classify items of other comprehensive income by their nature in a financial statement and display the accumulated balance of other comprehensive income separately from retained earnings and additional paid-in capital in the equity section of a statement of balance sheet. There were no material items of comprehensive income to report for the six months ended September 28, 2007 and September 29, 2006 respectively.

Segment Information:

The Company has adopted the provisions of SFAS No. 131, "Disclosures About Segment of An Enterprise and Related Information." This Statement requires public enterprises to report financial and descriptive information about its reportable operating segments and establishes standards for related disclosures about product and services, geographic areas, and major customers. The adoption of SFAS No. 131 did not affect the Company's presentation of its results of operations or financial position.

(Unaudited)

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Research and Development:

The Company provides personalized engineering services to its customers by designing connectors for specific customer applications. The employment of electromechanical engineers is the anticipated cornerstone of the Company's future growth. The Company maintains a testing laboratory where its engineers experiment with new connector designs based on changes in technology and in an attempt to create innovative, more efficient connector designs.

The Company did not expend any funds on customer sponsored research and development during the six months ended September 28, 2007 and September 29, 2006. In addition the Company did not receive any revenues related to customer sponsored research and development activities during the six months ended September 28, 2007 and September

Edgar Filing: IEH CORPORATION - Form 10QSB

29, 2006.

Effect of New Accounting Pronouncements:

Effective April 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board Interpretation No.48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes- an interpretation of FASB Statement No. 109", which clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with FASB Statement No.109, "Accounting for Income Taxes". FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement disclosures of tax positions taken or expected to be taken in an income tax filing. The evaluation of a tax position is a two step process. The first step requires an entity to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. The second step requires an entity to recognize in the financial statements each tax position that meets the more likely than not criteria, measured at the largest amount of benefit that has a greater than fifty percent likelihood of being recognized. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting for interim periods, disclosure and transition.

The Company believes that with its adoption of FIN 48, that the income tax positions taken by it did not have a material effect on the financial statements for the six months ended September 28, 2007.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements", which enhances existing guidance for measuring assets and liabilities using fair value. This Standard provides a single definition of fair value, together with a framework for measuring it, and requires additional disclosure about the use of fair value to measure assets and liabilities. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company does not believe that SFAS No. 157 will have a material impact on its financial statements.

12

IEH CORPORATION

NOTES TO FINANCIAL STATEMENTS
(Unaudited)

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Effect of New Accounting Pronouncements: (continued)

In February 2007, the FASB issued SFAS No. 159 ("SFAS 159") "The Fair Value Option for Financial Assets and Financial Liabilities", providing companies with an option to report selected financial assets and liabilities at fair value. The Standard's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. It also requires entities to display the fair value of those assets and liabilities for which the Company has chosen to use fair value on the face of the balance sheet. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company does not

Edgar Filing: IEH CORPORATION - Form 10QSB

believe that SFAS No. 159 will have a material impact on its financial statements.

Note 3 - INVENTORIES:

Inventories are stated at cost, on a first-in, first-out basis, which does not exceed market value.

The Company manufactures products pursuant to specific technical and contractual requirements. The Company historically purchases material in excess of its requirements to avail itself of favorable pricing as well as the possibility of receiving additional orders from customers. This excess may result in material not being used in subsequent periods, which may result in this material being deemed obsolete.

The Company annually reviews its purchase and usage activity of its inventory of parts as well as work in process and finished goods to determine which items of inventory have become obsolete within the framework of current and anticipated orders. The Company based upon historical experience has determined that if a part has not been used and purchased or an item of finished goods has not been sold in three years, it is deemed to be obsolete. The Company estimates which materials may be obsolete and which products in work in process or finished goods may be sold at less than cost. A periodic adjustment, based upon historical experience is made to inventory in recognition of this impairment.

Inventories are comprised of the following:

	Sept. 28, 2007	March 30, 2007
	-----	-----
Raw materials	\$ 934,627	\$ 873,958

Note 6 - ACCOUNTS RECEIVABLE FINANCING:

The Company entered into an accounts receivable financing agreement whereby it can borrow up to eighty percent of its eligible receivables (as defined in the agreement) at an interest rate of 2 1/2 % above JP Morgan Chase's publicly announced rate of 7.75% at September 28, 2007. However, the agreement does stipulate that the minimum interest rate is 12% per annum. The agreement has an initial term of one year and will automatically renew for successive one-year terms, unless terminated by the Company or Lender upon receiving sixty days prior notice. The loan is secured by the Company's accounts receivable and inventories. The balance due under this agreement as of September 28, 2007 was \$413,447. The balance due as of March 30, 2007 was \$477,387.

Note 10 - PENSION PLAN-SALARIED PERSONNEL:

On June 30, 1995, the Company applied to the Pension Benefit Guaranty Corporation ("PBGC") to have the PBGC assume all of the Company's responsibilities and liabilities under its Salaried Pension Plan. On April 26, 1996, the PBGC determined that the Salaried Pension Plan did not have sufficient assets available to pay benefits, which were and are currently due under the terms of the Plan.

The PBGC further determined that pursuant to the provisions of the

Edgar Filing: IEH CORPORATION - Form 10QSB

Employment Retirement Income Security Act of 1974, as amended ("ERISA"), that the Plan must be terminated in order to protect the interests of the Plan's participants. Accordingly, the PBGC proceeded pursuant to ERISA to have the Plan terminated and the PBGC appointed as statutory trustee, and to have July 31, 1995 established as the Plan's termination date.

The Company and the PBGC negotiated a settlement on the entire matter and on July 2, 2001, an agreement was reached whereby the Company's liability to the PBGC was reduced to \$244,000. The Company will make monthly payments to the PBGC as follows:

September 1, 2003 to August 1, 2004	\$2,000 per month
September 1, 2004 to August 1, 2006	\$3,000 per month
September 1, 2006 to August 1, 2007	\$4,000 per month

Additionally, the Company had made balloon payments of \$25,000 each on January 1, 2004, May 1, 2004, May 1, 2005 and January 1, 2006.

The Company also granted the PBGC a lien on the Company's machinery and equipment.

As a result of this agreement the amount due the PBGC was restated to \$244,000. The balance due the PBGC was satisfied on September 1, 2007.

Note 11- CHANGES IN STOCKHOLDERS' EQUITY:

The accumulated deficit decreased by \$99,987, which represents the net income for the six months ended September 28, 2007.

Note 12- 2001 EMPLOYEE STOCK OPTION PLAN:

Under this Plan, the exercise price of an option designated as an Incentive Stock Option shall not be less than the fair market value of the Company's common stock on the day the option is granted. In the event an option designated as an incentive stock option is granted to a ten percent (10%) shareholder, such exercise price shall be at least 110 Percent (110%) of the fair market value or the Company's common stock and the option must not be exercisable after the expiration of five years from the day of the grant.

Exercise prices of non-incentive stock options may be less than the fair market value of the Company's common stock.

The aggregate fair market value of shares subject to options granted to a participant(s), which are designated as incentive stock options, and which become exercisable in any calendar year, shall not exceed \$100,000. As of September 28, 2007 no options had been granted under this Plan.

Note 13 - CASH BONUS PLAN:

Edgar Filing: IEH CORPORATION - Form 10QSB

In 1987, the Company adopted a cash bonus plan ("Cash Bonus Plan") for Executive Officers. Contributions to the Cash Bonus Plan are made by the Company only after pre-tax operating profits exceed \$150,000 for a fiscal year, and then to the extent of 10% of the excess of the greater of \$150,000 or 25% of pre-tax operating profits. The Company accrued \$20,500 for the six months ended September 28, 2007. For the year ended March 30, 2007, the contribution was \$20,000.

Note 14 - COMMITMENTS:

The Company leases its facility under a renewed tenure lease agreement, which expires on August 23, 2011. The Company is obligated under this lease at minimum annual rentals as follows:

Fiscal year ending March:

2008	\$	84,192
2009		168,384
2010		168,384
2011		112,256

	\$	533,216

Note 14 - COMMITMENTS: (continued)

The Company has a collective bargaining multi-employer pension plan ("Multi-Employer Plan") with the United Auto Workers of America, Local 259 ("UAW"). Contributions are made by the Company in accordance with a negotiated labor contract and are based on the number of covered employees employed per month. With the passage of the Multi-Employer Pension Plan Amendment Act of 1990 (the "Act"), the Company may become subject to liabilities in excess of contributions made under the collective bargaining agreement. Generally, these are contingent upon termination, withdrawal, or partial withdrawal from the Multi-Employer Plan. The Company has not taken any action to terminate, withdraw or partially withdraw from the Multi-Employer Plan, nor does it intend to do so in the future. Under the Act, liabilities would be based upon the Company's proportional share of the Multi-Employer Plan's unfunded vested benefits which is currently not available. The amount of accumulated benefits and net assets of such Plan also is not currently available to the Company. The total contributions charged to operations under the provisions of the Multi-Employer Plan were \$36,318 and \$33,925 for the six months ended September 28, 2007 and September 29, 2006, respectively.

In 1992, the Company had been in arrears with respect to its contributions to the Multi-Employer Plan in the amount of \$186,467. The Company and the UAW entered into a verbal agreement whereby the Company

Edgar Filing: IEH CORPORATION - Form 10QSB

would continue making current contributions as well as making periodic payments to satisfy the outstanding arrears obligation to the Multi-Employer Plan. The outstanding obligation was satisfied by the Company on July 12th, 2007. Under the terms of this verbal agreement, the Company was not obligated to pay interest until the arrears was satisfied.

The amount of interest due is subject to ongoing negotiations between the Company and the UAW.

The Company has accrued the amount of \$71,000 in interest expense in the six months ended September 28, 2007.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Statements contained in this report which are not historical facts may be considered forward-looking information with respect to plans, projections, or future performance of the Company as defined under the Private Securities Litigation Reform Act of 1995. These forward-looking statements are subject to risks and uncertainties which could cause actual results to differ materially from those projected. The words "anticipate", "believe", "estimate", "expect", "objective", and "think" or similar expressions used herein are intended to identify forward-looking statements. The forward-looking statements are based on the Company's current views and assumptions and involve risks and uncertainties that include, among other things, the effects of the Company's business, actions of competitors, changes in laws and regulations, including accounting standards, employee relations, customer demand, prices of purchased raw material and parts, domestic economic conditions, including housing starts and changes in consumer disposable income, and foreign economic conditions, including currency rate fluctuations. Some or all of the facts are beyond the Company's control.

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related footnotes which provide additional information concerning the Company's financial activities and condition.

Critical Accounting Policies

The Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which require the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements, and revenues and expenses during the periods reported. Actual results could differ from those estimates. The Company believes the following are the critical accounting policies, which could have the most significant effect on the Company's reported results and require the most difficult, subjective or complex judgments by management.

- o Impairment of Long-Lived Assets:
The Company reviews its long-lived assets for impairment whenever events or circumstances indicate that the carrying amount of an asset may not be recoverable. If the sum of the expected cash flows, undiscounted and without interest, is less than the carrying amount of

Edgar Filing: IEH CORPORATION - Form 10QSB

the asset, an impairment loss is recognized as the amount by which the carrying amount of the asset exceeds its fair value. The Company makes estimates of its future cash flows related to assets subject to impairment review.

- o Inventory Valuation:
Raw materials and supplies are valued at the lower of first-in, first-out cost or market. Finished goods and work in process are valued at the lower of actual cost, determined on a specific identification basis, or market. The Company estimates which materials may be obsolete and which products in work in process or finished goods may be sold at less than cost, and adjusts their inventory value accordingly. Future periods could include either income or expense items if estimates change and for differences between the estimated and actual amount realized from the sale of inventory.

19

IEH CORPORATION

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Critical Accounting Policies (continued)

- o Income Taxes:
The Company records a liability for potential tax assessments based on its estimate of the potential exposure. Due to the subjectivity and complex nature of the underlying issues, actual payments or assessments may differ from estimates. Income tax expense in future periods could be adjusted for the difference between actual payments and the Company's recorded liability based on its assessments and estimates.
- o Revenue Recognition:
Revenues are recognized at the shipping date of the Company's products. The Company has historically adopted the shipping terms that title merchandise passes to the customer at the shipping point (FOB Shipping Point). At this juncture, title has passed, the Company has recognized the sale, inventory has been relieved, and the customer has been invoiced. The Company does not offer any discounts, credits or other sales incentives.

The Company's policy with respect to customer returns and allowances as well as product warranty is as follows:

The Company will accept a return of defective product within one year from shipment for repair or replacement at the Company's option. If the product is repairable, the Company at its own cost will repair and return it to the customer. If unrepairable, the Company will either offer an allowance against payment or will reimburse the customer for the total cost of the product.

Most of the Company's products are custom ordered by customers for a specific use. The Company provides engineering services as part of the relationship with its customers in developing the custom product. The Company is not obligated to provide such engineering service to its customers. The Company does not charge separately for these services.

- o Research & Development:
The Company provides personalized engineering services to its customers

Edgar Filing: IEH CORPORATION - Form 10QSB

by designing connectors for specific customer applications. The employment of electromechanical engineers is the anticipated cornerstone of the Company's future growth. The Company maintains a testing laboratory where its engineers experiment with new connector designs based on changes in technology and in an attempt to create innovative, more efficient connector designs.

Comparative Analysis—Six Months Ended September 28, 2007 and September 29, 2006 (continued)

Selling, general and administrative expenses were \$601,698 or 16.82% of operating revenues for the six months ended September 28, 2007 compared to \$549,658 or 18.06% of operating revenues for the six months ended September 29, 2006. This category of expense increased by \$52,040 or 9.47% from the prior year. The increase can be attributed to an increase in sales salaries, commissions and travel.

Interest expense was \$115,144 for the six months ended September 28, 2007 or 3.22% of operating revenues. For the fiscal six months ended September 29, 2006, interest expense was \$32,168 or 1.06% of operating revenues. The increase of \$82,976 or 257.95% reflects primarily an accrual for disputed interest on union pension arrears during the six months ended September 28, 2007, the amount of interest due will be settled in the next quarter.

Depreciation and amortization of \$100,680 or 2.82% of operating revenues was reported for the six months ended September 28, 2007. This reflects an increase of \$1,271 from the prior six months ended September 29, 2006 of \$99,409 or 3.27% of operating revenues.

The Company reported net income of \$99,987 for the six months ended September 28, 2007 representing basic earnings of \$.04 per share as compared to net income of \$27,506 or \$.01 per share for the six months ended September 29, 2006. The increase in net income for the current six month period can be attributed primarily to the increase in commercial sales orders shipped during the quarter ended September 28, 2007.

\$278,560 or 19.28% of operating revenues for the three months ended September 29, 2006. This category of expenses increased by \$23,517 or 8.44% from the prior year. The increase can be attributed to an increase in sales salaries, commissions and travel.

Interest expense was \$53,604 for the three months ended September 28, 2007 or 2.96% of operating revenues. For the fiscal three months ended September 29, 2006, interest expense was \$15,376 or 1.04% of operating revenues. The increase of \$38,228 or 248.62% reflects primarily an accrual for interest on union pension arrears during the quarter ended September 28, 2007.

Depreciation and amortization of \$50,340 or 2.78% of operating revenues was reported for the three months ended September 28, 2007. This reflects an increase of \$636 or 1.28% from the prior three months ended September 29, 2006 of \$49,704 or 3.46% of operating revenues.

The Company reported net income of \$27,506 for the three months ended September 28, 2007 representing basic earnings of \$.01 per share as compared to a net loss of \$8,207 or \$.01 per share for the three months ended September 29, 2006. The increase in net income for the current three month period can be attributed primarily to the increase in sales orders shipped in the current quarter.

Liquidity and Capital Resources

The Company reported working capital of \$1,370,108 as of September 28, 2007 compared to a working capital of \$1,267,189 as of March 30, 2007. The increase in working capital of \$102,919 was attributable to the following items:

Net income	\$ 99,987
Depreciation and amortization	100,680
Capital expenditures	(97,120)
Other transactions	(628)

As a result of the above, the current ratio (current assets to current liabilities) was 1.89 to 1 at September 28, 2007 as compared to 1.95 to 1 at March 30, 2007. Current liabilities at September 28, 2007 were \$1,544,198 compared to \$1,334,302 at March 30, 2007.

The Company reported \$97,120 in capital expenditures for the six months ended September 28, 2007 and reported depreciation of \$100,680 for the same six-month period.

The net income of \$99,987 for the six months ended September 28, 2007 resulted in an increase in stockholders' equity to \$2,584,008 as compared to stockholders' equity of \$2,484,020 at March 30, 2007.

The Company has an accounts receivable financing agreement with a factor, which bears interest at 2.5% above prime. However, the agreement does stipulate that the minimum interest rate is 12% per annum. At September 28, 2007 the amount outstanding with the factor was \$413,447 as compared to \$477,387 at March 30, 2007. The loan is secured by the Company's accounts receivables and inventories. The factor provides discounted funds based upon the Company's accounts receivables, these funds provide the primary source of working capital for operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Liquidity and Capital Resources (continued)

In the past two fiscal years, management has been reviewing its collection practices and policies for outstanding receivables and has revised its collection procedures to a more aggressive collection policy. As a consequence of this new policy the Company's experience is that its customers have been remitting payments on a more consistent and timely basis. The Company reviews the collectability of all accounts receivable on a monthly basis. The reserve is less than 2% of average gross accounts receivable and is considered to be conservatively adequate.

During the year ended March 26, 2004, two of the Company's officers loaned the Company a total of \$52,000 on a non-interest bearing basis. The Company used these funds as a source of additional working capital.

During the year ended March 25, 2005, one of these officers loaned the Company an additional \$135,744 on a non-interest bearing basis as well. These funds were also used by the Company for working capital requirements. Through the period ended March 31, 2006, the Company has repaid \$108,744 of the total funds loaned to it. During the year ended March 30, 2007, one of the officers loaned the Company an additional \$88,000 on a non-interest bearing basis. During the same period the Company repaid \$76,000 of the loans made to it.

During the six months ended September 28, 2007, the Company repaid \$33,600 of the loans made to it. As of September 28, 2007 the balance due to one of these officers was \$57,400.

The Company has a collective bargaining multi-employer pension plan with the United Auto Workers of America, Local 259 ("UAW"). Contributions are made by the Company in accordance with a negotiated labor contract and are based on the number of covered employees employed per month. With the passage of the Multi-Employer Pension Plan Amendment Act of 1990 (the "Act"), the Company may become subject to liabilities in excess of contributions made under the collective bargaining agreement. Generally, these are contingent upon termination, withdrawal, or partial withdrawal from the Multi-Employer Plan. The Company has not taken any action to terminate, withdraw or partially withdraw from the Multi-Employer Plan, nor does it intend to do so in the future. Under the Act, liabilities would be based upon the Company's proportional share of the Multi-Employer Plan's unfunded vested benefits which is currently not available. The amount of accumulated benefits and net assets of such Plan also is not currently available to the Company. The total contributions charged to operations under the provisions of the Multi-Employer Plan were \$36,318 and 33,925 for the six months ended September 28, 2007 and September 29, 2006, respectively.

In 1992, the Company had been in arrears with respect to its contributions to the Multi-Employer Plan in the amount of \$186,467. The Company and the UAW entered into a verbal agreement whereby the Company would continue making current contributions as well as making periodic payments to satisfy the outstanding arrears obligation to the Multi-Employer Plan. The outstanding obligation was satisfied by the Company on July 12th, 2007. Under the terms of this verbal agreement, the Company was not obligated to pay interest until the arrears was satisfied.

The amount of interest due is subject to ongoing negotiations between the Company and the UAW.

The Company has accrued the amount of \$40,000 in interest expense in the current fiscal quarter.

On June 30, 1995, the Company applied to the Pension Benefit Guaranty Corporation ("PBGC") to have the PBGC assume all of the Company's responsibilities and liabilities under its Salaried Pension Plan. On April 26, 1996, the PBGC determined that the Salaried Pension Plan did not have sufficient assets available to pay benefits, which were and are currently due under the terms of such Plan.

The PBGC further determined that pursuant to the provisions of the Employment Retirement Income Security Act of 1974, as amended ("ERISA") that the Salaried Pension Plan must be terminated in order to protect the interests of such Plan's participants. Accordingly, the PBGC proceeded pursuant to ERISA to have the Salaried Pension Plan terminated and the PBGC appointed as statutory trustee, and to have July 31, 1995 established as the Salaried Pension Plan's termination date.

The Company and the PBGC agreed to the terms of a settlement of the matter. The agreement is effective July 2, 2001. Under the agreement, the Company and the PBGC agreed on a total sum of \$244,000. The Company has agreed to make payments as follows:

September 1, 2003 to August 1, 2004	\$2,000 per month
September 1, 2004 to August 1, 2006	\$3,000 per month
September 1, 2006 to August 1, 2007	\$4,000 per month

Additionally, the Company had made balloon payments of \$25,000 each on January 1, 2004, May 1, 2004, May 1, 2005 and January 1, 2006.

The Company granted the PBGC a lien on the Company's machinery and equipment.

As a result of this agreement the amount due the PBGC was restated to \$244,000. This liability was satisfied on September 1, 2007.

On September 21, 2001 the Company's shareholders approved the adoption of the Company's 2001 Employees Stock Option Plan ("Employee Option Plan") to provide for the grant of options to purchase up to 750,000 shares of the Company's common stock to all employees, including senior management. No options have been granted under the Employee Option Plan to date.

Options granted to employees under the Employee Option Plan may be designated as options which qualify for incentive stock option treatment under Section 422A of the Internal Revenue Code, or option which do not so qualify. Under this Plan, the exercise price of an option designated as an Incentive Stock Option shall not be less than the fair market value of the Company's common stock on the day the option is granted.

Liquidity and Capital Resources (continued)

In the event an option designated as an incentive stock option is granted to a ten percent (10%) share holder, such exercise price shall be at least 110 Percent (110%) of the fair market value or the Company's common stock and the option must not be exercisable after the expiration of five years from the day of the grant. Exercise prices of non-incentive stock options may be less than the fair market value of the Company's common stock. The aggregate fair market value of shares subject to options granted to its participants, which are designated as incentive stock options, and which become exercisable in any calendar year, shall not exceed \$100,000. As of September 28, 2007 no options had been granted under the Employee Stock Option Plan.

In 1987, the Company adopted a cash bonus plan ("Cash Bonus Plan") for Executive Officers. Contributions to the Cash Bonus Plan are made by the Company only after pre-tax operating profits exceed \$150,000 for a fiscal year, and then to the extent of 10% of the excess of the greater of \$150,000 or 25% of pre-tax operating profits. The Company accrued \$20,500 for the Cash Bonus Plan for the fiscal six months ended September 28, 2007. For the year ended March 29, 2007 the contribution was \$20,000.

ITEM 3. CONTROLS AND PROCEDURES

Based on an evaluation of the effectiveness of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act"), the Company's Chief Executive Officer and Chief Financial Officer (who is also our controller and principal accounting officer) concluded that, as of the end of the period covered by this Report on Form 10-QSB, the Company's disclosure controls and procedures are effective to ensure that all information required to be disclosed by the Company in this Report that it files or submits under the Exchange Act is, recorded, processed, and reported within the time periods specified within the Securities and Exchange Commission's rules and forms. There have been no changes in our internal control over financial reporting during the quarter ended September 28, 2007 that have been materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.
