Item 2.02 Results of Operations and Financial Condition

On October 26, 2006, the registrant publicly released its financial results for third quarter 2006. The full text of the release is furnished as Exhibit 99.01 to this Form 8-K, and is incorporated herein by reference. This information shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

This Form 8-K includes the following non-GAAP financial measures:

Eastman Chemical Company Operating Earnings, Earnings Before Tax, Net Earnings and Diluted Earnings Per Share excluding asset impairments and restructuring charges.

Eastman’s management believes that the asset impairments and restructuring charges do not reflect ongoing business results. However, management believes that this item is indicative of the performance of certain businesses and product lines and results of continuous efforts and actions to improve the profitability of the company. Management believes that investors can better evaluate and analyze historical and future business trends if they also consider the reported results without the identified item. Management utilizes sales revenue and operating results excluding the identified item in the measures it uses to evaluate business performance and in determining certain performance-based compensation. This measure is not recognized in accordance with generally accepted accounting principles (GAAP) and should not be viewed as an alternative to the GAAP measures of performance. Table 6 in the accompanying third quarter 2006 financial tables reconciles operating earnings, earnings before tax, net earnings and earnings per share on a GAAP basis, as reflected in Eastman’s Consolidated Statements of Earnings, to operating earnings, earnings before tax, net earnings and earnings per share excluding asset impairments and restructuring charges.

In addition, the Company has chosen to present sales revenue and operating earnings (loss) attributable to product lines being divested. Tables 4 and 5 in the accompanying third quarter 2006 financial tables provide this information on a GAAP basis.
