### TEMPLETON DRAGON FUND

Notes to Statement of Investments (unaudited)

#### 1. ORGANIZATION

Templeton Dragon Fund (Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end investment company.

#### 2. SECURITY VALUATION

Equity and other securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities. Investments in open-end mutual funds are valued at the closing net asset value.

Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever

## Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

is earlier. If no sale is reported at that time, the foreign equity security will be valued within the range of the most recent quoted bid and ask prices. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the security is determined. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert to the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Directors.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis based upon the underlying investment book value, anticipated future cash flows, market changes in comparable or similar securities, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. The investment manager monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depository Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Directors.

### 3. INCOME TAXES

At September 30, 2009, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$483,327,165
	-----
Unrealized appreciation	\$538,103,523
Unrealized depreciation	(18,203,348)
	-----
Net unrealized appreciation (depreciation)	\$519,900,175
	=====

### 4. FAIR VALUE MEASUREMENTS

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices

## Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

for similar securities, interest rates, prepayment speed, credit risk, etc.)

- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

At September 30, 2009, all of the Fund's investments in securities carried at fair value were in Level 1 inputs. For detailed industry descriptions, see the accompanying Statement of Investments.

At September 30, 2009, the reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value, is as follows:

	BALANCE AT BEGINNING OF PERIOD	NET REALIZED GAIN (LOSS)	NET CHANGE IN UNREALIZED APPRECIATION (DEPRECIATION)	NET PURCHASES (SALES)	TRANSFER IN (OUT) OF LEVEL 3
