REASONS FOR THE SOLICITATION

The Ramius Group believes that the Shares are currently trading at a significant discount to intrinsic value. As significant shareholders of Orthofix, we have a vested financial interest in the maximization of the value of all Shares. Our interests are aligned with the interests of all shareholders. While general weakness in the stock market and increasing competitive pressures within the industry have impacted the Company, we believe the primary reason for the Company's poor performance is the ill-conceived and poorly executed acquisition of Blackstone Medical ("Blackstone") and its significant negative impact on the Company's financial condition and operational results. This poor performance is further exacerbated by the Company's bloated corporate overhead. Additionally, given the Board's history of weak oversight and poor judgment, we have serious concerns about the ability and willingness of the current Board to make the necessary structural and operational changes that we believe are required to maximize value for all shareholders.

Orthofix faces substantial operational and financial challenges primarily resulting from the acquisition of Blackstone in August 2006 for \$333 million. Despite heavy investments of capital and resources into Blackstone, operating performance has declined precipitously to a level where Blackstone has generated material operating losses and negative free cash flow. As described in more detail below, in our opinion, the acquisition of Blackstone was a failure from the outset. We believe management and the Board failed to properly address critical risk factors during due diligence, failed to implement and execute a profitable operating plan, and, in light of the recent restructuring announcement, have once again failed to take sufficient action. The acquisition has also saddled Orthofix with a heavy debt load, which has now put the Company in a precarious position. The recently announced, costly amendment to the term loan only provides some covenant leniency for the short-term. The Company's debt covenants tighten in late 2009 requiring significant improvement in EBITDA or substantial reductions in total debt. To address these issues, the Ramius Nominees, if elected, will work with the remaining members of the current Board to evaluate all available options for Blackstone with a goal of preserving value and stemming further operating losses, as well as exploring opportunities to significantly reduce corporate overhead expenses. Although it is currently our strong belief that a sale of Blackstone would create substantial value for Orthofix shareholders, the Ramius Nominees have no present plans to pursue specific strategies at this time and will approach the situation, if elected, with an open mind and will consider and evaluate all options available to the Company, including the sale of Blackstone, with a common goal of maximizing shareholder value. These options could include possible divestitures, further restructurings, corporate cost reductions, or other strategic alternatives.

- v On January 23, 2009, certain members of the Ramius Group met with Mr. Milinazzo and Mr. Vaters at the Ramius offices in New York City.
- v On January 28, 2009, pursuant to Article 129 of the Netherlands Antilles Civil Code (the "Antilles Code") the Ramius Group submitted a written request to the Company requesting that the Company convene the Special Meeting. The written request to convene the Special Meeting was authorized by shareholders representing approximately 55% of shares outstanding, far in excess of the 10% threshold required by the Antilles Code.

PROPOSAL NOS. 1 & 2

REMOVAL OF CERTAIN EXISTING DIRECTORS

Pursuant to each of Article 136 of the Antilles Code and Article 8 of the Company's Articles of Association (the "Articles"), the shareholders may remove any director with or without cause at a general meeting of shareholders and fill the vacancy in the Board thus created. We are seeking to remove four members of the Board, James F. Gero, Peter J. Hewett, Thomas J. Kester, and Walter P. Von Wartburg, without cause, and any directors appointed by the Board without shareholder approval between December 10, 2008 and up through and including the date of the Special Meeting.

In "Proposal No. 1", the Ramius Group is asking the Company's shareholders to vote for the removal, without cause, of four of the Company's current directors, effective immediately.

In "Proposal No. 2", the Ramius Group is asking the Company's shareholders to vote for the removal, without cause, of any directors appointed by the Board without shareholder approval between December 10, 2008 and up through and including the date of the Special Meeting

Reasons for Removing Existing Directors

The Ramius Group does not believe the current Board has acted in the best interests of shareholders. Orthofix shares have materially underperformed in recent years driven primarily by the failed acquisition of Blackstone, weak management execution, a bloated corporate overhead and a highly-levered balance sheet. We believe there is a terrific opportunity at Orthofix to substantially increase shareholder value and to protect the long-term interests of shareholders. In order for this value to be realized, we believe the Company must explore alternative options for Blackstone to preserve value and stem operating losses and significantly reduce corporate overhead expenses. To date management and the current Board have been unwilling to take these actions or, in our opinion, any other actions that have led to a material improvement in financial performance. Accordingly, we feel it is appropriate for shareholders to take action to make substantial changes to the composition of the Board. For this reason, we are asking for shareholder support at the Special Meeting to remove certain members of the Board now and to replace them with the Ramius Nominees.

We believe it is critical for shareholders to take action at the Special Meeting as opposed to the regularly scheduled annual meeting which may not be held for several months. Orthofix faces substantial risks due to bank debt covenants that begin to tighten in the third quarter of 2009. If no action is taken, it is possible that Orthofix may breach a covenant which could cause further damage to the Company. Additionally, the announced restructuring initiatives at Blackstone call for further integration of that business into the core businesses of Orthofix which could potentially damage the core businesses or make it more difficult to separate in order to sell Blackstone. Therefore, we believe it is prudent for shareholders to take action at this Special Meeting to make substantial changes to the composition of the Board.

We believe the Company's acquisition of Blackstone was ill-conceived and poorly executed.

At the time of the acquisition, Blackstone was operating at a revenue run rate of \$88 million per year and an operating income run rate of \$7.6 million per year. Management projected that the Blackstone acquisition, together with the slower-growing spine stimulation business, would generate revenue growth in excess of 25% per year and would continue to improve in profitability. In stark contrast to these projections, the reality has been that Blackstone's last quarter revenue declined 15.3% year-over-year and the last quarter operating loss, adjusted for the goodwill impairment and inventory charges, was \$8.8 million. Additionally, as of the last quarter's results, Orthofix had written down the carrying value of its investment in Blackstone, originally \$333 million, by 93% to \$23.5 million. In our opinion, it is apparent that the acquisition of Blackstone was a disastrous failure.

We believe that management and the Board failed to properly address critical risk factors during due diligence and, since the acquisition, have clearly failed to execute a profitable operating plan. At the time of the acquisition, management originally asserted that the Blackstone acquisition would be accretive to earnings on a GAAP basis, beginning in 2008, and would be substantially accretive to GAAP earnings in subsequent years. Given the substantial losses that Blackstone has generated since the acquisition, this clearly did not come to fruition. As we outlined in our detailed letter to shareholders on December 3, 2008 (the "December 3 Letter"), in order for the acquisition of Blackstone to be accretive in 2008, revenue growth had to have been at least 60% per year, which is substantially higher than Blackstone's historical growth rate of 40% prior to the acquisition. We fail to see how prudent financial modeling would have yielded these lofty expectations for the acquisition of Blackstone.

We believe the integration of Blackstone into the Company has been plagued by missteps.

Despite heavy investments in working capital and capital expenditures, operating performance at Blackstone has deteriorated almost every quarter since the fourth quarter of 2007. However, capital expenditures at Blackstone alone totaled more than \$15 million for 2007, representing over 80% of total capital spending for the entire Orthofix business even though it represented less than 25% of total revenues. In addition to a disproportionate need for capital, management's attempts to integrate Blackstone into the Company have also been plagued with costly missteps. Consider the following:

- v In July 2007, Blackstone received a subpoena issued by the Department of Health and Human Services, Office of the Inspector General ("OIG"), under the authority of the federal healthcare anti-kickback and false claims statutes. A year and a half later, this issue has yet to be resolved and remains a major overhang on the business.
- v In the fourth quarter of 2007, the Lyons Brothers, who founded Blackstone and who agreed to remain with the Company after closing, left the Company. This was followed by a slew of departures from Blackstone, including key internal personnel in research and development and sales and marketing, as well as several key outside distributors. The Company then began a painful process of restructuring the Blackstone distribution network from one that was historically 100% third-party distributors to a hybrid model that included both indirect sales representatives and a team of direct sales representatives who were hired at an additional expense of over \$5 million per year. Due to poor performance, these representatives have subsequently been fired or moved to other responsibilities within the Company.

- v In May 2008, Blackstone took another hit when a key competitor, NuVasive Inc. (NUVA), announced the acquisition of the Osteocel business unit from Osiris Therapeutics Inc. (OSIR). Blackstone is currently the exclusive distributor of Osteocel's key product, Trinity, a biological spine implant using adult stem cells. The Trinity product has been credited with most of the growth in Blackstone's biologics business historically. However, the distribution agreement terminates in 2009 and Blackstone will no longer be able to distribute the Trinity product. The Trinity product has been a key differentiator for Blackstone. We believe this major setback could have been avoided had the Company identified this risk during its due diligence process and properly addressed the issue through an earn-out payment based on the successful renewal of the distribution agreement or a re-negotiation of a longer-term contract with Osiris prior to closing.

- v In August 2008, the Company announced a collaboration agreement with the Musculoskeletal Transplant Foundation ("MTF") to develop a stem cell-based allograft to compete head-to-head with Trinity. As part of this arrangement, Orthofix agreed to pay \$10 million to fund the ongoing product development. Although management has stated that they expect the MTF product to be available for commercial sales in mid-2009, industry experts are skeptical of the initial sales traction of the product given a lack of clinical data and physician support. In our opinion, this will make it extremely difficult to generate any meaningful sales before 2010.

We believe the Board and management have failed to adequately address the issues facing the Company.

The Company has recently announced several restructuring initiatives for Blackstone, including the implementation of a new software platform and the consolidation of three facilities into one, yet to be constructed, facility in Texas. These initiatives are expected to cost \$4.2 million between 2008 and 2009 and yield savings of \$2 million in 2010 and \$5 million in 2011 and beyond. These savings compare to the nearly \$8.8 million of negative operating income last quarter which equates to negative \$35.2 million on an annualized basis. In our opinion, these restructuring initiatives are not nearly enough to halt the substantial operating losses at Blackstone and prevent the Company from breaching bank covenants that begin to tighten in the third quarter of 2009.

As we highlighted in the December 3 Letter, management again appears to be counting on significant growth to achieve breakeven results at Blackstone. Including the full impact of the announced restructuring initiatives and the savings from firing the direct sales force, we estimate Blackstone would have to grow revenues by 35% from the last quarter run rate without increasing operating costs in order to just break even. Recall that initially management had envisioned a transaction that would be accretive to GAAP earnings after taking into account interest expense and amortization of purchased intangibles from the Blackstone acquisition, which together totaled approximately \$34 million in 2007. In order for Blackstone to achieve that milestone, revenue would have to grow 84% from the last quarter run rate. **HOWEVER, BLACKSTONE'S SALES WERE DOWN 15.3% LAST QUARTER.**

We believe swift action must be taken to stem the losses at Blackstone and reduce corporate overhead expenses.

Before engaging in a lengthy integration and restructuring process that could bring additional cost and substantial risk to Orthofix shareholders, we believe the Board should immediately engage a strategic advisor to explore alternative options for Blackstone, including a possible sale. Additionally, we believe management and the Board must also take prompt action to further reduce corporate overhead expenses. Since the Blackstone acquisition, corporate overhead has ballooned. Corporate overhead was \$10.2 million for the twelve-month period preceding the acquisition of Blackstone. For the last twelve months, this number has increased to over \$20 million, even when excluding certain one-time items. We believe this bloated cost structure has been driven by, among other things, the highly distributed nature of the Company. As it stands today, the executive offices are located in what is arguably some of the most expensive real estate in Boston, a city where the Company has no other business purpose. A portion of the legal, finance, and accounting groups still remain in North Carolina, where the Company was originally headquartered. The recently appointed President of Blackstone, who is also the President of the North America division, is located in San Diego, California, while some of the Company's key manufacturing facilities are located in Texas. This highly distributed infrastructure is neither efficient nor cost effective, and should be remedied immediately.

If the Board and management do not take immediate action, we believe the Company will be in jeopardy of violating its debt covenants.

We believe that given the state of the credit and equity markets, the Company cannot count on its ability to refinance its debt or raise additional capital on favorable terms. The recently announced amendment to the term loan covenants provide Orthofix with leniency on the key Total Debt / EBITDA covenant, however, beginning in the third quarter of 2009, this covenant begins to tighten quickly, requiring significant debt reductions or dramatically improved EBITDA. As we highlighted in the December 3 Letter, Orthofix must either achieve 2009 EBITDA of \$91.7 million versus LTM EBITDA of \$81.3 million or reduce debt by \$33.6 million, or a combination of the two, in order to remain in compliance with the tightening covenants. For 2010, Orthofix must either achieve EBITDA of \$119.2 million or reduce debt by \$94.6 million, or a combination of the two, in order to remain in compliance with the covenants. These hurdles will be challenging to overcome, but with prompt action to explore a sale of Blackstone, we believe Orthofix can meet these requirements without raising additional capital. In contrast, the currently proposed, Board-adopted, 17-month restructuring initiative at Blackstone that yields \$5 million of total cost savings in 2011 does little to remedy this situation.

Taking these actions will ensure that Orthofix will remain in compliance with the stringent debt covenants. The proceeds from a sale of Blackstone will likely not be enough to pay down the term loan in its entirety. However, because of the ongoing losses at Blackstone, we believe it is critical to explore a sale of the business, use the proceeds to repay a portion of the debt, reduce interest costs, and cut the losses. We believe the ongoing cash flow from the legacy businesses would provide sufficient cash to further reduce debt and meet obligations. Given the highly depressed value of Orthofix stock, it is unacceptable for management and the Board to consider highly dilutive equity or convertible issuances to accelerate debt reductions when other, non-dilutive options are available. The Ramius Nominees have no present plans to pursue specific strategies at this time and will approach the situation, if elected, with an open mind and will consider and evaluate all such options available to the Company, including the sale of Blackstone, with a common goal of maximizing shareholder value.

THE RAMIUS GROUP URGES YOU TO VOTE FOR ITS PROPOSAL TO REMOVE, WITHOUT CAUSE, FOUR (4) MEMBERS OF THE CURRENT BOARD, JAMES F. GERO, PETER J. HEWETT, THOMAS J. KESTER, AND WALTER P. VON WARTBURG.

PROPOSAL NO. 3

ELECTION OF THE RAMIUS NOMINEES

Upon the approval of Proposal No. 1 and, if applicable, Proposal No. 2, there will exist at least four (4) vacancies on the Board, which (assuming a quorum is present at the meeting) may be filled by the affirmative vote of a majority of the Shares represented and voting at the meeting. For the reasons stated above, the Ramius Group is seeking your support at the Special Meeting to elect the Ramius Nominees set forth below to replace four (4) members of the Company's current Board. The Ramius Group has nominated four (4) nominees who, if elected, will constitute a minority of the Board and will hold office until the Company's next annual meeting of shareholders and until their successors have been elected and qualified.

We believe the Ramius Nominees, who have no current affiliation with the Board and management, will increase the quality of oversight by the Board and will effectively exercise their fiduciary duties to shareholders. If elected, the Ramius Nominees will, subject to their fiduciary duties, explore alternative options for Blackstone and reduce operating inefficiencies and unnecessary corporate overhead in order to maximize shareholder value. There can be no assurance that the foregoing actions will be implemented if the Ramius Nominees are elected or that the election of the Ramius Nominees will maximize or otherwise enhance shareholder value. Your vote to elect the Ramius Nominees will have the legal effect of filling the vacancies created by the removal of four (4) incumbent directors, James F. Gero, Peter J. Hewett, Thomas J. Kester, and Walter P. Von Wartburg, with the Ramius Nominees. In the event fewer than four (4) members of the current Board are removed by shareholders in Proposal No. 1 and/or Proposal No. 2, if applicable, such that there are less than four (4) vacancies resulting on the Board, then the Ramius Nominees shall be elected in order based upon the highest number of votes received from shareholders. If two (2) or more of the Ramius Nominees receive the exact same number of votes from shareholders, then the Ramius Nominees who receive the exact same number of votes shall be elected in the following order: Mr. Orsatti, Mr. Egan, Mr. Lee, Mr. Feld.

THE RAMIUS NOMINEES

RCG Starboard Advisors, an affiliate of Ramius, and certain of the Ramius Nominees, have entered into compensation letter agreements (the "Compensation Letter Agreements") regarding compensation to be paid to such nominees for their agreement to be named and to serve as nominees and for their services as a director of Orthofix, if elected. Pursuant to the terms of the Compensation Letter Agreements, RCG Starboard Advisors has agreed to pay Messrs. Egan, Lee and Orsatti (i) \$10,000 in cash as a result of the submission by Value and Opportunity Master Fund of its nomination of the Ramius Nominees to Orthofix and (ii) \$10,000 in cash upon the filing of a definitive proxy statement with the Securities and Exchange Commission relating to a solicitation of proxies in favor of each of the Ramius Nominees' election as a director at a special general meeting. Pursuant to the Compensation Letter Agreements, each of Messrs. Egan, Lee and Orsatti has agreed to use such compensation to acquire securities of Orthofix (the "Nominee Shares") at such time that they shall determine, but in any event no later than 14 days after receipt of such compensation. If elected or appointed to serve as a director of the Board, each of Messrs. Egan, Lee and Orsatti agrees not to sell, transfer or otherwise dispose of any Nominee Shares within two years of their election or appointment as a director; provided, however, in the event that Orthofix enters into a business combination with a third party, they may sell, transfer or exchange the Nominee Shares in accordance with the terms of such business combination.

Value and Opportunity Master Fund and certain of its affiliates have signed letter agreements pursuant to which they agree to indemnify certain of the Ramius Nominees against claims arising from the solicitation of proxies from Orthofix shareholders in connection with this solicitation or any solicitation in connection with a special general meeting and any related transactions. Other than as stated herein, there are no arrangements or understandings between members of the Ramius Group and any of the Ramius Nominees or any other person or persons pursuant to which the nomination of the Ramius Nominees described herein is to be made. Each of the Ramius Nominees has consented to be named in this Proxy Statement and to serve as a director of Orthofix if elected as such at the Special Meeting. None of the Ramius Nominees are a party adverse to Orthofix or any of its subsidiaries or has a material interest adverse to Orthofix or any of its subsidiaries in any material pending legal proceedings.

The Ramius Group does not expect that the Ramius Nominees will be unable to stand for election, but, in the event that such persons are unable to serve or for good cause will not serve, the Shares represented by the enclosed GOLD proxy card will be voted for substitute nominees, to the extent this is not prohibited under the Articles or applicable law. In addition, Value and Opportunity Master Fund reserves the right to challenge any action by Orthofix that has, or if consummated would have, the effect of disqualifying the Ramius Nominees. In any such case, Shares represented by the enclosed GOLD proxy card will be voted for such substitute nominees, to the extent this is not prohibited under the Articles or applicable law.

VOTING AND PROXY PROCEDURES

Only shareholders of record on the Record Date will be entitled to notice of and to vote at the Special Meeting. Shareholders who sell Shares before the Record Date (or acquire them without voting rights after the Record Date) may not vote such Shares. Shareholders of record on the Record Date will retain their voting rights in connection with the Special Meeting even if they sell such Shares after the Record Date. Based on publicly available information, the Ramius Group believes that the only outstanding class of securities of Orthofix entitled to vote at the Special Meeting is the Shares.

Shares represented by properly executed GOLD proxy cards will be voted at the Special Meeting as marked and, in the absence of specific instructions, will be voted FOR the proposal to remove the existing directors serving on the Board and FOR the election of the Ramius Nominees to the Board and in the discretion of the persons named as proxies on all other matters as may properly come before the Special Meeting.

We are asking you to remove four (4) of the members of the Board, James F. Gero, Peter Hewett, Thomas J. Kester and Walter P. Von Wartburg, and replace them with the Ramius Nominees. The participants in this solicitation intend to vote all of their Shares in favor of the removal of the four current members of the Board and the election of the Ramius Nominees in their place.

QUORUM; VOTES REQUIRED FOR APPROVAL; ABSTENTIONS AND BROKER NON-VOTES

The presence, in person or by proxy, of the holders of fifty percent (50%) of the Shares outstanding on the Record Date is required to constitute a quorum at the Special Meeting.

VOTE REQUIRED FOR PROPOSALS NOS. 1 AND 2. According to the Articles, approval of the proposal to remove, without cause, four (4) of the existing directors serving on the Board and approval of the proposal, if applicable, to remove, without cause, any directors appointed by the Board without shareholder approval between December 10, 2008 through and including the date of the Special Meeting, require the affirmative vote of a majority of the total votes cast (“Votes Cast”) by the shareholders represented and voting at the Special Meeting.

VOTE REQUIRED FOR PROPOSAL NO. 3. A plurality of the total Votes Cast is required for the election of the Nominees (assuming a quorum is present). A vote to “WITHHOLD” for any nominee for director will be counted for purposes of determining the votes present at the Special Meeting.

Abstentions and “broker non-votes” are counted as shares that are present and entitled to vote on the proposals for purposes of determining the presence of a quorum. Abstentions and broker non-votes will not have any effect on the outcome of voting. A broker “non-vote” occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power for that particular item and has not received instructions from the beneficial owner.

DISCRETIONARY VOTING

Shares held in “street name” and held of record by banks, brokers or nominees may not be voted by such banks, brokers or nominees unless the beneficial owners of such Shares provide them with instructions on how to vote.

REVOCAION OF PROXIES

Shareholders of Orthofix may revoke their proxies at any time prior to exercise by attending the Special Meeting and voting in person (although attendance at the Special Meeting will not in and of itself constitute revocation of a proxy) or by delivering a written notice of revocation. The delivery of a subsequently dated proxy which is properly completed will constitute a revocation of any earlier proxy. The revocation may be delivered either to the Ramius Group in care of Innisfree M&A Incorporated at the address set forth on the back cover of this Proxy Statement or to Orthofix at 7 Abraham de Veerstraat, Curaçao, Netherlands Antilles, or any other address provided by Orthofix. Although a revocation is effective if delivered to Orthofix, the Ramius Group requests that either the original or photostatic copies of all revocations be mailed to the Ramius Group in care of Innisfree M&A Incorporated at the address set forth on the back cover of this Proxy Statement so that the Ramius Group will be aware of all revocations and can more accurately determine if and when proxies have been received from the holders of record on the Record Date and the number of outstanding Shares represented thereby. Additionally, Innisfree M&A Incorporated may use this information to contact shareholders who have revoked their proxies in order to solicit later dated proxies for the election of the Ramius Nominees.

SOLICITATION OF PROXIES

The solicitation of proxies pursuant to this Proxy Statement is being made by the Ramius Group. Proxies may be solicited by mail, facsimile, telephone, telegraph, Internet, in person and by advertisements.

Value and Opportunity Master Fund has entered into an agreement with Innisfree M&A Incorporated for solicitation and advisory services in connection with this solicitation, for which Innisfree M&A Incorporated will receive a fee not to exceed \$100,000.00, together with reimbursement for its reasonable out-of-pocket expenses, and will be indemnified against certain liabilities and expenses, including certain liabilities under the federal securities laws. Innisfree M&A Incorporated will solicit proxies from individuals, brokers, banks, bank nominees and other institutional holders. Value and Opportunity Master Fund has requested banks, brokerage houses and other custodians, nominees and fiduciaries to forward all solicitation materials to the beneficial owners of the Shares they hold of record. Value and Opportunity Master Fund will reimburse these record holders for their reasonable out-of-pocket expenses in so doing. It is anticipated that Innisfree M&A Incorporated will employ approximately 65 persons to solicit Orthofix shareholders for the Special Meeting.

The entire expense of soliciting proxies is being borne by the Ramius Group. Costs of this solicitation of proxies are currently estimated to be approximately \$250,000.00. The Ramius Group estimates that through the date hereof its expenses in connection with this solicitation are approximately \$125,000.00.
