NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

July 6, 2011

(amounts in \$000s, except share and per share data)

1. General

The accompanying unaudited condensed consolidated financial statements of Biglari Holdings Inc. (“we”, “us”, “our”, “Biglari Holdings”, or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In our opinion, all adjustments considered necessary to present fairly the condensed consolidated Balance Sheet as of July 6, 2011, the condensed consolidated Statements of Earnings for the twelve and forty weeks ended July 6, 2011 and July 7, 2010, and the condensed consolidated Statements of Cash Flows and Statements of Changes in Shareholders’ Equity for the forty weeks ended July 6, 2011 and July 7, 2010 have been included, and consist only of normal recurring adjustments. The condensed consolidated Statements of Earnings for the twelve and forty weeks ended July 6, 2011 and July 7, 2010 are not necessarily indicative of the condensed consolidated Statements of Earnings for the entire fiscal years. For further information, refer to the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 29, 2010.

Biglari Holdings Inc. is a diversified holding company engaged in a number of diverse business activities. The Company is led by Sardar Biglari, Chairman and Chief Executive Officer of Biglari Holdings and its major operating subsidiaries. The Company’s long-term objective is to maximize per-share intrinsic value of the Company. Our strategy is to reinvest cash generated from our operating subsidiaries into any investments with the objective of achieving high risk-adjusted returns. All major operating, investment, and capital allocation decisions are made for the Company by Mr. Biglari.

Basis of Presentation and Consolidation

As of July 6, 2011, the condensed consolidated financial statements include the accounts of (i) the Company, (ii) its wholly-owned subsidiaries Steak n Shake Operations, Inc. (“Steak n Shake”), Western Sizzlin Corporation (“Western”), and Biglari Capital Corp. (“Biglari Capital”), and (iii) investment related subsidiaries and limited partnerships (the “consolidated affiliated partnerships”). As a result of the Company’s acquisitions of Western and Biglari Capital during fiscal year 2010, the Company acquired financial interests in The Lion Fund, L.P. (the “Lion Fund”), Western Acquisitions, L.P., Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P., investment limited partnerships (collectively referred to as consolidated affiliated partnerships), for which the Company has a substantive controlling interest. We consolidate entities in which we have a wholly-owned or controlling interest in the general partner. The consolidated affiliated partnerships’ assets and liabilities are consolidated on the Company’s July 6, 2011 balance sheet even though outside limited partners have majority ownership in all of the investment partnerships. The Company does not guarantee any of the liabilities of its subsidiaries that are serving as general partners to these consolidated affiliated partnerships. All intercompany accounts and transactions have been eliminated in consolidation.

The financial information of Western and Biglari Capital has been reflected in the condensed consolidated financial statements of the Company as of March 30, 2010 and April 30, 2010, their respective acquisition dates. During the first quarter of fiscal year 2011, Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. were liquidated and the funds were distributed to the partners. During the third quarter of fiscal year 2011, Western Mustang Holdings, L.L.C. sold its interests in Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P.

Western's and Biglari Capital's June 30 quarter end for financial reporting purposes differs from the end of the Company's fiscal quarter of July 6, 2011. Significant transactions in the intervening period are disclosed.

## 2. Acquisitions

### Biglari Capital Corp.

On April 30, 2010, the Company acquired Biglari Capital pursuant to a Stock Purchase Agreement, dated April 30, 2010 (the "Stock Purchase Agreement"), between the Company and Sardar Biglari, Chairman and Chief Executive Officer, who was the sole shareholder of Biglari Capital. Biglari Capital is the general partner of the Lion Fund, a Delaware limited partnership operating as a private investment fund. The Lion Fund functions as a strategic investment arm for Biglari Holdings, principally to assist in facilitating the partial ownership of other publicly traded companies.

Table of Contents

Pursuant to the Stock Purchase Agreement, Mr. Biglari sold all of the shares of Biglari Capital to the Company for a purchase price of \$1.00 plus (i) an amount equal to Biglari Capital's adjusted capital balance in its capacity as general partner of the Lion Fund, and (ii) an amount equal to the total incentive reallocation allocable to Biglari Capital for the period from January 1, 2010 through April 30, 2010, less any distributions in respect of such amounts previously received by Mr. Biglari. The payments set forth in clauses (i) and (ii) total \$4,107.

In accordance with the Stock Purchase Agreement, the Company prepared and filed with the Securities and Exchange Commission on September 29, 2010, proxy materials for a special meeting of its shareholders. At the special meeting, held November 5, 2010, the Company submitted the Incentive Bonus Agreement (which the Company entered into with Mr. Biglari) for approval by its shareholders for purposes of Section 162(m) under the Internal Revenue Code of 1986, as amended (the "Code"). The Incentive Bonus Agreement was approved by the shareholders.

Because Biglari Capital is the general partner of the Lion Fund and has a substantive controlling interest, the Company has consolidated the Lion Fund. The Lion Fund is an investment fund that accounts for its investments at fair value. The fair value of the noncontrolling interests approximated the net asset value of the Lion Fund attributable to investors other than the Company, less the accrued incentive reallocation at the time of the acquisition. The Lion Fund investors may redeem their interests in the Lion Fund upon certain occurrences.

At the acquisition date, the Lion Fund owned 76,421 shares of common stock of the Company as well as \$7,540 of the Company's debentures. The fair value of the Company stock owned by the Lion Fund was \$29,900, which was recorded as Treasury stock yet the shares remain outstanding. The debentures owned by the Lion Fund were recorded as a debt extinguishment. As the debentures had just been issued by the Company 30 days before the acquisition, the fair value of the debentures approximated their cost, and no gain or loss was recorded on the debt extinguishment (the debentures remained outstanding until their redemption on March 30, 2011 [See Note 14]). The noncontrolling interests in the Lion Fund had a fair value of \$44,193 as of April 30, 2010.

The Company accounted for the acquisition in accordance with ASC Topic 805, whereby the purchase price paid is allocated to the assets acquired and liabilities assumed from Biglari Capital based on their estimated fair values as of the closing date.

The following table represents the Company's final assessment of the total purchase consideration allocated to the estimated fair values of the assets acquired and liabilities assumed from Biglari Capital as of April 30, 2010:

	Purchase Allocation
Investments	\$10,926
Company debentures	7,540
Total assets acquired	18,466
Current liabilities	66
Redeemable noncontrolling interests of consolidated affiliated partnerships	44,193
Treasury stock	(29,900 )
Total liabilities assumed and treasury stock acquired	14,359
Net assets acquired	\$4,107

## Western Sizzlin Corporation

On March 30, 2010, the Company, through its wholly-owned subsidiary, Grill Acquisition Corporation ("Merger Sub"), acquired 100% of the outstanding equity interests of Western, pursuant to an Agreement and Plan of Merger among

the Company, Merger Sub and Western, dated as of October 22, 2009 (the “Merger Agreement”). Sardar Biglari, Chairman and Chief Executive Officer, was also Chairman and Chief Executive Officer of Western at the time of the acquisition. Pursuant to the Merger Agreement, Merger Sub merged with and into Western, with Western continuing as the surviving corporation and as a wholly-owned subsidiary of the Company. Western, which is primarily engaged in the franchising of restaurants, includes (i) Western Sizzlin Franchise Corporation, Western Sizzlin Stores, Inc., Western Sizzlin Stores of Little Rock, Inc., Austins of Omaha, Inc., Western Investments, Inc., and Western Properties, Inc., wholly-owned subsidiaries, (ii) Western Acquisitions, L.P., (iii) Western Real Estate, L.P., (iv) Western Mustang Holdings, L.L.C. and Mustang Capital Management, L.L.C., (v) Mustang Capital Advisors, L.P., a majority-owned limited partnership, and (vi) two limited partnerships, Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. During the first quarter of fiscal year 2011, Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. were liquidated, with their funds distributed to the partners. During the third quarter of fiscal year 2011, Western Mustang Holdings, L.L.C. sold its interests in Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. As a result of the sale, we recorded a gain of \$1,558 in which almost all of the gain was non-cash in Other operating income in the condensed consolidated Statement of Earnings.

Table of Contents

As a result of the sale, the Company will not have involvement in the operations of Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. Although these entities meet the definition of “discontinued operations,” as defined in FASB ASC paragraph 205-20-45-1, Reporting Discontinued Operations (“ASC paragraph 205-20-45-1”), we have not separated the results of operations because the amounts are immaterial to our consolidated financial numbers. Net earnings (loss) after tax related to the entities was approximately \$1,544 and (\$995) for the quarters ended July 6, 2011 and July 7, 2010, respectively, including \$0 and (\$1,220), also separately that is attributable to noncontrolling interests. Net earnings (loss) after tax related to the entities was approximately \$2,606 and (\$995) for the year-to-date periods ended July 6, 2011 and July 7, 2010, respectively, including \$1,246 and (\$1,220), respectively that is attributable to noncontrolling interests. The after-tax income for the quarter and year-to-date period ended July 6, 2011 includes the aforementioned gain on sale of \$1,558.

Under the terms of the Merger Agreement, each share of Western’s common stock was cancelled upon the completion of the merger and converted into the right to receive a pro rata portion of a new issue of 14% redeemable subordinated debentures due 2015 issued by the Company (the “Debentures”) in the aggregate principal amount of \$22,959 (approximately \$8.07 principal amount of Debentures per Western share), with cash of \$194 paid in lieu of fractional Debenture interests. See Note 14 for further information on the Debentures.

The Company accounted for the acquisition in accordance with ASC Topic 805, whereby the purchase price paid is allocated to the tangible and identifiable intangible assets acquired and liabilities assumed from Western based on their estimated fair values as of the closing date.

During the forty weeks ended July 7, 2010, we incurred \$701 of transaction related costs which have been recorded in General and administrative expenses in the condensed consolidated Statement of Earnings.

The table shown below reflects the final purchase price allocation.

2 The adjustment related to valuation of income tax assets and liabilities determined after the filing of the final Western income tax return during the second quarter of fiscal year 2011.

The goodwill and intangible assets generated from the merger is a result of the excess purchase price over the net fair value of the assets and liabilities acquired. We expect goodwill of approximately \$942 to be deductible for tax purposes. Goodwill in the amount of \$13,026 has been recorded in the Restaurant Operations segment.

## Pro Forma Information

The following unaudited pro forma combined results of operations as of July 7, 2010, give effect to the acquisitions of Western and Biglari Capital as if they had occurred at the beginning of the periods presented. The unaudited pro forma combined results of operations do not purport to represent our consolidated earnings had the acquisitions occurred on the dates assumed, nor are these results necessarily indicative of the Company's future consolidated results of operations.

## 3. Seasonality of Restaurant Operations

Our restaurant operations have substantial fixed costs that do not decline concomitantly with sales. Results for our restaurant operations for the first and second fiscal quarters, which include the winter months, usually reflect lower customer traffic than in the third and fourth fiscal quarters.

Additionally, sales in the first and second fiscal quarters can be adversely affected by severe winter weather. Unfavorable weather could also occur during the first and fourth fiscal quarters as a result of hurricanes and tropical storms in the Southeastern portion of the United States.

## 4. New Accounting Standards

In June 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-05, Presentation of Comprehensive Income ("ASU 2011-05"). ASU 2011-05 amends Accounting Standards Codification ("ASC") Topic 220, Comprehensive Income ("ASC Topic 220"), and allows entities the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance should be applied retrospectively and is effective for interim and annual periods ending after December 15, 2011, which is effective for the Company's first quarter of fiscal year 2012. The adoption of ASU 2011-05 will not impact the measurement of net earnings or other comprehensive income.

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 attempts to improve the comparability of fair value measurements disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. Amendments in ASU 2011-04 clarify the intent of the application of existing fair value measurement and disclosure requirements, as well as change certain measurement requirements and disclosures. ASU 2011-04 is effective for the Company's first quarter of fiscal year 2012 and will be applied on a prospective basis. We do not believe that the adoption of ASU 2011-04 will have a material effect on the Company's condensed consolidated financial statements.

In January 2010, the FASB issued ASU 2010-06, Improving Disclosures about Fair Value Measurements ("ASU 2010-06"). ASU 2010-06 amends ASC Topic 820, Fair Value Measurements and Disclosures ("ASC Topic 820"), and

requires additional disclosure about significant transfers between levels 1, 2, and 3 of the fair value hierarchy as well as disclosure of changes in level 3 activity on a gross basis. In addition, the guidance clarifies existing requirements regarding the required level of disaggregation by class of assets and liabilities and also clarifies disclosures of inputs and valuation techniques. The guidance became effective beginning in the Company's second quarter of fiscal year 2010, except for the requirement to disclose level 3 activity on a gross basis, which will be effective as of the beginning of the Company's fiscal year 2012. The adoption did not have a material impact on the Company's condensed consolidated financial statements.

In June 2009, the FASB issued guidance that amends FASB ASC Section 810-10-25, Consolidation — Recognition (FASB Interpretation No. 46[R]) to require an entity to perform an analysis to determine whether the entity's variable interest or interests give it a controlling financial interest in a variable interest entity. The guidance is effective as of the beginning of an entity's first annual reporting period that begins after November 15, 2009, our fiscal year 2011. The adoption of this standard did not have a material impact on our condensed consolidated Balance Sheet or Statement of Earnings.

Table of Contents

In June 2009, the FASB issued guidance related to the accounting for transfers of financial assets. The guidance is intended to improve the relevance, representational faithfulness, and comparability of the information that an entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. The guidance is effective as of the beginning of an entity's first annual reporting period that begins after November 15, 2009, our fiscal year 2011. The adoption of this standard did not have a material impact on our condensed consolidated Balance Sheet or Statement of Earnings.

## 5. Reclassifications

Certain prior year amounts have been reclassified to conform to the current year's presentation. The reclassifications primarily relate to the reorganization of our condensed consolidated Statement of Earnings to better align with the Company's holding company structure and diversification into other industries. The reclassifications had no effect on net earnings, total assets, or cash flows. Amounts reclassified for the twelve and forty weeks ended July 7, 2010 included:

- Reclassification of \$3,495 and \$9,791, respectively, from interest expense previously included in Costs and expenses to Interest on obligations under leases and Interest expense within Other income;
- Reclassification of \$519 and \$1,701, respectively, from Other operating income to Other revenue within restaurant operations, primarily representing revenue generated from rental income;
- Reclassification of \$374 and \$1,319, respectively, from Other operating income to Net sales, primarily representing revenue from ancillary sources.

The remaining reclassifications were immaterial individually and in the aggregate.

## 6. Earnings Per Share

Earnings per share of common stock is based on the weighted average number of shares outstanding during the year. For financial reporting purposes all common shares of the Company held by the consolidated affiliated partnerships are recorded in Treasury stock on the condensed consolidated Balance Sheet. For purposes of computing the weighted average common shares outstanding, the shares of treasury stock attributable to the unrelated limited partners of the consolidated affiliated partnerships — based on their proportional ownership during the period — are considered outstanding shares.

The following table presents a reconciliation of basic and diluted weighted average common shares.

	Twelve Weeks Ended		Forty Weeks Ended	
	July 6, 2011	July 7, 2010	July 6, 2011	July 7, 2010
Basic earnings per share:

7. Investments

Investments consisted of the following:

	July 6, 2011	September 29, 2010
Cost	\$108,039	\$34,412
Gross unrealized gains	9,004	657
Gross unrealized losses	(300 )	(2,546 )
Fair value	\$116,743	\$32,523

Table of Contents

Unrealized losses of marketable equity securities at July 6, 2011 relate to securities that have been in an unrealized loss position for less than 12 months. We consider several factors in determining other-than-temporary impairment losses including the current and long-term business prospects of these issuers, the length of time and relative magnitude of the price decline and our ability and intent to hold the investment until the price recovers.

Investment gains/losses are recognized when investments are sold (as determined on a specific identification basis) or as otherwise required by GAAP. The timing of realized gains and losses from sales can have a material effect on periodic earnings. However, such realized gains or losses usually have little, if any, impact on total Shareholders' equity because the investments are carried at fair value with any unrealized gains/losses included as a component of Accumulated other comprehensive income in Shareholders' equity.

Realized investment gains/losses were as follows:

	Twelve Weeks Ended		Forty Weeks Ended	
	July 6, 2011	July 7, 2010	July 6, 2011	July 7, 2010
Gross realized gains on sales	\$1,444	\$989	\$4,694	\$1,823
Gross realized losses on sales	\$(11 )	\$(3 )	\$(17 )	\$(3 )

From time to time, the Company enters into certain derivative options as part of its investment strategy. In accordance with FASB ASC 815, Accounting for Derivative Instruments and Hedging Activities, these options are marked to market for each reporting period and this fair value adjustment is recorded as a gain or loss in the condensed consolidated Statement of Earnings. We believe that realized investment gains/losses are often meaningless in terms of understanding reported results. Short term investment gains/losses have caused and may continue to cause significant volatility in our results.

The Company has entered into short sales on certain equity securities, that is, a transaction in which the Company sells securities it does not own. The Company's use of short sales involves the risk that the price of the security in the open market may be higher when it is purchased in order to close out the Company's short position, resulting in a loss to the Company. Such a loss is theoretically limitless because there are no restrictions on the potential increase in the price of a security, or any guarantee as to the price at which the Company would be able to purchase the security in the open market. Securities sold in short sale transactions and the interest and dividends payable on such securities, if any, are reflected as a liability in Accrued expenses in the condensed consolidated Balance Sheet. As of July 6, 2011, the total liability of the securities in short position was \$6,407 (exclusive of short sales held by our consolidated affiliated partnerships). We had no outstanding short sales at September 29, 2010.

For the twelve weeks ended July 6, 2011, the Company recorded investment losses of \$499 related to the change in fair value of securities sold short, an act which impacts earnings even though losses were not realized. For the forty weeks ended July 6, 2011, the Company recorded investment losses of \$292 related to the change in fair value of derivatives and securities sold short. For the twelve and forty weeks ended July 7, 2010, the Company recorded investment gains from marking derivatives to market of \$176.

#### 8. Consolidated Affiliated Partnerships

Collectively, The Lion Fund L.P., Western Acquisitions, L.P., Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. are referred to as consolidated affiliated partnerships of the Company. Investments held directly by the consolidated affiliated partnerships usually consist of domestic equity securities. Certain of the consolidated affiliated partnerships hold the Company's common stock as investments. In our condensed consolidated financial

statements, the Company classifies this common stock as Treasury stock despite the shares being legally outstanding. As stated in Note 2, certain of the consolidated affiliated partnerships held the Company's Debentures as investments. These Debentures were redeemed by the Company on March 30, 2011. Refer to Note 14 for further information. As of July 6, 2011 and September 29, 2010, the consolidated affiliated partnerships held 205,743 shares of the Company's common stock (\$69,221 at cost) and \$0 and \$7,540 of Debentures, respectively.

Consolidated net earnings of the Company include the realized and unrealized appreciation and depreciation of the investments held by consolidated affiliated partnerships, other than realized and unrealized appreciation and depreciation of investments the consolidated affiliated partnerships hold in the Company's debt and equity securities which has been eliminated in consolidation.

Table of Contents

Throughout fiscal year 2010, Biglari Holdings invested a total of \$35,697 in the Lion Fund, both in the form of the acquisition of the general partner and as a direct limited partner investment. The fair value of these investments in the Lion Fund totaled \$48,414 at July 6, 2011. These investments in the Lion Fund do not appear explicitly in the Company's condensed consolidated Balance Sheet because of the requirement to consolidate fully the Lion Fund (inclusive of third party interests) in the Company's financial statements. Further, the Lion Fund's portfolio holds significant interests in Biglari Holdings' common stock, which as described above is classified on the Company's condensed consolidated Balance Sheet as a reduction to Shareholders' equity. Biglari Holdings' pro-rata ownership of its Company common stock through the Lion Fund was 100,374 shares of stock (with a fair value of \$39,251) based on Biglari Holdings' ownership interest in the Lion Fund on July 6, 2011.

The following table summarizes the cost and fair value of the investments held by the consolidated affiliated partnerships, other than holdings of the Company's debt and equity securities:

	July 6, 2011	September 29, 2010
Equity securities:		
Cost	\$18,174	\$14,725
Fair value	\$19,483	\$15,627

Investments held by consolidated affiliated partnerships on the condensed consolidated Balance Sheet includes \$2,754 and \$7,870 of cash and cash equivalents that are only available for use by the consolidated affiliated partnerships at July 6, 2011 and September 29, 2010, respectively.

Realized investment gains/losses arise when investments are sold (as determined on a specific identification basis). The gross unrealized gains/losses and net realized gains/losses from investments held by consolidated affiliated partnerships, other than holdings of the Company's debt and equity securities, were as follows:

	Twelve Weeks Ended		Forty Weeks Ended	
	July 6, 2011	July 7, 2010	July 6, 2011	July 7, 2010
Gross unrealized gains	\$1,064	\$137	\$1,504	\$137
Gross unrealized losses	\$(582)	\$(2,021)	\$(643)	\$(2,021)
Net realized gains/losses from sale	\$749	\$209	\$3,316	\$209

The limited partners of each of the investment funds have the ability to redeem their capital upon certain occurrences; therefore, the ownership of the investment funds held by the limited partners is presented as Redeemable noncontrolling interests of consolidated affiliated partnerships and measured at the greater of carrying value or fair value on the accompanying condensed consolidated Balance Sheet. The maximum redemption amount of the redeemable noncontrolling interests as of July 6, 2011 is \$50,309.

The following is a reconciliation of the redeemable noncontrolling interests in the consolidated affiliated partnerships.

Carrying value at September 29, 2010	\$62,245
Contributions from noncontrolling interests	1,018

Distributions to noncontrolling interests	(17,274 )
Incentive fee reallocation	(2,510 )
Income / loss allocation	2,559
Adjustment to noncontrolling interests to reflect maximum redemption value	4,271
Carrying value at July 6, 2011	\$50,309

The Company, through its ownership of Biglari Capital and Western Investments, is entitled to an incentive fee reallocation to the extent investment performance of the consolidated affiliated partnerships exceeds specified hurdle rates. Any such reallocation is included in net earnings attributable to the Company in the period the reallocation is earned.

Biglari Capital, the general partner of the Lion Fund, earned a \$5,199 incentive allocation fee; however, \$2,689 is eliminated, for that amount represents the Company's fee as a limited partner, which is uncharged because the Company owns the general partner. The remaining \$2,510 is an incentive fee that is charged and reallocated from outside limited partners of the Lion Fund. The incentive fee is assessed only once a year in the calendar year end quarter, and no predictability of such earnings exists because the Lion Fund annual performance is unpredictable.

Table of Contents

Net earnings attributable to the Company only includes the Company's share of earnings and losses related to our investments in the consolidated affiliated partnerships; all other earnings or losses from the consolidated affiliated partnerships are allocated to the redeemable noncontrolling interests.

During the first quarter of fiscal year 2011, Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. were liquidated, and their funds were distributed to the partners. The distribution of \$15,660, including \$1,421 of noncash distributions, is noted in the Distributions to noncontrolling interests line in the above reconciliation.

## 9. Assets Held for Sale

Assets held for sale are composed of the following:

	July 6, 2011	September 29, 2010
Land and buildings	\$7,195	\$8,789
Improvements	621	822
Total assets held for sale	\$7,816	\$9,611

The July 6, 2011 balance included the following assets: one office building, four restaurants, and eight parcels of land. The Company expects to sell these properties within the next 12 months. For assets that have been held for sale for more than one year, management will continue to proactively market them. One parcel of land was sold during the first quarter of fiscal year 2011 and one restaurant was subleased during the second quarter of fiscal year 2011, which then was transferred back to Property and equipment.

## 10. Other Current Assets

Other current assets primarily included prepaid rent, taxes, contractual agreements and deferred marketing expenditures.

## 11. Property and Equipment

Property and equipment is composed of the following:

	July 6, 2011	September 29, 2010
Land	\$ 160,967	\$ 158,526
Buildings	149,879	148,718
Land and leasehold improvements	154,557	155,166
Equipment	203,488	203,757
Construction in progress	1,392	1,261
	670,283	667,428
Less accumulated depreciation and amortization	(294,655 )	(281,247 )
Property and equipment, net	\$375,628	\$386,181

## 12. Goodwill and Other Intangibles

Goodwill

Goodwill consists of the excess of the purchase price over the fair value of the net assets acquired in connection with business acquisitions. The carrying value of goodwill decreased from September 29, 2010 by \$1,230 due to the final purchase price adjustments relating to the Western acquisition. Refer to Note 2 for detail of the adjustments impacting goodwill.

We are required to assess goodwill and any indefinite-lived intangible assets for impairment annually, or more frequently if circumstances indicate impairment may have occurred. The analysis of potential impairment of goodwill requires a two-step approach. The first step is the estimation of fair value of each reporting unit. If step one indicates that impairment potentially exists, the second step is performed to measure the amount of impairment, if any. Goodwill impairment exists when the estimated fair value of goodwill is less than its carrying value.

Table of Contents

During the quarter ended September 29, 2010, we performed our annual assessment of the recoverability of our goodwill related to four reporting units. During the second quarter of fiscal year 2011, we performed our annual assessment of our recoverability of goodwill related to two reporting units. The valuation methodology and underlying financial information included in our determination of fair value require significant judgments to be made by management. We use both market and income approaches to derive fair value. The judgments in these two approaches include, but are not limited to, comparable market multiples, long-term projections of future financial performance, and the selection of appropriate discount rates used to determine the present value of future cash flows. Changes in such estimates or the application of alternative assumptions could produce significantly different results.

## Other Intangibles

Other intangibles are composed of the following:

	July 6, 2011			September 29, 2010		
	Gross carrying amount	Accumulated amortization	Total	Gross carrying amount	Accumulated amortization	Total
Right to operate	\$ 1,480	\$ (1,090 )	\$ 390	\$ 1,480	\$ (999 )	\$ 481
Franchise agreement	5,310	(664 )	4,646	5,310	(266 )	5,044
Other	810	(465 )	345	1,136	(446 )	690
Total	7,600	(2,219 )	5,381	7,926	(1,711 )	6,215
Intangible assets with indefinite lives	1,744	—	1,744	1,744	—	1,744
Total intangible assets	\$ 9,344	\$ (2,219 )	\$ 7,125	\$ 9,670	\$ (1,711 )	\$ 7,959

Intangible assets subject to amortization consist of franchise agreements acquired in connection with the acquisition of Western, a right to operate and favorable leases acquired in connection with prior acquisitions and are being amortized over their estimated weighted average useful lives ranging from eight to twelve years. In connection with the sale of Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. during the third quarter of fiscal year 2011, we wrote off an intangible asset relating to certain customer relationships with a gross carrying value and net basis at the time of disposal of \$326 and \$266, respectively. Such amount was included in the determination of the net gain on sale of the entities as further discussed in Note 2.

Amortization expense for the twelve weeks ended July 6, 2011 and July 7, 2010 was \$186 and \$198, respectively. Amortization expense for the forty weeks ended July 6, 2011 and July 7, 2010 was \$567 and \$302, respectively. Total annual amortization expense for each of the next five years will approximate \$650.

Intangible assets with indefinite lives consist of a trade name acquired in connection with the acquisition of Western and reacquired franchise rights acquired in connection with previous acquisitions.

## 13. Other Assets

Other assets primarily include capitalized software, non-qualified plan investments, and a note receivable.

## 14. Borrowings

## Debentures

In connection with the acquisition of Western, the Company issued 14% redeemable subordinated debentures due 2015 (the "Debentures") in the aggregate principal amount of \$22,959. On March 30, 2011, the Company redeemed all

of its outstanding Debentures. The Debentures were redeemed for cash at an aggregate redemption price of approximately \$23,420, representing 100% of the principal amount outstanding, plus accrued and unpaid interest up to, but not including, March 30, 2011. The Debentures were issued and the redemption was effected pursuant to the provisions of the Indenture, dated March 30, 2010 (the "Indenture"), between the Company and Wells Fargo Bank, National Association, as trustee. Upon the redemption of the Debentures, the Company's obligations under the Debentures and the Indenture were satisfied and discharged in accordance with their terms. Included in the Debentures aggregate redemption price of \$23,420 was approximately \$7,804 of principal and interest paid to the Lion Fund. The payment to the Lion Fund does not appear explicitly in the Company's condensed consolidated Statement of Cash Flows because of the requirement to consolidate fully the Lion Fund in the Company's financial statements.

## Table of Contents

### Steak n Shake Revolving Credit Facility and Term Loan

As of July 6, 2011, Steak n Shake's Revolving Credit Facility ("Facility") enables it to borrow up to \$30,000 under a revolving loan, which bears interest based on the London Interbank Offered Rate ("LIBOR") plus 150 basis points. The Facility is scheduled to expire February 15, 2013. On July 6, 2011, outstanding borrowings under the revolving loan were \$21,000 at an interest rate of 1.7%. The Facility was amended effective February 15, 2011 to extend the maturity date and decrease the interest rate of the revolving loan. The lender also made a five-year \$20,000 term loan to Steak n Shake under the amendment. In connection with the issuance of the term loan, Steak n Shake entered into an interest rate swap agreement with the lender for a notional amount of \$20,000, which effectively fixes the interest rate on the term loan at 3.25% through its maturity. At July 6, 2011, outstanding borrowings under the term loan were \$19,000 at an effective interest rate of 3.25%. The fair value of the interest rate swap was \$309 on July 6, 2011 and has been included in Accrued expenses on the condensed consolidated Balance Sheet.

The Facility contains restrictions and covenants customary for credit agreements of these types which, among other things, require Steak n Shake to maintain certain financial ratios, including minimum tangible net worth, as well as restrict the amount of distributions to the parent Company. Additionally, the Facility is not guaranteed by or an obligation of the parent Company; rather the Facility is guaranteed by two Steak n Shake subsidiaries. Steak n Shake was in compliance with all covenants under the Facility as of July 6, 2011.

The Facility is secured with the deposit accounts, accounts receivable, inventory, equipment, general intangibles, chattel paper, software, and all other personal property of Steak n Shake (and its two subsidiaries).

### Other Debt

Other debt amounts include a promissory note secured by 23 acres of real property, line of credit, and notes payable.

The carrying amounts for debt reported in the condensed consolidated Balance Sheet do not differ materially from their fair values at July 6, 2011.

## 15. Other Long-term Liabilities

Other long-term liabilities include deferred rent expense, non-qualified plan obligations, deferred gain on sale-leaseback transactions, uncertain tax positions, deferred compensation, and a purchase obligation.

## 16. Income Taxes

Our effective income tax rate for the forty weeks ended July 6, 2011 was 27.1%, compared to 32.7% in the same period in the prior year. The decrease in the effective tax rate is due to increased federal employment tax credits combined with the majority of the gain sustained by the sale of Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. not being categorized as taxable income for income tax purposes.

As of July 6, 2011, we had approximately \$1,358 of unrecognized tax benefits, which are included in Other long-term liabilities in the condensed consolidated Balance Sheet.

## 17. Common Stock Plans

Employee Stock Options – During the forty weeks ended July 6, 2011, employees exercised 3,994 options under plans approved by our shareholders. Employees and non-employee directors forfeited 4,073 options during the fiscal quarter. Pre-tax stock-based compensation expense recorded during the forty weeks ended July 6, 2011 for the stock option plans totaled \$184.

Restricted Shares – During the forty weeks ended July 6, 2011, 841 restricted shares were forfeited and 4,964 restricted shares vested. Pre-tax stock-based compensation expense recorded during the twenty-eight weeks ended July 6, 2011 for the plan totaled \$51.

Our compensation philosophy, including the various equity plans, has changed to reflect present management's view on the most effective method to create shareholder value. The new incentives, which are cash based, are designed to ensure alignment with the Company's objective to maximize intrinsic business value on a per share basis. During the first quarter of fiscal year 2010, we resolved to suspend, indefinitely, all future option grants under the 2008 Employee Stock Option Plan. Then, we terminated the 2009 Employee Stock Purchase Plan, under which no shares had been granted to date; we placed an indefinite moratorium on the issuance of stock options and restricted stock; and we terminated the 2006 Employee Stock Purchase Plan.

18. Commitments and Contingencies

We are involved in various legal proceedings and have certain unresolved claims pending. We believe, based on examination of these matters and experiences to date, that the ultimate liability, if any, in excess of amounts already provided in our condensed financial statements is not likely to have a material effect on our results of operations, financial position or cash flows.

19. Fair Value of Financial Assets and Liabilities

The fair value framework as established in ASC paragraph 820-10-50-2 requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair values, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.
- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The following methods and assumptions were used to determine the fair value of each class of the following assets and liabilities recorded at fair value in the condensed consolidated Balance Sheet.

**Cash equivalents:** Cash equivalents primarily consist of money market funds. Money market funds that are carried at fair value, based on quoted market prices, are classified within Level 1 of the fair value hierarchy. All other cash equivalents carried at fair value based on observable inputs for which a quoted market price is not available are classified within Level 2 of the fair value hierarchy. Cash equivalents reflected below includes \$0 and \$6,845 of cash equivalents held by the consolidated affiliated partnerships at July 6, 2011 and September 29, 2010, respectively.

**Equity securities:** Except as follows, the Company's investments in equity securities are carried at fair value, based on quoted market prices, and are classified within Level 1 of the fair value hierarchy. Approximately \$814 of the investments held by consolidated affiliated partnerships at September 29, 2010 have been classified within Level 2 of the fair value hierarchy and have been valued, in the absence of observable market prices, by management, using valuation methodologies after giving consideration to a range of observable factors.

**Non-qualified deferred compensation plan investments:** The assets of the Non-Qualified Deferred Compensation plan are set up in a rabbi trust. They represent mutual funds that are carried at fair value, based on quoted market prices, and are classified within Level 1 of the fair value hierarchy.

**Investment held by consolidated affiliated partnership:** Investments of \$189 and \$323 as of July 6, 2011 and September 29, 2010, respectively, have been classified within Level 3 of the fair value hierarchy and represents a private security.

**Securities sold, not yet purchased:** The liability for securities sold, not yet purchased (short sales) is marked to market each reporting period with fair value based on quoted market prices for the underlying securities. At July 6, 2011, the amount includes \$6,407 held by the Company and \$3,661 held by consolidated affiliated partnerships.

Investment derivatives and interest rate swaps: Investment derivatives and interest rate swaps are marked to market each reporting period with fair value based on readily available market quotes, and are classified within Level 2 of the fair value hierarchy. Interest rate swaps at July 6, 2011 represent the mark to market adjustment for Steak n Shake's interest rate swap.

There were no changes in our valuation techniques used to measure fair values on a recurring basis.

A reconciliation of the beginning and ending balances of assets measured at fair value on a recurring basis using Level 3 inputs is as follows:

	July 6, 2011
Beginning of period balance	\$323
Sale of assets	(124 )
Loss included in earnings	(10 )
End of period balance	\$189

During fiscal 2011, the Company had no significant fair value adjustments applicable to items that are subject to non-recurring fair value measurement after the initial measurement date.

20. Steak n Shake of Tallahassee

During the second quarter of fiscal 2010, Steak n Shake reacquired the noncontrolling interest of Steak n Shake of Tallahassee LLC for \$168.

21. Related Party Transactions

Mr. Biglari, along with his affiliates, and certain directors of the Company make investments in the Lion Fund (other than the amounts invested by the Company), which are not subject to special profits, interest allocations, or incentive allocations. However, Mr. Biglari does not pay an incentive allocation fee as a limited partner in the Lion Fund. As of July 6, 2011, the total fair value of these investments was approximately \$2,514.

Biglari Capital, the general partner of the Lion Fund, earned a \$5,199 incentive allocation fee; however, \$2,689 is eliminated, for that amount represents the Company's fee as a limited partner, which is uncharged because the Company owns the general partner. The remaining \$2,510 is an incentive fee that is charged and reallocated from outside limited partners of the Lion Fund. The incentive fee is assessed only once a year in the calendar year end quarter, and no predictability of such earnings exists because the Lion Fund's annual performance is unpredictable.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(Amounts in \$000s, except per share data)

Biglari Holdings Inc. is a diversified holding company engaged in a number of diverse business activities. The Company is led by Sardar Biglari, Chairman and Chief Executive Officer of Biglari Holdings, Steak n Shake, Western, and Biglari Capital. The Company's long-term objective is to maximize per-share intrinsic value of the Company. The Company's strategy is to reinvest cash generated from its operating subsidiaries into any investments with the objective of achieving high risk-adjusted returns. All major operating, investment, and capital allocation decisions are made for the Company by Mr. Biglari.

On March 30, 2010, the Company, through Merger Sub, acquired 100% of the outstanding equity interests of Western, pursuant to the Merger Agreement. Upon the consummation of the merger pursuant to the Merger Agreement, Merger Sub merged with and into Western, with Western continuing as the surviving corporation and as a wholly-owned subsidiary of the Company.

The Company's Restaurant Operations consist of Steak n Shake and Western. As of July 6, 2011, Steak n Shake operated 413 company-owned restaurants and franchised 75 units in 22 states. Western operated 5 company-operated restaurants and franchised 89 units in 17 states.

On April 30, 2010, the Company acquired Biglari Capital pursuant to the Stock Purchase Agreement between the Company and our CEO, who was the sole shareholder of Biglari Capital. Biglari Capital is the general partner of the Lion Fund, a limited partnership operating as a private investment fund whose objective is to achieve above-average, long-term growth of capital from investments in stocks of simple, predictable businesses that generate substantial cash flow, yet trade at a significant discount to intrinsic value. The Lion Fund functions as a strategic investment arm for Biglari Holdings principally to assist in facilitating the partial ownership of other publicly traded companies.

Overview

In the following discussion, the term "same-store sales" refers to the sales of only those units open at least 18 months as of the beginning of the current fiscal period being discussed and which remained open through the end of the fiscal period.

Investment gains/losses in any given period will vary; therefore, for analytical purposes, management measures operating performance by analyzing earnings before realized and unrealized investment gains/losses.

The condensed consolidated financial statements include the accounts of (i) Biglari Holdings Inc., (ii) the wholly and majority owned subsidiaries of Biglari Holdings Inc. in which control can be exercised and (iii) limited partnership investment companies in which we have a controlling interest as the general partner. In evaluating whether we have a controlling interest in entities that we would consolidate, we consider the following: (1) for voting interest entities, we consolidate those entities in which we own a majority of the voting interests; and (2) for limited partnership entities, we consolidate those entities if we are the general partner of such entities and for which no substantive removal rights exist. Intercompany accounts and transactions have been eliminated in consolidation. The analysis as to whether to consolidate an entity is subject to a significant amount of judgment. Some of the criteria considered include the determination as to the degree of control over an entity by its various equity holders and the design of the entity.

Twelve Weeks Ended July 6, 2011

We recorded net earnings of \$8,676 for the third quarter of fiscal year 2011, as compared with net earnings of \$8,691 in the third quarter of fiscal year 2010.

Forty Weeks Ended July 6, 2011

We recorded net earnings of \$23,784 for the current year-to-date period, as compared with net earnings of \$19,692 in the same period of fiscal year 2010. The increase was primarily driven by the performance of our operating businesses, realized investment gains, and inclusion of Western's results. Additionally, the increase was impacted by the \$2,510 of incentive fee reallocation earned by Biglari Holdings that is charged and reallocated from outside limited partners of The Lion Fund.

Table of Contents

As of July 6, 2011 the total number of company-owned and franchised restaurants was 582 as follows:

	Company-owned	Franchised	Total
Steak n Shake	413	75	488
Western	5	89	94
Total	418	164	582

During the third quarter of fiscal year 2011, Restaurant Operations suffered no closings of underperforming company-owned restaurants or transfers to franchisees while closing just one Western Sizzlin franchised unit. Also during the current year-to-date period, Steak n Shake opened one company-owned restaurant and endured no franchise closures while opening four new franchise units.

Critical Accounting Policies

Management's discussion and analysis of financial condition and results of operations is based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. Certain accounting policies require management to make estimates and judgments concerning transactions that will be settled several years in the future. Amounts recognized in our financial statements from such estimates are necessarily based on numerous assumptions involving varying and potentially significant degrees of judgment and uncertainty. Accordingly, the amounts currently reflected in our financial statements will likely increase or decrease in the future as additional information becomes available. There have been no material changes to the critical accounting policies previously disclosed in our Annual Report on Form 10-K for the fiscal year ended September 29, 2010.

Comparison of Twelve Weeks Ended July 6, 2011 to Twelve Weeks Ended July 7, 2010

Net Earnings

We recorded net earnings of \$8,676, or \$6.49 per diluted share, for the current quarter, as compared with net earnings of \$8,691, or \$6.23 per diluted share, for the third quarter of fiscal year 2010.

Net Sales

In the third quarter of fiscal year 2011, net sales increased 4.3% from \$160,067 to \$166,893, mainly because of the performance of our Restaurant Operations. Steak n Shake's same-store sales advanced 4.9% during the third quarter of fiscal year 2011, principally because guest traffic expanded by 4.8%.

Franchise fees increased \$188 or 10.0% compared to the third quarter of fiscal year 2010. The number of franchised units rose from 161 at July 7, 2010 to 164 on July 6, 2011.

Costs and Expenses

Cost of sales was \$48,144 or 28.8% of net sales, compared with \$44,197 or 27.6% of net sales in the third quarter of fiscal year 2010. The increase as a percentage of net sales was created by inflation in commodity prices.

Restaurant operating costs were \$78,317 or 46.9% of net sales, compared with \$74,367 or 46.5% of net sales in the third quarter of fiscal year 2010. The increase as a percentage of net sales was attributable to increases in manager training, repairs and maintenance, insurance, and unemployment taxes.

General and administrative expenses increased as a percentage of total net revenues from 6.2% to 7.1%. This increment largely results from our efforts to franchise the Steak n Shake concept as well as the accrual of the incentive compensation.

Depreciation and amortization expense was \$6,563 or 3.8% of total net revenues, versus \$6,712 or 4.2% of total net revenues in the third quarter of fiscal year 2010.

Marketing expense was \$10,031 or 5.9% of total net revenues, versus \$9,020 or 5.6% of total net revenues in the third quarter of fiscal year 2010.

Rent expense as a percentage of total net revenues was 2.3% in the current quarter, compared to 2.5% in the third quarter of fiscal year 2010.

Other operating income was \$1,659 in the third quarter of fiscal year 2011, versus \$8 in the third quarter of fiscal year 2010 as a result of the sale of Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. in which all but \$300 was a non-cash gain.

Interest expense on obligations under leases was \$2,436 or 1.4% of total net revenues, versus \$2,559 or 1.6% of total net revenues in the third quarter of fiscal year 2010.

Our effective income tax rate was 16.5% in the third quarter of fiscal year 2011, compared with the income tax rate of 31.5% in the third quarter of fiscal year 2010. The decrease in the effective tax rate is due to increased federal employment tax credits combined with the majority of the gain sustained by the sale of Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. not being categorized as taxable income for income tax purposes.

Biglari Holdings Investment Gains

We recorded net realized investment gains of \$1,433 for the current quarter that were connected primarily to dispositions of marketable equity securities and investment losses of \$499 related to the change in fair value of securities sold short, an act which impacts earnings even though losses were not realized. We recorded \$986 of realized gains on investments and \$176 of investment gains related to the change in fair value of derivatives during the third quarter of fiscal year 2010. These investments are retained directly by Biglari Holdings, not by our consolidated affiliated partnerships.

Consolidated Affiliated Partnerships Investment Gains (Losses)

For the current quarter we recorded a net realized gain of \$749 related to dispositions of investments held by our consolidated affiliated partnerships and an unrealized investment gain of \$482. These amounts were offset by \$639 related to earnings attributable to redeemable noncontrolling interests to determine earnings allocated to the Company.

Table of Contents

Comparison of Forty Weeks Ended July 6, 2011 to Forty Weeks Ended July 7, 2010

Net Earnings

We recorded net earnings of \$23,784, or \$17.79 per diluted share, for the current year-to-date period, as compared with net earnings of \$19,692, or \$13.82 per diluted share, for the same period of fiscal year 2010. The increase was primarily driven by the performance of our operating businesses, realized investment gains, and inclusion of Western's results for the full year-to-date period in 2011. Additionally, the increase was impacted by the \$2,510 of incentive fee reallocation earned by Biglari Holdings that is charged and reallocated from outside limited partners of The Lion Fund.

Net Sales

In the current year-to-date period, net sales increased 4.5% from \$505,248 to \$527,848, mainly because of the performance of our Restaurant Operations. Steak n Shake's same-store sales advanced 3.9% during the current year-to-date period, principally because guest traffic expanded by 4.6%, but was partially offset by lower average selling prices. The acquisition of Western increased total net sales by \$5,953 or 1.2%.

Franchise fees increased \$2,427 or 60.9% compared to the same period of fiscal year 2010. The number of franchised units rose from 161 at July 7, 2010 to 164 at July 6, 2011. The acquisition of Western increased franchise fees by \$1,484 or 37.2%.

Costs and Expenses

Cost of sales was \$146,967 or 27.8% of net sales, compared with \$136,836 or 27.1% of net sales in the same period of fiscal year 2010. The increase in percentage of net sales was created by inflationary pressures on commodities.

Restaurant operating costs were \$253,646 or 48.1% of net sales, compared with \$246,081 or 48.7% of net sales in the same period of fiscal year 2010. The decrease in percentage of net sales stemmed from the implementation of several operating initiatives, which have produced higher productivity and labor efficiency.

General and administrative expenses increased as a percentage of total net revenues from 5.9% to 7.0% because of the inclusion of Western's general and administrative expenses, incentive compensation expense, legal costs, franchising, and the integration of certain business functions such as supply chain management. For strategic and economic purposes, the Company over the last year transitioned to and centralized selected business functions at the Company's headquarters in San Antonio, namely, supply chain management, franchise development, human resources, and training.

Depreciation and amortization expense was \$21,855 or 4.0% of total net revenues, versus \$22,597 or 4.4% of total net revenues in the same period of fiscal year 2010.

Marketing expense was \$29,762 or 5.5% of total net revenues, versus \$26,629 or 5.2% of total net revenues in the same period of fiscal year 2010.

Rent expense as a percentage of total net revenues was 2.4% in the current year-to-date period, compared to 2.5% in the same period of fiscal year 2010.

Other operating income was \$894 in the current year-to-date period, versus \$479 in the same period of fiscal year 2010. In the third quarter of fiscal 2011, we recorded a gain of \$1,558 in which all but \$300 was a non-cash gain related to the sale of Mustang Capital Management L.L.C. and Mustang Capital Advisors, L.P. which more than offset largely corresponding expense accruals of \$962 related to these entities in the first two quarters of fiscal 2011.

Interest expense on obligations under leases was \$8,146 or 1.5% of total net revenues, versus \$8,512 or 1.7% of total net revenues in the same period of fiscal year 2010.

Our effective income tax rate for the forty weeks ended July 6, 2011 was 27.1%, compared to 32.7% in the same period in the prior year. The decrease in the effective tax rate is due to increased federal employment credits combined with the majority of the gain sustained by the sale of Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. not being categorized as taxable income for income tax purposes.

#### Biglari Holdings Investment Gains

We recorded net realized investment gains of \$4,677 for the current year-to-date period connected primarily to dispositions of marketable equity securities and investment losses of \$292 related to the change in fair value of derivatives and securities sold short, an act which impacts earnings even though losses were not realized. We recorded \$1,820 of realized gains on investments and \$176 of investment gains related to the change in fair value of derivatives during the same period of fiscal year 2010. These investments are retained directly by Biglari Holdings, not by our consolidated affiliated partnerships.

## Table of Contents

### Consolidated Affiliated Partnerships Investment Gains (Losses)

For the current year-to-date period, we recorded a net realized gain of \$3,316 related to dispositions of investments held by our consolidated affiliated partnerships and an unrealized investment gain of \$861. These amounts were offset by \$2,559 related to earnings attributable to redeemable noncontrolling interests to determine earnings allocated to the Company.

### Consolidated Affiliated Partnerships

Investments held directly by the consolidated affiliated partnerships usually consist of domestic equity securities. Certain of the consolidated affiliated partnerships hold the Company's common stock as investments. In our condensed consolidated financial statements, the Company classifies this common stock as Treasury stock despite the shares being legally outstanding. As stated in Note 2 of the Notes to Condensed Consolidated Financial Statements, certain of the consolidated affiliated partnerships held the Company's Debentures as investments. These Debentures were redeemed by the Company on March 30, 2011. Refer to Note 14 of the Notes to Condensed Consolidated Financial Statements for further information. As of July 6, 2011 and September 29, 2010, the consolidated affiliated partnerships held 205,743 shares of the Company's common stock (\$69,221 at cost) and \$0 and \$7,540 of Debentures, respectively.

Throughout fiscal year 2010, Biglari Holdings invested a total of \$35,697 in the Lion Fund, both in the form of the acquisition of the general partner and as a direct limited partner investment. The fair value of these purchases of the Lion Fund totaled \$48,414 at July 6, 2011. These investments in the Lion Fund do not appear explicitly in the Company's condensed consolidated Balance Sheet because of the requirement to consolidate fully the Lion Fund (inclusive of third party interests) in the Company's financial statements. Further, the Lion Fund's portfolio holds significant interests in Biglari Holdings' common stock, which is classified on the Company's condensed consolidated Balance Sheet as a reduction to Shareholders' equity. Biglari Holdings' pro-rata ownership of its Company common stock and Debentures through the Lion Fund was 100,374 shares of stock (with a fair value of \$39,251) based on Biglari Holdings' ownership interest in the Lion Fund on July 6, 2011.

### Liquidity and Capital Resources

We generated \$49,820 in cash flows from operations during the current year-to-date period as compared to \$49,675 during the same period of fiscal year 2010.

Net cash used in investing activities of \$65,743 during the current year-to-date period was primarily a result of net purchases of investments. Net cash used in investing activities of \$27,565 during the same period of fiscal year 2010 included purchases of investments of \$51,866.

Net cash used in financing activities during the current year-to-date period was \$14,319 compared to net cash used of \$38,348 during the same period of fiscal year 2010. The decrease resulted primarily from the purchase of shares of Company stock by consolidated affiliated partnerships in fiscal year 2010.

Our balance sheet continues to maintain significant liquidity. The increase in Receivables of \$3,807 is attributable to income taxes, of which \$2,626 was collected in cash subsequent to quarter end. Investments increased to \$116,743 as of July 6, 2011 from \$32,523 at September 29, 2010. The increase is primarily related to significant investments in equity securities. We intend to meet the working capital needs of our operating subsidiaries principally through anticipated cash flows generated from operations, existing credit facilities, and the sale of excess properties. We continuously review available financing alternatives.

### Debentures

The Company acquired 100% of the outstanding equity interests of Western. Under the terms of the Merger Agreement, each share of Western's common stock was cancelled upon the completion of the merger and converted

into the right to receive a pro rata portion of a new issue of 14% redeemable subordinated debentures due 2015 issued by the Company (the “Debentures”) in the aggregate principal amount of \$22,959 with cash paid in lieu of fractional Debenture interests. The Company paid \$194 in lieu of fractional Debentures.

On March 30, 2011, the Company redeemed all of its outstanding Debentures. The Debentures were redeemed for cash at an aggregate redemption price of approximately \$23,420, representing 100% of the principal amount outstanding, plus accrued and unpaid interest up to, but not including, March 30, 2011. The Debentures were issued and the redemption was effected pursuant to the provisions of the Indenture, dated March 30, 2010 (the “Indenture”), between the Company and Wells Fargo Bank, National Association, as trustee. Upon the redemption of the Debentures, the Company’s obligations under the Debentures and the Indenture were satisfied and discharged in accordance with their terms. Included in the Debentures aggregate redemption price of \$23,420 was approximately \$7,804 of principal and interest paid to the Lion Fund. The payment to the Lion Fund does not appear explicitly in the Company’s condensed consolidated Statement of Cash Flows because of the requirement to consolidate fully the Lion Fund in the Company’s financial statements.

Steak n Shake Revolving Credit Facility

As of July 6, 2011, Steak n Shake's Revolving Credit Facility ("Facility") allows it to borrow up to \$30,000 under a revolving loan, which bears interest based on the London Interbank Offered Rate ("LIBOR") plus 150 basis points. The Facility is scheduled to expire on February 15, 2013. On July 6, 2011, outstanding borrowings under the revolving loan were \$21,000 at an interest rate of 1.7%. The Facility was amended effective February 15, 2011 to extend the maturity date and decrease the interest rate of the revolving loan. The lender also made a five year \$20,000 term loan to Steak n Shake under the amendment. In connection with the issuance of the term loan, Steak n Shake entered into an interest rate swap agreement with the lender for a notional amount of \$20,000, which effectively fixes the interest rate on the term loan at 3.25% through its maturity. On July 6, 2011, outstanding borrowings under the term loan were \$19,000 at an effective interest rate of 3.25%. The fair value of the interest rate swap was \$309 on July 6, 2011 and has been included in Accrued expenses on the condensed consolidated Balance Sheet.

The Facility contains restrictions and covenants customary for credit agreements of these types which, among other things, require Steak n Shake to maintain certain financial ratios, including minimum tangible net worth, as well as restrict the amount of distributions to the parent Company. Additionally, the Facility is not guaranteed by or an obligation of the parent Company; rather the Facility is guaranteed by two Steak n Shake subsidiaries. These restrictions and covenants include requirements to limit the ratio of total liabilities to tangible net worth (as defined in the Facility) to a maximum of 2.25, to maintain a minimum fixed charge coverage ratio and a funded indebtedness ratio (as defined in the Facility) of 1.75 and 2.50, respectively, and maintain minimum tangible net worth of \$150,000 for fiscal year 2011. Steak n Shake was in compliance with all covenants under the Facility as of July 6, 2011.

The Facility is secured with the deposit accounts, accounts receivable, inventory, equipment, general intangibles, chattel paper, software, and all other personal property of Steak n Shake (and its two subsidiaries).

The carrying amounts for debt reported in the condensed consolidated Balance Sheet do not differ materially from their fair values at July 6, 2011.

New Accounting Standards

See Note 4 of Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q.

Effects of Governmental Regulations and Inflation

Most employees are paid hourly rates related to federal and state minimum wage laws. Any increase in the legal minimum wage would directly increase the Company's operating costs. The Company is also subject to various federal, state and local laws related to zoning, land use, safety standards, working conditions, and accessibility standards. Any changes in these laws that require improvements to its restaurants would increase operating costs. In addition, the Company is subject to franchise registration requirements and certain related federal and state laws regarding franchise operations. Any changes in these laws could affect its ability to attract and retain franchisees.

Inflation in food, labor, fringe benefits, energy costs, transportation costs, and other operating costs also directly affect our restaurant operations.

## Risks Associated with Forward-Looking Statements

This report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In general, forward-looking statements include estimates of future revenues, cash flows, capital expenditures, or other financial items, and assumptions underlying any of the foregoing. Forward-looking statements reflect management's current expectations regarding future events and use words such as "anticipate," "believe," "expect," "may," and other similar terminology. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. Investors should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. These forward-looking statements are all based on currently available operating, financial, and competitive information and are subject to various risks and uncertainties. Our actual future results and trends may differ materially depending on a variety of factors, many beyond our control, including, but not limited to:

- the ability of the restaurant operations to increase store traffic on a profitable basis;
- competition in the restaurant industry for customers, staff, locations, and new products;
  - disruptions in the overall economy and the financial markets;
- the Company's ability to comply with the restrictions and covenants to its debt agreements;
- declines in the market price of our common stock, which could adversely affect our goodwill impairment analysis;
  - the potential to recognize additional impairment charges on our long-lived assets;
- fluctuations in food commodity and energy prices and the availability of food commodities;
  - the ability of our franchisees to operate profitable restaurants;
  - the poor performance or closing of even a small number of restaurants;
  - changes in customer preferences, tastes, and dietary habits;
- changes in minimum wage rates and the availability and cost of qualified personnel;
  - harsh weather conditions or losses due to casualties;
  - unfavorable publicity relating to food safety or food-borne illness;
- exposure to liabilities related to the ownership and leasing of significant amounts of real estate;
  - our ability to comply with existing and future governmental regulations;
- our ability to adequately protect our trademarks, service marks, and other components of our brand;
  - changes in market prices of our investments; and
- other risks identified in the periodic reports we file with the Securities and Exchange Commission.

Accordingly, such forward-looking statements do not purport to be predictions of future events or circumstances and may not be realized. Additional risks and uncertainties not currently known to us or that are currently deemed immaterial may also become important factors that may harm our business, financial condition, results of operations or cash flows. We assume no obligation to update forward-looking statements except as required in our periodic reports.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our investments are generally concentrated in common stocks. A significant decline in the general stock market or in the price of major investments may produce a large decrease in our consolidated Shareholders' equity and under certain circumstances may require the recognition of losses in the condensed consolidated Statement of Earnings. Decreases in values of equity investments can have a material adverse effect on our consolidated Shareholders' equity.

At July 6, 2011 the revolving loan under the Facility bore interest at a rate based upon LIBOR plus 150 basis points. Historically, we have not used derivative financial instruments to manage exposure to interest rate changes under the revolving loan. At July 6, 2011, a hypothetical 100 basis point increase in short-term interest rates would have an impact of approximately \$128 on our net earnings. In February 2011, in connection with the issuance of the term loan under the Facility, Steak n Shake entered into an interest rate swap agreement with the lender for a notional amount of

\$20,000, which effectively fixes the interest rate on the term loan at 3.25% through its maturity. The fair value of the interest rate swap was a loss of \$309 at July 6, 2011.

We do not have exposure to foreign currency exchange rate fluctuations, as we do not transact business in international markets and are not a party to any material non-U.S. dollar denominated contracts.

Item 4. Controls and Procedures

Based on an evaluation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15 (c)), our Chief Executive Officer and Interim Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of July 6, 2011.

There have been no changes in our internal control over financial reporting that occurred during the quarter ended July 6, 2011 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

## Part II Other Information

## Item 1A. Risk Factors

An investment in the common stock of any company involves a degree of risk. Investors should consider carefully the risks and uncertainties described in the Company's Annual Report on Form 10-K filed with the SEC, and those other risks described elsewhere in this report, before deciding whether to purchase our common stock. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also become important factors that may harm the Company's business, financial condition, and results of operations. The occurrence of risk factors could harm the Company's business, financial condition, and results of operations. The trading price of the Company's common stock could decline due to any of these risks and uncertainties, and stockholders may lose part or all of their investment.

There have been no material changes in the risk factors described in the Company's Annual Report on Form 10-K for the year ended September 29, 2010.

## Item 2. Unregistered Sales of Equity Securities And Use Of Proceeds

During the twelve weeks ended July 6, 2011, we withheld shares of our common stock to satisfy tax withholding obligations upon the vesting on May 19, 2011 of shares of restricted stock, which shares were automatically withheld in accordance with the terms of our 2008 Equity Incentive Plan, as amended. The following table provides information on the shares withheld (which are considered repurchased) during the twelve weeks ended July 6, 2011:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
