Richmond Brothers and Mark Ravich Comment on Rockwell Medical, Inc. Earnings

Discouraged by Rockwell’s Failure to Execute and Continued Delay in Bringing Triferic to Market

Dismayed that Shareholders Were Denied Opportunity to Ask Questions on Earnings Call – Reinforcing Need for Increased Transparency with Investors

Believe Rockwell’s Slightly More Detailed Pipeline Update is a Reactive Move Sparked by Richmond and Ravich Involvement

JACKSON, MI and ST. LOUIS PARK, MN (March 16, 2017) – Richmond Brothers, Inc., a Michigan-based SEC registered investment advisor and wealth management firm that is the largest beneficial owner of Rockwell Medical, Inc. (NASDAQ: RMTI) (“Rockwell” or the “Company”), and Mark H. Ravich, who together with their affiliates beneficially own over 6.1 million shares, or 11.9% of the Company’s outstanding common stock, today commented on Rockwell’s fourth quarter and year-end results announcement.

David S. Richmond, Chairman of Richmond Brothers, Inc., and Mark H. Ravich issued the following statement:

“Following yesterday’s earnings announcement, we continue to feel deeply frustrated by the Company’s failure to execute successfully on any plan to drive shareholder value in recent years. We believe that the current management and Board are running Rockwell as if it were a private entity, rather than a public company accountable to shareholders. That is why we believe direct shareholder representation is sorely needed on the Rockwell Board, and why we will continue to fight for our election as directors.

While it is a positive development to see Rockwell provide more transparent updates around its drug pipeline, we believe that this is purely a reactive response to the public pressure we have exerted on the Company, rather than an altruistic attempt at true openness with shareholders. What’s more, it is unfortunate that Rockwell has failed to address the ongoing delays with Calcitriol, as well as the Baxter situation – demonstrating, in our view, clear attempts to paper over their failures and missteps that are, we believe, the products of inexperienced management. The fact that it has taken so long for the Company to provide such a pipeline update – as well as what we see as their refusal to address other important issues – reinforces our contention that Rockwell has failed to adequately communicate with its shareholders for years.

Furthermore, we are discouraged that no questions were taken by management on the conference call following the Company's earnings announcement, especially given the fact that we are aware of multiple attempts made by Rockwell shareholders to pose questions on the call. Management's apparent disregard for shareholders epitomizes our deep frustration with the Company and our belief that change is desperately needed in the boardroom.

With regard to Triferic specifically, we would note that Rockwell has previously disclosed that it is close to bringing the drug to market, but we are concerned that this has not yet happened in a meaningful way – and we question how long shareholders will have to wait. We sincerely hope that Rockwell can achieve transitional add on pricing for Triferic in the near future, but we must admit that we are disillusioned by the fact that the Company can offer no meaningful update on the process at this stage – aside from positive platitudes lacking in detail.

The bottom line is that change is urgently needed at Rockwell, and we believe that, as long-term and significant shareholders, we are well-positioned to effect this change and ensure that shareholders’ best interests are represented on the Board.”
