**Report of Independent Registered Public Accounting Firm**

To the Participants, Administrator and  
BB&T Corporation Retirement Plans Committee  
BB&T Corporation 401(k) Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the BB&T Corporation 401(k) Savings Plan (the "Plan") at December 31, 2006 and 2005, and the changes in net assets available for benefits for the years ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit

includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion..

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **1. Description of the BB&T Corporation 401(k) Savings Plan**

The following description of the BB&T Corporation 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

### **General**

The Plan is a defined contribution plan sponsored by BB&T Corporation (the "Corporation" or "Plan Sponsor"). The Plan was established effective July 1, 1982, was most recently amended effective October 25, 2005, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

### **Eligibility for Participation**

The Plan covers all employees of participating subsidiaries who meet age and service requirements. Employees are eligible to make salary reduction contributions after 90 days of employment with the Corporation. Employees are eligible to receive matching contributions after attaining the age of 21 with one year of continuous employment in which they have worked at least 1,000 hours. Participation in the Plan is based on voluntary election by each employee.

### **Contributions**

Participants may elect to contribute between 1 percent and 25 percent, in whole percentages, of their eligible earnings, as defined in the Plan agreement, on a pre-tax basis subject to certain Internal Revenue Code ("IRC") limitations. The Corporation matches dollar-for-dollar up to 6 percent of compensation that a participant contributes to the Plan.

Participants may make changes in their contribution percentage at any time. Allocations among fund options offered by the Plan may be changed on a daily basis. Participants may also contribute funds from other tax-qualified plans as rollover contributions.

### **Vesting**

Participants are vested immediately in their contributions, employer matching contributions and actual earnings allocated to their account.

### **Participant Loans**

Participants may borrow from their account balances an amount not to exceed the lesser of \$50,000 or 50 percent of their account balance. The minimum loan amount allowed by the Plan is \$1,000. Only one loan can be taken during the Plan year and a participant may have only one loan outstanding at any time. The interest rate charged on amounts borrowed is equal to the Corporation's prime lending rate plus 1 percent at the loan origination date. Loans from merged plans are carried at the terms and conditions that were set by the predecessor plans.

### **Payment of Benefits**

Upon termination, a participant may elect to have distributions paid from their account in installments, a lump sum or any combination of the two. Retired participants may elect installment payments to occur over a period not to exceed the participant's life expectancy, or the life expectancy of the participant and beneficiary. Hardship withdrawals are allowed by the Plan in accordance with Plan provisions and Internal Revenue Service ("IRS") regulations. Benefit claims are recorded when they have been approved for payment and paid by the Plan.

## **BB&T Corporation 401(k) Savings Plan**

### **Notes to Financial Statements**

**Years ended December 31, 2006 and 2005**

### **Participant Accounts**

Each participant's separate account is credited with the participant's contribution and allocations of matching contributions, earnings on the account and administrative expenses. Allocations of earnings and expenses are based upon the market activity and fees of the investment options selected by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### **Forfeitures**

Forfeitures represent nonvested employer matching contributions of participants in predecessor plans that have terminated their employment with their employer. At December 31, 2006 and 2005, forfeited accounts totalled \$54,891 and \$62,743, respectively. This account can be used to reduce employer contributions. In 2006, employer contributions were reduced by \$17,741 from the forfeiture account.

## **2. Summary of Significant Accounting Policies**

### **Basis of Accounting**

The Plan's financial statements have been prepared using the accrual basis of accounting.

### **Administrative Expenses**

The Plan Sponsor may elect, but is not required, to pay recordkeeping and other administrative expenses incurred by the Plan. The Plan Sponsor has elected to pay certain administrative fees related to professional services provided to the Plan. Trustee fees and recordkeeping charges for services rendered by the Corporation's Trust Division are paid by the Plan (see Note 9).

### **Investment Valuation and Income Recognition**

Participants may direct the investment of their contributions as well as employer matching contributions among sixteen mutual funds, the common stock fund and a bank investment contract (the "one-year BIC"), each offering different degrees of risk and return. Effective January 1, 2005, a self-directed brokerage investment option was added to the Plan. As of July 31, 2005, any remaining investment in the Small Company Growth Fund was transferred to the One-Year BIC.

The Plan's investments are stated at fair value. The fair value of common stock and investments in the self-directed brokerage account was determined by closing prices at the end of the Plan year. Shares of mutual funds and common/collective trust are valued at the net asset value of the shares held by the Plan at year end. The fair value of the one-year BIC approximates contract value (see Note 3). Investments in participant loans are stated at the outstanding balances, which approximate fair market value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income on mutual funds is recorded on the ex-dividend date. Capital gain distributions on mutual funds are included in dividend income. Dividend income on BB&T Corporation common stock is recorded on the payable date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and unrealized appreciation or depreciation on investments held at year end.

## **BB&T Corporation 401(k) Savings Plan**

### **Notes to Financial Statements**

**Years ended December 31, 2006 and 2005**

### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the dates of the financial statements and the reported changes in net

assets available for benefits during the reported periods. Actual results could differ from those estimates.

### Concentration of Credit Risk

Concentrations of credit risk that arise from financial instruments exist for groups of counterparties when they have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Financial instruments which potentially subject the Plan to concentration of credit risk consist principally of mutual funds, the common/collective trust fund, the one-year BIC and common stock investments.

### Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation. These changes had no impact on total net assets of the Plan.

### 3. Bank Investment Contract

The Plan invests in a fully benefit-responsive bank investment contract guaranteed by the Corporation. The contract is credited with earnings at the guaranteed rate and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment without penalty.

There are no reserves for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 4.60 percent and 4.50 percent, respectively, in 2006, and 2.89 percent and 2.85 percent, respectively, in 2005. The interest rate is reset annually based on December 1st market yields for one-year maturity investments.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net asset available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the one-year BIC, and no adjustment for contract value is necessary since contract value approximates fair value.
