* As a result of recent changes in generally accepted accounting principles, the Multimedia Trust has reclassified periodic payments made under interest rate swap agreements, previously included within interest income, as a component of realized gain (loss) in the statement of operations. The effect of this reclassification was to increase net investment income and decrease realized gain by \$470,703.

THE GABELLI GLOBAL MULTIMEDIA TRUST INC. NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION. The Gabelli Global Multimedia Trust Inc. ("Multimedia Trust") is a closed-end, non-diversified management investment company organized as a Maryland corporation on March 31, 1994 and registered under the Investment Company Act of 1940, as amended (the "1940 Act"), whose primary objective is long-term growth of capital with income as a secondary objective. The Multimedia Trust had no operations prior to November 15, 1994, other than the sale of 10,000 shares of common stock for \$100,000 to The Gabelli Equity Trust Inc. (the "Equity Trust"). Investment operations commenced on November 15, 1994.

Effective August 1, 2002, the Multimedia Trust modified its non-fundamental investment policy to increase, from 65% to 80%, the portion of its assets that it will invest, under normal market conditions, in common stock and other securities, including convertible securities, preferred stock, options and warrants of companies in the telecommunications, media, publishing and entertainment industries (the "80% Policy").

The 80% Policy may be changed without shareholder approval. However, the Multimedia Trust has adopted a policy to provide shareholders with at least 60 days' notice of the implementation of any change in the 80% Policy.

2. SIGNIFICANT ACCOUNTING POLICIES. The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Directors (the "Board") so determines, by such other method as the Board shall determine in good faith, to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-CSRS

by Gabelli Funds, LLC (the "Adviser").

Portfolio securities primarily traded on foreign markets are generally valued at the preceding closing values of such securities on their respective exchanges or if after the close, market conditions change significantly, certain foreign securities may be fair valued pursuant to procedures established by the Board. Debt instruments that are not credit impaired with remaining maturities of 60 days or less are valued at amortized cost, unless the Board determines such does not reflect the securities' fair value, in which case these securities will be valued at their fair value as determined by the Board. Debt instruments having a maturity greater than 60 days for which market quotations are readily available are valued at the latest average of the bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. Futures contracts are valued at the official closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons to the valuation and changes in valuation of similar securities, including a comparison of foreign securities to the equivalent U.S. dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

11

THE GABELLI GLOBAL MULTIMEDIA TRUST INC. NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

REPURCHASE AGREEMENTS. The Multimedia Trust may enter into repurchase agreements with primary government securities dealers recognized by the Federal Reserve Bank of New York, with member banks of the Federal Reserve System or with other brokers or dealers that meet credit guidelines established by the Adviser and reviewed by the Board of Directors. Under the terms of a typical repurchase agreement, the Multimedia Trust takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Multimedia Trust to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Multimedia Trust's holding period. The Multimedia Trust will always receive and maintain securities as collateral whose market value, including accrued interest, will be at least equal to 102% of the dollar amount invested by the Multimedia Trust in each agreement. The Multimedia Trust will make payment for such securities only upon physical delivery or upon evidence of book entry transfer of the collateral to the account of the custodian. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Multimedia Trust may be delayed or limited.

SWAP AGREEMENTS. The Multimedia Trust may enter into interest rate swap or cap transactions. The use of interest rate swaps and caps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an interest rate swap, the Multimedia Trust would agree to pay to the other party to the interest rate swap (which is known as the "counterparty") periodically a fixed rate payment in exchange for the counterparty agreeing to pay to the

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-CSRS

Multimedia Trust periodically a variable rate payment that is intended to approximate the Multimedia Trust's variable rate payment obligation on the Series C Preferred Stock. In an interest rate cap, the Multimedia Trust would pay a premium to the interest rate cap to the counterparty and, to the extent that a specified variable rate index exceeds a predetermined fixed rate, would receive from the counterparty payments of the difference based on the notional amount of such cap. Interest rate swap and cap transactions introduce additional risk because the Multimedia Trust would remain obligated to pay preferred stock dividends when due in accordance with the Articles Supplementary even if the counterparty defaulted. Depending on the general state of short-term interest rates and the returns on the Multimedia Trust's portfolio securities at that point in time, such a default could negatively affect the Multimedia Trust's ability to make dividend payments for the Series C Preferred Stock. In addition, at the time an interest rate swap or cap transaction reaches its scheduled termination date, there is a risk that the Multimedia Trust will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction. If this occurs, it could have a negative impact on the Multimedia Trust's ability to make dividend payments on the Series C Preferred Stock.

The Trust has entered into two interest rate swap agreements with Citibank N.A. Under the agreement the Trust receives a floating rate of interest and pays a respective fixed rate of interest on the nominal value of the swap. Details of the swap at June 30, 2004 are as follows:

NOTIONAL AMOUNT -----	FIXED RATE -----	FLOATING RATE* (RATE RESET MONTHLY) -----	TERMINATION DATE -----
\$10,000,000	4.32%	1.13%	April 4, 2013
\$15,000,000	3.27%	1.13%	April 4, 2008

*Based on Libor (London Interbank Offered Rate).

As a result of a recent FASB Emerging Issues Task Force consensus (and subsequent related SEC staff guidance), the Fund has reclassified periodic payments made under interest rate swap agreements, previously included within interest income, as a component of realized gain (loss) in the statement of operations. For consistency, similar reclassifications

THE GABELLI GLOBAL MULTIMEDIA TRUST INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

have been made to amounts appearing in the previous year's statement of changes in net assets and the per share amounts in prior year financial highlights. Prior year net investment income ratios in the financial highlights have also been modified accordingly. This reclassification increased (decreased) net investment income and increased (decreased) net realized gains for the year(s) ended December 31, 2003 but had no effect on the Fund's net asset value, either in total or per share, or its total increase (decrease) in net assets from operations during any period.

FORWARD FOREIGN EXCHANGE CONTRACTS. The Multimedia Trust may engage in forward foreign exchange contracts for hedging a specific transaction with

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-CSRS

respect to either the currency in which the transaction is denominated or another currency as deemed appropriate by the Adviser. Forward foreign exchange contracts are valued at the forward rate and are marked-to-market daily. The change in market value is included in unrealized appreciation/depreciation on investments and foreign currency transactions. When the contract is closed, the Multimedia Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of forward foreign exchange contracts does not eliminate fluctuations in the underlying prices of the Multimedia Trust's portfolio securities, but it does establish a rate of exchange that can be achieved in the future. Although forward foreign exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain/(loss) that might result should the value of the currency increase. In addition, the Multimedia Trust could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts.

FOREIGN CURRENCY TRANSACTIONS. The books and records of the Multimedia Trust are maintained in United States (U.S.) dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates prevailing at the end of the period, and purchases and sales of investment securities, income and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses, which result from changes in foreign exchange rates and/or changes in market prices of securities, have been included in unrealized appreciation/depreciation on investments and foreign currency transactions. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Multimedia Trust and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME. Securities transactions are accounted for as of the trade date with realized gain or loss on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded as earned. Dividend income is recorded on the ex-dividend date.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS. Distributions to shareholders are recorded on the ex-dividend date. Distributions to shareholders of the Multimedia Trust's 6.00% Series B Cumulative Preferred Stock and Series C Auction Rate Cumulative Preferred Stock ("Cumulative Preferred Stock") are accrued on a daily basis and are determined as described in Note 5. Income distributions and capital gain distributions are determined in accordance with Federal income tax regulations which may differ from accounting principles generally accepted in the United States.

For the year ended December 31, 2003, reclassifications were made to increase accumulated net investment loss for \$922,674 and to increase accumulated net realized loss on investments and foreign currency transactions for \$632,926, with an offsetting adjustment to additional paid-in capital.

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-CSRS

The tax characteristics of distributions paid during the fiscal year ended December 31, 2003 was as follows:

DISTRIBUTIONS PAID FROM:
Net long term capital gain

Total distributions paid

PROVISION FOR INCOME TAXES. The Trust intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended the "Code". It is the Fund's policy to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for Federal income taxes is required.

As of December 31, 2003, the components of accumulated earnings/(losses) on a tax basis were as follows:

Net unrealized appreciation on investments
Net unrealized appreciation on foreign currency transactions
Other - dividends payable

3. AGREEMENTS AND TRANSACTIONS WITH AFFILIATES. The Multimedia Trust has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser which provides that the Multimedia Trust will pay the Adviser on the first business day of each month a fee for the previous month equal on an annual basis to 1.00% of the value of the Multimedia Trust's average weekly net assets including the liquidation value of preferred stock. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Multimedia Trust's portfolio and oversees the administration of all aspects of the Multimedia Trust's business and affairs. The Adviser has agreed to reduce the management fee on the incremental assets attributable to the Cumulative Preferred Stock if the total return of the net asset value of the common shares of the Multimedia Trust, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate or corresponding swap rate of the Cumulative Preferred Stock for the year.

The Trust's total return on the net asset value of the common shares is monitored on a monthly basis to assess whether the total return on the net asset value of the common shares exceeds the stated dividend rate of the Cumulative Preferred stock for the period. For the six months ended June 30, 2004, the Multimedia Trust's total return on the net asset value of the common shares did not exceed the stated dividend rates, and net swap expense of all outstanding preferred stock. Thus, management fees were not earned on these assets.

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-CSRS

During the six months ended June 30, 2004, Gabelli & Company, Inc. received \$16,876 in brokerage commissions as a result of executing agency transactions in portfolio securities on behalf of the Multimedia Trust.

The cost of calculating the Trust's net asset value per share is a Trust expense pursuant to the Investment Advisory Agreement between the Trust and the Adviser. During the six months ended June 30, 2004, the Multimedia Trust reimbursed the Adviser \$17,400 in connection with the cost of computing the Trust's net asset value.

4. PORTFOLIO SECURITIES. Cost of purchases and proceeds from sales of securities, other than short-term securities, for the six months ended June 30, 2004 aggregated \$7,850,674 and \$3,547,086 respectively.

5. CAPITAL. The charter permits the Multimedia Trust to issue 196,750,000 shares of common stock (par value \$0.001). The Board of Directors of the Multimedia Trust has authorized the repurchase of up to 1,000,000 shares of the Multimedia

Trust's outstanding common stock. During the six months ended June 30, 2004, the Multimedia Trust repurchased 21,100 shares of its common stock in the open market at a cost of \$196,583 and an average discount of approximately 14.68% from its net asset value. The Multimedia Trust's Articles of Incorporation authorize the issuance of up to 2,000,000 shares of \$0.001 par value Cumulative Preferred Stock. The Cumulative Preferred Stock is senior to the common stock and results in the financial leveraging of the common stock. Such leveraging tends to magnify both the risks and opportunities to Common Shareholders. Dividends on shares of the Cumulative Preferred Stock are cumulative. The Multimedia Trust is required to meet certain asset coverage tests as required by the 1940 Act and by the shares' Articles Supplementary with respect to the Cumulative Preferred Stock. If the Multimedia Trust fails to meet these requirements and does not correct such failure, the Multimedia Trust may be required to redeem, in part or in full, the

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-CSRS

6.00% Series B and Series C Auction Rate Cumulative Preferred Stock at a redemption price of \$25.00 and \$25,000, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset requirements could restrict the Multimedia Trust's ability to pay dividends to Common Shareholders and could lead to sales of portfolio securities at inopportune times.

The Multimedia Trust, as authorized by the Board of Directors, redeemed the remaining 75% (926,025 shares) of its outstanding 7.92% Cumulative Preferred Stock. The redemption date was April 2, 2003 and the redemption price was \$25.033 per Preferred Share, which consisted of \$25.00 per share of Preferred Stock (the liquidation value), plus accumulated and unpaid dividends through the redemption date of \$0.033 per Preferred Share. The Preferred Shares were callable at any time at the liquidation value of \$25.00 per share plus accrued dividends following the expiration of the five-year call protection on June 1, 2002.

On March 31, 2003, the Multimedia Trust received net proceeds of \$24,009,966 (after underwriting discounts of \$787,500 and offering expenses of \$202,534) from the public offering of 1,000,000 shares of 6.00% Series B Cumulative Preferred Stock. Commencing April 2, 2008 and thereafter, the Multimedia Trust, at its option, may redeem the 6.00% Series B Cumulative Preferred Stock in whole or in part at the liquidation value price. The Board of Directors has authorized the repurchase of the 6.00% Series B Cumulative Preferred Stock in the open market at prices less than the \$25 liquidation value of the Cumulative Preferred Stock. During the six months ended June 30, 2004, the Multimedia Trust repurchased 6,900 shares of 6.00% Series B Cumulative Preferred Stock in the open market at a cost of \$164,246 and an average discount of approximately 4.86% from its liquidation value of \$25.00 per share. All repurchased shares of 6.00% Series B Cumulative Preferred Stock have been retired. At June 30, 2004, 993,100 shares of the 6.00% Series B Cumulative Preferred Stock were outstanding and accrued dividends amounted to \$12,414.

THE GABELLI GLOBAL MULTIMEDIA TRUST INC. NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

On March 31, 2003, the Multimedia Trust received net proceeds of \$24,547,465 (after underwriting discounts of \$250,000 and offering expenses of \$202,535) from the public offering of 1,000 shares of Series C Auction Rate Cumulative Preferred Stock. The dividend rate, as set by the auction process, which is generally held every 7 days, is expected to vary with short-term interest rates. The rates of Series C Auction Rate Cumulative Preferred Stock ranged from 1.02% to 1.45% for the six months ended June 30, 2004. Existing shareholders may submit an order to hold, bid or sell such shares on each auction date. Series C Auction Rate Cumulative Preferred Stock shareholders may also trade shares in the secondary market. The Multimedia Trust, at its option, may redeem the Series C Auction Rate Cumulative Preferred Stock in whole or in part at the liquidation value price at any time. During the six months ended June 30, 2004, the Multimedia Trust did not repurchase any shares of Series C Auction Rate Cumulative Preferred Stock. At June 30, 2004, 1,000 shares of the Series C Auction Rate Cumulative Preferred Stock were outstanding with an annualized dividend rate of 1.45% per share and accrued dividends amounted to \$1,007.

The holders of Cumulative Preferred Stock have voting rights equivalent to those of the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class. In addition, the 1940

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-CSRS

Act requires that along with approval of a majority of the holders of common stock, approval of a majority of the holders of any outstanding shares of Cumulative Preferred Stock, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Cumulative Preferred Stock, and (b) take any action requiring a vote of security holders, including, among other things, changes in the Multimedia Trust's subclassification as a closed-end investment company or changes in its fundamental investment restrictions.

Under Emerging Issues Task Force (EITF) promulgating Topic D-98, Classification and Measurement of Redeemable Securities, which was issued on July 19, 2001, preferred securities that are redeemable for cash or other assets are to be classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon the occurrence of an event that is not solely within the control of the issuer. In accordance with the guidance of the EITF, the Fund's Cumulative Preferred Stock is classified outside of permanent equity (net assets attributable to common stock shareholders) in the accompanying financial statements.

6. INDUSTRY CONCENTRATION. Because the Multimedia Trust primarily invests in common stocks and other securities of foreign and domestic companies in the telecommunications, media, publishing and entertainment industries, its portfolio may be subject to greater risk and market fluctuations than a portfolio of securities representing a broad range of investments.

7. OTHER MATTERS. On October 7, 2003, the Trust's Adviser received a subpoena from the Attorney General of the State of New York requesting information on mutual fund shares trading practices. The Adviser has also received requests for information from the SEC regarding mutual fund trading practices and valuation of portfolio securities. The Adviser has responded to the requests. The Trust does not believe that these matters will have a material adverse effect on the Trust's financial position or the results of its operations.

8. INDEMNIFICATIONS. The Multimedia Trust enters into contracts that contain a variety of indemnifications. The Multimedia Trust's maximum exposure under these arrangements is unknown. However, the Multimedia Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.
