SHAREHOLDER LETTER

FIRST TRUST/VALUE LINE(R) & IBBOTSON EQUITY ALLOCATION FUND (FVI)
ANNUAL REPORT
MAY 31, 2006

Dear Shareholders:

We are pleased to present you with this annual report of the First Trust/Value Line(R) & Ibbotson Equity Allocation Fund (the "Fund") (AMEX Symbol: FVI). Over the one-year period ended May 31, 2006, the Fund continued to outperform its benchmark, more than doubling the performance of the S&P 500 Index in both market value and net asset value ("NAV") total returns. This report includes a portfolio commentary, including the Fund's performance results, a listing of the Fund's investments, and other financial statements for the reporting period.

The Fund seeks to provide capital appreciation utilizing an equity asset allocation model provided by Ibbotson Associates to determine the optimal equity allocations among the six asset classes: large-cap growth and value; mid-cap growth and value and small-cap growth and value. The portfolio is selected from those stocks ranked #1 or #2 in the Value Line(R) Timeliness(TM) Ranking System, Value Line(R) Safety(TM) Ranking System or Value Line(R) Technical(TM) Ranking System. The top 25 ranked stocks within each of the six asset classes are then selected for the FVI portfolio, which results in approximately 150 stocks.

First Trust Advisors L.P. ("First Trust"), the Fund's advisor, serves as investment advisor or portfolio supervisor to investment portfolios with approximately \$25 billion in assets which it managed or supervised as of May 31, 2006. Robert Carey is the Chief Investment Officer for First Trust. I encourage you to read the portfolio commentary, which includes a review of the Fund's performance and Robert's outlook for the markets.

We thank you for your continued confidence in First Trust and will work diligently to keep earning it.

Sincerely,

/s/ James A. Bowen

PORTFOLIO COMMENTARY

OVERVIEW

The First Trust/Value Line(R) & Ibbotson Equity Allocation Fund ("FVI" or the "Fund") posted a market price total return of 26.3% and a net asset value ("NAV") total return of 21.5% for the one-year period ended May 31, 2006. Over the same one-year period, the S&P 500 Index and S&P 1500 Super Composite Index, which have exposure to large-, mid-, and small-cap stocks, gained 8.6% and 9.6%, respectively. The Fund distributed \$0.04 per share in net investment income distributions, \$3.80 per share in short-term capital gain distributions, and \$0.63 per share in long-term capital gain distributions for the 12-month period ended May 31, 2006. The Fund's distribution rate, based on market price, was 0.2% as of May 31, 2006. FVI carried a beta of 1.06 as of May 31, 2006, according to Bloomberg, which indicates that the Fund has slightly more price volatility than the stocks in the S&P 500 Index. FVI traded at a 10.5% discount to its NAV on May 31, 2006. Its daily share volume throughout the period averaged 23,001 shares.

Following is a review of the portfolio strategy and composition, investment environment and performance results of FVI for the one-year period ended May 31, 2006.

INVESTMENT STRATEGY

The Fund's investment objective is to provide capital appreciation. Under normal market conditions, the Fund will invest substantially all of its net assets in common stocks that are selected through the application of a top-down asset allocation strategy and a bottom-up stock selection methodology, in each case implemented by First Trust Advisors L.P. (the "Advisor"). The Advisor utilizes the Strategic Equity Asset Allocation Model of Ibbotson Associates (top-down) to determine the optimal equity allocations among the following six U.S. equity

Edgar Filing: FIRST TRUST VALUE LINE R & IBBOTSON EQUITY ALLOCATION FUND - Form N-CSR

asset classes: (1) Large-Cap Growth, (2) Large-Cap Value, (3) Mid-Cap Growth, (4) Mid-Cap Value, (5) Small-Cap Growth and (6) Small-Cap Value.

To select the stocks within each of the six U.S. equity classes, the Advisor begins with the universe of stocks that Value Line(R) Publishing, Inc. gives a Timeliness(TM), Safety(TM) or Technical(TM) Ranking of #1 or #2 using the Value Line(R) Ranking Systems. The Advisor then applies a proprietary model to rank the stocks contained in that universe to determine which stocks will be selected for each of the six different U.S. equity asset classes. The Advisor then selects the top 25 ranked stocks for each of the six asset classes for a total of approximately 150 stocks in the portfolio.

The Advisor rebalances the Fund's portfolio holdings on a semi-annual basis and adjusts the portfolio to reflect changes in the Ibbotson Strategic Equity Asset Allocation Model on an annual basis. On a more frequent basis, the Advisor may sell stocks that are no longer within the Value Line(R) universe of #1 and #2 rankings and replace them with new stocks. The Fund does not employ leverage.

DISTRIBUTIONS

The Fund distributed \$0.04 per share in net investment income dividends for the 12-month period ended May 31, 2006. The Fund distributed a short-term capital gain of \$1.25 per share in June 2005. In December 2005, the Fund distributed a short-term capital gain of \$2.55 per share and a long-term capital gain of \$0.63 per share. The distribution rate of the Fund was 0.2%, as of May 31, 2006, based on market price.

COMPOSITION OF THE FUND

The Fund is usually comprised of 150 equity holdings. Over the past twelve months, 265 stocks were sold and 264 were bought. As of May 31, 2006, the weighted average market capitalization of the stocks in the portfolio was \$25.6 billion, down slightly from \$26.7 billion a year ago. The average market capitalization was \$14.3 billion, down from \$15.7 billion a year ago. The largest market capitalization holding in the portfolio was \$368.5 billion, up from \$358.9 billion a year ago. The smallest market capitalization holding was \$646.0 million, up from \$407.0 million a year ago.

As of May 31, 2006, the Strategic Equity Asset Allocation Model of Ibbotson Associates, Inc. set the allocations among the six U.S. equity asset classes as follows: Large-Cap Growth (31%), Large-Cap Value (33%), Mid-Cap Growth (8%), Mid-Cap Value (10%), Small-Cap Growth (9%) and Small-Cap Value (9%).

PORTFOLIO COMMENTARY - (CONTINUED)

For the 12-month period ended May 31, 2006, these six major U.S. equity asset classes posted the following returns (as measured by Standard & Poor's & Russell): S&P/Citigroup Growth Index (+3.6%), S&P/Citigroup Value Index (+13.8%), S&P400/Citigroup (Mid-Cap) Growth Index (+13.3%), S&P 400/Citigroup (Mid-Cap) Value Index (+17.8%), Russell 2000 (Small-Cap) Growth Index (+18.3%) and Russell 2000 (Small-Cap) Value Index (+18.2%).

SECTOR DIVERSIFICATION

The following breakdown illustrates the major economic sector weightings according to S&P's Global Industry Classification Standard for FVI as of May 31,

Edgar Filing: FIRST TRUST VALUE LINE R & IBBOTSON EQUITY ALLOCATION FUND - Form N-CSR

2005 and MAY 31, 2006: Basic Materials (5.0%; 11.1%); Consumer Discretionary (16.1%; 14.9%); Consumer Staples (10.4%; 6.3%); Energy (19.7%; 14.6%); Financial Services (11.0%; 6.7%); Health Care (9.0%; 1.7%); Industrials (7.5%; 18.2%); Information Technology (12.9%; 19.7%); Telecommunications (2.4%; 3.8%); Utilities (5.1%; 2.4%); and Cash & Equivalents (0.9%; 0.6%).

PERFORMANCE OF THE FUND

The Fund posted some impressive returns for the one-year period. Based on market price, the Fund's total return was 26.3% for the 12-month period ended May 31, 2006. Its NAV total return was 21.5%. Over the same period, the S&P 500 Index and S&P 1500 Super Composite Index, which have exposure to large-, mid-, and small-cap stocks, gained 8.6% and 9.6%, respectively.

Over the 12-month period ended May 31, 2006, an overweight position in energy and basic materials shares, relative to the benchmarks, contributed to the positive performance of the Fund. Over the period, these were the two best performing sectors in the S&P 500 Index. An underweight position in health care stocks, the worst performing sector of the benchmark, also contributed to the positive performance of the Fund over the 12-month period. Fund performance was hindered by an underweight position, relative to the benchmark, in financial shares. Financial shares were among the best performers in the benchmarks, returning 14.6% and 14.9% for the S&P 500 Index and S&P 1500 Super Composite Index, respectively.

We are pleased that our strategy continues to outperform its benchmark indexes - returning substantially more than the two benchmarks mentioned based on the Fund's market price and net asset value. The market price of FVI closed at \$21.20 per share on May 31, 2006, above its \$20.00 IPO price. Despite the strong NAV performance of FVI, the Fund traded at a 10.5% discount to its NAV on May 31, 2006.

MARKET AND ECONOMIC OVERVIEW

Overall, for the year ended May 31, 2006, stock markets performed in line with or above long-term averages, with particular strength in small and mid-cap stocks. The S&P 500 (large-cap), S&P 400 (mid-cap), and S&P 600 (small-cap) indexes increased, including dividends, with returns of 8.6%, 15.5% and 17.6%, respectively, for the 12-month period ended May 31, 2006. After lagging behind large cap stocks in the 1990s, small and mid-cap stocks have substantially outperformed their large-cap counterparts so far this decade.

In our opinion, the equity market conditions remained favorable throughout most of the period, with particular strength from late October 2005 through early May 2006, as economic conditions improved from the lower expectations brought about by severe weather conditions in the Gulf Region. However, starting in early May 2006, stock markets began to experience meaningful weakness, particularly the shares of those companies that had experienced the greatest increase in price leading up to that point. May 2006 saw the S&P small and mid-cap stock indexes decline by approximately 4.5%, considerably higher than the 2.5% decline for the S&P 500 large-cap index.

The Federal Open Market Committee raised interest rates steadily during the period from 3% to 5% due to increased inflation expectations. The inflation rate, as measured by the Consumer Price Index, increased from 2.8% to 3.5% on an annualized basis. Most of the increase in interest rates was likely due to the strong recovery in capacity utilization and sharply higher commodity prices as evidenced by the price of gold. According to Bloomberg, gold reached a 26-year high of \$732 an ounce on May 12, 2006.

Typically, higher interest rates put pressure on equity valuations and so the positive performance of equities for the one-year period ended May 31, 2006 is

Edgar Filing: FIRST TRUST VALUE LINE R & IBBOTSON EQUITY ALLOCATION FUND - Form N-CSR

notable and can most likely be explained by strong earnings performance. Earnings for the S&P 500 in the first quarter of 2006 were 19.4% higher than the same period a year earlier, with 67.6% of companies beating consensus earnings estimates. Consensus earnings estimates in April and May continued to increase according to the Institutional Broker's Estimate System. The S&P 500 has posted double-digit earnings growth for the past 16 consecutive quarters.

IN CLOSING

It is a bit unusual to see stock prices rise as strongly as they have over the last year given higher interest rates. We believe the best explanation is that profits have increased fast enough to offset the negative impact that rising rates can have on equity valuations. As investors look to minimize the guesswork associated with investing in stocks, multi-cap equity portfolios are rapidly gaining in popularity. In 2005, multi-cap equity mutual funds reported net inflows totaling \$94.3 billion, up from \$69.8 billion in 2004, according to Lipper. The cash flows for the rest of the major categories in 2005, according to Lipper, were as follows: Mid-Cap funds (+\$19.3 billion); Small-Cap funds (-\$1.74 billion); and Large-Cap funds (-\$106.2 billion). Multi-Cap funds are sneaking up on Large-Cap funds in terms of total assets (\$1.03 trillion vs. \$1.14 trillion). The First Trust/Value Line(R) & Ibbotson Equity Allocation Fund continues to provide a diversified portfolio for investors within a closed-end fund seeking a multi-cap portfolio allocation.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST/VALUE LINE(R) & IBBOTSON EQUITY ALLOCATION FUND
MAY 31, 2006

1. Fund Description

First Trust/Value Line(R) & Ibbotson Equity Allocation Fund (the "Fund") is a diversified, closed-end management investment company organized as a Massachusetts business trust on February 20, 2004, and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FVI on the American Stock Exchange.

The Fund's investment objective is to provide capital appreciation. The Fund seeks to outperform the Standard & Poor's 500 Composite Stock Price Index (the "S&P 500 Index") by investing in a diversified portfolio of the common stocks selected through the application of a disciplined investment strategy implemented by the Fund's investment advisor, First Trust Advisors L.P. ("First Trust"). There can be no assurance that the Fund's investment objective will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The Fund determines the net asset value ("NAV") of its shares daily, as of the close of regular session trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The NAV is computed by dividing the value of all assets of the Fund (including

accrued interest and dividends), less all liabilities (including accrued expenses and dividends declared but unpaid), by the total number of shares outstanding.

The Fund's investments are valued at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in less than 60 days are valued at amortized cost.

Foreign securities traded outside the United States are generally valued as of the time their trading is complete, which is usually different from the close of the NYSE. Occasionally, events affecting the value of such securities may occur between such times and the close of the NYSE that will not always be reflected in such securities' value. If events materially affecting the value of such securities occur during such period, these securities will be valued at their fair value according to procedures adopted by the Fund's Board of Trustees. All securities and other assets of the Fund denominated in foreign currencies will be converted to U.S. dollars using exchange rates in effect at the time of valuation.

B. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund instructs the Custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

C. FOREIGN CURRENCY:

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates prevailing at the end of the period. Purchases and sales of investment securities and items of income and expense are translated on the respective dates of such transactions. Unrealized gains and losses which result from changes in foreign currency exchange rates have been included in "Net change in unrealized depreciation of foreign currencies" on the Statement

Edgar Filing: FIRST TRUST VALUE LINE R & IBBOTSON EQUITY ALLOCATION FUND - Form N-CSR

FIRST TRUST/VALUE LINE(R) & IBBOTSON EQUITY ALLOCATION FUND
MAY 31, 2006

of Operations. Net realized foreign currency gains and losses include the effect of changes in exchange rates between trade date and settlement date on investment security transactions, foreign currency transactions and interest and dividends received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in "Net realized gain on foreign currency transactions" on the Statement of Operations.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income, if any, of the Fund are declared and paid semi-annually or as the Board of Trustees may determine from time to time. Distributions of any net capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the year ended May 31, 2006, resulting in book and tax accounting differences, have been reclassified at year end to reflect a decrease to undistributed net investment income by \$77,318 and an increase in accumulated net realized gain on investments by \$77,318. Net assets were not affected by this reclassification.

The tax character of distributions paid during the fiscal years ended May 31, 2006 and May 31, 2005 is as follows:

Distributions paid from:

	2006	2005
	-----	-----
Ordinary Income.....	\$ 24,980,107	\$ 130,104
Long-Term Capital Gains.....	\$ 4,098,298	\$ --

As of May 31, 2006, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income.....	\$ 10,106,877
Undistributed Long-Term Capital Gains	\$ 9,346,075
Net Unrealized Appreciation.....	\$ 10,812,015

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

Certain losses were incurred after October 31 within the Fund's fiscal year. For tax purposes, these losses are considered to be realized on the first day of the Fund's following fiscal year. For the fiscal year ended May 31, 2006, the Fund incurred and elected to defer \$191 in currency losses.

F. EXPENSES:

The Fund pays all expenses directly related to its operations. First Trust has entered into a non-exclusive license agreement with Value Line(R) Publishing, Inc. which allows for the use by First Trust of the Value Line(R) Timeliness(TM), Safety(TM) and Technical(TM) Ranking Systems and certain trademarks and trade names of Value Line(R) Publishing, Inc. The Fund is a sub-licensee to this license agreement. In exchange, Value Line(R) Publishing, Inc. receives an annual fee, payable on a quarterly basis, equal to 0.15% of the Fund's gross daily assets. This license fee is paid by the Fund to First Trust, which in turn pays Value Line(R) Publishing, Inc. The terms of the license agreement provide that it will be automatically renewed for successive one year terms unless either party elects not to renew the agreement.

First Trust has entered into a non-exclusive licensing and services agreement and a related work order with Ibbotson Associates, Inc. ("Ibbotson") which allows for the use by First Trust of the Ibbotson name for inclusion in the name of the Fund and in connection with the promotion, offering, operation and marketing of the Fund. In addition, Ibbotson performs certain other services for First Trust under the terms of the agreement. In exchange, Ibbotson receives an annual fee, payable quarterly, based upon the aggregate net assets under management of the Fund. The annual fee is 0.05% of all assets under management of the Fund, with a minimum annual fee of \$50,000

Page 16

for services rendered. The annual fee is paid by the Fund to First Trust, which in turn pays Ibbotson. The terms of the agreement provide that it shall remain in effect for a minimum of twenty-four (24) months from the date of execution of the agreement unless terminated earlier in accordance with the terms of the agreement.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these services, First Trust is entitled to a monthly fee calculated at an annual rate of 0.65% of the Fund's average daily net assets.

First Trust agreed to waive fees in an amount equal to 0.07% of the average daily net assets of the Fund through April 27, 2006. Waivers are reported as "Fees waived by the investment advisor" on the Statement of Operations.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, also an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

The Fund pays each Trustee who is not an officer or employee of First Trust or any of their affiliates ("Disinterested Trustees") an annual retainer of \$10,000, which includes compensation for all board and committee meetings. Until December 31, 2005, additional fees of \$1,000 and \$500 were paid to Disinterested Trustees for special board meetings and non-regular committee meetings, respectively. These additional fees were shared by the funds in the First Trust fund complex that participated in the particular meeting and are not per fund fees. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings. Effective January 1, 2006, the Disinterested Trustees are no longer paid additional fees for special board meetings and non-regular committee meetings.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of investment securities, excluding short-term investments, for the year ended May 31, 2006, were \$256,111,176 and \$284,432,023, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST/VALUE LINE(R) & IBBOTSON EQUITY ALLOCATION FUND:

We have audited the accompanying statement of assets and liabilities of First Trust/Value Line(R) & Ibbotson Equity Allocation Fund (the "Fund"), including the portfolio of investments, as of May 31, 2006, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also

includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of May 31, 2006, by correspondence with the Fund's custodian and broker. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of May 31, 2006, the results of its operations, the changes in its net assets, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc., as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above net asset value ("NAV") at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the American Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common

Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

ADVISORY AGREEMENT

BOARD CONSIDERATIONS REGARDING CONTINUATION OF ADVISORY CONTRACT:

The Trustees unanimously approved the continuation of the Investment Advisory Agreement (the "AGREEMENT") between First Trust Advisors L.P. ("FIRST TRUST") and First Trust/Value Line(R) & Ibbotson Equity Allocation Fund (the "FUND") at a meeting held on March 13, 2006. The Board of Trustees determined that the Agreement is in the best interests of the Fund and that the compensation arrangement set forth in the Agreement is fair and reasonable in light of the nature, extent and quality of the services provided by First Trust and such other matters as the Trustees considered to be relevant in the exercise of their reasonable business judgment.

To reach this determination, the Trustees considered their duties under the Investment Company Act of 1940, as amended (the "1940 ACT") as well as under the general principles of state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; the fiduciary duty of investment advisers with respect to advisory agreements and compensation; the standards used by courts in determining whether investment company boards have fulfilled their duties; and the factors to be considered by the Trustees in voting on such agreements. The Independent Trustees received advice from independent legal counsel. The Trustees also applied their business judgment to determine whether the arrangement between the Fund and First Trust was a reasonable business arrangement from the Fund's perspective as well as from the perspective of its shareholders. In reviewing such arrangement, the Board of Trustees considered factors such as the nature, quality and extent of services

provided by First Trust under the Agreement and the fairness of the fee charged, whether the fee level reflects any economies of scale, and profitability realized by First Trust under the Agreement.

The Trustees considered the nature, quality and extent of services provided by First Trust, including the experience and skills of the personnel primarily responsible for providing services to the Fund. The Board noted the compliance program that had been developed by First Trust. In light of these considerations and their overall familiarity with First Trust, the Trustees concluded that the nature, quality and extent of services provided by First Trust to the Fund have been and are expected to remain satisfactory.

The Trustees reviewed data prepared by Lipper Inc. ("LIPPER"), an independent source, showing the advisory fee and expense ratio of the Fund compared to those of a peer group of similar non-leveraged closed-end funds. The Trustees also considered the Fund's advisory fee and expense ratio as compared to a second peer group of similar funds, including three leveraged funds, as selected by First Trust using data compiled by Lipper. The Trustees noted that First Trust had agreed to waive its advisory fee in an amount equal to .07% of the average daily net assets of the Fund through April 27, 2006 and that the Fund's advisory fee and expense ratio with and without the waiver were near or below the median of both the Lipper peer group and the First Trust-selected peer group. The Trustees also considered the advisory fees paid to First Trust by other funds with investment objectives and policies similar to the Fund's, noting that

Page 20

ADDITIONAL INFORMATION - (CONTINUED)

those fees generally were similar, except for those funds for which First Trust served as sub-adviser, for which the annual fee was lower. The Trustees noted that First Trust told them that the nature of the services provided to those clients may not be comparable to those provided to the Fund. The Trustees also considered the Fund's performance for the one year and since-inception periods ended December 31, 2005 as compared to that of other closed-end funds in the peer group and performance universe selected by Lipper and the peer group and performance universe selected by First Trust. In addition, the Trustees considered the market price and net asset value performance of the Fund since inception, and compared the Fund's discount as of December 31, 2005 to the average and median discount of a peer group selected by an independent source, noting that the Fund's discount was indicative of the asset class. The Trustees noted the strong performance of the Fund over both periods as compared to the peer groups and performance universes and concluded that the Fund's performance was reasonable. On the basis of the information provided, the Trustees concluded that the Fund's advisory fee was reasonable and appropriate in light of the nature, quality and extent of services provided by First Trust.

The Trustees noted that First Trust has continued to invest in personnel and infrastructure but had not identified any economies of scale realized by the Fund and had indicated that, because the Fund is a closed-end fund that is not issuing more shares other than pursuant to its dividend reinvestment plan, First Trust believed that any discussion of economies of scale was not meaningful. The Trustees concluded that the advisory fee reflects an appropriate level of sharing of any economies of scale. The Trustees also considered the costs of the services provided and profits realized by First Trust from its relationship with

Edgar Filing: FIRST TRUST VALUE LINE R & IBBOTSON EQUITY ALLOCATION FUND - Form N-CSR

the Fund for the twelve months ended December 31, 2005, as set forth in the materials provided to the Board. The Trustees noted the inherent limitations in the profitability analysis, and concluded that First Trust's profitability appeared to be not unreasonable in light of the services provided to the Fund. In addition, the Trustees considered and discussed any ancillary benefits derived by First Trust from its relationship with the Fund and noted that First Trust receives no brokerage or soft dollars from the Fund and therefore the typical fall out benefits are not present. The Trustees concluded that any other fall out benefits received by First Trust or its affiliates would appear to be attenuated.

Based on all of the factors considered, the Trustees concluded that it was in the best interests of the Fund to approve the continuation of the Agreement, including the fees to be charged for services thereunder. No single factor was determinative in the Board's analysis.

FIRST TRUST ADVISORS, L.P.
FIRST TRUST FUNDS
PROXY VOTING GUIDELINES

First Trust Advisors, L.P. (the "ADVISER") serves as investment adviser providing discretionary investment advisory services for several open or closed-end investment companies (the "FUNDS"). As part of these services, the Adviser has full responsibility for proxy voting and related duties. In fulfilling these duties, the Adviser and Funds have adopted the following policies and procedures:

1. It is the Adviser's policy to seek to ensure that proxies for securities held by a Fund are voted consistently and solely in the best economic interests of the respective Fund.
2. The Adviser shall be responsible for the oversight of a Fund's proxy voting process and shall assign a senior member of its staff to be responsible for this oversight.
3. The Adviser has engaged the services of Institutional Shareholder Services, Inc. ("ISS") to make recommendations to the Adviser on the voting of proxies related to securities held by a Fund. ISS provides voting recommendations based on established guidelines and practices. The Adviser has adopted these ISS Proxy Voting Guidelines.
4. The Adviser shall review the ISS recommendations and generally will vote the proxies in accordance with such recommendations. Notwithstanding the foregoing, the Adviser may not vote in accordance with the ISS recommendations if the Adviser believes that the specific ISS recommendation is not in the best interests of the respective Fund.
5. If the Adviser manages the assets or pension fund of a company and any of the Adviser's clients hold any securities in that company, the Adviser will vote proxies relating to such company's securities in accordance with the ISS recommendations to avoid any conflict of interest. In addition, if the Adviser has actual knowledge of any other type of material conflict of interest between itself and the respective Fund with respect to the voting of a proxy, the Adviser shall vote the applicable proxy in accordance with the ISS recommendations to avoid such conflict of interest.
6. If a Fund requests the Adviser to follow specific voting guidelines or additional guidelines, the Adviser shall review the request and follow such guidelines, unless the Adviser determines that it is unable to follow such guidelines. In such case, the Adviser shall inform the Fund that it is not able to follow the Fund's request.
7. The Adviser may have clients in addition to the Funds which have provided the Adviser with discretionary authority to vote proxies on their behalf. In such cases, the Adviser shall follow the same policies and procedures.

1. OPERATIONAL ITEMS

ADJOURN MEETING

Generally vote AGAINST proposals to provide management with the authority to adjourn an annual or special meeting absent compelling reasons to support the proposal.

Vote FOR proposals that relate specifically to soliciting votes for a merger or transaction if supporting that merger or transaction. Vote AGAINST proposals if the wording is too vague or if the proposal includes "other business."

AMEND QUORUM REQUIREMENTS

Vote AGAINST proposals to reduce quorum requirements for shareholder meetings below a majority of the shares outstanding unless there are compelling reasons to support the proposal.

AMEND MINOR BYLAWS

Vote FOR bylaw or charter changes that are of a housekeeping nature (updates or corrections).

CHANGE COMPANY NAME

Vote FOR proposals to change the corporate name.

CHANGE DATE, TIME, OR LOCATION OF ANNUAL MEETING

Vote FOR management proposals to change the date/time/location of the annual meeting unless the proposed change is unreasonable.

Vote AGAINST shareholder proposals to change the date/time/location of the annual meeting unless the current scheduling or location is unreasonable.

RATIFYING AUDITORS

Vote FOR proposals to ratify auditors, unless any of the following apply:

- o An auditor has a financial interest in or association with the company, and is therefore not independent,

- o There is reason to believe that the independent auditor has rendered an opinion which is neither accurate nor indicative of the company's financial position, or
- o Fees for non-audit services ("Other" fees) are excessive.

Non-audit fees are excessive if:

Non-audit ("other") fees > audit fees + audit-related fees + tax compliance/preparation fees

Tax compliance and preparation include the preparation of original and amended tax returns, refund claims and tax payment planning. All other services in the tax category, such as tax advice, planning or consulting should be added to "Other" fees. If the breakout of tax fees cannot be determined, add all tax fees to "Other" fees.

Vote CASE-BY-CASE on shareholder proposals asking companies to prohibit or limit their auditors from engaging in non-audit services.

Vote CASE-BY-CASE on shareholder proposals asking for audit firm rotation, taking into account the tenure of the audit firm, the length of rotation specified in the proposal, any significant audit-related issues at the company, the number of Audit Committee meetings held each year, the number of financial experts serving on the committee, and whether the company has a periodic renewal process where the auditor is evaluated for both audit quality and competitive price.

TRANSACT OTHER BUSINESS

Vote AGAINST proposals to approve other business when it appears as voting item.

- o Existence of related party transactions;

Edgar Filing: FIRST TRUST VALUE LINE R & IBBOTSON EQUITY ALLOCATION FUND - Form N-CSR

- o Whether the chairman is also serving as CEO;

- o The company's poison pill has a dead-hand or modified dead-hand feature. Withhold every year until this feature is removed;
- o The board adopts or renews a poison pill without shareholder approval since the beginning of 2005, does not commit to putting it to shareholder vote within 12 months of adoption or reneges on a commitment to put the pill to a vote and has not yet been withheld from for this issue;
- o The board failed to act on a shareholder proposal that received approval by a majority of the shares outstanding the previous year;

The weightings are as follows: 20 percent weight on 1-year TSR; 30 percent weight on 3-year TSR; and 50 percent weight on 5-year TSR. INDEPENDENT OUTSIDE DIRECTOR (IO)

FOOTNOTES:

- 1 "Affiliate" includes a subsidiary, sibling company, or parent company. ISS uses 50 percent control ownership by the parent company as the standard for applying its affiliate designation.
- 2 "Executives" (officers subject to Section 16 of the Securities and Exchange Act of 1934) include the chief executive, operating, financial, legal, technology, and accounting officers of a company (including the president, treasurer, secretary, controller, or any vice president in charge of a principal business unit, division or policy function).
- 3 ISS will look at the terms of the interim CEO's employment contract to determine if it contains severance pay, long-term health and pension benefits or other such standard provisions typically contained in contracts of permanent, non-temporary CEOs. ISS will also consider if a formal search process was underway for a full-time CEO at the time.

=====
(C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 9

- =====
- 4 "Relative" follows the NYSE definition of "immediate family members" which covers: spouses, parents, children, siblings, in-laws, and anyone sharing the director's home.
 - 5 If the company makes or receives annual payments exceeding the greater of \$200,000 or five percent of the recipient's gross revenues. (The recipient is the party receiving the financial proceeds from the transaction).
 - 6 Interlocks include: (a) executive officers serving as directors on each other's compensation or similar committees (or, in the absence of such a committee, on the board) or (b) executive officers sitting on each other's boards and at least one serves on the other's compensation or similar committees (or, in the absence of such a committee, on the board).
 - 7 The operating involvement of the Founder with the company will be considered. Little to no operating involvement may cause ISS to deem the

Founder as an independent outsider.

- 8 For purposes of ISS' director independence classification, "material" will be defined as a standard of relationship (financial, personal or otherwise) that a reasonable person might conclude could potentially influence one's objectivity in the boardroom in a manner that would have a meaningful impact on an individual's ability to satisfy requisite fiduciary standards on behalf of shareholders.
-

AGE LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors through mandatory retirement ages.

BOARD SIZE

Vote FOR proposals seeking to fix the board size or designate a range for the board size. Vote AGAINST proposals that give management the ability to alter the size of the board outside of a specified range without shareholder approval.

CLASSIFICATION/DECLASSIFICATION OF THE BOARD

Vote AGAINST proposals to classify the board.

Vote FOR proposals to repeal classified boards and to elect all directors annually.

CUMULATIVE VOTING

Generally vote AGAINST proposals to eliminate cumulative voting. Vote CASE-BY-CASE if the company has in place one of the three corporate governance structures that are listed below.

Vote CASE-BY-CASE on proposals to restore or permit cumulative voting. If one of these three structures is present, vote AGAINST the proposal:

- o the presence of a majority threshold voting standard;
- o a proxy access provision in the company's bylaws or governance documents; or
- o a counterbalancing governance structure coupled with acceptable relative performance.

The counterbalancing governance structure coupled with acceptable relative performance should include all of the following:

- o Annually elected board;
- o Two-thirds of the board composed of independent directors;
- o Nominating committee composed solely of independent directors;
- o Confidential voting; however, there may be a provision for suspending confidential voting during proxy contests;
- o Ability of shareholders to call special meetings or act by written consent with 90 days' notice;
- o Absence of superior voting rights for one or more classes of stock;

- o Board does not have the right to change the size of the board beyond a stated range that has been approved by shareholders;
- o The company has not under-performed its peers and index on a one-year and three-year basis, unless there has been a change in the CEO position within the last three years;

=====
(C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 10
=====

- o No director received WITHHOLD votes of 35% or more of the votes cast in the previous election.

DIRECTOR AND OFFICER INDEMNIFICATION AND LIABILITY PROTECTION

Vote CASE-BY-CASE on proposals on director and officer indemnification and liability protection using Delaware law as the standard.

Vote AGAINST proposals to eliminate entirely directors' and officers' liability for monetary damages for violating the duty of care.

Vote AGAINST indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness.

Vote FOR only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if both of the following apply:

- o The director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company; and
- o If only the director's legal expenses would be covered.

ESTABLISH/AMEND NOMINEE QUALIFICATIONS

Vote CASE-BY-CASE on proposals that establish or amend director qualifications. Votes should be based on how reasonable the criteria are and to what degree they may preclude dissident nominees from joining the board.

Vote AGAINST shareholder proposals requiring two candidates per board seat.

FILLING VACANCIES/REMOVAL OF DIRECTORS

Vote AGAINST proposals that provide that directors may be removed only for cause.

Vote FOR proposals to restore shareholders' ability to remove directors with or without cause.

Vote AGAINST proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote FOR proposals that permit shareholders to elect directors to fill board vacancies.

INDEPENDENT CHAIR (SEPARATE CHAIR/CEO)

Generally vote FOR shareholder proposals requiring the position of chair be filled by an independent director unless there are compelling reasons to recommend against the proposal, such as a counterbalancing governance structure. This should include all of the following:

- o Designated lead director, elected by and from the independent board members with clearly delineated and comprehensive duties. (The role may alternatively reside with a presiding director, vice chairman, or rotating lead director; however the director must serve a minimum of one year in order to qualify as a lead director.) At a minimum these should include:
 - Presides at all meetings of the board at which the chairman is not present, including executive sessions of the independent directors,
 - Serves as liaison between the chairman and the independent directors,
 - Approves information sent to the board,
 - Approves meeting agendas for the board,
 - Approves meetings schedules to assure that there is sufficient time for discussion of all agenda items,

=====

(C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 11

- Has the authority to call meetings of the independent directors,
- If requested by major shareholders, ensures that he is available for consultation and direct communication;
- o Two-thirds independent board;
- o All-independent key committees;
- o Established governance guidelines;
- o The company does not under-perform its peers.

MAJORITY OF INDEPENDENT DIRECTORS/ESTABLISHMENT OF COMMITTEES

Vote FOR shareholder proposals asking that a majority or more of directors be independent unless the board composition already meets the proposed threshold by ISS's definition of independence.

Vote FOR shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors if they currently do not meet that standard.

MAJORITY VOTE SHAREHOLDER PROPOSALS

Generally vote FOR reasonably crafted shareholders proposals calling for directors to be elected with an affirmative majority of votes cast and/or the elimination of the plurality standard for electing directors (including binding resolutions requesting that the board amend the company's bylaws), provided the proposal includes a carve-out for a plurality voting standard when there are more director nominees than board seats (e.g. contested elections).

Consider voting AGAINST the shareholder proposal if the company has adopted formal corporate governance principles that present a meaningful alternative to the majority voting standard and provide an adequate response to both new nominees as well as incumbent nominees who fail to receive a majority of votes cast.

Policies should address the specific circumstances at each company. At a minimum, a company's policy should articulate the following elements to adequately address each director nominee who fails to receive an affirmative of majority of votes cast in an election:

- o Established guidelines disclosed annually in the proxy statement concerning the process to follow for nominees who receive majority withhold votes;
- o The policy needs to outline a clear and reasonable timetable for all decision-making regarding the nominee's status;
- o The policy needs to specify that the process of determining the nominee's status will be managed by independent directors and must exclude the nominee in question;
- o An outline of a range of remedies that can be considered concerning the nominee needs to be in the policy (for example, acceptance of the resignation, maintaining the director but curing the underlying causes of the withheld votes, etc.);
- o The final decision on the nominee's status should be promptly disclosed via an SEC filing. The policy needs to include the timeframe in which the decision will be disclosed and a full explanation of how the decision was reached.

In addition, the company should articulate to shareholders why this alternative to a full majority threshold voting standard is the best structure at this time for demonstrating accountability to shareholders. Also evaluate the company's history of accountability to shareholders in its governance structure and in its actions. In particular, a classified board structure or a history of ignoring majority supported shareholder proposals will be considered at a company which receives a shareholder proposal requesting the elimination of plurality voting in favor of majority threshold for electing directors.

=====

OFFICE OF THE BOARD

Generally vote FOR shareholders proposals requesting that the board establish an Office of the Board of Directors in order to facilitate direct communications between shareholders and non-management directors, unless the company has all of the following:

- o Established a communication structure that goes beyond the exchange requirements to facilitate the exchange of information between shareholders and members of the board;
- o Effectively disclosed information with respect to this structure to its shareholders;
- o Company has not ignored majority supported shareholder proposals or a majority WITHHOLD on a director nominee; and
- o The company has an independent chairman or a lead/presiding director, according to ISS' definition. This individual must be made available for periodic consultation and direct communication with major shareholders.

OPEN ACCESS

Generally vote FOR reasonably crafted shareholder proposals providing shareholders with the ability to nominate director candidates to be included on management's proxy card, provided the proposal substantially mirrors the SEC's proposed two-trigger formulation (see the proposed "Security Holder Director Nominations" rule ([HTTP://WWW.SEC.GOV/RULES/PROPOSED/34-48626.HTM](http://www.sec.gov/rules/proposed/34-48626.htm)) or ISS' comment letter to the SEC dated 6/13/2003, available on ISS website under Governance Center- ISS Position Papers).

STOCK OWNERSHIP REQUIREMENTS

Generally vote AGAINST shareholder proposals that mandate a minimum amount of stock that directors must own in order to qualify as a director or to remain on the board. While stock ownership on the part of directors is desired, the company should determine the appropriate ownership requirement.

Vote CASE-BY-CASE on shareholder proposals asking that the company adopt a holding or retention period for its executives (for holding stock after the vesting or exercise of equity awards), taking into account any stock ownership requirements or holding period/retention ratio already in place and the actual ownership level of executives.

TERM LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors through term limits. However, scrutinize boards where the average tenure of all directors exceeds 15 years for independence from management and for sufficient turnover to ensure that new perspectives are being added to the board.

3. PROXY CONTESTS

VOTING FOR DIRECTOR NOMINEES IN CONTESTED ELECTIONS

Vote CASE-BY-CASE on the election of directors in contested elections, considering the following factors:

- o Long-term financial performance of the target company relative to its industry;
- o Management's track record;
- o Background to the proxy contest;
- o Qualifications of director nominees (both slates);
- o Strategic plan of dissident slate and quality of critique against management;
- o Likelihood that the proposed goals and objectives can be achieved (both slates);
- o Stock ownership positions.

REIMBURSING PROXY SOLICITATION EXPENSES

Vote CASE-BY-CASE on proposals to reimburse proxy solicitation expenses. When voting in conjunction with support of a dissident slate, vote FOR the reimbursement of all appropriate proxy solicitation expenses associated with the election.

CONFIDENTIAL VOTING

Vote FOR shareholder proposals requesting that corporations adopt confidential voting, use independent vote tabulators, and use independent inspectors of election, as long as the proposal includes a provision for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents will not agree, the confidential voting policy is waived.

Vote FOR management proposals to adopt confidential voting.

4. ANTITAKEOVER DEFENSES AND VOTING RELATED ISSUES

ADVANCE NOTICE REQUIREMENTS FOR SHAREHOLDER PROPOSALS/NOMINATIONS

Votes on advance notice proposals are determined on a CASE-BY-CASE basis, giving support to those proposals which allow shareholders to submit proposals as close to the meeting date as reasonably possible and within the broadest window possible.

AMEND BYLAWS WITHOUT SHAREHOLDER CONSENT

Vote AGAINST proposals giving the board exclusive authority to amend the bylaws.

Vote FOR proposals giving the board the ability to amend the bylaws in addition to shareholders.

POISON PILLS

Edgar Filing: FIRST TRUST VALUE LINE R & IBBOTSON EQUITY ALLOCATION FUND - Form N-CSR

Vote FOR shareholder proposals requesting that the company submit its poison pill to a shareholder vote or redeem it UNLESS the company has: (1) A shareholder approved poison pill in place; or (2) The company has adopted a policy concerning the adoption of a pill in the future specifying that the board will only adopt a shareholder rights plan if either:

- o Shareholders have approved the adoption of the plan; or
- o The board, in its exercise of its fiduciary responsibilities, determines that it is in the best interest of shareholders under the circumstances to adopt a pill without the delay in adoption that would result from seeking stockholder approval (i.e. the "fiduciary out" provision). A poison pill adopted under this fiduciary out will be put to a shareholder ratification vote within twelve months of adoption or expire. If the pill is not approved by a majority of the votes cast on this issue, the plan will immediately terminate.

Vote FOR shareholder proposals calling for poison pills to be put to a vote within a time period of less than one year after adoption. If the company has no non-shareholder approved poison pill in place and has adopted a policy with the provisions outlined above, vote AGAINST the proposal. If these conditions are not met, vote FOR the proposal, but with the caveat that a vote within twelve months would be considered sufficient.

Vote CASE-by-CASE on management proposals on poison pill ratification, focusing on the features of the shareholder rights plan. Rights plans should contain the following attributes:

- o No lower than a 20% trigger, flip-in or flip-over;
- o A term of no more than three years;
- o No dead-hand, slow-hand, no-hand or similar feature that limits the ability of a future board to redeem the pill;
- o Shareholder redemption feature (qualifying offer clause); if the board refuses to redeem the pill 90 days after a qualifying offer is announced, ten percent of the shares may call a special meeting or seek a written consent to vote on rescinding the pill.

SHAREHOLDER ABILITY TO ACT BY WRITTEN CONSENT

Vote AGAINST proposals to restrict or prohibit shareholder ability to take action by written consent.

Vote FOR proposals to allow or make easier shareholder action by written consent.

SHAREHOLDER ABILITY TO CALL SPECIAL MEETINGS

Vote AGAINST proposals to restrict or prohibit shareholder ability to call special meetings.

Vote FOR proposals that remove restrictions on the right of shareholders to act independently of management.

SUPERMAJORITY VOTE REQUIREMENTS

Vote AGAINST proposals to require a supermajority shareholder vote.

Vote FOR proposals to lower supermajority vote requirements.

5. MERGERS AND CORPORATE RESTRUCTURINGS
OVERALL APPROACH

For mergers and acquisitions, review and evaluate the merits and drawbacks of the proposed transaction, balancing various and sometimes countervailing factors including:

- o VALUATION - Is the value to be received by the target shareholders (or paid by the acquirer) reasonable? While the fairness opinion may provide an initial starting point for assessing valuation reasonableness, emphasis is placed on the offer premium, market reaction and strategic rationale.
- o MARKET REACTION - How has the market responded to the proposed deal? A negative market reaction should cause closer scrutiny of a deal.
- o STRATEGIC RATIONALE - Does the deal make sense strategically? From where is the value derived? Cost and revenue synergies should not be overly aggressive or optimistic, but reasonably achievable. Management should also have a favorable track record of successful integration of historical acquisitions.
- o NEGOTIATIONS AND PROCESS - Were the terms of the transaction negotiated at arm's-length? Was the process fair and equitable? A fair process helps to ensure the best price for shareholders. Significant negotiation "wins" can also signify the deal makers' competency. The comprehensiveness of the sales process (e.g., full auction, partial auction, no auction) can also affect shareholder value.
- o CONFLICTS OF INTEREST - Are insiders benefiting from the transaction disproportionately and inappropriately as compared to non-insider shareholders? As the result of potential conflicts, the directors and officers of the company may be more likely to vote to approve a merger than if they did not hold these interests. Consider whether these interests may have influenced these directors and officers to support or recommend the merger. The CIC figure presented in the "ISS Transaction Summary" section of this report is an aggregate figure that can in certain cases be a misleading indicator of the true value transfer from shareholders to insiders. Where such figure appears to be excessive, analyze the underlying assumptions to determine whether a potential conflict exists.
- o GOVERNANCE - Will the combined company have a better or worse governance profile than the current governance profiles of the respective parties to the transaction? If the governance profile is to change for the worse, the burden is on the company to prove that other issues (such as valuation) outweigh any deterioration in governance.

6. STATE OF INCORPORATION

CONTROL SHARE ACQUISITION PROVISIONS

Control share acquisition statutes function by denying shares their voting rights when they contribute to ownership in excess of certain thresholds. Voting rights for those shares exceeding ownership limits may only be restored by approval of either a majority or supermajority of disinterested shares. Thus, control share acquisition statutes effectively require a hostile bidder to put its offer to a shareholder vote or risk voting disenfranchisement if the bidder continues buying up a large block of shares.

Vote FOR proposals to opt out of control share acquisition statutes unless doing so would enable the completion of a takeover that would be detrimental to shareholders.

Vote AGAINST proposals to amend the charter to include control share acquisition provisions.

Vote FOR proposals to restore voting rights to the control shares.

CONTROL SHARE CASH-OUT PROVISIONS

Control share cash-out statutes give dissident shareholders the right to "cash-out" of their position in a company at the expense of the shareholder who has taken a control position. In other words, when an investor crosses a preset threshold level, remaining shareholders are given the right to sell their shares to the acquirer, who must buy them at the highest acquiring price.

Vote FOR proposals to opt out of control share cash-out statutes.

DISGORGEMENT PROVISIONS

Disgorgement provisions require an acquirer or potential acquirer of more than a certain percentage of a company's stock to disgorge, or pay back, to the company any profits realized from the sale of that company's stock purchased 24 months before achieving control status. All sales of company stock by the acquirer occurring within a certain period of time (between 18 months and 24 months) prior to the investor's gaining control status are subject to these recapture-of-profits provisions.

Vote FOR proposals to opt out of state disgorgement provisions.

FAIR PRICE PROVISIONS

Vote CASE-BY-CASE on proposals to adopt fair price provisions (provisions that stipulate that an acquirer must pay the same price to acquire all shares as it paid to acquire the control shares), evaluating factors such as the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price.

Generally, vote AGAINST fair price provisions with shareholder vote requirements

FREEZE-OUT PROVISIONS

Vote FOR proposals to opt out of state freeze-out provisions. Freeze-out provisions force an investor who surpasses a certain ownership threshold in a company to wait a specified period of time before gaining control of the company.

Vote CASE-BY-CASE on anti-greenmail proposals when they are bundled with other charter or bylaw amendments.

REINCORPORATION PROPOSALS

Vote CASE-BY-CASE on proposals to change a company's state of incorporation, taking into consideration both financial and corporate governance concerns, including the reasons for reincorporating, a comparison of the governance provisions, comparative economic benefits, and a comparison of the jurisdictional laws.

Vote FOR re-incorporation when the economic factors outweigh any neutral or negative governance changes.

STAKEHOLDER PROVISIONS

Vote AGAINST proposals that ask the board to consider non-shareholder constituencies or other non-financial effects when evaluating a merger or business combination.

STATE ANTITAKEOVER STATUTES

Vote CASE-BY-CASE on proposals to opt in or out of state takeover statutes (including control share acquisition statutes, control share cash-out statutes, freezeout provisions, fair price provisions, stakeholder laws, poison pill endorsements, severance pay and labor contract provisions, anti-greenmail provisions, and disgorgement provisions).

Vote FOR proposals to approve increases beyond the allowable increase when a company's shares are in danger of being delisted or if a company's ability to continue to operate as a going concern is uncertain.

In addition, for capital requests less than or equal to 300 percent of the current authorized shares that marginally fail the calculated allowable cap (i.e., exceed the allowable cap by no more than 5 percent), on a CASE-BY-CASE basis, vote FOR the increase based on the company's performance and whether the company's ongoing use of shares has shown prudence. Factors should include, at a minimum, the following:

- o Rationale;
- o Good performance with respect to peers and index on a five-year total shareholder return basis;
- o Absence of non-shareholder approved poison pill;
- o Reasonable equity compensation burn rate;
- o No non-shareholder approved pay plans; and
- o Absence of egregious equity compensation practices.

- o It is intended for financing purposes with minimal or no dilution to current shareholders;
- o It is not designed to preserve the voting power of an insider or significant shareholder.

ISSUE STOCK FOR USE WITH RIGHTS PLAN

- o More simplified capital structure;
- o Enhanced liquidity;
- o Fairness of conversion terms;
- o Impact on voting power and dividends;
- o Reasons for the reclassification;

- o Adverse governance changes;
- o Excessive increases in authorized capital stock;
- o Unfair method of distribution;
- o Diminution of voting rights;
- o Adverse conversion features;
- o Negative impact on stock option plans; and
- o Alternatives such as spin-off.

8. EXECUTIVE AND DIRECTOR COMPENSATION

EQUITY COMPENSATION PLANS

Vote CASE-BY-CASE on equity-based compensation plans. Vote AGAINST the equity plan if any of the following factors apply:

- o The total cost of the company's equity plans is unreasonable;
- o The plan expressly permits the repricing of stock options without prior shareholder approval;
- o There is a disconnect between CEO pay and the company's performance;
- o The company's three year burn rate exceeds the greater of 2% and the mean plus 1 standard deviation of its industry group; or
- o The plan is a vehicle for poor pay practices.

Each of these factors is further described below:

COST OF EQUITY PLANS

Generally, vote AGAINST equity plans if the cost is unreasonable. For non-employee director plans, vote FOR the plan if certain factors are met (see Director Compensation section).

The cost of the equity plans is expressed as Shareholder Value Transfer (SVT), which is measured using a binomial option pricing model that assesses the amount of shareholders' equity flowing out of the company to employees and directors. SVT is expressed as both a dollar amount and as a percentage of market value, and includes the new shares proposed, shares available under existing plans, and shares granted but unexercised. All award types are valued. For omnibus plans, unless limitations are placed on the most expensive types of awards (for example, full value awards), the assumption is made that all awards to be granted will be the most expensive types. See discussion of specific types of awards.

The Shareholder Value Transfer is reasonable if it falls below the company-specific allowable cap. The allowable cap is determined as follows: The top quartile performers in each industry group (using the Global Industry Classification Standard GICS) are identified. Benchmark SVT levels for each industry are established based on these top performers' historic SVT. Regression analyses are run on each industry group to identify the variables most strongly correlated to SVT. The benchmark industry SVT level is then adjusted upwards or downwards for the specific company by plugging the company-specific performance measures, size and cash compensation into the industry cap equations to arrive at the company's allowable cap.

REPRICING PROVISIONS

Vote AGAINST plans that expressly permit the repricing of stock options without prior shareholder approval, even if the cost of the plan is reasonable.

Vote AGAINST plans if the company has a history of repricing options without shareholder approval, and the applicable listing standards would not preclude them from doing so.

PAY-FOR PERFORMANCE DISCONNECT

Generally vote AGAINST plans in which:

- o there is a disconnect between the CEO's pay and company performance (an increase in pay and a decrease in performance);
- o the main source of the pay increase (over half) is equity-based, and
- o the CEO is a participant of the equity proposal.

=====

(C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 24

=====

Performance decreases are based on negative one- and three-year total shareholder returns. CEO pay increases are based on the CEO's total direct compensation (salary, cash bonus, present value of stock options, face value of restricted stock, face value of long-term incentive plan payouts, and all other

compensation) increasing over the previous year.

WITHHOLD votes from the Compensation Committee members when the company has a pay for performance disconnect.

On a CASE-BY-CASE basis, vote for equity plans and FOR compensation committee members with a pay-for-performance disconnect if compensation committee members can present strong and compelling evidence of improved committee performance. This evidence must go beyond the usual compensation committee report disclosure. This additional evidence necessary includes all of the following:

- o The compensation committee has reviewed all components of the CEO's compensation, including the following:
 - Base salary, bonus, long-term incentives;
 - Accumulative realized and unrealized stock option and restricted stock gains;
 - Dollar value of perquisites and other personal benefits to the CEO and the total cost to the company;
 - Earnings and accumulated payment obligations under the company's nonqualified deferred compensation program;
 - Actual projected payment obligations under the company's supplemental executive retirement plan (SERPs).

A tally sheet setting forth all the above components was prepared and reviewed affixing dollar amounts under the various payout scenarios. (A complete breakdown of pay components also can be found in Disclosure of CEO Compensation - Tally Sheet.)

- o A tally sheet with all the above components should be disclosed for the following termination scenarios:
 - Payment if termination occurs within 12 months: \$_____;
 - Payment if "not for cause" termination occurs within 12 months: \$_____;
 - Payment if "change of control" termination occurs within 12 months: \$_____.
- o The compensation committee is committed to providing additional information on the named executives' annual cash bonus program and/or long-term incentive cash plan for the current fiscal year. The compensation committee will provide full disclosure of the qualitative and quantitative performance criteria and hurdle rates used to determine the payouts of the cash program. From this disclosure, shareholders will know the minimum level of performance required for any cash bonus to be delivered, as well as the maximum cash bonus payable for superior performance.

The repetition of the compensation committee report does not meet ISS' requirement of compelling and strong evidence of improved disclosure. The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the annual cash bonus and/or long-term incentive cash plan based on the additional disclosure.

- o The compensation committee is committed to granting a substantial portion of performance-based equity awards to the named executive

officers. A substantial portion of performance-based awards would be at least 50 percent of the shares awarded to each of the named executive officers. Performance-based equity awards are earned or paid out based on the achievement of company performance targets. The company will disclose the details of the performance criteria (e.g., return on equity) and the hurdle

=====
(C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 25

=====
rates (e.g., 15 percent) associated with the performance targets. From this disclosure, shareholders will know the minimum level of performance required for any equity grants to be made. The performance-based equity awards do not refer to non-qualified stock options 1 or performance-accelerated grants. 2 Instead, performance-based equity awards are performance-contingent grants where the individual will not receive the equity grant by not meeting the target performance and vice versa.

The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the performance-based equity awards based on the additional disclosure.

- o The compensation committee has the sole authority to hire and fire outside compensation consultants. The role of the outside compensation consultant is to assist the compensation committee to analyze executive pay packages or contracts and understand the company's financial measures.

THREE-YEAR BURN RATE/BURN RATE COMMITMENT

Generally vote AGAINST plans if the company's most recent three-year burn rate exceeds one standard deviation in excess of the industry mean (per the following Burn Rate Table) and is over two percent of common shares outstanding. The three-year burn rate policy does not apply to non-employee director plans unless outside directors receive a significant portion of shares each year.

However, vote FOR equity plans if the company fails this burn rate test but the company commits in a public filing to a three-year average burn rate equal to its GICS group burn rate mean plus one standard deviation, assuming all other conditions for voting FOR the plan have been met. If a company fails to fulfill its burn rate commitment, vote to WITHHOLD from the compensation committee.

-
- 1 Non-qualified stock options are not performance-based awards unless the grant or the vesting of the stock options is tied to the achievement of a pre-determined and disclosed performance measure. A rising stock market will generally increase share prices of all companies, despite of the company's underlying performance.
 - 2 Performance-accelerated grants are awards that vest earlier based on the achievement of a specified measure. However, these grants will ultimately vest over time even without the attainment of the goal(s).

POOR PAY PRACTICES

Vote AGAINST equity plans if the plan is a vehicle for poor compensation practices.

WITHOLD from compensation committee members if the company has poor compensation practices.

Poor compensation practices include, but are not limited to, the following:

- o Egregious employment contracts including excessive severance provisions;
- o Excessive perks that dominate compensation;
- o Huge bonus payouts without justifiable performance linkage;
- o Performance metrics that are changed during the performance period;
- o Egregious SERP (Supplemental Executive Retirement Plans) payouts;
- o New CEO with overly generous hiring package;

=====
 (C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 27

- o Internal pay disparity;
- o Other excessive compensation payouts or poor pay practices at the company.

SPECIFIC TREATMENT OF CERTAIN AWARD TYPES IN EQUITY PLAN EVALUATIONS:

DIVIDEND EQUIVALENT RIGHTS

Equity plans that have Dividend Equivalent Rights (DERs) associated with them will have a higher calculated award value than those without DERs under the binomial model, based on the value of these dividend streams. The higher value

will be applied to new shares, shares available under existing plans, and shares awarded but not exercised per the plan specifications. DERS transfer more shareholder equity to employees and non-employee directors and this cost should be captured.

LIBERAL SHARE RECYCLING PROVISIONS

Under net share counting provisions, shares tendered by an option holder to pay for the exercise of an option, shares withheld for taxes or shares repurchased by the company on the open market can be recycled back into the equity plan for awarding again. All awards with such provisions should be valued as full-value awards. Stock-settled stock appreciation rights (SSARs) will also be considered as full-value awards if a company counts only the net shares issued to employees towards their plan reserve.

TRANSFERABLE STOCK OPTION AWARDS

For transferable stock option award types within a new equity plan, calculate the cost of the awards by setting their forfeiture rate to zero when comparing to the allowable cap. In addition, in order to vote FOR plans with such awards, the structure and mechanics of the ongoing transferable stock option program must be disclosed to shareholders; and amendments to existing plans that allow for introduction of transferability of stock options should make clear that only options granted post-amendment shall be transferable.

On occasion, director stock plans that set aside a relatively small number of shares when combined with employee or executive stock compensation plans exceed the allowable cap. Vote for the plan if ALL of the following qualitative factors in the board's compensation are met and disclosed in the proxy statement:

- o Director stock ownership guidelines with a minimum of three times the annual cash retainer.
- o Vesting schedule or mandatory holding/deferral period:
 - A minimum vesting of three years for stock options or restricted stock; or
 - Deferred stock payable at the end of a three-year deferral period.
- o Mix between cash and equity:
 - A balanced mix of cash and equity, for example 40% cash/60% equity or 50% cash/50% equity; or

=====

=====

- If the mix is heavier on the equity component, the vesting schedule or deferral period should be more stringent, with the lesser of five years or the term of directorship.
- o No retirement/benefits and perquisites provided to non-employee directors; and
- o Detailed disclosure provided on cash and equity compensation delivered to each non-employee director for the most recent fiscal year in a table. Vote FOR non-employee director only equity plans which provide a dollar-for-dollar cash for stock exchange.

Vote CASE-by-CASE on plans which do not provide a dollar-for-dollar cash for stock exchange. In cases where the exchange is not dollar-for-dollar, the request for new or additional shares for such equity program will be considered using the binomial option pricing model. In an effort to capture the total cost of total compensation, ISS will not make any adjustments to carve out the in-lieu-of cash compensation.

TRANSFER PROGRAMS OF STOCK OPTIONS

One-time Transfers: WITHHOLD votes from compensation committee members if they fail to submit one-time transfers for to shareholders for approval.

Vote CASE-BY-CASE on one-time transfers. Vote FOR if:

Additionally, management should provide a clear explanation of why options are being transferred and whether the events leading up to the decline in stock price were beyond management's control. A review of the company's historic stock price volatility should indicate if the options are likely to be back "in-the-money" over the near term.

(A) (1) IDENTIFICATION OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS AND DESCRIPTION OF ROLE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

First Trust Advisors L.P. ("First Trust") is the investment adviser of the registrant. (A) (2) ACCOUNTS MANAGED BY PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBER AND POTENTIAL CONFLICTS OF INTEREST

The Investment Committee manages the investment vehicles with the number of accounts and assets, as of May 31, 2006, set forth in the table below:

TYPE OF INVESTMENT VEHICLE	NUMBER OF ACCOUNTS	TOTAL ASSETS IN ACCOUNTS
Registered Investment Companies	41	\$4,400,000,000
Other Pooled Investment Vehicles	3124	\$700,000,000
Other Accounts	0	\$0

None of the accounts managed by the Investment Committee pay an advisory fee that is based upon the performance of the account. In addition, First Trust believes that there are no material conflicts of interest that may arise in connection with the Investment Committee's management of the registrant's investments and the investments of the other accounts managed by the Investment Committee. However, because the investment strategies of the registrant and other accounts managed by the Investment Committee are based on fairly mechanical investment processes, the Investment Committee may recommend that certain clients sell and other clients buy a given security at the same time. In addition, because the investment strategies of the registrant and other accounts managed by the Investment Committee result in the clients investing in readily available securities, First Trust believes that there should not be

material conflicts in the allocation of investment opportunities between the registrant and other accounts managed by the Investment Committee.

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

The compensation structure for each member of the Investment Committee is based upon a fixed salary as well as a discretionary bonus determined by the management of First Trust. Salaries are determined by management and are based upon an individual's position and overall value to the firm. Bonuses are also determined by management and are based upon an individual's overall contribution to the success of the firm and the profitability of the firm. Salaries and bonuses for members of the Investment Committee are not based upon criteria such as performance of the registrant or the value of assets of the registrant. In addition, Mr. Carey, Mr. Erickson, Mr. McGarel and Mr. Lindquist also have an indirect ownership stake in the firm and will therefore receive their allocable share of ownership related distributions.
