Item 2.02. Results of Operations and Financial Condition

On April 25, 2007, QUALCOMM Incorporated (the Company) issued a press release regarding the Company's financial results for its second quarter ended April 1, 2007. The full text of the Company's press release is attached hereto as Exhibit 99.1.

The attached press release presents pro forma financial information that is used by management (i) to evaluate, assess and benchmark the Company's operating results on a consistent and comparable basis, (ii) to measure the performance and efficiency of the Company's ongoing core operating businesses, including the QUALCOMM CDMA Technologies, QUALCOMM Technology Licensing and QUALCOMM Wireless & Internet segments, and (iii) to compare the performance and efficiency of these segments against each other and against competitors outside the Company. Pro forma measurements of the following financial data are used by the Company's management: revenues, research and development (R&D) expenses, selling, general and administrative (SG&A) expenses, total operating expenses, operating income, net investment income, income before income taxes, effective tax rate, net income, diluted earnings per share, operating cash flow and free cash flow. Management is able to assess what it believes is a more meaningful and comparable set of financial performance measures for the Company and its business segments by eliminating the episodic impact of strategic investments in QSI and items such as acquired in-process R&D, as well as the inherent, non-operational volatility of share-based compensation. As a result, management compensation decisions and the review of executive compensation by the Compensation Committee of the Board of Directors focus primarily on pro forma financial measures applicable to the Company and its business segments.

The attached press release presents pro forma information used by management which excludes the QUALCOMM Strategic Initiatives (QSI) segment, certain estimated share-based compensation, certain tax adjustments related to prior years and acquired in-process R&D. The QSI segment is excluded because the Company expects to exit its strategic investments at various times and the effects of fluctuations in the value of such investments are viewed by management as unrelated to the Company's operational performance. Estimated share-based compensation, other than amounts related to share-based awards granted under the executive bonus program, is excluded because management views the valuation of options and other share-based compensation as theoretical and unrelated to the Company's operational performance as the share-based compensation is affected by factors that are subject to change on each grant date, including the Company's stock price, stock market volatility, expected option life, risk-free interest rates and expected dividend payouts in future years. Moreover, it is not an expense that requires or will require cash payment by the Company. Certain tax adjustments related to prior years are excluded in order to provide a clearer understanding of the Company's ongoing tax rate and after tax earnings. Acquired in-process R&D is excluded because such expense is viewed by management as unrelated to the operating activities of the Company's ongoing core businesses.

The attached press release presents free cash flow, defined as net cash provided by operating activities less capital expenditures, to facilitate an understanding of the amount of cash flow generated that is available to grow the Company's business and to create long-term shareholder value. The Company believes that this presentation is useful in evaluating its operating performance and financial strength. In addition, management uses this measure to evaluate the Company's performance, to value the Company and to compare its operating performance with other companies in the industry.

The non-GAAP pro forma financial information presented in the attached press release should be considered in addition to, not as a substitute for, or superior to, financial measures calculated in accordance with generally accepted accounting principles (GAAP). In addition, pro forma is not a term defined by GAAP, and, as a result, the Company's measure of pro forma results might be different than similarly titled measures used by other companies. Reconciliations between total QUALCOMM (GAAP) results and QUALCOMM pro forma results and total QUALCOMM (GAAP) cash flow and QUALCOMM pro forma cash flow are presented in the attached press release.
