### **COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.**

On March 16, 2006, the Board of Directors of Alliance One International, Inc. made a decision to discontinue operations in Mozambique after the procurement of the 2006 crop. This decision involves the closure of its three operating entities and will affect approximately 550 permanent employees.

On August 5, 2005, the Company's concession to promote tobacco production in the Chifunde district of Mozambique was terminated by the government. The Company assessed its remaining operations without the Chifunde district and determined that it was not in the Company's economic interest to remain in Mozambique without this strategic district. Consequently, after the 2006 crop, for which the Company has already made significant commitments, is procured, operations within Mozambique will discontinue.

The Company estimates total one-time costs of approximately \$6 million, of which approximately \$2 million are non-cash, will be recognized to complete these closings; including severance, asset impairment and other cash costs and non-recovery of advances to suppliers. Approximately one-fourth of these costs, which relate to the former Standard operations, will be reflected as an adjustment to the purchase price of Standard in the merger; while the remaining costs will primarily be charged as restructuring, asset impairment and other costs as of March 31, 2006. These charges are in addition to the previously announced total one-time costs of \$70 million (including \$55-\$57 million of cash costs) the Company expects to incur in the merger and integration process.
