Entry into Material Definitive Agreement and Creation of a Direct Financial Obligation

On February 2, 2009, Guizhou Yongfu Mining Co., Ltd., an indirect 70%-owned subsidiary of China Natural Resources Inc. (the Company) based in the People's Republic of China, entered into a bank financing agreement to fund construction and development of the Yongsheng Coal Mine, a coal mine located in Huajuexiang, Jinsha County, Guizhou Province, in the PRC. Guizhou Yongfu owns the mining rights to the Yongsheng Coal Mine.

The RMB 200 million (US\$29.30 million) long-term loan is being provided by the Chongqing Branch of China Minsheng Banking Corp. Ltd. The loan is to be paid in annual installments of principal commencing in 2013 and terminating in 2017. The loan bears interest, payable quarterly commencing June 21, 2009, at an annual rate equal to 30% above the over-5-year official lending rate stipulated by The People's Bank of China from time to time (currently 5.94% per annum, resulting in a current annual interest rate of 7.722% per annum). The loan is also secured by Guizhou Yongfu's mining permit covering the mine, and payment of the loan is guaranteed by Pingxiang Iron & Steel Co. Ltd., a company controlled by Mr. Li Feilie, who is also an executive officer, director and the principal beneficial owner of China Natural Resources. Guizhou Yongfu drew down RMB 100 million (US\$14.65 million) of the loan in April 2009. The RMB100 million (US\$14.65 million) balance of the loan is expected to be drawn down as needed in accordance with the construction plan for the mine, which is currently anticipated to be in December 2009. The loan agreement is governed by the laws of the PRC, and any dispute arising under the loan agreement is to be settled through negotiation, or submitted to the Court of Chongqing City of the PRC, should the negotiation fail.

The Yongsheng Coal Mine is not yet operational. The estimated cost of mine construction and development is approximately RMB 360 million to RMB 400 million (approximately US\$52.74 million to US\$58.61 million). Guizhou Yongfu intends to finance the balance of the estimated construction costs through a combination of internally generated funds and additional third-party loans.

For the convenience of the reader, amounts in Renminbi (RMB) have been translated into United States dollars (US\$) at the rate of US\$1.00=RMB6.8253 quoted by The People's Bank of China as at April 27, 2009. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate, or at all.
