In addition to the conventional financial performance indicators contemplated under IFRS, Telecom Italia Group uses certain alternative performance measures in order to give a clearer picture of the trend of operations and the company's financial position. These are: EBITDA; EBIT; organic difference in revenues, EBITDA and EBIT; accounting and adjusted net financial debt. For further details please see the attachment Alternative performance measures .

The Telecom Italia Group Interim Financial Statements at 31 March 2012 were drafted in accordance with art. 154 ter (Financial Reporting) of Leg. Decree 58/1998 (Unified Finance Law - TUF) and subsequent amendments and supplements and with Consob Communication DEM/8041082 of 30 April 2008 (Quarterly reporting by issuers of listed shares who give Italy as state of origin).

The Interim Financial Statements have not undergone an external audit and were drafted in accordance with the international accounting principles issued by the International Accounting Standards Board and approved by the European Union (IFRS").

The accounting and consolidation principles adopted in the preparation of the Interim Statements were consistent with those used for the Telecom Italia Group Consolidated Statements at 31 December 2011, with the exception of certain new Principles/Interpretations (including the improvements/amendments) adopted by the Group from 1 January 2012 and already explained in the 2011 statements. These new Principles/Interpretations have no impact on the Interim Financial Statements at 31 March 2012.

No events or circumstances or variations to key variables occurred during the first quarter that required us to update the impairment test on the value of goodwill carried out for the Telecom Italia Group Consolidated Financial Statements at 31 December 2011.

Note that the section "Outlook for the 2012 financial year", contains forward-looking statements about the Group s intentions, beliefs and current expectations with regard to its financial results and other aspects of operations and strategies. Readers should not place undue reliance on such forward-looking statements, as final results may differ significantly from those contained in the statements owing to a number of factors, the majority of which are beyond the Group s control.

Milan, 9 May 2012

The Telecom Italia Board of Directors, chaired by Franco Bernabè, today examined and approved the Group s Interim Financial Statements at 31 March 2012.

Franco Bernabè commented: Despite the complex economic context, the domestic market reported significant signs of recovery in revenue trends in the first quarter, sustaining margins of around 50%. The excellent performance of Latin America continues: over the quarter Brazil and Argentina contributed 38% of the Group's turnover and 27% of

EBITDA, with a margin of over 40%. These results, together with increasing cash generation, mainly in the second half, allows us to confirm all our targets for year-end 2012.

THE MAIN VARIATIONS TO THE TELECOM ITALIA GROUP CONSOLIDATION AREA

Additions to the consolidation area:

•

TIM Fiber Brazil: On 31 October 2011, acquisition of 100% of Eletropaulo Telecomunicações Ltda and 98.3% of AES Communications Rio de Janeiro S.A., telecommunications infrastructure operators in the states of San Paolo and Rio de Janeiro, now renamed TIM Fiber SP and TIM Fiber RJ respectively.

•

4GH Group - Domestic: On 27 July 2011 the 4G Holding group (retail sales of telephony equipment) entered the consolidation area following the purchase of 71% of the ordinary shares of 4G Holding S.p.A. which in turn holds 100% of 4G Retail S.r.l..

Exits from the consolidation area:

•

Loquendo Domestic: On 30 September 2011 Loquendo S.p.A. was sold and consequently excluded from the consolidation perimeter.

TELECOM ITALIA GROUP

Revenues in Q1 2012 amounted to **€7,392 million**, up 4.5% from €7,073 million in the first quarter of 2011 (+€319 million). In terms of organic variation, consolidated revenues grew by 5.3% (+€373 million).

In detail, the organic variation in revenues is calculated by excluding:

-

the effect of foreign exchange rate fluctuations of -€51 million regarding the Brazil Business Unit (-€27 million), the Argentina Business Unit (-€26 million) and other Group companies (+€2 million);

-

the effect of changes to the consolidation area (-€3 million), due to the sale of Loquendo (Domestic Business Unit) on 30 September 2011.

Revenues, broken down by operating unit, are as follows:

(millions of euros)	Q1 2012		Q1 2011		absolute	Change	
		%		%		%	% organic
Domestic	4,486	60.7	4,596	65.0	(110)	(2.4)	(2.4)
<i>Core Domestic</i>	4,253	57.5	4,396	62.2	(143)	(3.3)	(3.2)
<i>International Wholesale</i>	347	4.7	317	4.5	30	9.5	8.8
Brazil	1,928	26.1	1,646	23.3	282	17.1	19.1
Argentina	901	12.2	753	10.6	148	19.7	24.0

<i>Adjustments and eliminations</i>	(41)	(0.6)	(53)	(0.8)	12		
Total Consolidated	7,392	100.0	7,073	100.0	319	4.5	5.3

EBITDA came to **€2,963 million**, up €34 million (+1.2%) on the previous year period, with EBITDA margin of 40.1% (41.4% in Q1 2011). **In organic terms EBITDA grew by €15 million (+0.5%)** on the previous year period, with **margin on revenues down by 1.9 pp** (40.1% in Q1 2012 compared with 42.0% in Q1 2011). This trend is attributable to the greater weight of revenues in South America, whose margins are lower than Domestic business, as well as increased sales of mobile handsets aimed at a higher penetration of data services.

The following table shows a breakdown of EBITDA and EBITDA margin by business unit:

(millions of euros)	Q1 2012		Q1 2011		Change		
		%		%	absolute	%	% organic
Domestic	2,193	74.0	2,236	76.3	(43)	(1.9)	(3.4)

<i>% of Revenues</i>	<i>40.1</i>		<i>41.4</i>		<i>(1.3)pp</i>		<i>(1.9)pp</i>

EBIT amounted to **€1,619 million**, up €114 million (**+7.6%**) from Q1 2011, with the EBIT margin standing at 21.9% (21.3% in Q1 2011). The **organic EBIT variation** was a positive €88 million (**+5.7%**) with organic EBIT margin unchanged compared with Q1 2011.

Consolidated net income amounted to **€606 million**, up €57 million (**+10.4%**) with respect to the first quarter of 2011.

Capex for the first quarter of 2012 amounted to **€954 million** (up €53 million compared with Q1 2011) broken down as follows:

(millions of euros)	Q1 2012		Q1 2011		Change
		%		%	
Domestic	589	61.7	663	73.6	(74)
Brazil	234	24.5	130	14.4	104
Argentina	121	12.7	91	10.1	30
Media, Olivetti and Other Operations	10	1.1	17	1.9	(7)
<i>Adjustments and eliminations</i>	-	-	-	-	-
Total Consolidated	954	100.0	901	100.0	53
<i>% of Revenues</i>		<i>12.9</i>		<i>12.7</i>	<i>0.2 pp</i>

Capex for the Domestic Business Unit shrank by €74 million, mainly due to the lower requirement in relation to delivery of new systems owing to the slowdown and contraction of fixed-line business.

For the Brazil Business Unit **capex** rose by €104 million (including a forex effect of €2 million) in relation to investments in network infrastructure for the development of voice and data traffic.

Capex for the Argentina Business Unit grew by €30 million from the same period of last year. Investments were aimed at enlarging the fibre optic infrastructure and access network, developing backhauling for mobile traffic, DWDM technology and reinforcement of the IP backbone to improve transmission capacity and increase access speed provided to customers.

Cash flow from operations amounted to **€626 million** (€1,076 million in Q1 2011). This figure was affected by seasonal trends in the cash out for payables posted in the last quarter of the previous year, and the payment by the Brazil Business Unit of the telecommunications operations tax on the customer base which is due by the end of March of each year.

Adjusted net financial debt (excluding the purely accounting and non-monetary effects of the valuation at fair value of financial derivatives and related assets/liabilities) at 31 March 2012 is **€30,312 million**, down €102 million with respect to 31 December 2011 (€30,414 million).

Accounting net financial debt amounts to **€30,979 million** (€30,819 at 31 December 2011).

At 31 March 2012 Group **headcount** stood at **84,625 employees** (84,154 at 31 December 2011), of whom 56,919 in Italy (56,878 at 31 December 2011).

BUSINESS UNIT RESULTS

Figures for Telecom Italia Group included in this press release refer to the following business units:

***Domestic Business Unit:** includes domestic fixed-line and mobile-line voice and data services provided to end users (retail) and other carriers (wholesale), Telecom Italia Sparkle Group business (International Wholesale) as well as associated support operations;*

***Brazil Business Unit:** refers to mobile (Tim Celular) and fixed-line (Intelig, Tim Fiber SP and Tim Fiber RJ) telecommunications operations in Brazil;*

***Argentina Business Unit:** includes fixed-line (Telecom Argentina) and mobile telecommunications (Telecom Personal in Argentina, and Núcleo in Paraguay);*

***Media Business Unit:** includes TV network-related activities and operations;*

***Olivetti Business Unit:** includes activities in IT products and services;*

***Other Operations:** includes financial firms and other smaller operations not strictly related to Telecom Italia Group's core business.*

Figures for Telecom Italia Media at 31 March 2012 will be provided in the press release to be issued following the Board Meeting's approval.

DOMESTIC

Domestic revenues amounted to **€4,486 million** (€4,596 million in Q1 2011), down 2.4% in reported and organic terms.

Highlights:

Core Domestic Revenues

Core Domestic **revenues** amounted to **€4,253 million**, down 3.3% (€4,396 million in the first three months of 2011) and with an organic variation of -3.2%.

The performance of the individual market segments as compared with the same period of 2011 is as follows:

Consumer: the Consumer segment saw a slide in revenues compared with the first three months of 2011 of €26 million (-1.2%), although confirming the steady recovery seen in FY 2011 mostly thanks to a stabilisation of the erosion of voice revenues (both Fixed and Mobile), strong growth in Mobile Internet revenues and growth in revenues from handset sales. The contraction is entirely attributable to traditional Voice and Messaging services, largely offset by growth in Mobile Internet (+€27 million, +17.5% compared with Q1 2011) and Fixed Broadband Access (+€5 million, +2.2% compared with the previous year period).

Business: revenues for the segment fell by €47 million in Q1 2012 compared with the first quarter of 2011 (-6.1%). The fall was primarily seen in revenues from services (-€32 million) of which -€22 million on Fixed-line, entirely due to erosion of the customer base (-6.3% compared with 2011). In the Mobile segment the reduction (-€11 million) was seen in particular in incoming and roaming traffic due to lower termination rates and average prices, especially for Voice services.

Top: the segment reported a drop in revenues in Q1 2012 of €58 million compared with the same period of 2011 (-7.0%). The reduction affected both service revenues (-€35 million, -4.7%), and product sales (-€23 million, -28.0%). In

particular the downturn in revenues from services concerned Voice (-€18 million) and Data (-€19 million). This decline was only partially offset by growth in the Mobile segment (+€4 million, +1.4%).

National Wholesale: the Wholesale segment in Q1 2012 reported a slight drop in revenues (-€7 million, -1.3%) owing largely to lower traffic revenues. Other revenue trends remained substantially stable.

International Wholesale Revenues

In Q1 2012 the International Wholesale segment (Telecom Italia Sparkle Group) posted **revenues of €347 million, up €30 million** (+9.5%, +8.8% in organic terms) compared with the first three months of 2011. This performance was primarily attributable to Voice services (+€31 million, +14.4%) and the IP/Data segment (+€5 million, +7.8%).

Besides the breakdown by market segment, the following revenue figures are distinguished by technology (Fixed and Mobile).

Fixed-Line Telecommunications Revenues

Revenue trends in the main business areas are as follows:

(millions of euros)	Q1 2012	%	Q1 2011	%	Change absolute	%
Retail Voice	1,364	42.2	1,437	43.1	(73)	(5.1)
Internet	412	12.7	422	12.7	(10)	(2.4)
Business Data	329	10.2	364	10.9	(35)	(9.6)
Wholesale	1,032	31.9	1,015	30.5	17	1.7
Others	98	3.0	93	2.8	5	5.4
Total Fixed-Line Telecommunications Revenues	3,235	100.0	3,331	100.0	(96)	(2.9)

Mobile Telecommunications Revenues

Revenue trends in the main business areas are as follows:

(millions of euros)	Q1 2012	%	Q1 2011	%	Change absolute	%
Outgoing voice	825	50.0	876	52.2	(51)	(5.8)
Incoming voice	237	14.4	283	16.9	(46)	(16.3)
VAS	511	31.0	475	28.3	36	7.6
Handsets	77	4.6	45	2.6	32	71.1
Total Mobile Telecommunications Revenues	1,650	100.0	1,679	100.0	(29)	(1.7)

EBITDA for the Domestic business unit amounted to **€2,193 million**, down €43 million (-1.9%) from the corresponding period of 2011. The **EBITDA margin** was 48.9%, **up 0.2 percentage points** compared with the first three months of 2011. This result was affected by the contraction in revenues from services (-€102 million compared with the corresponding period of 2011) only partly recovered thanks to the selective control and containment of costs. **Organic EBITDA** came to **€2,196 million**, (-€78 million, -3.4% compared with the same period of 2011), with EBITDA margin at 49% of revenues slightly lower than the same period of 2011 (-0.5 percentage points).

EBIT for the Domestic business unit came to **€1,278 million**, €56 million higher than Q1 2011, (€1,222 million). This was mainly due to a decrease depreciation and amortisations (-€102 million compared with Q1 2011). The EBIT margin was 28.5%, up 1.9 percentage points from 2011 (26.6%).

Capex amounted to **€589 million**, down €74 million from the same period of 2011. The capex margin was 13.1% of revenues.

Headcount stood at **55,621**, higher by 232 units compared with 31 December 2011 (the variation includes the effects of the acquisition, effective from 1 January 2012, of the Contact Center and the relative 249 resources from the company Advalso belonging to the Olivetti Business Unit).

BRAZIL

(average real/euro exchange rate 2.31802)

Revenues of Tim Brasil group in Q1 2012 came to **4,468 million reais**, 716 million reais higher than Q1 2011 (**+19.1%**). Revenues from services grew to reach 4,015 million reais, up from 3,463 million reais in Q1 2011 (+15.9%). Revenues from product sales increased by 289 million reais in Q1 2011 to 453 million reais in Q1 2012 (+56.7%). ARPU (Average Revenue Per User) was over 19.1 reais in Q1 2012 compared with 20.8 reais in Q1 2011. The total number of **lines** at 31 March 2012 was **67.2 million, up 4.9%** with respect to 31 December 2011, representing a **26.80% market share**.

EBITDA amounted to **1,170 million reais**, up 139 million reais from Q1 2011 (**+13.5%**). Margin growth was sustained by the increase in revenues, mainly in outgoing voice traffic and VAS, partially counterbalanced by the higher variable costs due to business expansion. The EBITDA margin was 26.2% of revenues, down 1.3 percentage points from Q1 2011. This came as a consequence of the strong growth in low-margin sales of smartphones/webphones, +56.7% compared with Q1 2011.

EBIT amounted to **546 million reais**, an **improvement of 128 million** on Q1 2011. This is explained by the higher contribution of EBITDA, partially offset by increased depreciation and amortisations of 8 million reais (621 million reais in Q1 2012 compared with 613 million reais in the same period of 2011).

Headcount stood at **10,737 employees** (10,539 at 31 December 2011).

ARGENTINA

(average peso/euro exchange rate 5.68751)

Q1 2012 **revenues** came to **5,126 million pesos**, an increase of 992 million pesos (+24.0%) compared with first quarter 2011 (4,134 million pesos) thanks to growth of the Broadband and Mobile client base, as well as ARPU. The principal source of revenues for the Argentina Business Unit was mobile telephony which contributed 72% of consolidated revenues and grew by 28% compared with Q1 2011.

The number of **fixed lines** at 31 March 2012 remained practically unchanged against the end of 2011 (at around 4.1 million lines). Despite the freezing of tariffs imposed by the Economic Emergency Law of January 2002, **ARBU** (Average Revenue Billed per User) **grew by 7.3%** compared with Q1 2011 as a result of sales of packages including minutes of traffic and value added services.

Telecom Argentina's overall **Broadband** client portfolio at 31 March 2012 numbered **1,566,000 accesses**, 16,000 more than December 2011 with **growth of 1.0%**. In Q1 2012 the growth in Internet access lines was accompanied by an increase in prices resulting in a higher ARPU.

The **Personal** client base in Argentina grew by 354,000 from the end of 2011 to reach a total **18.5 million lines** at 31 March 2012, 32% of which with post-paid contracts. Meanwhile, thanks to the acquisition of high value customers and our leadership in Smartphones, **ARPU grew by around 16%** to top 54.9 pesos (47.4 pesos in Q1 2011). Much of this growth is attributable to value added services (including SMS and Mobile Internet), which together represented around 52% of mobile telephony revenues in Q1 2012.

In Paraguay the **Núcleo** client base **grew by 2.5%** from 31 December 2011 to reach **2,203,000 lines** at 31 March 2012, 17% of which with post-paid contracts.

EBITDA reached **1,644 million pesos**, an improvement of 234 million pesos (+16.6%). The EBITDA margin was 32.1%, 2.0 percentage points less than in Q1 2011, mainly due to the higher incidence of purchases of services and materials and of labour costs.

The **headcount** stood at **16,591 employees** (16,350 at 31 December 2011).

OLIVETTI

Revenues in Q1 2012 were **€59 million**, down €19 million compared with the same period of 2011. However, total revenues at a constant perimeter - calculated excluding the business of the Advalso S.p.A. Contact Center sold at the beginning of the year to Telecontact Center S.p.A. (Domestic BU) - fell by €13 million, with an organic variation of -18.1%. Excluding the revenues from agreements with the parent Telecom Italia S.p.A. on the use of brands and patents, the decline comes to €8 million (-11.9%).

EBITDA was a **negative €14 million**, unchanged on Q1 2011. Changes to the consolidation area had no significant impact on EBITDA. The lower margins linked to the fall in sales is more than compensated for by the €2 million reduction in costs (lower fixed costs and lower labour costs).

EBIT was a **negative €15 million**, unchanged compared to Q1 2011.

Headcount stood at **811 employees**, down 264 from 1,075 at 31 December 2011 (the variation includes the effects of the sale, with effect from 1 January 2012, of the Contact Center and its 249 resources to the Domestic Business Unit).

EVENTS SUBSEQUENT TO 31 MARCH 2012

No significant events subsequent to 31 March 2012 to emphasise.

OUTLOOK FOR THE 2012 FINANCIAL YEAR

As regards Telecom Italia Group's outlook for the ongoing financial year, the targets linked to the main economic and financial indicators, as described in the 2012-2014 Industrial Plan, foresee the following outcomes for the whole of 2012:

•

Revenues and EBITDA essentially unchanged from 2011;

•

Adjusted net financial position at around €27.5 billion.

TELECOM ITALIA MEDIA

The Telecom Italia Board of Directors has decided to begin the process for the disposal of the activities in the media sector, in relation to the refocusing of the Group on the core activities as outlined in the 2012-2014 Business Plan.

Such disposal will contribute to reach the targets of debt reduction already announced.

The Manager designate for the preparation of accounting and corporate documents, Andrea Mangoni, hereby declares, pursuant to paragraph 2, Art.154-bis of Italy's Financial Law, that the accounting information contained herein

corresponds to the company's documentation, accounting books and records.

ATTACHMENTS TO THE PRESS RELEASE

ALTERNATIVE PERFORMANCE MEASURES

In this press release in addition to the conventional financial performance measures established by IFRS, certain alternative performance measures are presented for purposes of a better understanding of the trend of operations and the financial condition related to the Telecom Italia Group. Such measures, which are also presented in other periodical financial reports (annual and interim), should, however, not be considered as a substitute for those required by IFRS.

The non-IFRS alternative performance measures used are described below:

.

EBITDA: this financial measure is used by Telecom Italia as the financial target in internal presentations (business plans) and in external presentations (to analysts and investors). It represents a useful unit of measurement for the evaluation of the operating performance of the Group (as a whole and the Business Units level) in addition to **EBIT**. These measures are calculated as follows:

Profit before tax from continuing operations

+	Finance expenses
-	Finance income
+/-	Other expenses (income) from investments

+/- Share of losses (profits) of associates and joint ventures accounted for using the equity method

EBIT - Operating profit

+/- Impairment losses (reversals) on non-current assets

+/- Losses (gains) on disposals of non-current assets

+ Depreciation and amortization

EBITDA - Operating profit before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets

.

Organic change in Revenues, EBITDA and EBIT: these measures express changes (amount and/or percentage) in Revenues, EBITDA and EBIT, excluding, where applicable, the effects of the change in the scope of consolidation, exchange differences and non-organic components constituted by non-recurring items and other non-organic income/expenses.

Telecom Italia believes that the presentation of such additional information allows for a more complete and effective understanding of the operating performance of the Group (as a whole and at the Business Units level).

The organic change in Revenues, EBITDA and EBIT is also used in presentations to analysts and investors.

Details of the economic amounts used to arrive at the organic change are provided in this press release as well as an analysis of the major non-organic components for the first quarter 2012 and 2011.

.

Net Financial Debt: Telecom Italia believes that the Net Financial Debt represents an accurate indicator of its ability to meet its financial obligations. It is represented by Gross Financial Debt less Cash and Cash Equivalents and other Financial Assets. In the press release is included a table showing the amounts taken from the statement of financial position and used to calculate the Net Financial Debt of the Group.

In order to better represent the actual change in net financial debt, starting with the Half Yearly Financial Report at June 30, 2009, in addition to the usual measure (renamed Net financial debt carrying amount) a new measure has been introduced denominated Adjusted net financial debt , which excludes effects that are purely accounting in nature resulting from the fair value measurement of derivatives and related financial liabilities/assets.

Net financial debt is calculated as follows:

- +Non-current financial liabilities
- +Current financial liabilities
- +Financial liabilities directly associated with Discontinued operations/ Non-current assets held for sale

A)Gross Financial Debt

(1) Net of 27.5 million euros repurchased from the company during the year 2011.			

BUYBACKS

As already occurred in the last years, during the first quarter 2012 the Telecom Italia Group repurchased bonds in order to:

•
give investors a further possibility of monetizing their position;

•
partially anticipate the repayment of some debt maturities thus increasing the overall return of the Group's liquidity, without taking any additional risk.

In particular we point out the following buybacks:

(millions of original currency)	Currency	Amount	Buyback period
Buybacks			
Telecom Italia Finance S.A. 790 million euros 7.250% due April 2012 (*)	Euro	12	January 2012
Telecom Italia Finance S.A. 693 million euros 6.875% due January 2013 (*)	Euro	66	January-March 2012

(1) During the year 2011 the company repurchased the above mentioned bonds for the total amount of 290 million euros (199 million euros bond expiring April 2012 and 91 million euros bond expiring January 2013). Therefore, the total amount of the buy-back is equal to 368 million euros.

The **Telecom Italia S.p.A. 2002-2022 bonds**, reserved for subscription by employees of the Group, amounted 249 million euros (nominal value) as of March 31, 2012 and decreased by 17 million euros in comparison with December 31, 2011 (266 million euros).

The nominal amount of repayment, net of the Group's bonds buy-back, related to the bonds expiring in the following 18 months as of March 31, 2012 issued by Telecom Italia S.p.A., Telecom Italia Finance S.A. and Telecom Italia Capital S.A. (fully and unconditionally guaranteed by Telecom Italia S.p.A.) totals 3,628 million euros with the following detail:

•
790 million euros, due April 24, 2012;

•
1,000 million euros, due December 6, 2012;

•
693 million euros, due January 24, 2013;

•
645 million euros, due March 21, 2013;

•
500 million euros, due July 19, 2013.

With reference to the loans received by Telecom Italia S.p.A. from the European Investment Bank (EIB), an amount of 1,056 million euros (out of a total of 2,971 million euros at March 31, 2012) is not secured by bank guarantees and there are covenants which cover the following:

•
in the event the company becomes the target of a merger, demerger or contribution of a business segment outside the Group, or sells, disposes or transfers assets or business segments (except in certain cases, expressly provided for), it shall immediately inform the EIB which shall have the right to ask for guarantees to be provided or changes to be made to the loan contract;

•
Clause for inclusion contemplated in the loan contracted on August 5, 2011 for the amount of 100 million euros: against more restrictive clauses (i.e. cross default clauses, financial covenants, commitments restricting the sale of goods) granted by the company in new loan contracts, the EIB will have the right to demand the constitution of guarantees or the amendment of the loan contract in order to have an equivalent regulation in favour of the EIB. That expectation is not applied to the subsidized loans until the total amount of the outstanding capital financed does not exceed the amount of 500 million euros;

•
for all loans not secured by collateral, if the Company's credit rating of unsubordinated and unsecured medium-long term debt is lower than BBB for Standard & Poor's, Baa2 for Moody's and BBB for Fitch Ratings, the company shall immediately inform the EIB, which shall have the right to ask for suitable guarantees to be provided, indicating a date for setting up these guarantees; after that date and if Telecom Italia S.p.A. fails to provide the guarantees, the EIB shall have the right to demand the immediate repayment of the disbursed amount. The current ratings (BBB and Baa2) didn't require new guarantees or repayment of loans.

The syndicated bank credit lines of Telecom Italia S.p.A. do not contain financial covenants (e.g. ratios such as Debt/EBITDA, EBITDA/Interests, etc.) which would oblige the Company to repay the outstanding loan if the

covenants are

not observed. Mechanisms are provided for adjusting the cost of funding in relation to Telecom Italia's credit rating, with a spread added to Euribor of between a minimum of 0.0875% and a maximum of 0.2625% for the line expiring in 2014, and between a minimum of 0.90% and a maximum of 2.50% for the line expiring in 2013.

The two syndicated bank credit lines contain the usual other types of covenants, including the commitment not to use the company's assets as collateral for loans (negative pledges), the commitment not to change the business purpose or sell assets of the company unless specific conditions exist (e.g. the sale at the fair market value). Covenants with basically the same content can be found in the export credit loan agreement.

In a series of agreements in which Telecom Italia is a party, communication must be provided in case of a change in control:

.
Multi currency revolving credit facility (8,000,000,000 euros). The agreement was signed between Telecom Italia and a syndicate of banks on August 1st, 2005 and subsequently modified. In the event of a change in control, Telecom Italia shall inform the agent within 5 business days and the agent, on behalf of the lending banks, shall negotiate in good faith how to continue the relationship. None of the parties shall be obliged to continue such negotiations beyond the term of 30 days, at the end of which, in the absence of an agreement, the credit facility shall cease to be effective and Telecom Italia shall be held to repay any sum eventually disbursed (currently equal to 2,000,000,000 euros) to the same. Conventionally, no change in control is held to exist in the event control, pursuant to art. 2359 of the Italian Civil Code, is acquired (i) by shareholders who, at the date of signing the agreement held, directly or indirectly, more than 13% of the voting rights in shareholders' meetings or (ii) by the investors (Telefónica S.A., Assicurazioni Generali S.p.A., Intesa Sanpaolo S.p.A. and Mediobanca S.p.A.) which had signed a shareholder's agreement on April 28, 2007 regarding the Telecom Italia shares, or (iii) by a combination of parties belonging to the above two categories;

.
Revolving credit facility (1,250,000,000 euros). This agreement was signed between Telecom Italia and a syndicate of banks on February 12, 2010 and envisages a structure similar to that contained in the August 1, 2005 credit facility agreement, even though it was updated to take into account of the October 28, 2009 amendment to the April 28, 2007 shareholder's agreement. Therefore, no change in control is held to exist in the event control, pursuant to art. 2359 of the Italian Civil Code, is directly or indirectly (through subsidiaries) acquired by the investors Telefónica S.A., Assicurazioni Generali S.p.A., Intesa Sanpaolo S.p.A. and Mediobanca S.p.A., with the provisions described above remaining unchanged. The disbursed amount is currently equal to 250,000,000 euros;

Revolving credit facility (200,000,000 euros). This agreement was entered into by Telecom Italia and Unicredit S.p.A. on December 20, 2010 and envisages a discipline basically similar to that of the February 12, 2010 credit facility agreement. The disbursed amount is currently equal to 200,000,000 euros;

Bonds. The regulations covering the bonds issued under the EMTN Programmes, by both Olivetti and Telecom Italia, and the loans denominated in US dollars, typically provide that, in the event of mergers or transfer of all or substantially all of the assets of the issuing company or the guarantor, the incorporating or transferee company shall assume all of the obligations of the merged or transferor company. Non-fulfillment of the obligation, for which a solution is not found, is an event of default;

Contracts with the European Investment Bank (EIB.) The total nominal amount is 2.95 billion euros. The contracts signed by Telecom Italia with the EIB, for the amount of 2.65 billion euros, carry the obligation of promptly informing the Bank about changes regarding the Bylaws or the allocation of capital among the shareholders which can bring about a change in control. Failure to communicate this information to the bank shall result in the termination of the contract. Furthermore, when a shareholder, who at the date of signing the contract does not hold at least 2% of the share capital, comes to hold more than 50% of the voting rights in ordinary shareholders' meetings or, in any case, a number of shares such that it represents more than 50% of the share capital and, in the bank's reasonable opinion, this fact could cause a detriment to the Bank or could compromise the execution of the loan project, the Bank has the right to ask Telecom Italia to provide guarantees or modify the contract or find an alternative solution. Should Telecom Italia not comply with the requests of EIB, the bank has the right to terminate the contract. Specifically:

in the loan signed by Telecom Italia with the EIB on August 5, 2011 and in the three contracts assisted, respectively, by bank guarantee and by a guarantee issued by Sace S.p.A. signed on September 26, 2011, for a total amount of 200 million euros, there is change in control if a subject or a group of subjects acquire the control of Telecom Italia, or of the entity controlling it directly or indirectly. There isn't change in control in case the control is acquired directly or indirectly by (i) any shareholder of Telecom Italia that at the date of the contract holds directly or indirectly at least 13% of the voting rights in the ordinary board or (ii) by the investors Telefónica S.A., Assicurazioni Generali S.p.A., Intesa Sanpaolo S.p.A. and Mediobanca S.p.A. or by their subsidiaries;

furthermore, the three contracts guaranteed and dated September 26, 2011 provide the clause for inclusion according to which in case Telecom Italia commits herself to maintain in other loans financial covenants not present or more restrictive than those granted to the EIB, the bank will have the right to demand the constitution of guarantees or the amendment of the loan contract in order to have an equivalent clause in favour of the EIB. That expectation is not applied to the subsidized loans until the total amount of the outstanding capital financed does not exceed the amount of 500 million euros;

Export Credit Agreement (nominal outstanding amount 37,573,952 euros). The contract was signed in 2004 by Telecom Italia and Société Générale and provides the repayment of the loan in 2013. It is established that, in the event of a

change in control and subsequent failure to reach an agreement with the lender bank, Telecom Italia shall repay the outstanding loan at the first date in which the interest payment shall be due;

Senior Secured Syndicated Facility (nominal outstanding amount 312,464,000 Argentinean pesos, equal to approximately 53 million euros). The contract was signed in October 2011 between BBVA Banco Francés and Tierra Argentea S.A. (company fully-controlled by the Telecom Italia Group) and provides the repayment of the loan in 2016. The loan is granted by two pledges set up on (i) 15,374,858 Telecom Argentina s shares and (ii) 2,351,752 American depositary Shares (ADS) representing of 117,588 preferred B shares of Nortel Inversora S.A.. The covenants contractually provided, as negative covenants or financial covenants, are coherent with those of the syndicated credit facilities and with the local market practice; furthermore, there is a clause of change in control that comply the total repayment in advance of the loan in case the Telecom Group holds less than the 100% of Tierra Argentea S.A. or loses the control of the other Argentinean subsidiaries.

Finally, in the documentation of the loans granted to certain companies of the Tim Brasil group, the companies must generally respect certain financial ratios (e.g. capitalization ratios, ratios for servicing debt and debt ratios), as well as customary negative pledges clauses, worth the request for the repayment in advance of the loan.

Finally, as of March 31, 2012, no covenants, negative pledge clauses or other clauses regarding the above described debt position have been breached or violated in any way.

Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward - looking statements. The press release included in this Form 6-K contains certain forward -looking statements. Forward-looking statements are statements that are not historical facts and can be identified by the use of forward-looking terminology such as "believes," "may," "is expected to," "will," "will continue," "should," "seeks" or "anticipates" or similar expressions or the negative thereof or other comparable terminology, or by the forward- looking nature of discussions of strategy, plans or intentions.

Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information is based on certain key assumptions which we believe to be reasonable but forward-looking information by its nature involves risks and uncertainties, which are outside our control, that could significantly affect expected results.

The following important factors could cause our actual results to differ materially from those projected or implied in any forward-looking statements:

1. the continuing impact of increased competition in a liberalized market, including competition from established domestic competitors and global and regional alliances formed by other telecommunications operators in our core Italian domestic fixed-line and wireless markets;
2. our ability to restructure our organizational model from one based on technology (fixed and mobile) to one based on customer segments (consumers, SOHOs, SMEs, Corporates) in order to focus on customers and their needs in utilizing our products and services;
3. our ability to utilize our relationship with Telefónica to attain synergies primarily in areas such as network, IT, purchasing, sales activities in Germany and international mobile roaming;
4. our ability to introduce new services to stimulate increased usage of our fixed and wireless networks to offset declines in the traditional fixed-line voice business due to the continuing impact of regulatory required price reductions, market share loss, pricing pressures generally and shifts in usage patterns;
5. our ability to successfully implement our internet and broadband strategy both in Italy and abroad;
6. our ability to successfully achieve our debt reduction targets;
7. the impact of regulatory decisions and changes in the regulatory environment in Italy and other countries in which we operate;
8. the impact of economic development generally on our international business and on our foreign investments and capital expenditures;

9. our services are technology-intensive and the development of new technologies could render such services non-competitive;
10. the impact of political and economic developments in Italy and other countries in which we operate;
11. the impact of fluctuations in currency exchange and interest rates;
12. our ability to successfully implement our strategy over the 2012-2014 period;
13. our ability to build up our business in adjacent markets (pay-TV and IT services) and in international markets (particularly Brazil in mobile telecommunications and Europe-Germany-in BroadBand), due to our specialist and technical resources;
14. our ability to achieve the expected return on the investments and capital expenditures we have made and continue to make in Brazil on mobile and in Europe on BroadBand;
15. the amount and timing of any future impairment charges for our licenses, goodwill or other assets; and 16. the outcome of litigation, disputes and investigations in which we are involved or may become involved.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof, including, without limitation, changes in our business or acquisition strategy or planned capital expenditures, or to reflect the occurrence of unanticipated events.
