E*TRADE GROUP, INC.

E*TRADE Group, Inc. is a diversified financial services company that offers a wide range of financial products and services under the brand E*TRADE Financial. Our core strategy is to create value for customers and competitive advantage by utilizing technology to provide brokerage, banking and lending products, primarily through electronic delivery channels. We offer products and services to retail, corporate and institutional customers, and operate in multiple countries around the world. Retail customers can move money electronically between brokerage, banking and lending accounts and have access to physical touchpoints that include E*TRADE Centers in selected cities and over 15,000 E*TRADE automated teller machines (ATMs), located throughout the United States. Corporate clients utilize our employee stock plan administration and options management tools. Institutional customers enjoy access to a broad range of brokerage products and services, including cross-border trading and independent research.

We divide our business into four segments Domestic Retail Brokerage, Wealth Management, which is combined with Domestic Retail Brokerage, Banking and Global and Institutional.

- E*TRADE's Domestic Retail Brokerage segment includes online investing and trading; automated order placement and execution of market and limit equity orders; streaming quotes; advanced trading platforms for active traders; personalized portfolio tracking; charting and quote applications; access to nearly 3,000 non-proprietary and proprietary mutual funds; bond trading and proprietary bond funds; access to separate account money management; individual retirement accounts; college savings plan products; and real-time market commentary, real-time quotes and news. During the year ended December 31, 2002, this segment represented

Edgar Filing: E TRADE GROUP INC - Form S-3

approximately 52.7% of our net revenues.

- E*TRADE's Wealth Management segment includes mutual fund operations, the E*TRADE Business Solutions Group, Inc., which we refer to as BSG, and other services focused on retirement and 401(k) rollover programs, college savings plans, delivery of electronic advice and money management, tiered product offerings and activities generated from corporate operations. Our Wealth Management business currently is not material to our consolidated results and has characteristics comparable to the offerings of other retail brokerage firms; accordingly we have aggregated Wealth Management with Domestic Retail Brokerage.
- E*TRADE's Banking segment offers a range of Federal Deposit Insurance Corporation (FDIC) insured products, including certificates of deposit, money market and savings accounts and interest-bearing checking accounts. Services also include a range of lending products, including first and second variable and fixed rate mortgages, home equity loans and other consumer loans to finance automobiles, marine and recreational vehicles. During the year ended December 31, 2002, this segment provided approximately 34.6% of our net revenues.
- E*TRADE's Global and Institutional segment provides online retail brokerage services to international retail customers and financial services to institutional investors. During the year ended December 31, 2002, this segment provided approximately 12.7% of our net revenues.

Our Domestic Retail Brokerage business is primarily comprised of the activities of E*TRADE Securities, LLC, which we refer to as E*TRADE Securities, a SEC registered broker-dealer, its securities clearing firm, E*TRADE Clearing LLC, which we refer to as E*TRADE Clearing, a member of the New York Stock Exchange (NYSE), Dempsey & Company, LLC, which we refer to as Dempsey, a specialist and market-making firm and E*TRADE Professional Trading, LLC, which we refer to as E*TRADE Professional Trading, a direct access brokerage firm for active online traders. E*TRADE completed its acquisitions of Dempsey and E*TRADE Professional Trading in fiscal 2001 and fiscal 2002, respectively. We offer retail banking products and services through E*TRADE Bank, which we refer to as the Bank, which is the nation's eighth largest Office of Thrift Supervision (OTS) regulated financial institution based on total assets as of December 31, 2002. Our branchless structure permits us to serve customers nationwide. The Bank has three primary subsidiaries, E*TRADE Access,

3

Inc., which we refer to as E*TRADE Access, which operates an independent network of ATMs in the United States and Canada, E*TRADE Mortgage Corporation, which we refer to as E*TRADE Mortgage, a direct to consumer mortgage loan originator and Ganis Credit Corporation, which we refer to as Ganis, a consumer recreational vehicle, marine and other consumer loan originator. E*TRADE Financial Corporation, which we refer to as ETFC, is a provider of financial services and the holding company of the Bank. E*TRADE Re, LLC is a provider of reinsurance and financial services and the holding company of ETFC and E*TRADE Global Asset Management, Inc. is a registered broker-dealer and investment advisor that manages asset portfolios for us and the Bank. Our Global and Institutional business segment is comprised principally of international subsidiaries which offer online retail brokerage services to foreign investors and financial services to institutional investors.

We make our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, as well as any amendments to the forgoing, available free of charge at our website as soon as reasonably practicable after they have been filed with the SEC. For a detailed description of our business you should read these reports and the other filings we make with the SEC which are incorporated by reference in this prospectus.

E*TRADE's corporate offices are located at 4500 Bohannon Drive, Menlo Park, California 94025. We also maintain significant corporate and operational offices in Arlington, Virginia and New York City, New York and major administrative facilities near Sacramento, California and Atlanta, Georgia. Finally we maintain significant operational facilities in Orange County, California and Chicago, Illinois. E*TRADE was incorporated in California in 1982 and reincorporated in Delaware in July 1996. We have approximately 3,500 employees. Our website address is <http://www.etrade.com>. The information on our website is not part of this prospectus.

RISK FACTORS

RISKS RELATING TO THE NATURE OF THE FINANCIAL SERVICES BUSINESS

Many of our competitors have greater financial, technical, marketing and other resources

We face direct competition from retail and institutional brokerage firms, banks, thrifts and other savings and lending institutions, mortgage companies, specialists, market makers, insurance companies, electronic communication networks, or ECNs, mutual fund companies, credit card companies, ATM providers, Internet portals, providers of equity compensation and other corporate-focused financial products, financial advisors, financial media providers and other financial products and services organizations.

Many of our competitors have longer operating histories and greater resources than we do and offer a wider range of financial products and services. Many also have greater name recognition, greater market acceptance, and larger customer bases. These competitors may conduct extensive promotional activities and offer better terms and lower prices to customers than we do. Moreover, some of our competitors have established relationships among themselves or with third parties to enhance their products and services. This means that our competitors may be able to respond more quickly to new or changing opportunities and demands and withstand market downturns better than we, and gain market share. It is also possible that new competitors, alliances or industry consolidation among existing or future competitors may significantly reduce our market share or our ability to compete effectively.

Downturns or disruptions in the securities markets could reduce transaction volumes and margin borrowing and increase our dependence on our more active customers who receive lower prices

A significant portion of our revenues in recent years has been from online investing services, and although we continue to diversify our revenue sources, we expect this business to continue to account for a significant portion of our revenues in the foreseeable future. Like other financial services firms, we are directly affected by national and global economic and political conditions, broad trends in business and finance, disruptions to the securities markets and changes in volume and price levels of securities and futures transactions.

A significant downturn in the U.S. securities markets has been occurring since March 2000, resulting in industry-wide declines in transaction volume. The decrease in transaction volume has been more significant for us with respect to our less active customers, increasing our dependence on our more active Power E*TRADE and E*TRADE Professional Trading customers who receive more favorable pricing based on their transaction volume. Decreases in volumes, as well as securities prices, are also typically associated with a decrease in margin borrowing. Because we generate revenue from interest charged on margin borrowing, such decreases result in a reduction of revenue to E*TRADE Clearing. When transaction volume is low, our operating results are harmed in part because some of our overhead costs remain relatively fixed.

Downturns in the securities markets increase the credit risk associated with margin lending or stock loan transactions

We permit customers to purchase securities on margin. When the market declines rapidly, there is an increased risk that the value of the collateral we hold in connection with these transactions could fall below the amount of a customer's indebtedness. Similarly, as part of our broker-dealer operations, we frequently enter into arrangements with other broker-dealers for the lending of various securities. Under regulatory guidelines, when we borrow or lend securities, we must generally simultaneously disburse or receive cash deposits. We may risk losses if there are sharp changes in market values of many securities and the counter-parties to the borrowing and lending transactions fail to honor their commitments. The recent downturn in public equity markets has led to a greater risk that parties to stock lending transactions may fail to meet their commitments.

We may be unsuccessful in managing the effects of changes in interest rates and the interest-bearing assets in our portfolio

The results of operations for the Bank depend in large part upon the level of its net interest income, that is, the difference between interest income from interest-earning assets (such as loans and mortgage-backed securities) and interest expense on interest-bearing liabilities (such as deposits and borrowings). Changes in market interest rates

and the yield curve could reduce the value of the Bank's financial assets and reduce net interest income. Many factors affect interest rates, including governmental monetary policies and domestic and international economic and political conditions.

The Bank is exposed to interest rate risk in various ways, including the following:

As interest rates have declined, we have experienced increased demand for and revenues from mortgage loans. If interest rates increase, we would expect a potentially significant decline in our mortgage business.

As part of its diversified portfolio of interest-bearing assets, the Bank holds a portfolio of corporate bonds. With the recent economic downturn, there is an increased risk that some of these corporate bonds may become impaired before reaching maturity, or that they may not realize their full principal value upon maturity, which could cause the Bank's portfolio to suffer impairment charges as losses are realized.

The Bank attempts to mitigate interest rate risk in part by using derivative contracts that are designed to offset, in whole or in part, the variability in value or cash flow of various assets or liabilities caused by changes in interest rates. There can be no assurances that these derivative contracts will offer the intended protection against interest rate risk. Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*, which we adopted on October 1, 2000, requires that the hedge ineffectiveness, or the difference between the changes in value of the hedged item versus the change in value of the hedging instruments, be recognized in earnings as of the reporting date. Our financial results may prove to be more volatile due to this reporting requirement.

The Bank's diversification of its asset portfolio to include riskier, higher-yielding investments may increase the level of charge-offs

As the Bank diversifies its asset portfolio through purchases and originations of higher-yielding asset classes, such as automobile, marine and recreational vehicle loans and retained interests in asset securitizations, we will have to manage assets that carry a higher risk of default than our existing portfolio. Consequently, the level of charge-offs associated with these assets may be higher than previously experienced. In addition, if the overall economy continues to weaken, we could experience higher levels of charge-offs. If expectations of future charge-offs increase, a corresponding increase in the amount of our loan loss allowance would be required. The increased level of provision for loan losses recorded to meet additional loan loss allowance requirements could adversely impact our financial results if those higher yields do not cover the provision for loan losses.

Risks associated with trading transactions at our specialist/market maker could result in trading losses

A majority of our specialist and market-making revenues at Dempsey are derived from trading by Dempsey as a principal. Dempsey may incur trading losses relating to the purchase, sale or short sale of securities for its own account as well as trading losses in its specialist stocks and market maker stocks. From time to time, Dempsey may have large position concentrations in securities of a single issuer or issuers engaged in a specific industry. In general, because Dempsey's inventory of securities is marked to market on a daily basis, any downward price movement in those securities will result in a reduction of revenues and operating profits. Dempsey also operates a proprietary trading desk separately from its specialist and market maker operations, which may also incur trading losses.

Reduced spreads in securities pricing, levels of trading activity and trading through market makers and/or specialists could harm our specialist and market maker business

The listed marketplaces have moved from trading using fractional share prices to trading using decimals. As a result, spreads that specialists and market makers receive in trading equity securities have declined and may continue to decline, which could harm revenues generated by Dempsey. Also, the advent of decimalization led to a decline in order flow revenue received by us from market makers and marketplaces. Similarly, a reduction in the volume and/or volatility of trading activity could also reduce spreads that specialists and market makers receive, also adversely affecting revenues generated by Dempsey.

Alternative trading systems that have developed over the past few years could also reduce the levels of trading of exchange-listed securities through specialists and the levels of over-the-counter trading through market makers. In

addition, ECNs have emerged as an alternative forum to which broker-dealers and institutional investors can direct their limit orders. This allows broker-dealers and institutional investors to avoid directing their trades through market makers. As a result, Dempsey may experience a reduction in its flow of limit orders.

If we do not successfully manage consolidation opportunities, we could be at a competitive disadvantage

There has been significant consolidation in the online financial services industry over the last several years, and the consolidation is likely to continue in the future. Should we fail to take advantage of viable consolidation opportunities or if we overextend our efforts by acquiring businesses that we are unable to integrate or properly manage, we could be placed at a competitive disadvantage. Acquisitions entail numerous risks including retaining or hiring skilled personnel, integrating acquired operations, products and personnel and the diversion of management attention from other business concerns. In addition, there can be no assurance that we will realize a positive return on any of these investments or that future acquisitions will not be dilutive to earnings.

We must be able to quickly introduce new products and services in order to attract new customers and remain competitive

Our future profitability depends significantly on our ability to develop, maintain and enhance our products, services and technology. There are significant challenges to such development, maintenance and enhancement, including:

- effectively using new technologies;
- effectively ensuring that the technologies we utilize are, and remain, stable and secure;
- adapting our products and services to meet emerging industry standards; and
- developing, introducing and marketing new products and services to meet and create customer demand.

We rely heavily on technology to deliver products and services

Disruptions to or instability of our technology, including an actual or perceived breach of the security of our technology, could harm our business and our reputation.

Our international efforts subject us to additional risks and regulation, which could impair our business growth

One component of our strategy is an increased effort to build our international business. To date, we have limited experience in providing retail brokerage and banking services internationally. There can be no assurance that our branded products and services will be successful in international markets.

In order to expand our services globally, we must comply with the regulatory controls of each specific country in which we conduct business. We intend to rely primarily on our joint venture partners and/or licensees and our subsidiaries for regulatory compliance in foreign jurisdictions. We have limited control over the management and direction of these venture partners and/or licensees, and their action or inaction, including their failure to follow proper practices with respect to regulatory compliance and/or corporate governance, could harm our operations and/or our reputation.

In addition, there are certain risks inherent in doing business in international markets, particularly in the heavily regulated brokerage and banking industries, such as:

- unexpected changes in regulatory requirements and trade barriers;
- difficulties in staffing and managing foreign operations;
- the level of investor interest in cross-border trading;
- authentication of online customers;
- political instability;
- fluctuations in currency exchange rates;
- reduced protection for intellectual property rights in some countries;

7

-
- seasonal reductions in business activity during the summer months in Europe and certain other parts of the world;
 - the level of acceptance and adoption of the Internet in international markets; and
 - potentially adverse tax consequences.

RISKS RELATING TO THE REGULATION OF OUR BUSINESS

We are subject to extensive government regulation, including banking and securities rules and regulations, which could restrict our business practices

Edgar Filing: E TRADE GROUP INC - Form S-3

The securities and banking industries are subject to extensive regulation. All of our broker-dealer subsidiaries have to comply with many laws and rules, including rules relating to possession and control of customer funds and securities, margin lending and execution and settlement of transactions. We are also subject to additional laws and rules as a result of our specialist and market maker operations in Dempsey. In addition, if we were deemed to solicit orders from our customers or make investment recommendations, we would become subject to additional rules and regulations governing, among other things, sales practices and the suitability of recommendations to customers.

Similarly, E*TRADE Group, E*TRADE Re, LLC and ETFC, as savings and loan holding companies, and E*TRADE Bank, as a federally chartered savings bank and subsidiary of ETFC, are subject to extensive regulation, supervision and examination by the OTS, and, in the case of the Bank, the FDIC. Such regulation covers all banking business, including lending practices, safeguarding deposits, capital structure, record keeping, transactions with affiliates and conduct and qualifications of personnel. In addition, we are also subject to the regulatory controls of each specific country in which we conduct business.

Similarly, Federal, state and local governments may pass legislation affecting the privacy of financial information that could constrain our ability to communicate, or otherwise conduct business with existing or potential customers.

If we fail to comply with applicable securities, banking and insurance regulations, we could be subject to disciplinary actions, damages, penalties or restrictions that could significantly harm our business

The SEC, NYSE, CFTC and the NASD or other self-regulatory organizations and state securities commissions can, among other things, censure, fine, issue cease-and-desist orders or suspend or expel a broker-dealer or any of its officers or employees. The OTS may take similar action with respect to our banking activities. Similarly, the attorneys general of each of the states could bring legal action on behalf of the citizens of the various states to ensure compliance with local laws. Our ability to comply with all applicable laws and rules is largely dependent on our establishment, maintenance and enforcement of an effective compliance system. Our failure to establish and enforce proper compliance procedures, even if unintentional, could subject us to significant losses or disciplinary or other actions.

If we do not maintain the capital levels required by regulators, we may be fined or even forced out of business

The SEC, NYSE, NASD, CFTC, OTS and various other regulatory agencies have stringent rules with respect to the maintenance of specific levels of net capital by securities broker-dealers and regulatory capital by banks. Net capital is the net worth of a broker or dealer (assets minus liabilities), less deductions for certain types of assets. Failure to maintain the required net capital could result in suspension or revocation of registration by the SEC and suspension or expulsion by the NYSE and/or NASD, and could ultimately lead to the firm's liquidation. In the past, our broker-dealer subsidiaries have depended largely on capital contributions by us in order to comply with net capital requirements. If such net capital rules are changed or expanded, or if there is an unusually large charge against net capital, operations that require an intensive use of capital could be limited. Such operations may include investing activities, marketing and the financing of customer account balances. Also, our ability to withdraw capital from brokerage subsidiaries could be restricted, which in turn could limit our ability to pay dividends, repay debt and redeem or purchase shares of our outstanding stock. See the notes to our consolidated financial statements included in our most recent annual report on Form 10-K or quarterly report on 10-Q, and any amendments to the foregoing, which are incorporated by reference in this prospectus, for the minimum net capital requirements for our domestic broker-dealer subsidiaries for the most recently completed reporting period.

Similarly, the Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could harm a bank's operations and financial statements. A bank must meet specific capital guidelines that involve quantitative measures of a bank's assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. A bank's capital amounts and classification are also subject to qualitative judgments by the regulators about the strength of components of the bank's capital, risk weightings of assets, off-balance-sheet transactions and other factors.

Quantitative measures established by regulation to ensure capital adequacy require a bank to maintain minimum amounts and ratios of Total and Tier 1 Capital to risk-weighted assets and of Tier I Capital to adjusted total assets. To satisfy the capital requirements for a well capitalized financial institution, a bank must maintain minimum Total and Tier 1 Capital to risk-weighted assets and Tier I Capital to adjusted total assets ratios. See the notes to our consolidated financial statements included in our most recent annual report on Form 10-K or quarterly report on Form 10-Q, and any amendments to the foregoing, which are incorporated by reference in this prospectus, for the Bank's required and actual capital amounts and ratios for the most recently completed reporting period.

Regulatory review of our advertising practices could hinder our ability to operate our business and result in fines and other penalties

Edgar Filing: E TRADE GROUP INC - Form S-3

All marketing activities by our broker-dealer subsidiaries that are regulated by the NASD, are required to have all marketing materials reviewed by a Series 24 licensed principal prior to release. The NASD has in the past asked us to revise certain marketing materials. In June 2001, we settled a formal NASD investigation into our advertising practices and were fined by the NASD in connection with three advertisements that were placed in 1999. The NASD can impose certain penalties for violations of its advertising regulations, including:

- censures or fines;
- suspension of all advertising;
- the issuance of cease-and-desist orders; or
- the suspension or expulsion of a broker-dealer or any of its officers or employees.

In addition, the federal banking agencies impose restrictions on bank advertising of non-deposit investment products to minimize the likelihood of customer confusion.

As a savings and loan holding company, we are subject to regulations that could restrict our ability to take advantage of certain business opportunities

We, as well as the Bank, are required to file periodic reports with the OTS, and are subject to examination by the OTS. The OTS also has certain types of enforcement powers over ETFC and us, including the ability to issue cease-and-desist orders, force divestiture of the Bank and impose civil money penalties for violations of federal banking laws and regulations or for unsafe or unsound banking practices. In addition, under the Gramm-Leach-Bliley Act, our activities are now restricted to those that are financial in nature and certain real estate-related activities. We may make merchant banking investments in companies whose activities are not financial in nature if those investments are made for the purpose of appreciation and ultimate resale of the investment and we do not manage or operate the company. Such merchant banking investments may be subject to maximum holding periods and special record keeping and risk management requirements.

We believe that all of our existing activities and investments are permissible under the new legislation, but the OTS has not yet interpreted these provisions. Even if our existing activities and investments are permissible, we will be unable to pursue future activities that are not financial in nature. We are also limited in our ability to invest in other savings and loan holding companies.

In addition to regulation as a savings and loan holding company, the Bank is subject to extensive regulation of its activities and investments, capitalization, risk management policies and procedures and relationship with affiliated companies. In addition, as a condition to approving our acquisition of ETFC, the OTS imposed various notice and other requirements, primarily a requirement that the Bank obtain prior approval from the OTS of any

9

future material changes to the Bank's business plan. Acquisitions of and mergers with other financial institutions, purchases of deposits and loan portfolios, the establishment of new Bank subsidiaries and the commencement of new activities by Bank subsidiaries require the prior approval of the OTS. These regulations and conditions could place us at a competitive disadvantage in an environment in which consolidation within the financial services industry is prevalent. Also, these regulations and conditions could affect our ability to realize synergies from future acquisitions, could negatively affect both us and the Bank following the acquisition and could also delay or prevent the development, introduction and marketing of new products and services.

RISKS RELATING TO OWNING OUR STOCK

We have incurred losses in the past and we cannot assure you that we will be profitable

We have incurred operating losses in prior periods and we may do so in the future. We reported net losses of \$186.4 million in fiscal 2002, which includes a cumulative effect of accounting change of \$293.7 million, net losses of \$241.5 million in fiscal 2001, which includes pre-tax facility restructuring and other exit charges of \$202.8 million and net income of \$19.2 million in fiscal 2000. Although we achieved profitability in fiscal 2000 due in part to sales of investment securities, we cannot assure you that profitability will be achieved in future periods.

Our ratio of debt to equity may make it more difficult to make payments on our debts or to obtain financing

At December 31, 2002, we had an outstanding balance of \$695.3 million in convertible subordinated notes. Combined with the share buyback program through December 2002, and the cumulative effect of accounting change recorded in fiscal 2002, our ratio of debt (our convertible debt, capital lease obligations and term loans) to equity (expressed as a percentage) was 46.9% as of December 31, 2002. We may incur additional indebtedness in the future. The level of our indebtedness, among other things, could:

- make it more difficult to make payments on our debt;

Edgar Filing: E TRADE GROUP INC - Form S-3

make it more difficult or costly for us to obtain any necessary financing in the future for working capital, capital expenditures, debt service requirements or other purposes;
limit our flexibility in planning for or reacting to changes in our business; and
make us more vulnerable in the event of a downturn in our business.

The market price of our common stock may continue to be volatile

From January 1, 2001 through December 31, 2002, the price per share of our common stock has ranged from a high of \$15.38 to a low of \$2.81. The market price of our common stock has been, and is likely to continue to be, highly volatile and subject to wide fluctuations. In the past, volatility in the market price of a company's securities has often led to securities class action litigation. Such litigation could result in substantial costs to us and divert our attention and resources, which could harm our business. Declines in the market price of our common stock or failure of the market price to increase could also harm our ability to retain key employees, reduce our access to capital and otherwise harm our business.

We may need additional funds in the future which may not be available and which may result in dilution of the value of our common stock

In the future, we may need to raise additional funds, which may not be available on favorable terms, if at all. If adequate funds are not available on acceptable terms, we may be unable to fund our business growth plans. In addition, if funds are available, the issuance of securities could dilute the value of shares of our common stock and cause the market price to fall.

We have various mechanisms in place that may discourage takeover attempts

Certain provisions of our certificate of incorporation and bylaws may discourage, delay or prevent a third party from acquiring control of us in a merger, acquisition or similar transaction that a shareholder may consider favorable. Such provisions include:

authorization for the issuance of blank check preferred stock;

10

provision for a classified Board of Directors with staggered, three-year terms;

the prohibition of cumulative voting in the election of directors;

a super-majority voting requirement to effect business combinations or certain amendments to our certificate of incorporation and bylaws;

limits on the persons who may call special meetings of shareholders;

the prohibition of shareholder action by written consent; and

advance notice requirements for nominations to the Board of Directors or for proposing matters that can be acted on by shareholders at shareholder meetings.

Attempts to acquire control of E*TRADE may also be delayed or prevented by our shareholder rights plan, which is designed to enhance the ability of our Board of Directors to protect shareholders against unsolicited attempts to acquire control of E*TRADE that do not offer an adequate price to all shareholders or are otherwise not in the best interests of the company and our shareholders. In addition, certain provisions of our stock incentive plans, management retention and employment agreements (including severance payments and stock option acceleration), and Delaware law may also discourage, delay or prevent someone from acquiring or merging with us.

MARKET FOR OUR COMMON EQUITY

From the date of our initial public offering through January 2001, our common stock was listed on the Nasdaq National Market. In February 2001, we listed our shares on the NYSE. The following table shows the high and low sale prices of our common stock as reported by the Nasdaq or the NYSE, as applicable for the periods indicated:

	<u>High</u>	<u>Low</u>
Fiscal 2003:		
First Quarter (through April 30, 2003)	\$ 5.58	\$ 3.65

Fiscal 2002:		
First Quarter	\$ 12.64	\$ 7.61
Second Quarter	\$ 9.54	\$ 4.60
Third Quarter	\$ 5.47	\$ 2.81
Fourth Quarter	\$ 5.98	\$ 3.61

Fiscal 2001:		
First Quarter	\$ 15.38	\$ 6.35
Second Quarter	\$ 10.20	\$ 5.32
Third Quarter	\$ 6.82	\$ 4.07
Fourth Quarter	\$ 11.10	\$ 5.59

The closing sale price of our common stock as reported on the NYSE on April 30, 2003 was \$5.50 per share. As of March 20, 2003, there were 2,591 holders of record of our common stock.

DIVIDENDS

We have never declared or paid cash dividends on our capital stock. We currently intend to retain all of our earnings, if any, for use in the business and do not anticipate paying any cash dividends in the foreseeable future. The payment of any future dividends will be at the discretion of the our Board of Directors and will depend upon a number of factors, including future earnings, the success of our business activities, regulatory capital requirements, our general financial condition and future prospects, general business conditions and such other factors as the Board of Directors may deem relevant.

12

PLAN OF DISTRIBUTION

We are registering for resale all 1,288,784 shares of our common stock, par value of \$0.01 per share, on behalf of Tilden S. Engelman, Dale A. Schreiber, James E. Carney and Jerald G. Kallas, or pledgees, donees, transferees or other successors in interest that receive the shares as a gift, partnership distribution or other non-sale related transfer from the foregoing; such transferees together with the foregoing named individuals are referred to herein as the selling shareholders. We will receive no proceeds from this offering. All of the shares were originally issued by us in connection with our acquisition of Engelman Securities, Inc.

The selling shareholders may sell shares of common stock from time to time as follows (if at all):

- to or through underwriters, brokers or dealers;
- directly to one or more other purchasers;
- through agents on a best-efforts basis; or
- otherwise through a combination of any of these methods of sale.

If a selling shareholder sells shares of common stock through underwriters, dealers, brokers or agents, those underwriters, dealers, brokers or agents may receive compensation in the form of discounts, concessions or commissions from the selling shareholder and/or the purchasers of the shares of common stock.

The shares of common stock may be sold from time to time:

- in one or more transactions at a fixed price or prices, which may be changed;
- at market prices prevailing at the time of sale;

Edgar Filing: E TRADE GROUP INC - Form S-3

- at prices related to prevailing market prices;
- at varying prices determined at the time of sale; or
- at negotiated prices.

These sales may be effected in transactions:

- on any national securities exchange or quotation service on which our common stock may be listed or quoted at the time of sale;
- in the over-the-counter market;
- in block transactions in which the broker or dealer so engaged will attempt to sell the shares of common stock as agent but may position and resell a portion of the block as principal to facilitate the transaction, or in crosses, in which the same broker acts as an agent on both sides of the trade;
- in transactions otherwise than on exchanges or services or in the over-the-counter market;
- through the writing of options; or
- through other types of transactions.

In connection with sales of common stock or otherwise, the selling shareholders may enter into hedging transactions with broker-dealers or others, who may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling shareholders may pledge or grant a security interest in some or all of the common stock and, if it defaults in the performance of its secured obligations, the pledgees or secured parties may offer and sell the common stock from time to time pursuant to this prospectus. The selling

13

shareholders also may transfer and donate shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling shareholders for purposes of this prospectus. The selling shareholders may sell short the common stock and may deliver this prospectus in connection with short sales and use the shares of common stock covered by the prospectus to cover these short sales. In addition, any shares of common stock covered by this prospectus that qualify for sale pursuant to Rule 144 or any other available exemption from registration under the Securities Act may be sold under Rule 144 or another available exemption.

The selling shareholders agreed that if at any time before December 17, 2007, any selling shareholder or shareholders propose to sell or otherwise transfer an aggregate of 25,000 or more of the shares of common stock in any 30 day period, such selling shareholder or shareholders must first provide us with an opportunity to purchase some or all of these shares at the proposed price, or if no price has been negotiated, at the market price, provided that such selling shareholder or shareholders may only sell for cash consideration. In addition, the selling shareholders have agreed that if any selling shareholder or shareholders propose during this five year period to sell or otherwise transfer to any person in a privately negotiated transaction either an aggregate of 250,000 or more of the shares of common stock, or in one or a related series of transactions in any 90 day period an aggregate of 250,000 or more of the shares of common stock, the sale or other transfer will be subject to our prior written approval.

The selling shareholders have agreed that, subject to certain exceptions described below, without our prior written consent, during the period prior to December 31, 2003, they will not, directly or indirectly, issue, sell, offer or agree to sell, grant any option for the sale of, pledge, make any short sale or maintain any short position, establish or maintain a put equivalent position (within the meaning of Rule 16a-1(h) under the Exchange Act of 1934), enter into any swap, derivative transaction or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the shares of common stock (whether any such transaction is to be settled by delivery of shares of common stock, other securities, cash or other consideration), or otherwise dispose of, any shares of common stock (or any securities convertible into, exercisable for or exchangeable for shares of common stock) or interest therein of us or of any of our subsidiaries. The foregoing restrictions have lapsed with respect to 386,635 of the shares offered by this prospectus, and will lapse as to an additional 386,635 of the shares offered by this prospectus on the date the registration statement of which this prospectus forms a part is declared effective. Subject to certain exceptions described below, the resale restrictions will lapse with respect to the final 515,514 shares offered by this prospectus on December 31, 2003.

Each of the selling shareholders has also agreed to abide by our internal written trading policies as if such selling shareholder was specifically named in such policies and without regard to whether such selling shareholder is an employee or another class of person named in such policies until December 17, 2004, and thereafter while that selling shareholder remains an employee or another class of person named in such policies. Each selling shareholder has agreed that any sales of the shares of common stock shall be conducted through us or through one of

Edgar Filing: E TRADE GROUP INC - Form S-3

our registered broker-dealer affiliates, provided the costs and terms of conducting the sales are the same as offered to other institutional investors for similar transactions and are competitive with those offered by agency broker-dealers unaffiliated with any selling shareholder, or through a broker-dealer approved by us.

At the time a particular offering of shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any underwriters, dealers, brokers or agents, if any, and any discounts, commissions or concessions allowed or reallocated to be paid to brokers or dealers. To our knowledge, except as disclosed in this prospectus there are currently no other agreements, arrangements or understandings with respect to the sale of any of the shares offered hereby.

The selling shareholders and any underwriters, dealers, brokers or agents who participate in the distribution of the shares of common stock may be deemed to be underwriters within the meaning of the Securities Act and any profits on the sale of the shares of common stock by them and any discounts commissions or concessions received by any underwriters, dealers, brokers or agents may be deemed to be underwriting discounts and commissions under the Securities Act.

In the event of any offering of the securities offered hereby, underwriting discounts and commissions received by any NASD member or independent broker-dealer on securities sold in any distribution will not exceed 8% of the offering proceeds.

The selling shareholders and any other person participating in a distribution of the shares of common stock will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, referred to in this

14

prospectus as the Exchange Act, and the rules and regulations under the Exchange Act, including, without limitation, Regulation M which may limit the timing of purchases and sales of shares of common stock by the selling shareholders and any other person participating in the distribution. Furthermore, Regulation M under the Exchange Act may restrict the ability of any person engaged in a distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock being distributed for a period of up to five business days prior to the commencement of the distribution. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

The selling shareholders will be responsible for any fees and expenses of any counsel or other advisor for the selling shareholders. All other expenses incurred in connection with the registration of the shares, including printer's and accounting fees and the fees, disbursements and expenses of our counsel will be borne by us. Commissions, brokerage fees and discounts, if any, attributable to the sales of the shares of common stock will be borne by the selling shareholders. The selling shareholders may agree to indemnify any broker-dealer or agent that participates in transactions involving sales of the shares of common stock against certain liabilities, including liabilities arising under the Securities Act. We and the selling shareholders will be indemnified by the other against certain liabilities under the Securities Act.

Because we are an affiliate of E*TRADE Securities, sales of the shares of common stock under the registration statement of which this prospectus forms a part may be subject to the applicable provisions of Rule 2720 of the National Association of Securities Dealers Rules of Conduct. Because a bona fide independent market exists for the shares of common stock, no qualified independent underwriter is required or will be appointed as a result of our affiliation with E*TRADE Securities.

We have undertaken to keep the registration statement of which this prospectus constitutes a part effective until the earlier of (1) two years after the date this registration statement is declared effective by the SEC, and (2) the date when all shares of common stock offered by this prospectus have been disposed of. After this period, if we choose not to maintain the effectiveness of the registration statement of which this prospectus constitutes a part, the securities offered hereby may not be sold, pledged, transferred or assigned, except in a transaction which is exempt under the provisions of the Securities Act.

15

SELLING SHAREHOLDERS

We are registering the sale of the shares of common stock offered hereby on behalf of the selling shareholders. The following table sets forth the number and percentage of our shares of common stock owned by the selling shareholders, and the number and percentage of our shares of common stock that will be owned assuming the sale of all the shares offered hereby:

Edgar Filing: E TRADE GROUP INC - Form S-3

Name of Selling Shareholder	Number of Shares of Common Stock Beneficially Owned	Percentage of Common Stock Beneficially Owned(1)	Number of Shares of Common Stock Beneficially Owned After Offering(2)	Percentage of Common Stock Beneficially Owned After Offering(2)
Tilden S. Engelman	322,196	--	--	--
Dale A. Schreiber	322,196	--	--	--
James E. Carney	322,196	--	--	--
Jerald G. Kallas	322,196	--	--	--
Other holders or future transferees, pledgees, donees or successors of any holders (3)	--	--	--	--
Total	1,288,784	--	--	--

(1) The selling shareholders as a group beneficially own less than 1% of our outstanding common stock.

(2) Assumes the sale of all the shares offered hereby.

(3) Information about other selling shareholders will be set forth in prospectus supplements, if required. Assumes that any other holders of the shares, or any future transferees, pledgees, donees or successors of or from any such other holders of shares, do not beneficially own any common stock other than the shares.

We prepared this table based on the information supplied to us by the selling shareholders named in the table and we have not sought to verify this information. The selling shareholders listed in the above table may have sold or transferred, in transactions exempt from the registration requirements of the Securities Act, some or all of their shares of common stock since the date on which the information in the above table is presented. Information about the selling shareholders may change over time. Any changed information will be set forth in supplements or amendments to this prospectus if and when necessary.

AVAILABLE INFORMATION

We are subject to the informational requirements of the Exchange Act, and in accordance with the Exchange Act file reports, proxy statements, information statements and other information with the SEC. Reports, proxy statements and other information filed by us may be inspected and copied at the public reference facilities maintained by the SEC at 450 Fifth Street, N.W., Washington, D.C. 20549, and you may obtain information about the operation of these public reference facilities by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet web site that contains reports, proxy and information statements and other information regarding registrants that file electronically with the SEC. The address of the SEC's web site is <http://www.sec.gov>.

We have filed with the SEC a registration statement on Form S-3 under the Securities Act with respect to the shares of common stock offered by this prospectus, referred to in this prospectus, together with all amendments and exhibits thereto, as the Registration Statement. This prospectus does not contain all of the information set forth in the registration statement, certain parts of which are omitted in accordance with the rules and regulations of the SEC. For further information regarding us and the shares of common stock offered by this prospectus, reference is hereby made to the registration statement and to the exhibits and schedules filed with the registration statement. The Registration Statement, including the exhibits and schedules filed with the Registration Statement, may be inspected at the public reference facilities maintained by the SEC at Room 450, Fifth Street, N.W., Washington, D.C. 20549 and copies of all or any part may be obtained from that office upon payment of the prescribed fees.

LEGAL MATTERS

The validity of the securities offered by this prospectus will be passed upon for us by Davis Polk & Wardwell, Menlo Park, California.

EXPERTS

The consolidated financial statements of E*TRADE Group, Inc. and its consolidated subsidiaries as of December 31, 2002 and 2001 and for the years ended December 31, 2002 and 2001, the three months ended December 31, 2000 and the year ended September 30, 2000, incorporated by reference in this prospectus have been audited by Deloitte & Touche LLP, independent auditors, except for E*TRADE Financial Corporation and subsidiaries for the year ended September 30, 2000, as stated in their report which is incorporated herein by reference and have been so incorporated by reference in reliance upon the report of such firm given upon their authority as experts in accounting and auditing.

For the year ended September 30, 2000, the independent public accountant for E*TRADE Financial Corporation was Arthur Andersen LLP, and as a result, the consolidated financial statements of E*TRADE Financial Corporation and subsidiaries, which are consolidated with those of E*TRADE Group, Inc. and its consolidated subsidiaries not presented separately herein, have been audited by Arthur Andersen LLP. The consolidated financial statements of the E*TRADE Group, Inc. and its consolidated subsidiaries are incorporated in this prospectus by reference in reliance in part upon the report of Arthur Andersen given upon their authority as experts in accounting and auditing.

On March 14, 2002, Arthur Andersen was indicted on federal obstruction of justice charges arising from the government's investigation of Enron Corporation. SEC rules require us to present audited financial statements in various SEC filings, along with Arthur Andersen's consent to our inclusion of its audit report in those filings. Because our engagement partner and audit partner have left Arthur Andersen, we have not been able to obtain, after reasonable efforts, the written consent of Arthur Andersen to our naming it in this prospectus as having certified the applicable consolidated financial statements of E*TRADE Financial Corporation and its subsidiaries, as required by Section 7 of the Securities Act. Section 11(a) of the Securities Act, provides that if any part of a registration statement at the time such part becomes effective contains an untrue statement of a material fact or an omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, any person acquiring a security pursuant to such registration statement (unless it is proved that at the time of such acquisition such person knew of such untruth or omission) may sue, among others, every accountant who has consented to be named as having

prepared or certified any part of the registration statement, or as having prepared or certified any report or valuation which is used in connection with the registration statement, with respect to the statement in such registration statement, report or valuation which purports to have been prepared or certified by the accountant. The SEC has provided regulatory relief through Rule 437a under the Securities Act designed to allow companies that file reports with the SEC to dispense with the requirement to file a consent of Arthur Andersen in certain circumstances, but you will not be able to sue Arthur Andersen pursuant to Section 11(a) of the Securities Act and therefore your right of recovery under that section may be limited as a result of the lack of consent. To the extent provided in Section 11(b)(3)(C) of the Securities Act, however, other persons who are liable under Section 11(a) of the Securities Act, including our officers and directors, may still rely on Arthur Andersen's original audit reports as being made by an expert for purposes of establishing a due diligence defense under Section 11(b) of the Securities Act.

PART II
INFORMATION NOT REQUIRED IN PROSPECTUS

Item 14. Other Expenses of Issuance and Distribution

The following table sets forth the costs and expenses, other than underwriting discounts and commissions, payable by E*TRADE Group, Inc. in connection with the sale of common stock being registered. All amounts are estimates except the SEC registration fee and NASD filing fee.

SEC Registration Fee	\$ 521.31
NASD Filing Fee	\$ 1,144.39
Legal Fees and Expenses*	\$ 10,500.00
Accounting Fees and Expenses	\$ 15,000.00
Miscellaneous	\$ 5,000.00
	<hr/>
Total	\$ 32,165.70

* Only represents fees to be paid by the registrant, selling shareholders will pay their own legal fees.

Item 15. Indemnification of Directors and Officers

Article Tenth of the registrant's Certificate of Incorporation, as amended, provides that, to the fullest extent permitted by the Delaware General Corporation Law (the "DGCL"), as the same exists or as it may hereafter be amended, as described below, no director of the registrant shall be personally liable to the registrant or its shareholders for monetary damages for breach of fiduciary duty as a director.

Article 5 of the registrant's Bylaws further provides that the registrant shall, to the maximum extent and in the manner permitted by the DGCL, as described below, indemnify each of its directors and officers against expenses (including attorneys' fees), judgments, fines, settlements and other amounts actually and reasonably incurred in connection with any proceeding, arising by reason of the fact that such person is or was an agent of the registrant.

In addition, the registrant has entered into indemnification agreements with each of its directors and executive officers, and maintains officers' and directors' liability insurance.

Subsection (a) of Section 145 of the DGCL empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

Subsection (b) of Section 145 of the DGCL empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect to any claim issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

II-1

Section 145 of the DGCL further provides that to the extent a director or officer of a corporation has been successful on the merits or otherwise in the defense of any such action, suit or proceeding referred to in subsections (a) and (b) of Section 145 or in the defense of any

Edgar Filing: E TRADE GROUP INC - Form S-3

claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith; that the indemnification provided for by Section 145 shall not be deemed exclusive of any other rights which the indemnified party may be entitled to; that indemnification provided by Section 145 shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of such person's heirs, executors and administrators; and empowers the corporation to purchase and maintain insurance on behalf of a director or officer of the corporation against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liabilities under Section 145.

Section 102(b)(7) of the DGCL provides that a certificate of incorporation may contain a provision eliminating or limiting the personal liability of a director to the corporation or its shareholders for monetary damages for breach of fiduciary duty as a director, provided that such provision shall not eliminate or limit the liability of the director (i) for any breach of the director's duty of loyalty to the corporation or its shareholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL or (iv) for any transaction from which the director derived an improper personal benefit.

Item 17. Undertakings

The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement to include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement;

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act of 1934 that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a

II-2

director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
