Item 2 (proposed by the Board of Directors)

Proposal: Please ratify the Company's 2006 proposal for earnings distribution.

Explanation: The Board of Directors has drafted the Company's 2006 proposal for surplus distribution as shown in the table below in accordance with The Company Act and the Company's Articles of Incorporation for your ratification.

Advanced Semiconductor Engineering, Inc.
2006 Surplus Distribution Proposal

Unit: NT\$

Items	Amount
Amount available for distribution	
1. Accumulated losses from the previous year	\$ (431,107,030)
Plus net profit for this year	17,416,150,709
Total:	\$ 16,985,043,709
Items for distribution:	
1. Appropriation of legally earned surplus reserve	\$ 1,698,504,368
2. Appropriation of remuneration for directors and supervisors	300,000,000
3. Appropriation of employee bonus (Note 1)	1,070,057,000
4. Distribution of shareholders' bonus (Note 2)	13,882,021,422
5. Undistributed earnings carried over to next fiscal year	34,460,889
Total	\$ 16,985,043,679

Note 1: Of the NT\$1,070,057,000 employee bonus appropriated this time, NT\$535,028,500 was distributed in cash and the remaining NT\$535,028,500 was distributed in stocks, processing for issuance of 53,502,850 new shares for capital increase by employee bonus.

Note 2: The shareholders' bonus distributed this time totaled NT\$13,882,021,422, NT\$3 per share, of which NT\$6,941,010,712 was distributed in cash, cash dividend of NT\$1.5 per share and the remaining NT\$6,941,010,712 was distributed in stocks, i.e., 150 shares of stock dividend as gratuitous surplus-turned capital increase for each 1,000 shares held. With respect to the above-mentioned cash dividend rate and stock dividend rate, the calculation was based on the 4,627,340,475 shares registered in the roster of shareholders as of March 20, 2007. Later, if the Company's ECB holders

exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate and stock distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentiarily and make the adjustment accordingly.

Matters for Discussions

Item 1 (Proposed by the Board of Directors)

Proposal: Please discuss the issue of issuance of new shares for capital increase by surplus and employee bonus.

- Explanation: 1. In conjunction with the plant expansion plan, the Company contemplates to use the shareholders' bonus of NT\$6,941,010,710 and employee bonus of NT\$535,028,500, totaling NT\$7,476,039,210 due for distribution in 2006 for capital increase of 747,603,921 shares at NT\$10 par value.
2. Method of distribution of new shares: 150 shares of stock dividend as gratuitous surplus-turned capital increase for each 1,000 shares held registered on the roster of shareholders as of March 20, 2007. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate and stock distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentially and make the adjustment accordingly. Shareholders are advised to consolidate the odd share of less than one share to make up one share by their own means for registration within 5 days as of the base date for distribution of new shares. Where the insufficient and inadequate part will be paid in cash by the par value. The board of directors has authorized the chairman to assign a specific person to purchase odd shares of less than one share. In addition, distribution of new shares for employee bonus-turned capital increase, the Company's by laws and the Company's Measures Concerning Distribution of Employee Bonus shall govern.
3. The rights and obligations of new shares shall be equal to the older ones.
4. Ex-rights base date: It shall be set separately, pending resolution passed by the shareholders' meeting and approval by the competent regulatory authority.
5. The plant expansion plan by the capital increase of this time shall be completed by December 2010. Implementation of such plan is expected to enhance the Company's competitiveness, elevate the benefit of operation efficiency and is passively beneficial to the shareholders' equity. If the competent regulatory authority deems it necessary to change any of the various items set for this capital increase case, or changes must be made to meet the objective environment, the board of directors is authorized to act at its discretion.

Resolution:

Item 2 (Proposed by the Board of Directors)

Proposal: To meet the requirements for larger production capacity in future the Company

- 7 -

needs to enrich its operation capital in order to repay bank loans or the needs for other long-term development use, thereby enabling the fund-raising channels more diversified and flexible. As such, the shareholders' meeting is requested to authorize the board of directors to opt at the optimal time, depending on the market situation and the status of capital needs of the Company and in accordance with existing laws and regulations, for capital increase in cash by issuing common shares or joining the issuance of GDR (Global depository receipts) or domestic capital increase in cash or issuance of domestic or ECB to raise fund. The case is being presented for discussions.

Explanation: 1.

The principles to authorize the board of directors to issue new common shares and GDR for capital increase in cash shall be as follows:

1.1 Issuance of common shares in the form GDR for capital increase in cash shall be limited to 500,000,000 shares only. The shareholders' meeting shall authorize the board of directors and the chairman of the board to make the adjustment by the market condition and issue the authorized GDR's all at once.

1.2 In conducting issuance of new shares in the form of GDR for capital increase in cash, the issuance price shall be by the rules set forth in the Self-discipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process, i.e., the issuance price shall not be lower than the closing price of the Company's common stock at the domestic open market. Take the simple arithmetic mean of the closing price of the common share on the first, third and fifth day prior to the price-setting day, minus 90% of the average stock price after gratuitous ex-rights and ex-interest, then comes the price for the new issue. However, the price-setting method may be duly adjusted if related domestic laws and regulations are updated. Since the stock price at home has often experience drastic volatility in the short run, the chairman of the board is authorized to set the actual issuance price within the above-mentioned price range, after having consulted with underwriter taking into consideration the international general practice, international capital market, domestic market price, the overall subscription status so as to make the offering price attractive to overseas investors. Consequently, the price-setting method should be reasonable. Additionally, the deciding method for the issuance price of GDR is based on the fair trading price of common shares at the domestic open market whereas the original stockholder may purchase the common shares at domestic stock exchange at the price close to the issuance price of the GDR, without bearing the exchange rate risk and liquidity risk. Moreover, the tranche of issuance of new shares and GRD for capital increase in cash do not affect much of the shareholders' equity as the highest dilution ratio in relation to the original shareholders' equity stands only at 10.81%.

1.3 10% of common shares issued for capital increase in cash shall, according to Article 267 of The Company Act, be reserved for subscription by company employees and the remaining 90% will be

fully appropriated for open issuance as the securities for GDR as the original shareholders have waived their rights for subscription in accordance with Article 28-1 of the Securities Trading Act. For the part that employees have not subscribed, the chairman of the board is authorized to contact specific party for purchase or, depending on the market requirements, list as the original securities for participation in the issuance of GDR.

1.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

1.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, source of capital, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

1.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to proceed with matters related to issuance of new shares.

1.7 If the agreement on issuance time, issuance condition, issuance volume, issuance amount of capital increase in cash and participation in issuance of GDR as well as other matters related to capital increase in cash and participation in issuance of GDR needs update in future due to the decision by the competent regulatory authority and on the basis of operation evaluation, or the needs of objective environment, the board of directors shall be authorized to handle at its full discretion.

1.8 In conjunction with the issuance method of common shares for capital increase in cash and participation in GDR issuance, the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the participation in the issuance of GDR as well as handling all needed matters related to the participation in the issuance of GDR.

1.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

2. The principles to authorize the board of directors to conduct capital increase in cash at home shall be as follows:

2.1 Number of new shares issued for capital increase in cash shall not be in excess of 500,000,000 shares.

2.2 The par value of the new shares for capital increase in cash shall be NT\$10 each. Actual issuance price shall be by related rules set forth in the Self-discipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process and the market condition at the time of issuance. The chairman of the board and the underwriter may reach an agreement on the issuance in consideration of all the conditions mentioned above, which shall be subject to the approval by the competent regulatory authority before the issuance.

2.3 The issuance method of new shares for the capital increase in cash shall be by price enquiry and selected purchase. With the exception of 10%-15% reserved for employees as required by Article 267 of The Company Act, the rest will be offered for public issuance as all original shareholders have waived

their rights to subscribe according to Article 28-1 of the Securities Trading Act. In addition, if the Company's employees have not subscribed sufficiently and adequately or waived the right to subscribe, the chairman may contact specific party for purchase.

2.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

2.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

2.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to set the base date for capital increase.

2.7 With respect to the manner of issuance as mentioned in Section 2.3 above, the board of directors is authorized to make the amendment at its full discretion if amendment becomes necessary due to update of laws or regulations or the objective environment dictates the amendment.

2.8 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

3. The principles to authorize the board of directors to conduct capital increase in cash by issuance of convertible corporate bond at home and ECB overseas:

3.1 Estimated number of shares for conversion: Not to exceed the number of shares registered in the application for update of the Company's profit-seeking registration card.

3.2 Time of issuance: It depends on the capital needs by the Company and the market condition.

3.3 Interest rate: In principle, it shall be by the market interest rate then prevailing in the marketplace and reasonable, if possible.

3.4 Issuance duration: It depends on the capital needs by the Company

3.5 Issuance condition: Subject to negotiation with the lead underwriter and existing laws and regulations.

3.6 The proceeds from subscriptions to the domestic convertible corporate bond and ECB overseas shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

3.7 The board of directors is authorized to set the issuance measures, amount of fund raised, plan items, estimated progress as well as estimated probable effect generated.

3.8 In conjunction with the issuance of the convertible corporate bond the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the issuance of the convertible corporate bond as well as handling all needed matters related to the issuance of the convertible corporate bond.

3.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

Resolution:

Item 3 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Procedure for Acquisition or Disposal of Assets.

Explanation: 1.

In conjunction with the implementation of Communique #34 for Financial and Accounting Guidance and for consideration of the Company's business growth, increased expenditure of business volume and foreign currency position which requires a larger hedge position, it has become inappropriate to operate by the tranche of the net value as stated in the financial statement. In order to meet the actual needs, the Company's board of directors had passed a resolution on December 21, 2006 to revise Article 18 of the Company's Procedure for Acquisition or Disposal of Assets.

2.

In compliance with the revised Guidelines for Handling Acquisition or Disposition of Assets by Public Companies announced by Financial Supervisory Commission, Executive Yuan on January 19, 2007, the Company's board of directors passed a resolution on March 29, 2007 to revise part of the provisions of the Company's Handling Procedure for Acquisition or Disposal of Assets.

3.

For details of the table of comparison of the revised provisions of the Procedure for Acquisition or Disposal of Assets, please refer to Attachment V to this Agenda Manual. Your consent is solicited.

Resolution:

Item 4 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Articles of Incorporation.

- Explanation:**
1. In order to meet the operation needs of the Company, part of the provisions of the Company's Articles of Incorporation are suggested for revision.
 2. Please refer to Attachment VI for the table of comparison of the revised Articles of Incorporation.:

Business Report

As we look back over 2006, it is very apparent that the packaging industry continued the growth trend which started in 2005, steadily growing over the course of the year. The testing industry, however, experienced massive growth in 2006 compared to 2005, thanks in short to the tremendous demand that supply was unable to meet in full. In short, the production value of the packaging industry in Taiwan grossed NT\$210.8 billion, or an 18.4% growth over 2005 while the production value of the testing industry netted NT\$92.4 billion, showing a massive growth of 36.9% over 2005. In recent years, globalization has increasingly become an international economic trend, driving businesses to focus on the needs of their global customers while quickly responding to volatile market dynamics. In order to meet emerging market trends of the global electronic industry, we have put in place major initiatives, which aim to aggressively expand our operational territory while building up our international competitiveness. Such initiatives are key to ASE's continued market leadership, enabling the company to further pull away from our competitors. The following is our report on the company's operation for the past year:

Operation results of 2006

1. Implementation results of business plan for 2006

The Company's consolidated net revenue in 2006 stood at NT\$100.4 billion, an increase of NT\$16.4 billion, or close to 20% growth compared to 2005.

In anticipation of increasing demand for DRAM connected with the launch of the Microsoft's Vista, we joined hands in 2006 with Powerchip Semiconductor Corp. to form Power ASE Technology, stepping into the DDR2 packaging market and enhancing our existing package portfolio. In another major move, we also spun out the packaging materials business of the group, and established the independently operated ASE Electronics, Inc. These two entities remain under the ASE Group umbrella, meeting emerging market needs and trends. Additionally, we successfully applied to appropriate government regulatory agencies for the acquisition of Global Advanced Packaging Technology on Mainland China, becoming the first approved Taiwan-based firm to engage in low-end IC packaging and testing in China. It is an exciting time for ASE, with the company making forays into new markets, and successfully striving to meet the many opportunities and challenges which globalization and the digital economy present.

2. Status of budget implementation

In 2006, the Company made no open financial forecast.

3. Financial revenue and expenditure and analysis of profitability

Until the end of 2006, the Company's paid-in capital stood at NT\$45,925,086 thousands, shareholders' equity at NT\$66,019,899 thousands, accounting for 65% of the total assets of NT\$100,852,040 thousands while the ratio of long-term capital accounted for 246% of the fixed assets and current ratio was 131%. In other words, the financial structure and credit standing of the Company for this year have obviously improved compared to the last term. The after-tax net profit and operating benefit were NT\$17,416,151 thousands and NT\$12,577,064 thousands respectively. In short, performance of the overall operating results and profitability was far better than the previous term.

4. Status of research and development

ASE has an extremely talented and highly-dedicated R&D team, completely focused on creating the best possible packaging and test solutions. Over the past year, System-in-Package (SiP) has increasingly become the advanced configuration of choice, especially for customers looking for thinner, smaller and high-performance packages. The team is also focused on the development of integration solutions of various positive and passive components, sensors and actuators. The R&D continues to see good progress, specifically related to some new technologies successfully developed in 2006. These include RDL electroplated thick copper technology, DDR2 800 packaging and testing project, 65 nano Cu manufacturing process/lead-free flip chip packaging and welding wire packaging of ultra-low dielectric coefficient wafer, low-temperature PI manufacturing process technology, flip chip and blended welding wire stack technology, 2-layer stack chip scale packaging, lead frame flip chip QFN and external leadless Map PoP stack technology. Given the strong demand for PC, communications and consumer electronic products, the Company continues to contribute to the R&D of related equipment and advanced packaging and testing technologies such as flip chip, BGA, CSP and SiP, in order to maintain our global leading position in the industry.

Overview of operation plan for 2007

1. Operation guidelines

To provide our customers extremely high quality service;

To create long-term and steady profit for both the company and customers;

To jointly create promising future with our contractors;

To train employees to become leaders of the particular field they are hired for;

To treat our employees fairly and squarely;

To provide our employees a working environment featured by "harmony, pleasantness and openness"; and

To maintain flexibility as much as we can in routine operation.

2. Estimated sales volume and basis for the estimate

Based on the overall economic condition, future market need, and the production capacity of the Company, we estimate our 2007 sales as follows:

Sales Items	Estimated Sales Volume
Packaging	Approx. 4.9 billion pcs
Testing	Approx. 800 million pcs

3. Important production and marketing policy

In recent years, most 3C electronic product components have relied on high-end packaging. In the circumstances where global expansion of high-end packaging production capacity is limited, we estimate that the packaging and testing market uptick could last all the way to 2008. According to an IEK report focused on 2006 IC production value of Taiwan, the macro direction of continuous growth in 2007 remains unchanged, judging by the overall packaging and testing industry at present. With the approach of 2008 Olympics, it is estimated that related demand will not abate and, as such, growth of the packaging and testing industry in the immediate two years could be very promising.

Company's Future development strategy

According to statistics released by iSuppli, global sales of semiconductor in 2007 will see 10.6% growth compared to 2006, grossing from US\$258.5 billion to US\$285.8 billion. The future of the semiconductor industry looks promising for ASE, primarily due to the steady market for electronic equipment and the steady average selling price for chips. The strongest growth sectors are estimated to include data processing, radio communications, and consumer electronic products. iSuppli forecasts that the sale growth of semiconductor will slow down to 8.7% in 2008, reaching the bottom of 3.7% in 2009 and bouncing back to 7.4% in 2010. This trend of mild cyclic fluctuation reflects that the momentum of the semiconductor industry has changed as the average growth rate of the semiconductor industry has continued to drop in the past decade until it stabilized at 7-9%.

In this respect, we are glad to say that this Company fully embraced 2007, and all that it offers We have strengthened our structure to respond to the ever-changing global environment and positioned ourselves in the packaging and testing industry.

Impact brought upon by external competitive environment, law enforcement environment and economic environment

Going forward, ASE has strategically positioned itself to aggressively and effectively meet the demands and challenges presented by the advent of globalization. With the exception of few giant chip makers, the size of other semiconductor makers is relatively small. We estimate that M&As will become a natural trend for the industry in the near future. ASE will continue review any interested parties, as the Company understands that the global integration for the semiconductor industry will accelerate the growth and expansion of our company so that we may expect to create even higher profit for our shareholders, thus realizing the consistent goal and expectation of the management team.

1. These Rules are specially set in accordance with Article 2 of the Regulations Governing Official Business Rules on Discussions by the Board of Directors for Public Companies in order to establish the Company's fine board governance system, sound and supervisory functions and intensify management mechanism.

2. The official rules on discussion by the Company's board of directors primarily include contents of discussions, operation procedure, and minutes of discussions where items, announcement and other matters to be adhered to will be entered. In all, they should be carried out according to these Official Business Rules.

3. The Company's board of directors should at least meet once in each and every quarter.

Convention of the board meeting should state the main content, and notify each and every director and supervisor 7 days in advance. In case of emergency, the board meeting may be convened at any time.

Matters listed under Article 12(1) of the Rules hereof shall, unless in case of emergency and with proper cause, be listed in the main content of the notice and shall not be proposed as extempore motion.

4. The Company's board of director's designated business discussion unit is Finance Division.

The business discussion unit should draw up contents of the board meeting and provide sufficient and adequate information for delivery to all concerned at the time of sending the notice for convention.

If any of the directors believes that the meeting information is not adequate, the director may request the business discussion unit to make the supplement. In case director believes that the information on the agenda is not sufficient, the board of director may resolute to postpone review of the agenda.

5. When the boarding meeting is convened, there should be the sign-in book for the attending directors to sign so as to serve as future reference.

Directors are required to attend the boarding in person. If any director is unable to attend in person, he/she may, in accordance with the established company rules, consign other director to be present on his/her behalf. If a director attends the board meeting via videoconferencing, it shall be deemed present in person.

When a director consigns other director to attend the board meeting, the director is required to issue a proxy each time, stating therein the scope of authorization.

The agent of the above-mentioned two items shall be limited to one proxy by one person only.

6. The venue and time of the board meeting shall be where the Company is located during office hours or at venue and time convenient to directors.

7. The Company's board meeting shall be convened by the chairman of the board who will serve as the chair of the meeting. However, the first board meeting of each term, the

- 18 -

director who has garnered the most votes in the shareholders' meeting will chair the board meeting. When there are two or more directors who have the right to convene the board meeting, they should select from among them one to be the chair.

In case the chairman of the board is on leave or is unable to exercise the official function for whatever the reason, the vice chairman may act to be the acting chair. If the vice chairman is also on leave or is unable to exercise the official function for whatever the reason, the chairman of the board may designate one director to act. Where the chairman has failed to designate the agent, the directors may select one director from among them to act.

8. When the Company's board meeting is in progress, the Finance Division should prepare related information for the attending directors to check from time to time.

When the boarding meeting is convened, managers of concerned departments who do not serve as the director should, depending on actual situation, be present at the meeting. When necessary, CPAs, attorneys or other professionals should be invited to attend.

The chairman of the board should declare opening of the meeting if the quorum of one-half of directors are present when the meeting time is due. If the quorum has not reached when the meeting time is due, the chairman may declare postponement of the meeting and the number of times for postponement is limited to twice only. The total time of postponement shall not be in excess of one hour and, if after two times of postponement, the quorum remains unfilled, the chairman may in accordance with the procedure specified in Article 3(2) of the Rules hereof declare reconvening of the meeting.

9. The process of the Company's board meeting should be fully videorecorded for file, which shall be kept at least for 5 years. The storage manner may be in electronic form.

The above rule will not apply prior to the expiry of the storage deadline if related issue the board has resolved involves litigation, in which case the related video tapes and information should be kept on file continuously.

Where the meeting is convened in the form of videoconferencing, the meeting recording and video tape shall be deemed as part of the meeting minutes and should be kept on file permanently.

10. Contents of agent of the Company's regular board meeting should at least contain the following matters:

- | | |
|--------|---|
| 10.1 | Reports on: |
| 10.1.1 | Meeting minutes of last meeting and status of implementation. |
| 10.1.2 | Important financial business report. |
| 10.1.3 | Internal audit business report. |
| 10.1.4 | Other important reports. |
| 10.2 | Discussions |
| 10.2.1 | Matters of discussions reserved from last meeting. |
| 10.2.2 | Matters of discussions scheduled for last meeting. |

11.

The Company's board meeting should proceed in accordance with the scheduled contents of business discussion. However, the agenda may be changed with the consent of more than half of the directors present at the meeting.

Unless with the consent of more than half of the directors present at the meeting, the chair of the meeting shall not unilaterally declare meeting ended should there be unfinished discussions of the above-mentioned contents of business discussion and extempore motions.

In the course of the board meeting, if the attending directors at the meeting are less than half of the directors, the chair may, following motion by attending director, announce temporary recession and Article 8(3) shall govern.

12. The following matters shall be brought up to the board meeting for discussions:

12.1 The Company's operation plan.

12.2 Annual financial report and semi-annual financial report.

12.3 Internal control system stipulated or revised according to Article 14-1 of the Securities Trading Act, hereinafter STA.

12.4 Disposal procedure for major financial business such as acquisition or disposal of assets, transactions of derivative products, capital loan out to other party, endorsement or guarantee for other party stipulated or revised in accordance with Article 36-1 of the STA.

12.5 Collection, issuance or by private placement of securities with the nature of share ownership.

12.6 Appointment or dismissal of financial, accounting or internal auditing executives.

12.7 Matters that should be resolved by the shareholders' meeting or brought upon the board of directors in accordance with Article 14-3 of the STA or by other ordinance or laws or regulations or major matters the competent regulatory authority has stipulated.

Matters that independent director submits to the board meeting in accordance with Article 14-3 of the STA requires personal appearance of the independent director before the board and should not be done by other non-independent director. If the independent director has any differing or reserved opinion, it should be clearly entered into the meeting minutes. If the independent director is unable to attend the meeting to personally express the differing or reserved opinion, unless with proper cause, it should be submitted in advance in writing, which should be entered into the meeting minutes.

13. When the chair deems the motion being discussed has reached the state for voting, he/she may announce stop of discussions and bring the case for voting.

When the voting of a motion is being taken, it shall be deemed passed if there is no objection from the attending directors once the chair has made the enquiry, which shall have the same effect as does the voting. If, however, there is objection, the case should resort to voting.

The chair may choose one of the following methods to decide the manner of voting. If there are objections, the voting shall be decided by the opinion of the majority:

13.1 Vote by raising one's hands.

13.2 Vote by casting the ballot.

14.

Unless stipulated by the STA or The Company Act, resolutions of motions by the Company's board of directors require presence of over half of the directors and consent of half of the directors present at the meeting.

If there is revision and alternative for the same motion, the chair should combine the original case and vote for the sequence of order. However, if one of them has passed, the other one shall be deemed as veto, requiring no more voting.

Where it is necessary to set monitor or vote counter with regard to voting of a motion, the chair should make the appointment. But the monitor must have the status of director.

The voting results should be announced on the site and enter into records.

15. Where there is conflict of interest that involves the interest of the director or the corporate shareholder the director represents, the concerned director shall not enter into the discussions or voting nor act as agent to cast the vote.

Where the director is not allowed to exercise the voting right with regard to the board's resolution in accordance with the rules specified in the foregoing paragraph, Article 180(2) applying Article 206-2 of The Company Act shall govern.

16. Business discussions at the board meeting of the Company must enter into minutes, which should precisely and correctly enter the following items:

16.1 Session and term as well as time and venue of the meeting.

16.2 Names of those present at the meeting.

16.3 Status of attendance, including names of those present, on leave and absent in addition to the number of persons present.

16.4 Names and positions of those invited to the meeting.

16.5 Name of the rapporteur

16.6 Matters of reports.

16.7 Matters for discussions: Resolution method and results of each and every motion, abstract of speech delivered on the podium by directors, supervisors, experts and other personnel, differing or reserved opinion with record or written statement and the written opinion made by independent director according to Article 12(2) hereof.

16.8 Extempore motions: Name of the initiator resolution method and results of each and every motion, abstract of speech delivered on the podium by directors, supervisors, experts and other personnel, differing or reserved opinion with record or written statement.

16.9 Other matter that should be recorded.

If the resolution by the board of directors contains any of the following events, a public announcement, apart from entries in the meeting minutes, should be made within 2 days in the open information observatory station designated by Financial Supervisory Commission, Executive Yuan:

1) Differing or reserved opinion by independent director with record or written statement.

2) Matters that failed to pass the Company's audit committee but have obtained consent of over two-thirds of the directors.

The sign-in book for board meeting is a part of the meeting minutes and should be kept on file permanently.

The chair and rapporteur of the meeting should sign or affix seal on the meeting minutes and a copy of which should be distributed respectively to directors and supervisors within

- 21 -

20 days after the meeting is ended. The meeting minutes should be listed as a company important file and should be kept on file permanently.

Production and distribution of Item 1 meeting minutes may be done electronically.

17. With the exception of matters mentioned in Article 12(1) that should be brought upon to the board of directors for discussions, the Company's board of directors may, when the board of directors is in recession, authorize the chairman of the board to exercise the right of the board and contents of the authorization are as follows:

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the Company) as of December 31, 2006 and 2005, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 1 to the financial statements, the Company split the related operation, assets, and liabilities of its material segment into its subsidiary, Advanced Semiconductor Engineering Electronics Inc. on August 1, 2006, and acquired 294,930 thousand shares issued by this subsidiary. The related operating income (loss) of the separated material segment for the years ended December 31, 2006 and 2005 has been reflected as separated segment in the statements of income mentioned in the first paragraph.

As discussed in Note 29 to the financial statements, the Company incurred fire damage to its production lines and facilities in Chung Li, Taiwan on May 1, 2005. The Company recognized an estimated loss of NT\$11,849,699 thousand for the damage to its inventories, building, machinery and equipment, less NT\$4,616,000 thousand of insurance receivable in 2005. The Company reached final settlement with the insurers in June 2006 with regards to the fire damage referred to above. The final settlement amount of NT\$7,190,524 thousand, offset by the NT\$4,616,000 thousand recorded in 2005 and the related repair and restoring expenses of NT\$1,043,262 thousand,

was recorded in the current period. The Company also reversed NT\$2,009,102 thousand of previously recorded impairment changes on these fire-damaged building, machinery and equipment due to subsequent value increase. Net amount of NT\$3,540,364 thousand was recognized as a

gain on insurance settlement and impairment recovery with NT\$2,362,579 thousand and income from separated segment with NT\$1,177,785 thousand, respectively.

As discussed in Note 3 to the financial statements, the Company adopted Republic of China Statement of Financial Accounting Standards No. 34 “Financial Instruments: Recognition and Measurement”, No. 36 “Financial Instruments: Disclosure and Presentation” and other revised Statements on January 1, 2006.

We have also audited the consolidated financial statements of the Company and subsidiaries as of and for the years ended December 31, 2006 and 2005, and have expressed an unqualified opinion on such financial statements.

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors’ report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors’ report and financial statements shall prevail.

Also, as stated in Note 2 to the financial statements, the additional footnote disclosures that are not required under generally accepted accounting principles were not translated into English.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively the "Company") as of December 31, 2005 and 2006, and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the three years ended December 31, 2006, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants, auditing standards generally accepted in the Republic of China and the Standards of the Public Company Accounting Oversight Board (United States). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2005 and 2006, and the consolidated results of their operations and their cash flows for each of the three years ended December 31, 2006, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 29 to the consolidated financial statements, the Company incurred fire damage to its production line and facilities in Chung Li, Taiwan on May 1, 2005. The Company recognized an estimated loss of NT\$13,479,079 thousand for the damage to its inventories, building, machinery and equipment, net of NT\$4,641,000 thousand (US\$142,406 thousand) of insurance receivable in 2005. The Company reached final settlement with the insurers in June 2006 with regards to the fire damage referred to above. The final settlement amount of NT\$8,068,000 thousand (US\$247,561 thousand), less the NT\$4,641,000 thousand recorded in 2005 and the related repair and restoring expenses of NT\$1,043,132 thousand (US\$32,008 thousand), was recorded as a gain in 2006. The Company also reversed NT\$2,190,583 thousand (US\$67,217 thousand) of previously recorded impairment charges on these fire-damaged building, machinery and equipment due to an increase in the estimated service potential of the assets. Net amount of NT\$4,574,451 thousand (US\$140,364 thousand) was recognized as a gain on insurance settlement and impairment recovery.

As discussed in Note 3 to the consolidated financial statements, the Company adopted the Republic of China Statement of Financial Accounting Standards No. 34 “Financial Instruments: Recognition and Measurement”, No. 36 “Financial Instruments: Disclosure and Presentation” and other revised Statements on January 1, 2006.

Accounting principles generally accepted in the Republic of China differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 31 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such U.S. dollar amounts are presented solely for the convenience of the readers.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company’s internal control over financial reporting as of December 31, 2006, based on the criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 30, 2007 expressed an unqualified opinion on management’s assessment of the effectiveness of the Company’s internal control over financial reporting and an unqualified opinion on the effectiveness of the Company’s internal control over financial reporting.

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors’ report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors’ report and financial statements shall prevail. Also, as stated in Note 2 to the financial statements, the additional footnote disclosures that are not required under generally accepted accounting principles were not translated into English.

**Advanced Semiconductor Engineering, Inc.
Rules of Procedure for the Shareholders' Meeting**

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules specified herein.
2. Attending shareholders (or their proxies) shall wear attendance badges, and shall submit sign-in cards in lieu of signing in. The number of voting right shall be calculated according to the sign-in cards submitted.
3. Unless as stipulated in Article 179 of The Company Act whereas there are shares that have no voting right for shareholders of the Company, there is one vote for each share. When a shareholder is unable to attend the shareholders' meeting for whatever the reason, the shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the shareholders' meeting. With the exception of trust enterprises or stock affair agencies approved by competent securities authorities concerned, the votes that may be cast by one proxy representing two or more shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
4. The venue for the shareholders' meeting shall be where the Company is located or a place convenient for shareholders to attend and suitable for convening the shareholders' meeting. The beginning time for the meeting may not be earlier than 9 a.m. or later than 3 p.m.
5. Unless otherwise provided by The Company Act, the shareholders' meeting shall be convened by the board of directors and presided by the chairperson. If the chairperson is on leave or unable to exercise the official function for whatever the reason, Article 208 Paragraph 3 of The Company Act shall govern. If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the meeting shall be presided by the convening person. Where there are two or more persons entitled to convene the shareholders' meeting, they shall nominate among them one person to preside the meeting.
6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to attend the shareholders' meeting. The staff handling administrative affairs of the shareholders' meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the shareholders' meeting on audio tape or video tape, and shall keep the tapes on file for at least one year.

8. When the time comes for the shareholders' meeting to begin, the chairperson shall immediately call the meeting in session. However, if the shareholders present represent less than half of the total issued shares, the chairperson may postpone the commencement of the meeting. The meeting may be postponed up to twice, and the total duration of postponement may not exceed one hour. If after two postponements the number of shareholders present is still insufficient while the shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of The Company Act. If prior to the end of the meeting the shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the meeting for a vote in accordance with Article 174 of The Company Act.
9. Where the shareholders' meeting is convened by the board of directors, the meeting agenda shall be set by the board of directors. The meeting shall proceed in accordance with the agenda, which may not be altered unless by the resolution of the shareholders' meeting.

If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the rules of the preceding paragraph shall apply *mutatis mutandis*.

Unless by the resolution of the shareholders' meeting, the chairperson may not declare the meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two paragraphs have been completed.

After the meeting is declared ended, shareholders may not elect a chairperson to resume the meeting at the original location or other premises, unless such declaration by the chairperson has violated the rules of procedure, whereas one person may be elected the chairperson with the consent of one half of the votes represented by shareholders present to resume the Meeting.

10. When the shareholders' meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.
11. Before a shareholder present at the meeting speaks, he/she shall first fill out a statement slip stating therein the main points of the statement, the shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The shareholder present at the meeting that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking shareholder, the other shareholders may not speak to interrupt when a shareholder is speaking; otherwise the chairperson shall stop the interruption.
12. Unless permitted by the chairperson, no shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.

If a shareholder violates rules under the preceding paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.

13. When an institutional person attends the shareholders' meeting as a proxy, the institutional person may assign only one representative to attend the meeting. When an institutional shareholder assigns two or more representatives to attend the shareholders' meeting, only one of them may speak for any single proposal.
14. After a shareholder present at the meeting speaks, the chairperson may reply in person or assign concerned personnel to reply.
15. With respect to discussions of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussions shall cease and the proposal be submitted for a vote.
16. The chairperson shall appoint monitors and ballot counters for voting on proposals. For qualifications, monitors must be shareholders. The results of each vote shall be announced on the spot and made into the minutes.
17. Unless otherwise provided by The Company Act or the Company's Articles of Incorporation, a proposal shall be approved by the consent of more than half of the votes of shares represented by shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as does voting by ballot.
18. Where there is an amendment or an alternative for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.
19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector."
20. All matters not provided by these Rules herein shall be handled in accordance with The Company Act, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. These Rules shall come into force given the approval of the shareholders' meeting, and so shall be the amendment.
