(the “notes”)

This document (the “supplement”) supplements the Note Prospectus in connection with any secondary market transactions in the notes by us, Merrill Lynch, Pierce, Fenner & Smith Incorporated and any of our respective affiliates. Capitalized terms used but not defined in this supplement have the meanings set forth in the Note Prospectus.

The Starting Value for the notes was defined in the final pricing supplement dated March 28, 2018 (the “Final Term Sheet”). The Starting Value was defined as the lowest closing level of the Market Measure on any Market Measure Business Day (subject to adjustment as set forth in the Final Term Sheet) during the Starting Value Determination Period. The closing level of the Market Measure on March 28, 2018, the first day of the Starting Value Determination Period, was 2,605.00.

The Starting Value Determination Period expired on April 30, 2018. The lowest closing level of the Market Measure on any Market Measure Business Day during the Starting Value Determination Period was 2,581.88, which was the closing level of the Market Measure on April 2, 2018. This closing level is less than 2,605.00.

Therefore, the Starting Value for the notes is 2,581.88.

Documentation

You should read this supplement, together with the documents listed below, which together contain the terms of the notes and supersede all prior or contemporaneous oral statements as well as any other written materials. You should carefully consider, among other things, the matters set forth in the "Risk Factors" sections beginning on page TS-7 of the Final Term Sheet, on page PS-6 of product supplement EQUITY INDICES ARN-1, on page PS-5 of the prospectus supplement and page 13 of the prospectus, as the notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the notes.

This amended and restated supplement amends and restates the supplement dated May 17, 2018 in its entirety.
