QUESTIONS AND ANSWERS ABOUT THE MERGER

The following are some questions that you, as a stockholder of Toymax, may have and answers to those questions. These answers may not address all questions that may be important to you as a stockholder of Toymax. Accordingly, we urge you to read carefully the remainder of this joint proxy statement/ prospectus because additional important information is contained in the remainder of this joint proxy statement/ prospectus and the appendices to this joint proxy statement/ prospectus.

Q: What am I being asked to vote upon?

A: You are being asked to vote upon three matters:

You are being asked to adopt a merger agreement that provides for JAKKS to acquire all of the remaining outstanding shares of Toymax common stock (not owned by JAKKS) in exchange for a combination of cash and JAKKS common stock.

The acquisition of the remaining outstanding shares of Toymax common stock will be effected by the merger of a wholly-owned subsidiary of JAKKS into Toymax with Toymax being the surviving corporation. You are being asked to approve that merger.

On February 10, 2002, Toymax and four of Toymax's principal stockholders entered into a stock purchase agreement with JAKKS, pursuant to which they agreed to sell to JAKKS approximately 8.1 million shares of Toymax common stock, representing approximately, 66.3% of Toymax's outstanding common stock. You are being asked to ratify the stock purchase agreement.

If the merger agreement is adopted, the merger is approved and the stock purchase agreement is ratified, then the merger will be completed, Toymax will no longer be a publicly-held corporation and you will no longer own Toymax common stock.

Q: How much of Toymax does JAKKS currently own?

A: Based upon its purchase of Toymax common stock under the stock purchase agreement and open market purchases, JAKKS beneficially owns approximately 66.8% of Toymax's outstanding shares of common stock.

Q: Why is the merger being proposed?

A: The purpose of Toymax engaging in the transactions contemplated by the merger agreement is to allow its stockholders to become part of a larger, more diverse, operating entity and thereby potentially be part of a company with improved operating and financial results and a stronger competitive position. In deciding to undertake the merger, Toymax considered the following factors, among others:

diminished value of Toymax's common stock since Toymax's initial public offering;

uncertainty regarding Toymax's future growth prospects;

significant historical losses associated with Toymax's acquisition strategy; and

the costs of, and the burdens on management associated with, being a public company.

Q: What will I receive in the merger?

A: Unless you seek appraisal rights, you will be entitled to receive \$3.00 in cash plus .0798 of a share of JAKKS common stock in exchange for each share of Toymax common stock you own at the time of the merger. In the event that the average closing price of JAKKS common stock for the 10 days prior to the effective date of the merger is less than \$16.9173 per share (the adjusted closing price), the amount of JAKKS common stock you receive (in addition to the cash payment described above) for each share of Toymax common stock will be determined by dividing \$1.35 by the adjusted closing price. Further, in the event that the ten-day average closing price of JAKKS common stock exceeds \$20.6767 per share,

Table of Contents

JAKKS may elect, in its sole discretion, to pay you exclusively in cash, consideration of \$4.65 in exchange for each share of Toymax common stock you own at the time of the merger.

Q: What will happen to my Toymax options?

A: Pursuant to the merger agreement, upon the merger, all of the outstanding options to acquire Toymax common stock that Toymax has granted will be exchanged for fully-exercisable options to acquire JAKKS common stock (or, in certain limited circumstances, for cash), in an amount and at an exercise price determined in accordance with the formula set forth in the merger agreement. The stock purchase agreement further provides that the new JAKKS options will remain exercisable for a period of six months after the effective date of the merger.

Q: What does the Board of Directors recommend?

A: On February 10, 2002, Toymax's board of directors unanimously determined that the consummation of the merger pursuant to the merger agreement and the execution of the stock purchase agreement were fair to, and in the best interests of, Toymax's public stockholders. The Toymax board of directors based its decision in part, upon the opinion of Toymax's financial advisor, which determined that the merger was fair to, and in the best interests of, Toymax's public stockholders from a financial point of view. By resolution dated February 10, 2002, the Toymax board of directors unanimously recommended that you vote FOR adoption of the merger agreement, the approval of the merger and the ratification of the stock purchase agreement.

Q: Was advice obtained as to the fairness from a financial point of view of the merger exchange ratio in the merger?

A: Yes. Toymax's board of directors retained Morgan Lewis Githens & Ahn, Inc. (Morgan Lewis) as its independent financial advisor to make a determination as to the fairness from a financial point of view of the merger consideration to be paid to the Toymax stockholders. Morgan Lewis rendered its opinion that the merger exchange ratio is fair, from a financial point of view, to the stockholders of Toymax. The opinion is reproduced in its entirety in Appendix F to this joint proxy statement/prospectus, and stockholders of Toymax are urged to read the opinion carefully and in its entirety for a description of the assumptions and qualifications made and other matters considered by Morgan Lewis, in rendering its opinion. See the section entitled "Fairness of the Merger; Opinion of Toymax's Financial Advisor" later in this joint proxy statement/prospectus.

Q: What happens if the Board of Directors receives a better offer for Toymax?

A: The merger agreement provides that Toymax's board of directors may withdraw, modify or qualify from making its recommendation to the stockholders if Toymax receives a written offer that its board of directors determines in good faith is superior, from a financial point of view, to the merger and the board of directors determines in good faith that its failure to so withdraw, modify or qualify would cause it to violate its fiduciary duties under applicable law.

Q: Who can vote on the matters presented hereby?

A: Holders of Toymax common stock at the close of business on [May 28,] 2002, the record date relating to the special stockholders meeting, may vote in person or by proxy on adopting the merger agreement, approving the merger and ratifying the stock purchase agreement at the special stockholders meeting.

Q: What vote is required to approve, adopt and ratify the matters presented hereby?

A: The matters presented hereby require the approval of the affirmative vote of a majority of the outstanding voting shares of Toymax common stock. JAKKS beneficially owns, and as of the record date owned, approximately 66.8% of the outstanding shares of Toymax common stock. JAKKS has agreed to vote its

Table of Contents

shares of Toymax common stock to adopt the merger agreement, approve the merger and ratify the stock purchase agreement.

Q: Is the merger subject to the fulfillment of certain conditions?

A: Yes. Before completion of the merger, certain conditions must be satisfied, including the approval by Toymax's stockholders as described in this joint proxy statement/prospectus. It is expected, however, that these conditions will have been met and the merger will be completed if the stockholders vote to approve, adopt and ratify the matters presented hereby.

The authorized capital stock of JAKKS is presently 26,000,000 shares, 25,000,000 of which are shares of common stock and 1,000,000 of which are shares of preferred stock. JAKKS has filed a preliminary proxy statement with the SEC for its 2002 Annual Meeting of Stockholders, which JAKKS expects to occur at the end of the second or beginning of the third quarter of 2002. One of the resolutions provided in the preliminary proxy statement that will be voted upon at that Annual Meeting will be to increase JAKKS' authorized capital stock. If this proposal is approved, JAKKS will have authorized capital stock of 105,000,000 shares, 100,000,000 of which are shares of JAKKS common stock and 5,000,000 of which are shares of JAKKS preferred stock. The approval of this proposal is required for JAKKS to have a sufficient number of authorized shares available for issuance to the Toymax shareholders of the approximately 325,853 shares required to consummate the merger.

Q: When do you expect the merger to be completed?

A: Toymax hopes to complete the merger promptly following the special stockholders meeting.

Q: Do Toymax's officers and directors and JAKKS have interests in the merger that are different from, or in addition to, your interests?

A: Members of Toymax's current management and the current Toymax board of directors have interests in the transaction that are or may be different from, or in addition to, your interests as a Toymax stockholder. As of the date of this joint proxy statement/prospectus, JAKKS controls Toymax because all of Toymax's executive officers and six of Toymax's directors are also directors and officers of JAKKS, and owe fiduciary duties to JAKKS and its stockholders. In addition, each of them own JAKKS common stock and/or options. The interests of JAKKS are different from those of the Toymax public stockholders because JAKKS will become the sole stockholder of Toymax and hold 100% of the outstanding shares of Toymax common stock and, therefore, will be able to control Toymax's future growth. The public stockholders of Toymax will only be able to indirectly participate in Toymax's future growth through their receipt in the merger of JAKKS common stock.

Q: What do I need to do now?

A: After you have carefully reviewed this joint proxy statement/prospectus, please mark your vote on your proxy card and sign and return the election form and proxy card in the enclosed return envelope as soon as possible. This will ensure that your vote will be recorded and your shares will be represented at the special stockholders meeting. If you sign and send in the proxy card and do not indicate how you want to vote, your proxy will be voted FOR the matters presented hereby.

Q: If my shares are held in street name by my broker, will my broker vote my shares for me?

A: Your broker will vote your shares only if you provide written instructions as to how to vote your shares. You should follow the directions provided by your broker regarding how to instruct your broker to vote your shares.

Table of Contents

Q: What rights do I have to dissent from the merger?

A: If you wish, you may dissent from the merger and seek an appraisal of the fair value of your shares, but only if you comply with all requirements of Delaware law summarized on pages [36] through [39] and set forth in Appendix C of this joint proxy statement/prospectus. Based on the determination of the Delaware Court of Chancery, the appraised fair value of your shares of Toymax common stock may be more than, less than or equal to the value of the merger consideration to be issued in the merger. The appraised fair value of your shares of Toymax common stock would be paid to you only if the merger is completed and an appraisal proceeding follows.

Q: Can I change my vote after I have mailed my signed proxy card?

A: Yes. You can change your vote at any time before the vote is taken at the special stockholders meeting. If you are the record holder of your shares, you can change your vote in one of the following three ways:

You can send a written notice dated later than your proxy card stating that you would like to revoke your current proxy.

You can complete and submit a new proxy card dated later than your original proxy card.

You can attend the special stockholders meeting and vote in person.

If you choose either of the first two methods, you must submit your notice of revocation or your new proxy card to the Secretary of Toymax at 22619 Pacific Coast Highway, Malibu, California 90265. Toymax must receive the notice or new proxy card before the vote is taken at the special stockholders meeting.

Simply attending the special stockholders meeting and not voting, however, will not revoke your proxy. If you hold your shares in street name and have instructed a broker to vote your shares, you must follow the directions received from your broker as to how to change your vote.

Q: Should I send in my stock certificates now?

A: No. If the merger is completed, Toymax will promptly send you written instructions for sending in your stock certificates in exchange for the merger consideration to be issued in exchange for your shares.

Q: Who can help answer my questions?

A: If you have more questions about the merger you should contact:

SUMMARY

This summary highlights selected information contained elsewhere in this joint proxy statement/prospectus and may not contain all of the information that is important to you. You should carefully read this entire joint proxy statement/prospectus, including the attached appendices, and the other documents to which we refer you to in this joint proxy statement/prospectus. See Where you can find more information on page [82].

Purpose of the Special Meeting (see pages [23] and [24])

At the special meeting, the stockholders of Toymax will consider and vote on proposals to adopt the merger agreement, approve the merger and ratify the stock purchase agreement. The stock purchase agreement provided for JAKKS to obtain a controlling interest in Toymax. The merger agreement provides that a wholly-owned subsidiary of JAKKS would merge with and into Toymax. Toymax would be the surviving corporation in the merger and would then be a wholly-owned subsidiary of JAKKS. Each outstanding share of common stock of Toymax, other than shares held by Toymax in treasury, shares held by JAKKS and shares held by stockholders who perfect their statutory appraisal rights under Delaware law, would be converted automatically into the right to receive \$3.00 in cash plus 0.0798 shares of JAKKS common stock.

In the event that the average closing price of JAKKS common stock for the 10 days prior to the effective date of the merger is less than \$16.9173 per share (the adjusted closing price), the amount of JAKKS common stock you receive (in addition to the cash payment described above) for each share of Toymax common stock will be determined by dividing \$1.35 by the adjusted closing price. Further, in the event that the average closing price of JAKKS common stock for the 10 days prior to the effective date of the merger exceeds \$20.6767 per share, JAKKS may elect, in its sole discretion, to pay you exclusively in cash consideration of \$4.65 for each share of Toymax common stock you own at the time of the merger.

Date, Time and Place of the Special Meeting (see page [23])

The special meeting will be held on [Thursday, June 27,] 2002, at 9:00 a.m., local time, at the Sherwood Country Club, 320 West Stafford Road, Thousand Oaks, California 91361.

Record Date and Quorum (see page [23])

You can vote at the special meeting if you owned Toymax common stock at the close of business on [May 28,] 2002, which is the record date for the special meeting. You are entitled to one vote for each share of Toymax common stock held by you on the record date. At the close of business on the record date, there were 12,214,678 shares of Toymax common stock outstanding. Holders of a majority of the outstanding shares of Toymax common stock entitled to vote at the special meeting must be present in person or represented by proxy to constitute a quorum for the transaction of business. Shares which abstain or do not vote for any reason with respect to one or more of the matters presented for stockholder approval will be counted as present for purposes of determining whether a quorum is present.

Vote Required and Revocation of Proxies (see pages [24] and [25])

The merger agreement requires the approval of Toymax's stockholders of the matters presented hereby. The holders of a majority of the outstanding voting shares of Toymax common stock entitled to vote at the special meeting will be asked to approve, adopt and ratify these matters.

JAKKS, which owns approximately 66.8% of the outstanding shares of Toymax common stock, owns enough shares of Toymax common stock to approve the merger, adopt the merger agreement and ratify the stock purchase agreement without the vote of any other holders of Toymax common stock. JAKKS has indicated that it will vote its shares of Toymax common stock in favor of these matters.

No shares of capital stock of Toymax are owned by any director or officer of JAKKS.

Table of Contents

You may revoke your proxy at any time before your shares are voted at the special meeting by sending a written notice to the secretary of Toymax so that it is received prior to the special meeting, by executing and returning a later-dated proxy, or by voting in person at the special meeting.

If you send in your proxy card without instructions on how to vote, your shares will be voted **FOR** the matters presented hereby.

No other matters are expected to be voted on at the special meeting. If any other matters do properly come before the special meeting, the people named on the accompanying proxy card will vote the shares represented by all properly executed proxies in their discretion. However, shares represented by proxies that have been voted **AGAINST** the matters presented hereby will not be used to vote **FOR** adjournment of the special meeting to allow more time to solicit additional votes **FOR** adoption of the matters presented hereby.

Parties to the Merger (see page [23])

JAKKS Pacific, Inc. JAKKS develops, designs, produces and markets children's toys and related products which are sold in the United States and throughout the world.

Toymax International, Inc. Toymax is a consumer leisure products company that creates, designs and markets innovative and technologically advanced toys as well as other leisure products which are sold in the United States and throughout the world.

JP/TII Acquisition Corp. JP/TII Acquisition Corp., a newly-formed Delaware corporation, was formed solely for the purpose of completing the merger and is sometimes referred to as the merger subsidiary. It is a wholly-owned subsidiary of JAKKS.

Reasons for the Merger (see pages [26] through [35])

Toymax decided to be acquired by JAKKS and proceed with the merger for the following reasons:

diminished value of Toymax's common stock since Toymax's initial public offering;

uncertainty regarding Toymax's future growth prospects;

significant historical losses associated with our acquisition strategy; and

the costs of, and the burdens on management associated with, being a public company.

JAKKS decided to acquire Toymax and proceed with the merger for the following reasons:

Integrate Toymax's operations into JAKKS, thereby reducing Toymax's operating costs;

Acquire new and diversified product lines; and

Combine operational synergies of both companies to efficiently market and distribute toys and related products.

The Stock Purchase Agreement (see page [34])

Between December 2, 2001 and February 4, 2002, JAKKS purchased 132,754 shares of Toymax common stock on the open market for an aggregate purchase price of \$226,985.69. On March 11, 2002, JAKKS purchased 8,100,065 shares of Toymax common stock from four of Toymax's principal stockholders, pursuant to the stock purchase agreement. As a result of these transactions, as of May 17, 2002, JAKKS owns 8,232,819 shares of Toymax common stock, representing approximately 66.8% of the outstanding shares of Toymax common stock.

The Merger Agreement (see pages [42] through [47])

The merger agreement, including the significant conditions to the closing of the merger, is described on pages [40] through [45] and is attached as Appendix A to this joint proxy statement/prospectus. Toymax

Table of Contents

encourages you to read carefully the entire merger agreement, as it is the legal document that governs the merger.

Conditions to the Merger (see page [46])

We will complete the merger only if a number of conditions are satisfied or waived, including, but not limited to, the following:

the adoption of the merger agreement, the approval of the merger and the ratification of the stock purchase agreement by stockholders who hold a majority of the outstanding voting shares of Toymax common stock;

the fairness opinion received by Toymax on February 10, 2002 stating that the merger is fair, from a financial point of view, has not been withdrawn, rescinded or adversely updated or modified; and

the consummation of the merger is not restrained, enjoined or prohibited by any order, judgment or decree of a court of competent jurisdiction or any governmental entity, including any pending action seeking damages.

If all of these conditions are not satisfied or waived, the merger will not be completed.

The authorized capital stock of JAKKS is presently 26,000,000 shares, 25,000,000 of which are shares of common stock and 1,000,000 of which are shares of preferred stock. JAKKS has filed a preliminary proxy statement with the SEC for its 2002 Annual Meeting of Stockholders, which JAKKS expects to occur at the end of the second or beginning of the third quarter of 2002. One of the resolutions provided in the preliminary proxy statement that will be voted upon at that Annual Meeting will be to increase JAKKS authorized capital stock. If this proposal is approved, JAKKS will have authorized capital stock of 105,000,000 shares, 100,000,000 of which are shares of JAKKS common stock and 5,000,000 of which are shares of JAKKS preferred stock. The approval of this proposal is required for JAKKS to have a sufficient number of authorized shares available for issuance to the Toymax shareholders of the approximately 325,853 shares required to consummate the merger.

Termination of the Merger Agreement (see pages [46] and [47])

Toymax and JAKKS may agree to terminate the merger agreement at any time before the effective time of the merger. In addition, the merger agreement may be terminated:

by Toymax, if Toymax's fairness opinion has been withdrawn, rescinded or adversely updated or modified;

by either party, if there shall be any material breach of any representation or warranty by the other party or the other fails to perform any material covenant or obligation (subject to such other party's ability to cure such breach);

by either party, if the condition requiring that the merger agreement and the merger be approved and adopted by the affirmative vote of the holders of a majority of the outstanding shares of Toymax common stock is not met; or

by either party, if the merger has not been consummated on or before September 30, 2002.

No termination fee is payable by any party in the event of a termination performed in accordance with these conditions.

Tax Consequences of the Merger (see pages [37] and [38])

The merger will generally be treated as a taxable exchange by the Toymax stockholders of their shares of Toymax common stock for the merger consideration. Each Toymax stockholder will realize taxable gain, or loss, to the extent that the fair market value of the cash and JAKKS common stock received by the Toymax stockholder in the merger exceeds, or is less than, the stockholder's basis in the Toymax common

Table of Contents

stock exchanged in the merger. You should consult your own tax advisor for a full understanding of the merger's tax consequences. Additionally, no gain or loss will generally be recognized by Toymax or JAKKS as a result of the merger.

Accounting Treatment of the Merger (see page [37])

The merger will be accounted for as the acquisition of a minority interest by JAKKS, using the purchase method of accounting.

Regulatory Matters (see page [38])

There are no federal or state regulatory approvals required that have not already been obtained in order for us to complete the merger, except for:

the requirements of the Delaware General Corporation Law relating to stockholder approval for and completion of the merger; and

the requirements of the federal and state securities laws.

Appraisal Rights (see pages [38] through [41] and Appendix C)

Toymax is a Delaware corporation. Under the Delaware General Corporation Law, if you do not vote in favor of the merger and you follow all of the procedures for demanding appraisal rights described in Appendix C and summarized on Pages [38] through [41], you will be entitled to dissent and elect to have an appraisal of the fair value of your shares of common stock by the Delaware Court of Chancery. The value determined by the Delaware Court of Chancery may be more than, the same as or less than the per share payment (in cash and JAKKS common stock) you would have received for each of your shares in the merger if you had not exercised your appraisal rights. Generally, to exercise appraisal rights, among other things:

You must NOT vote in favor of the merger agreement and the merger; and

You must make a written demand for appraisal in compliance with Delaware law BEFORE the vote on the merger agreement and the merger.

Merely voting against the merger agreement and the merger will not preserve your appraisal rights under Delaware law. Appendix C to this joint proxy statement/prospectus contains the Delaware statute relating to your appraisal rights. **If you want to exercise your appraisal rights, you are urged to read and follow carefully the procedures on pages [38] through [41] and in Appendix C. Failure to follow all of the steps required under Delaware law will result in the loss of your appraisal rights.**

Comparison of Rights of Holders of JAKKS and Toymax Capital Stock (see pages [79] through [82])

There are differences between the rights you have as a holder of Toymax common stock and the rights you will have as a holder of JAKKS common stock. For a description of these differences, please read the section called Comparison of Rights of Stockholders of JAKKS and Toymax.

- (4) EBITDA is defined as earnings from continuing operations before interest and income taxes, net of nonrecurring items, plus depreciation and amortization of long-term assets. EBITDA does not include our profit from the joint venture with THQ in the amounts of \$3.6 million, \$15.9 million and \$6.7 million in the years ended 1999, 2000 and 2001, respectively. EBITDA is generally regarded as providing useful information regarding a company's financial performance, but it is not a measure of financial performance under generally accepted accounting principles. Additionally, EBITDA may not be comparable to other similarly titled measures of other companies.

For example, statements included in this joint proxy statement/prospectus regarding JAKKS or Toymax's financial position, business strategy and other plans and objectives for future operations, and assumptions and predictions about future product demand, supply, manufacturing, costs, marketing and pricing factors are all forward-looking statements. When words like intend, anticipate, believe, estimate, plan or expect, are used these are forward-looking statements. We believe that the assumptions and expectations reflected in such forward-looking statements are reasonable, based on information available to us on the date hereof, but we cannot assure you that these assumptions and expectations will prove to have been correct or that we will take any action that we may presently be planning. Table of Contents

RISK FACTORS

If you hold your shares of Toymax common stock until the merger and receive JAKKS common stock, you will be investing in JAKKS. The following important factors, among others, in some cases have affected, and in the future could affect, JAKKS' actual results and could cause its actual results to differ materially from those expressed in any forward-looking statements made by, or on behalf of, JAKKS. In addition to the other information contained in or incorporated by reference into this joint proxy statement/prospectus, you should carefully consider the following risk factors in deciding whether to vote for the matters presented hereby and, accordingly to elect to receive JAKKS common stock.

Risks Relating to the Merger

JAKKS may not achieve the expected benefits of the merger.

The merger is intended to achieve certain specific benefits, such as decreasing the combined operating expenses of JAKKS and Toymax, improving JAKKS' cash flow and increasing its net profit. The likelihood of achieving those benefits represents the subjective judgment of JAKKS' management and board of directors. Some of those benefits may not be achieved or, if achieved, may not be achieved in the time frame in which they are expected. Whether JAKKS will actually realize these anticipated benefits may depend on future events and circumstances beyond the control of JAKKS.

It is possible that JAKKS will not realize some or all of the benefits of the merger that formed the basis for the recommendation of Toymax's board of directors that you vote in favor of the matters presented hereby.

JAKKS may not have a sufficient number of shares authorized for issuance to effectuate the merger.

The authorized capital stock of JAKKS is presently 26,000,000 shares, 25,000,000 of which are shares of common stock and 1,000,000 of which are shares of preferred stock. JAKKS has filed a preliminary proxy statement with the SEC for its 2002 Annual Meeting of Stockholders, which JAKKS expects to occur at the end of the second or beginning of the third quarter of 2002. One of the resolutions provided in the preliminary proxy statement that will be voted upon at that Annual Meeting will be to increase JAKKS' authorized capital stock. If this proposal is approved, JAKKS will have authorized capital stock of 105,000,000 shares, 100,000,000 of which are shares of JAKKS common stock and 5,000,000 of which are shares of JAKKS preferred stock. The approval of this proposal is required for JAKKS to have a sufficient number of authorized shares available for issuance to the Toymax shareholders of the approximately 325,853 shares required to consummate the merger.

The value of the JAKKS common stock to be received in the merger may fluctuate.

The merger consideration may be subject to certain adjustments. For example, in the event the average closing price of JAKKS' common stock for the 10 days prior to the effective date of the merger is greater than \$20.6767 per share, JAKKS may elect, in its sole discretion, to pay the entire merger consideration in cash, at a price of \$4.50 per share of Toymax common stock. If the average closing price of JAKKS' common stock for the 10 days prior to the effective date of the merger is less than \$16.9173 per share (the adjusted closing price), the amount of JAKKS common stock you receive will be determined by dividing \$1.35 by the adjusted closing price. Other than the foregoing, the merger agreement does not contain any provisions for adjustment of the merger consideration and does not provide any right of termination by either party if there are fluctuations in the market price of either Toymax or JAKKS stock before the completion of the merger. Because no adjustment will be made to the merger consideration (except in the limited circumstances described above), Toymax stockholders that receive JAKKS common stock will not be able to determine the value of the merger consideration until the closing, which will depend upon the market price of JAKKS and Toymax common stock as of the completion of the merger. Variations in the trading prices of Toymax and JAKKS stock may result from:

changes in the business or results of operations of Toymax or JAKKS;

the prospects for the post-merger operations of JAKKS;

Table of Contents

the timing of the merger;

general stock market and economic conditions; and

other factors beyond the control of Toymax or JAKKS, including those described elsewhere in this Risk Factors section.

Before voting, stockholders are urged to obtain current market quotations for both JAKKS and Toymax common stock.

Risks Relating to the Operation of JAKKS

JAKKS is Subject to Changing Consumer Preferences and New Product Introductions

JAKKS business and operating results depend largely upon the appeal of its products. JAKKS continued success in the toy industry will depend on its ability to redesign, restyle and extend its existing core products and product lines as consumer preferences evolve, and to develop, introduce and gain customer acceptance of new products and product lines. Several trends in recent years have presented challenges for the toy industry, including:

the phenomenon of children outgrowing toys at younger ages, particularly in favor of interactive and high technology products;

increasing use of technology;

shorter life cycles for individual products; and

higher consumer expectations for product quality, functionality and value.

JAKKS cannot assure you that:

its current products will continue to be popular with consumers;

the product lines or products that it introduces will achieve any significant degree of market acceptance; or

the life cycles of its products will be sufficient to permit JAKKS to recover licensing, design, manufacturing, marketing and other costs associated with those products.

JAKKS is Subject to Changing Popularity of Its Products

The success of many of JAKKS character-related and theme-related products depends on the popularity of characters in movies, television programs, live wrestling exhibitions and other media. JAKKS cannot assure you that:

media associated with our character-related and theme-related product lines will be released at the times JAKKS expects or will be successful;

the success of media associated with JAKKS existing character-related and theme-related product lines will result in substantial promotional value to its products;

JAKKS will be successful in renewing licenses upon expiration on terms that is favorable to JAKKS; or

JAKKS will be successful in obtaining licenses to produce new character-related and theme-related products in the future.

There Are Risks Associated with JAKKS License Agreements

JAKKS Current Licenses Require JAKKS to Pay Minimum Royalties

Sales of products under trademarks or trade or brand names licensed from others account for substantially all of JAKKS net sales. Product licenses allow JAKKS to capitalize on characters, designs,

Table of Contents

concepts and inventions owned by others or developed by toy inventors and designers. JAKKS license agreements generally require JAKKS to make specified minimum royalty payments, even if JAKKS fail to sell a sufficient number of units to cover these amounts. In addition, under certain of our license agreements, if JAKKS fails to achieve certain prescribed sales targets, JAKKS may be unable to retain or renew these licenses.

Some of JAKKS Licenses Are Restricted as to Use

Under some of JAKKS license agreements, including WWE and Nickelodeon, the licensors have the right to review and approve JAKKS use of their licensed products, designs or materials before we may make any sales. If a licensor refuses to permit JAKKS use of any licensed property in the way JAKKS proposes, or if their review process is delayed, JAKKS development or sale of new products could be impeded.

New Licenses Are Difficult and Expensive to Obtain

JAKKS continued success will depend substantially on its ability to obtain additional licenses. Intensive competition exists for desirable licenses in the toy industry. JAKKS cannot assure you that it will be able to secure or renew significant licenses on terms acceptable to JAKKS. In addition, as JAKKS adds licenses, the need to fund additional royalty advances and guaranteed minimum royalty payments may strain its cash resources.

A Limited Number of Licensors Account for a Large Portion of JAKKS Net Sales

JAKKS derives a significant portion of its net sales from a limited number of licensors. If one or more of these licensors were to terminate or fail to renew JAKKS license or not grant JAKKS new licenses, JAKKS business, financial condition and results of operations could be adversely affected.

The Toy Industry Is Highly Competitive

The toy industry is highly competitive. Globally, certain of JAKKS competitors have financial and strategic advantages over JAKKS, including:

greater financial resources;

larger sales, marketing and product development departments;

stronger name recognition;

longer operating histories; and

greater economies of scale.

In addition, the toy industry has no significant barriers to entry. Competition is based primarily on the ability to design and develop new toys, to procure licenses for popular characters and trademarks and to successfully market products. Many of JAKKS competitors offer similar products or alternatives to its products. JAKKS competitors have obtained and are likely to continue to obtain licenses that overlap JAKKS licenses with respect to products, geographic areas and markets. JAKKS cannot assure you that it will be able to obtain adequate shelf space in retail stores to support its existing products or to expand its products and product lines or that JAKKS will be able to continue to compete effectively against current and future competitors.

JAKKS Video Game Joint Venture with THQ Is Subject to Numerous Risks and Uncertainties

In addition to the risks relating to JAKKS and the toy industry, JAKKS joint venture with THQ faces the following risks:

The joint venture depends entirely on a single license, which gives the venture exclusive worldwide rights to produce and market video games based on World Wrestling Entertainment characters and themes. The popularity of professional wrestling, in general, and the World Wrestling Entertainment, in particular, is subject to changing consumer tastes and demands. The relative popularity of

Table of Contents

professional wrestling has fluctuated significantly in recent years. A decline in the popularity of the World Wrestling Entertainment could adversely affect the joint venture's and JAKKS' business, financial condition and results of operations.

The joint venture relies on hardware manufacturers and THQ's non-exclusive licenses with them for the right to publish titles for their platforms and for the manufacture of the joint venture's titles. If THQ's manufacturing licenses were to terminate and the joint venture could not otherwise obtain these licenses from other manufacturers, the joint venture would be unable to publish additional titles for these manufacturers' platforms, which would materially adversely affect the joint venture's and JAKKS' business, financial condition and results of operations.

The software industry has experienced periods of significant growth in consumer interest, followed by periods in which growth has substantially declined. The joint venture's sales of software titles depend, among other factors, on the popularity and unit sales of platforms generally, as well as on the relative popularity and unit sales of various platforms. The relative popularity of certain platforms has fluctuated significantly in recent years. An unexpected decline in the popularity of a particular platform can be expected to have a material adverse effect on consumer demand for titles released or to be released by the joint venture for such platforms.

The joint venture's failure to timely develop titles for new platforms that achieve significant market acceptance, to maintain net sales that are commensurate with product development costs or to maintain compatibility between its personal computer CD-ROM titles and the related hardware and operating systems would adversely affect the joint venture's and JAKKS' business, financial condition and results of operations.

In general, THQ controls the day-to-day operations of the joint venture and all of its product development and production operations. Accordingly, the joint venture relies exclusively on THQ to manage these operations effectively. THQ's failure to effectively manage the joint venture would have a material adverse effect on the joint venture's and JAKKS' business and results of operations.

JAKKS May Not Be Able To Sustain or Manage its Rapid Growth

JAKKS has experienced rapid growth in net sales, operating income and net income over the last five years. As a result, comparing JAKKS period-to-period operating results may not be meaningful and results of operations from prior periods may not be indicative of future results. JAKKS cannot assure you that it will continue to experience growth in, or maintain our present level of, net sales or net income.

JAKKS' growth strategy calls for it to continuously develop and diversify its toy business by acquiring other companies, entering into additional license agreements, refining JAKKS' product lines and expanding into international markets, which will place additional demands on JAKKS management, operational capacity and financial resources and systems. The increased demand on JAKKS' management may necessitate our recruitment and retention of qualified management personnel. JAKKS cannot assure you that it will be able to recruit and retain qualified personnel or expand and manage JAKKS' operations effectively and profitably. To effectively manage future growth, JAKKS must continue to expand its operational, financial and management information systems and to train, motivate and manage its work force. There can be no assurance that JAKKS' operational, financial and management information systems will be adequate to support JAKKS' future operations. Failure to expand JAKKS' operational, financial and management information systems or to train, motivate or manage employees could have a material adverse effect on its business, financial condition and results of operations.

In addition, implementation of JAKKS' growth strategy is subject to risks beyond our control, including competition, market acceptance of new products, changes in economic conditions, JAKKS' ability to obtain or renew licenses on commercially reasonable terms and its ability to finance increased levels of accounts receivable and inventory necessary to support its sales growth, if any. Accordingly, JAKKS cannot assure you that its growth strategy will continue to be implemented successfully.

Table of Contents

JAKKS Needs To Be Able To Acquire and Integrate Companies and New Product Lines Successfully

JAKKS' growth strategy depends in part upon its ability to acquire companies and new product lines. Future acquisitions will succeed only if JAKKS can effectively assess characteristics of potential target companies and product lines, such as:

attractiveness of products;

suitability of distribution channels;

management ability;

financial condition and results of operations; and

the degree to which acquired operations can be integrated with our operations.

JAKKS cannot assure you that it can identify attractive acquisition candidates or negotiate acceptable acquisition terms, and its failure to do so may adversely affect our results of operations and JAKKS' ability to sustain growth. JAKKS' acquisition strategy involves a number of risks, each of which could adversely affect its operating results, including:

difficulties in integrating acquired businesses or product lines, assimilating new facilities and personnel and harmonizing diverse business strategies and methods of operation;

diversion of management attention from operation of JAKKS' existing business;

loss of key personnel from acquired companies; and

failure of an acquired business to achieve targeted financial results.

A Limited Number of Customers Account for a Large Portion of JAKKS' Net Sales

JAKKS' five largest customers accounted for 54.7% of its net sales in 2001. Except for outstanding purchase orders for specific products, JAKKS does not have written contracts with or commitments from any of its customers. A substantial reduction in or termination of orders from any of JAKKS' largest customers could adversely affect its business, financial condition and results of operations. In addition, pressure by large customers seeking price reductions, financial incentives, changes in other terms of sale or for JAKKS to bear the risks and the cost of carrying inventory also could adversely affect JAKKS' business, financial condition and results of operations. If one or more of JAKKS' major customers were to experience difficulties in fulfilling their obligations to JAKKS, cease doing business with JAKKS, significantly reduce the amount of their purchases from us or return substantial amounts of JAKKS' products, it could have a material adverse effect on JAKKS' business, financial condition and results of operations. In addition, the bankruptcy or other lack of success of one or more of JAKKS' significant retailers could negatively impact JAKKS' revenues and bad debt expense. Kmart, one of JAKKS' major customers, filed for Chapter 11 bankruptcy protection on January 22, 2002. JAKKS recorded a \$5.0 million charge in its 2001 financial statements to allow for any losses that may result from Kmart's bankruptcy filing. However, it is not possible to predict the ultimate impact of Kmart's bankruptcy filing at this time.

JAKKS Depends on Its Key Personnel

JAKKS' success is largely dependent upon the experience and continued services of Jack Friedman, its Chairman and Chief Executive Officer, Stephen G. Berman, its President and Chief Operating Officer, and Michael Bianco, Jr., its Executive Vice President and Chief Merchandising Officer. JAKKS cannot assure you that it would be able to find an appropriate replacement for Mr. Friedman, Mr. Berman or Mr. Bianco if the need should arise, and any loss or interruption of Mr. Friedman's, Mr. Berman's or Mr. Bianco's services could adversely affect JAKKS' business, financial condition and results of operations. JAKKS maintains, and is the beneficiary of, a \$4.0 million key-man life insurance policy on Mr. Friedman, which may be insufficient to fund the cost of employing his successor.

Table of Contents

JAKKS Depends on Third-Party Manufacturers

JAKKS depends on approximately 20 third-party manufacturers who develop, provide and use the tools, dies and molds that JAKKS owns to manufacture its products. However, JAKKS has limited control over the manufacturing processes themselves. As a result, any difficulties encountered by the third-party manufacturers that result in product defects, production delays, cost overruns or the inability to fulfill orders on a timely basis could adversely affect our business, financial condition and results of operations.

JAKKS does not have long-term contracts with its third-party manufacturers. Although JAKKS believes it could secure other third-party manufacturers to produce its products, JAKKS' operations would be adversely affected if it lost its relationship with any of its current suppliers or if its current suppliers' operations or sea or air transportation with our overseas manufacturers were disrupted or terminated even for a relatively short period of time. JAKKS' tools, dies and molds are located at the facilities of its third-party manufacturers.

Although JAKKS does not purchase the raw materials used to manufacture its products, it is potentially subject to variations in the prices JAKKS pays its third-party manufacturers for products, depending on what they pay for their raw materials.

JAKKS Has Substantial Sales and Manufacturing Operations Outside of the United States Subjecting It to Risks Common to International Operations.

JAKKS sells products and operates facilities in numerous countries outside the United States. For the fiscal year ended December 31, 2001, sales to JAKKS' international customers comprised approximately 14.1% of its net sales. JAKKS expects its sales to international customers to account for a greater portion of our revenues in future fiscal periods. Additionally, JAKKS utilizes third-party manufacturers located principally in The People's Republic of China. These sales and manufacturing operations are subject to the risks normally associated with international operations, including:

currency conversion risks and currency fluctuations;

limitations, including taxes, on the repatriation of earnings;

political instability, civil unrest and economic instability;

greater difficulty enforcing intellectual property rights and weaker laws protecting such rights;

complications in complying with laws in varying jurisdictions and changes in governmental policies;

greater difficulty and expenses associated with recovering from natural disasters;

transportation delays and interruptions; and

the potential imposition of tariffs.

JAKKS' reliance on external sources of manufacturing can be shifted, over a period of time, to alternative sources of supply, should such changes be necessary. However, if JAKKS were prevented from obtaining products or components for a material portion of our product line due to political, labor or other factors beyond its control, its operations would be disrupted while alternative sources of products were secured. Also, the imposition of trade sanctions by the United States against a class of products imported by JAKKS from, or the loss of normal trade relations status by China, could significantly increase JAKKS' cost of products imported from that nation. Because of the importance of our international sales and international sourcing of manufacturing to JAKKS' business, its financial condition and results of operations could be significantly and adversely affected if any of the risks described above were to occur.

JAKKS' Business Is Subject to Extensive Government Regulation and to Potential Product Liability Claims

JAKKS' business is subject to various laws, including the Federal Hazardous Substances Act, the Consumer Product Safety Act, the Flammable Fabrics Act and the rules and regulations promulgated under

Table of Contents

these acts. These statutes are administered by the Consumer Product Safety Commission (CPSC), which has the authority to remove from the market products that are found to be defective and present a substantial hazard or risk of serious injury or death. The CPSC can require a manufacturer to recall, repair or replace these products under certain circumstances. JAKKS cannot assure you that defects in its products will not be alleged or found. Any such allegations or findings could result in:

product liability claims;

loss of sales;

diversion of resources;

damage to our reputation;

increased warranty costs; and

removal of our products from the market.

Any of these results may adversely affect JAKKS' business, financial condition and results of operations. There can be no assurance that JAKKS' product liability insurance will be sufficient to avoid or limit JAKKS' loss in the event of an adverse outcome of any product liability claim.

JAKKS Depends on Its Proprietary Rights

JAKKS relies on trademark, copyright and trade secret protection, nondisclosure agreements and licensing arrangements to establish, protect and enforce its proprietary rights in its products. The laws of certain foreign countries may not protect intellectual property rights to the same extent or in the same manner as the laws of the United States. JAKKS cannot assure you that JAKKS or its licensors will be able to successfully safeguard and maintain JAKKS' proprietary rights. Further, certain parties have commenced legal proceedings or made claims against JAKKS based on our alleged patent infringement, misappropriation of trade secrets or other violations of their intellectual property rights. JAKKS cannot assure you that other parties will not assert intellectual property claims against it in the future. These claims could divert JAKKS' attention from operating its business or result in unanticipated legal and other costs, which could adversely affect JAKKS' business, financial condition and results of operations.

Market Conditions and Other Third-Party Conduct Could Negatively Impact JAKKS' Margins and Implementation of Other Business Initiatives.

Economic conditions, such as rising fuel prices and decreased consumer confidence, may adversely impact JAKKS' margins. In addition, general economic conditions were significantly and negatively affected by the September 11th terrorist attacks and could be similarly affected by any future attacks. Such a weakened economic and business climate, as well as consumer uncertainty created by such a climate, could adversely affect JAKKS' sales and profitability. Other conditions, such as the unavailability of electronics components, may impede JAKKS' ability to manufacture, source and ship new and continuing products on a timely basis. Significant and sustained increases in the price of oil could adversely impact the cost of the raw materials used in the manufacture of JAKKS' products, such as plastic.

The Market Price of JAKKS' Common Stock May Be Volatile

Market prices of the securities of toy companies are often volatile. The market price of our common stock may be affected by many factors, including:

fluctuations in our financial results;

the actions of our customers and competitors, including new product line announcements and introductions;

new regulations affecting foreign manufacturing;

other factors affecting the toy industry in general; and

Table of Contents

sales of JAKKS common stock into the public market.

In addition, the stock market periodically has experienced significant price and volume fluctuations, which may have been unrelated to the operating performance of particular companies.

JAKKS Ability to Issue Blank Check Preferred Stock and JAKKS Obligation to Make Severance Payments Could Prevent or Delay Takeovers

JAKKS certificate of incorporation authorizes the issuance of blank check preferred stock (that is, preferred stock that our board of directors can create and issue without prior stockholder approval) with rights senior to those of its common stock. In addition, JAKKS employment agreements with certain of its senior officers require JAKKS, under certain conditions, to make substantial severance payments to them if they resign after a change of control. These provisions could delay or impede a merger, tender offer or other transaction resulting in a change in control of JAKKS, even if such a transaction would have significant benefits to its stockholders. As a result, these provisions could limit the price that certain investors might be willing to pay in the future for shares of JAKKS common stock.

JAKKS has not paid dividends on its common stock and does not expect to in the foreseeable future.

JAKKS has not paid dividends on its common stock since its inception and does not expect to in the foreseeable future, so JAKKS stockholders will not be able to receive a return on their investments without selling their shares. JAKKS presently anticipates that all earnings, if any, will be retained for development of its business and for future acquisitions. Any future dividends will be subject to the discretion of JAKKS board of directors and will depend on, among other things, future earnings, JAKKS operating and financial condition, JAKKS capital requirements and general business conditions.

The market price of JAKKS common stock could be adversely affected by sales of substantial amounts of common stock in the public market or the perception that such sales could occur.

As of May 17, 2002, JAKKS had 19,668,787 shares of common stock outstanding. The market price of JAKKS common stock could be adversely affected by the issuance of shares of common stock pursuant to the terms of the merger.

THE SPECIAL STOCKHOLDERS MEETING

Date, Time, Place and Record Date of the Special Stockholders Meeting

The special stockholders meeting will be held on Thursday, [June 27,] 2002, 9:00 a.m., local time, at the Sherwood Country Club, 320 West Stafford Road, Thousand Oaks, California 91361. The accompanying proxy is being solicited by Toymax s Board of Directors and is to be voted at the special stockholders meeting or any adjournment(s) or postponement(s) thereof. The holders of record of Toymax s common stock as of the close of business on [May 28,] 2002 are entitled to receive notice of, and to vote at, the special stockholders meeting. On the record date, there were 12,316,186 shares of Toymax common stock entitled to vote. No other voting securities of Toymax are outstanding.

Matters to Be Voted Upon

At the special stockholders meeting, you will be asked to consider and vote upon three matters:

You are being asked to adopt a merger agreement that provides for JAKKS to acquire all of the remaining outstanding shares of Toymax common stock (not owned by JAKKS) in exchange for a combination of cash and JAKKS common stock.

The acquisition of the remaining outstanding shares of Toymax common stock will be effected by the merger of a wholly-owned subsidiary of JAKKS into Toymax with Toymax being the surviving corporation. You are being asked to approve that merger.

On February 10, 2002, Toymax and four of Toymax s principal stockholders entered into a stock purchase agreement with JAKKS, pursuant to which they agreed to sell to JAKKS approximately

Table of Contents

8.1 million shares of Toymax common stock, representing approximately, 66.3% of Toymax's outstanding common stock. You are being asked to ratify the stock purchase agreement.

If the merger agreement is adopted, the merger approved and subsequently completed and the stock purchase agreement ratified, Toymax will no longer be a publicly-held corporation and you will no longer own Toymax common stock. In the merger, unless you seek appraisal rights or except as described in the next paragraph, each issued and outstanding share of Toymax common stock held by you will be canceled and converted into the right to receive \$3.00 in cash plus .0798 shares of JAKKS common stock.

In the event the average closing price of JAKKS common stock for the 10 days prior to the effective date of the merger is less than \$16.9173 per share (the adjusted closing price), the amount of JAKKS common stock you receive (in addition to the cash payment described above) for each share of Toymax common stock will be determined by dividing \$1.35 by the adjusted closing price. Further, in the event that the average closing price of JAKKS common stock for the 10 days prior to the effective date of the merger exceeds \$20.6767 per share, JAKKS may elect, in its sole discretion, to pay you exclusively in cash consideration of \$4.65 for each share of Toymax common stock you own at the time of the merger.

Following the merger, JAKKS will hold directly 100% of the outstanding shares of stock in the surviving corporation. Treasury shares and shares of Toymax common stock owned by JAKKS or the merger subsidiary will be canceled. Shares held by stockholders who perfect their dissenters' rights will be subject to appraisal in accordance with Delaware law.

Recommendation of Toymax's Board of Directors

On February 10, 2002, Toymax's board of directors unanimously approved the merger agreement, the merger and the stock purchase agreement. The Toymax board of directors believed the merger agreement and the transactions contemplated by the merger agreement were advisable and in the best interests of the stockholders of Toymax. The Toymax board of directors based its decision, in part, upon the opinion of its independent financial advisor, Morgan, Lewis, Githen & Ahn, Inc., which stated that the merger agreement is fair, from a financial point of view, to Toymax's public stockholders. By resolution dated February 10, 2002, Toymax's board of directors unanimously recommended the Toymax common stockholders vote FOR adoption of the merger agreement, approval of the merger and ratification of the stock purchase agreement. For a more detailed discussion of the specific factors the Toymax board considered in making this recommendation, see Background and Reasons for the Merger, pages [26] to [35].

Voting Information

Each outstanding share of Toymax common stock is entitled to one vote. The three matters being voted upon must each be approved by holders of a majority of the outstanding shares of Toymax common stock entitled to vote at the special meeting. JAKKS, which owns approximately 66.8% of the outstanding Toymax common stock, owns enough shares of Toymax common stock to satisfy this vote requirement without the vote of any other holders of Toymax common stock. JAKKS has indicated that it will vote its shares of Toymax common stock in favor of the three matters being voted upon.

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Toymax's common stock entitled to vote at the special stockholders meeting is necessary to constitute a quorum for the transaction of business at the special stockholders meeting. Abstentions are counted for purposes of determining whether a quorum exists at the special stockholders meeting.

Brokers who hold shares in street name for customers have the authority to vote on routine proposals when they have not received instructions from beneficial owners. However, absent specific instructions from the beneficial owner of the shares, brokers are not allowed to exercise their voting discretion with respect to the approval and adoption of non-routine matters such as the three matters being voted upon. Abstentions and properly executed broker non-votes will be treated as shares that are present and entitled to vote at the special stockholders meeting for purposes of determining whether a quorum exists and will have the same effect as a vote against approval of such matters.

Solicitation, Revocation and Use of Proxies

Toymax will pay the costs of all mailing and filing fees incurred in connection with this joint proxy statement/prospectus. Some of Toymax's directors, officers and employees may solicit proxies by telephone, facsimile and personal contact, without separate compensation for those activities. Copies of solicitation materials will be furnished to fiduciaries, custodians and brokerage houses for forwarding to beneficial owners of common stock, and these persons will be reimbursed for their reasonable out-of-pocket expenses.

The grant of a proxy on the enclosed form does not preclude you from attending the special stockholders meeting and voting in person. You may revoke your proxy at any time before it is voted at the special stockholders meeting. If you are a record holder, you may revoke your proxy by:

delivering to the Secretary of Toymax, before the vote is taken at the special stockholders meeting, a written notice of revocation bearing a later date than the proxy;

duly executing a later dated proxy relating to the same shares of common stock and delivering it to the Secretary of Toymax before the vote is taken at the special stockholders meeting; or

attending the special stockholders meeting and voting in person.

Attendance at the special stockholders meeting will not in and of itself constitute a revocation of a proxy. Any written notice of revocation or subsequent proxy should be sent to the Secretary of Toymax at 22619 Pacific Coast Highway, Malibu, California 90265, or hand delivered to the Secretary of Toymax before the vote is taken at the special stockholders meeting. All valid proxies will be voted at the special stockholders meeting in accordance with the instructions given. If no instructions are given, the shares represented by the proxy will be voted at the special stockholders meeting for adoption of the merger agreement, approval of the merger and ratification of the stock purchase agreement. If you hold your shares in street name and have instructed a broker to vote your shares, you must follow the directions received from your broker as to how to change your vote.

Stockholders who do not vote in favor of adoption of the merger agreement, approval of the merger and ratification of the stock purchase agreement, and who otherwise comply with the applicable statutory procedures of the Delaware General Corporation law summarized elsewhere in this proxy statement, will be entitled to seek appraisal of the value of their common stock under Section 262 of the Delaware General Corporation law. See *The Merger Dissenters Rights of Appraisal*.

Please do not send in your stock certificates at this time. Once the merger is completed, Toymax will send you instructions regarding the procedures for exchanging your existing stock certificates for the merger consideration.

Background and Reasons for the Merger – Toymax

History of the Negotiations

On November 5, 2001, Steve Lebensfeld, Toymax's Chief Executive Officer, and Jack Friedman, JAKKS' Chairman, met to discuss the possible acquisition by JAKKS of Toymax. In early December 2001, Murray Skala, a member of the firm of Feder, Kaszovitz, Isaacson, Weber, Skala, Bass & Rhine LLP, outside counsel of JAKKS, and a director of JAKKS, and Joel M. Handel, a member of the firm of Brown Raysman Millstein Felder & Steiner, LLP (then Baer Marks & Upham LLP), outside counsel of Toymax, and a director of Toymax, discussed the possibility of the acquisition of Toymax by JAKKS. On December 12, 2001, a meeting was held at Mr. Skala's office with Mr. Handel and Mr. Dan Almagor, also a director of Toymax and a partner in the investment banking firm Datex Consulting Group, which firm was later retained to provide investment banking services to Toymax, to discuss this possible transaction. A general outline of preliminary terms for the transaction was discussed and a memorandum with those terms, subject to numerous conditions, was prepared. On January 10, 2002, non-disclosure agreements were signed by each of the parties and the preparation of documents and due diligence was commenced.

On December 31, 2001, the Toymax board of directors was notified of the possibility of a transaction with JAKKS. At a meeting of the Toymax board of directors held on January 28, 2002, a special committee, consisting of Oren Asher and Eric Inspektor, was formed for the purpose of reviewing the terms of the proposed transaction with JAKKS and providing a recommendation to the full board of directors. After interviewing several firms, the special committee retained the investment banking firm of Morgan Lewis Githens & Ahn (Morgan Lewis) to review the transaction with the purpose of providing a recommendation and a fairness opinion. On January 29-30, 2002, JAKKS performed a due diligence review of Toymax at the offices of Brown Raysman Millstein Felder & Steiner, LLP. Present at that time were Joel Bennet, JAKKS Executive Vice President and Chief Financial Officer, Jason Bitsky of the law firm of Feder, Kaszovitz, Isaacson, Weber, Skala, Bass & Rhine LLP, Michael Sabatino, Toymax's Chief Financial Officer, and Betty Tse, assistant to Farra Chan, an employee of David Chu (who at that time was the majority stockholder and Chairman of Toymax). Others present at that time were Mr. Almagor and Mr. Handel. On February 7, 2002, representatives of Morgan Lewis met with the special committee and reviewed in great detail their opinion and analysis concerning the transaction. On the afternoon of February 7, 2002, the entire board of directors of Toymax met with representatives of Morgan Lewis. Its representatives reviewed the entire transaction for the board of directors and recommended that the transaction was fair, from a financial point of view, to Toymax's stockholders. The special committee recommended to the full board at that time that Toymax proceed with the transaction. The full Toymax board, by resolution dated February 10, 2002, unanimously approved the transaction. The stock purchase agreement (providing for the sale to JAKKS by the principal shareholders of Toymax of their approximately 8.1 million shares of Toymax) and the agreement of merger, along with other significant documents, were executed on Sunday evening, February 10, 2002.

Toymax's Reasons for the Merger

The Toymax board of directors, in reaching its unanimous recommendation, considered a number of factors, both positive and negative, including the following:

Table of Contents

The valuation of Toymax's outstanding shares of common stock had diminished substantially from the time of its initial public offering, at a price of \$8.50 per share, and had traded at prices from below \$1.00 to \$1.50 per share during a recent period. The proposal from JAKKS would enable the Toymax stockholders to receive significantly enhanced value for their shares.

Toymax had suffered significant operating losses during the last several years stemming in large part from its acquisition and operation of the Monogram companies and its investments in the Yaboom joint venture and the Maxverse subsidiary. As a result of the losses, Toymax lacked any excess working capital for possible future acquisitions or investments in the expansion and growth of its existing business. The low price for Toymax's common stock made acquisitions through the use of its securities difficult, if not impossible.

Toymax's business plan for a return to profitability would have resulted in a potential downsizing of its business and the risks inherent in continuation of operating a public company and its overhead with a business on a smaller scale. Moreover, the business relied heavily on credit extended to Toymax, principally through the personal credit of David Chu, Chairman of the board. There was no assurance that this credit would or could continue to be available indefinitely in the future which may have caused significant financial problems for Toymax.

Based on the current financial condition of Toymax, it was becoming exceedingly difficult for Toymax to attract and keep key executives with the risk that persons important to Toymax might leave if new capital and expansion was not provided for the business.

Fairness of the Merger; Opinion of Toymax's Financial Advisor

The members of Toymax's board of directors also determined that the merger was fair to the public stockholders because, among other things:

at the time the board of directors adopted the merger agreement, Toymax's board of directors consisted solely of directors who are not officers or employees of JAKKS or Toymax, and was given exclusive authority to, among other things, consider, negotiate and evaluate the terms of any proposed transaction, including the merger;

the Toymax board of directors retained and received advice from legal counsel selected and engaged by it in negotiating and evaluating the terms of the JAKKS proposal and the merger agreement; and

the merger consideration and the other terms and conditions of the merger agreement resulted from arm's-length bargaining between the Toymax board of directors and its representatives, on the one hand, and JAKKS and its representatives, on the other hand.

Prior to adopting the merger and the merger agreement, Toymax's board of directors sought independent verification of its conclusions as to the fairness of the merger to Toymax's public stockholders by obtaining a fairness opinion from an independent financial advisor. Pursuant to an engagement letter dated February 5, 2002, a special committee of the board of directors of Toymax retained Morgan Lewis as its financial advisor in order to render an opinion as to the fairness of the proposed merger.

At the meeting of Toymax's board of directors on February 10, 2002, Morgan Lewis gave its oral opinion, subsequently confirmed in writing, to the board of directors that, as of such date and based upon and subject to various considerations set forth in the opinion, the consideration to be paid pursuant to the proposed merger was fair from a financial point of view to Toymax's public stockholders. Toymax's board of directors did not limit Morgan Lewis in any way in the investigations it made or the procedures it followed in giving its opinion.

Appendix F that accompanies this joint proxy statement/prospectus is the full text of Morgan Lewis's written opinion. This opinion sets forth the assumptions made, matters considered and limits on the review undertaken. Morgan Lewis's opinion is incorporated in its entirety into this document by reference. Morgan Lewis addressed its written opinion only to the Toymax board of directors. The opinion addresses only the consideration pursuant to the merger and is not a recommendation to any Toymax stockholder as to how such stockholder should vote at the Toymax special meeting. The summary of the opinion of Morgan Lewis set

Table of Contents

forth in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of such opinion. Toymax's stockholders are urged to, and should, read the opinion carefully and in its entirety.

In arriving at its opinion, Morgan Lewis reviewed and analyzed, among other things, the following:

- (i) the merger agreement dated as of February 10, 2002;
- (ii) the stock purchase agreement dated as of February 10, 2002;
- (iii) Toymax's Form 10-K for the year ended March 31, 2001, Toymax's Forms 10-Q for the three months ended June 30, 2001 and the six months ended September 30, 2001, and Toymax's Form 8-K dated November 9, 2001;
- (iv) JAKKS' Form 10-K for the year ended December 31, 2000, and JAKKS' Forms 10-Q for the three months ended March 31, 2001, the six months ended June 30, 2001, and the nine months ended September 30, 2001;
- (v) certain other publicly available information concerning Toymax and JAKKS and the trading markets for their respective common stocks;
- (vi) certain internal information and other data relating to Toymax and JAKKS and their business and prospects, including forecasts and projections provided to Morgan Lewis by management of Toymax and JAKKS, respectively;
- (vii) certain publicly available information concerning certain other companies engaged in businesses which Morgan Lewis believed to be generally comparable to Toymax and JAKKS and the trading markets for certain of such other companies' securities; and
- (viii) the financial terms of certain recent business combinations which Morgan Lewis believed to be relevant.

Morgan Lewis also held discussions with members of the management of Toymax and JAKKS on various aspects of the merger, the past and current business operations of Toymax and JAKKS, the financial condition and future prospects and operations of Toymax and JAKKS, the effect of the merger on the financial condition and future prospects and operations of Toymax and JAKKS and other matters that Morgan Lewis believed necessary or appropriate to its inquiry. In addition, Morgan Lewis visited representative facilities of Toymax and reviewed other financial studies and analyses and considered other information that it deemed appropriate for the purposes of its opinion.

Morgan Lewis relied upon and assumed, without independent verification, the accuracy and completeness of all information that was publicly available or furnished to it by Toymax or JAKKS or otherwise reviewed by Morgan Lewis from third party sources. Morgan Lewis has stated that it is not responsible or liable for that information or its accuracy. Morgan Lewis did not conduct any valuation or appraisal of any assets or liabilities, nor were any valuations or appraisals provided to Morgan Lewis.

In relying on other financial analyses provided to it, Morgan Lewis stated that it assumed that they had been reasonably prepared based on assumptions reflecting the best currently available estimates as to the financial condition of Toymax to which those analyses relate.

Morgan Lewis based its opinion on economic, market and other conditions as in effect on, and the information made available to Morgan Lewis as of, the date of the opinion. Morgan Lewis stated that subsequent developments may affect Morgan Lewis's opinion and Morgan Lewis does not have any obligation, to update, revise, or reaffirm its opinion. Morgan Lewis expressed no opinion as to the price at which JAKKS Common Stock will trade at any future time.

The terms of the proposed merger were determined through negotiations between Toymax and JAKKS and were approved by the Toymax board of directors. Although Morgan Lewis provided advice to Toymax during the course of these negotiations, the decision to enter into the merger was solely that of Toymax's board of directors. As described above, the opinion of Morgan Lewis and its presentation to the Toymax board of

Table of Contents

directors were only two of a number of factors taken into consideration by the Toymax board of directors in making its determination to approve the proposed merger.

Morgan Lewis employed generally accepted valuation methods in reaching its opinion. The following is a summary of the material financial analyses that Morgan Lewis utilized in providing its opinion. Some of the summaries of financial analyses have been presented in tabular format. In order to understand the financial analyses used by Morgan Lewis more fully, you should read the tables together with the text of each summary. The tables alone do not constitute a complete description of Morgan Lewis's financial analyses.

Premium Analysis

Morgan Lewis reviewed the premium by which the estimated offer price for Toymax exceeded Toymax's stock price prior to the announcement of the transaction and compared such merger premium to other historical merger and acquisition transactions that Morgan Lewis determined to be relevant to the proposed acquisition of Toymax.

Based on JAKKS's average stock price for the 10 business days prior to February 7, 2002, the implied value of the consideration to be received by Toymax's shareholders was estimated to be approximately \$4.50 per share (the Offer Price). The Offer Price presents a premium to the last reported sales price of Toymax common stock on the NASDAQ National Market System during each of the following periods prior to the signing of the merger agreement:

	February 7, 2002	February 6, 2002	February 5, 2002	30-Day Average(a)	60-Day Average(a)	90-Day Average(a)
Price	\$2.62	\$2.40	\$2.09	\$1.85	\$1.55	\$1.37
Premium	72%	88%	115%	143%	190%	228%

(a) All averages calculated for the period ending February 5, 2002.

Morgan Lewis also reviewed a sample of historical merger and acquisition transactions that were determined to be relevant to the proposed acquisition of Toymax. The following represents the median premiums paid for the sample transactions reviewed by Morgan Lewis:

	Median Premium Paid in Comparable M&A Transactions	Toymax Stock Price(a)	Implied Toymax Price	Premium/(Discount) of Estimated Offer Price to Implied Price(b)
1 Day Prior to Announcement	50%	\$2.09	\$3.14	44%
4 Weeks Prior to Announcement	84%	\$1.75	\$3.22	40%

(a) Assumed an announcement date of February 6, 2002.

(b) Assumed an implied value for the Toymax acquisition of \$4.50 per share.

Morgan Lewis concluded that the premium by which the estimated Offer Price for Toymax exceeded Toymax's stock price prior to the announcement of the transaction exceeded the premium for comparable merger and acquisition transactions.

Comparable Transaction Analysis

Morgan Lewis computed the estimated enterprise value for Toymax implied by the Offer Price (representing the estimated equity value implied by the Offer Price plus Toymax's total debt and minority interest minus its cash and cash equivalents) and compared such enterprise value to Toymax's then recent operating results, including revenues, operating income (EBIT) and operating cash flow before depreciation and amortization (EBITDA) each for the then latest twelve month period for which such financial information was available. In addition, Morgan

Lewis compared such valuation multiples for Toymax to the valuation multiples for other historical merger and acquisition transactions that it determined to be relevant to

Table of Contents

the proposed acquisition of Toymax. The following table presents a comparison of the merger valuation multiples for the then latest available twelve month period:

Enterprise Value as a Multiple of Latest Twelve Months:	Selected Valuation Multiples for Comparable M&A Transactions	
	Toymax Acquisition(a)	Mean of Comparable Company Transactions
Revenue	0.6x	0.7x
EBITDA	Not meaningful	7.2x
EBIT	Not meaningful	12.8x

(a) Assumes an implied value for the Toymax acquisition of \$4.50 per share.

Toymax's EBITDA and EBIT for the period examined by Morgan Lewis were negative. Therefore, the multiple of Toymax's estimated enterprise value (as implied by the Offer Price) to its historical EBITDA and EBIT was not meaningful. The fact that Toymax's historical EBITDA and EBIT for the then latest available twelve months were negative was a factor considered by Morgan Lewis in rendering its fairness opinion. Morgan Lewis also compared the multiple of Toymax's estimated enterprise value (as implied by the Offer Price) to its historical revenues and compared such valuation multiple to the valuation multiples for other historical merger and acquisition transactions that it determined to be relevant to the proposed acquisition of Toymax. Morgan Lewis concluded that the revenue multiple implied by the proposed acquisition of Toymax was comparable to the mean revenue multiple for the other historical merger and acquisition transactions that Morgan Lewis determined to be relevant to the proposed acquisition of Toymax (as summarized above).

Selected Public Trading Multiples

Morgan Lewis computed the estimated enterprise value for Toymax implied by the Offer Price and compared such enterprise value to Toymax's then recent operating results, including revenues, EBIT and EBITDA for the then latest twelve month period for which such financial information was available. In addition, Morgan Lewis compared such valuation multiples for Toymax to the valuation multiples for selected publicly traded companies engaged in businesses that Morgan Lewis judged to be reasonably comparable to Toymax. These companies were:

- Action Performance
- DSI Toys
- Equity Marketing
- JAKKS Pacific
- Marvel Enterprises
- Ohio Art
- Racing Champions
- Radica Games

Table of Contents

Morgan Lewis selected these companies because they engaged in businesses reasonably comparable to those of Toymax. Morgan Lewis used publicly available financial information to determine the ratio of enterprise value to the then latest twelve months revenues for each of these companies. The following table presents a comparison of the mean revenue multiples of the comparable companies and the implied merger multiples for Toymax based on a range of the then latest twelve months revenues:

Enterprise Value as a Multiple of Latest Twelve Months:	Selected Trading Valuation Multiples for Comparable Companies	
	Toymax(a)	Mean of Comparable Companies
Revenue	0.6x	1.2x
EBITDA	Not meaningful	7.2x
EBIT	Not meaningful	10.4x

(a) Assumes an implied value for the Toymax acquisition of \$4.50 per share.

Toymax's EBITDA and EBIT for the period examined by Morgan Lewis were negative. Therefore, the multiple of Toymax's estimated enterprise value (as implied by the Offer Price) to its historical EBITDA and EBIT is not meaningful. The fact that Toymax's historical EBITDA and EBIT for the then latest twelve months were negative was a factor considered by Morgan Lewis in rendering its fairness opinion. Morgan Lewis also compared the multiple of Toymax's estimated enterprise value (as implied by the Offer Price) to its historical revenues and compared such valuation multiple to the valuation multiples for selected publicly traded companies engaged in businesses that Morgan Lewis judged to be reasonably comparable to Toymax. Morgan Lewis concluded that the revenue multiple implied by the proposed acquisition of Toymax was below the mean revenue multiple for the selected publicly traded companies engaged in businesses that Morgan Lewis judged to be reasonably comparable to Toymax. (as summarized above).

No company or transaction used in the premium analysis, the comparable transaction analysis or the comparable public company trading analysis is identical to Toymax. Accordingly, an evaluation of the results of these analyses is not simply a mathematical calculation. It involves complex considerations and judgments concerning differences in financial and operating characteristics of the companies and other factors that could affect the public trading value of the companies being analyzed. The summary above is not a comprehensive description of all analyses and examinations actually conducted by Morgan Lewis in the preparation of its opinion. In evaluating companies and transactions identified by Morgan Lewis as comparable to Toymax and the acquisition of Toymax, Morgan Lewis made judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions and other matters, many of which were beyond the control of Toymax, such as the impact of competition on the business of Toymax and the industry generally, industry growth and the absence of any material change in the financial condition and prospects of Toymax or the industry or in the financial markets in general. The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses and of the factors considered by Morgan Lewis, without considering all analyses and factors would create an incomplete view of the process underlying Morgan Lewis's presentation to the board of directors of Toymax. In addition, Morgan Lewis may have given some analyses more or less weight than other analyses and may have deemed various assumptions more or less probable than other assumptions. For a description of the assumptions Morgan Lewis made in rendering its fairness opinion see the actual text of the fairness opinion which is attached as Appendix F to this joint proxy statement/ prospectus. The ranges of valuations resulting from any particular analysis described above should not be taken to be Morgan Lewis's or Toymax's view of the actual value of Toymax or the shares of Toymax common stock. To the contrary, Morgan Lewis expressed no opinion on the actual value of Toymax, or shares of Toymax's common stock.

The analyses performed by Morgan Lewis are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than those suggested by these analyses. Morgan Lewis prepared these analyses as part of its analysis for the board of directors of Toymax of the fairness from a financial

Table of Contents

point of view of the merger consideration to be received by holders of Toymax common stock and provided these analyses to the Toymax board of directors and the special committee in connection with their consideration of the merger. The analyses do not purport to be appraisals or to reflect the prices at which a company might actually be sold or the prices at which any securities may trade at any time in the future. Morgan Lewis used in its analyses various projections of future performance prepared and supplied by the management of Toymax. The projections were based on numerous uncertain variables and assumptions that are inherently unpredictable. Accordingly, actual results could vary significantly from those assumed in these projections.

The opinion of Morgan Lewis and the presentation to the special committee and the board of directors summarized above were among the many factors taken into consideration by the board of directors of Toymax in determining whether to approve and to recommend that the Toymax stockholders vote in favor of the matters being presented hereby. During Morgan Lewis's presentations to the special committee and the board of directors, the members of the special committee and board of directors asked numerous questions regarding the analyses performed by Morgan Lewis and its conclusion as to the fairness from a financial point of view of the consideration to be received pursuant to the merger agreement. Morgan Lewis, however, did not make any recommendation to any stockholders or to any other person or entity as to how any stockholder should vote with respect to the merger agreement. Morgan Lewis's opinion did not address the relative merits of the merger, any alternatives to the merger, or Toymax's underlying business decision to proceed with or effect the merger.

Under its engagement letter with Morgan Lewis, Toymax agreed to pay Morgan Lewis a customary fee for the financial advisory services provided by Morgan Lewis in connection with the delivery of the fairness opinion. In addition, Toymax agreed to reimburse Morgan Lewis for its expenses incurred in connection with its services, including the fees and disbursements of counsel, and will indemnify Morgan Lewis against certain liabilities, including liabilities arising under the federal securities laws.

Prior to advising Toymax on this transaction, Morgan Lewis had no relationship with Toymax. Morgan Lewis has no financial advisory or other relationship with JAKKS. In the ordinary course of their businesses, Morgan Lewis and its affiliates may actively trade the equity securities of Toymax and JAKKS for their own accounts or for the accounts of customers and, accordingly, they may hold long or short positions in those securities at any given time.

The foregoing discussion addresses the material information and factors considered by the Toymax board of directors in their consideration of the merger, including factors that support the merger as well as those that may weigh against it. In view of the variety of factors and the amount of information considered, the Toymax board did not find it practicable to, and did not specifically, make assessments of, quantify or otherwise assign relative weights to the various factors and analyses considered in reaching its determination. The determination to approve the merger agreement and the merger was made after consideration of all the factors as a whole.

Background and Reasons for the Merger – JAKKS

History of the Negotiations

On February 11, 2001, Jack Friedman, JAKKS' Chairman and Chief Executive Officer, and Stephen Berman, JAKKS' President and Chief Operating Officer, advised Murray L. Skala, a director of JAKKS and partner of Feder, Kaszovitz, Isaacson, Weber, Skala, Bass & Rhine LLP, the law firm that represents JAKKS, of JAKKS' interest in the acquisition of Toymax. Mr. Skala then discussed with Mr. Friedman and Mr. Berman a possible structure for the deal. On July 17, 2001, Mr. Skala had a conference with Mr. Friedman and Joel Handel, a director of Toymax and a member of the firm of Brown, Raysman Millstein Felder & Steiner LLP (then Baer Marks & Upham LLP), counsel to Toymax, regarding the possibility of a transaction. In early September 2001, Mr. Skala discussed with Mr. Friedman a potential purchase price. In October 2001, Mr. Skala discussed the possible terms of the acquisition with Mr. Friedman and Mr. Berman on a continuing basis.

On November 5, 2001, Mr. Friedman informed Joel Bennett, Executive Vice President and Chief Financial Officer of JAKKS, of a meeting scheduled for the evening of November 5, 2001 in New York, New

Table of Contents

York between Mr. Friedman and Steve Lebensfeld, Chief Executive Officer of Toymax, the purpose of which was to discuss a potential transaction. From that time until the execution of the stock purchase agreement, there was constant communication amongst Messrs. Friedman, Berman and Bennett regarding the transaction.

During early December 2001, Mr. Skala, Mr. Handel and Dan Almagor, a director of Toymax and a partner in the investment banking firm of Datex Consulting Group, which firm was later retained to provide investment banking services to Toymax, began working through the terms of the transaction.

During such period, Messrs. Friedman and Berman were in constant communication with Mr. Skala concerning the status and terms of the transaction. On or about December 10, 2001, Mr. Berman informed Mr. Bennett of the status of the transaction and that JAKKS was going to commence purchasing shares of Toymax in the open market.

On December 11, 2001, Mr. Berman informed George Bevis, Senior Managing Director of the investment banking firm Advest, Inc., via telephone of the pending transaction on a confidential basis and instructed his firm to begin purchasing for JAKKS Toymax common stock in the open market. Mr. Bevis conferred with Larry McIntosh, Supervisor Compliance Officer of Advest, and Advest commenced purchasing Toymax shares for JAKKS on December 12, 2001.

On or about December 19, 2002, Mr. Bennett informed Rex Poulsen, Director of Audit, and John Englebrecht, Director of Taxation, of PKF, Certified Public Accountants, A Professional Corporation, JAKKS independent accounting firm, to discuss the transaction including the structure, timing, financial reporting and tax implications of the transaction.

On January 10, 2002, JAKKS and Toymax signed non-disclosure agreements and on January 29-30, 2002, JAKKS performed a due diligence review at the offices of Brown Raysman Millstein Felder & Steiner LLP. The primary participants were Mr. Bennett, Jason Bitsky, of Feder, Kaszovtitz, Isaacson, Weber, Skala, Bass & Rhine LLP, JAKKS outside counsel, Michael Sabatino, Chief Financial Officer of Toymax, and Betty Tse, assistant to Farra Chan, an employee of David Chu (who at that time was the majority stockholder and Chairman of Toymax). Others present from time to time were Mr. Almagor, and Mr. Handel.

On January 29, 2002, Mr. Berman advised Genna Goldeberg, JAKKS Director of Corporate Communications, of the pending transaction so that she would be able to prepare the necessary press release announcing the transaction.

On February 1, 2002, Mr. Bennett informed JAKKS senior lender, the Bank of America, N.A., of the details of the transaction in order to obtain the waivers that would be necessary for JAKKS to remain in compliance with its senior credit facility and provide guidance to JAKKS on various other aspects of the transaction including structure and financing. Draft purchase agreements were provided to the Bank of America along with public financing information relating to Toymax to facilitate this process.

On February 1, 2002, written materials about the transaction including a description of the transaction and Toymax along with public historical Toymax operating results were sent via Federal Express for delivery on Saturday, February 2, 2002, to the non-employee directors of JAKKS board of directors, David Blatte, Robert Glick, Michael Miller and Murray L. Skala, in preparation for their meeting held on February 4, 2002 in New York, NY.

On or about February 7 and 8, 2002, Mr. Bennett discussed details relating to the transaction and JAKKS via telephone with J. Buckner Brown, Managing Director, and Jeffrey Jacobs, Associate, of Morgan Lewis in connection with Toymax's fairness opinion on the transaction. The discussion included JAKKS business strategy and how Toymax fits into JAKKS business strategy.

On February 10, 2002, the JAKKS board of directors reviewed Morgan Lewis fairness opinion and discussed the transaction. The full board then adopted the merger agreement and approved the merger and stock purchase agreement.

Table of Contents

JAKKS Reasons for the Merger

On February 10, 2002, the JAKKS board of directors adopted the merger agreement and approved the merger and stock purchase agreement. The JAKKS board of directors considered a number of factors, as more fully described below, in making its determination and unanimous recommendation. The JAKKS board of directors in reaching its unanimous recommendation considered a number of factors, both positive and negative, including the following material factors:

recent trends in the price of Toymax common stock;

the relative lack of liquidity for Toymax common stock;

JAKKS ability to finance the merger, including its available working capital;

the net overall cost of the transaction and its benefits, including the transaction's contribution to JAKKS earnings;

the impact on JAKKS common stock of the issuance of shares proposed to be used for this transaction; and

the conclusions of the fairness opinion provided to the Toymax board of directors.

After consideration of the factors identified above, JAKKS determined that the advantages of acquiring all of the outstanding shares of Toymax common stock outweighed the disadvantages and approved JAKKS acquisition of the outstanding shares of Toymax common stock not already owned by JAKKS pursuant to the terms of the merger agreement.

The Stock Purchase Agreement

Between December 2, 2001 and February 4, 2002, JAKKS purchased 132,754 shares of Toymax common stock on the open market for an aggregate purchase price of approximately \$0.2 million. On March 11, 2002, JAKKS purchased 8,100,065 shares of Toymax common stock (the Shares) from four of Toymax's principal stockholders, in a transaction pursuant to a stock purchase agreement dated as of February 10, 2002 among JAKKS, Toymax and those four principal stockholders.

The aggregate purchase price for the Shares was approximately \$24.3 million in cash and 646,384 shares of JAKKS common stock, based on a price per share consisting of \$3.00 in cash and 0.0798 share of JAKKS common stock (with cash payable in lieu of any fractional share). In connection with the JAKKS acquisition of the Shares, all options to purchase Toymax common stock held by the principal stockholders or David Chu (an affiliate of one of the principal stockholders) were cancelled. In addition, JAKKS entered into employment or consulting agreements with certain Toymax executives, whose prior employment agreements with Toymax were terminated, and Toymax entered into new agreements with certain affiliates of one of the principal stockholders with respect to certain of Toymax's manufacturing and agency arrangements.

The purchase price and the compensation payable under the employment, consulting, manufacturing and agency agreements were determined through arms-length negotiations between JAKKS, on the one hand, and Toymax and the other respective parties to such agreements, on the other hand.

The entire cost of the Shares, including, without limitation, the purchase price, the closing payments to certain former affiliates of Toymax and the fees and expenses incurred by JAKKS, was funded out of JAKKS working capital/cash reserves.

As a result of these transactions, as of May 17, 2002, JAKKS owns 8,232,819 shares of Toymax common stock, representing approximately 66.8% of the outstanding shares of Toymax common stock.

Reconfiguration of the Toymax Board of Directors

Pursuant to the stock purchase agreement, Toymax's board of directors was reconfigured to consist of six directors designated by JAKKS and two directors designated by Toymax. In addition, the executive officers of JAKKS were appointed to serve as the executive officers of Toymax. Further, until the effective time of the

Table of Contents

merger, Toymax's board of directors is required to consult with the individuals who were officers and directors of Toymax immediately prior to the closing of the transactions set forth in the stock purchase agreement with respect to any matter that may arise significantly affecting Toymax, its business or its assets.

To complete JAKKS's acquisition of Toymax, JAKKS and Toymax propose to effect the merger of JAKKS's wholly-owned merger subsidiary with and into Toymax. JAKKS currently estimates that the merger consideration payable in the merger (which is subject to certain conditions and contingent adjustments) will consist of approximately \$11.7 million in cash and approximately 325,853 shares of JAKKS common stock.

THE MERGER

Effects of the Merger; Plans for Toymax Following the Merger

At the effective time of the merger, Toymax's public stockholders will cease to have ownership interests in Toymax or rights as Toymax stockholders. Upon completion of the merger, Toymax will be a wholly-owned subsidiary of JAKKS. JAKKS will be the sole beneficiary of the future earnings and growth of Toymax, if any.

As a result of the merger, Toymax will be a privately-held corporation with no public market for its common stock. After the merger, the common stock will cease to be quoted on the Nasdaq National Market System and bid and ask prices with respect to sales of shares of common stock in the public market will no longer be available. After the effective time of the merger, Toymax will no longer be required by law to file periodic reports with the Securities and Exchange Commission.

At the effective time of the merger, the certificate of incorporation and bylaws of JAKKS merger subsidiary in effect immediately prior to the effective time will be the certificate of incorporation and bylaws of the surviving corporation; provided however, that the certificate of incorporation will be amended to provide that the name of the surviving entity is Toymax International, Inc. Subject to applicable law, the directors of Toymax immediately prior to the effective time of the merger will be the directors of the surviving corporation immediately following the effective time and will hold office until their respective successors are duly elected and qualified, or their earlier death, resignation or removal. The officers of Toymax immediately prior to the effective time of the merger will be the officers of the surviving corporation immediately following the effective time and will hold office until their respective successors are duly elected and qualified, or their earlier death, resignation or removal.

Following the merger, JAKKS expects that it will manage Toymax's business and assets in a manner to appropriately address the existing condition of Toymax's business and the toy industry in general. In this regard, after the merger, JAKKS expects it will evaluate Toymax's business practices, operations, properties, corporate structure, management and personnel to determine what changes, if any, are desirable.

JAKKS does not have any current plans or proposals relating to any extraordinary corporate transactions, such as a merger, reorganization, or liquidation involving Toymax, any sale or transfer of a material amount of the assets of Toymax or any other material change in Toymax's corporate structure or business. JAKKS will continue, however, to review and explore any opportunities to maximize stockholder value and may elect in the future to evaluate any transactions involving its business, including a potential sale of Toymax or some or all of its assets, as they arise.

Risk that the Merger Will Not Be Completed

JAKKS currently owns 66.8% of the outstanding voting securities of Toymax and intends to vote such shares in favor of the merger, thereby assuring its approval by the stockholders of Toymax. Nevertheless, completion of the merger is subject to various other conditions, including, but not limited to, the following:

performance in all material respects of the parties' obligations contained in the merger agreement at or before the effective time of the merger;

consummation of the merger is not restrained, enjoined or prohibited by any order, judgment or decree of any court or governmental authority;

no law or regulation is enacted or applicable to the merger that prevents the consummation of the merger or makes the consummation of the merger illegal; and

certain representations and warranties made by the parties in the merger agreement must be true and correct in all material respects.

The authorized capital stock of JAKKS is presently 26,000,000 shares, 25,000,000 of which are shares of common stock and 1,000,000 of which are shares of preferred stock. JAKKS has filed a preliminary proxy statement with the SEC for its 2002 Annual Meeting of Stockholders, which JAKKS expects to occur at the

Table of Contents

end of the second or beginning of the third quarter of 2002. One of the resolutions provided in the preliminary proxy statement that will be voted upon at that Annual Meeting will be to increase JAKKS' authorized capital stock. If this proposal is approved, JAKKS will have authorized capital stock of 105,000,000 shares, 100,000,000 of which are shares of JAKKS common stock and 5,000,000 of which are shares of JAKKS preferred stock. The approval of this proposal is required for JAKKS to have a sufficient number of authorized shares available for issuance to the Toymax shareholders of the approximately 325,853 shares required to consummate the merger.

As a result of these various conditions to the completion of the merger, we cannot assure you that the merger will be completed even if the requisite stockholder approval is obtained.

It is expected that, if Toymax stockholders do not approve and adopt the merger agreement and the merger, or if the merger is not completed for any other reason, the current management of Toymax, under the direction of the Toymax board, will continue to manage Toymax as an ongoing business.

Certain Relationships and Related Transactions

Pursuant to the sale of Toymax common stock as described in the stock purchase agreement, JAKKS owns approximately 66.8% of Toymax's common stock. JAKKS also controls the Toymax board of directors with six members of the Toymax board of directors also being members of the JAKKS board of directors and/or officers of JAKKS. Those six individuals owe fiduciary duties to JAKKS and its stockholders and each of them also owns securities of JAKKS.

Joel Handel, one of Toymax's directors who is not an employee, director or officer of JAKKS, is a partner in the law firm of Brown Raysman Millstein Felder & Steiner, LLP which provided approximately \$905,540 of legal services to Toymax during Toymax's fiscal year ended March 31, 2002.

Dan Almagor, one of Toymax's directors who is not an employee, director or officer of JAKKS, is a principal in an investment banking firm that received approximately \$700,000 from Toymax for services rendered thereby in connection with the stock purchase agreement and which firm is entitled to receive an additional approximately \$300,000 from Toymax upon completion of the merger.

Stock Options

Pursuant to the merger agreement, upon the merger, all of the outstanding options to acquire Toymax common stock that Toymax has granted will be exchanged for fully-exercisable options to acquire JAKKS common stock (or, in certain limited circumstances, for cash), in an amount and at an exercise price determined in accordance with the formula set forth in the merger agreement. The stock purchase agreement further provides that the new JAKKS options will remain exercisable for a period of six months after the effective date of the merger.

Employment Agreements

At the time the stock purchase agreement closed, the employment agreements with Toymax and its officers and executives were terminated. Certain of these individuals entered into new employment or consulting agreements with JAKKS. Consummation of the merger will not trigger any severance payments under any agreements of Toymax.

Accounting Treatment of the Merger

The merger will be accounted for as the acquisition of a minority interest by JAKKS using the purchase method of accounting.

Material Federal Income Tax Consequences

The following is a summary of the material United States federal income tax consequences of the merger. This summary is based on laws, regulations, rulings and decisions now in effect, all of which are subject to

Table of Contents

change, possibly with retroactive effect. This summary does not address all of the United States federal income tax consequences that may be applicable to a particular holder of Toymax's common stock or to holders who are subject to special treatment under United States federal income tax law (including, for example, banks, insurance companies, tax-exempt investors, S corporations, dealers in securities, non-United States persons, holders who hold their Toymax common stock as part of a hedge, straddle or conversion transaction, and holders who acquired Toymax common stock through the exercise of employee stock options or other compensation arrangements). In addition, this summary does not address the tax consequences of the merger under applicable state, local or foreign tax laws. **You should consult your tax advisor as to the particular tax consequences to you of the merger, including the application of any state, local or foreign tax laws.**

Tax Consequences of the Receipt of the Merger Consideration to Holders of Toymax Common Stock

The merger will be treated as a taxable transaction, and not a tax free reorganization, by the Toymax stockholders with respect to their shares of Toymax common stock. As a result, subject to certain exceptions, each Toymax stockholder will have a sale or exchange and recognize taxable gain, or loss, to the extent that the fair market value of the cash and JAKKS common stock received by the stockholder in the merger exceeds, or is less than, the stockholder's basis in the Toymax stock surrendered. Such gain or loss will be a capital gain if the stockholder's Toymax shares are held as a capital asset. The stockholder's basis in any JAKKS common stock received in the merger will equal its fair market value at the effective time of the merger, and the holding period for such stock will commence on the day following the merger.

Dissenters

A holder of Toymax common stock who perfects dissenters' rights will recognize capital gain or loss at the effective time of the merger equal to the difference between the amount realized by such holder and such holder's basis in such holder's shares of common stock. For this purpose, the amount realized generally will equal the trading value per share of JAKKS common stock at the effective time of the merger. Such gain or loss will be capital gain or loss and will be long-term if such holder's holding period for the common stock at the effective time of the merger exceeds one year. Additional capital gain (or loss) will be recognized by such holder at the time the appraised fair value is received to the extent such payment exceeds (or is less than) the amount realized by such holder at the effective time of the merger. Also, a portion of such payment may be characterized as interest income.

Tax Consequences of the Merger to Toymax and JAKKS

No gain or loss will be realized by Toymax or JAKKS as a result of the merger.

The foregoing summary of Federal income tax consequences is included herein for general information purposes only. Accordingly, each holder of Toymax common stock is urged to consult his or her tax advisor regarding the Federal, state, local, foreign and other tax consequences of the merger.

Regulatory Matters

Toymax and JAKKS have determined that no material governmental or regulatory approvals are required for the merger to occur. In particular, on February 26, 2002 JAKKS and Toymax received early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended.

Dissenters' Rights of Appraisal

Under Section 262 of the Delaware General Corporation Law, which is referred to as the "DGCL" in this joint proxy statement/prospectus, any holder of Toymax common stock who does not wish to accept the merger consideration being paid by JAKKS as described in this joint proxy statement/prospectus may dissent from the merger and elect to have the fair value of their shares of common stock (exclusive of any element of value arising from the accomplishment or expectation of the merger) judicially determined and paid to the

Table of Contents

holder in cash, together with a fair rate of interest, if any, provided that the holder complies with the provisions of Section 262 of the DGCL.

The following discussion is not a complete statement of the law pertaining to appraisal rights under the DGCL, and is qualified in its entirety by the full text of Section 262, which is provided in its entirety as Appendix C to this joint proxy statement/prospectus. All references in Section 262 and in this summary to a stockholder are to the record holder of the shares of common stock as to which appraisal rights are asserted. **A person having a beneficial interest in shares of Toymax common stock held of record in the name of another person, such as a broker or nominee, must act promptly to cause the record holder to follow properly the steps summarized below in a timely manner to perfect appraisal rights.**

Under Section 262, where a proposed merger is to be submitted for approval and adoption at a meeting of stockholders, as in the case of the special stockholders meeting, the corporation, not less than 20 days before the meeting, must notify each of its stockholders entitled to appraisal rights that appraisal rights are available and include in that notice a copy of Section 262. This joint proxy statement/prospectus constitutes that notice and the applicable statutory provisions of the DGCL are attached to this proxy statement as Appendix C. Any stockholder who wishes to exercise appraisal rights or who wishes to preserve the right to do so should review carefully the following discussion and Appendix C to this joint proxy statement/prospectus. **Failure to comply with the procedures specified in Section 262 timely and properly will result in the loss of appraisal rights.** Moreover, because of the complexity of the procedures for exercising the right to seek appraisal of the common stock, Toymax believes that stockholders who consider exercising such appraisal rights should seek the advice of counsel.

Any holder of Toymax common stock wishing to exercise the right to demand appraisal under Section 262 of the DGCL must satisfy each of the following conditions:

as more fully described below, the holder must deliver to Toymax a written demand for appraisal of the holder's shares before the vote on the merger agreement at the special stockholders meeting, which demand will be sufficient if it reasonably informs Toymax of the identity of the holder and that the holder intends to demand the appraisal of the holder's shares;

the holder must not vote the holder's shares of common stock in favor of the merger agreement; a proxy which does not contain voting instructions will, unless revoked, be voted in favor of the merger agreement and, therefore, a stockholder who votes by proxy and who wishes to exercise appraisal rights must vote against the merger agreement or abstain from voting on the merger agreement; and

the holder must continuously hold the shares from the date of making the demand through the effective time of the merger; a stockholder who is the record holder of shares of common stock on the date the written demand for appraisal is made but who thereafter transfers those shares before the effective time of the merger will lose any right to appraisal in respect of those shares.

Neither voting (in person or by proxy) against, abstaining from voting on or failing to vote on the proposal to approve and adopt the merger agreement and the merger will constitute a written demand for appraisal within the meaning of Section 262. The written demand for appraisal must be in addition to and separate from any such proxy or vote.

Only a holder of record of shares of Toymax common stock issued and outstanding immediately before the effective time of the merger is entitled to assert appraisal rights for the shares in that holder's name. A demand for appraisal should be executed by or on behalf of the stockholder of record, fully and correctly, as the stockholder's name appears on the stock certificates, and should specify the stockholder's name and mailing address, the number of shares of common stock owned and that the stockholder intends to demand appraisal of the stockholder's common stock. If the shares are owned of record in a fiduciary capacity, such as by a trustee, guardian or custodian, execution of the demand should be made in that capacity. If the shares are owned of record by more than one person, as in a joint tenancy or tenancy in common, the demand should be executed by or on behalf of all owners. An authorized agent, including one or more joint owners, may execute a demand for appraisal on behalf of a stockholder; however, the agent must identify the record owner or owners and expressly disclose the fact that, in executing the demand, the agent is acting as agent for such

Table of Contents

owner or owners. A record holder such as a broker who holds shares as nominee for several beneficial owners may exercise appraisal rights with respect to the shares held for one or more beneficial owners while not exercising appraisal rights with respect to the shares held for one or more other beneficial owners. In such case, the written demand should set forth the number of shares as to which appraisal is sought, and where no number of shares is expressly mentioned the demand will be presumed to cover all shares held in the name of the record owner. **Stockholders who hold their shares in brokerage accounts or other nominee forms and who wish to exercise appraisal rights are urged to consult with their brokers to determine appropriate procedures for the making of a demand for appraisal by the nominee.**

A stockholder who elects to exercise appraisal rights under Section 262 should mail or deliver a written demand to: Toymax International, Inc., 22619 Pacific Coast Highway, Malibu, California 90265, Attention: Corporate Secretary.

Within ten days after the effective time of the merger, Toymax must send a notice as to the effectiveness of the merger to each former Toymax stockholder who has made a written demand for appraisal in accordance with Section 262 and who has not voted to approve and adopt the merger agreement and the merger. Within 120 days after the effective time of the merger, but not thereafter, either Toymax or any dissenting stockholder who has complied with the requirements of Section 262 may file a petition in the Delaware Court of Chancery demanding a determination of the value of the shares of common stock held by all dissenting stockholders. Toymax is under no obligation to and has no present intention to file a petition for appraisal, and stockholders seeking to exercise appraisal rights should not assume that Toymax will file such a petition or that Toymax will initiate any negotiations with respect to the fair value of the shares. Accordingly, stockholders who desire to have their shares appraised should initiate any petitions necessary for the perfection of their appraisal rights within the time periods and in the manner prescribed in Section 262. Inasmuch as Toymax has no obligation to file such a petition, the failure of a stockholder to do so within the period specified could nullify the stockholder's previous written demand for appraisal.

Within 120 days after the effective time of the merger, any stockholder who has complied with the provisions of Section 262 to that point in time will be entitled to receive from Toymax, upon written request, a statement setting forth the aggregate number of shares not voted in favor of the merger agreement and with respect to which demands for appraisal have been received and the aggregate number of holders of such shares. Toymax must mail that statement to the stockholder within 10 days after receipt of the request or within 10 days after expiration of the period for delivery of demands for appraisals under Section 262, whichever is later.

A stockholder timely filing a petition for appraisal with the Delaware Court of Chancery must deliver a copy to Toymax, which will then be obligated within 20 days to provide the Delaware Court of Chancery with a duly verified list containing the names and addresses of all stockholders who have demanded appraisal of their shares. After notice to those stockholders, the Delaware Court of Chancery is empowered to conduct a hearing on the petition to determine which stockholders are entitled to appraisal rights. The Delaware Court of Chancery may require stockholders who have demanded an appraisal for their shares and who hold stock represented by certificates to submit their certificates to the Register in Chancery for notation thereon of the pendency of the appraisal proceedings, and if any stockholder fails to comply with the requirement, the Delaware Court of Chancery may dismiss the proceedings as to that stockholder.

After determining the stockholders entitled to an appraisal, the Delaware Court of Chancery will appraise the fair value of their shares, exclusive of any element of value arising from the accomplishment or expectation of the merger, together with a fair rate of interest, if any, to be paid upon the amount determined to be the fair value. The costs of the action may be determined by the Delaware Court of Chancery and taxed upon the parties as the Delaware Court of Chancery deems equitable. Upon application of a dissenting stockholder, the Delaware Court of Chancery may also order that all or a portion of the expenses incurred by any stockholder in connection with the appraisal proceeding, including, without limitation, reasonable attorneys' fees and the fees and expenses of experts, be charged pro rata against the value of all of the shares entitled to appraisal. **Stockholders considering seeking appraisal should be aware that the fair value of their shares as determined under Section 262 could be more than, the same as or less than the value of the shares**

Table of Contents

of JAKKS common stock they would receive under the merger agreement if they did not seek appraisal of their shares. Stockholders should also be aware that banking opinions, such as the one obtained by Toymax from Morgan Lewis and otherwise described herein, are not opinions as to fair value under Section 262.

In determining fair value and, if applicable, a fair rate of interest, the Delaware Court of Chancery is to take into account all relevant factors. In *Weinberger v. UOP, Inc.*, the Delaware Supreme Court discussed the factors that could be considered in determining fair value in an appraisal proceeding, stating that proof of value by any techniques or methods that are generally considered acceptable in the financial community and otherwise admissible in court should be considered, and that fair price obviously requires consideration of all relevant factors involving the value of a company. The Delaware Supreme Court stated that, in making this determination of fair value, the court must consider market value, asset value, dividends, earnings prospects, the nature of the enterprise and any other facts that could be ascertained as of the date of the merger that throw any light on future prospects of the merged corporation. In *Weinberger*, the Delaware Supreme Court stated that elements of future value, including the nature of the enterprise, which are known or susceptible of proof as of the date of the merger and not the product of speculation, may be considered. However, Section 262 provides that fair value is to be exclusive of any element of value arising from the accomplishment or expectation of the merger.

Any Toymax stockholder who has duly demanded an appraisal in compliance with Section 262 will not, after the effective time of the merger, be entitled to vote the shares subject to that demand for any purpose or be entitled to the payment of dividends or other distributions on those shares (except dividends or other distributions payable to holders of record of shares as of a record date before the effective time of the merger).

Any stockholder may withdraw its demand for appraisal and accept the merger consideration shares by delivering to Toymax a written withdrawal of the stockholder's demand for appraisal, except that (1) any such attempt to withdraw made more than 60 days after the effective time of the merger will require written approval of Toymax and (2) no appraisal proceeding in the Delaware Court of Chancery will be dismissed as to any stockholder without the approval of the Delaware Court of Chancery, and such approval may be conditioned upon such terms as the Delaware Court of Chancery deems just. If Toymax does not approve a stockholder's request to withdraw a demand for appraisal when that approval is required or if the Delaware Court of Chancery does not approve the dismissal of an appraisal proceeding, the stockholder would be entitled to receive only the appraised value determined in any such appraisal proceeding, which value could be more than, the same or less than the value of the JAKKS shares to be received under the merger agreement.

Failure to comply strictly with all of the procedures set forth in Section 262 of the DGCL may result in the loss of a stockholder's statutory appraisal rights. Consequently, any stockholder wishing to exercise appraisal rights is urged to consult legal counsel before attempting to exercise appraisal rights.

THE MERGER AGREEMENT

The description of the merger agreement contained in this joint proxy statement/prospectus describes the material terms of the merger agreement. The merger agreement may be found in its entirety in Appendix A to this joint proxy statement/prospectus and is incorporated herein by reference. You are urged to read the entire merger agreement as it is the legal document that governs the merger.

The Merger

The merger agreement provides that, subject to conditions summarized below, the merger subsidiary, a Delaware corporation and wholly-owned subsidiary of JAKKS, will merge with and into Toymax. Following the completion of the merger, the merger subsidiary will cease to exist as a separate entity, and Toymax will be the surviving corporation and a wholly-owned subsidiary of JAKKS.

Effective Time of the Merger

The merger will become effective when a certificate of merger is filed with the Secretary of State of the State of Delaware in accordance with the DGCL or at such later time as is specified in the certificate of merger. This time is referred to as the effective time in this joint proxy statement/prospectus. The filing is expected to occur as soon as practicable after approval and adoption of the merger agreement by Toymax's stockholders at the special stockholders meeting and satisfaction or waiver of the other conditions to the merger contained in the merger agreement. Toymax cannot guarantee that all conditions contained in the merger agreement will be satisfied or waived. See Conditions to the Merger.

Structure; Merger Consideration

Unless you seek appraisal rights, you will be entitled to receive \$3.00 in cash plus .0798 of a share of JAKKS common stock in exchange for each share of Toymax common stock you own at the time of the merger. In the event that the average closing price of JAKKS common stock for the 10 days prior to the effective time of the merger is less than \$16.9173 per share (the adjusted closing price), the amount of JAKKS common stock you receive (in addition to the cash payment described above) for each share of Toymax common stock will be determined by dividing \$1.35 by the adjusted closing price. In the event that the average closing price of JAKKS common stock for the 10 days prior to the effective time of the merger exceeds \$20.6767 per share, JAKKS may elect, in its sole discretion, to pay you exclusively in cash consideration of \$4.65 for each share of Toymax common stock you own at the time of the merger.

The merger agreement provides for the following further conditions relating to the payment of the merger consideration:

Each holder of shares of Toymax common stock that would otherwise be entitled to receive a fractional share of JAKKS common stock by virtue of the merger will otherwise be paid cash without any interest, equal to the product of the fractional share that would have been issued multiplied by \$18.797. If the average closing price of JAKKS common stock for the 10 days prior to the effective time of the merger is less than \$16.9173 per share at the effective time of the merger, then the cash to be paid to each Toymax stockholder for such fractional share will be the product of such fractional share that would have been issued and the average closing price of JAKKS common stock for the ten days prior to the effective time of the merger;

Treasury shares and shares of Toymax common stock owned by any wholly-owned subsidiary of Toymax will be canceled without any payment therefor;

Shares of Toymax common stock owned by JAKKS or the merger subsidiary will be canceled without any payment therefor; and

Shares held by stockholders who have perfected their dissenters' rights will be subject to appraisal in accordance with Delaware law.

Treatment of Options

Pursuant to the merger agreement, upon the merger, all of the outstanding options to acquire Toymax common stock will be exchanged for fully-exercisable options to acquire JAKKS common stock (or, in certain limited circumstances, for cash), in an amount and at an exercise price determined in accordance with the formula set forth in the merger agreement. The stock purchase agreement further provides that the new JAKKS options will remain exercisable for a period of six months after the effective date of the merger.

Payment for Shares; Exchange of Toymax Certificates

At the effective time, JAKKS will deliver the cash, certificates representing the shares of JAKKS common stock to be issued and the cash to be paid in lieu of fractional shares in the merger, which is referred to as the merger consideration in this joint proxy statement/prospectus, to American Stock Transfer and Trust Company, the paying agent. Promptly after the effective time, the paying agent will mail to each record holder of Toymax common stock a letter of transmittal and instructions to effect the surrender of the stock certificates that, immediately before the effective time, represented the record holder's shares of Toymax common stock in exchange for payment of the merger consideration. When you deliver your certificates of Toymax common stock to the paying agent, along with a properly executed letter of transmittal and any other required documents, you will receive cash and certificates representing, or statements indicating book-entry ownership of, the number of shares of JAKKS common stock that you are entitled to receive under the merger agreement. The surrendered certificates will be canceled.

Each holder of Toymax common stock will be entitled to receive the merger consideration only upon surrender to the paying agent the relevant share certificates. No interest will accrue or will be paid on the cash portion, if any, of the merger consideration upon the surrender of any certificate. The paying agent will not issue any securities or make payments to any person who is not the registered holder of the certificate surrendered unless the certificate is properly endorsed and otherwise in proper form for transfer. Further, the person requesting such certificates or payment will be required to pay any transfer or other taxes required by reason of the payment to a person other than the registered holder of the certificate surrendered or establish to the satisfaction of the paying agent that such tax has been paid or is not payable.

Neither JAKKS, the paying agent nor any other person will be liable to any former Toymax stockholder for any amount properly delivered to a public official pursuant to applicable abandoned property, escheat or similar laws.

YOU SHOULD NOT FORWARD STOCK CERTIFICATES WITH THE ENCLOSED PROXY CARD. YOU SHOULD SUBMIT YOUR STOCK CERTIFICATES WHEN YOU RECEIVE THE TRANSMITTAL INSTRUCTIONS AND A FORM OF LETTER OF TRANSMITTAL FROM THE PAYING AGENT.

Transfer of Shares

At and after the effective time, Toymax's transfer agent will not record on the stock transfer books transfers of any shares of Toymax common stock that were outstanding immediately prior to the effective time of the merger.

Officers, Directors and Governing Documents

Pursuant to the transactions set forth in the stock purchase agreement, between February 10, 2002 and March 10, 2002 five of Toymax's directors resigned and were replaced by six directors, all of whom are members of JAKKS' board of directors. After the effective time, the current Toymax board of directors will resign and the board of directors of the merger subsidiary will serve as the Toymax board of directors until their successors are duly elected and qualified. At the effective time of the merger, Toymax's officers will resign and the officers of the merger subsidiary will serve as the officers of Toymax until their successors are duly elected and qualified.

Table of Contents

From and after the effective time of the merger, the certificate of incorporation and by-laws of the merger subsidiary will become the certificate of incorporation and by-laws of the surviving corporation unless and until the same are amended, restated or revoked, as the case may be.

Representations and Warranties

The merger agreement contains various representations and warranties made by Toymax to JAKKS, subject to identified exceptions, including representations and warranties relating to:

the due incorporation, valid existence, good standing, and full corporate power and authority of Toymax to own its assets and carry on its business;

the capitalization of Toymax;

Toymax having full corporate power and authority to execute, deliver and enforce the merger agreement;

the Toymax board of directors' unanimous (i) determination that the merger agreement and the merger are advisable and in the best interests of Toymax, (ii) approval of the merger agreement and the merger and (iii) recommendation that Toymax's stockholders adopt the merger agreement, approve the merger and ratify the stock purchase agreement;

the absence of any conflicts between the merger agreement and Toymax's certificate of incorporation or bylaws, any applicable laws and any other material contracts or documents; and

the absence of any required consents, approvals or authorizations of any governmental authorities, except those specified in the merger agreement, in order for Toymax to complete the merger.

The merger agreement contains various representations and warranties made by JAKKS and the merger subsidiary to Toymax, subject to identified exceptions, including representations and warranties relating to:

the due incorporation, valid existence, good standing and full corporate power and authority of JAKKS and the merger subsidiary;

the authorization, execution, delivery and enforceability of the merger agreement;

JAKKS having full corporate power and authority to execute, deliver and enforce the merger agreement;

the absence of any required consents, waivers, approvals or authorizations of governmental authorities, except those specified in the merger agreement, in order for JAKKS and the merger subsidiary to complete the merger.

None of the representations and warranties in the merger agreement will survive after the completion of the merger.

Conduct of Business Pending the Merger

In the merger agreement, Toymax and its subsidiaries has agreed, before completion of the merger, to:

conduct its business in its ordinary course;

use commercially reasonable efforts to preserve the business and maintain its respective relations with suppliers, customers and others having material business dealings with Toymax;

use commercially reasonable efforts to maintain all material permits and consents; and

not amend Toymax s articles of incorporation or bylaws.

Stockholders Meeting; Recommendation of Board of Directors

In the merger agreement, Toymax has agreed to:

prepare and file with the Securities and Exchange Commission preliminary proxy materials including the notice of the special meeting, proxy statement and form of proxy and make any changes thereto pursuant to Securities and Exchange Commission comment;

duly call, give notice of, and hold a special stockholders meeting as soon as reasonably practicable after the date of the merger agreement including printing and mailing definitive proxy materials; and

except as described below, include in the proxy statement sent to stockholders in connection with the solicitation of proxies relating to the merger the recommendation of Toymax's board of directors that Toymax's stockholders vote in favor of adoption of the merger agreement, approval of the merger and ratification of the stock purchase agreement, unless that inclusion would cause any of Toymax's directors to breach his fiduciary duty or cause Toymax or any of its directors, officers, employees or agents to violate the law.

The merger agreement also provides that Toymax shall not take any action to:

withdraw its approval or recommendation of the merger;

modify or qualify such approval or recommendation in a manner materially adverse to JAKKS or which would prevent, impede or materially delay the consummation of the merger; or

accept or recommend any Alternative Proposal (as defined in the next paragraph) except, subject to the provisions of the merger agreement and the payment of the Termination Fee, if applicable, that (i) is made in writing, (ii) Toymax's board of directors determines in good faith in the exercise of its business judgment is reasonably capable of being completed on the terms proposed and if so completed would result in an Alternative Transaction (as defined in the next paragraph) that, from a financial point of view, would be superior and more beneficial to Toymax's stockholders than the merger, and (iii) Toymax's board of directors determines in good faith that its failure to consider such Alternative Proposal or to withdraw, modify or qualify its approval or recommendation of the merger would cause it to violate its fiduciary duties under applicable law.

The merger agreement defines Alternative Proposal as any bona fide bid, offer or other proposal relating to an Alternative Transaction. The merger agreement defines Alternative Transaction as (a) any merger, consolidation or other business combination or reorganization pursuant to which a substantial portion of Toymax's business or assets (including without limitation any portion that accounts for, or is reasonably expected to generate over the ensuing 12-month period, 10% or more of Toymax's accounts) is sold or otherwise transferred to, or combined with that or those of, another person; (b) a transaction as a result of which any person (other than JAKKS, Toymax or one of Toymax's subsidiaries) becomes the holder, directly or indirectly, of securities of Toymax having 10% or more of the voting power of all voting securities of Toymax; or (c) the acquisition, directly or indirectly, by another person (other than JAKKS) of control of Toymax, in each case, other than the merger.

Regulatory and Other Consents and Approvals

Subject to the terms and conditions of the merger agreement, Toymax, JAKKS and the merger subsidiary have agreed to cooperate and use their reasonable best efforts to make all filings necessary, proper or advisable under applicable laws to consummate the merger and to do all other things necessary, proper or advisable under applicable laws to consummate the merger. Each of the parties has also agreed to use its reasonable best efforts to obtain as promptly as practicable all consents of any governmental entity or any other person required in connection with the consummation of the merger.

Conditions to the Merger

The obligations of Toymax, JAKKS and the merger subsidiary to complete the merger are subject to the satisfaction of certain conditions, including the following:

stockholders who hold a majority of the voting power of the outstanding shares of Toymax common stock must adopt the merger agreement, approve the merger and ratify the stock purchase agreement;

the fairness opinion that Toymax received stating that the merger and the merger consideration is fair, from a financial point of view, to the holders of Toymax common stock, will not have been withdrawn, rescinded or adversely updated or modified; and

the consummation of the merger is not restrained, enjoined or prohibited by any order, judgment or decree of a court of competent jurisdiction or any governmental entity, including any pending action seeking damages.

The obligations of JAKKS and the merger subsidiary to complete the merger are subject to the satisfaction of each of the following conditions:

each of the representations and warranties made by Toymax in the merger agreement that is qualified by materiality or a material adverse effect on Toymax must be true and each of the representations and warranties made by Toymax in the merger agreement that is not so qualified must be true, in each case, as of the date of the merger agreement and, with respect to certain representations and warranties, as of the effective time (provided that if a representation or warranty was made regarding a specific date, it need only be true as of that date);

Toymax must have observed and performed in all material respects all of its material covenants under the merger agreement;

each holder of a Toymax option that does not by its terms or pursuant to the Toymax option plan terminate at the effective time of the merger, executes and delivers to JAKKS an agreement terminating such option as of the effective time of the merger; and

there shall have not been any event or occurrence that has had or would reasonably be expected to have a material adverse effect on Toymax.

The obligations of Toymax to complete the merger is subject to the satisfaction of each of the following conditions:

each of the representations and warranties made by JAKKS in the merger agreement that is qualified by materiality or a material adverse effect on JAKKS must be true and each of the representations and warranties made by JAKKS in the merger agreement that is not so qualified must be true, in each case, as of the date of the merger agreement and as of the effective time (provided that if a representation or warranty was made regarding a specific date, it need only be true as of that date); and

each of JAKKS and the merger subsidiary must have observed and performed in all material respects all of its material covenants under the merger agreement.

The merger agreement defines a material adverse effect as a material adverse effect on the business, assets or the operations, financial conditions or results of operation of Toymax and its subsidiaries, taken as a whole.

Termination of the Merger Agreement by JAKKS or Toymax

At any time before the effective time of the merger, JAKKS and Toymax may terminate the merger agreement and abandon the merger by mutual written consent, regardless of whether the stockholders of

Table of Contents

Toymax have adopted and approved the merger and the merger agreement. Either party may also terminate the merger agreement if:

Toymax stockholder approval of the matters presented hereby is not obtained; or

the effective time has not occurred on or before September 30, 2002, or such later date to which JAKKS or Toymax may agree.

Termination by JAKKS. JAKKS may terminate the merger agreement before the effective time of the merger upon a material breach by Toymax of any of its representations, warranties, covenants or agreements which would give rise to a material change relating to Toymax and is not cured within 30 days after written notice thereof or is not curable by Toymax.

Termination by Toymax. Toymax may terminate the merger agreement before the effective time of the merger upon a breach by JAKKS or the merger subsidiary of any of their representations, warranties, covenants or agreements which would give rise to a material change relating to JAKKS and is not cured within 30 days after written notice thereof or is not curable by JAKKS.

Amendment and Waiver

Any provision of the merger agreement may be amended before the effective time of the merger provided that after stockholder approval has been obtained no further amendment may be made which is prohibited by law or would require further stockholder action. Further, at any time before the effective time, any party to this agreement may extend, in writing, the time for the performance of any obligation of any other party, waive any inaccuracy in the representations and warranties of any other party in the merger agreement or in any other document and waive compliance with any agreement or condition to its obligations.

No Termination Fee

Toymax is not required by the terms of the merger agreement to pay any termination fees to JAKKS if the merger agreement is terminated in accordance with its terms.

BUSINESS OF THE PARTIES TO THE MERGER

INFORMATION CONCERNING JAKKS

In this section Information Concerning JAKKS, references to we, us and our refer to JAKKS and, where the context requires (such as when JAKKS discusses its business, operations properties or products) its subsidiaries.

Company Overview

We are a leading multi-line, multi-brand toy company that designs, develops, produces and markets toys and related products. We focus our business on acquiring or licensing well-recognized trademarks and brand names with long product histories (evergreen brands). We seek to acquire these evergreen brands because we believe they are less subject to market fads or trends. Our products are typically simpler, lower-priced, toys and accessories and include:

Action figures and accessories including licensed characters, principally based on the *World Wrestling Entertainment*, and toy vehicles, including *Road Champs* die-cast collectibles and *Remco* toy vehicles and role-play toys and accessories;

Craft, activity and stationery products, including *Flying Colors* activity sets, compounds, playsets and lunch boxes, and *Pentech* writing instruments, stationery and activity products;

Child Guidance infant and pre-school electronic toys, toy foam puzzle mats and blocks, activity sets, outdoor products, plush toys and slumber bags; and

Fashion and mini dolls and related accessories, including *Disney Princesses* sold exclusively in the Disney Store.

We continually review the marketplace to identify and evaluate evergreen brands that we believe have the potential for significant growth. We generate growth within these brands by:

creating innovative products under established brand names;

focusing our marketing efforts to enhance consumer recognition and retailer interest;

linking them with our evergreen portfolio of brands;

adding new items to the branded product lines that we expect will enjoy greater popularity; and

adding new features and improving the functionality of products in the line.

In addition to developing our proprietary brands and marks, we license brands such as *World Wrestling Entertainment*, *Nickelodeon*, *Rugrats*, *Blue's Clues*, *Mickey Mouse*, *Barney*, *Sesame Street*, *Winnie the Pooh* and *Hello Kitty and Car and Driver*. Licensing enables us to use these high-profile marks at a lower cost than we would incur if we purchased these marks or developed comparable marks on our own. By licensing marks, we have access to a far greater range of marks than would be available for purchase. We also license technology produced by unaffiliated inventors and product developers to improve the design and functionality of our products.

We have capitalized on our relationship with the WWE by obtaining an exclusive worldwide license for our joint venture with THQ, which develops, produces, manufactures and markets video games based on *World Wrestling Entertainment* characters and themes. Since the joint venture's first title release in 1999, it has released 11 new titles. We have received \$27.5 million as our share of the joint venture's profit through March 31, 2002.

Our March 11, 2002, we acquired a controlling interest in Toymax, a developer and marketer of toys and related products, which added toy brand names such as *Laser Challenge* and *Creepy Crawlers* to our brand portfolio. In addition, pool-related products branded under the name *Funnoodle* and kites branded under the name *Go Fly a Kite* further diversify our portfolio with products popular in the spring and summer seasons.

Edgar Filing: JAKKS PACIFIC INC - Form S-4

Most of our current products are relatively simple and inexpensive toys. In 2001, approximately 70% of our revenue came from products priced less than ten dollars at retail. We believe that these products have enduring appeal and are less subject to general economic conditions, toy product fads and trends, and changes

Table of Contents

in retail distribution channels. As of March 31, 2002, we had over 4,300 products and 19 product categories. In addition, the simplicity of these products enables us to choose among a wider range of manufacturers and affords us greater flexibility in product design, pricing and marketing. Our product development process typically takes from three to nine months from concept to production and shipment to our customers. We believe that many licensors and retailers recognize and reward our ability to bring product to market faster and more efficiently than many of our competitors.

We sell our products through our in-house sales staff and independent sales representatives to toy and mass-market retail chain stores, department stores, office supply stores, drug and grocery store chains, club stores, toy specialty stores and wholesalers. The *Road Champs*, *Flying Colors* and *Pentech* products also are sold to smaller hobby shops, specialty retailers and corporate accounts, among others. Our five largest customers are Target, Kmart, Toys R Us, Wal-Mart, and Kay Bee Toys, which collectively accounted for approximately 54.7% of our net sales in 2001. We have over 10,000 other customers, none of which accounted for more than 2.0% of our net sales in 2001.

Our Growth Strategy

The successful execution of our growth strategy has resulted in increased revenues and earnings. From 1996 to 2001, our net sales, EBITDA and net income grew at a compound annual rate of 88.2%, 95.0% and 88.7%, respectively. In 2001, we generated net sales and EBITDA of \$284.3 million and \$44.1 million, respectively. Key elements of our growth strategy include:

Expand Core Products. We manage our existing and new brands through strong product development initiatives, including introducing new products, modifying existing products and extending existing product lines. Our product designers strive to develop new products or product lines to offer added technological, aesthetic and functional improvements to our product lines. In 2001, we expanded the use of real-scan technology in our action toys, which produces higher quality and better likenesses of the representative characters and vehicle parts. In addition, we introduced action figures with significantly greater ranges of motion, and expanded our electronic action figure recognition play sets.

Enter New Product Categories. We will continue to use our extensive experience in the toy and other industries to evaluate products and licenses in new product categories and to develop additional product lines. We have entered the plush toy category through the licensing of *Pound Puppies*TM, as well as through the creation of our own *Limbo Legs*, and expanded into slumber bags through the licensing of this category from our current licensors, such as Nickelodeon.

Pursue Strategic Acquisitions. We intend to supplement our internal growth rate with selected strategic acquisitions. Since our inception in 1995, we have successfully completed and integrated nine acquisitions of companies and trademarks. These include our acquisitions of Justin Products, Road Champs, *Remco*, *Child Guidance*, Berk, Flying Colors, Pentech, Kidz Biz and most recently, our controlling interest in Toymax. We will continue focusing our acquisition strategy on businesses or brands that have compatible product lines and offer valuable trademarks or brands.

Acquire Additional Character and Product Licenses. We have acquired the rights to use many familiar corporate, trade and brand names and logos from third parties that we use with our primary trademarks and brands. Currently, we have license agreements with the WWE, Nickelodeon, Disney, and Warner Bros., as well as with the licensors of the many popular licensed children's characters previously mentioned, among others. We intend to continue to pursue new licenses from these entertainment and media companies and other licensors. We also intend to continue to purchase additional inventions and product concepts through our existing network of product developers.

Expand International Sales. We believe that foreign markets, especially Europe, Australia, Canada, Latin America and Asia, offer us significant growth opportunities. In 2001, our sales generated outside the United States grew 78% to approximately \$40.0 million, or 14.1% of total sales. We intend to continue to expand our international sales by capitalizing on our experience and our relationships with foreign distributors and retailers. Our recent expansion efforts included entering into a distribution agreement with Funtastic Ltd., an Australia based toy distributor. In addition, in December 2001, we

Table of Contents

acquired Kidz Biz for its distribution channels in the United Kingdom and surrounding territories. We expect both initiatives to contribute to our continued international growth in 2002.

Capitalize On Our Operating Efficiencies. We believe that our current infrastructure and low-overhead operating model can accommodate significant growth without a proportionate increase in our operating and administrative expenses, thereby increasing our operating margins.

Industry Overview

According to the TIA, the leading toy industry trade group, the United States is the world's largest toy market, followed by Japan and Western Europe. Total retail sales of toys, excluding video games, in the United States, were approximately \$25.0 billion in 2001. Sales by domestic toy manufacturers to foreign customers exceeded \$5.0 billion in 2001. We believe the two largest United States toy companies, Mattel and Hasbro, collectively hold a dominant share of the domestic non-video toy market. In addition, hundreds of smaller companies compete in the design and development of new toys, the procurement of character and product licenses, and the improvement and expansion of previously introduced products and product lines. In the United States video game segment, total retail sales of video game software were approximately \$9.4 billion in 2001.

Over the past few years, the toy industry has experienced substantial consolidation among both toy companies and toy retailers. We believe that the ongoing consolidation of toy companies provides us with increased growth opportunities due to retailers' desire to not be entirely dependent on a few dominant toy companies. Retailer concentration also enables us to ship products, manage account relationships and track retail sales more effectively and efficiently.

Products

We focus our business on acquiring or licensing well-recognized trademarks or brand names, and we seek to acquire evergreen brands which are less subject to market fads or trends. Some of our license agreements for products and concepts call for royalties ranging from 1% to 6% of net sales, and some may require minimum guarantees and advances. Our principal products include:

World Wrestling Entertainment Action Figures and Accessories

We have an extensive toy license with the WWE pursuant to which we have the exclusive worldwide right, until December 31, 2009, to develop and market a full line of toy products based on the popular *World Wrestling Entertainment* professional wrestlers. These wrestlers perform throughout the year at live events that attract large crowds, many of which are broadcast on free and cable television, including pay-per-view specials. We launched this product line in 1996 with various series of 6 inch articulated action figures that have movable body parts and feature real-life action sounds from our patented bone-crunching mechanism that allows the figures' bones to crack when they are bent. We continually expand and enhance this product line by using technology in the development and in the products themselves. The 6 inch figures currently make up a substantial portion of our overall *World Wrestling Entertainment* line, which has since grown to include many other new products including playsets using interactive technology. Our strategy has been to release new figures and accessories frequently to keep the line fresh and to retain the interest of the consumers.

Flying Colors/ Pentech Activity Sets, Compound Playsets, Writing Instruments and Lunch Boxes

Through our acquisition of Flying Colors Toys we entered into the toy activity category with compounds and plastic molded activity cases containing a broad range of activities, such as make and paint your own characters, jewelry making, art studios, posters, puzzles and other projects. The activity cases, with molded and painted likenesses of popular characters, such as Nickelodeon's *Rugrats* and *Blue's Clues*, *Powerpuff Girls*®, *Looney Tunes*®, *Hello Kitty* and *Scooby Doo*®, have immediate visual appeal. Using a related production technology, our lunch boxes complement this line with similarly-styled molded and painted likenesses featuring these and other popular characters. Through our acquisition of Pentech International in 2000, we expanded the other categories of products offered by Flying Colors, which now include stationery, back-to-school pens, pencils, markers and notebooks.

Table of Contents

Our compounds represent another significant area of emphasis for Flying Colors. Launched under the *Blue s Clues* license, this line has expanded from play clay in a bucket to an entire *Blue s Clues* playset featuring book molds, extrusion and other devices. We are continuing to expand the compound area and have introduced a full line of innovative compounds under the *Nickelodeon* brand, including *Gooze*®, *Zyrofoam*® and *Gak Splat*™, among others.

Wheels Division Products

Road Champs die-cast collectible and toy vehicles

The *Road Champs* product line consists of highly detailed, die-cast replicas of new and classic cars, trucks, motorcycles, emergency vehicles and service vehicles, primarily in 1/43 scale (including police cars, fire trucks and ambulances), buses and aircraft (including propeller planes, jets and helicopters). Through licenses, we produce replicas of well-known vehicles including those from *Ford*®, *Chevrolet*® and *Porsche*®. We believe that these licenses, increase the perceived value of the products and enhance their marketability.

Extreme sports die-cast collectibles and toy vehicles and action figures

In 1999, we launched our extreme sports category with a new line of die-cast bicycles called *BXS*®. These BMX-style bicycles feature removable and interchangeable parts for complete customization by users as well as working cranks. We have licensed the *Schwinn*®, *GT*® and *Haro*® brand names, among others, as well as the names of some of the top riders, such as Dave Mirra and Ryan Nyquist, for use in connection with this product line.

In 2000, we expanded our extreme sports offerings with the introduction of our *MXS*® line of motorcycles with riders featuring click n grip functionality which allows the user to release the rider from the motorcycle seat and perform the signature moves of the sport's top riders. Other additions included off-road vehicles, personal watercraft, surfboards and skateboards, all sold individually and with playsets and accessories.

BattleBots® and *Junkyard Wars*™

We introduced product lines featuring assembled and non-assembled vehicles and playsets, which create a do-it-yourself play pattern, based on the *BattleBots* and *Junkyard Wars* television shows.

Remco toy vehicles and role-play

Our *Remco* toy line includes toy vehicles, role-play and other toys. Our toy vehicle line is comprised of a large assortment of rugged die-cast and plastic vehicles that range in size from four and three-quarter inch to big-wheeled seventeen inch vehicles. The breadth of the line is extensive, with themes ranging from emergency, fire, farm and construction, to racing and jungle adventure.

We offer a variety of branded and non-branded role playsets in this new category under the *Remco* name. Themes include *Caterpillar*® construction, *B.A.S.S. Masters*® fishing, police, fire and *NASA*®. Additionally, capitalizing on the popularity of the World Wrestling Entertainment, we introduced a *World Wrestling Entertainment* role-play product, which will give children the opportunity to dress like and imagine being one of their favorite wrestling superstars.

Child Guidance

Infant and pre-school toys

Our line of pre-school electronic toys features products that enhance sensory stimulation and learning through play, while offering value to the trade as well as to the consumer. Our products are designed for children ages two and under. We have combined the fun of music, lights, motion and sound with the early introduction of numbers, letters, shape and color recognition, all at a value price. These products carry the *Good Housekeeping Seal of Approval*®. In 2001, we introduced a line of musical toys in conjunction with Baby Genius, the marketer of a popular line of music-oriented CDs and home videos whose aim is to stimulate the development of young children through music.

In addition to creating products internally, we often acquire products and concepts from numerous toy inventors with whom we have ongoing relationships. Both development of internally-created items and

Table of Contents

acquiring items are ongoing efforts. In either case, it may take as long as nine months for an item to reach the market. As part of an effort to keep the product line fresh and to extend the life of the item, we create new packaging, change sound chips and change product colors from time to time.

Plush toys

In 2000, we entered this category by licensing for reintroduction *Pound Puppies* and have since expanded our offerings with the internally developed *Limbo Legs*, a collection of 6 inch and 12 inch long-legged animals in a variety of colors and fabrics.

Foam puzzle mats and playsets

The acquisition of Berk in 1999 added the foam toy category to our business. We incorporated this new toy category into our *Child Guidance* product line, based on the demographics and target market for foam toy products. This line further expanded the breadth of our *Child Guidance* brand. The foam toy products include puzzle mats featuring licensed characters, such as *Winnie the Pooh*, *Blue's Clues*, *Barney*, *Teletubbies*® and *Sesame Street*, among others, as well as letters of the alphabet and numbers. The inter-locking puzzle pieces can also be used to build houses and other play areas. Other products include foam puzzles of the United States, foam vehicles and outdoor foam products.

Fashion and Mini Dolls and Related Accessories

We produce various proprietary and licensed fashion and mini dolls and accessories for children between the ages of three and ten. The proprietary product lines include 11 1/2 inch fashion dolls customized with high-fashion designs that correspond with particular holidays, events or themes, and fashion dolls based on children's classic fairy tales and holidays. We also produce licensed 15 1/2 inch dolls based on the fashion magazine *Elle*®, and 11 1/2 inch dolls based on the feature films, *Charlie's Angels*™ and *Josie and the Pussycats*™. These dolls feature a new skeleton with more realistic features and movement. We also have an agreement with The Disney Store to manufacture a full line of dolls under a private label which features *Disney Princesses* and classic Disney characters.

For 2002, we created a new assortment of 6 inch dolls called the *Fresh Look Friends*™ and a line of 4 inch dolls consisting of puppies that have magnetic mechanisms that allow children to perform tricks and to create action with the toys. We also created playsets in the form of houses for these dolls, which are sold under the *Tiny Tots in Puppy Towne*™ label.

Our in-house product developers originate the design and functionality of most of our fashion dolls. In many cases, they work with retailers and incorporate their input on doll characteristics, packaging and other design elements to create exclusive product lines for them.

World Wrestling Entertainment Video Games

In June 1998, we formed a joint venture with THQ, a developer, publisher and distributor of interactive entertainment software for the leading hardware game platforms in the home video game market. The joint venture entered into a license agreement with the WWE under which it acquired the exclusive worldwide right to publish *World Wrestling Entertainment* video games on all hardware platforms. The term of the license agreement expires on December 31, 2009, and the joint venture has a right to renew the license for an additional five years under various conditions.

The games are designed, developed, manufactured and distributed by THQ. THQ arranges for the manufacture of the CD-ROMs and game cartridges used in the various video game platforms, under non-exclusive licenses held by Sony, Nintendo, Sega and Microsoft. No other licenses are required for the manufacture of the personal computer titles.

Through June 30, 2006, we are entitled to receive a guaranteed preferred return from the joint venture at varying rates of net sales of the video games depending on the cumulative unit sales and platform of each particular game, as well as on the royalties earned by the joint venture from the publishing of game guides by third parties. After June 30, 2006, the amount of our preferred return from the joint venture will be subject to renegotiation between THQ and us. The minimum preferred return from the joint venture to be distributed to

Table of Contents

us in each of the years in the period ending December 31, 2003 is \$2.6 million per year. THQ is entitled to receive the balance of the profits.

The joint venture currently publishes titles for the Sony *PlayStation*® and *PlayStation 2*®, *Nintendo 64*® and *GameCube*® and Microsoft *Xbox*® consoles, *Nintendo Game Boy Color*® and *Game Boy Advance*® hand-held platforms and personal computers. The joint venture launched its first products, a video game for the Nintendo 64 platform and a video game for *Game Boy Color*, in November 1999. It will also publish titles for new hardware platforms, when and as they are introduced to the market and have established a sufficiently installed base to support new software. These titles are marketed to our existing customers as well as to game, electronics and other specialty stores, such as Electronics Boutique and Best Buy.

The following table presents our past results with the joint venture:

	New Game Titles		Profit from Joint Venture ⁽¹⁾
	Console Platforms	Hand-held Platforms	
			(\$ in millions)
1999	1	1	\$ 3.6
2000	4	1	15.9
2001	1	2	6.7
2002 (through March 31, 2002)	1		1.3

(1) Profit from the joint venture reflects our preferred return on joint venture revenue less certain costs incurred directly by us.

In the first quarter of 2002, we released one new game title for *Xbox*, and we anticipate releasing one new game title for *GameCube* during the second quarter of 2002, as well as several other titles during the second half of the year which include titles for *PlayStation 2*, personal computers and *Game Boy Advance*.

Wrestling video games have demonstrated consistent popularity, with five of our wrestling-theme video games each having sold in excess of 1 million units in 1999, 2000 and 2001, at retail prices ranging from approximately \$42 to \$60. We believe that the success of the *World Wrestling Entertainment* titles is dependent on the graphic look and feel of the software, the depth and variation of game play and the popularity of the *World Wrestling Entertainment*. We believe that as a franchise property, the *World Wrestling Entertainment* titles have brand recognition and sustainable consumer appeal, which may allow the joint venture to use titles over an extended period of time through the release of sequels and extensions and to re-release such products at different price points in the future. In 2001, our PlayStation title *SmackDown*TM was re-released as a greatest hit.

The joint venture uses external software developers to conceptualize and develop titles. These developers receive advances based on specific development milestones and royalties in excess of the advances based on a fixed amount per unit sold or on a percentage, typically ranging from 8% to 12%, of net sales. Upon completion of development, each title is extensively play-tested by us and THQ and sent to the manufacturer and licensor for their review and approval.

Sales, Marketing and Distribution

We sell all of our products through our own in-house sales staff and independent sales representatives to toy and mass-market retail chain stores, department stores, office supply stores, drug and grocery store chains, club stores, toy specialty stores and wholesalers. The *Road Champs*, *Flying Colors* and *Pentech* product lines are also sold to smaller hobby shops, specialty retailers and corporate accounts, among others. Our five largest customers are Target, Kmart, Toys R Us, Wal-Mart, and Kay Bee Toys, which accounted for approximately 63.2% of our net sales in 2000 and 54.7% of our net sales in 2001. Except for purchase orders relating to products on order, we do not have written agreements with our customers. Instead, we generally sell products to our customers pursuant to letters of credit or, in some cases, on open account with payment terms typically varying from 30 to 90 days. From time to time, we allow our customers credits against future purchases from us in order to facilitate their retail markdown and sales of slow-moving inventory. We also sell our products through e-commerce sites, including Toysrus.com.

We contract the manufacture of most of our products to unaffiliated manufacturers located in China. We sell the finished products on a letter of credit basis or on open account to our customers, who take title to the goods in Hong Kong or China. These methods allow us to reduce certain operating costs and working capital requirements. A portion of our sales originate in the United States, so we hold certain inventory in our warehouse and fulfillment facilities. To date, a significant portion of all of our sales has been to domestic customers. We intend to continue expanding distribution of our products into foreign territories and, accordingly, we have:

- acquired Kidz Biz, a United Kingdom-based distributor of toys and related products,

- engaged representatives to oversee sales in certain territories,

- engaged distributors in certain territories, such as Funtastic in Australia, and

- established direct relationships with retailers in certain territories.

Outside of the United States, we currently sell our products primarily in Europe, Australia, Canada, Latin America and Asia. Sales of our products abroad accounted for approximately \$22.5 million, or 8.9% of our net sales, in 2000 and approximately \$40.0 million, or 14.1% of our net sales, in 2001. We believe that foreign markets present an attractive opportunity, and we plan to intensify our marketing efforts and further expand our distribution channels abroad.

We establish reserves for sales allowances, including promotional allowances and allowances for anticipated defective product returns, at the time of shipment. The reserves are determined as a percentage of net sales based upon either historical experience or on estimates or programs agreed upon by our customers.

We obtain, directly, or through our sales representatives, orders for our products from our customers and arrange for the manufacture of these products as discussed below. Cancellations generally are made in writing, and we take appropriate steps to notify our manufacturers of these cancellations.

We maintain a full-time sales and marketing staff, many of whom make on-site visits to customers for the purpose of showing product and soliciting orders for products. We also retain a number of independent sales representatives to sell and promote our products, both domestically and internationally. Together with retailers, we sometimes test the consumer acceptance of new products in selected markets before committing resources to large-scale production.

We advertise our products in trade and consumer magazines and other publications, market our products at international, national and regional toy trade shows, conventions and exhibitions and carry on cooperative advertising programs with toy retailers and other customers which include the use of in-store displays. We produce and broadcast television commercials for our *World Wrestling Entertainment* action figure line as well as for some of our *Flying Colors* and *Road Champs* extreme sports products. We may also advertise some of our other products on television, if we expect that the resulting increase in our net sales will justify the relatively high cost of television advertising.

Product Development

Each of our product lines has an in-house manager responsible for product development. The in-house manager identifies and evaluates inventor products and concepts and other opportunities to enhance or expand existing product lines or to enter new product categories. In addition, we create proprietary products, the principal source of products for our fashion doll line, and products to more fully exploit our concept and character licenses. Although we do have the capability to create and develop products from inception to production, we generally use third-parties to provide a substantial portion of the sculpting, sample making, illustration and package design required for our products in order to accommodate our increasing product innovations and introductions. Typically, the development process takes from three to nine months from concept to production and shipment to our customers.

We employ a staff of designers for all of our product lines. We occasionally acquire our other product concepts from unaffiliated third parties. If we accept and develop a third party's concept for new toys, we generally pay a royalty on the toys developed from this concept that are sold, and may, on an individual basis, guarantee a minimum royalty. Royalties payable to developers generally range from 1% to 6% of the wholesale sales price for each unit of a product sold by us. We believe that utilizing experienced third-party inventors gives us access to a wide range of development talent. We currently work with numerous toy inventors and designers for the development of new products and the enhancement of existing products. We believe that toy inventors and designers have come to appreciate our practice of acting quickly and decisively to acquire and market licensed products. In addition, we believe that all of these factors, as well as our recent success in developing and marketing products, make us more attractive to toy inventors and developers than some of our competitors.

Safety testing of our products is done at the manufacturers' facilities by an engineer employed by us or by independent third-party contractors engaged by us. Safety testing is designed to meet regulations imposed by federal and state governmental authorities. We also monitor quality assurance procedures for our products for safety purposes. In addition, independent laboratories engaged by some of our larger customers test certain of our products.

Manufacturing and Supplies

Our products are currently produced by overseas third-party manufacturers, which we choose on the basis of quality, reliability and price. Consistent with industry practice, the use of third-party manufacturers enables us to avoid incurring fixed manufacturing costs, while maximizing flexibility, capacity and production technology. All of the manufacturing services performed overseas for us are paid for on open account with the manufacturers. To date, we have not experienced any material delays in the delivery of our products; however, delivery schedules are subject to various factors beyond our control, and any delays in the future could adversely affect our sales. Currently, we have ongoing relationships with approximately 20 manufacturers. We believe that alternative sources of supply are available, although we cannot be assured that we can obtain adequate supplies of manufactured products.

Although we do not conduct the day-to-day manufacturing of our products, we participate in the design of the product prototype and production tools, dies and molds for our products and we seek to ensure quality control by actively reviewing the production process and testing the products produced by our manufacturers. We employ quality control inspectors who rotate among our manufacturers' factories to monitor the production of substantially all of our products.

The principal raw materials used in the production and sale of our toy products are plastics, zinc alloy, plush, printed fabrics, paper products and electronic components, all of which are currently available at reasonable prices from a variety of sources. Although we do not manufacture our products, we own the tools, dies and molds used in the manufacturing process, and these are transferable among manufacturers if we choose to employ alternative manufacturers. Tools, dies and molds represent substantially all of our long-lived assets, and amounted to \$14.4 million in 2000 and \$10.7 million in 2001. Substantially all of these assets are located in China.

Table of Contents

Trademarks and Copyrights

Most of our products are produced and sold under trademarks owned by or licensed to us. We typically register our properties, and seek protection under the trademark, copyright and patent laws of the United States and other countries where our products are produced or sold. These intellectual property rights can be significant assets. Accordingly, while we believe we are sufficiently protected, the loss of some of these rights could have an adverse effect on our business, financial condition and results of operations.

Competition

Competition in the toy industry is intense. Globally, certain of our competitors have greater financial resources, larger sales and marketing and product development departments, stronger name recognition, longer operating histories and benefit from greater economies of scale. These factors, among others, may enable our competitors to market their products at lower prices or on terms more advantageous to customers than those we could offer for our competitive products. Competition often extends to the procurement of entertainment and product licenses, as well as to the marketing and distribution of products and the obtaining of adequate shelf space. Competition may result in price reductions, reduced gross margins and loss of market share, any of which could have a material adverse effect on our business, financial condition and results of operations. In each of our product lines we compete against one or both of the toy industry's two dominant companies, Mattel and Hasbro. In addition, we compete, in our *Flying Colors* and *Pentech* product categories, with Rose Art Industries, Hasbro (Play-doh) and Binney & Smith (Crayola), and, in our toy vehicle lines, with Racing Champions. We also compete with numerous smaller domestic and foreign toy manufacturers, importers and marketers in each of our product categories. Our joint venture's principal competitors in the video game market are Electronic Arts, Activision and Acclaim Entertainment.

Seasonality and Backlog

In 2001, approximately 54.3% of our net sales were made in the third and fourth quarters. Generally, the first quarter is the period of lowest shipments and sales in our business and the toy industry generally and therefore the least profitable due to various fixed costs. Seasonality factors may cause our operating results to fluctuate significantly from quarter to quarter. However, Pentech's writing instrument and activity products generally are counter-seasonal to the traditional toy industry seasonality due to the higher volume generally shipped for back-to-school beginning in the second quarter. In addition, Toymax's *Funnoodle* and *Go Fly a Kite* products are primarily sold in the spring and summer seasons. Our results of operations may also fluctuate as a result of factors such as the timing of new products (and related expenses) introduced by us or our competitors, the advertising activities of our competitors, delivery schedules set by our customers and the emergence of new market entrants. We believe, however, that the low retail price of most of our products may be less subject to seasonal fluctuations than higher priced toy products.

We ship products in accordance with delivery schedules specified by our customers, which usually request delivery of their products within three to six months of the date of their orders. Because customer orders may be canceled at any time without penalty, our backlog may not accurately indicate sales for any future period.

Table of Contents

Government and Industry Regulation

Our products are subject to the provisions of the Consumer Product Safety Act (CPSA), the Federal Hazardous Substances Act (FHSA), the Flammable Fabrics Act (FFA) and the regulations promulgated thereunder. The CPSA and the FHSA enable the Consumer Products Safety Commission (CPSC) to exclude from the market consumer products that fail to comply with applicable product safety regulations or otherwise create a substantial risk of injury, and articles that contain excessive amounts of a banned hazardous substance. The FFA enables the CPSC to regulate and enforce flammability standards for fabrics used in consumer products. The CPSC may also require the repurchase by the manufacturer of articles. Similar laws exist in some states and cities and in various international markets. We maintain a quality control program designed to ensure compliance with all applicable laws. In addition, many of our *Child Guidance* products are sold under the *Good Housekeeping Seal of Approval*. To qualify for this designation, our products are tested by Good Housekeeping to ensure compliance with its product safety and quality standards.

Employees

As of May 20, 2002, we employed 314 persons, all of whom are full-time employees. We employ 227 people in the United States, 16 in the United Kingdom, 51 in Hong Kong and 20 in China. We believe that we have good relationships with our employees. None of our employees is represented by a union.

Environmental Issues

We are subject to legal and financial obligations under environmental, health and safety laws in the United States and in other jurisdictions where we operate. We are not currently aware of any material environmental liabilities associated with any of our operations.

Properties

Our principal executive offices occupy approximately 17,000 square feet of space in Malibu, California under a lease expiring on February 28, 2008. In addition, we have a lease, expiring August 31, 2007, for approximately 11,000 square feet of space in Malibu, California which contains our design offices. We lease showroom and office space of approximately 8,000 square feet at the International Toy Center in New York City. We also have leased office and showroom space of approximately 5,000 square feet in Hong Kong from which we oversee our China-based third-party manufacturing operations, 318,000 square feet of warehouse space in City of Industry, California, 10,000 square feet of office space in Surrey, England and approximately 100,000 square feet of warehouse space in New Brunswick, New Jersey. In connection with our acquisition of Toymax, we have assumed various leases for office, warehouse and showroom space. Relating to Toymax, we occupy approximately 27,000 square feet of office space in Plainview, New York under a lease expiring on April 30, 2004. We lease showroom and office space of approximately 14,500 square feet at the International Toy Center in New York City. We occupy approximately 25,000 square feet of office and warehouse space in Clinton, Connecticut under a lease expiring September 30, 2007 from which the operations of Toymax's *Go Fly a Kite* division are carried out. We also lease an additional 4,800 square feet of office space in Hong Kong. We believe that our facilities in the United States, Hong Kong and England are adequate for the reasonably foreseeable future.

Legal Matters

We are a party to, and certain of our property is the subject of, various pending claims and legal proceedings that routinely arise in the ordinary course of our business, but we do not believe that any of these claims or proceedings will have a material effect on our business, financial condition or results of operations.

INFORMATION CONCERNING TOYMAX

In this section, Information Concerning Toymax, references to we, us, our and the Company refer to Toymax and, where the context requires (such as when Toymax discusses its business, operations, properties or products) its subsidiaries.

Company Overview

Toymax is a consumer leisure products company that creates, designs and markets innovative and technologically advanced toys as well as other leisure products, which are sold in the United States (United States) and throughout the world. Toymax products promote fun and creative play, and are available under several brands: *Toymax*® toys, such as *R.A.D.[™] Robot*, *Mighty Mo[™]* vehicles, the award-winning *Laser Challenge[™]* brand, *Creepy Crawlers[™]* activities brand and *TMX RC[™]* radio control vehicles; *Funnoodle*® pool and water toys and accessories; and *Go Fly a Kite*® kites, banners, *WindWheels[™]*, weathervanes and wind chimes. Management believes that the major strengths of Toymax include its ability to develop and design new toys, such as *Singing Starz[™] Video Karaoke*; to identify and satisfy niche opportunities with brands such as *Mighty Mo* s; to extend existing core brands such as *Laser Challenge*; and to identify acquisitions, such as *Go Fly A Kite, Inc.* (GFK), and *Funnoodle Inc.* (Funnoodle), that further its plan to diversify into other leisure product categories and selling seasons.

In 1998, we began to take a number of important steps designed to better position us for future and balanced growth through the diversification of our product line. In December 1998, we acquired the business of *Go Fly A Kite, Inc.*, a leading developer and marketer of kites, windsocks, banners, mini flags and *WindWheels[™]*. In November 1999, we completed the acquisition of the *Funnoodle* product line. *Funnoodle Inc.* is a leader in the pool and backyard water recreational products categories.

We have incurred losses for the past three fiscal years. For the year ended March 31, 2002, we had net sales of \$94.9 million and a pre-tax loss from continuing operations of \$12.3 million, excluding restructuring charges of \$15.6 million, compared to a pre-tax loss from continuing operations of \$1.1 million in fiscal 2001. The restructuring charges relate to the acquisition of 66% of the outstanding common stock by JAKKS, by which we were reorganized. The restructuring charges include the write-off of assets that will not be utilized by the combined companies, the accrual of certain fees for the early terminations of certain agreements, severance payments and a one time charge for the changing of the terms of our stock options.

Our Internet address is www.toymax.com, which provides information about us and our products. The site also contains games, information about where to purchase our products, a strictly monitored kid s chat area and hotlinks to affiliated web sites, such as those of licensors, industry related parties and financial institutions. Our GFK, Monogram and Candy Planet affiliates have separate Internet addresses at www.goflyakite.com, www.monintl.com, and www.candy-planet.com, respectively.

Notwithstanding the proposed merger, we believe that we are well positioned for future growth and have taken steps to return to profitability. The key elements of our growth strategy are to: (i) penetrate new markets, by product and customer expansion and diversification; (ii) smooth our revenue stream throughout the year by adding non-promotional items to our product portfolio; (iii) extend existing core brands; (iv) develop new core product categories; and (v) continue to license recognized brand names such as *Jeep*, *Chevrolet* and *Mercedes-Benz*.

Industry and Competition

We compete in several industries, with toys representing the largest portion. The majority of the toys sold in the United States are manufactured, either in whole or in part, overseas where labor rates are comparatively lower than in the United States. The largest foreign manufacturing market is the People s Republic of China (China), followed by Japan and Taiwan. Such operations require greater lead times than domestic manufacturing operations and also result in greater shipping costs, particularly for larger toys. The design, production and sale of toy products in the United States and throughout most of the world are subject to various regulations.

Toy manufacturers sell their products either directly to retailers or to wholesalers who carry the product lines of many manufacturers. There are thousands of retail outlets in the United States which sell toys and

Table of Contents

games. These outlets include: mass merchandisers, small independent toy stores, gift and novelty shops, grocery and drug chains, warehouse clubs, e-retailers and mail order catalogs. Despite the broad number of toy outlets, retail toy sales have been increasingly generated by a small number of large chains, such as Toys R Us, Wal-Mart, Kay-Bee, Kmart and Target. Despite this consolidation in recent years, both at the retail and manufacturing level, many small and mid-sized companies continue to compete in the design and development of new toys, the procurement of licenses, the improvement and expansion of previously introduced products and product lines and the marketing and distribution of toy products. This has resulted in an increased reliance among retailers on the large toy companies because of their financial stability and ability to support products through advertising and promotion and to distribute products on a national basis. Such consolidation may have a negative effect on small and mid-sized toy companies, such as Toymax.

The toy industry is highly competitive. Competition within the industry is based on consumer preferences, order fulfillment, pricing and new product development. In recent years, the toy industry has experienced rapid consolidation. We compete with many toy companies that have greater financial resources, greater name recognition, larger sales, marketing and product development departments and greater economies of scale. Due to the low barriers to entry into the toy industry, we also compete with smaller domestic and foreign toy manufacturers, importers and marketers.

We chose to expand into new leisure product categories in order to decrease reliance on the highly competitive toy industry. In this regard we acquired GFK and Funnoodle.

GFK competes in the kite, flag/windsock and lawn ornament markets in which it is estimated to have a large share. There are numerous specialty kite manufacturers, which are characterized by very small volume and higher pricing, and several larger companies distributing banners and lawn ornaments. Funnoodle competes primarily in the water and pool toy market, in which it is a leader.

Seasonality and Backlog

Sales of toy products are seasonal, with the majority of retail sales occurring in the third and fourth calendar quarters. We have taken steps to reduce our dependence on these highly seasonal products, including the acquisitions of GFK and Funnoodle, which are largely sold in the first and second calendar quarters. While we have taken these steps to level sales over the entire year, sales are expected to remain heavily influenced by the seasonality of our toy products.

The result of these seasonal patterns is that operating results and demand for working capital vary significantly by quarter and net losses may be expected in the first and last quarters of the fiscal year for the foreseeable future. Orders placed with us for shipment are cancelable until the date of shipment. The combination of seasonal demand and the potential for order cancellation makes accurate forecasting of future sales difficult and causes us to believe that backlog may not be an accurate indicator of our future sales. Similarly, financial results for a particular quarter may not be indicative of results for the entire year.

Products

Our existing product lines and calendar 2002 product introductions and extensions fall into six categories: Action Toys, Spring/ Summer, Children's Activity Toys, Girls Toys, Vehicles and Electronics.

Action Toys

The *Laser Challenge* brand was introduced in 1996, and continues to be the top-selling laser game. The *Laser Challenge* system uses an advanced infrared light technology, which is effective at longer firing distances than competing systems. We continue to redesign and extend the *Laser Challenge* brand, a strategy which supports our expectation that *Laser Challenge* will be marketed over a long period of time. In fiscal 2002, we introduced *Laser Challenge Gotcha Extreme Mini Mayhem*TM, a compact sized version of the Extreme segment first introduced in 2000 as *Gotcha Extreme*TM and extended in 2001 as *Radar Extreme*TM. In fiscal 2002, we will be launching *Virtual Paintball*TM, which combines the technology and proven play pattern of *Laser Challenge* with the excitement of paintball, one of the fastest growing alternative sports in the United States.

Table of Contents

In fiscal 2003, we intend to introduce a new and improved *N.R.G. Paintball*TM for tween consumers who may be too mature to play *Laser Challenge* but are too young to be playing real paintball. *N.R.G. Paintball* includes a blaster which fires totally safe blobs of paint.

Spring/Summer

We entered the Spring/ Summer seasonal business in fiscal 1999 with the acquisition of GFK, whose product line includes youth and adult kites and a wide array of decorative flags, windsocks, door banners, mini flags and the WindWheels line of colorful lawn ornaments. In fiscal 2001, a series of kites designed by Joel K. Scholz, a renowned designer, was added to the GFK product line. In addition, the lawn ornament line was expanded to include weathervanes and wind chimes. In fiscal 2000, we expanded our seasonal offerings in this category with the acquisition of the Funnoodle product line. Funnoodle is a highly recognized brand of pool and recreational products. The product line's most visible item, the basic Funnoodle, is a 5-foot long, brightly colored, floating foam tube that has been one of the best selling summer toys in the United States since its introduction in 1994. The Funnoodle product line continues to be expanded with the introduction of products such as pool floats, swim rings, lawn sprinklers, and tumbling and exercise mats.

Children's Activity Toys

We have historically been a significant factor in Children's Activity Toys and reestablished ourself in fiscal 2001 with the successful re-introduction of the Creepy Crawlers® brand. We are extending the brand in fiscal 2002 to include *Creepie People*® and *Graveyard Ghoulies*sm *Creator Paks*®, which are mold and play sets. In fiscal 2002, we are also re-introducing the *Dollymaker*TM *Fashion Maker* consisting of a molding oven, molds and *Glamour-Goop*TM compound whereby girls can design and make mini dolls and fashions in an endless variety of designs and colors.

Girls' Toys

Our Girls' Toys product line includes the *Beauty Works*TM brand of role play activities such as *Nail Salon* and *Fragrance Designer*TM; the *Jam Rope*TM, a musical jump rope; and the *Talking Tina*® brand of fashion dolls and soft furniture which fits any 11 1/2" fashion doll.

Vehicles

In fiscal 2003, we intend to introduce the *TMX RC*sm *Equalizer*sm a radio control vehicle with X-Tech Wheels technology, which allows the vehicle to slide across the floor and to perform a series of exciting stunts.

We introduced the *Mighty Mo*TM brand of innovative vehicles late in fiscal 1998. The first product utilized an infrared key chain controller to activate these light, sound and motion vehicles and is marketed in our patented try me package. In fiscal 2000, the *Mighty Mo's Infrared Vehicles* category was extended to include specialty vehicles with unique, stunt actions; this line will expand in fiscal 2002 to include a rollover car and a wheelie quad. The *Mighty Mo's* brand also includes monster trucks and a line of flywheel powered endurance vehicles. We currently have license arrangements to produce *Mighty Mo's* versions of *Chevrolet*, *Jeep*, *Dodge*, *Mercedes*, *BMW*, *Porsche*, *Audi*, *Porsche*, *Humvee* and *Ford* styles.

Mighty Mo's Jr., the pre-school segment of our vehicle business, is a line of products with moving eyes and mouth, and speech and motion capabilities. This segment includes *Preston Pushbutton*sm, a battery operated programmable robot which walks, talks and has light-up eyes and mouth; *Denny the Dump Truck*sm and *Dougie Chug-Along*sm, which are infrared remote control vehicles; and *Rick and Robbie Racers*sm, which are infrared remote vehicles which interact with each other as they race.

Electronics

We continue to successfully manage our key brands in this category while expanding our popular T.V. games line of palm sized controllers that plug directly into a television set and includes 10 classic video games licensed from Activision. New for fiscal 2003, we plan to ship Atari T.V. games utilizing a joystick that

Table of Contents

connects directly to the television. The controller is completely portable and does not require a console. Additionally in the current fiscal year, we have introduced *Singing Starz™ Video Karaoke*, the first home karaoke player with a built in video camera that puts you on the television screen.

Product Design and Development

We have built a knowledgeable in-house product development team and a network of independent designers to create new products. Employees in the Marketing and Research and Development departments coordinate efforts to design and develop the majority of our toy and innovative new product lines. Current technologies have been utilized to redesign, redevelop and extend major brands and products from the past, *E.G. Creepy Crawlers* and *Popples*. GFK strives to maintain a product line that displays cutting edge graphics and reflects current cultural trends. Funnoodle has sought to develop new products largely by applying extruded foam manufacturing techniques and designs to traditionally successful products. Our success is dependent on our ability to continue these activities. Our sponsored research and development expenses for fiscal 2000, 2001 and 2002 were \$4.2 million, \$3.4 million and \$3.7 million, respectively.

We continually evaluate new product ideas generated by a number of outside designers to maintain access to a wide range of development talent. When a product is developed based on the idea presented by an independent designer, we typically enter into a royalty agreement with the designer.

Licensing

Licensing is a major influence on the leisure products industry affecting virtually all product categories. Although historically we have not significantly relied on entertainment-related licenses, we have marketed and continue to market products based on licensed popular characters and trademarks from major entertainment companies and other widely known corporate trademarks. This allows us to benefit from pre-existing awareness of a character or brand and from the marketing efforts and prior goodwill attached to it. A principal licensor is *Activision*®, as well as many of the world's leading auto makers for use of their most popular model names on our *Mighty Mo's* vehicle line.

In return for the use of the licensed character or brand name, we typically pay licensing fees based upon net sales from products marketed under the subject license. Furthermore, the acquisition of a license generally involves the payment of non-refundable minimum royalty payments.

Sales and Distribution

We operate in two reporting segments: (i) Toymax Brands (primarily consisting of sales activities conducted through Toymax Inc. (*TMI*); and (ii) Toymax (H.K.) Limited (*THK*) and Toymax Enterprises (consisting of GFK and Funnoodle).

Sales conducted by *TMI* consist of sales of our promotional product lines to primarily United States customers pursuant to customer purchase orders. Customers purchasing products on this basis include Toys 'R Us, Kay-Bee Toys, Costco Wholesale, Wal-Mart Stores, Inc., and Target Stores, Inc. Sales conducted by *THK* consist of sales on a free on board (*FOB*) Hong Kong basis which are generally based on letters of credit, and include sales of primarily lower priced basic products to the United States and international retailers including Toys 'R Us International, Index (U.K.), Wal-Mart (Canada) and sales of our promotional product lines to approximately 50 international distributors.

Funnoodle and GFK sales are made primarily to United States customers, on standard credit terms, pursuant to customer purchase orders. Sales conducted by GFK are on a COD, prepaid or credit card basis for those customers who do not qualify for credit terms. Extended credit terms are periodically offered to qualifying customers. To a lesser extent, the GFK operations sell to customers internationally. These international customers generally purchase products utilizing a direct letter of credit and shipments are made directly from the overseas factory on a *FOB* Hong Kong basis.

Table of Contents

Our products are sold in over 45 countries around the world. The following table depicts our net sales in these two segments for the last three fiscal years:

Sales

	Fiscal Year		
	2000	2001	2002
	(In thousands)		
Toymax Brands	\$ 91,062	\$ 85,496	\$65,568
Toymax Enterprises	18,803	29,655	29,284
Net Sales	\$ 109,865	\$ 115,151	\$94,852

Toymax Brands Sales. This segment's United States sales activities are conducted through its nationwide network of independent sales representatives, an in-house sales staff and, with respect to certain major accounts, by senior management. Comprised of more than 50 sales executives and 14 sales organizations at March 31, 2002, this sales network maintains close customer relationships, develops new accounts and presents new products to its established customers. Our leading United States customers (not including THK sales to the United States) include major toy retailers, mass merchandisers, department stores and catalog companies. TMI sales constituted 55.3%, 41.0% and 37.5% of consolidated net sales in fiscal 2000, 2001 and 2002, respectively.

THK sales are comprised of sales to international retailers and distributors and to certain United States retailers. Such sales are conducted on a FOB Hong Kong basis and generally require either the opening of a letter of credit or are backed by credit insurance. Since our inception in 1990, we have emphasized international sales, and today our products are sold in over 50 countries worldwide. Our international sales network consists of approximately 50 international distributors and 11 international sales representative organizations. In fiscal 2000, 2001 and 2002, Toymax HK sales accounted for 27.5%, 26.3% and 31.6% of net sales, respectively.

Toymax Enterprises Sales. GFK sales are comprised primarily of sales to kite stores, hobby stores, gift, specialty and bookstores and toy stores. Products are also distributed by mail order catalogs, such as L.L. Bean, sporting goods stores, and other mass-market retailers. In addition to our in-house sales and customer service staff, GFK employs a network of 96 independent sales representatives. GFK products are currently sold to over 20,000 customers.

Funnoodle products were sold through the in-house sales staff of the prior owner under a servicing agreement and a network of sales representative organizations primarily to the largest mass-market chains in the United States. The servicing agreement terminated effective August 2001, and, thereafter, such activities have been performed by our personnel. Historically, domestic sales have accounted for substantially all of Funnoodle's sales.

Customers

Only Toys 'R Us and WalMart each accounted for more than 10% of invoiced sales during fiscal 2002.

Marketing

We employ a variety of methods to market our new and existing products. New toys, existing toys and line extensions are marketed primarily by members of our executive and sales management at our showrooms in Hong Kong, New York and Dallas during major international toy shows. We are also represented at additional toy and kite shows both domestically and internationally.

Product packaging and placement is a large part of our overall marketing strategy. Our products are sold in brightly colored, eye-catching packages with strong brand identity. All packaging must meet strict guidelines for communication effectiveness and for the ability to stand out from the competitive clutter. We

Table of Contents

utilize try me packaging whenever possible. We also employ traditional marketing methods such as couponing, in-store demonstrations adjacent to our toy products, and public relations.

We currently allocate a significant portion of our marketing resources to television advertising, which we believe is the most cost-effective way to reach our primary target audience of children. The commercials are run on national television and in local spot television markets to support the promotional efforts and distribution patterns of our key retailers. We use other media, such as print and on-line advertising, when appropriate.

Our GFK subsidiary primarily markets its products through its annual catalogs. GFK's and Funnoodle's other marketing channels include trade shows, seasonal brochures, advertisements in trade magazines, personal sales calls, co-op advertising and telemarketing.

Purchasing and Manufacturing

TMI and THK currently contract for all of their manufacturing requirements. We believe that this practice provides us with the most efficient use of our capital at this time. Tai Nam Industrial Company Limited (Tai Nam), which is based in Hong Kong, served as our purchasing agent for our core toy business pursuant to an agency agreement (the Agency Agreement) which terminated March 11, 2002, between Tai Nam and Toymax NY. Tai Nam is owned by David Chu, our former Chairman and principal stockholder. As our purchasing agent, Tai Nam arranged for the manufacturing of our products based on purchase orders placed with Tai Nam by us. In addition, Tai Nam handled all shipping documents, letters of credit, bills and payments, served as liaison with other vendors and performed quality control functions. For these services, Tai Nam generally received an agency fee of 7% of the gross invoiced value of products purchased by us. Pursuant to the Agency Agreement, we purchase products from Tai Nam at Yantian (China) FOB prices. We paid all expenses associated with the making of molds for new products. Pursuant to the Agency Agreement, we owned the tooling and molds for our products. Effective March 12, 2002, we perform these functions directly.

As purchasing agent, Tai Nam arranged for the manufacturing of our toy products based on purchase orders placed with Tai Nam by us. The majority of such products have been and are currently manufactured by Jauntway Investments Limited (Jauntway). Jauntway is an OEM toy manufacturer with two ISO certified manufacturing facilities in the southern portion of China. Jauntway is also owned by Mr. Chu. Since our inception, Jauntway has been our single most important manufacturer and we have been Jauntway's leading customer. In fiscal 2001 and 2002, approximately 60% and 56%, respectively, of all our products were manufactured by Jauntway (some utilizing subcontractors). We entered into a manufacturing agreement with Tai Nam and Jauntway dated September 22, 1997. Effective March 11, 2002, this agreement was terminated and replaced by a new three-year agreement with standard manufacturing terms.

Manufacturing commitments are made on a purchase order basis. We base our production schedules on customer estimates and orders, historical trends, the results of market research and current market information. We closely monitor market activity and adjust production schedules accordingly. We utilize Electronic Data Interchange programs maintained by certain of our largest customers, which allows us to monitor actual store sales and inventories, and thereby to schedule our production to meet anticipated re-orders.

Jauntway also obtains products or components from other independent manufacturers located principally in the southern portion of China, particularly during peak production periods. These suppliers are selected based on the quality of their products, prices and service.

The basic raw materials used by Jauntway in manufacturing our toy products are petrochemical resin derivatives. Integrated circuits have also become an important component of our technologically advanced toys. Costs of petrochemical derivatives and integrated circuits are affected by demand and supply as well as the value of the United States dollar in relation to foreign currencies, and have been subject to volatility in recent years. There can be no assurance as to the timing or extent to which we will be able to pass on any raw material or component price increases to our customers.

Table of Contents

In addition, a large portion of Jauntway's petrochemical derivatives and integrated circuits are imported from Taiwan via Hong Kong. Any disruption of trade between Taiwan and China may have a significant adverse effect on Jauntway's operations and, therefore, could have a significant adverse effect on our results of operations.

GFK utilizes four manufacturers, three in China and one in Taiwan, to make approximately 85% of its products, based upon its product specifications. Tai Nam acted as its agent in Hong Kong for all products produced in China pursuant to an agency agreement dated September 1, 2000. This agreement was also terminated on March 11, 2002. Manufacturing commitments are made on a purchase order basis. GFK typically has an annual agreement with each supplier, which is cancelable at any time. The suppliers are paid primarily on terms, and occasionally in cash or on terms with a letter of credit.

The bulk of Fun noodle's products are manufactured through an exclusive outsourcing arrangement with two United States-based manufacturers. This arrangement allows us to minimize capital investments in tools and fixtures, reduces our working capital requirements and eliminates the need for warehousing facilities. The remainder of Fun noodle's products are manufactured through outsourcing arrangements with various other contract manufacturers. Although Tai Nam and Fun noodle did not currently execute an agency agreement, Fun noodle and Tai Nam do have an existing relationship, whereby Tai Nam was acting as a purchasing agent for Fun noodle. Effective March 11, 2002, this arrangement was terminated.

Government and Industry Regulation

We are subject to the provisions of the Federal Hazardous Substances Act, the Federal Consumer Product Safety Act, the Flammable Fabrics Act and the regulations promulgated under each such act. Such acts empower the Consumer Product Safety Commission (CPSC) to protect the public from hazardous goods. The CPSC has the authority to exclude from the market goods that are found to be hazardous and requires a manufacturer to repurchase such goods under certain circumstances. We send samples of all of our marketed products to independent laboratories to test for compliance with the CPSC's rules and regulations, as well as with the product standards of the Toy Manufacturers of America, Inc. (TMA). We are not required to comply with the product standards of the TMA, but do so voluntarily. Similar consumer protection laws exist in state and local jurisdictions within the United States, as well as certain foreign countries. We design our products to exceed the highest safety standards imposed or recommended either by government or industry regulatory authorities.

We are not required by the United States government to obtain any quality or safety approvals prior to sales in the United States. However, prior to shipment, our products are tested by independent laboratories on behalf of us and major retailers. We, however, are required to have and have obtained European Community (CE) approval, European's toy safety standard, for our products sold in Europe.

Candy Planet's products are subject to inspection by the Food and Drug Administration and various other governmental agencies, and must comply with regulations under the Federal Food, Drug and Cosmetic Act and with various comparable state statutes regulating the manufacturing and marketing of food products.

Our advertising is subject to the Children's Television Act of 1990 and the rules promulgated by the United States Federal Communications Commission as well as the laws of certain countries that place certain limitations on television commercials during children's programming. We are subject to various other federal, state and local laws and regulations applicable to our business and believe that we are in substantial compliance with these laws and regulations.

Tariffs and Duties

In December 1994, the United States approved a trade agreement pursuant to which import duties on toys, games, dolls and other specified items were eliminated effective January 1, 1995 from products manufactured in all most favored nation countries (including China). The imposition or increases in quotas, duties, tariffs or other changes or trade restrictions, which may be imposed in the future, would have a material adverse effect on our financial condition, operating results or ability to import products. In particular,

Table of Contents

our costs would be increased if China's most favored nation status was revoked. In October 2000, the United States Congress approved permanent normal trade relations status for China, which was intended to eliminate the United States' annual review of China's trade relations status. China has signed similar agreements with the European Union and other World Trade Organization members in order to gain support for its entry into the World Trade Organization, although such entry is not guaranteed at this time. However, the imposition of trade sanctions by the United States or the European Union, or the loss of permanent normal trade relations status by China could result in substantial duties on the cost of toy, candy and kite related products manufactured in China and imported into the United States and Europe.

In addition, several of our operations and our primary agent, Tai Nam, are based in Hong Kong, formerly a British Crown Colony. On July 1, 1997, sovereignty of Hong Kong reverted back to China. To date, this change has not impacted our business.

Patents, Trademarks and Proprietary Technology

We own or control numerous patents and trademarks, which limit the ability of third parties to directly compete with us in our major brands. Key patents cover the *Creepy Crawlers Workshop* and the *Creature Creator* ovens, as well as aspects of the *Laser Challenge* system and infrared remote control vehicles. Key trademarks include *Creepy Crawlers*, *Plasti-Goop*, *Laser Challenge*, *Arcadia*, *Mighty Monsters*, *R.A.D!*, *Funnoodle*, *WindWheels* and *WindDesigns*.

Certain of our product lines also incorporate concepts or technologies created by outside designers, some of which are patented. In addition, many of our products incorporate intellectual property rights, such as characters or brand names that are proprietary to third parties. We typically enter into a license agreement to acquire the rights to the concepts, technologies or other rights for use with our products. These license agreements typically provide for the retention of ownership of the technology, concepts or other intellectual property by the licensor and the payment of a royalty to the licensor. Such royalty payments generally are based on the net sales of the licensed product for the duration of the license and, depending on the revenues generated from the sale of the licensed product, may be substantial. In addition, such agreements often provide for an advance payment of royalties and may require us to guarantee payment of a minimum level of royalties that may exceed the actual royalties generated from net sales of the licensed product. Some of these agreements have fixed terms and may need to be renewed or renegotiated prior to their expiration in order for us to continue to sell the licensed product.

Inflation

We do not believe that the relatively moderate rates of inflation in the United States in recent years have had a significant effect on our operations. Although rates of inflation in Asia have periodically resulted in an increase in the cost of manufacturing our products and such increased costs have had a modest impact on margins, we do not believe that inflation in Asia has had a materially adverse effect on our results of operations. We will continue our policy of monitoring costs and adjusting prices accordingly.

Employees

As of May 20, 2002, we had 66 employees, substantially all of which were full time. We are not subject to any collective bargaining agreements. We believe that our relationship with our employees is satisfactory.

Legal Proceedings

In March 2001, George G. Grillo, a product consultant, filed a complaint against us as well as against Monogram International, Inc., Monogram Products (H.K.) Ltd., Steven Lebensfeld and David Ki Kwan Chu, in the Supreme Court of the State of New York, County of Suffolk, alleging breach of express and implied contracts, violation of New York State Labor Law, unjust enrichment and unfair competition. The plaintiff seeks monetary damages totaling \$280,000 in compensatory damages, \$2,500,000 in exemplary damages plus costs and attorney's fees. We intend to defend the action vigorously, as well as file

Table of Contents

counterclaims, and do not believe that the lawsuit will have a material adverse effect on our financial position or results of operations, however, there can be no assurance of the outcome of the lawsuit.

We are involved in various other legal proceedings and claims incident to the normal conduct of our business. We believe that such legal proceedings and claims, individually and in the aggregate, are not likely to have a material adverse effect on our financial position or results of operations.

Our tax returns for 1992 through 2000 are under examination by the Internal Revenue Service and the statute has been extended through December 2002. We cannot predict at this time what the outcome of the examination will be or the impact, if any, on our results of operations.

(GFK), and the Funnoodle product line (Funnoodle) are referred to as Toymax Enterprises .

Recent Developments:

On March 11, 2002, JAKKS acquired approximately a 66.8% controlling interest in Toymax. In connection with this acquisition by JAKKS, Toymax developed and began to implement a restructuring plan to maximize its future operating results. The fiscal 2002 results reflect this restructuring plan. As part of this plan Toymax has determined not to continue the operations of Maxverse Interactive, Inc. (Maxverse) thus, Maxverse is treated as a discontinued operation along with Monogram International, Inc. and Candy Plant which were both sold effective November 30, 2001.

Table of Contents**Fiscal Year Ended March 31, 2002 Compared With Fiscal Year Ended March 31, 2001**

Net Sales. Net sales for fiscal 2002 decreased \$20.3 million, or 17.6%, to \$94.9 million from \$115.2 million in fiscal 2001.

Net sales of Toymax Brands decreased 23.3% to \$65.6 million, or 69.1% of total net sales, from \$85.5 million, or 74.2% of total net sales, in fiscal 2001. The decrease in net sales was primarily due to a decrease in sales of IR and programmable vehicles and an increase in sales discounts and allowances.

Net sales of Toymax Enterprises decreased 1.3% to \$29.3 million, or 30.9% of total net sales, from \$29.7 million, or 25.8% of total net sales, in fiscal 2001. The decrease in net sales was primarily the result of a decrease in the selling prices of pool and backyard water recreational products offset somewhat by an increase in kites and windwheels.

Gross Profit. Gross profit for fiscal 2002 decreased by \$19.0 million, or 44.7%, to \$23.4 million from \$42.4 million for fiscal 2001, with a decrease in gross margin from 36.8% of net sales for fiscal 2001 to 24.7% in fiscal 2002.

The gross profit for Toymax Brands decreased by \$16.9 million, or 53.3%, to \$14.8 million, or 22.7% of net sales, from \$31.8 million, or 37.2% of net sales for fiscal 2001. The decrease in the gross profit and margin was primarily the result of the decrease in sales volume, along with the increase in sales discounts and allowances.

The gross profit for Toymax Enterprises decreased \$2.0 million, or 19.0%, to \$8.6 million, or 29.3% of net sales, from \$10.6 million, or 35.7% of net sales for fiscal 2001. The decrease in both gross profit and margin was primarily the result of reduced selling prices of Toymax's pool and backyard water recreation products and to a lesser extent margins realized by GFK primarily as a result of product mix.

Selling and Administrative Expenses. Selling and administrative expenses for fiscal 2002 increased by \$12.0 million, or 31.9%, to \$49.8 million, or 52.5% of net sales, from \$37.7 million, or 32.8% of net sales, for fiscal 2001. Selling and administrative expenses of Toymax Brands for fiscal 2002 increased by \$13.5 million, or 44.1%, to \$44.1 million, or 67.2% of net sales, from \$30.6 million, or 35.8% of net sales, for fiscal 2001. This increase was a result of the restructuring charge of \$15.6 million relating to the acquisition of approximately 66.8% of Toymax by JAKKS. This charge includes a \$7.1 million write-off of certain assets which will not be utilized by the combined companies, as well as severance accruals of \$1.4 million, termination costs of certain agreements of \$2.2 million, professional fees and other charges of \$2.2 million and a one time charge of \$2.7 million for changing the terms of the existing stock options. This charge was offset by decreases in advertising and royalties related to the decrease in sales. Selling and administrative expenses of Toymax Enterprises for fiscal 2002 decreased \$1.5 million, or 20.0%, to \$5.6 million, or 19.4% of net sales, from \$7.1 million, or 23.9% of net sales, for fiscal 2001. The decrease was primarily the result of a decrease in amortization of goodwill and consulting fees offset by the restructuring charge.

Operating Income (Loss). As a result of the foregoing, fiscal 2002 had a loss of \$26.3 million compared to income of \$4.6 million in fiscal 2001. Toymax Brands incurred an operating loss of \$29.2 million in fiscal 2002 compared to operating income of \$1.2 million in fiscal 2001. Toymax Enterprises had operating income of \$2.9 million in fiscal 2002, compared to operating income of \$3.5 million in fiscal 2001.

Other Income (Expense), Net. Net other expense decreased from \$2.8 million, in fiscal 2001, to \$0.6 million, in fiscal 2002. This decrease was the result of the write-off of advances and the investment in the Yaboom Limited joint venture of \$1.9 million and the equity in the loss of the joint venture of \$0.7 million in fiscal 2001. In fiscal 2002, there were no such charges.

Interest Income (Expense), Net. Net interest expense for fiscal 2002 increased \$0.1 million, or 10.5%, to \$1.0 million from \$0.9 million in fiscal 2001. The increase in net interest expense was primarily due to increased bank borrowings in fiscal 2002.

Income (Loss) Before Income Taxes. Loss before income taxes for fiscal 2002 was \$27.9 million, compared to income before income taxes of \$1.1 million in fiscal 2001. In fiscal 2002, Toymax Brands had a

Table of Contents

loss before income taxes of \$30.6 million, compared to a loss of \$2.3 million in fiscal 2001. Toymax Enterprises had income before taxes of \$2.7 million in fiscal 2002, compared to income before income taxes of \$3.4 million in fiscal 2001.

Provision (Benefit) For Income Taxes. The effective rate for fiscal 2002 decreased to a benefit of 26.9% from an effective rate of 97.4% for fiscal 2001. The change in the effective rate is primarily related to the write-off of the investment in and advances to the joint venture in fiscal 2001 which did not result in any income tax benefit.

Income (Loss) From Continuing Operations. Loss from continuing operations was \$20.4 million in fiscal 2002, compared to a nominal profit in fiscal 2001.

Loss From Discontinued Operations. The loss from discontinued operations decreased by \$6.3 million, to a net loss of \$3.4 million in fiscal 2002, compared to a loss of \$9.8 million in fiscal 2001.

Net Loss. As a result of the foregoing, the net loss for fiscal 2002 increased \$14.1 million to \$23.9 million (\$1.97 per diluted share) from \$9.7 million (\$0.86 per diluted share) for fiscal 2001.

Fiscal Year Ended March 31, 2001 Compared with Fiscal Year Ended March 31, 2000

Net Sales. Net sales for fiscal 2001 increased \$5.3 million, or 5.0%, to \$115.2 million from \$109.9 million in fiscal 2000.

Net sales of Toymax Brands decreased 6.1% to \$85.5 million, or 74.2% of total net sales, from \$91.1 million, or 82.9% of total net sales, in fiscal 2000. The decrease in net sales was primarily due to a decrease in the sales of electronic toys that was partially offset by an increase in sales of infrared, radio-controlled and programmable vehicles.

Net sales of Toymax Enterprises increased 57.7% to \$29.7 million, or 25.8% of total net sales, from \$18.8 million, or 17.1% of total net sales, in fiscal 2000. The increase was primarily the result of the incorporation of a full year's net sales of Funnoodle, which was acquired in November 1999.

Gross Profit. Gross profit for fiscal 2001 increased by \$8.0 million, or 23.4%, to \$42.4 million from \$34.3 million the gross margin also increased from 31.3% in fiscal 2000 to 36.8% in fiscal 2001.

The gross profit of Toymax Brands increased by \$4.1 million, or 14.6%, to \$31.8 million, or 37.2% of net sales, from \$27.7 million, or 30.5% of net sales, for fiscal 2000. The increase in gross margin was primarily attributable to the decrease in markdowns, allowances and other promotional costs, which were adversely affected by the product recall in the prior year.

The gross profit of Toymax Enterprises increased by \$4.0 million, or 60.1%, to \$10.6 million, or 35.7% of net sales, from \$6.6 million, or 35.2% of net sales, for fiscal 2000. The increase in gross profit was primarily due to a full year's net sales of Funnoodle combined with better pricing.

Selling and Administrative Expenses. Selling and administrative expenses for fiscal 2001 decreased by \$0.5 million, or 1.3%, to \$37.7 million, or 32.8% of net sales, from \$38.2 million, or 34.8% of net sales, for fiscal 2000. Selling and administrative expenses of Toymax Brands for fiscal 2001 decreased by \$3.1 million, or 9.2%, to \$30.6 million, or 35.8% of net sales, from \$33.7 million, or 37.0% of net sales, for fiscal 2000. The decrease reflects a decrease in advertising costs of almost 30%, which was partially offset by higher royalties and research and development costs. Selling and administrative expenses of Toymax Enterprises were \$7.1 million, or 23.9% of net sales, as compared to \$4.2 million, or 22.4% of net sales in fiscal 2000. Selling and administrative expenses for Toymax Enterprises in fiscal 2001 reflect a full year's operating expenses of Funnoodle.

Operating Income (Loss). As a result of the foregoing, the operating income for fiscal 2001 increased by \$8.5 million, or 220.4%, to \$4.7 million from an operating loss of \$3.9 million for fiscal 2000. Operating income for Toymax Brands increased by \$7.4 million, or 118.4%, to \$1.2 million from an operating loss of \$6.3 million for fiscal 2000. Operating income for Toymax Enterprises increased by \$1.1 million to \$3.5 million from operating income of \$2.5 million in fiscal 2000.

Table of Contents

Other Income (Expense), Net. In fiscal 2001, Toymax recorded a write-off of its advances and investment in the Yaboom joint venture of \$1.9 million. Including this charge and the increase in the Company's equity in the operating loss of the Yaboom venture in fiscal 2001, net other income for fiscal 2001 decreased by \$3.2 million from \$0.4 million in fiscal 2000 to net other expense of \$2.8 million in fiscal 2001.

Interest Income (Expense), Net. Net interest expense for fiscal 2001 increased by \$0.4 million, or 65.1%, to \$0.9 million from \$0.5 million in fiscal 2000. The increase in net interest expense was primarily due to the use of working capital funds to finance Toymax's acquisitions and operations.

Income (Loss) Before Income Taxes. Income before taxes for fiscal 2001 increased by \$5.1 million to \$1.1 million, compared to a loss before taxes of \$4.0 million for fiscal 2000. Income before taxes for Toymax Brands increased by \$4.0 million, or 63.8%, to a loss before taxes of \$2.3 million, compared to a loss before taxes of \$6.3 million for fiscal 2000. Income before taxes for Toymax Enterprises increased by \$1.1 million to \$3.4 million, compared to income before taxes of \$2.3 million in fiscal 2000.

Provision (Benefit) for Income Taxes. The effective tax rate for fiscal 2001 increased to 97.4% from a benefit of 55.5% for fiscal 2000. The increase in the effective tax rate was primarily a result of the geographic distribution of income, as well as the reduction in the tax benefit attributable to the write-off of the investment in and advances to the joint venture.

Income (Loss) From Continuing Operations. Income from continuing operations increased from a loss of \$1.8 million in fiscal 2000, compared to break even in fiscal 2001.

Loss From Discontinued Operations. The loss from discontinued operations increased by \$9.7 million, to a net loss of \$9.8 million, in fiscal 2001, from a loss of \$0.1 million in fiscal 2000.

Net Income (Loss). As a result of the foregoing, the net loss for fiscal 2001 increased \$7.8 million to \$9.7 million (\$0.86 per diluted share) from \$1.9 million (\$0.18 per diluted share) for fiscal 2000.

Liquidity and Capital Resources

Toymax historically has funded its operations and capital requirements from cash generated from operations and from financing activities. During fiscal 2002, cash and cash equivalents decreased \$0.8 million to \$0.9 million. The Company's operating activities provided net cash of \$2.3 million, which was primarily due to net loss offset by net non-cash charges of \$0.4 million, an increase in net operating assets of \$25.8 million. Net operating assets included an increase of \$13.2 million in accounts payable and accrued expenses, which was offset by a decrease in due to affiliates of \$6.3 million and decreases of \$5.0 million from factor and accounts receivable, \$1.8 million in inventories and other assets of \$12.0 million.

Investing activities used \$4.7 million in net cash as compared to \$5.6 million in fiscal 2001. Investing activities in the current year consisted of \$3.5 million of capital expenditures and the payment of \$1.2 million of additional purchase price for the Funnoodle product line. Investing activities in the prior year included \$2.6 million related to business acquisitions and \$3.0 million for capital expenditures. Capital expenditures in both periods consist principally of the purchase of tooling for new products and equipment.

Financing activities provided \$1.6 million in net cash, primarily due from funding received by JAKKS of \$11.3 million substantially offset by the repayment of \$10.0 million of bank debt. Toymax also received \$0.2 million from the exercise of stock options.

In March 2002, Toymax's \$25.0 million bank facility was paid off in full and terminated.

In April 2002, Toymax (H.K.) Limited subsidiary terminated its credit facility with The Hongkong and Shanghai Banking Corporation Limited. The facility had provided for an import line of credit of \$500,000 and the acceptance of an export letter of credit guarantee for documents presented with discrepancies of up to approximately \$2.3 million.

Toymax expects to fund its near-term and long-term cash requirements from a combination of existing cash balances, cash flow from operations and borrowings from JAKKS. There can be no assurance that sufficient cash flows from operations will materialize or that financing from JAKKS or under a credit facility

will be available in amounts, at rates, or on terms and conditions acceptable to Toymax. In such event, additional funding would be required.

New Accounting Standards

The Financial Accounting Standards Board (FASB) issued SFAS No. 141, Business Combinations, and No. 142, Goodwill and Intangible Assets. SFAS No. 141 requires the use of the purchase method of accounting and prohibits the use of the pooling-of-interests method of accounting for business combinations initiated after June 30, 2001. SFAS No. 141 also requires that Toymax recognize acquired intangible assets apart from goodwill if the acquired intangible assets meet certain criteria. SFAS No. 141 applies to all business combinations initiated after June 30, 2001 and for purchase business combinations completed on or after July 1, 2001. It also requires, upon adoption of SFAS No. 142, that Toymax reclassify, if necessary, the carrying amounts of intangible assets and goodwill based on the criteria of SFAS No. 141.

In April 2001, Toymax elected to adopt SFAS No. 142. SFAS No. 142 requires, among other things, that companies no longer amortize goodwill, but instead test goodwill for impairment at least annually. In addition, SFAS No. 142 requires that Toymax identify reporting units for the purposes of assessing potential future impairments of goodwill, reassess the useful lives of other existing recognized intangible assets, and cease amortization of intangible assets with an indefinite useful life.

Toymax's previous business combinations were accounted for using the purchase method and as of April 1, 2001, the net carrying amount of goodwill from prior purchase transactions was approximately \$14.5 million. Annual amortization of this amount, which ceased being effective as of April 1, 2001, amounted to approximately \$1.5 million.

In August 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations. SFAS No. 143 requires the fair value of a liability for an asset retirement obligation to be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. We believe the adoption of this statement will have no material impact on the financial statements.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 requires that those long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable value or include amounts for operating losses that have not yet occurred. SFAS No. 144 is effective for financial statements issued for fiscal years beginning after December 14, 2001 and, generally, is to be applied prospectively. Toymax has elected to early adopt SFAS No. 144 in the current fiscal year.

Barter Transaction

In December 1998 and April 1999, Toymax entered into agreements with a broker of media advertising, whereby Toymax sold and transferred title to merchandise of Toymax having a fair value of approximately \$6.9 million in exchange for approximately \$8.7 million in trade credits. In March, 2002, the total remaining net asset balance of approximately \$4.0 million which is not expected to be utilized as a result of the acquisition by JAKKS, was expensed.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK OF JAKKS

The information contained in JAKKS' Annual Report on Form 10-K for the fiscal year ended December 31, 2001, as amended, and JAKKS' Quarterly Report on Form 10-Q for the quarter ended March 31, 2002, under the caption "Quantitative and Qualitative Disclosures About Market Risk" is incorporated herein by reference.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK OF TOYMAX

Toymax is exposed to certain market risks, which arise from transactions entered into in the normal course of business. Toymax's primary exposures are changes in interest rates with respect to its debt and foreign currency exchange fluctuations.

Interest Rate Risk

The interest payable on Toymax's revolving line-of-credit is variable based on LIBOR and/or the prime rates in the United States and Hong Kong, and therefore, affected by changes in market interest rates. Toymax does not use derivative financial instruments.

Foreign Currency Risk

While the Toymax product purchases are transacted in United States dollars, most transactions among the suppliers and subcontractors of Jauntway Investments Limited, an OEM toy manufacturer that has been Toymax's most important manufacturer since inception, are effected in Hong Kong dollars. Accordingly, fluctuations in Hong Kong monetary rates may have an impact on Toymax's cost of goods. However, since 1983, the value of the Hong Kong dollar has been tied to the value of the United States dollar, eliminating fluctuations between the two currencies. Despite the announcements by the Hong Kong Government that it is determined to maintain such fixed exchange rate, there can be no assurance that the Hong Kong dollar will continue to be tied to the United States dollar in the near future or longer term. Furthermore, appreciation of Chinese currency values relative to the Hong Kong dollar could increase the cost to Toymax of the products manufactured in China, and thereby have a negative impact on Toymax.

The Toymax charter grants specific authority to the board of directors, without action by the stockholders, to issue preferred stock with designations, preferences, and special rights and qualifications, limitations, or restrictions designated by the board of directors. At May 17, 2002, 12,316,186 shares of Toymax common stock were outstanding, and no shares of Toymax preferred stock were outstanding. Toymax's charter does not provide for cumulative voting and no preemptive rights are granted by Toymax's charter or bylaws.</p>	<p>The authorized capital stock of JAKKS is presently 26,000,000 shares, 25,000,000 of which are shares of common stock and 1,000,000 of which are shares of preferred stock. JAKKS has filed a preliminary proxy statement with the SEC for its 2002 Annual Meeting of Stockholders, which JAKKS expects to occur at the end of the second or beginning of the third quarter of 2002. One of the resolutions provided in the preliminary proxy statement that will be voted upon at that Annual Meeting will be to increase JAKKS authorized capital stock. If this proposal is approved, JAKKS will have authorized capital stock of 105,000,000 shares, 100,000,000 of which are shares of JAKKS common stock and 5,000,000 of which are shares of JAKKS preferred stock. The approval of this proposal is required for JAKKS to have a sufficient number of authorized shares available for issuance to the Toymax shareholders of the approximately 325,853 shares required to consummate the merger. The JAKKS charter grants specific authority to the board of directors, without action by the stockholders, to issue preferred stock with designations, preferences, and special rights and qualifications, limitations, and restrictions designated by the board of directors. At May 17, 2002, 19,668,789 shares of JAKKS common stock were outstanding. No preemptive rights are granted by JAKKS charter or bylaws. On April 23, 2002, JAKKS filed with the Securities and Exchange Commission a registration statement for the sale of 3,500,000 shares of its common stock sold by JAKKS and 500,000 shares of its common stock underlying options to be sold by certain selling stockholders pursuant to an underwritten offering. Vacancies on the Board of Directors	The Toymax bylaws provide that if there is any vacancy on the board of directors, the directors, by a majority vote, may appoint any qualified person to fill such vacancy, and that person shall hold office for the unexpired term until his successor shall be duly chosen.	The JAKKS bylaws provide that vacancies may be filled by a majority of the directors then in office, although less than a quorum, or a sole remaining director, and any director so chosen shall hold office until the next annual election and until his successor shall be duly elected and qualified.
Removal of Directors	The Toymax bylaws provide that any director may be removed either for or without cause at any time by the affirmative vote of the holders of a majority of all the shares of stock outstanding and entitled to vote, at a special meeting of the stockholders called for the purpose of removal.	The JAKKS charter and bylaws do not contain any specific provisions regarding the procedures to be followed in removing directors, and, therefore, such removal is governed by the Delaware General Corporation Law, which provides that a director or the full board may be removed, with or without cause, by the holders of a majority of shares entitled to vote at an election of directors.
Action by Written Consent and Special Meetings of Stockholders	Toymax's bylaws provide that any action required to be taken at any annual or special meeting of stockholders, or any action which may be taken at any meeting, may be taken without a meeting, without prior notice and without a vote, if a consent in writing shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. The Toymax bylaws also provide that special meetings of the stockholders for any purpose or purposes may be called by resolution of the board of directors or by the Secretary of the board of directors upon the written request stating the purpose of such meeting by the holders of at least 30% of the outstanding shares of Toymax's capital stock.	JAKKS's bylaws provide that special meetings may be held by resolution of JAKKS's board of directors.

TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2000, 2001 and 2002

1. Organization and Summary of Significant Accounting Policies

On February 10, 2002, the Company entered into an agreement with Jakks Pacific Inc. (*Jakks*) for Jakks to acquire all of the outstanding shares of the Company. In a two-step transaction, Jakks acquired approximately 66% of the Company's outstanding shares from the Company's principal shareholders pursuant to a stock purchase agreement effective March 11, 2002, and then will acquire the remainder pursuant to a definitive merger agreement that is subject to stockholder approval. For the remaining Company shares, Jakks will pay \$4.50 per share consisting of \$3 per share in cash and the remainder in shares valued at \$1.50 each.

The financial statements do not reflect any adjustments related to a step-up in valuation or other adjustments related to the change in control.

Principles of consolidation

The consolidated financial statements include the accounts of Toymax International, Inc. (*Toymax*) and the Company) and its subsidiaries after elimination of intercompany accounts and transactions.

Business

The Company's operations consist principally of its traditional toy products business and the businesses of its acquired enterprises. The toy products business is conducted by the Company's subsidiaries, Toymax, Inc. (*TMI*) and Toymax (H.K.) Limited (*Toymax HK*), which are involved in designing, marketing and distributing toy products (collectively with the Yaboom Ltd. joint venture, *Toymax Brands*). The Company's other ventures include Go Fly A Kite, Inc. (*GFK*), Funnoodle, Inc., and Funnoodle (H.K.) Limited (together with Funnoodle (H.K.) Limited, *Funnoodle* , formerly Sun Master Investment Limited) (collectively *Toymax Enterprises*). GFK and Funnoodle were formed to acquire the businesses described in Note 3.

Effective November 30, 2001, the Company sold the net assets of Monogram International, Inc. and Monogram Products (H.K.) Limited (collectively *Monogram*) and the Candy Planet division of TMI to an entity controlled by David Chu, the former chairman of the Company for \$2.25 million. In March 2002, the Company, in connection with its restructuring (Note 2), abandoned the operations of Maxverse Interactive, Inc. (*Maxverse*). Accordingly, the financial statements have been adjusted to reflect Monogram, Candy Planet and Maxverse as discontinued operations (Note 16).

Cash and cash equivalents

Cash and cash equivalents includes investments with original maturities of three months or less at the date of acquisition. Such investments, consisting primarily of investments in commercial paper, are stated at cost, which approximates market value, and amounted to approximately \$0.6 million and \$0.3 million at March 31, 2001 and 2002, respectively.

Inventories

Inventories are stated at the lower of cost (first-in, first-out basis) or market value. Inventories consist principally of purchased finished goods.

Property and equipment

Property and equipment are stated at original cost. Depreciation of machinery, equipment, molds and furniture and fixtures is computed by the straight-line method over the estimated useful lives of the assets.

Table of Contents

TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Leasehold improvements are amortized by the straight-line method over the shorter of their economic lives or the terms of the leases.

Translation of foreign currency financial statements

Assets and liabilities of foreign subsidiaries are translated at year-end rates of exchange, and revenues and expenses are translated at the average rates of exchange for the year. Gains and losses resulting from translation are accumulated in a separate component of stockholders equity. Gains and losses resulting from foreign currency transactions (transactions denominated in a currency other than the functional currency) are included in net income or loss. Substantially all of the Company's foreign subsidiaries are located in Hong Kong. Since the value of the Hong Kong dollar has been tied to the value of the United States dollar, foreign currency fluctuations have been eliminated.

Income taxes

Deferred income taxes are recognized based on the differences between the tax bases of assets and liabilities and their reported amounts in the financial statements which will result in taxable or deductible amounts in future years. Further, the effects of enacted tax law or rate changes are included in income as part of deferred tax expenses or benefits in the period that includes the enactment date. A valuation allowance is recognized if, in the opinion of management, it is more likely than not that some portion of, or all of, a deferred tax asset will not be realized.

Revenue recognition

Sales are recorded upon shipment, free on board from the point of shipment. The Company provides, as a reduction of sales, for anticipated returns, allowances and other sales incentives, based on known and anticipated claims.

Shipping and handling costs

The consolidated financial statements reflect, for all periods presented, the adoption of the classification requirements pursuant to Emerging Issued Task Force (EITF) 00-10, *Accounting for Shipping and Handling Fees and Costs*, which was effective in the Company's fourth quarter of fiscal 2001. The Company reclassified income from freight charges to customers to Net sales and warehousing, shipping and handling costs to Cost of goods sold. Such costs, net of the related revenue, were historically included in Selling, general and administrative expenses.

Advertising

Advertising costs are charged to operations as incurred and were approximately \$13.3 million, \$9.5 million and \$8.1 million for the years ended March 31, 2000, 2001 and 2002, respectively.

Advertising costs associated with customer benefit programs are accrued as the related revenues are recognized and reflected in Net sales.

Royalties

Minimum guaranteed royalties, as well as royalties in excess of minimum guarantees, are expensed based on the sales of related products. The realizability of minimum guaranteed royalties paid is evaluated by the Company based on the projected sales of the related products.

Table of Contents

TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Research and development expenses

Research and development expenses are charged to operations as incurred and are included in selling and administrative expenses. Research and development expenses for the years ended March 31, 2000, 2001 and 2002 were approximately \$4.2 million, \$3.4 million and \$3.7 million, respectively.

Fair value of financial instruments

The carrying amounts of certain financial instruments, including cash, due from Factor, accounts receivable, accounts payable and bank obligations, approximate fair value as of March 31, 2001 and March 31, 2002 because of the relatively short-term maturity of these instruments. Fair value of the amounts due to or from affiliates cannot be readily determined because of the nature of the terms.

Accounting for the impairment of long-lived assets

Long-lived assets, which include goodwill and property and equipment, are evaluated for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through the estimated undiscounted future cash flows from the use of these assets. When any such impairment exists, the related assets will be written down to fair value. In fiscal 2001, the Company recognized an impairment loss of approximately \$1.9 million related to the valuation of goodwill and the investment in and advances to the Company's joint venture. See Note 2 for impairment charges recorded in connection with the Company's restructuring.

Goodwill

Goodwill represents the excess purchase price paid over the fair market value of the net assets of the acquired company. Goodwill was amortized over 10-15 years on a straight-line basis prior to April 1, 2001. Commencing fiscal 2002, amortization of goodwill ceased in accordance with by Statement of Financial Accounting Standards (SFAS) No. 142.

The carrying value of goodwill is based on management's current assessment of recoverability. Management evaluates recoverability using both objective and subjective factors. Objective factors include management's best estimates of projected future earnings, cash flows and analysis of historical and recent sales and earnings trends. Subjective factors include competitive analysis and the Company's strategic focus.

Earnings (loss) per share

Basic earnings per share includes no dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects, in periods in which they have a dilutive effect, the effect of common shares issuable upon exercise of stock options and warrants.

Options and warrants to purchase an aggregate of 2,738,620, 2,393,545 and 2,097,910 shares of common stock were outstanding at March 31, 2000, 2001 and 2002, respectively, at exercise prices ranging from \$3.75 to \$10.20 per share in fiscal 2000, \$1.34 to \$8.63 per share in fiscal 2001, and \$0.94 to \$8.63 in fiscal 2002. Such options and warrants are not included in the computation of diluted earnings per share because they are anti-dilutive (Note 11).

Accounting for stock based compensation

The Company accounts for its stock option awards to employees under the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion (APB) No. 25, *Accounting for Stock Issued to Employees*. Under the intrinsic value based method, compensation cost is the excess, if any, of the

Table of Contents

TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

quoted market price of the stock at the grant date or other measurement date over the amount an employee must pay to acquire the stock. The Company makes pro forma disclosures of the net income and earnings per share as if the fair value based method of accounting had been applied as required by SFAS No. 123, *Accounting for Stock-Based Compensation*.

The Financial Accounting Standards Board (FASB) issued Interpretation (FIN) No. 44, *Accounting for Certain Transactions Involving Stock Compensation*. FIN No. 44 clarifies the application of APB No. 25 for the accounting consequences of various modifications of the terms of a previously fixed stock option. Significant modifications to the option terms could cause a charge to compensation as the options are treated as variable options.

Use of estimates

The preparation of the financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the more significant estimates included in these consolidated financial statements are the estimated allowance for doubtful accounts receivable and accrued rebates and allowances and the realizability of goodwill. Actual results could differ from those and other estimates.

Concentration of credit risks

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash balances deposited in financial institutions which exceed FDIC insurance limits, receivables due from Factor and accounts receivable not sold to a factor.

The Company established an allowance for accounts receivable based upon factors surrounding the credit risk of specific customers historical trends and other information. See Note 13 for information relating to the concentration of sales to major customers.

Comprehensive loss

Comprehensive loss refers to revenue, expenses, gains and losses that under generally accepted accounting principles are excluded from net loss, as these amounts are recorded directly as an adjustment to shareholders' equity. The Company's comprehensive loss is comprised of foreign currency translation adjustments. The comprehensive loss for the three years ended March 31, 2002 is the same as the reported net loss.

Recent Accounting Standards

The FASB issued SFAS No. 141, *Business Combinations*, and No. 142, *Goodwill and Intangible Assets* in June 2001. SFAS No. 141 requires the use of the purchase method of accounting and prohibits the use of the pooling-of-interests method of accounting for business combinations initiated after June 30, 2001. SFAS No. 141 also requires that the Company recognize acquired intangible assets apart from goodwill if the acquired intangible assets meet certain criteria. SFAS No. 141 applies to all business combinations initiated after June 30, 2001 and for purchase business combinations completed on or after July 1, 2001. It also requires, upon adoption of SFAS No. 142, that the Company reclassify, if necessary, the carrying amounts of intangible assets and goodwill based on the criteria of SFAS No. 141.

In April 2001, the Company elected to adopt SFAS No. 142. SFAS No. 142 requires, among other things, that companies no longer amortize goodwill, but instead test goodwill for impairment at least annually. In addition, SFAS No. 142 requires that the Company identify reporting units for the purposes of assessing

potential future impairments of goodwill, reassess the useful lives of other existing recognized intangible assets, and cease amortization of intangible assets with an indefinite useful life.

The Company's previous business combinations were accounted for using the purchase method and as of April 1, 2001, the net carrying amount of goodwill from prior purchase transactions was approximately \$14.5 million. Annual amortization of this amount, which ceased effective April 1, 2001, amounted to approximately \$1.5 million.

The effect of adoption of SFAS No. 142 on the reported net loss for prior periods are as follows:

In August 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. SFAS No. 143 requires the fair value of a liability for an asset retirement obligation to be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. The adoption of this statement will have no material impact on the financial statements.

In October 2001, the FASB issued SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. SFAS No. 144 requires that those long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable value or include amounts for operating losses that have not yet occurred. The Company has elected to early adopt SFAS No. 144 in the current fiscal year in connection with its discontinued operations (Note 16).

As a result of the acquisition, the Company terminated various license agreements and its factor agreement resulting in a charge. The Company also accrued for minimum guarantees for royalties associated with discontinued product lines. Included in accrued liabilities is approximately \$3.6 million related to the restructuring charge, of which approximately \$2.8 million is expected to be paid within the next six months. The remaining \$0.8 million related to the facility lease, will be paid over the lease term expiring in April 2004.

3. Business Acquisitions and Joint Ventures

In December 1998, the Company acquired substantially all of the operating assets, business operations and facilities of GFK. The aggregate maximum purchase price of approximately \$6.3 million consisted of up to \$5.9 million in cash and a non-interest bearing contingent note and \$0.4 million in related direct costs. A portion of the purchase price, \$1.3 million, was contingent upon the achievement of certain operating results for the twelve months ending August 31, 1999 and \$150,000 was contingent upon the achievement of certain operating results from the date of the acquisition until August 31, 1999. Both contingencies were incurred and paid in fiscal 2000. The acquisition has been accounted for using the purchase method. The Company recorded approximately \$5.8 million of goodwill, including goodwill related to the contingent payment of \$1.5 million, for the excess of the total purchase price over the fair value of the net assets acquired.

In November 1999, the Company acquired the Funnoodle product line from Kidpower, Inc. (Kidpower), pursuant to an asset purchase agreement dated October 25, 1999. The Funnoodle product line is a highly recognized consumer brand of pool and backyard water recreational products which include the original Funnoodle® water toys, floating pool mats, lawn sprinkler toys and exercise mats. The consideration for the acquisition was \$8.7 million paid in cash at the closing, the assumption of certain commitments of Kidpower in an amount of \$500,000, plus up to \$7.0 million payable to Kidpower after the closing if certain contingencies occur through October 31, 2002. The Company recorded approximately \$8.1 million of goodwill for the excess of the total purchase price over the fair value of the net assets acquired. The funding for the acquisition was out of the working capital of the Company. Based on the occurrence of certain contingencies contained in the acquisition agreement, the Company recorded and paid approximately \$3.8 million as additional goodwill through fiscal 2002.

In connection with the Funnoodle acquisition, the Company entered into a management services agreement dated November 30, 1999 with Kidpower (the *Kidpower Management Agreement*). Pursuant to the Kidpower Management Agreement, Kidpower will manage the day-to-day operations with respect to the Funnoodle product line. Pursuant to the Kidpower Management Agreement, a management fee of seven percent (7%) of the cost of all finished goods with respect to the Funnoodle product line is payable to

Kidpower. The Kidpower Management Agreement, which has an initial term through November 15, 2002, is subject to termination or renewal on an annual basis at the Company's option. In August 2001, the Company terminated the Kidpower Management Agreement.

In October 1999, the Company and a private investor formed Yaboom Ltd. (Yaboom), a joint venture. The Company's investment in Yaboom includes \$1.0 million for the equity ownership and \$1.1 million in non-interest bearing advances. Yaboom was formed to develop, manufacture and market innovative high-tech consumer products, which incorporate music and other intellectual property rights from popular recording artists. Under the terms of the joint venture, the Company, through a wholly-owned Hong Kong subsidiary, and the private investor each own fifty percent of Yaboom. The Company has accounted for the joint venture using the equity method and intends to permanently reinvest the earnings derived from the joint venture. Based on the uncertainty of the operations, the Company recognized an impairment in the value of the goodwill and investment in and advances to Yaboom of approximately \$1.9 million in fiscal 2001. The equity investment had no value at March 31, 2001 and 2002.

4. Due From Factor and Accounts Receivable

In the normal course of business, TMI and Funnoodle sell substantially all of their accounts receivable, without recourse, to the CIT Group, Inc. (the *Factor*), and receive payment from the Factor when the accounts are collected.

Effective April 1, 2002, the factoring agreement was terminated.

Accounts receivable consists mainly of sales not factored and amounts charged back by the Factor as a result of disputes primarily relating to unearned discounts and damaged shipments, net of allowances for possible losses.

5. Property and Equipment

Property and equipment consists of:

	March 31,		Estimated Useful Lives
	2001	2002

The Company recorded an impairment charge of \$2.3 million on molds and other fixed assets that will not be utilized as a result of the acquisition by Jakks (Note 2).

6. Prepaid Expenses and Other Current Assets

In December 1998 and April 1999, the Company entered into agreements with a broker of media advertising, whereby the Company through the Toymax Brands segment sold and transferred title to merchandise of the Company having a fair value of approximately \$6.9 million in exchange for approximately \$8.7 million in trade credits. The Company recorded a gross margin on this transaction of approximately

\$3.2 million. The Company expensed the net remaining prepaid advertising of approximately \$4.0 million in March 2002 which is not expected to be utilized as a result of the acquisition by Jakks, which historically has not used this type of advertising program (Note 2).

7. Bank Credit Facility

In December 2000, the Company replaced the Toymax Inc. (TMI) and Go Fly A Kite, Inc. (GFK) subsidiaries existing \$30.0 million credit facility and the Funnoodle \$5.0 million line of credit with a \$40.0 million facility for all of its U.S. based operating subsidiaries. Borrowings, which are subject to availability according to a formula based on eligible accounts receivable and inventory, bear interest at either the lender's U.S. prime rate or LIBOR plus 2.50%. The credit agreement, which expires in December 2003, is secured by the accounts receivable and inventories of the Company's domestic subsidiaries, as well as other properties, and is guaranteed by Toymax. The agreement contains certain restrictions relating to limitations on debt, certain investments and the payment of dividends. The Agreement was terminated by mutual consent in March 2002.

Effective April 2000, the Company's Toymax HK subsidiary renewed its credit facility with The Hongkong and Shanghai Banking Corporation Limited (*Hongkong Bank*). The facility provides for a clean export loan of \$1,000,000 and the acceptance of an export letter of credit guarantee for documents presented with discrepancies of up to approximately \$2.3 million. The facility, which is jointly available to the Company's affiliates in Hong Kong, was terminated by mutual consent in April 2002.

8. Related Party Transactions

The former majority stockholder of the Company owns significant interests in several other companies, including Tai Nam Industrial Company Limited (*Tai Nam*) and Jauntway Investments Limited (*Jauntway*). TMI and Toymax HK have purchased the majority of their merchandise directly from Tai Nam. The majority of the merchandise is manufactured in the People's Republic of China (*PRC*) by Jauntway.

The Company has significant transactions with Tai Nam. These transactions include purchases of the majority of the Company's and its subsidiary's merchandise and certain sales of the subsidiary's products. Tai Nam has occasionally provided extended payment terms for these purchases.

Prior to the Jakks acquisition (Note 1), Toymax HK and TMI had an agency agreement with Tai Nam, which provided for an agency fee of 7% on products purchased. The agency agreement also requires Tai Nam to provide all administrative services to Toymax HK.

In September 1997, the Company entered into a manufacturing agreement with Tai Nam and Jauntway. This agreement provides, among other things, that the Company shall not be required to provide a letter of credit or other security to Tai Nam or Jauntway in connection with its purchase orders.

GFK maintains some raw materials for manufacturing but purchases the majority of its product from manufacturers in the PRC and Taiwan based upon the company's product specifications. Prior to the Jakks acquisition, Tai Nam acted as GFK's agent in Hong Kong for all products produced in the PRC pursuant to an agency agreement dated September 1, 2000.

In April 2000, Funnoodle entered into an agency agreement with Tai Nam, which provides for an agency fee of 7% on products purchased.

Effective March 11, 2002, all agency agreements were terminated.

In March 2002, Jakks advanced approximately \$11.3 million to the Company on a non-interest bearing basis. The funds were used to retire bank and related party debt.

Deferred taxes result from temporary differences between tax bases of assets and liabilities and their reported amounts in the financial statements. The temporary differences result from costs required to be capitalized for tax purposes by the U.S. Internal Revenue Code, and certain items accrued for financial reporting purposes in the year incurred but not deductible for tax purposes until paid.

As of March 31, 2002, the Company has federal and state net operating loss carryforwards of \$13.7 million and \$31.4 million, respectively, expiring through 2022. Due to the change in control, which occurred during fiscal 2002, utilization of these losses to offset future income may be limited under IRC § 382. A valuation allowance has been recorded related to the limited realization of state net operating loss carryforwards. Based on Jakks ability to use the carryforwards, the Company believes it is more likely than not that these carryforwards will be utilized. Therefore, no further allowance was deemed necessary.

Litigation

The Company is involved in various legal proceedings in the ordinary course of its business activities. The Company believes that the resolution of such legal proceedings and claims, individually and in aggregate, are not likely to have a material adverse effect on its financial position or results of operations.

In March 2001, George G. Grillo, a product consultant, filed a complaint against the Company as well as against Monogram International, Inc., Monogram Products (H.K.) Ltd., Steven Lebensfeld and David Ki Kwan Chu, in the Supreme Court of the State of New York, County of Suffolk, alleging breach of express and implied contracts, violation of New York State Labor Law, unjust enrichment and unfair competition. The plaintiff seeks monetary damages totaling \$280,000 in compensatory damages, \$2,500,000 in exemplary damages plus costs and attorney's fees. The Company, which intends to defend the action vigorously as well as interpose counterclaims, does not believe that the suit will have a material adverse effect on its financial position or results of operations, however, there can be no assurance of the outcome.

The Company's federal tax returns for 1992 through 2000 and New York State returns for 1999 through 2001 are under examination. The tax authorities have raised no issues to date that would have a material effect on the financial statements.

During the fourth quarter of fiscal 2001, based on continued losses and weak projections for the Company's Monogram subsidiary and the uncertainty of the operations of the Company's joint venture, Yaboom, the Company recognized an impairment loss of approximately \$7.1 million related to the valuation of goodwill and the investment in and advances to the Company's joint venture.

During the fourth quarter of fiscal 2002, the Company had significant adjustments primarily related to the restructuring as a result of the acquisition by Jakks (Note 2). This affected operating income by approximately \$15.6 million. The Company also discontinued the operations of Maxverse in the fourth quarter of fiscal 2002 (Note 16). Furthermore, in the fourth quarter the Company provided for \$0.4 million for U.S. tax on previously untaxed Hong Kong income.

3.1 Subject to the satisfaction of the conditions set forth in Article 10, Toymax, as the surviving corporation of the Merger, shall file the Certificate of Merger in accordance with DGCL Section 251(c), and the Merger shall be effective as of the date and time set forth therein (the Effective Time).

3.2 At the Effective Time, Newco shall be merged with and into Toymax, and the Constituent Corporations shall thereupon become and constitute a single corporation. Toymax shall be the surviving corporation of the Merger and the separate existence of Newco shall cease. Except as otherwise provided by Law, the Surviving Corporation shall thereupon, without further act or deed, succeed to all the rights, privileges, immunities, powers and purposes of each of the Constituent Corporations; acquire all the business, property, franchises, claims and causes of action and every other asset of each of the Constituent Corporations; and assume and be subject to all the debts and liabilities of each of the Constituent Corporations.

3.3 The directors, officers, employees and agents of Newco and the Surviving Corporation shall be authorized, at and after the Effective Time, to execute and deliver, in the name of Toymax or Newco, any assignments, bills of sale, deeds or other instruments and to take such other actions as are reasonably necessary or appropriate to vest in the Surviving Corporation, as a result of, or in connection with, the Merger, all right, title and interest in and to the Assets and to perfect and to confirm the same.

4. *Certificate of Incorporation; Bylaws; and Directors and Officers of the Surviving Corporation.*

4.3 From and after the Effective Time, the number of Persons constituting the entire Board of Directors of the Surviving Corporation shall be two, and the incumbent directors of Newco immediately prior to the Effective Time shall thereupon become the directors of the Surviving Corporation.

4.4 At the Effective Time, all the incumbent officers of Toymax shall resign (or be removed) and the incumbent officers of Newco immediately prior to the Effective Time shall become the officers of the Surviving Corporation effective as of the Effective Time, it being expressly understood that no such resignation shall constitute a breach under any applicable employment contract or arrangement.

5. *Merger Consideration; Conversion of Shares.*

5.1 At the Effective Time, by virtue of the Merger and without any further act or deed by any Person, each share of common stock of Newco then outstanding shall be converted into one share of Toymax Common Stock, all of which shares shall be validly issued, fully paid and nonassessable and shall thereafter constitute all of the issued and outstanding capital stock of the Surviving Corporation.

5.2 Subject to Sections 5.5 and 5.6, at the Effective Time, by virtue of the Merger and without any further act or deed by any Person, each share of Toymax Common Stock then outstanding (other than any such share then owned by Toymax, a Subsidiary, JAKKS or Newco) shall cease to be outstanding and shall be retired and cancelled, and the holder of each such share immediately prior to the Effective Time shall cease forthwith to have any right with respect to any capital stock of the Surviving Corporation, or any interest therein or in the Assets, but shall thereupon become entitled to receive the Merger Consideration in respect of such share. Notwithstanding anything contained herein to the contrary, if the Value of JAKKS Stock on the Effective Date exceeds \$20.6767, JAKKS, at its option, shall be entitled to pay the Merger Consideration entirely in cash, in which case, JAKKS shall pay to each holder of Toymax Common Stock at the Effective Time a cash amount equal to the sum of (i) the Cash Payment and (ii) in lieu of the Stock Payment and the

Fractional Share Payment, if any, that would otherwise be payable to such holder (but for this provision), cash in the amount of \$1.65 per share of Toymax Common Stock.

5.3 At the Effective Time, by virtue of the Merger and without any further act or deed by any Person, each share of Toymax Common Stock then outstanding owned by Toymax, a Subsidiary, JAKKS or Newco shall cease to be outstanding and shall be retired and cancelled, and no Merger Consideration shall be payable in respect thereof.

5.4 At the Effective Time, by virtue of the Merger and without any further act or deed by any Person, each Option outstanding at the Effective Time shall expire and terminate, and the holder thereof immediately prior to the Effective Time shall cease forthwith to have any right with respect to any capital stock of the Surviving Corporation, or any interest therein or in the Assets, except that the holder of each Option on the Effective Date shall be entitled to receive a JAKKS Option or cash payment, based on the formula set forth on Schedule 5.4.

5.5 Any other provision of this Article 5 notwithstanding, any outstanding shares of Toymax Common Stock, the holder of which asserts and perfects the right to receive payment for shares pursuant to DGCL Section 262 (the Dissenting Shares), shall not be subject to the foregoing provisions of this Article, and the holder thereof shall have only such rights as are granted to dissenting stockholders under said DGCL Section 262; provided, however, that Dissenting Shares as to which the holder thereof subsequently withdraws his demand for payment or fails to perfect his dissenter's rights before payment thereof shall thereupon be subject to Section 5.2 in the same manner as provided herein for other outstanding shares of Toymax Common Stock (except as to the time of payment, which shall be as promptly as practicable after withdrawal of such demand or failure to perfect his dissenter's rights). Toymax shall give to JAKKS prompt notice of any demands received from holders of Dissenting Shares for payment of the value of such shares, and JAKKS shall have the exclusive right to conduct all negotiations and proceedings with respect to any such demands. Toymax shall not, except with the prior written consent of JAKKS, voluntarily make any payment with respect to, or compromise or settle, or offer to compromise or settle, any such demand for payment. 5.6 Any other provision hereof notwithstanding, if the determination of the Stock Payment in accordance with Section 1.63 (without regard to this Section 5.6) would result in a number of shares of JAKKS Stock which, together with the number of shares of JAKKS Stock issued at the First Closing pursuant to the Stock Purchase Agreement, would exceed the maximum number of shares of JAKKS Stock which could be issued without obtaining stockholder approval if and as required pursuant to Nasdaq Stock Market Rule 4350(i)(C) or (D) (the Nasdaq Rule), then, unless such stockholder approval shall have been obtained prior to the Effective Date, the number of shares of JAKKS Stock constituting the aggregate Stock Payment under this Agreement shall equal the excess of the maximum number of shares of JAKKS Stock that could be issued in connection with the Merger (including for this purpose the purchase of shares of Toymax Common Stock pursuant to the Stock Purchase Agreement) without obtaining stockholder approval pursuant to the Nasdaq Rule over the number of shares of JAKKS Stock issued at the First Closing pursuant to the Stock Purchase Agreement. In such case, each holder of Toymax Common Stock immediately prior to the Effective Date shall be entitled to receive, in respect of each such share, the fraction of a share of JAKKS Stock equal to the quotient of the number of shares of JAKKS Stock then so issuable pursuant to the Nasdaq Rule divided by the total number of shares of Toymax Common Stock outstanding immediately prior to the Effective Date. JAKKS shall pay to each holder of Toymax Common Stock immediately prior to the Effective Date an amount in cash equal to the product of (A) the Value of JAKKS Stock on the Effective Date and (B) the excess of the number of shares of JAKKS Stock which, but for the provisions of this Section 5.6, would have been included in the Stock Payment to such holder over the number of shares of JAKKS Stock to be included in the Stock Payment to such holder after giving effect to the limitation imposed by this Section 5.6.

Table of Contents6. *Payment Procedures.*

6.1 Prior to the Closing Date, JAKKS shall appoint American Stock Transfer and Trust Company or another Person (reasonably acceptable to Toymax), to act as the Paying Agent. Prior to or at the Closing, JAKKS shall deposit with the Paying Agent, in trust for the benefit of the holders of Toymax Common Stock outstanding at the Effective Time, cash in an amount sufficient to pay the Cash Payment, the Fractional Share Payment, any payment required pursuant to Section 5.6 or, if applicable, pursuant to Section 5.2, the total Merger Consideration (the Payment Fund), and shall enter into a written agreement with the Paying Agent under which (i) the Paying Agent shall be required to invest the Payment Fund as directed by JAKKS; (ii) any interest, dividends or other income thereon shall be added to and constitute a portion of the Payment Fund; (iii) if at any time the amount of the Payment Fund shall exceed the amount of the Cash Payment remaining to be paid, the Paying Agent shall be required to, upon request by JAKKS, remit to JAKKS cash in an amount less than or equal to the amount of such excess; and (iv) if at any time the amount of the Payment Fund shall be less than the amount of the Cash Payment remaining to be paid, the Paying Agent shall promptly give to JAKKS Notice to such effect and JAKKS shall promptly deliver to the Paying Agent funds in an amount equal to or greater than the amount of such deficiency. At, or as promptly as practicable after, the Effective Time, JAKKS shall authorize and direct the Paying Agent, as transfer agent and registrar for the JAKKS Stock, to issue certificates representing the Stock Payment to be made to each holder of Toymax Common Stock outstanding at the Effective Time.

6.2 JAKKS shall cause the Paying Agent, promptly after the Effective Time, to mail to each holder of Toymax Common Stock at the Effective Time, at such holder's address as shown on Toymax's regular stockholders list, (a) a letter of transmittal, in customary form reasonably acceptable to Toymax and the Paying Agent, which shall state that (i) such holder is entitled to receive the Merger Consideration in respect of the shares of Toymax Common Stock so held by such holder upon surrender of his Certificate or Certificates, as specified therein, including the amount of the Cash Payment, the amount of the Fractional Share Payment, any payment required pursuant to Section 5.6 and the number of whole shares of JAKKS Stock comprising the Stock Payment, and (ii) such surrender shall be effected, and risk of loss and title to such Certificate or Certificates shall pass only upon proper delivery thereof to the Paying Agent, and (b) instructions specifying the place at which and the manner in which such Certificate or Certificates are so to be delivered. No fractional share of JAKKS Stock shall be issued as part of the Merger Consideration, but in lieu thereof, the Fractional Share Payment shall be paid in an amount equal to the product of the fraction of the share that, but for this provision, would have been issued and \$18.797 or, if the Value of JAKKS Stock on the Effective Date is less than \$16.9173, the Value of JAKKS Stock on the Effective Date. Upon such surrender of any such Certificate, together with such letter of transmittal, duly completed and executed in accordance with the instructions thereto, and the delivery of such other documents as may reasonably be required by the Paying Agent, the holder of such Certificate shall be entitled to receive the Merger Consideration payable in respect of the shares of Toymax Common Stock represented by such Certificate. JAKKS shall thereupon cause the Paying Agent to promptly mail to such holder at such holder's address as shown on Toymax's regular stockholders list or, if a different address is indicated on the letter of transmittal, such other address (i) a check payable to the order of the holder or, if a different Person is indicated in the letter of transmittal, such other Person, in an amount equal to the sum of the Cash Payment, the Fractional Share Payment and any payment required pursuant to Section 5.6, or, if applicable in accordance with Section 5.2, the total Merger Consideration, and (ii) a certificate representing the whole number of shares of JAKKS Stock included in the Stock Payment registered in the name of the holder or, if a different Person is indicated in the letter of transmittal and there is delivered to the Paying Agent such additional documents as the Paying Agent may reasonably request to evidence compliance with applicable securities and other Law and the payment in full of any applicable stock transfer Taxes, such other Person. No interest shall accrue for the benefit of, or be payable to, any such holder on account of the Merger Consideration payable in respect of such shares of Toymax Common Stock. In the event of a transfer of ownership of any share of Toymax Common Stock which is not registered in the stock transfer records for the Toymax Common Stock, the Paying Agent shall be entitled to, and JAKKS shall cause the Paying Agent to, pay the Merger Consideration and mail a check and stock certificate therefor to the transferee thereof, if the Certificate representing such

shares is presented to the Paying Agent, together with such documents as the Paying Agent may reasonable request to evidence such transfer and the payment in full of any applicable stock transfer Taxes.

6.3 Notwithstanding the failure of any Certificate to be surrendered as hereinabove provided, each such Certificate, from and after the Effective Time, shall not represent any interest in the Surviving Corporation, or any Assets thereof, but shall represent only the right of the holder thereof at the Effective Time to receive the Merger Consideration payable in respect thereof upon surrender of such Certificate pursuant hereto. The stock transfer books of Toymax shall be closed immediately at the Effective Time and no transfer of shares of Toymax Common Stock shall be effective or registered thereafter.

6.4 If any Certificate shall have been lost, stolen or destroyed, upon the making of an affidavit to such effect by the Person claiming to be the holder of such Certificate and, if required by JAKKS, the posting by such Person of a bond as an indemnity against any claim that may be made against it with respect to such Certificate, JAKKS shall cause the Paying Agent to pay to such Person the Merger Consideration with respect to the shares represented by such Certificate.

6.5 Promptly after the Effective Time, JAKKS shall grant to each holder of an Eligible Option a JAKKS Option payable in respect thereof and issue and mail to such holder, at the address shown in the option agreement or certificate relating to such Eligible Option, a stock option agreement covering such JAKKS Option.

6.6 The Paying Agent shall be entitled to deduct and withhold from the amount of the Merger Consideration otherwise payable pursuant to this Agreement to any holder of shares of Toymax Common Stock at the Effective Time or any holder of an Eligible Option such amounts as it is required to deduct and withhold with respect to the payment of the Merger Consideration or the issuance of the JAKKS Option under the Code or any corresponding provision of any other Law relating to Taxes. To the extent that any amount is so withheld, such amount shall be deemed for all purposes of this Agreement to have been paid as part of the Merger Consideration to the holder of the shares of Toymax Common Stock at the Effective Time or to have been paid to the holder of the Eligible Option that would otherwise have been entitled actually to receive such amount.

6.7 None of JAKKS, the Surviving Corporation, or the Paying Agent, or any officer, employee or agent thereof, shall be liable to any Person in respect of any Merger Consideration that is delivered to a public official pursuant to and in accordance with any applicable abandoned property, escheat or similar Law.

6.8 If any portion of the Payment Fund remains undistributed six months after the Effective Time, JAKKS shall ensure that the balance thereof shall be delivered to JAKKS or to the Person designated by JAKKS, and any holder of a Certificate that shall not have theretofore complied with the provisions of this Article for the surrender of such Certificate and that shall not have received the Merger Consideration payable in respect thereof shall thereafter look only to JAKKS for the payment of such Merger Consideration. Any portion of the Merger Consideration remaining unclaimed by holders of shares of Toymax Common Stock at the Effective Time five years after the Effective Time (or such earlier date as such amount would otherwise escheat to or become the property of any Governmental Authority) shall, to the fullest extent permitted by Law, become the property of the Surviving Corporation, free and clear of any claims or interests of any Person previously entitled thereto.

9.5 Except as may be required pursuant to Section 9.6, from and after the date hereof and until this Agreement is terminated, none of Toymax, any Subsidiary, any Principal Stockholder, any Affiliate thereof, or any director, officer, employee or other agent or representative of any of them, shall, directly or indirectly, solicit any inquiry, offer or proposal from any Person other than JAKKS with respect to any transaction involving any sale or other disposition of the Business or of all or substantially all of the Assets (other than in the ordinary course of business) or of all or substantially all of the capital stock of Toymax or any Subsidiary. Prior to entering into any negotiations or discussions with any other Person with respect to, or furnishing confidential information or otherwise responding to, any Superior Proposal, Toymax shall enter into a confidentiality agreement with such Person (which agreement may not include any provision granting to such Person an exclusive right to negotiate with Toymax with respect to an Alternative Transaction). No provision hereof shall preclude Toymax or its Board of Directors from complying with the requirements of Rule 14d-9 or

Subject to Toymax's compliance with the conditions of this Section 9.6, prior to obtaining the Stockholder Approval, Toymax's Board of Directors may withdraw its approval or recommendation of the Merger, or modify or qualify such approval or recommendation, or approve or recommend a Superior Proposal if Toymax shall give to JAKKS written Notice thereof at least five (5) business days prior thereto. Unless this Agreement is terminated in accordance with Article 12 prior to the Stockholders Meeting, notwithstanding Toymax's receipt of any Alternative Proposal or any Alternative Action, Toymax shall hold the Stockholders Meeting and call for a vote of its stockholders for the adoption of this Agreement and the approval of the Merger.

V = lower of (1) the Value of JAKKS Stock on the Closing Date with respect to the Stock Purchase Agreement and (2) the Value of JAKKS Stock on the Closing Date with respect to this Agreement

$$R = \frac{V}{4.50}$$

$$N9 = N \times F$$

(C) Subject to (III), below, the adjusted exercise price of each JAKKS Option (E9) shall be calculated in accordance with the following formula:

2.1 At the Closing, subject to the terms and conditions of this Agreement, each Shareholder shall sell, assign, transfer and deliver to JAKKS the Shares then owned by such Shareholder.

2.2 At the Closing, subject to the terms and conditions of this Agreement, JAKKS shall pay the Purchase Price to the respective Shareholders, as follows:

(a) the Cash Payment payable to each Shareholder, in an amount equal to the product of \$3.00 and the number of Shares owned by such Shareholder on the Closing Date, plus the Fractional Share Payment payable to such Shareholder, if any, and

(b) subject to Sections 2.3 and 2.4, the Stock Payment payable to each Shareholder, in a number of shares of JAKKS Stock equal to the product of the Exchange Factor and the number of Shares owned by such Shareholder on the Closing Date; provided that no fractional shares of JAKKS Stock shall be issued as part of the Stock Payment, but in lieu thereof, the Fractional Share Payment shall be paid in an amount equal to the product of the fraction of the Share that, but for this provision, would have been issued and \$18.797 or, if the Value of JAKKS Stock on the Closing Date is less than \$16.9173, the Value of JAKKS Stock on the Closing Date.

In such case, JAKKS shall deliver to each Shareholder a pro rata portion of the aggregate Stock Payment based on the number of Shares owned by such Shareholder on the Closing Date, and shall pay to each Shareholder an amount in cash equal to the product of (A) the Value of JAKKS Stock on the Closing Date and (B) the excess of the number of shares of JAKKS Stock which, but for the provisions of this Section 2.4 would have been included in the Stock Payment to such Shareholder over the number of shares of JAKKS Stock to be included in the Stock Payment to such Shareholder after giving effect to the limitation imposed by this Section 2.4.

2.5 (a) Concurrent with the execution of this Agreement, (i) JAKKS is delivering to Feder, Kaszovitz, Isaacson, Weber, Skala, Bass & Rhine LLP (FKIWSB&R) cash in an amount equal to the aggregate Cash Payment that would be payable to the Shareholders pursuant to Section 2.2(a), calculated based on the number of Shares owned by each Shareholder on the date of this Agreement, to be held in escrow by FKIWSB&R pending the Closing or earlier termination of this Agreement; and (ii) the Shareholders are delivering to Brown Raysman Millstein Felder & Steiner LLP (BRMF&S and, together with FKIWSB&R, the Escrow Agents) stock certificates representing the Shares owned by the Shareholders as of the date hereof, to be held in escrow by BRMF&S pending the Closing or the earlier termination of this Agreement.

(b) JAKKS and the Shareholders hereby appoint the Escrow Agents to serve as escrow agents hereunder in accordance with the terms hereof, and the Escrow Agents hereby accept such appointment. Each of the Escrow Agents agrees to hold and disburse the funds or stock certificates deposited with it hereunder and to not disburse or deliver any of such funds or stock certificates except at the Closing (in accordance with Section 7.4) or otherwise upon three days prior Notice: (i) signed by JAKKS and delivered to FKIWSB&R and all of the Shareholders, in the case of FKIWSB&R, or (ii) signed by all of the Shareholders and delivered to BRMF&S and JAKKS, in the case of BRMF&S.

(c) The Escrow Agents shall have no obligations hereunder except as expressly set forth herein. Neither Escrow Agent shall incur any liability with respect to (a) any action taken or omitted in good faith upon the advice of its counsel given with respect to any questions relating to the duties and responsibilities of the Escrow Agents under this Agreement, or (b) any action taken or omitted in reliance upon any instrument which such Escrow Agent shall in good faith believe to be genuine (including the execution of such instrument, the identity or authority of any Person executing such instrument, its validity and effectiveness, and the truth and accuracy of any information contained therein), to have been signed by a proper Person or Persons and to conform to the provisions of this Agreement. In addition, neither Escrow Agent shall be liable to any Person by reason of any loss of any portion of the funds or the stock certificates deposited with it hereunder other than any such loss that results from such Escrow Agent's gross negligence of willful misconduct, and neither Escrow Agent shall be bound in any way by any contract or agreement between or among the other parties hereto, regardless of whether such Escrow Agent has knowledge of such contract or agreement or of its terms or condition.

(d) If this Agreement is terminated, (i) JAKKS shall be entitled to the release of all funds then held by FKIWSB&R hereunder upon three days prior Notice signed by JAKKS and delivered to FKIWSB&R and all of the Shareholders; and (ii) the Shareholders shall be entitled to the release of all stock certificates then held by BRMF&S hereunder upon three days prior Notice signed by the Shareholders and delivered to BRMF&S and JAKKS.

(e) Each Escrow Agent's respective obligations hereunder shall terminate upon the earliest to occur of (a) disbursement or release, in accordance with the terms hereof, of all of the funds or stock certificates deposited with it hereunder, (b) written consent signed by JAKKS and all of the Shareholders, and (c) delivery of all funds or stock certificates then held by its hereunder into a court of competent jurisdiction upon commencement of an interpleader action or other Proceeding with respect to such funds or stock certificates.

(b) each Option outstanding on the Closing Date, other than any Option then held by David Chu or any Shareholder, shall be deemed amended by this provision, without any other act or deed by Toymax or the holder of such Option, to provide that such Option shall remain in full force and effect (subject to the provisions hereof), and that on the earliest of the date of termination of this Agreement (if the Merger is abandoned after the Closing Date), the Effective Date or September 30, 2002 (such earliest date, the Acceleration Date), such Option shall be fully exercisable with respect to all shares of Stock covered thereby, notwithstanding that pursuant to the provisions thereof (including any provision of any Option Plan (as defined in the Merger Agreement) incorporated by reference therein or otherwise applicable thereto) such Option, but for this provision, would terminate prior to, or would not be vested or exercisable with respect to any shares covered thereby on, the Acceleration Date; and such Option shall remain exercisable during the six-month period following the Acceleration Date (the New Exercise Period), notwithstanding that, but for this provision, such Option would, pursuant to the provisions thereof (including any provision of any Option Plan incorporated by reference therein or otherwise applicable thereto) terminate or cease to be exercisable with respect to any shares covered thereby prior to the expiration of the New Exercise Period. Upon the expiration of the New Exercise Period, each such Option shall terminate.

3.4 Except as set forth on Schedule 3.4, to the Shareholders' knowledge, no Proceeding in which Toymax, a Subsidiary or any of the Shareholders is a named party is pending, threatened against or affecting the Business, the Assets or the operations of Toymax or any Subsidiary in which an unfavorable Order would reasonably be expected to have a Material Adverse Effect, or would prohibit, invalidate, or make unlawful, in whole or in part, the Acquisition, this Agreement or any other Acquisition Agreement, or the carrying out of the provisions hereof or thereof. demeans in any manner, whether for a commercial purpose or otherwise, any other party hereto or any Affiliate thereof, or any stockholder, director, officer, employee or agent of any of them; provided that no provision of this Section 8.1 shall be construed to prohibit or restrict any statement by any Person made in furtherance or defense of any claim or in the course of any Proceeding or the resolution of any dispute pursuant to Section 8.4.

8.2 From and after the Closing Date and until the Effective Date, JAKKS shall use its commercially reasonable efforts to take, and to cause Toymax to take, all such actions as are reasonably necessary to cause the Merger to become effective and to consummate the Merger as provided in the Merger Agreement.

8.3 Prior to the Effective Date, none of the Shareholders shall sell, short-sell or otherwise dispose of any of the shares of JAKKS Stock constituting the Stock Payment; and, during the one-year period following the Effective Date, no Shareholder shall sell, short-sell or otherwise dispose of more than 25% of the shares of JAKKS Stock constituting the Stock Payment received by it hereunder during any quarterly period.

8.4 From and after the Closing Date and until the Effective Date, the newly-constituted board of directors of Toymax (as set forth in Section 5.10) and the officers of Toymax (JAKKS Management) shall, in accordance with this provision, consult with the officers and directors of Toymax holding office immediately prior to the Closing (Toymax Management) with respect to any matter significantly affecting Toymax, the Business or the Assets that arises, occurs, has an effect on Toymax, the Business or the Assets or that is otherwise addressed by Toymax's board of directors during such period (Material Business Matters). During the period referred to above, JAKKS Management shall: (i) promptly inform the appropriate members of the Toymax Management of any Material Business Matter that comes to its attention, (ii) shall provide to the Toymax Management all material facts and information relating thereto and keep the Toymax Management fully informed regarding the status of any such Toymax Business Matters and (iii) consult and confer with, and entertain the recommendations and suggestions made by the Toymax Management, regarding any Material Business Matters and shall keep the Toymax Management fully informed regarding the status of any such Toymax Business Matters.

8.5 If JAKKS and the Shareholders, or any of them, at any time, disagree with the determination of any amount made or certified by another party hereto, such party shall, within thirty (30) days of delivery of such determination or certificate, give written Notice (the Dispute Notice) to the other parties to such effect, setting forth therein any change proposed by it and, in reasonable detail, its objections to such determination and the reasons for such dispute. In such event, unless the parties involved promptly, and, in any event, within thirty (30) days of the giving of the Dispute Notice, resolve all such objections and agree upon the determination of the amount in dispute, the determination thereof shall be promptly referred to their respective regular independent certified public accountants, who shall confer and attempt in good faith to resolve the objections as to such determination set forth in or arising as a consequence of the Dispute Notice. If, within thirty (30) days of such referral, such accountants resolve such dispute and determine the amount, they shall give Notices to the parties involved to such effect, setting forth therein the amount as so determined and the basis therefor, and such determination shall be final and binding on the parties involved. If such accountants do not make such determination within such thirty (30) day period, the parties involved shall refer such dispute to a mutually agreeable nationally-recognized accounting firm that is independent with respect to the parties hereto (the Neutral Accountants). Unless the Neutral Accountants expressly determine otherwise, each of the parties involved shall submit to the Neutral Accountants (a) within ten (10) days of the engagement thereof, and in such form and manner as they may prescribe, a statement setting forth such party's position with respect to each of the objections or other issues set forth in or arising as a consequence of the Dispute Notice, together with any exhibits or other supporting documents relating thereto, and send a copy thereof to each other party involved, and (b) within ten (10) days thereafter, and in such form and manner as the Neutral Accountants may prescribe, a rebuttal statement responding to the initial statement of each other party, together with any exhibits or other supporting documents relating thereto, and send a copy thereof to each other party involved. The Neutral Accountants shall conduct a hearing, if all the parties involved so request in their respective statements, and may conduct a hearing, whether or not any (but fewer than all) the parties involved so request, if the Neutral Accountants reasonably deem it necessary for the performance of their engagement; provided that any such hearing shall be held only upon reasonable prior

written Notice to all parties involved and only if all such parties have an opportunity to appear and present evidence at such hearing. The Neutral Accountants may require any party hereto (whether or not a party to the dispute) to submit or produce additional statements, documents or information, to appear and testify at any hearing or other proceeding, or otherwise to produce tangible or oral evidence to the extent such Neutral Accountants reasonably deem necessary or appropriate for them to determine the amount in dispute. Based on such submissions and the evidence presented at any hearing, the Neutral Accountants shall resolve all obligations and other issues set forth in or arising as a consequence of the Dispute Notice and determine the amount in dispute, and give Notice to the parties involved, setting forth therein such amount and the basis of determination thereof, such determination to be final and binding on the parties involved. Upon the determination of the amount, any payment or adjustment based thereon shall be promptly made in the manner provided herein. The fees and expenses of a party's independent certified public accountants incurred in the determination of such amount as provided herein shall be separately borne by such party. The fees and expenses of the Neutral Accountants incurred, if required pursuant to this Section 8.4, shall be borne and promptly paid equally by JAKKS, on the one hand, and the Shareholders, on the other.

8.6 JAKKS agrees and acknowledges that it has agreed to the arrangements set forth in Exhibits H-1 and H-2, respectively, with respect to Carmine Russo and Kenneth Price, and that it is anticipated that at the Closing JAKKS and such persons will enter into appropriate agreements reflecting such terms.

9. *Termination.*

9.1 This Agreement may be terminated at any time prior to the Closing:

(a) by the mutual agreement of JAKKS and the Shareholders;

(b) by any party if the Merger Agreement is terminated; provided that JAKKS shall not be entitled to terminate this Agreement if the Merger Agreement is terminated or abandoned by JAKKS in violation of the terms thereof, and the Shareholders shall not be entitled to terminate this Agreement if the Merger Agreement is terminated or abandoned by Toymax in violation of the terms thereof.

(c) by any party (if such party is not then in breach or default of any of its representations, warranties, covenants or other obligations under this Agreement) by giving written Notice to such effect to the other parties if the Closing shall not have occurred on or before March 31, 2002, or such later date as the parties shall have agreed upon prior to the giving of such Notice;

(d) by JAKKS (if JAKKS is not then in breach or default of any of its representations, warranties, covenants or other obligations under this Agreement), upon written Notice to such effect to the Shareholders in the event of a material breach by or default of any party hereto other than JAKKS, or by any party hereto other than JAKKS (if such party is not then in breach or default of any of its representations, warranties, covenants or other obligations under this Agreement), upon written notice to such effect to JAKKS in the event of a material breach by or default of JAKKS, provided that written Notice of such breach or default is theretofore given to the breaching or defaulting party, and such breach or default is not cured within thirty (30) days of such Notice; or

(e) by any party if any Governmental Authority issues an Order or takes any other action restraining, enjoining or otherwise prohibiting, or seeking material damages in respect of, any transaction contemplated by any Acquisition Agreement, and such Order becomes final and non-appealable, or any Law having the same effect becomes applicable to any party hereto.

9.2 Upon termination of this Agreement pursuant to Section 9.1, all obligations of the parties shall terminate except those under Sections 5.7, 5.8, 8.1 and 9.3, Article 10 and the applicable provisions of Article 11; provided that no such termination shall relieve any party of any liability to another party by reason of any breach of or default under this Agreement, subject to all applicable limitations contained in this Agreement.

9.3 (a) If the Closing does not occur, or does not occur with respect to any Shareholder, as a result of the Shareholders' or such Shareholder's failure to transfer its Shares at the Closing in violation of the terms of

Table of Contents

this Agreement, or as a result of a breach by the Shareholders or such Shareholder of any of the representations and warranties contained in the last four sentences of Section 3.1 or in Sections 3.2 through 3.4 (to the extent that a breach of such representation or warranty would result in an impairment of JAKKS' ownership rights in the Shares), the Shareholders (or any Shareholder with respect to which the closing does not occur) shall pay to JAKKS a termination fee (the Termination Fee) in the amount of the sum of (i) \$1,000,000 for each Shareholder with respect to which the Closing does not occur, which shall be payable by wire transfer of immediately available funds to an account designated by JAKKS within five days after the termination of this Agreement or, if the Closing occurs as to any Shareholder, within five days after the Closing; and (ii) if the non-transferring Shareholder(s) sell their Shares to a third party within six months following the termination of this Agreement (or the termination with respect to such Shareholder, if applicable), the amount of 20% of the difference between the total purchase price received for the Shares in such third party sale and the product of \$4.50 and the number of Shares sold, which amount shall be payable by wire transfer of immediately available funds to an account designated by JAKKS within five days after the consummation of such sale.

(b) The Termination Fee shall constitute liquidated damages to JAKKS in respect of all losses, liabilities, damages and expenses suffered or incurred by JAKKS by reason of the termination of this Agreement (or the termination with respect to any Shareholder) pursuant to Section 9.3(a), and, notwithstanding any other provision hereof, shall be in lieu of any other remedy or relief otherwise available to JAKKS by reason thereof. The parties hereto acknowledge that it would be impracticable to ascertain the amount of all losses, liabilities, damages and expenses that would be suffered or incurred by JAKKS under the circumstances described in Section 9.3(a) and that the amount of the Termination Fee is a fair and reasonable estimate of such losses, liabilities, damages and expenses and provides a reasonable and certain amount to compensate JAKKS therefor.

10. *Indemnification.*

10.1 Following the Closing, subject to Sections 10.4, 10.5 and 11.1, the Shareholders, jointly and severally, shall indemnify and defend JAKKS and, after the Closing, Toymax and each stockholder, director, officer, employee and agent of JAKKS and, after the Closing, Toymax against, and hold each of them harmless from, any loss, liability, obligation, damage or expense (including reasonable attorneys' fees and disbursements) which any of them may suffer or incur incidental to any claim or any Proceeding against any of them based upon or resulting from the failure of any of the representations and warranties made by the Shareholders in the last four sentences of Section 3.1 and in Sections 3.2 through 3.4 (to the extent that a breach of such representation or warranty would result in an impairment of JAKKS' ownership rights in the Shares), to be true in all material respects on the date hereof and on the Closing Date.

10.2 JAKKS shall indemnify and defend each Shareholder and, prior to the Closing, Toymax and each director, officer, employee or agent thereof against, and hold each of them harmless from, any loss, liability, obligation, damage or expense (including reasonable attorneys' fees and disbursements) which any of them may suffer or incur incidental to any claim or any Proceeding against any of them based upon or resulting from:

(a) the failure of any representation or warranty made by JAKKS to be true in all material respects on the date hereof and on the Closing Date; or

(b) JAKKS' failure, in all material respects, to perform or to comply with any covenant or condition required hereunder to be performed or complied with by JAKKS.

10.3 JAKKS shall indemnify each Shareholder and each other Person who was an officer or director of Toymax on or after the date of this Agreement against, and hold each of them harmless from, any loss, liability, obligation, damage or expense (including reasonable attorneys' fees and disbursements) which any of

them may suffer or incur incidental to any claim or any Proceeding against any of them based on or resulting from:

(a) their approval, execution and delivery of this Agreement and the Merger Agreement and consummation of the Acquisition and the Merger in accordance with the terms hereof and of the Merger Agreement and in accordance with applicable law, but excluding any action constituting fraud or willful misconduct; and

(b) actions taken from and after the Closing with respect to the management and operation of Toymax and the Business by the board of directors of Toymax or by any officer of Toymax at the request or direction of the board.

It is expressly understood and agreed that any Person who may be entitled to indemnification under this Section 10.3 but who is not a party to this Agreement is intended to be a third party beneficiary of the rights created under this Section 10.3.

10.4 Promptly after an indemnified party receives Notice of or otherwise becomes aware of any claim or potential claim, or the commencement or potential commencement of any Proceeding by a third party, involving any loss, liability, obligation, damage or expense referred to in Section 10.1, 10.2 or 10.3, such indemnified party shall, if a claim for indemnification in respect thereof is to be made against an indemnifying party, give written Notice to the latter of the commencement or possibility of such claim or Proceeding, setting forth in reasonable detail the nature thereof and the basis upon which such party seeks or may seek indemnification hereunder; provided that the failure of any indemnified party to give such Notice shall not relieve the indemnifying party of its obligations under such Section, except to the extent that the indemnifying party is actually prejudiced by the failure to give such Notice. In case any such Proceeding is brought against an indemnified party, and provided that proper Notice is duly given, the indemnifying party shall assume and control the defense thereof insofar as such Proceeding involves any loss, liability, obligation, damage or expense in respect of which indemnification may be sought hereunder, with counsel selected by the indemnifying party (and reasonably satisfactory to such indemnified party), and, after Notice from the indemnifying party to such indemnified party of its assumption of the defense thereof, the indemnifying party shall not be liable to such indemnified party for any legal or other expenses subsequently incurred by the indemnified party in connection with the defense thereof (but the indemnified party shall have the right, but not the obligation, to participate at its own cost and expense in such defense by counsel of its own choice) or for any amounts paid or foregone by the indemnified party as a result of the settlement or compromise thereof (without the written consent of the indemnifying party), except that, if both the indemnifying party and the indemnified party are named as parties or subject to such Proceeding and either such party reasonably determines with advice of counsel that a material conflict of interest between such parties may exist in respect of such Proceeding, the indemnifying party may decline to assume the defense on behalf of the indemnified party or the indemnified party may retain the defense on its own behalf, and, in either such case, after Notice to such effect is duly given hereunder to the other party, the indemnifying party shall be relieved of its obligation to assume the defense on behalf of the indemnified party, but shall be required to pay any legal or other expenses, including without limitation reasonable attorneys' fees and disbursements incurred by the indemnified party in such defense; provided, however, that the indemnifying party shall not be liable for such expenses on account of more than one separate firm of attorneys (and, if necessary, local counsel) at any time representing such indemnified party in connection with any Proceeding or separate Proceedings in the same jurisdiction arising out of or based upon substantially the same allegations or circumstances. If the indemnifying party shall assume the defense of any such Proceeding, the indemnified party shall cooperate with the indemnifying party as reasonably requested by it and shall appear and give testimony, produce documents and other tangible evidence, allow the indemnifying party access to the books and records of the indemnified party and otherwise assist the indemnifying party in conducting such defense. No indemnifying party shall, without the consent of the indemnified party, which consent shall not be unreasonably withheld, consent to entry of any judgment or enter into any settlement or compromise in respect of any claim or Proceeding unless: (i) such judgment, settlement or compromise includes as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect of such claim or Proceeding, and (ii) such judgment, settlement or compromise involves solely monetary damages

(and not injunctive or other equitable relief or any admission of guilt or fault). Provided that proper Notice is duly given, if the indemnifying party shall fail promptly and diligently to assume the defense thereof, if and in the manner required hereunder, the indemnified party may respond to, contest and defend against such Proceeding (but the indemnifying party shall have the right to participate at its own cost and expense in such defense by counsel of its own choice) and may make in good faith any compromise or settlement with respect thereto, and recover the entire cost and expense thereof, including, without limitation, reasonable attorneys' fees and disbursements and all amounts paid or foregone as a result of such Proceeding, or the settlement or compromise thereof, from the indemnifying party. Any indemnification required to be made hereunder shall be made by periodic payments of the amount thereof during the course of the investigation or defense, as and when bills or invoices are received or loss, liability, obligation, damage or expense is actually suffered or incurred.

10.5 Any other provision hereof notwithstanding:

(a) no indemnifying party shall be required to indemnify any Person pursuant to Section 10.1 or 10.2(a) (as the case may be) unless and until, and to the extent that, the aggregate amount of all losses, liabilities, obligations, damages and expenses as to which indemnification would be required from all the Shareholders, collectively, under Section 10.1, or JAKKS, under Section 10.2(a), as the case may be, but for the provisions of this Section 10.5, exceeds \$350,000;

(b) the aggregate amount required to be paid by the Shareholders under Section 10.1 pursuant to this Article 10 shall not exceed \$15,000,000;

(c) if the Closing shall occur, the indemnification obligations provided herein shall terminate with respect to any claim for indemnification arising under Section 10.1 or Section 10.2(a) that is not made prior to the first anniversary of the Closing Date; and

(d) no indemnified party shall be entitled to any indemnification under this Article 10 to the extent that it actually receives or is entitled to receive any amount in respect of any loss, liability, obligation, damage or expense from other sources, including without limitation insurance or third-party indemnity; provided that such indemnified party shall not be required to commence any Proceeding to collect any such amount.

11. *Miscellaneous.*

11.1 *Survival of Representations and Warranties.* No representation or warranty of any party hereto shall survive the Closing or the termination of this Agreement for any reason, except that the representations and warranties of the Shareholders set forth in the last four sentences of Section 3.1, and the representations and warranties of JAKKS set forth in the last three sentences of Section 4.1, shall survive the Closing until, and no party shall be entitled to seek indemnification with respect thereto pursuant to Section 10.1 or 10.2(a) following, the first anniversary of the Closing Date.

The arbitrator shall render a reasoned decision with respect to such Proceeding which shall include, in addition to the imposition of monetary damages or any other remedy or relief available hereunder, an allocation of the costs thereof. APPENDIX C

APPRAISAL RIGHTS

SECTION 262 OF DELAWARE GENERAL CORPORATION LAW APPRAISAL RIGHTS

(a) Any stockholder of a corporation of this State who holds shares of stock on the date of the making of a demand pursuant to subsection (d) of this section with respect to such shares, who continuously holds such shares through the effective date of the merger or consolidation, who has otherwise complied with subsection (d) of this section and who has neither voted in favor of the merger or consolidation nor consented thereto in writing pursuant to Section 228 of this title shall be entitled to an appraisal by the Court of Chancery of the fair value of the stockholder's shares of stock under the circumstances described in subsections (b) and (c) of this section. As used in this section, the word "stockholder" means a holder of record of stock in a stock corporation and also a member of record of a nonstock corporation; the words "stock" and "share" mean and include what is ordinarily meant by those words and also membership or membership interest of a member of a nonstock corporation; and the words "depository receipt" mean a receipt or other instrument issued by a depository representing an interest in one or more shares, or fractions thereof, solely of stock of a corporation, which stock is deposited with the depository.

(b) Appraisal rights shall be available for the shares of any class or series of stock of a constituent corporation in a merger or consolidation to be effected pursuant to Section 251 (other than a merger effected pursuant to Section 251(g) of this title), Section 252, Section 254, Section 257, Section 258, Section 263 or Section 264 of this title:

(1) Provided, however, that no appraisal rights under this section shall be available for the shares of any class or series of stock, which stock, or depository receipts in respect thereof, at the record date fixed to determine the stockholders entitled to receive notice of and to vote at the meeting of stockholders to act upon the agreement of merger or consolidation, were either (i) listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or (ii) held of record by more than 2,000 holders; and further provided that no appraisal rights shall be available for any shares of stock of the constituent corporation surviving a merger if the merger did not require for its approval the vote of the stockholders of the surviving corporation as provided in subsection (f) of Section 251 of this title.

(2) Notwithstanding paragraph (1) of this subsection, appraisal rights under this section shall be available for the shares of any class or series of stock of a constituent corporation if the holders thereof are required by the terms of an agreement of merger or consolidation pursuant to Sections 251, 252, 254, 257, 258, 263 and 264 of this title to accept for such stock anything except:

a. Shares of stock of the corporation surviving or resulting from such merger or consolidation, or depository receipts in respect thereof;

b. Shares of stock of any other corporation, or depository receipts in respect thereof, which shares of stock (or depository receipts in respect thereof) or depository receipts at the effective date of the merger or consolidation will be either listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or held of record by more than 2,000 holders;

c. Cash in lieu of fractional shares or fractional depository receipts described in the foregoing subparagraphs a. and b. of this paragraph; or

d. Any combination of the shares of stock, depository receipts and cash in lieu of fractional shares or fractional depository receipts described in the foregoing subparagraphs a., b. and c. of this paragraph.

(3) In the event all of the stock of a subsidiary Delaware corporation party to a merger effected under Section 253 of this title is not owned by the parent corporation immediately prior to the merger, appraisal rights shall be available for the shares of the subsidiary Delaware corporation.

(c) Any corporation may provide in its certificate of incorporation that appraisal rights under this section shall be available for the shares of any class or series of its stock as a result of an amendment to its certificate of incorporation, any merger or consolidation in which the corporation is a constituent corporation or the sale of all or substantially all of the assets of the corporation. If the certificate of incorporation contains such a provision, the procedures of this section, including those set forth in subsections (d) and (e) of this section, shall apply as nearly as is practicable.

(d) Appraisal rights shall be perfected as follows:

(1) If a proposed merger or consolidation for which appraisal rights are provided under this section is to be submitted for approval at a meeting of stockholders, the corporation, not less than 20 days prior to the meeting, shall notify each of its stockholders who was such on the record date for such meeting with respect to shares for which appraisal rights are available pursuant to subsection (b) or (c) hereof that appraisal rights are available for any or all of the shares of the constituent corporations, and shall include in such notice a copy of this section. Each stockholder electing to demand the appraisal of such stockholder's shares shall deliver to the corporation, before the taking of the vote on the merger or consolidation, a written demand for appraisal of such stockholder's shares. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such stockholder's shares. A proxy or vote against the merger or consolidation shall not constitute such a demand. A stockholder electing to take such action must do so by a separate written demand as herein provided. Within 10 days after the effective date of such merger or consolidation, the surviving or resulting corporation shall notify each stockholder of each constituent corporation who has complied with this subsection and has not voted in favor of or consented to the merger or consolidation of the date that the merger or consolidation has become effective; or

(2) If the merger or consolidation was approved pursuant to Section 228 or Section 253 of this title, each constituent corporation, either before the effective date of the merger or consolidation, or within ten days thereafter, shall notify each of the holders of any class or series of stock of such constituent corporation who are entitled to appraisal rights of the approval of the merger or consolidation and that appraisal rights are available for any or all shares of such class or series of stock of such constituent corporation, and shall include in such notice a copy of this section; provided that, if the notice is given on or after the effective date of the merger or consolidation, such notice shall be given by the surviving or resulting corporation to all such holders of any class or series of stock of a constituent corporation or that are entitled to appraisal rights. Such notice may, and, if given on or after the effective date of the merger or consolidation, shall, also notify such stockholders of the effective date of the merger or consolidation. Any stockholder entitled to appraisal rights may, within 20 days after the date of mailing of such notice, demand in writing from the surviving or resulting corporation the appraisal of such holder's shares. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such holder's shares. If such notice did not notify stockholders of the effective date of the merger or consolidation, either (i) each such constituent corporations shall send a second notice before the effective date of the merger or consolidation notifying each of the holders of any class or series of stock of such constituent corporation that are entitled to appraisal rights of the effective date of the merger or consolidation or (ii) the surviving or resulting corporation shall send such a second notice to all such holders on or within 10 days after such effective date; provided, however, that if such second notice is sent more than 20 days following the sending of the first notice, such second notice need only be sent to each stockholder who is entitled to appraisal rights and who has demanded appraisal of such holder's shares in accordance with this subsection. An affidavit of the secretary or assistant secretary or of the transfer agent of the corporation that is required to give either notice that such notice has been given shall, in the absence of fraud, be prima facie evidence of the facts stated, therein. For purposes of determining the stockholders entitled to receive either notice, each constituent corporation may fix, in advance, a record date that shall be not

App-C-2

more than 10 days prior to the date the notice is given, provided, that if the notice is given on or after the effective date of the merger or consolidation, the record date shall be such effective date. If no record date is fixed and the notice is given prior to the effective date, the record date shall be the close of business on the day next preceding the day on which the notice is given.

(e) Within 120 days after the effective date of the merger or consolidation, the surviving or resulting corporation or any stockholder who has complied with subsections (a) and (d) hereof and who is otherwise entitled to appraisal rights, may file a petition in the Court of Chancery demanding a determination of the value of the stock of all such stockholders. Notwithstanding the foregoing, at any time within 60 days after the effective date of the merger or consolidation, any stockholder shall have the right to withdraw such stockholder's demand for appraisal and to accept the terms offered upon the merger or consolidation. Within 120 days after the effective date of the merger or consolidation, any stockholder who has complied with the requirements of subsections (a) and (d) hereof, upon written request, shall be entitled to receive from the corporation surviving the merger or resulting from the consolidation a statement setting forth the aggregate number of shares not voted in favor of the merger or consolidation and with respect to which demands for appraisal have been received and the aggregate number of holders of such shares. Such written statement shall be mailed to the stockholder within 10 days after such stockholder's written request for such a statement is received by the surviving or resulting corporation or within 10 days after expiration of the period for delivery of demands for appraisal under subsection (d) hereof, whichever is later.

(f) Upon the filing of any such petition by a stockholder, service of a copy thereof shall be made upon the surviving or resulting corporation, which shall within 20 days after such service file in the office of the Register in Chancery in which the petition was filed a duly verified list containing the names and addresses of all stockholders who have demanded payment for their shares and with whom agreements as to the value of their shares have not been reached by the surviving or resulting corporation. If the petition shall be filed by the surviving or resulting corporation, the petition shall be accompanied by such a duly verified list. The Register in Chancery, if so ordered by the Court, shall give notice of the time and place fixed for the hearing of such petition by registered or certified mail to the surviving or resulting corporation and to the stockholders shown on the list at the addresses therein stated. Such notice shall also be given by 1 or more publications at least 1 week before the day of the hearing, in a newspaper of general circulation published in the City of Wilmington, Delaware or such publication as the Court deems advisable. The forms of the notices by mail and by publication shall be approved by the Court, and the costs thereof shall be borne by the surviving or resulting corporation.

(g) At the hearing on such petition, the Court shall determine the stockholders who have complied with this section and who have become entitled to appraisal rights. The Court may require the stockholders who have demanded an appraisal for their shares and who hold stock represented by certificates to submit their certificates of stock to the Register in Chancery for notation thereon of the pendency of the appraisal proceedings; and if any stockholder fails to comply with such direction, the Court may dismiss the proceedings as to such stockholder.

(h) After determining the stockholders entitled to an appraisal, the Court shall appraise the shares, determining their fair value exclusive of any element of value arising from the accomplishment or expectation of the merger or consolidation, together with a fair rate of interest, if any, to be paid upon the amount determined to be the fair value. In determining such fair value, the Court shall take into account all relevant factors. In determining the fair rate of interest, the Court may consider all relevant factors, including the rate of interest which the surviving or resulting corporation would have had to pay to borrow money during the pendency of the proceeding. Upon application by the surviving or resulting corporation or by any stockholder entitled to participate in the appraisal proceeding, the Court may, in its discretion, permit discovery or other pretrial proceedings and may proceed to trial upon the appraisal prior to the final determination of the stockholder entitled to an appraisal. Any stockholder whose name appears on the list filed by the surviving or resulting corporation pursuant to subsection (f) of this section and who has submitted such stockholder's certificates of stock to the Register in Chancery, if such is required, may participate fully in all proceedings until it is finally determined that such stockholder is not entitled to appraisal rights under this section.

Table of Contents

(i) The Court shall direct the payment of the fair value of the shares, together with interest, if any, by the surviving or resulting corporation to the stockholders entitled thereto. Interest may be simple or compound, as the Court may direct. Payment shall be so made to each such stockholder, in the case of holders of uncertificated stock forthwith, and the case of holders of shares represented by certificates upon the surrender to the corporation of the certificates representing such stock. The Court's decree may be enforced as other decrees in the Court of Chancery may be enforced, whether such surviving or resulting corporation be a corporation of this State or of any state.

(j) The costs of the proceeding may be determined by the Court and taxed upon the parties as the Court deems equitable in the circumstances. Upon application of a stockholder, the Court may order all or a portion of the expenses incurred by any stockholder in connection with the appraisal proceeding, including without limitation, reasonable attorney's fees and the fees and expenses of experts, to be charged pro rata against the value of all the shares entitled to an appraisal.

(k) From and after the effective date of the merger or consolidation, no stockholder who has demanded appraisal rights as provided in subsection (d) of this section shall be entitled to vote such stock for any purpose or to receive payment of dividends or other distributions on the stock (except dividends or other distributions payable to stockholders of record at a date which is prior to the effective date of the merger or consolidation); provided, however, that if no petition for an appraisal shall be filed within the time provided in subsection (e) of this section, or if such stockholder shall deliver to the surviving or resulting corporation a written withdrawal of such stockholder's demand for an appraisal and an acceptance of the merger or consolidation, either within 60 days after the effective date of the merger or consolidation as provided in subsection (e) of this section or thereafter with the written approval of the corporation, then the right of such stockholder to an appraisal shall cease. Notwithstanding the foregoing, no appraisal proceeding in the Court of Chancery shall be dismissed as to any stockholder without the approval of the Court, and such approval may be conditioned upon such terms as the Court deems just.

(l) The shares of the surviving or resulting corporation to which the shares of such objecting stockholders would have been converted had they assented to the merger or consolidation shall have the status of authorized and unissued shares of the surviving or resulting corporation.

Management cautions you that the following factors, among others (including the risk factors set forth in this Annual Report on Form 10-K and other important factors detailed herein and from time to time in other reports filed by the Company with the Securities and Exchange Commission), could cause Toymax's actual consolidated results of operations and financial position in 2001 and thereafter to differ significantly from those expressed in forward-looking statements:

Possible weaknesses in economic conditions, both domestically and internationally, which may negatively affect the sales of Toymax's products and the costs associated with manufacturing and distributing these products.

Dependence on the success of new licenses, which Toymax acquires for marketing with new and existing products.

Toymax's inability to accurately predict future consumer demand.

Increased competitive pressure, both domestically and internationally, which may negatively affect the sales of Toymax's products.

Changes in consumer preferences, which may negatively affect Toymax's business.

Financial Considerations

Significant changes in interest rates, both domestically and internationally, which may negatively affect Toymax's cost of financing its operations.

Currency fluctuations, which may affect Toymax's reportable income.

Other Risks

Development of new technologies, including the Internet, which may create new risks to Toymax's ability to protect its intellectual property rights.

Changes in laws or regulations, both domestically and internationally, including those affecting consumer products, environmental activities or trade restrictions, which may lead to increased costs or interruption in normal business operations of Toymax.

Toymax is a consumer leisure products company that creates, designs and markets innovative and technologically advanced toys as well as other leisure products, which are sold in the United States (United States) and throughout the world. Toymax products promote fun and creative play, and are available under several brands: Toymax® toys, such as R.A.D.™ Robot, Mighty Mo ™ vehicles, the award-winning Laser Challenge™ brand, Creepy Crawlers™ activities brand and TMX RC™ radio control vehicles; Funnoodle® pool and water toys and accessories; Go Fly a Kite® kites, banners, WindWheels™; weathervanes and wind chimes; Candy Planet™ candy products and Monogram International gift, novelty and souvenir products. Management believes that the major strengths of the Company include its ability to develop and design new toys, such as Dragonfly™; to identify and satisfy niche opportunities with brands such as Mighty Mo ™; to extend existing core brands such as Laser Challenge; and to identify acquisitions, such as Go Fly A Kite, Inc. (GFK), and Funnoodle Inc. (Funnoodle), that further its plan to diversify into other leisure product categories and selling seasons.

In 1998, the Company began to take a number of important steps designed to better position the Company for future and balanced growth through the diversification of its product line. In December 1998 the Company acquired the business of Go Fly A Kite, Inc., a leading developer and marketer of kites, windsocks, banners, mini flags and WindWheels™. In February 1999, the Company formed a new division, Candy Planet, which together with the licensing of the World Wrestling Federation (WWF) brand and a Pokemon license from Nintendo of America, Inc., enabled the Company to enter the expanding candy industry. In May 1999, the Company completed the acquisition of Monogram International, Inc. (Monogram), a leading designer, manufacturer and marketer of gift and children s leisure product lines, including items based on well-established and evergreen licenses. Monogram has been associated with the Walt Disney Company (Disney) for nearly 30 years and has also established a relationship with Warner Bros. Consumer Products (Warner Bros.). In November 1999, the Company completed the acquisition of the Funnoodle product line. Funnoodle Inc. is a leader in the pool and backyard water recreational products categories. During fiscal 2001, the Company formed Maxverse Interactive, Inc. (Maxverse), a subsidiary formed to develop wireless communication products for children and young adults. In order to assist in integrating the acquired companies and the Candy Planet business, the Company established a new administrative group, Toymax Enterprises, which is comprised of GFK, the Candy Planet unit, Monogram and Funnoodle.

The Company has generated net profits in three out of its last five fiscal years. For the fiscal year ended March 31, 2001, Toymax had net sales of \$132.1 million and a net loss of \$1.9 million, excluding the impairment loss, write-off of the investment and advances to a joint venture and the results thereof, compared to net sales of \$139.8 million and a net loss of \$1.9 million in fiscal 2000. The net sales decrease was primarily due to a combination of a decrease in sales of electronic toys, the expected decrease of Laser Challenge lines and the decrease in sales of certain licensed candy and novelty products partially offset by an increase in infrared, radio-controlled and programmable vehicles, children s activities and the inclusion of Funnoodle product sales for a full year. Operations were negatively impacted primarily by sales incentives and discounts related to licensed candy and novelty gift products as well as the Company s equity in the net loss of Yaboom.

The Company has a worldwide web site (<http://www.toymax.com>) on the Internet, which provides information about the Company and its products. The site also contains games, information about where to purchase Toymax products, a strictly monitored kid s chat area and hotlinks to affiliated web sites, such as those of licensors, industry related and financial institutions. The Company s GFK, Monogram and Candy Planet affiliates have separate websites at www.goflyakite.com, www.monintl.com, and www.candy-planet.com, respectively.

The Company believes it is well positioned for future growth and has taken steps to return to profitability. The key elements of the Company s growth strategy are to: (i) penetrate new markets, by product and customer expansion and diversification; (ii) smooth its revenue stream throughout the year, by adding non-promotional items to its product portfolio; (iii) extend existing core brands; (iv) develop new core product categories and (v) continue to license recognized brand names such as Disney®, Jeep, Chevrolet, Mercedes-Benz, Scooby-Doo®, Coca-Cola™, Jurassic Park III™, TEKNO, and Loony Tunes.

Industry and Competition

The Company competes in several industries, with toys representing the largest portion. The majority of the toys sold in the United States are manufactured, either in whole or in part, overseas where labor rates are comparatively lower than in the United States. The largest foreign manufacturing market is the People's Republic of China (PRC), followed by Japan and Taiwan. Such operations require greater lead times than domestic manufacturing operations and also result in greater shipping costs, particularly for larger toys. The design, production and sale of toy products in the United States and throughout most of the world are subject to various regulations.

Toy manufacturers sell their products either directly to retailers or to wholesalers who carry the product lines of many manufacturers. There are thousands of retail outlets in the United States which sell toys and games. These outlets include: mass merchandisers, small independent toy stores, gift and novelty shops, grocery and drug chains, warehouse clubs, e-retailers and mail order catalogs. Despite the broad number of toy outlets, retail toy sales have been increasingly generated by a small number of large chains, such as Toys R Us, Wal-Mart, Kay-Bee, Kmart and Target. Despite this consolidation in recent years, both at the retail and manufacturing level, many small and mid-sized companies continue to compete in the design and development of new toys, the procurement of licenses, the improvement and expansion of previously introduced products and product lines and the marketing and distribution of toy products. This has resulted in an increased reliance among retailers on the large toy companies because of their financial stability and ability to support products through advertising and promotion and to distribute products on a national basis. Such consolidation, as well as the failure of on-line toy retailers in 2000, may have a negative effect on small and mid-sized toy companies, such as the Company.

The toy industry is highly competitive. Competition within the industry is based on consumer preferences, order fulfillment, pricing and new product development. In recent years, the toy industry has experienced rapid consolidation. The Company competes with many toy companies that have greater financial resources, greater name recognition, larger sales, marketing and product development departments and greater economies of scale. Due to the low barriers to entry into the toy industry, the Company also competes with smaller domestic and foreign toy manufacturers, importers and marketers.

The Company chose to expand into new leisure product categories in order to decrease reliance on the highly competitive toy industry. In this regard the Company acquired GFK, Monogram and Funnoodle and formed Candy Planet and Maxverse.

GFK competes in the kite, flag/windsock and lawn ornament markets in which it is estimated to have a large share. There are numerous specialty kite manufacturers, which are characterized by very small volume and higher pricing, and several larger companies distributing banners and lawn ornaments. Monogram competes in the gift, novelty and souvenir industry. The market for products based on licensed entertainment characters, Monogram's primary business, which has experienced a slowing demand in recent years, is dominated by a few companies. Funnoodle competes primarily in the water and pool toy market, in which it is a leader. Candy Planet competes primarily in the highly competitive domestic candy business. Its main competitors are manufacturers of non-chocolate and gum novelty candy sold in variety, grocery and convenience stores.

Seasonality and Backlog

Sales of toy products are seasonal, with the majority of retail sales occurring in the third and fourth calendar quarters. The Company has taken steps to reduce its dependence on these highly seasonal products, including the acquisitions of GFK and Funnoodle, which are largely sold in the first and second calendar quarters. Sales of Monogram and Candy Planet products are less seasonal than the other product lines. While the Company has taken these steps to level sales over the entire year, sales are expected to remain heavily influenced by the seasonality of the Company's toy products.

The result of these seasonal patterns is that operating results and demand for working capital vary significantly by quarter and net losses may be expected in the first and last quarters of the fiscal year for the

Table of Contents

foreseeable future. Orders placed with the Company for shipment are cancelable until the date of shipment. The combination of seasonal demand and the potential for order cancellation makes accurate forecasting of future sales difficult and causes the Company to believe that backlog may not be an accurate indicator of the Company's future sales. Similarly, financial results for a particular quarter may not be indicative of results for the entire year.

Products

The Company's existing product lines and calendar 2001 product introductions and extensions fall into nine categories: Action Toys, Spring/Summer, Children's Activity Toys, Girls' Toys, Vehicles, Electronics, Plush, Candy, and Gift/Novelty/Souvenir.

Action Toys

The Laser Challenge brand was introduced in 1996, and continues to be the top-selling laser game. The Laser Challenge system uses an advanced infrared light technology, which is effective at longer firing distances than competing systems. The Company continues to redesign and extend the Laser Challenge brand, a strategy, which supports the Company's expectation that Laser Challenge will be marketed over a long period of time. In fiscal 2002, the Company introduced Laser Challenge Gotcha Extreme Mini Mayhem™, a compact sized version of the Extreme segment first introduced in 2000 as Gotcha Extreme™ and extended in 2001 as Radar Extreme™. In fiscal 2002, the Company will be launching Virtual Paintball™, which combines the technology and proven play pattern of Laser Challenge with the excitement of paintball, one of the fastest growing alternative sports in the United States.

In fiscal 2002, the Company is also introducing N.R.G. Paintball™ for tween consumers who may be too mature to play Laser Challenge but are too young to be playing real paintball. N.R.G. Paintball includes a blaster which fires totally safe blobs of paint.

Spring/Summer

The Company entered the Spring/Summer seasonal business in fiscal 1999 with the acquisition of GFK, whose product line includes youth and adult kites and a wide array of decorative flags, windsocks, door banners, mini flags and the WindWheels line of colorful lawn ornaments. In fiscal 2001, a series of kites designed by Joel K. Scholz, a renowned designer, was added to the GFK product line. In addition, the lawn ornament line was expanded to include weathervanes and wind chimes. In fiscal 2000, the Company expanded its seasonal offerings in this category with the acquisition of the Fun noodle product line. Fun noodle is a highly recognized brand of pool and recreational products. The product line's most visible item, the basic Fun noodle, is a 5-foot long, brightly colored, floating foam tube that has been one of the best selling summer toys in the United States since its introduction in 1994. The Fun noodle product line continues to be expanded with the introduction of products such as pool floats, swim rings, lawn sprinklers, and tumbling and exercise mats.

Children's Activity Toys

The Company has historically been a significant factor in Children's Activity Toys and reestablished itself in fiscal 2001 with the successful re-introduction of the Creepy Crawlers® brand. The Company is extending the brand in fiscal 2002 to include Creeple People® and Graveyard Ghoulies™ Creator Paks®, which are mold and play sets. In fiscal 2002, the Company is also re-introducing the Dollymaker™ Fashion Maker consisting of a molding oven, molds and Glamour-Goop™ compound whereby girls can design and make mini dolls and fashions in an endless variety of designs and colors.

Girls' Toys

The Company's Girls' Toys product line includes the Beauty Works™ brand of role play activities such as Nail Salon and Fragrance Designer™; the Jam Rope™, a musical jump rope; and the Talking Tina® brand of fashion dolls and soft furniture which fits any 11 1/2" fashion doll.

Table of Contents***Vehicles***

In fiscal 2001, the Company introduced the TMX RC™ Dragonfly™ a radio control vehicle with X-Tech Wing™ technology which morphs on the run, allowing Dragonfly to fit through tight spaces and to perform a series of exciting stunts. Dragonfly has won a number of toy testing awards including FAMILY FUN Toy of the Year and was cited by a number of news outlets, including USA TODAY, as one of the hottest toys of the year. Recognizing the appeal of extreme sports and identifying street luge as one of the most exciting of them, the Company is introducing an assortment of radio control Extreme Street Luge vehicles in fiscal 2002. Under license from Exxtreme Joxx™, these vehicles are driven by three of the world's premier luge riders Team Jugular's Sean The Duck Mallard, Wade Sokol and Lee Leemo Dansie whose actions duplicate the real thing.

The Company introduced the Mighty Mo™ brand of innovative vehicles late in fiscal 1998. The first product utilized an infrared key chain controller to activate these light, sound and motion vehicles and is marketed in the Company's patented try me package. In fiscal 2000, the Mighty Mo's Infrared Vehicles category was extended to include specialty vehicles with unique, stunt actions; this line will expand in fiscal 2002 to include a rollover car and a wheelie quad. The Mighty Mo's brand also includes monster trucks and a line of flywheel powered endurance vehicles. The Company currently has license arrangements to produce Mighty Mo's versions of Chevrolet, Jeep, Dodge, Mercedes, BMW, Porsche, Audi, Porsche, Humvee and Ford styles.

Mighty Mo's Jr., the pre-school segment of the Company's vehicle business, is a line of products with moving eyes and mouth, and speech and motion capabilities. In fiscal 2002, this segment is being extended to include Preston Pushbutton™, a battery operated programmable robot which walks, talks and has light-up eyes and mouth; Denny the Dump Truck™ and Dougie Chug-Along™, which are infrared remote control vehicles; and Rick and Robbie Racers™, which are infrared remote vehicles which interact with each other as they race.

Electronics

The Company continues to successfully manage its key brands in this category while expanding its product offerings. In fiscal 2002, the Company is launching a technologically advanced version of its popular Arcadia™ Electronic Skeet Shoot, whose four image projectors allow for more targets, more action and multiple point values. The Company is also introducing R.A.D.™ 4.0, a completely redesigned version of prior R.A.D. robots, which incorporates artificial intelligence and the latest in voice recognition technology. In fiscal 2002, the Company will be launching Battle Drones™, a pair of remote control warrior robots that can be customized with interchangeable weapon accessories and will introduce TV Games, a palm sized controller that plugs directly into a television set, and includes 10 classic video games licensed from Activision©. The controller is completely portable and does not require a console.

Plush

In fiscal 2002, the Company is reintroducing Popples® and My Pet Monster™, two lines of plush characters licensed from American Greetings. These classic brands, which were originally introduced in the mid-1980's, have been updated and restyled to include electronics and to appeal to the children of today.

Candy

The Company's Candy Planet division markets a diversified line of licensed as well as proprietary products, including Dragon Ball Z interactive candy, licensed from Funimation Inc. In fiscal 2002, the Company will market Creepy Crawlers™ branded lollipops and candy filled dispensers, which will benefit from brand awareness built by the Company's toy division. Candy Planet will also be introducing the Ballistic Blaster™ version of Candy Foam™, a proprietary product successfully launched in fiscal 2001 that shoots super sour foaming candy in an eight to ten foot stream. Also scheduled for introduction in fiscal 2002 is Lip Licker™ liquid candy, three flavors of super sour liquids in a roll-on dispenser, and Guppy Gobblers™, fish shaped candy in containers.

Gift/Novelty/Souvenir

The Company's acquisition of Monogram marked its entrance into the gift/ novelty/ souvenir category. Monogram's gift and children's leisure product lines include plastic, die-cast, plush and action toys, key chains, drinkware and dinnerware, stationery and desk accessories and are marketed to souvenir and gift shops, distributors, department stores and food and drug chains. Promotional and private label specialty products are marketed to major theme parks, resorts and corporate customers. The majority of Monogram's product is based upon licensed properties including those from Disney and Warner Bros. Monogram, which has not met expectations to date, has recently acquired a license for Manley Toy Quest's Tekno for use in a product line including banks, keyrings and plush.

Product Design and Development

The Company has built a knowledgeable in-house product development team and a network of independent designers to create new products. Employees in the Marketing and Research and Development departments coordinate efforts to design and develop the majority of the Company's toy, candy and souvenir gift concepts and innovative new product lines. Current technologies have been utilized to redesign, redevelop and extend major brands and products from the past, E.G. Creepy Crawlers and Popples. GFK strives to maintain a product line that displays cutting edge graphics and reflects current cultural trends. Funnoodle has sought to develop new products largely by applying extruded foam manufacturing techniques and designs to traditionally successful products. The success of the Company is dependent on its ability to continue these activities. Total Company-sponsored research and development expenses for fiscal 1999, 2000 and 2001 were \$2.6 million, \$5.2 million and \$4.5 million, respectively.

The Company continually evaluates new product ideas generated by a number of outside designers to maintain access to a wide range of development talent. When a product is developed based on the idea presented by an independent designer, the Company enters into a royalty agreement with the designer.

Licensing

Licensing is a major influence on the leisure products industry affecting virtually all product categories. Although historically the Company has not significantly relied on entertainment-related licenses, the Company has marketed and continues to market products based on licensed popular characters and trademarks from major entertainment companies and other widely known corporate trademarks. This allows the Company to benefit from pre-existing awareness of a character or brand and from the marketing efforts and prior goodwill attached to it. A principal licensor is The Walt Disney Company, which licenses many of its characters and entertainment properties for use on the Company's products. The Company has also entered into license agreements with, among others: American Greetings, Warner Bros., Coca-Cola™, Activision®, as well as with many of the world's leading auto makers for use of their most popular model names on the Company's Mighty Mo's vehicle line.

In return for the use of the licensed character or brand name, the Company typically pays licensing fees based upon net sales from products marketed under the subject license. Furthermore, the acquisition of a license generally involves the payment of non-refundable minimum royalty payments.

Sales and Distribution

The Company operates in two reporting segments: Toymax Brands (primarily consisting of sales activities conducted through Toymax Inc. (TMI)) and Toymax (H.K.) Limited (THK)) and Toymax Enterprises (consisting of GFK, Monogram, Funnoodle and Candy Planet).

Sales conducted by TMI consist of sales of the Company's promotional product lines to primarily United States customers pursuant to customer purchase orders. Customers purchasing products on this basis include Toys R Us, Kay-Bee Toys, Costco Wholesale, Wal-Mart Stores, Inc., and Target Stores, Inc. Sales conducted by THK consist of sales on a free on board (FOB) Hong Kong basis which are generally based on letters of credit, and include sales of primarily lower priced basic products to United States and

Table of Contents

international retailers including Toys R Us International, Index (U.K.), Wal-Mart (Canada) and sales of the Company's promotional product lines to approximately 50 international distributors.

Candy Planet, Monogram, Funnoodle and GFK sales are made primarily to United States customers, on standard credit terms, pursuant to customer purchase orders. Sales conducted by Candy Planet and GFK are on a COD, prepaid or credit card basis for those customers who do not qualify for credit terms. Extended credit terms are periodically offered to qualifying customers. To a lesser extent, the GFK, Monogram and Candy Planet operations sell to customers internationally. These international customers generally purchase products utilizing a direct letter of credit and shipments are made directly from the overseas factory on a FOB Hong Kong basis.

The Company's products are sold in over 45 countries around the world. The following table depicts the Company's net sales in these two segments for the last three fiscal years and includes GFK sales since December 1998, Candy Planet sales since February 1999, Monogram sales since May 1999 and Funnoodle sales since November 1999:

Sales	Fiscal Year		
	1999	2000	2001
	(In thousands)		
Toymax Brands	\$ 102,121	\$ 91,062	\$ 85,496
Toymax Enterprises	5,197	48,702	46,607

Toymax Brands Sales. This segment's United States sales activities are conducted through its nationwide network of independent sales representatives, an in-house sales staff and, with respect to certain major accounts, by senior management. Comprised of more than 41 sales executives and five sales organizations at March 31, 2001, this sales network maintains close customer relationships, develops new accounts and presents new products to its established customers. The Company's leading United States customers (not including THK sales to the United States) include major toy retailers, mass merchandisers, department stores and catalog companies. TMI sales constituted 63.4%, 43.5% and 41.8% of consolidated net sales in fiscal 1999, 2000 and 2001, respectively.

THK sales are comprised of sales to international retailers and distributors and to certain United States retailers. Such sales are conducted on a FOB Hong Kong basis and generally require either the opening of a letter of credit or are backed by credit insurance. Since its inception in 1990, Toymax has emphasized international sales, and today Toymax's products are sold in over 45 countries worldwide. The Company's international sales network consists of approximately 50 international distributors and eight international sales representative organizations. In fiscal 1999, 2000 and 2001, Toymax HK sales accounted for 31.9%, 21.7% and 22.9% of net sales, respectively.

Toymax Enterprises Sales. GFK sales are comprised primarily of sales to kite stores, hobby stores, gift, specialty and bookstores and toy stores. Products are also distributed by mail order catalogs, such as L.L. Bean, sporting goods stores, and other mass-market retailers. In addition to its in-house sales and customer service staff, GFK employs a network of 96 independent sales representatives. GFK products are currently sold to over 20,000 customers.

Candy Planet sales are comprised primarily of sales to mass merchandisers, supermarkets, drug store chains, convenience stores and food distributors. Sales activities are conducted through independent sales representatives, food chain brokers, an in-house sales staff and, with respect to certain major accounts, by senior management.

Monogram's products are sold to gift, souvenir, and department stores through a nationwide network of about 240 independent sales representatives managed by an in-house sales staff, and are sold on a direct basis to resorts, theme parks, casinos, corporations, and mass merchandisers, including Disney retail outlets.

Funnoodle products are sold through the in-house sales staff of the prior owner under a servicing agreement and a network of sales representative organizations primarily to the largest mass market chains in the United States. The servicing agreement will terminate effective August 2001, and, thereafter, such activities will be performed by the Company's personnel. Historically, domestic sales have accounted for substantially all of Funnoodle's sales.

Customers

Only Toys 'R Us and Wal-Mart each accounted for more than 10% of invoiced sales during fiscal 2001.

Marketing

The Company employs a variety of methods to market its new and existing products. New toys, existing toys and line extensions are marketed primarily by members of the Company's executive and sales management at the Company's showrooms in Hong Kong, New York and Dallas during major international toy shows. The Company is also represented at additional toy, kite and gift shows as well as at candy shows both domestically and internationally.

Product packaging and placement is a large part of the Company's overall marketing strategy. The Company's products are sold in brightly colored, eye-catching packages with strong brand identity. All packaging must meet strict guidelines for communication effectiveness and for the ability to stand out from the competitive clutter. The Company utilizes "try me" packaging whenever possible. The Company also employs traditional marketing methods such as couponing, in-store demonstrations adjacent to its toy products, and public relations.

The Company currently allocates a significant portion of its marketing resources to television advertising, which it believes is the most cost-effective way to reach its primary target audience of children. The commercials are run on national television and in local spot television markets to support the promotional efforts and distribution patterns of its key retailers. The Company uses other media, such as print and on-line advertising, when appropriate.

The Company's GFK subsidiary primarily markets its products through its annual catalogs. GFK's, Monogram's and Funnoodle's other marketing channels include trade shows, seasonal brochures, advertisements in trade magazines, personal sales calls, co-op advertising and telemarketing.

Purchasing and Manufacturing

TMI and THK currently contract for all of their manufacturing requirements. Management believes that this practice provides the Company with the most efficient use of its capital at this time. Tai Nam Industrial Company Limited (Tai Nam), which is based in Hong Kong, serves as the Company's purchasing agent for its core toy business pursuant to an agency agreement, (the Agency Agreement) dated April 1, 1997, as amended, between Tai Nam and Toymax NY. Tai Nam is owned by David Chu, the Chairman and a principal stockholder of the Company. As the Company's purchasing agent, Tai Nam arranges for the manufacturing of the Company's products based on purchase orders placed with Tai Nam by the Company. In addition, Tai Nam handles all shipping documents, letters of credit, bills and payments, serves as liaison with other vendors and performs quality control functions. For these services, Tai Nam generally receives an agency fee of 7% of the gross invoiced value of products purchased by the Company. Pursuant to the Agency Agreement, Toymax purchases products from Tai Nam at Yantian (PRC) FOB prices. The Company pays all expenses associated with the making of molds for new products. Pursuant to the Agency Agreement, the Company owns the tooling and molds for its products. The Agency Agreement was automatically renewed April 1, 2001.

The Company believes that it has a favorable marketer-supplier relationship with Tai Nam. Prior to the formation of Toymax in 1990, Steven Lebensfeld, Chief Executive Officer of the Company, and Harvey Goldberg, the President of the Company, each had a marketer-supplier relationship with Tai Nam. The Company believes that the price, quality of merchandise, reliability, and the ability of Tai Nam to meet the

Table of Contents

Company's timing requirements for delivery have been comparable to, if not better than, those available from unaffiliated third parties and those which are customary in the industry.

As purchasing agent, Tai Nam arranges for the manufacturing of the Company's toy products based on purchase orders placed with Tai Nam by the Company. The majority of such products have been and are currently manufactured by Jauntway Investments Limited (Jauntway). Jauntway is an OEM toy manufacturer with two ISO certified manufacturing facilities in the southern portion of the PRC. Jauntway is also owned by Mr. Chu. Since the Company's inception, Jauntway has been the Company's single most important manufacturer and the Company has been Jauntway's leading customer. In fiscal 2000 and 2001, approximately 50% and 56%, respectively, of all the Company's products were manufactured by Jauntway (some utilizing subcontractors). The Company entered into a manufacturing agreement with Tai Nam and Jauntway dated September 22, 1997. This agreement contains standard manufacturing terms as well as providing that the Company shall not be required to provide a letter of credit or other security to Tai Nam or Jauntway in connection with its purchase orders. The term of the manufacturing agreement was automatically renewed April 1, 2001.

The Company considers the terms it receives from Jauntway (through Tai Nam) to be at least as favorable to the Company as those available from unaffiliated third parties and those which are customary in the industry. All of the Company's transactions with affiliates, including those with Tai Nam and Jauntway, are subject to the approval of the independent directors of the Company's Board of Directors.

Manufacturing commitments are made on a purchase order basis. The Company bases its production schedules on customer estimates and orders, historical trends, the results of market research and current market information. The Company closely monitors market activity and adjusts production schedules accordingly. The Company utilizes Electronic Data Interchange (EDI) programs maintained by certain of its largest customers, which allows the Company to monitor actual store sales and inventories, and thereby to schedule its production to meet anticipated re-orders.

Tai Nam and Jauntway also obtain products or components from other independent manufacturers located principally in the southern portion of the PRC, particularly during peak production periods. These suppliers are selected based on the quality of their products, prices and service. Tai Nam closely monitors its suppliers' manufacturing operations, including quality control, production scheduling and order fulfillment.

The basic raw materials used by Jauntway in manufacturing the Company's toy products are petrochemical resin derivatives. Integrated circuits (IC s) have also become an important component of the Company's technologically advanced toys. Costs of petrochemical derivatives and IC s are affected by demand and supply as well as the value of the U. S. dollar in relation to foreign currencies, and have been subject to volatility in recent years. There can be no assurance as to the timing or extent to which the Company will be able to pass on any raw material or component price increases to its customers.

In addition, a large portion of Jauntway's petrochemical derivatives and IC s are imported from Taiwan via Hong Kong. Any disruption of trade between Taiwan and the PRC may have a significant adverse effect on Jauntway's operations and therefore could have a significant adverse effect on the Company's results of operations.

GFK utilizes four manufacturers, three in the PRC and one in Taiwan, to make approximately 85% of its products, based upon the company's product specifications. Tai Nam acts as its agent in Hong Kong for all products produced in the PRC pursuant to an agency agreement dated September 1, 2000. Manufacturing commitments are made on a purchase order basis. GFK typically has an annual agreement with each supplier, which is cancelable at any time. The suppliers are paid primarily on terms, and occasionally in cash or on terms with a letter of credit.

Candy Planet contracts for all of its manufacturing requirements and currently utilizes manufacturers located in the United States, Canada, Mexico, Belgium, Hong Kong and the PRC to produce its candy products and components. Tai Nam acts as its agent in Hong Kong for products produced in the PRC. Manufacturing commitments are made on a purchase order basis. Suppliers are primarily paid in cash or on terms without a letter of credit.

While Monogram manufactures some of its products at its facilities in Largo, Florida, the majority of work is outsourced to selected factories in Asia, including Jauntway. Purchasing is handled by an in-house purchasing staff and Tai Nam, which serves as a purchasing agent pursuant to an agency agreement, dated March 30, 2000. Monogram and Tai Nam are currently negotiating an amendment to the agency agreement. Under the current agency agreement Tai Nam receives an agency fee of up to 7% of the gross invoiced value of products purchased by Monogram. Pursuant to the agency agreement, Monogram purchases products from Tai Nam at FOB Hong Kong prices.

The bulk of Funnoodle's products are manufactured through an exclusive outsourcing arrangement with two United States-based manufacturers. This arrangement allows the Company to minimize capital investments in tools and fixtures, reduces the Company's working capital requirements and eliminates the need for warehousing facilities. The remainder of Funnoodle's products are manufactured through outsourcing arrangements with various other contract manufacturers. Funnoodle is in the process of negotiating an agency agreement with Tai Nam, whereby Funnoodle purchases products from Tai Nam at FOB Hong Kong prices for which Tai Nam receives an agency fee of up to 7% of the gross invoiced value of products purchased. Although Tai Nam and Funnoodle have not currently executed an Agency Agreement, Funnoodle and Tai Nam do have an existing relationship, whereby Tai Nam is currently acting as a purchasing agent for Funnoodle.

Government and Industry Regulation

The Company is subject to the provisions of the Federal Hazardous Substances Act, the Federal Consumer Product Safety Act, the Flammable Fabrics Act and the regulations promulgated under each such act. Such acts empower the Consumer Product Safety Commission (CPSC) to protect the public from hazardous goods. The CPSC has the authority to exclude from the market goods that are found to be hazardous and requires a manufacturer to repurchase such goods under certain circumstances. The Company sends samples of all of its marketed products to independent laboratories to test for compliance with the CPSC's rules and regulations, as well as with the product standards of the Toy Manufacturers of America, Inc. (TMA). The Company is not required to comply with the product standards of the TMA, but does so voluntarily. Similar consumer protection laws exist in state and local jurisdictions within the United States as well as certain foreign countries. The Company designs its products to exceed the highest safety standards imposed or recommended either by government or industry regulatory authorities.

The Company is not required by the United States government to obtain any quality or safety approvals prior to sales in the United States. However, prior to shipment, the Company's products are tested by independent laboratories on behalf of the Company and major retailers. The Company, however, is required to have and has obtained European Community (CE) approval, European's toy safety Standard, for its products sold in Europe.

Candy Planet's products are subject to inspection by the Food and Drug Administration and various other governmental agencies, and must comply with regulations under the Federal Food, Drug and Cosmetic Act and with various comparable state statutes regulating the manufacturing and marketing of food products.

The Company's advertising is subject to the Children's Television Act of 1990 and the rules promulgated by the United States Federal Communications Commission as well as the laws of certain countries that place certain limitations on television commercials during children's programming. The Company is subject to various other federal, state and local laws and regulations applicable to its business and believes that it is in substantial compliance with these laws and regulations.

Tariffs and Duties

In December 1994, the United States approved a trade agreement pursuant to which import duties on toys, games, dolls and other specified items were eliminated effective January 1, 1995 from products manufactured in all Most Favored Nation (MFN) countries (including the PRC). The imposition or increases in quotas, duties, tariffs or other changes or trade restrictions, which may be imposed in the future, would have a material adverse effect on the Company's financial condition, operating results or ability to

Table of Contents

import products. In particular, the Company's costs would be increased if the PRC's MFN status was revoked. In October 2000, the US Congress approved permanent normal trade relations (PNTR) status for the PRC, which was intended to eliminate the United States' annual review of the PRC's trade relations status. The PRC has signed similar agreements with the European Union and other World Trade Organization members in order to gain support for its entry into the World Trade Organization, although such entry is not guaranteed at this time. However, the imposition of trade sanctions by the United States or the European Union, or the loss of PNTR status by the PRC could result in substantial duties on the cost of toy, candy and kite related products manufactured in the PRC and imported into the United States and Europe.

In addition, several of the Company's operations and its primary agent, Tai Nam, are based in Hong Kong, formerly a British Crown Colony. On July 1, 1997, sovereignty of Hong Kong reverted back to the PRC. To date, this change has not impacted the Company's business.

Patents, Trademarks and Proprietary Technology

The Company owns or controls numerous patents and trademarks, which limit the ability of third parties to directly compete with the Company in its major brands. Key patents cover the Creepy Crawlers Workshop and the Creature Creator ovens, as well as aspects of the Laser Challenge system and infrared remote control vehicles. Key trademarks include Creepy Crawlers®, Plasti-Goop®, Laser Challenge, Arcadia™, Mighty Mo ™, R.A.D.™, Fun noodle, WindWheels and WindDesigns.

Certain of the Company's product lines also incorporate concepts or technologies created by outside designers, some of which are patented. In addition, many of the Company's products incorporate intellectual property rights, such as characters or brand names, that are proprietary to third parties. The Company typically enters into a license agreement to acquire the rights to the concepts, technologies or other rights for use with the Company's products. These license agreements typically provide for the retention of ownership of the technology, concepts or other intellectual property by the licensor and the payment of a royalty to the licensor. Such royalty payments generally are based on the net sales of the licensed product for the duration of the license and, depending on the revenues generated from the sale of the licensed product, may be substantial. In addition, such agreements often provide for an advance payment of royalties and may require the Company to guarantee payment of a minimum level of royalties that may exceed the actual royalties generated from net sales of the licensed product. Some of these agreements have fixed terms and may need to be renewed or renegotiated prior to their expiration in order for the Company to continue to sell the licensed product.

Inflation

The Company does not believe that the relatively moderate rates of inflation in the United States in recent years have had a significant effect on its operations. Although rates of inflation in Asia have periodically resulted in an increase in the cost of manufacturing the Company's products and such increased costs have had a modest impact on margins, the Company does not believe that inflation in Asia has had a materially adverse effect on its results of operations. The Company will continue its policy of monitoring costs and adjusting prices accordingly.

Employees

At March 31, 2001, the Company had 165 employees, substantially all of which were full time. The Company is not subject to any collective bargaining agreements. Management believes that the Company's relationship with its employees is satisfactory.

Item 3. *Legal Proceedings*

The Company is involved in various legal proceedings and claims incident to the normal conduct of its business. The Company believes that such legal proceedings and claims, individually and in the aggregate, are not likely to have a material adverse effect on its financial position or results of operations.

In March 2001, George G. Grillo, a product consultant, filed a complaint against the Company as well as against Monogram International, Inc., Monogram Products (H.K.) Ltd., Steven Lebensfeld and David Ki Kwan Chu, in the Supreme Court of the State of New York, County of Suffolk, alleging breach of express and implied contracts, violation of New York State Labor Law, unjust enrichment and unfair competition. The plaintiff seeks monetary damages totaling \$280,000 in compensatory damages, \$2,500,000 in exemplary damages plus costs and attorney's fees. The Company, which intends to defend the action vigorously as well as interpose counterclaims, does not believe that the suit will have a material adverse effect on its financial position or results of operations, however, there can be no assurance of the outcome.

The Company's tax returns for 1992 through 1998 are under examination by the Internal Revenue Service and the statute has been extended through December 2002. As of the date of this Form 10-K, no issues have been raised by the Internal Revenue Service. The Company cannot predict at this time what the outcome of the examination will be or the impact, if any, on the Company's results of operations.

The Company currently intends to retain earnings, if any, to finance the development and expansion of its business and does not anticipate declaring or paying any cash dividends in the foreseeable future. Certain provisions of the Company's credit facilities limit the payment of dividends. In deciding whether or not to declare or pay dividends in the future, the Board of Directors will consider all relevant factors, including the Company's ability to generate earnings, need for capital, overall financial condition and any restrictions contained in any then existing financing or other agreements.

Stock Repurchase Program

In May 1999, the Company announced that its Board of Directors had approved the repurchase of up to \$2.0 million of Toymax common stock from time to time on the open market, as well as through private transactions. The timing of the stock repurchases and the total number of shares repurchased will be determined by overall financial and market conditions. Fiscal Year Ended March 31, 2001 Compared with Fiscal Year Ended March 31, 2000

Net Sales. Net sales for fiscal 2001 decreased \$7.7 million, or 5.5%, to \$132.1 million from \$139.8 million in fiscal 2000.

App-D-17

Table of Contents

Net sales of Toymax Brands decreased 6.1% to \$85.5 million, or 64.7% of total net sales, from \$91.1 million, or 65.2% of total net sales, in fiscal 2000. The decrease in net sales was primarily due to a decrease in the sales of electronic toys that was partially offset by an increase in sales of infrared, radio-controlled and programmable vehicles.

Net sales of Toymax Enterprises decreased 4.3% to \$46.6 million, or 35.3% of total net sales, from \$48.7 million, or 34.8% of total net sales, in fiscal 2000. The decrease was primarily the result of the decrease in sales of certain licensed candy and novelty gift products that was partially offset by the incorporation of a full year's net sales of Funnoodle, which was acquired in November 1999.

Gross Profit. Gross profit for fiscal 2001 decreased by \$1.4 million, or 2.8%, to \$46.7 million from \$48.1 million, while the gross margin increased from 34.4% in fiscal 2000 to 35.4% in fiscal 2001.

The gross profit of Toymax Brands increased by \$4.1 million, or 14.6%, to \$31.8 million, or 37.2% of net sales, from \$27.7 million, or 30.5% of net sales, for fiscal 2000. The increase in gross margin was primarily attributable to the decrease in markdowns, allowances and other promotional costs, which were adversely affected by the product recall in the prior year.

The gross profit of Toymax Enterprises decreased by \$5.4 million, or 26.6%, to \$14.9 million, or 32.1% of net sales, from \$20.3 million, or 41.8% of net sales, for fiscal 2000. The decrease in gross profit was primarily due to the increased level of sales incentives and inventory markdowns related to the Company's licensed candy and novelty gift products.

Selling and Administrative Expenses. Selling and administrative expenses for fiscal 2001 decreased by \$2.6 million, or 5.0%, to \$48.8 million, or 36.9% of net sales, from \$51.4 million, or 36.7% of net sales, for fiscal 2000. Selling and administrative expenses of Toymax Brands for fiscal 2001 decreased by \$2.2 million, or 6.5%, to \$31.8 million, or 37.2% of net sales, from \$34.0 million, or 37.3% of net sales, for fiscal 2000. The decrease reflects a decrease in advertising costs of almost 30%, which was partially offset by higher royalties and research and development costs, including costs related to Maxverse which was formed during fiscal 2001. Selling and administrative expenses of Toymax Enterprises were \$17.0 million, or 36.5% of net sales, as compared to \$17.4 million, or 35.6% of net sales in fiscal 2000. Selling and administrative expenses for Toymax Enterprises in fiscal 2001 reflect a full year's operating expenses of Funnoodle, which were substantially offset by a decrease in royalties related to the decrease in certain licensed candy and novelty gift product sales.

Impairment Loss. Based on continued losses, weak projections and other considerations, the Company recorded an impairment loss for the Monogram subsidiary of approximately \$5.3 million during the fourth quarter of fiscal 2001. The impaired assets consist principally of the goodwill related to the acquisition of Monogram.

Operating Income (Loss). As a result of the foregoing, the operating loss for fiscal 2001 increased by \$4.0 million, or 123.5%, to \$7.3 million from \$3.3 million for fiscal 2000. Operating income for Toymax Brands increased by \$6.3 million, or 99.7%, to a break even from an operating loss of \$6.3 million for fiscal 2000. Operating income for Toymax Enterprises decreased by \$10.3 million to an operating loss of \$7.3 million from operating income of \$3.0 million in fiscal 2000.

Other Income (Expense), Net. In fiscal 2001, the Company recorded a write-off of its advances and investment in the Yaboom joint venture of \$1.9 million. Including this charge and the increase in the Company's equity in the operating loss of the Yaboom venture in fiscal 2001, net other income for fiscal 2001 decreased by \$3.1 million from \$0.4 million in fiscal 2000 to net other expense of \$2.7 million in fiscal 2001.

Interest Income (Expense), Net. Net interest expense for fiscal 2001 increased by \$0.3 million, or 44.0%, to \$1.1 million from \$0.8 million in fiscal 2000. The increase in net interest expense was primarily due to the use of working capital funds to finance the Company's acquisitions and operations.

Income (Loss) Before Income Taxes. Income before taxes for fiscal 2001 decreased by \$7.5 million to a loss before taxes of \$11.1 million, compared to a loss before taxes of \$3.6 million for fiscal 2000. Income before taxes for Toymax Brands increased by \$2.8 million, or 46.8%, to a loss before taxes of \$3.4 million, compared

Table of Contents

to a loss before taxes of \$6.3 million for fiscal 2000. Income before taxes for Toymax Enterprises decreased by \$10.3 million to a loss before taxes of \$7.7 million, compared to income before taxes of \$2.6 million in fiscal 2000.

Provision (Benefit) for Income Taxes. The effective tax rate for fiscal 2000 decreased to a benefit of 8.3% from 47.5% for fiscal 2000. The decrease in the effective tax rate was primarily a result of the geographic distribution of income, as well as the reduction in the tax benefit attributable to the impairment loss, the write-off of the investment in and advances to the joint venture and the net operating loss carryforwards of Maxverse.

Net Income (Loss). As a result of the foregoing, the net loss for fiscal 2001 increased \$7.8 million to \$9.7 million (\$0.86 per diluted share) from \$1.9 million (\$0.18 per diluted share) for fiscal 2000.

Fiscal Year Ended March 31, 2000 Compared with Fiscal Year Ended March 31, 1999

Net Sales. Net sales for fiscal 2000 increased to \$139.8 million from \$107.3 million in fiscal 1999, an increase of \$32.5 million, or 30.2%.

Net sales of Toymax Brands decreased 10.8% to \$91.1 million, or 65.2% of total net sales, from \$102.1 million, or 95.2% of total net sales, in fiscal 1999. The decrease in net sales was primarily due to a 57.4% decrease in sales of the Company's Laser Challenge™ gaming system, the anticipated decrease in sales of the line of Spice Girls™ products, and the discontinuance of the Precious Metals™ and Metal Molder™ product lines. These decreases were partially offset by the introduction of new product lines, such as the Starter Up™ brand and the continued strong performance of the Mighty Mo™ brand of vehicles.

Net sales of Toymax Enterprises increased 837.2% to \$48.7 million, or 34.8% of total net sales, from \$5.2 million, or 4.8% of total net sales, in fiscal 1999. The increase was the result of the acquisitions of Monogram and Fun noodle in May and November 1999 respectively, the incorporation of a full year's net sales of GFK and Candy Planet's successful Pokemon licensed product.

Gross Profit. Gross profit for fiscal 2000 increased by \$6.8 million, or 16.4%, to \$48.1 million, or 34.4% of net sales, from \$41.3 million, or 38.5% of net sales, for fiscal 1999.

The gross profit of Toymax Brands decreased by \$11.4 million, or 29.1%, to \$27.7 million, or 30.5% of net sales, from \$39.1 million, or 38.3% of net sales, for fiscal 1999. The decrease in gross profit as a percentage of net sales was primarily attributable to changes in the Company's product mix, particularly the reduction in sales of the Company's Laser Challenge gaming system and Spice Girls merchandise, which carried higher gross margins. In addition, gross profit as a percentage of sales was negatively impacted by the high promotion costs stemming from lower than expected retail demand for the Company's WWE Digital Camera, and markdowns, allowances and other costs associated with the recall of Arcadia™ Electronic Skeet Shoot game system cartridges.

The gross profit of Toymax Enterprises increased by \$18.1 million, or 824.4%, to \$20.3 million, or 41.8% of net sales, from \$2.2 million, or 42.4% of net sales, for fiscal 1999. The increase in gross profit was primarily due to the acquisitions of Monogram and Fun noodle in May and November 1999 respectively, the incorporation of a full year's financial results of GFK and Candy Planet's successful Pokemon license.

Selling and Administrative Expenses. Selling and administrative expenses for fiscal 2000 increased by \$21.1 million, or 69.7%, to \$51.4 million, or 36.7% of net sales, from \$30.3 million, or 28.2% of net sales, for fiscal 1999. Selling and administrative expenses of Toymax Brands for fiscal 2000 increased by \$4.8 million, or 16.5%, to \$34.0 million, or 37.3% of net sales, from \$29.2 million, or 28.6% of net sales, for fiscal 1999. The increase in dollars and as a percentage of net sales was mainly attributable to a 16.0% increase in advertising costs to promote Toymax Brands products and to increased royalties resulting from an increase in the sales of licensed products as well as an increase in research and development costs. Selling and administrative expenses of Toymax Enterprises were \$17.4 million, or 35.6% of net sales, reflecting an increase in the amortization of acquisition and license costs related to the acquisitions of Monogram and Fun noodle in May

Table of Contents

and November 1999 respectively, the incorporation of a full year's operating expenses of GFK and sales and development costs in the Candy Planet division.

Operating Income (Loss). As a result of the foregoing, operating income for fiscal 2000 decreased by \$14.3 million, or 129.7%, to an operating loss of \$3.3 million from operating income of \$11.1 million for fiscal 1999. Operating income for Toymax Brands decreased by \$16.2 million, or 163.2%, to an operating loss of \$6.3 million from operating income of \$9.9 million for fiscal 1999. Operating income for Toymax Enterprises increased by \$1.9 million, or 168.8%, to \$3.0 million from \$1.1 million.

Other Income (Expense), Net. Net other income for fiscal 2000 was \$0.4 million, compared to net other expense of \$0.2 million in fiscal 1999, an increase in income of \$0.6 million. The increase was primarily due to the settlement of an insurance claim and the inclusion of equity income received from the Yaboom joint venture.

Interest Income (Expense), Net. Net interest expense for fiscal 2000 was \$0.8 million, compared to a net interest income of \$1.0 million in fiscal 1999, a decrease of \$1.8 million, or 179.7%. The decrease in net interest income was primarily due to the use of working capital funds to finance the Company's acquisitions and operations. In addition, the Company assumed some short-term indebtedness in conjunction with the acquisition of Monogram.

Income (Loss) Before Income Taxes. Income before income taxes for fiscal 2000 decreased by \$15.5 million, or 130.6%, to a loss before income taxes of \$3.6 million, compared to income before income taxes of \$11.8 million for fiscal 1999. Income before income taxes for Toymax Brands decreased by \$17.0 million, or 158.4%, to a loss before taxes of \$6.3 million, compared to income before taxes of \$10.7 million for fiscal 1999. Toymax Enterprises posted income before income taxes of \$2.7 million in fiscal 2000 as compared to income before income taxes of \$1.1 million, an increase of 140.4%.

Provision (Benefit) for Income Taxes. The effective tax rate for fiscal 2000 decreased to a benefit of 47.5% from a provision of 27.2% for fiscal 1999. This was primarily a result of the losses before taxes incurred by the United States operations, in which the effective tax rate decreased to a benefit of 33.2% in fiscal 2000 from a provision of 43.1% in fiscal 1999. This decrease in effective tax rate was enhanced by the earnings contribution made by the FOB Hong Kong operations, which is subject to a lower tax rate on taxable earnings.

Net Income (Loss). As a result of the foregoing, the net loss for fiscal 2000 decreased to \$1.9 million (\$0.18 per diluted share) from net income of \$8.6 million (\$0.81 per diluted share) for fiscal 1999, a decrease of \$10.5 million or 122.1% from fiscal 1999.

Liquidity and Capital Resources

The Company historically has funded its operations and capital requirements from cash generated from operations and from financing activities. During fiscal 2001, cash and cash equivalents decreased \$2.8 million to \$1.7 million. The Company's operating activities provided net cash of \$1.7 million, which was primarily due to income, net of non-cash charges, of \$2.8 million, which was partially offset by an increase in net operating assets of \$1.1 million. Net operating assets included a \$12.8 million decrease in accounts payable and accrued expenses, which was substantially offset by an increase in due to affiliates of \$1.7 million and decreases of \$9.4 million in due from factor and accounts receivable and \$0.9 million in inventories.

Investing activities used \$5.6 million in net cash as compared to \$23.3 million in fiscal 2000. Investing activities in the current year consisted of \$3.0 million of capital expenditures, the payment of \$2.6 million of additional purchase price for the Funnoodle product line. Investing activities in the prior year included \$19.3 million related to business acquisitions and \$4.0 million for capital expenditures. Capital expenditures in both periods consist principally of the purchase of tooling for new products and equipment.

Financing activities provided \$1.1 million in net cash, primarily due to the private placement of common stock of \$4.6 million and the increase in long-term obligations of \$0.5 million, offset by the decrease in bank debt of \$4.1 million. Pursuant to the offering, the Company issued 1,533,333 shares of common stock of Toymax and approximately 46 million shares of stock in its majority-owned subsidiary, Maxverse. The capital

infusion will be used for general corporate purposes and to fund the development of the Company's expansion into the wireless communications market. In December 2000, the Company replaced the TMI and GFK subsidiaries' existing \$30.0 million credit facility and the Funnoodle \$5.0 million line of credit with a \$40.0 million facility for all of its United States based operating subsidiaries. Borrowings, which are subject to availability according to a formula based on eligible accounts receivable and inventory, bear interest at either the lender's United States prime rate (8.5% as of March 31, 2001) or LIBOR plus 2.50% (7.78% as of March 31, 2001). The credit agreement, which expires in December 2003, is secured by the accounts receivable and inventories of the Company's domestic subsidiaries, as well as other properties, and is guaranteed by Toymax. The agreement contains certain restrictions relating to limitations on debt, certain investments and the payment of dividends. As of March 31, 2001, the outstanding balance under the Agreement was \$10.0 million and borrowing availability was approximately \$2.1 million. The Agreement is terminable by the Bank at any time at its sole discretion, at which time the Company's obligations to the Bank would become due and payable.

In April 2000, the Company's Toymax (H.K.) Limited subsidiary renewed its credit facility with The Hongkong and Shanghai Banking Corporation Limited (Hongkong Bank). The facility provides for an import line of credit of \$500,000 and the acceptance of an export letter of credit guarantee for documents presented with discrepancies of up to approximately \$2.3 million. The facility is terminable by the Hongkong Bank at any time at its sole discretion, at which time the Company's obligations to the Hongkong Bank would become due and payable. As of March 31, 2001, there were no outstanding borrowings under this facility.

The Company expects to fund its near-term cash requirements from a combination of existing cash balances, cash flow from operations and borrowings under its banking arrangements. The Company expects to finance its longer-term growth primarily with cash flow from operations and with externally generated funds, which will likely include borrowings under its existing or future credit facilities. Additional funding from other sources, including equity investors, may be required to support the continued marketing and development costs of Maxverse. There can be no assurance that sufficient cash flows from operations will materialize or that financing under a credit facility will be available in amounts, or at rates, or on terms and conditions acceptable to the Company. In such event, additional funding would be required.

In connection with any future cash needs or acquisition opportunities, the Company may incur additional debt or issue additional equity or debt securities depending on market conditions and other factors.

New Accounting Standards

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, *Accounting for Derivative Instruments and Hedging Activities*. SFAS No. 133, as amended, is effective for transactions entered into after June 15, 2000. SFAS No. 133 requires that all derivative instruments be recorded on the balance sheet at fair value. Changes in the fair value of the derivatives are recorded each period in current earnings or other comprehensive income, depending on whether a derivative is designated as part of the hedged transaction and the type of hedge transaction. The ineffective portion of all hedges will be recognized in earnings.

In June 2000, the FASB issued SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities* which amended SFAS No. 133. The amendments in SFAS No. 138 address certain implementation issues and related to such matters as the normal purchases and normal sales exception, the definition of interest rate risk, hedging recognized foreign currency denominated assets and liabilities, and intercompany derivatives.

Effective April 2001, the Company will adopt SFAS No. 133 and No. 138. The initial impacts of adoption on the Company's financial statements will be recorded in the first fiscal quarter of fiscal 2002 and will not be material. The ongoing effect of adoption on the Company's consolidated financial statements will be determined each quarter by several factors, including the specific hedging instruments in place and their relationships to hedged items, as well as market conditions at the end of each period.

Table of Contents

In December 1999, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) 101, Revenue Recognition in Financial Statements. SAB 101 provides guidance on applying generally accepted accounting principles to revenue recognition in financial statements. The Company has adopted SAB 101 in fiscal 2001 and there was no material effect on the Company's operating results.

In September 2000, the FASB issued SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities a replacements of FAS 125. This statement replaces SFAS No. 125, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. It revises the standards for accounting for securitizations and other transfers of financial assets and collateral and requires certain disclosures, but it carries over most of SFAS No. 125's provisions without reconsideration. This statement is effective for transfers and servicing of financial assets and extinguishments of liabilities occurring after March 31, 2001. This statement is effective for recognition and reclassification of collateral and for disclosures relating to securitization transactions and collateral for fiscal years ending after December 15, 2000. The Company believes the adoption of this standard will not have a material effect on its operating results and disclosures.

Barter Transaction

In December 1998, the Company entered into an agreement with a broker of media advertising, whereby the Company sold and transferred title to merchandise of the Company having a fair value of approximately \$6.9 million in exchange for approximately \$8.7 million in trade credits. Based upon the Company's historical use of barter credits in the purchase of its advertising as well as the Company's current advertising budget, the Company has recorded a portion of the asset as a current prepaid asset with the remaining balance recorded as a long-term asset. As of March 31, 2001, the total remaining net asset balance was approximately \$5.1 million.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*

The Company is exposed to certain market risks, which arise from transactions entered into in the normal course of business. The Company's primary exposures are changes in interest rates with respect to its debt and foreign currency exchange fluctuations.

Interest Rate Risk

The interest payable on the Company's revolving line-of-credit is variable based on LIBOR and/or the prime rates in the United States and Hong Kong, and therefore, affected by changes in market interest rates. The Company does not use derivative financial instruments.

Foreign Currency Risk

While the Company's product purchases are transacted in United States dollars, most transactions among the suppliers and subcontractors of Jauntway Investments Limited, an OEM toy manufacturer that has been the Company's most important manufacturer since inception, are effected in Hong Kong dollars. Accordingly, fluctuations in Hong Kong monetary rates may have an impact on the Company's cost of goods. However, since 1983, the value of the Hong Kong dollar has been tied to the value of the United States dollar, eliminating fluctuations between the two currencies. Despite the announcements by the Hong Kong Government that it is determined to maintain such fixed exchange rate, there can be no assurance that the Hong Kong dollar will continue to be tied to the United States dollar in the near future or longer term. Furthermore, appreciation of Chinese currency values relative to the Hong Kong dollar could increase the cost to the Company of the products manufactured in China, and thereby have a negative impact on the Company.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Board of Directors and Stockholders of Toymax

International, Inc.

We have audited the accompanying consolidated balance sheets of Toymax International, Inc. and Subsidiaries as of March 31, 2000 and 2001, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the three years in the period ended March 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Toymax International, Inc. and Subsidiaries at March 31, 2000 and 2001, and the results of their operations and their cash flows for each of the three years in the period ended March 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 1999, 2000 and 2001

1. Organization and Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Toymax International, Inc. (Toymax and the Company) and its subsidiaries after elimination of intercompany accounts and transactions.

Adoption of Recent Accounting Principles

The consolidated financial statements reflect, for all periods presented, the adoption of the classification requirements pursuant to Emerging Issues Task Force (EITF) 00-10, Accounting for Shipping and Handling Fees and Costs, which was effective in the Company's fourth quarter of fiscal 2001. The Company reclassified income from freight charges to customers to Net sales and warehousing, shipping and handlings costs to Cost of goods sold. Such costs, net of the related revenue, were historically included in Selling, general and administrative expenses for all periods presented.

Business

The Company's operations consist principally of its traditional toy products business and the businesses of its acquired enterprises. The toy products business is conducted by the Company's subsidiaries, Toymax, Inc. (TMI) and Toymax (H.K.) Limited (Toymax HK), which are involved in designing, marketing and distributing toy products, and its majority-owned subsidiary, Maxverse Interactive, Inc. (Maxverse), which is involved in the development of wireless communications devices for the youth market, (collectively with the Yaboom Ltd. joint venture, Toymax Brands). The Company's new ventures include Go Fly A Kite, Inc. (GFK), Monogram International, Inc., Monogram Products (H.K.) Limited (together with Monogram International, Inc., Monogram), Funnoodle, Inc., Funnoodle (H.K.) Limited (together with Funnoodle, Inc., Funnoodle, formerly Sun Master Investment Limited) and Candy Planet (collectively Toymax Enterprises). GFK, Monogram and Funnoodle were formed to acquire the businesses described in Note 2. Candy Planet was formed in February 1999 as a division of TMI to design, market and distribute candy products.

Cash and Cash Equivalents

Cash and cash equivalents includes investments with original maturities of three months or less at the date of acquisition. Such investments, consisting primarily of investments in commercial paper, are stated at cost, which approximates market value, and amounted to approximately \$3.3 million and \$0.6 million at March 31, 2000 and 2001, respectively. In addition, at March 31, 2000 and 2001 approximately \$0.8 million and \$0.5 million, respectively, were invested in interest bearing savings accounts and money market funds.

Inventories

Inventories are stated at the lower of cost (first-in, first-out basis) or market value. Inventories consist principally of purchased finished goods.

Property and Equipment

Property and equipment are stated at original cost. Depreciation of machinery, equipment, molds and furniture and fixtures is computed by the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized by the straight-line method over the shorter of their economic lives or the terms of the leases.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Translation of Foreign Currency Financial Statements

Assets and liabilities of foreign subsidiaries are translated at year-end rates of exchange, and revenues and expenses are translated at the average rates of exchange for the year. Gains and losses resulting from translation are accumulated in a separate component of stockholders equity. Gains and losses resulting from foreign currency transactions (transactions denominated in a currency other than the functional currency) are included in net income or loss. Substantially all of the Company's foreign subsidiaries are located in Hong Kong. Since the value of the Hong Kong dollar has been tied to the value of the United States dollar, foreign currency fluctuations have been eliminated.

Income Taxes

Deferred income taxes are recognized based on the differences between the tax bases of assets and liabilities and their reported amounts in the financial statements which will result in taxable or deductible amounts in future years. Further, the effects of enacted tax law or rate changes are included in income as part of deferred tax expenses or benefits in the period that includes the enactment date. A valuation allowance is recognized if, in the opinion of management, it is more likely than not that some portion of, or all of, a deferred tax asset will not be realized.

Revenue Recognition

Sales are recorded upon shipment, free on board from the point of shipment. The Company provides, as a reduction of sales, for anticipated returns, allowances and other sales incentives, based on known and anticipated claims.

Advertising

Advertising costs are charged to operations as incurred and were approximately \$11.3 million, \$13.3 million and \$9.5 million for the years ended March 31, 1999, 2000 and 2001, respectively.

Royalties

Minimum guaranteed royalties, as well as royalties in excess of minimum guarantees, are expensed based on the sales of related products. The realizability of minimum guaranteed royalties paid is evaluated by the Company based on the projected sales of the related products.

Research and Development Expenses

Research and development expenses are charged to operations as incurred and are included in selling and administrative expenses. Research and development expenses for the years ended March 31, 1999, 2000 and 2001 were approximately \$2.6 million, \$5.2 million and \$4.5 million, respectively.

Fair Value of Financial Instruments

The carrying amounts of certain financial instruments, including cash, due from Factor, accounts receivable, accounts payable and bank obligations, approximate fair value as of March 31, 2000 and March 31, 2001 because of the relatively short-term maturity of these instruments. Fair value of the amounts due to or from affiliates cannot be readily determined because of the nature of the terms.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Accounting for the Impairment of Long-Lived Assets

Long-lived assets, such as intangible assets and property and equipment, are evaluated for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through the estimated undiscounted future cash flows from the use of these assets. When any such impairment exists, the related assets will be written down to fair value. In fiscal 2001, the Company recognized an impairment loss of approximately \$7.1 million related to the valuation of goodwill and the investment in and advances to the Company's joint venture.

Goodwill

Goodwill represents the excess purchase price paid over the fair market value of the net assets of the acquired company. Goodwill is being amortized over 10-15 years on a straight-line basis.

The carrying value of Goodwill is based on management's current assessment of recoverability. Management evaluates recoverability using both objective and subjective factors. Objective factors include

management's best estimates of projected future earnings, cash flows and analysis of historical and recent sales and earnings trends. Subjective factors include competitive analysis and the Company's strategic focus.

Earnings (Loss) per Share

Basic earnings per share includes no dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects, in periods in which they have a dilutive effect, the effect of common shares issuable upon exercise of stock options and warrants.

Options and warrants to purchase an aggregate of 2,738,620 and 2,293,900 shares of common stock were outstanding at March 31, 2000 and 2001, respectively, at exercise prices ranging from \$3.75 to \$10.20 per share in fiscal 2000, and from \$1.34 to \$8.63 in fiscal 2001. Such options and warrants are not included in the computation of diluted earnings per share because they are anti-dilutive (See Note 10).

Accounting for Stock Based Compensation

The Company accounts for its stock option awards to employees under the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*. Under the intrinsic value based method, compensation cost is the excess, if any, of the quoted market price of the stock at the grant date or other measurement date over the amount an employee must pay to acquire the stock. The Company makes pro forma disclosures of the net income and earnings per share as if the fair value based method of accounting had been applied as required by Statement of Financial Accounting Standards (SFAS) No. 123, *Accounting for Stock-Based Compensation*.

Use of Estimates

The preparation of the financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the more significant estimates included in these consolidated financial statements are the estimated allowance for doubtful accounts receivable and accrued rebates and allowances. Actual results could differ from those and other estimates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Concentration of Credit Risks

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash balances deposited in financial institutions which exceed FDIC insurance limits, receivables due from Factor and accounts receivable not sold to a factor.

The Company established an allowance for accounts receivable based upon factors surrounding the credit risk of specific customers historical trends and other information. See Note 12 for information relating to the concentration of sales to major customers.

Comprehensive Income

Comprehensive income refers to revenue, expenses, gains and losses that under generally accepted accounting principles are excluded from net income, as these amounts are recorded directly as an adjustment to shareholders' equity. The Company's comprehensive income is comprised of foreign currency translation adjustments. The comprehensive income for the three years ended March 31, 2001 is the same as the reported net income.

Recent Accounting Standards

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, *Accounting for Derivative Instruments and Hedging Activities*. SFAS No. 133, as amended, is effective for transactions entered into after June 15, 2000. SFAS No. 133 requires that all derivative instruments be recorded on the balance sheet at fair value. Changes in the fair value of the derivatives are recorded each period in current earnings or other comprehensive income, depending on whether a derivative is designated as part of the hedged transaction and the type of hedge transaction. The ineffective portion of all hedges will be recognized in earnings.

In June 2000, the FASB issued SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities* which amended SFAS No. 133. The amendments in SFAS No. 138 address certain implementation issues and related to such matters as the normal purchases and normal sales exception, the definition of interest rate risk, hedging recognized foreign currency denominated assets and liabilities, and intercompany derivatives.

Effective April 2001, the Company will adopt SFAS No. 133 and No. 138. The initial impacts of adoption on the Company's financial statements will be recorded in the first fiscal quarter of fiscal 2002 and will not be material. The ongoing effect of adoption on the Company's consolidated financial statements will be determined each quarter by several factors, including the specific hedging instruments in place and their relationships to hedged items, as well as market conditions at the end of each period.

In December 1999, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) 101, *Revenue Recognition in Financial Statements*. SAB 101 provides guidance on applying generally accepted accounting principles to revenue recognition in financial statements. The Company has adopted SAB 101 in fiscal 2001 and there was no material effect on the Company's operating results.

In September 2000, the FASB issued SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* a replacements of FAS 125. This statement replaces SFAS No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. It revises the standards for accounting for securitizations and other transfers of financial assets and collateral and requires certain disclosures, but it carries over most of SFAS No. 125's provisions without reconsideration. This statement is effective for transfers and servicing of financial assets and extinguishments of liabilities occurring after March 31, 2001. This statement is effective for recognition and reclassification of collateral and for disclosures relating to securitization transactions and collateral for fiscal years ending after

December 15, 2000. The Company believes the adoption of this standard will not have a material effect on its operating results and disclosures.

Reclassifications

Certain March 31, 1999 and 2000 amounts were reclassified to conform to the March 31, 2001 presentation.

2. Business Acquisitions and Joint Ventures

In December 1998, the Company acquired substantially all of the operating assets, business operations and facilities of GFK. The aggregate maximum purchase price of approximately \$6.3 million consisted of up to \$5.9 million in cash and a non-interest bearing contingent note and \$0.4 million in related direct costs. A portion of the purchase price, \$1.3 million, was contingent upon the achievement of certain operating results for the twelve months ending August 31, 1999 and \$150,000 was contingent upon the achievement of certain operating results from the date of the acquisition until August 31, 1999. Both contingencies were incurred and paid in fiscal 2000. The acquisition has been accounted for using the purchase method. The Company recorded approximately \$5.8 million of goodwill, including goodwill related to the contingent payment of \$1.5 million, for the excess of the total purchase price over the fair value of the net assets acquired. Included in the acquired net assets was approximately \$1.5 million in certain trade payables and accrued liabilities and approximately \$0.6 million in bank debt. The funds required at closing came out of the working capital of the Company.

In May 1999, newly formed subsidiaries of Toymax acquired substantially all of the assets and certain liabilities of Burkett Enterprises, Inc. f/k/a Monogram International, Inc. and Monogram Products, (H.K.) Limited pursuant to an asset purchase agreement dated April 19, 1999. Monogram is a leading designer, manufacturer and marketer of gift, novelty and souvenir products sold globally. The consideration for the acquisition was \$6.0 million paid in cash at the closing plus up to \$9.0 million payable after the closing if certain contingencies occur through March 31, 2003. In addition, Monogram's short-term indebtedness consisting of two promissory notes, totaling \$3.8 million as of the date of acquisition, was assumed. The Company recorded approximately \$6.0 million of goodwill for the excess of the total purchase price over the fair value of the net assets acquired. Transaction costs of approximately \$0.9 million were incurred in connection with the acquisition. The funds required at closing came out of the working capital of the Company. To date, no additional consideration has been paid based on the contingencies contained in the acquisition agreement. Based on continued losses, weak projections and other considerations, the Company recorded an impairment loss for the Company's Monogram subsidiary of approximately \$5.3 million during the fourth quarter of fiscal 2001. The impaired assets consist principally of the goodwill related to the acquisition of Monogram.

In November 1999, the Company acquired the Funnoodle product line from Kidpower, Inc. (Kidpower), pursuant to an asset purchase agreement dated October 25, 1999. The Funnoodle product line is a highly recognized consumer brand of pool and backyard water recreational products which include the original Funnoodle® water toys, floating pool mats, lawn sprinkler toys and exercise mats. The consideration for the acquisition was \$8.7 million paid in cash at the closing, the assumption of certain commitments of Kidpower in an amount of \$500,000, plus up to \$7.0 million payable to Kidpower after the closing if certain contingencies occur through October 31, 2002. The Company recorded approximately \$8.1 million of goodwill for the excess of the total purchase price over the fair value of the net assets acquired. The funding for the acquisition was out of the working capital of the Company. Based on the occurrence of certain contingencies contained in the acquisition agreement, the Company recorded and paid approximately \$2.6 million as additional goodwill in fiscal 2001.

Table of Contents**TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In connection with the Funnoodle acquisition, the Company entered into a management services agreement dated November 30, 1999 with Kidpower (the Kidpower Management Agreement). Pursuant to the Kidpower Management Agreement, Kidpower will manage the day-to-day operations with respect to the Funnoodle product line. Pursuant to the Kidpower Management Agreement, a management fee of seven percent (7%) of the cost of all finished goods with respect to the Funnoodle product line is payable to Kidpower. The Kidpower Management Agreement, which has an initial term through November 15, 2002, is subject to termination or renewal on an annual basis at the Company's option. In May 2001, the Company delivered notice to Kidpower to terminate the Kidpower Management Agreement effective August 2001.

On a pro forma basis, reflecting the acquisition of GFK, Monogram, and Funnoodle as if they had taken place at the beginning of fiscal 1999 and after giving effect to adjustments recording the acquisitions, unaudited pro-forma results for fiscal 1999 and 2000 are as follows:

	Year Ended March 31,	
	1999	2000
Net sales	\$ 147,628,114	\$ 152,836,943
Net income (loss)	\$ 8,554,605	\$ (1,199,621)
Basic and diluted earnings (loss) per share	\$.81	\$ (.11)

In October 1999, the Company and a private investor formed Yaboom Ltd. (Yaboom), a joint venture. The Company's investment in Yaboom includes \$1.0 million for the equity ownership and \$1.1 million in non-interest bearing advances. Yaboom was formed to develop, manufacture and market innovative high-tech consumer products, which incorporate music and other intellectual property rights from popular recording artists. Under the terms of the joint venture, the Company, through a wholly-owned Hong Kong subsidiary, and the private investor each own fifty percent of Yaboom. The Company has accounted for the joint venture using the equity method and intends to permanently reinvest the earnings derived from the joint venture. Based on the uncertainty of the operations, the Company recognized an impairment in the value of the goodwill and investment in and advances to Yaboom of approximately \$1.9 million in fiscal 2001.

In fiscal 2001, the Company formed a subsidiary to develop wireless communication products for children and young adults. Pursuant to a private placement in the third quarter of fiscal 2001, the Company sold a minority interest in the subsidiary. Minority interest represents the minority shareholders' proportionate share of the loss and equity of the subsidiary. The results of operations of the subsidiary were not material for fiscal 2001.

3. Due from Factor and Accounts Receivable

In the normal course of business, TMI and Funnoodle sell substantially all of their accounts receivable, without recourse, to the CIT Group, Inc. (the Factor), and receive payment from the Factor when the accounts are collected.

Accounts receivable consists mainly of sales not factored and amounts charged back by the Factor as a result of disputes primarily relating to unearned discounts and damaged shipments, net of allowances for possible losses.

5. Prepaid Expenses and Other Current Assets***Barter Transaction***

In December 1998 and April 1999, the Company entered into agreements with a broker of media advertising, whereby the Company through the Toymax Brands segment sold and transferred title to merchandise of the Company having a fair value of approximately \$6.9 million in exchange for approximately \$8.7 million in trade credits. The Company recorded a gross margin on this transaction of approximately \$3.2 million. The net prepaid advertising at March 31, 2001 was approximately \$5.1 million of which approximately \$1.2 million represented the current portion and the balance of which is included in other assets. The components of prepaid expenses and other current assets are as follows:

6. Bank Credit Facility

In December 2000, the Company replaced the Toymax Inc. (TMI) and Go Fly A Kite, Inc. (GFK) subsidiaries existing \$30.0 million credit facility and the Funnoodle \$5.0 million line of credit with a \$40.0 million facility for all of its United States based operating subsidiaries.

Edgar Filing: JAKKS PACIFIC INC - Form S-4

Borrowings, which are subject to availability according to a formula based on eligible accounts receivable and inventory, bear interest at either the lender's United States prime rate (8.0% as of March 31, 2001) or LIBOR plus 2.50% (7.78% as of March 31, 2001). The credit agreement, which expires in December 2003, is secured by the accounts receivable and inventories of the Company's domestic subsidiaries, as well as other properties, and is guaranteed by Toymax. The agreement contains certain restrictions relating to limitations on debt, certain investments and the payment of dividends. As of March 31, 2001, the outstanding balance under the Agreement was \$10.0 million and borrowing availability was approximately \$2.1 million. The Agreement is terminable by the Bank at any time at its sole discretion, at which time the Company's obligations to the Bank would become due and payable.

Effective April 2000, the Company's Toymax HK subsidiary renewed its credit facility with The Hongkong and Shanghai Banking Corporation Limited (Hongkong Bank). The facility provides for an import line of credit of \$500,000 and the acceptance of an export letter of credit guarantee of Toymax HK for documents presented with discrepancies of up to approximately \$2.3 million. The facility is terminable by the Hongkong Bank at any time at its sole discretion, at which time the Company's obligations to the Hongkong Bank would become due and payable. As of March 31, 2001, the Company had no borrowings under this facility.

7. Due to/ from Affiliates

The majority stockholder of the Company owns significant interests in several other companies, including Tai Nam Industrial Company Limited (Tai Nam) and Jauntiway Investments Limited (Jauntiway). TMI and Toymax HK have purchased the majority of their merchandise directly from Tai Nam. The majority of the merchandise is manufactured in the People's Republic of China (PRC) by Jauntiway.

The Company has significant transactions with Tai Nam. These transactions include purchases of the majority of the Company's and its subsidiary's merchandise and certain sales of the subsidiary's products. This affiliate has occasionally provided extended payment terms for these purchases.

Toymax HK and TMI have an agency agreement with Tai Nam which provides for an agency fee of 7% on products purchased. The agency agreement also requires Tai Nam to provide all administrative services to Toymax HK.

In September 1997, the Company entered into a manufacturing agreement with Tai Nam and Jauntiway. This agreement provides, among other things, that the Company shall not be required to provide a letter of credit or other security to Tai Nam or Jauntiway in connection with its purchase orders.

GFK maintains some raw materials for manufacturing but purchases the majority of its product from manufacturers in the PRC and Taiwan based upon the company's product specifications. Tai Nam acts as GFK's agent in Hong Kong for all products produced in the PRC pursuant to an agency agreement dated September 1, 2000.

TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2000 and 2001

Note 1 Basis of Financial Statement Presentation

The accompanying unaudited condensed consolidated financial statements of Toymax International, Inc. (Toymax or the Company) include the accounts of the Company and its subsidiaries after elimination of all material intercompany accounts and transactions, and have been prepared in accordance with the instructions to Form 10-Q. Accordingly, the unaudited consolidated financial statements do not include all of the financial information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The balance sheet at March 31, 2001 has been derived from the audited balance sheet at that date. It is suggested that these condensed consolidated financial statements, which are presented in United States Dollars, be read in conjunction with the consolidated financial statements and related notes included in the Company's Form 10-K for the fiscal year ended March 31, 2001. The Company follows the same accounting policies in preparation of interim reports. The results of operations and financial position for interim periods are not necessarily indicative of those to be expected for the full year ended March 31, 2002, due, in part, to seasonal fluctuations which are normal for the Company's business.

Certain reclassifications have been made to the prior period amounts to conform with the current period presentation and with the presentation of discontinued operations.

Note 2 Earnings Per Share

Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects, in periods in which they have a dilutive effect, the effect of common shares issuable upon exercise of stock options and warrants.

Options and warrants to purchase an aggregate of 2,275,750 and 2,950,405 shares of common stock were outstanding at December 31, 2000 and 2001, respectively.

Note 3 Other Comprehensive Income

Other comprehensive income (loss) refers to revenue, expenses, gains and losses that under generally accepted accounting principles are excluded from net income (loss), as these amounts are recorded directly as an adjustment to shareholders' equity. The Company's other comprehensive income (loss) is comprised of foreign currency translation adjustments. The comprehensive income (loss) for the three and nine months ended December 31, 2000 and 2001 is the same as the reported net income (loss).

Note 4 Recent Accounting Standards

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, *Accounting for Derivative Instruments and Hedging Activities*. SFAS No. 133, as amended, is effective for fiscal years beginning after June 15, 2000. SFAS No. 133 requires that all derivative instruments be recorded on the balance sheet at fair value. Changes in the fair value of the derivatives are recorded each period in current earnings or other comprehensive income, depending on whether a derivative is designated as part of the hedged transaction and the type of hedge transaction. The ineffective portion of all hedges will be recognized in operations.

In June 2000, the FASB issued SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities* which amended SFAS No. 133. The amendments in SFAS No. 138 address certain implementation issues and related to such matters as the normal purchases and normal sales exception,

In August 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations. SFAS No. 143 requires the fair value of a liability for an asset retirement obligation to be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. We believe the adoption of this statement will have no material impact on the financial statements.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 requires that those long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable value or include amounts for operating losses that have not yet occurred. SFAS No. 144 is effective for financial statements issued for fiscal years beginning after December 14, 2001 and, generally, is to be applied prospectively. The Company has elected to early adopt SFAS No. 144 in the current fiscal year.

Note 5 Segment and Geographic Data

The Company operates two reportable segments: Toymax Brands (which consists of Toymax Inc., Toymax (H.K.) Limited, Maxverse Interactive, Inc. and the Company's equity investment in Yaboom Limited) and Toymax Enterprises (which consists of Go Fly A Kite, Inc., and Funnoodle, Inc. (Funnoodle)).

The following tables present summarized information about the Company's operations by reportable segments (net of consolidating eliminations) as of and for the three and nine months ended December 31, 2000 and 2001:

Note 6 Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market. Inventories consist principally of purchased finished goods.

Note 7 Income Taxes

The Company provides for income taxes during interim periods based upon an estimate of the effective annual tax rate.

The Company's federal tax returns for 1992 through 2000 and New York State returns for 1999 through 2001 are under examination. As of the date of this Form 10-Q, the tax authorities have raised no issues that would have a material effect on the financial statements. The Company cannot predict at this time what the outcome of the examinations will be or the impact, if any, on the Company's results of operations.

Table of Contents**TOYMAX INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 8 Business Acquisitions**

In November 1999, Funnoodle acquired the Funnoodle product line pursuant to an asset purchase agreement dated October 25, 1999. The consideration for the acquisition was \$8.7 million paid in cash at the closing, the assumption of certain commitments in the amount of \$500,000, plus up to \$7.0 million payable after the closing if certain contingencies occur. The Company recorded approximately \$8.1 million of goodwill for the excess of the total purchase price over the fair value of the net assets acquired. Based on the occurrence of certain contingencies contained in the acquisition agreement, the Company recorded additional consideration of approximately \$2.6 million in the fiscal year ended March 31, 2001 and \$1.2 million in the nine months ended December 31, 2001.

Note 9 Discontinued Operations

Effective November 30, 2001, the Company sold the net assets of the Monogram and Candy Planet segments of the business to an entity controlled by David Chu, the Chairman of the Company's board of directors, for \$2.25 million. Marketplace Risks

Dependence on the timely development, introduction and customer acceptance of new products, which may affect Toymax's ability to successfully redesign, restyle and extend existing core products and product lines and successfully bring new products to market.

Possible weaknesses in economic conditions, both domestically and internationally, which may negatively affect the sales of Toymax's products and the costs associated with manufacturing and distributing these products.

Dependence on the success of new licenses, which Toymax acquires for marketing with new and existing products.

Toymax's inability to accurately predict future consumer demand.

Increased competitive pressure, both domestically and internationally, which may negatively affect the sales of Toymax's products.

Changes in consumer preferences, which may negatively affect Toymax's business.

Financial Considerations

Significant changes in interest rates, both domestically and internationally, which may negatively affect Toymax's cost of financing its operations

Currency fluctuations, which may affect Toymax's reportable income

Other Risks

Development of new technologies, including the Internet, which may create new risks to Toymax's ability to protect its intellectual property rights

Changes in laws or regulations, both domestically and internationally, including those affecting consumer products, environmental activities or trade restrictions, which may lead to increased costs or interruption in normal business operations of Toymax

Other factors and risks that may be described from time to time in Toymax's public announcements and filings with the Securities and Exchange Commission

The decrease in net sales was primarily due to a decrease in sales of IR and programmable vehicles and an increase in sales discounts and allowances.

Net sales of Toymax Enterprises for the quarter ended December 31, 2001 decreased 15.1% to \$2.1 million, or 8.3% of total net sales, from \$2.5 million, or 7.3% of total net sales for the quarter ended December 31, 2000. The decrease in net sales was primarily the result of a decrease in sales of pool and backyard water recreational products.

Gross Profit. Gross profit for the quarter ended December 31, 2001, decreased by \$8.5 million to \$6.2 million from \$14.7 million for the quarter ended December 31, 2000, with a decrease in gross margin from 42.4% of net sales to 24.3%.

Liquidity and Capital Resources

The Company historically has funded its operations and capital requirements from cash generated from operations and from financing activities. During the nine months ended December 31, 2001, cash and cash equivalents increased \$3.2 million to \$5.0 million.

Cash used in operating activities was approximately \$3.0 million, as compared to \$0.8 million provided by operations in the nine months ended December 31, 2000. The decrease was primarily due to the net loss for the period and the increase in due from factor, accounts receivable and inventories, which was partially offset by the decrease in prepaid expenses and the increase in accounts payable and due to affiliates.

Investing activities used \$4.3 million in net cash, as compared to \$4.9 million in the nine months ended December 31, 2000. Investing activities in the current and prior year periods consisted principally of capital expenditures, principally for the purchase of molds and equipment for new products, and the payment of additional consideration for the purchase of the Funnoodle product line.

Financing activities provided \$10.5 million in net cash due to the increase in the working capital credit facilities. In December 2000, the Company replaced the TMI and GFK subsidiaries' existing \$30.0 million

Table of Contents

credit facility and the Fun noodle \$5.0 million line of credit with a \$40.0 million facility for all of its United States based operating subsidiaries. Borrowings, which are subject to availability according to a formula based on eligible accounts receivable and inventory, bear interest at either the lender's United States prime rate (5.00% as of December 31, 2001) or LIBOR plus 2.50% (4.38% as of December 31, 2001). The credit agreement, which expires in December 2003, is secured by the accounts receivable and inventories of the Company's domestic subsidiaries, as well as other properties, and is guaranteed by Toymax. The agreement contains certain restrictions relating to limitations on debt, certain investments and the payment of dividends. As of December 31, 2001, the outstanding balance under the Agreement was approximately \$20.6 million and borrowing availability was approximately \$3.0 million. The Agreement is terminable by the Bank at any time at its sole discretion, at which time the Company's obligations to the Bank would become due and payable.

Pursuant to a credit agreement dated July 4, 2001, the Company's Toymax (H.K.) Limited subsidiary renewed its credit facility with The Hongkong and Shanghai Banking Corporation Limited (Hongkong Bank). The facility provides a clean export loan of \$1.0 million and the acceptance of an export letter of credit guarantee for documents presented with discrepancies of up to approximately \$2.3 million. The facility, which is jointly available to the Company's affiliates in Hong Kong, is terminable by the Hongkong Bank at any time at its sole discretion, at which time the Company's obligations to the Hongkong Bank would become due and payable. As of December 31, 2001 there was no outstanding balance under this facility.

In October 2001, the Company announced the resumption of the Company's stock repurchase program. As of February 8, 2002, a total of 66,200 shares of Toymax common stock have been repurchased for a total purchase price of \$210,403.

The Company expects to fund its near-term cash requirements from a combination of existing cash balances, cash flow from operations and borrowings under its banking arrangements. The Company expects to finance its longer-term growth primarily with cash flow from operations and with externally generated funds, which will likely include borrowings under its existing or future credit facilities. Additional funding from other sources, including equity investors, may be required to support the continued marketing and development costs of Maxverse. There can be no assurance that sufficient cash flows from operations will materialize or that financing under a credit facility will be available in amounts, or at rates, or on terms and conditions acceptable to the Company. In such event, additional funding would be required.

In connection with any future cash needs or acquisition opportunities, the Company may incur additional debt or issue additional equity or debt securities depending on market conditions and other factors.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

The Company is exposed to certain market risks, which arise from transactions entered into in the normal course of business. The Company's primary exposures are changes in interest rates with respect to its debt and foreign currency exchange fluctuations.

Interest Rate Risk

The interest payable on the Company's revolving line-of-credit is variable based on LIBOR and/or the prime rate, and therefore, affected by changes in market interest rates. The Company does not use derivative financial instruments.

Foreign Currency Risk

While the Company's product purchases are transacted in United States dollars, most transactions among the suppliers and subcontractors of Tai Nam Industrial Company Limited, an OEM toy manufacturer that has been the Company's most important manufacturer since inception, are effected in Hong Kong dollars. Accordingly, fluctuations in Hong Kong monetary rates may have an impact on the Company's cost of goods. However, since 1983, the value of the Hong Kong dollar has been tied to the value of the United States dollar, eliminating fluctuations between the two currencies. Despite the announcements by the Hong Kong Government that it is determined to maintain such a fixed exchange rate, there can be no assurance that the

Table of Contents

Hong Kong dollar will continue to be tied to the United States dollar in the near future or longer term. Furthermore, appreciation of Chinese currency values relative to the Hong Kong dollar could increase the cost to the Company of the products manufactured in China, and thereby have a negative impact on the Company.

The registrant's certificate of incorporation provides that the personal liability of the directors of the registrant shall be limited to the fullest extent permitted by the provisions of Section 102(b)(7) of the General Corporation Law of the State of Delaware (DGCL). Section 102(b)(7) of the DGCL generally provides that no director shall be liable personally to the registrant or its stockholders for monetary damages for breach of fiduciary duty as a director, provided that the certificate of incorporation does not eliminate the liability of a director for (1) any breach of the director's duty of loyalty to the registrant or its stockholders; (2) acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law; (3) acts or omissions in respect of certain unlawful dividend payments or stock redemptions or repurchases; or (4) any transaction from which such director derives an improper personal benefit. The effect of this provision is to eliminate the rights of the registrant and its stockholders to recover monetary damages against a director for breach of her or his fiduciary duty of care as a director (including breaches resulting from negligent or grossly negligent behavior) except in the situations described in clauses (1) through (4) above. The limitations summarized above, however, do not affect the ability of the registrant or its stockholders to seek nonmonetary remedies, such as an injunction or rescission, against a director for breach of her or his fiduciary duty.

In addition, the certificate of incorporation provides that the registrant shall, to the fullest extent permitted by Section 145 of the DGCL, indemnify all persons whom it may indemnify pursuant to Section 145 of the DGCL. In general, Section 145 of the DGCL permits the registrant to indemnify a director, officer, employee or agent of the registrant or, when so serving at the registrant's request, another company who was or is a party or is threatened to be made a party to any proceeding because of his or her position, if he or she acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the registrant and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

The registrant maintains a directors' and officers' liability insurance policy covering certain liabilities that may be incurred by any director or officer in connection with the performance of his or her duties and certain liabilities that may be incurred by the registrant, including the indemnification payable to any director or officer. This policy provides for \$20 million in maximum aggregate coverage, including defense costs. The entire premium for such insurance is paid by the registrant.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, or persons controlling the Company pursuant to the foregoing provisions, the Company has been informed that in the opinion of the Commission, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Undertakings

1. The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

2. The undersigned registrant hereby undertakes as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

3. The registrant undertakes that every prospectus: (i) that is filed pursuant to paragraph (4) immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Act and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

4. The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference in to the prospectus pursuant to Item 4, 10(b), 11, or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

5. The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

6. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
