SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 20-F

o REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR 12(g) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

b ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE FISCAL YEAR ENDED DECEMBER 31, 2002

OR

o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE TRANSITION PERIOD FROM TO

COMMISSION FILE NUMBER:

Publicis Groupe S.A.

(Exact name of Registrant as specified in its charter)

N/A
(Translation of Registrant's name into English)

**133, AVENUE DES CHAMPS-ELYSEES
75008 PARIS
France**

(Address of principal executive offices)

**REPUBLIC
OF FRANCE**
(Jurisdiction of incorporation or organization)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of Each Class:

Name of Each Exchange on Which Registered:

Ordinary shares, nominal value 0.40 per share, represented by American Depositary Shares (as evidenced by American Depositary Receipts), each American Depositary Share representing one ordinary share

The New York Stock Exchange

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act: None

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report: 196,081,129 ordinary shares, nominal value 0.40 per share.

Edgar Filing: PUBLICIS GROUPE SA - Form 20-F

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes No

Indicate by check mark which financial statement item the registrant has elected to follow: Item 17 Item 18

FORWARD-LOOKING STATEMENTS

We make some forward-looking statements in this annual report. When we use the words *aim(s)*, *expect(s)*, *feel(s)*, *will*, *may*, *believe*, *anticipate(s)* and similar expressions in this annual report, we are intending to identify those statements as forward-looking. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this annual report. Other than in connection with applicable securities laws, we undertake no obligation to publish revised forward-looking statements to reflect events or circumstances after the date of this annual report or to reflect the occurrence of unanticipated events. We urge you to review and consider the various disclosures we make concerning the factors that may affect our business carefully, including the disclosures made under *Key Information Risk Factors*, *Operating and Financial Review and Prospects*, and *Quantitative and Qualitative Disclosures About Market Risk*. Unless otherwise indicated, information and statistics presented in this document regarding market trends and our market share relative to our competitors are based on our own research and various publicly available sources.

EXPLANATORY NOTE

Unless otherwise indicated, all references to our competitive positions made in this annual report are in terms of revenue generated.

The term *billings*, as used in this annual report, represents calculated amounts determined in accordance with common industry practices to facilitate comparison with other major companies in our industry and does not represent amounts generated from our accounting systems. The commission and fee revenues that are generated directly from our accounting systems do not permit a reliable comparison with the operations of other major companies because they exclude, notably in France following the implementation of the Loi Sapin in March 1993, purchases of media space by agents on behalf of their clients. See *Information on the Company Business Overview Governmental Regulation*. In addition, in some foreign countries, total purchases and sales of media space are not reflected in statements of income.

Billings are determined by taking the advertising budgets of clients and applying a coefficient (typically 6.67) corresponding to the traditional agency commission of 15%. Billings therefore reflect the volume of advertising budgets managed, independent of the contractual provisions between our company and our clients.

PART I

Item 1: Identity of Directors, Senior Management and Advisers

Not Applicable.

Item 2: Offer Statistics and Expected Timetable

Not Applicable.

Item 3: Key Information**SELECTED FINANCIAL DATA**

The following table sets forth selected consolidated financial data of our company and should be read in conjunction with our financial statements and the information provided under Operating and Financial Review and Prospects and Risk Factors. The selected financial data presented below have been prepared on a basis consistent with that used in our financial statements. Prior years have been restated as necessary for a consistent presentation. Our financial statements have been prepared in accordance with accounting principles generally accepted in France (French GAAP), which differ in certain significant respects from accounting principles generally accepted in the United States (U.S. GAAP). See note 30 to our financial statements for (i) a discussion of the principal differences between French GAAP and U.S. GAAP as they relate to us and (ii) a reconciliation to U.S. GAAP of our net income and shareholders' equity as calculated under French GAAP. The selected consolidated financial data for each of the five years ended December 31, 1998 to 2002 have been extracted or derived from our audited financial statements, which were translated into euros using the fixed exchange rate for French francs and euros on January 1, 1999.

Since January 1, 2000, our financial statements have been prepared in conformity with new accounting rules applicable to consolidated financial statements in France (*nouvelles règles et méthodes relatives aux comptes consolidés*). The new rules, issued by the French accounting rules and regulation committee (the *Comité de Réglementation Comptable*), were approved on June 22, 1999 and became effective on January 1, 2000. The new rules differ from the rules previously applied in terms of accounting for business combinations, deferred income taxes, assets under capital leases, conversion of French financial statements of foreign subsidiaries and exchange rate differences on accounts receivable and payable stated in foreign currencies. In accordance with the new rules, we have elected not to restate retroactively our accounting for business combinations and disposals completed in prior years.

- (1) Per share data have been adjusted to reflect the 10-for-1 stock split that occurred on August 29, 2000.
- (2) Amounts have been restated from French francs into euros at the official exchange rate of 1 = FF 6.55957 (see Exchange Rate Information).
- (3) 2000 amounts include the operations of Saatchi & Saatchi for the period between the acquisition date in September 2000 through December 31, 2000.
- (4) 2002 amounts include the operations of Bcom3 Group, Inc. for the period between the acquisition date in September 2002 through December 31, 2002.
- (5) Revenue under U.S. GAAP is higher by 43 million due to our adoption of EITF Issue No. 01-14, Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred effective January 1, 2002. See note 30 to our financial statements for further information.

EXCHANGE RATE INFORMATION

Under the provisions of the Treaty on European Union negotiated at Maastricht in 1991 and signed by the then 11 member states of the European Union in early 1992, a European Monetary Union, known as EMU, was implemented on January 1, 1999 and a single European currency, known as the euro, was introduced. As of December 31, 2002, the following 12 member states participated in EMU and had adopted the euro as their national currency: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain and Greece. The legal rate of conversion between the French franc and the euro was fixed on December 31, 1998 at 1.00 = FF 6.55957, and we have translated French francs into euros at that rate.

Share capital in our company is represented by ordinary shares with a nominal value of 0.40 per share (hereinafter generally referred to as our shares). Our shares are denominated in euros. Because we intend to pay cash dividends denominated in euros, exchange rate fluctuations will affect the U.S. dollar amounts that shareholders will receive on conversion of dividends from euros to dollars.

The following table shows the French franc/U.S. dollar exchange rate for 1998 based on the noon buying rate expressed in French francs per \$1.00, and the euro/U.S. dollar exchange rate for 1999 through June 26,

2003 based on the noon buying rate expressed in euros per dollar. For information regarding the effect of currency fluctuations on our results of operations, see Operating and Financial Review and Prospects.

	Period End	Average Rate(1)	High	Low
Euro/U.S. Dollar				
June 2003 (through June 26)	1.16	1.17	1.19	1.15
May 2003	1.18	1.16	1.19	1.13

French Franc/U.S. Dollar				
1998	0.18	0.17	0.18	0.16

- (1) For yearly totals, the average of the noon buying rates for French francs or euros, as the case may be, on the last business day of each month during the relevant period.

RISK FACTORS

You should carefully consider the risk factors described below in addition to the other information presented in this annual report.

We may have difficulty competing in the highly competitive advertising and communications industry

The advertising and communications industry is highly competitive, and we expect it to remain so. Our competitors in the advertising and communications business run the gamut from large multinational marketing and communications companies to smaller agencies that operate only in local or regional markets. New competitors also include systems integrators, database marketing and modeling companies and telemarketers offering technological solutions to marketing and communications issues faced by clients. We must compete with these companies and agencies to maintain existing client relationships and to obtain new clients and assignments. Some clients require us to compete for business at mandatory periodic intervals. Client conflicts and reorganizations within our company can, from time to time, give our competitors opportunities to seek business from our clients.

We believe that large multinational companies will increasingly seek to consolidate their accounts with a limited number of organizations that can satisfy their marketing and communications needs worldwide. This trend is likely to require companies seeking to compete effectively in the international advertising and communications industry to provide a comprehensive range of advertising and communications services. In some markets, some of our competitors may be able to provide services more comprehensively than we can at present.

We may be adversely affected by unfavorable economic conditions in the markets in which we operate

The advertising and communications industry is subject to downturns corresponding to those in general economic conditions and changes in client business and marketing budgets. Because some clients have responded, and may respond in the future, to general economic downturns by reducing their marketing budgets in order to meet earnings goals, downturns can be more severe in the advertising and communications

industry than in other industries. For this reason, our prospects, business, financial condition and results of operations may be materially adversely affected by continuing unfavorable general economic conditions, or a further downturn in those conditions, in one or more markets and related changes in clients' marketing budgets.

We may not be successful in identifying appropriate acquisition candidates or investment opportunities, completing acquisitions or investments on satisfactory terms or integrating newly acquired companies

Our business strategy includes enhancing the range of our existing advertising and communications capabilities. We intend to implement this strategy in part by making acquisitions and other investments. We may not be successful in identifying appropriate acquisition candidates or investment opportunities or consummating acquisitions or investments on terms satisfactory to us. In addition, we may not succeed in integrating any newly acquired companies into our existing operations in a way that produces the synergies or other benefits we hope to achieve. Furthermore, we may use our shares as consideration in future acquisitions and investments, which could result in dilution to existing shareholders.

We are exposed to a number of risks from operating in developing countries

We conduct business in various developing countries around the world. The risks associated with conducting business in developing countries can include slower payment of invoices, nationalization, social, political and economic instability, increased currency exchange risk and currency repatriation restrictions, among other risks. We may not be able to insure or hedge against these risks. In addition, commercial laws in many of these countries can be vague, arbitrary, contradictory, inconsistently administered and retroactively applied. It is therefore difficult for us to determine with certainty at all times the exact requirements of these laws. If we are deemed not to be in compliance with applicable laws in developing countries in which we conduct business, our prospects, business and results of operations could be harmed, and our financial condition could be weakened.

We are exposed to potential liabilities, including liabilities arising from allegations that our clients' advertising claims are false or misleading or that our clients' products are defective

From time to time, we may be, or may be joined as, a defendant in litigation brought against our clients by third parties, including our clients' competitors, governmental or regulatory authorities or consumers. These actions could involve claims alleging that:

advertising claims made with respect to our clients' products or services are false, deceptive or misleading;

our clients' products are defective or injurious; or

marketing and communications materials created for our clients infringe on the proprietary rights of third parties.

The damages, costs, expenses or attorneys' fees arising from any of these claims could have an adverse effect on our prospects, business, results of operations and financial condition to the extent that we are not adequately insured and are not indemnified for them by clients. In addition, our contracts with clients generally require us to indemnify clients for claims brought by competitors or others claiming that our advertisements or other communications infringe upon their intellectual property rights.

Our ability to maintain our competitive position depends on retaining the services of our management and attracting and retaining other key employees

The loss of the services of key members of our management could harm our business and results of operations. In addition, our success has been, and is expected to continue to be, highly dependent upon the skills of our creative, research, media and account personnel and practice group specialists, and their relationships with our clients. If we are unable to continue to attract and retain additional key personnel, or if

we are unable to retain and motivate our existing key personnel, our prospects, business, financial condition and results of operations could be materially adversely affected.

We receive a significant percentage of our revenues from large clients

A significant reduction in the advertising and communications spending by, or the loss of one or more of, our largest clients could weaken our financial condition and cause our business and results of operations to suffer. Our major clients may not continue to use our services to the same extent, or at all, in the future. Clients can typically cancel contracts with their advertising agencies on 90 to 180 days' notice. In addition, clients generally are able to reduce advertising and communications spending or cancel projects at any time for any reason.

Currency exchange rate fluctuations may negatively affect our financial results, the price of our shares and the value of dividends received by holders of our American Depositary Shares

We hold assets and liabilities, earn income and pay expenses of our subsidiaries in a variety of currencies. Our financial statements are presented in euros. Therefore, when we prepare our financial statements, we must translate our assets, liabilities, income and expenses in currencies other than the euro into euros at then-applicable exchange rates. Consequently, increases and decreases in the value of the euro will affect the value of these items in our financial statements, even if their value has not changed in their original currency. In this regard, an increase in the value of the euro relative to other currencies may result in a decline in the reported value, in euros, of our interests held in those currencies. To the extent this has a negative effect on our financial condition as presented in our financial statements, it could cause the price of our shares to decline. Conversely, if the relative value of the euro to the U.S. dollar declines, the U.S. dollar equivalent of cash dividends paid in euros on our American Depositary Shares (ADSs) will decline as well.

The ability of holders of our ADSs to influence the governance of our company may be limited

Holders of our ADSs may not have the same ability to influence the governance of our company as shareholders in some U.S. companies would. For example, holders of our ADSs may not receive voting materials in time to ensure that they can instruct the depository to vote their shares. In addition, the depository's liability to holders of our ADSs for failing to carry out voting instructions or for the manner of carrying out voting instructions is limited by contract.

Some provisions of French law and our statuts could have anti-takeover effects

French law requires any person who acquires more than 5%, 10%, 20%, one-third, one-half or two-thirds of our outstanding shares or voting rights to inform us within 15 days of crossing the threshold percentage. A person acquiring more than 10% or 20% of our share capital or voting rights must include in the report a statement of the person's intentions relating to future acquisitions or participation in the management of our company for the following 12-month period. Shareholders who fail to comply with this requirement may be deprived of voting rights for a period of up to five years and may, in some cases, be subject to criminal fines. In addition, our *statuts* provide double voting rights for shares owned by the same shareholder in registered form for at least two years. Our *statuts* further provide that any person who acquires or disposes of more than 1% of our outstanding shares or voting rights must inform us within 15 days of crossing the threshold percentage, and that we may require a corporate entity holding shares representing more than 2.5% of our share capital or voting rights to disclose to us the identity of all persons holding, directly or indirectly, more than one-third of the share capital or voting rights of that entity. Shareholders who fail to comply with these requirements may be deprived of voting rights. Finally, our shareholders have authorized our management board to increase our capital in response to a third-party tender offer for our shares. These circumstances could have the effect of discouraging or preventing a change in control of our company without the consent of our current management. Giving effect to the provision of our *statuts* that gives double voting rights to shares owned by the same shareholder in registered form for at least two years, we estimate that at least 28% of the voting power of our company is held by descendants of Marcel Bleustein-Blanchet, our founder, and our directors and senior employees.

We are subject to corporate disclosure standards that are less demanding than those applicable to some U.S. companies

As a foreign private issuer, we are not required to comply with the notice and disclosure requirements of the Securities Exchange Act of 1934, as amended, relating to the solicitation of proxies for shareholders' meetings. Although we are subject to the periodic reporting requirements of the Exchange Act, the periodic disclosure required of non-U.S. issuers under the Exchange Act is more limited than the periodic disclosure required of U.S. issuers. Therefore, there may be less publicly available information about our company than is regularly published by or about other public companies in the United States.

Item 4: Information on the Company

HISTORY AND DEVELOPMENT OF THE COMPANY

The legal name of our company is Publicis Groupe S.A. and its commercial name is Publicis. Our company is a *société anonyme*, a form of corporation. It was incorporated in 1938, pursuant to the French commercial code, for a term of 99 years. Our registered office is located at 133, avenue des Champs-Élysées, 75008 Paris, France, and the phone number of that office is 33 1 44 43 70 00.

Historical Background

Our company was founded in 1926 by Marcel Bleustein-Blanchet, known as the father of modern advertising in France and the David Ogilvy of French advertising because of his drive for innovation, his creativity in developing successful campaigns for clients and the new standards of excellence he set. Among his early innovations was the use of radio for advertising: in 1934, due to a ban on advertising on France's government-owned radio stations, he created Radio Cité, the country's first private station. He launched Régie Presse, a subsidiary dedicated to the sale of advertising space in the press, in 1937.

When the Second World War began, Mr. Bleustein-Blanchet decided to shut down both our company and Radio Cité. We reopened in 1946 and won our first major post-war client, Colgate Palmolive, a year later. Through Régie Presse, we also expanded into the sale of media space in mass transit systems. Realizing the importance of monitoring consumer habits and expectations, Mr. Bleustein-Blanchet established a market research unit as part of our company. Our expansion continued in the 1940's and 50's in other ways as well. Nestlé became a client in 1952; Shell joined us in 1954. We moved our headquarters to its current location on the Champs-Élysées in Paris in 1957.

Our reputation for innovation was strengthened in 1968 when we created the first television advertising campaign in France. Also in 1968, we provided communications advice to Saint Gobain in its successful defense of a hostile takeover attempt by BSN, the first hostile takeover bid in French business history. Clients won in the 1960's included Renault and L. Oréal.

We became a public company in 1970. In 1972, our headquarters building was destroyed by fire and we had to rebuild it. We began pursuing a strategy of expansion in Europe through acquisitions the same year, purchasing the Intermarco network in the Netherlands (with offices in Belgium, Germany, Scandinavia, Italy and Spain) and Farner in Switzerland (with offices in Germany and Austria). By 1974, we were present in 14 European countries. We made our first inroads in interactive communications in this period with the founding of SGIP, since renamed Publicis Technology. Our current chief executive officer, Maurice Lévy, joined our company in 1971 and became chief operating officer of Publicis Conseil in 1976. In 1978, our European expansion continued through our acquisition of the McCormick agency, a well-known U.K. firm.

In 1981, we opened our first New York office. In 1984, we regrouped our network, then present in 23 countries, under the Publicis name. We founded our media buying subsidiary Optimedia in 1987, and it began operations in France, the United Kingdom and Switzerland. Also in 1987, Maurice Lévy became our chief executive officer and president of our management board. We entered into a major strategic alliance with U.S.-based Foote, Cone & Belding Communications (FCB) in 1988. We merged our operations in Europe with those of FCB, thus becoming the leading advertising network in Europe. We managed the combined

European operations, making substantial investments in developing them, particularly in Spain and Italy. Through FCB, we also raised our profile among corporations in the United States. In 1989, we began expanding into eastern Europe. The same year, we won Whirlpool's worldwide account and launched a European direct marketing network, since renamed Publicis Dialog.

Our expansion accelerated in the 1990's. We created BMZ, a new network operating in Germany, France, the United Kingdom, Belgium, the Netherlands and Italy, in 1992. The next year we acquired FCA, the fourth largest communications group in France. We then merged FCA and BMZ to create FCA!BMZ, a subsidiary with operations in 12 European countries. In 1994, we merged our New York office with Bloom, a U.S. subsidiary of FCA, as part of an effort to further increase our presence in the United States. Coca-Cola became a client in 1994. We discontinued our alliance with FCB in 1995 due to strategic divergences with its parent company, True North Communications, Inc.

Mr. Bleustein-Blanchet died in 1996, and Elisabeth Badinter, Mr. Bleustein-Blanchet's daughter, succeeded him as chair of the supervisory board.

We began our expansion outside of Europe and the United States in 1996, acquiring operations in Mexico, Brazil and Canada. Over the next three years, we built an impressive international network with a string of acquisitions in eastern Europe, the Middle East, Latin America and the Asia/Pacific region. We also expanded in the United States during this period, acquiring Hal Riney & Partners and EvansGroup in 1998 and a 49% interest in Burrell Communications in 1999. At the beginning of 2000, we had operations in 130 locations in 76 countries and ranked tenth worldwide among communications groups. (Unless otherwise indicated, all references to our competitive positions made in this annual report are in terms of revenue generated.)

The last three years have been marked by a further acceleration of our expansion strategy. We acquired all of the controlling interests in a number of major U.S. agencies in 2000, including the Fallon Group, Frankel & Company, DeWitt Media and Winner & Associates, thus becoming a major competitor in the U.S. market. We dramatically increased the size of our operations in 2000 with the acquisition of Saatchi & Saatchi plc, with its network of operations across 82 countries. In addition, in 2000 we became one of the world's leading healthcare communications companies as a result of our acquisition of Nelson Communications. Reflecting our increasingly international focus, our shares, represented by ADSs, began trading on the New York Stock Exchange in 2000.

In 2001, we created the world's third-largest media consultancy and buying group by combining our wholly owned subsidiary Optimedia with Zenith Media, a firm we held jointly with Cordiant Communications Group plc. Upon completion of the transaction, we held a 75% interest in the resulting entity, the ZenithOptimedia Group. In addition, we acquired, among others, the Triangle Group in the United Kingdom and Sanchez & Levitan in the United States.

In September 2002, we acquired Bcom3 Group, Inc., creating the fourth-largest advertising and communications firm in the world, with annual revenue in 2002 of approximately \$4.8 billion (including Bcom3 for the full year) generated by some 35,700 employees. The combined company is the largest advertising and communications company in Europe and one of the largest in the United States. The merger also created the world's largest media consultancy and media buying firm in terms of billings (according to Recma), combining the ZenithOptimedia Group with Starcom MediaVest. We believe that adding Bcom3's renowned advertising and communications agencies—which include Leo Burnett, Manning Selvage & Lee, Medicus and Bartle Bogle Hegarty—and its other operations to our existing networks will yield a number of significant benefits, including a substantial improvement in our ability to provide premier advertising and communications services to clients on a worldwide basis.

The merger also opened the way for a long-term strategic partnership with Dentsu, Inc., the number one communications group in Japan and Asia as a whole, and formerly a Bcom3 shareholder. The agreement with Dentsu has three components: a strategic partnership, a shareholders agreement between Dentsu and our company, and a shareholders agreement between Dentsu and Ms. Elisabeth Badinter. The unique strategic partnership between our company and Dentsu is designed to offer our clients privileged access to the Japanese

market, in particular in the area of media buying and consultancy. We are today the only communications group in the world providing clients with media-purchasing services spanning the whole world including Japan. In addition, we expect to become the favored international network for the Japanese clients of Dentsu outside Asia. This strategic partnership should enable both us and Dentsu to identify added opportunities for new business, an example being the Hewlett-Packard account won in Japan at the end of 2002. Our agreement also calls for the joint development of some international operations, particularly in the area of sports marketing where Dentsu is the world leader. A sports marketing agency has also been set up jointly by Dentsu (45%), Publicis (45%) and SportsMondial (10%) and began operating under the name iSe International Sports and Entertainment AG in early 2003.

The financial terms of the agreement under which Dentsu has taken an equity interest in our group are, we believe, an added assurance of success for our partnership. Dentsu currently holds 15% of our voting rights and has undertaken to hold its interest for ten years. We thus have a common commitment and interest in the development of our business. At the same time, the shareholders' agreement with Elisabeth Badinter provides a sound basis to preserve the special structure and culture of our group as a family business with worldwide reach. As a result of the agreement, Mr. Narita and Mr. Oshima of Dentsu joined our supervisory board.

Our shareholders' agreement with Dentsu provides, among other things, that so long as Dentsu owns not less than 10% of our outstanding shares, we will present to our shareholders resolutions appointing two Dentsu nominees as members of our supervisory board. In addition, the agreement subjects Dentsu to a standstill provision that limits its voting power in our company to 15% until 2012. Dentsu is prohibited from transferring any of the shares of our company it holds until 2012, after which transfers will be allowed on a limited basis.

The foregoing agreements are incorporated by reference in this annual report, and qualified in their entirety by the full text of the agreements, which are attached as exhibits to this annual report.

PRINCIPAL CAPITAL EXPENDITURES AND DIVESTITURES

As a result of our strategy of global expansion, our principal capital expenditures since the beginning of 2000 have been associated with acquisitions of other advertising and communications firms. Saatchi & Saatchi was acquired in exchange for our shares, and therefore did not require any capital expenditure as such. Several of our other 2000 acquisitions, however, did involve capital expenditures, including our acquisitions of all of or controlling interests in:

Fallon, a prestigious U.S. advertising agency;

Frankel, a leader in marketing services in the United States;

DeWitt Media, an agency that specializes in consulting and media buying;

Winner & Associates, a U.S.-based public relations agency;

Nelson Communications, one of the largest healthcare advertising firms in the United States (90% of the consideration for which consisted of our treasury shares); and

Publicistas Asociados, Peru's biggest advertising agency.

We invested a total of \$541 million (net of disposals and not including equity consideration) in making these acquisitions. We also invested in interactive communications by forming Publicis.Net. Other investments came to \$148 million, including \$106 million of investments in fixed assets and \$34 million spent in repurchasing our shares.

Our capital expenditures in 2001 included our acquisitions of all of or controlling interests in:

Fisch.Maier.Direkt, Switzerland's leading direct marketing firm;

Carré Noir, one of the best design agencies in France;

FusionDM in San Francisco, a large independent customer relationship management agency since merged with Publicis Dialog;

Creative AIM, a U.S. grassroots marketing agency;

Sanchez & Levitan, among the largest agencies in the United States focused on the rapidly-growing Hispanic community; and

The Triangle Group, the largest independent sales promotion group in the United Kingdom.

We invested a total of \$77 million in making these expansion-related investments. We invested an additional \$102 million in other property, plant and equipment (net of disposals), and spent \$120 million repurchasing our own shares.

In 2002, our largest acquisition, Bcom3, was made in exchange for shares and other securities and therefore did not require any capital expenditures as such. Excluding Bcom3, we made only a limited number of acquisitions in keeping with our strategy. Several other acquisitions did involve capital expenditures, including:

Gravitas, a Japanese relationship marketing agency specializing in marketing services and public relations;

Johnston & Associates, a U.S. lobbying firm;

Direct n More, a direct marketing agency in Austria;

Magnesium, a Belgian marketing services specialist;

Média Publics, a French firm engaged in developing sales incentives and related programs;

Sales Story and *Stella*, two relationship marketing companies;

ECA2, a French events marketing company; and

Vau Sluis Consultants, a Dutch public relations agency.

These acquisitions involved capital expenditures of approximately \$75 million in total. We invested an additional \$64 million in other property, plant and equipment (net of disposals), and spent \$180 million repurchasing our own shares. For information concerning our level of ownership in the foregoing acquired agencies, and our other subsidiaries as of December 31, 2002, see note 29 to our financial statements. We also spent \$196 million to redeem the CVRs issued in connection with our acquisition of Saatchi & Saatchi.

We have made no material divestitures since the beginning of 2000. On December 18, 2001, we issued \$200 million principal amount of notes that will, in 2003, become exchangeable under certain circumstances for 4,885,950 shares of stock we own in the Interpublic Group of Companies, Inc. See Operating and Financial Review and Prospects.

There have been no public takeover offers by third parties in respect of our shares since January 1, 2002, nor, except as described under Historical Background, have we made any public takeover offers in respect of other companies' shares since that date.

BUSINESS OVERVIEW

Our merger with Bcom3, which was announced on March 7, 2002, was completed on September 24, 2002. The transaction created the world's fourth largest advertising group and its largest in media buying and consultancy. In connection with the Bcom3 transaction, we entered into a long-term strategic partnership with Dentsu, the number-one communications group in Japan and Asia as a whole. We believe that these transactions will allow us to offer advertisers an unprecedented range of choice through networks with highly diversified market positioning, creative styles and cultural origins.

We provide services primarily in the following areas:

Traditional advertising services. We provide traditional advertising services primarily through the Publicis Worldwide, Saatchi & Saatchi Worldwide and Leo Burnett Worldwide networks. We also

conduct our traditional advertising operations through smaller units such as Fallon Worldwide and our 49% interest in Bartle Bogle Hegarty, a U.K.-based agency. We generated approximately 56% of our 2002 revenue through these activities.

Specialized agencies and marketing services. We provide specialized communications services such as public relations, corporate and financial communications, direct marketing, sales promotion, interactive communications and design (collectively referred to as SAMS) through subsidiaries including Nelson Communications, Frankel, Publicis Dialog, Publicis Consultants, the Triangle Group, Manning Salvage & Lee, Medicus Group and ARC. Some of these businesses generally act in conjunction with one of our advertising networks while others operate independently. In 2002, approximately 25% of our revenue came from the provision of SAMS services.

Media Operations. We conduct media buying operations through the ZenithOptimedia Group and Starcom MediaVest Group. Our media sales activities are conducted through Médias & Régies Europe. Approximately 19% of our 2002 revenue were generated by these operations.

Clients

We provide advertising and communications services to national and multinational clients around the world. In 2002, approximately 45% of our revenue came from globally-managed accounts (i.e., those for which we provide services in five or more countries). We generated the remaining 55% from local clients of our subsidiaries around the world. This client mix, we believe, is advantageous in that locally-managed clients are often more profitable and tend to be focused on the discrete markets in which they operate, therefore diversifying our exposure to fluctuations in general market conditions. Locally-managed clients also give us an opportunity to take advantage of, and add to, our intimate knowledge of national and local cultures and business environments and to raise our profile in local markets. No one client accounted for more than 8% of our total revenue in 2002. The following chart lists our largest clients in 2002:

Publicis Worldwide

Allied Domecq	Procter & Gamble
Carrefour	Renault
Club Med	Siemens
Coca-Cola	Roche
Ericsson	Tefal
Hewlett-Packard/ Compaq	UBS
L Oréal	Whirlpool
Nestlé	

Saatchi & Saatchi Worldwide

AstraZeneca	Johnson & Johnson
DuPont	Procter & Gamble
Essilor	Pharmacia Upjohn
Diageo	Toyota/ Lexus
General Mills	Visa International

Leo Burnett Worldwide

Allstate	Morgan Stanley
Bristol Myers Squibb	Nintendo
Fiat	Procter & Gamble
General Motors	Philip Morris
Hallmark	Philips
Kellogg s	U.S. Army
McDonald s	Walt Disney

ZenithOptimedia

Allied Domecq	Nestlé
British Airways	Rover
Darden	Schering Plough
Hewlett-Packard/ Compaq	Siemens
Kingfisher	Toyota/ Lexus
General Mills	Verizon
L'Oréal	

Starcom MediaVest

Coca-Cola	McDonald's
Diageo	Procter & Gamble
Fiat	Philip Morris
General Motors	U.S. Army
Kellogg's	Walt Disney

Strategy

With our acquisition of Saatchi & Saatchi in 2000, we became a world leader in the advertising and communications industry in terms of geographical presence, array of services and flexibility. The acquisition of Bcom3 and our partnership with Dentsu increased our presence in major markets around the world even further and put us in the top tier of advertising and communications groups worldwide. Our overall priority now is to take advantage of the synergies created by our acquisitions by increasing on a country-by-country basis the scope of services we provide to clients, particularly services for which demand is growing rapidly. We also intend to continue pursuing our strategy of making selected acquisitions to round out our geographical presence and service offerings. The main components of our strategy are to:

Expand our SAMS operations – specialized agencies and marketing services

We currently have a number of operations that complement our traditional advertising services by providing direct marketing, sales promotion, design, corporate communications, financial communications, interactive communications and public relations services. Demand for these services from our traditional advertising clients is growing; in addition, providing them helps us to build and maintain a holistic relationship between us and our clients. Demand is also growing rapidly for specialized communications services such as those directed at particular ethnic groups (in particular, African-American and Hispanic communities in the United States), healthcare communications and human resources communications. We intend to take advantage of these trends by growing our existing SAMS operations and by making selective acquisitions.

Make selective acquisitions to achieve critical mass in other selected markets

We rank among the top five advertising and communications firms in most of the major countries in which we operate, and we believe this gives us a visibility that is useful in the competition for new clients. In some countries, however, we have only limited operations, and acquisitions may be required in order for us to reach a position of market leadership. In addition, we believe that our extensive international experience gives us a competitive advantage in pursuing opportunities for growth in emerging economies. For these reasons, we intend to seek acquisition candidates in selected markets around the world in order to expand into promising new markets and, where necessary, to enhance our competitive positions.

Financial Targets

We believe that pursuing the strategy outlined above, and continuing the process of integrating our operations with those of acquired companies, will allow us to enhance our profitability and maximize shareholder value significantly over the near term. Our primary financial goal is to achieve in the second half of the 2003 fiscal year a 15% margin in terms of EBITA over revenue (earnings before interest, taxes and

amortization of goodwill), as calculated under French GAAP. We believe that we can achieve this goal primarily through an integration program that will include a rationalization of our headquarters and legal organizations, the development of shared administrative, accounting, legal, tax and related systems in key countries and a combination of operations in 20-30 emerging markets.

Markets

We conduct operations in 109 countries and 229 cities around the world. Our primary markets are Europe and the United States. Below we show the contribution of selected geographical markets to our revenue for the years ended December 31, 2002, 2001 and 2000 (in millions of euros):

Year	Europe (Including France)	France	North America	Rest of World	Total
2002	1,243	381	1,295	388	2,926
2001	1,097	383	1,035	302	2,434
2000	878	342	688	204	1,770

SERVICES AND BUSINESS STRUCTURE

We provide a full range of advertising and communications services, designing a customized package of services to meet each client's particular needs. These services generally fall into three major categories: traditional advertising, SAMS and media services.

Traditional Advertising

Services

Traditional advertising services principally involve the creation of advertising for products, services and brands. They may also include strategic planning involving analysis of a product, service or brand compared to its competitors through market research, sociological and psychological studies and creative insight. The creation of advertising includes the writing, design and development of concepts. When a concept has been approved by a client, we supervise the production of materials necessary to implement it, including film, video, print and electronic materials. Our advertising programs involve all media, including television, magazines, newspapers, cinema, radio, outdoor, electronic and interactive media.

Business Structure

Our primary networks — Publicis Worldwide, Saatchi & Saatchi Worldwide and Leo Burnett Worldwide — primarily provide traditional advertising services, but each has some SAMS operations as well. We are continuing to develop other networks as well, including Bartle Bogle Hegarty (in which we have a 49% interest) and Fallon Worldwide.

Publicis Worldwide. This network is comprised of Publicis advertising agencies in 83 countries around the world, including Europe, the United States (where its agencies include Publicis & Hal Riney, Burrell and Sanchez & Levitan), the Middle East, South Africa, the Asia/Pacific region, Latin America and Canada. Its SAMS operations include Media System, a provider of human resources communications operating in France, Publicis Dialog, a marketing services and interactive communications unit with operations in 22 countries, and Publicis Networks, an interactive unit with offices in five countries.

Saatchi & Saatchi Worldwide. This network consists principally of Saatchi & Saatchi agencies in 82 countries around the world. It also includes The Facilities Group, a U.K. firm that provides a range of technical and creative services in the areas of design, artwork, print and audiovisual production, and Rowland Communications, a public relations and corporate communications specialist with offices in the United States and several countries in Europe.

Leo Burnett Worldwide. Headquartered in Chicago, the Leo Burnett Worldwide network operates 98 full service advertising agencies in 85 countries worldwide. It also operates a number of SAMS units, including ARC Marketing, iLeo and Semaphore Partners, that focus primarily on direct, database and interactive marketing and sales promotion.

Fallon Worldwide. The principal offices of this network are located in Minneapolis, New York City and London, and it has recently opened offices in Sao Paulo, Singapore and Hong Kong. Also included in Fallon Worldwide is Duffy Design, a U.S. design firm, and Fallon Interactive, a digital communications agency.

Bartle Bogle Hegarty. This U.K.-based network, in which we have a 49% interest, has offices in London, Singapore, Tokyo, New York and Sao Paulo.

Others. Other units in this category include the Kaplan Thaler Group, a New York-based agency, and Japan's Beacon Communications.

D Arcy Smaller than our principal networks and going through a difficult phase, D Arcy is being merged into other group entities. This decision was taken only after lengthy consideration, and we believe it is in the best interests of our clients and the future of our group. Generally, mergers of this kind result in losses of clients and key employees. To limit this danger, D Arcy's assets are being redistributed piece by piece, city by city and client by client to place them with the group entity in the most complementary position. In the United States, parts of D Arcy's assets have been merged into Publicis USA to reinforce the Publicis Worldwide network, while D Arcy Detroit has formed Chemistri, a special entity within Leo Burnett Worldwide to serve General Motors. Some D Arcy accounts, including Procter & Gamble and Pillsbury, together with associated staff, have been transferred to Saatchi & Saatchi with the agreement of clients. In other parts of the world, transfers are taking place on a case by case basis to serve the best interests of clients. Clients representing approximately 90% of D Arcy's 2002 revenue have been transferred so far.

SAMS

Services

The full range of specialized communication services we offer complements our traditional advertising activities. Services provided by our SAMS operations include:

Direct marketing/customer relationship management. Customer relationship management (or CRM) focuses on building clients relationships with individual customers through the use of direct marketing techniques and other means (as opposed to traditional advertising services, which target groups of consumers or the public at large). Through our CRM operations, we assist clients in creating programs to reach individual customers and enhance brand loyalty. In addition, we provide the appropriate tools and database support to maximize the efficiency of those programs.

Sales promotion. Our sales promotion operations seek to increase sales and awareness of clients' products and consumer loyalty through point-of-sale promotions, coupon programs and similar means.

Specialized advertising services. Our specialized agencies provide services that are generally similar to those offered by our traditional agencies. Unlike traditional agencies, however, our specialized operations focus on particular areas of advertising that have distinct characteristics and require special knowledge and experience. We provide specialized services primarily in the following areas:

Healthcare Communications. We have a network of agencies that work exclusively with clients in the healthcare industry to reach consumers and doctors and other medical professionals through advertising campaigns, medical conferences and symposia and other means. These agencies also provide marketing services such as public relations, consulting and sales personnel recruitment and training.

Human resources communications. Through our human resources operations, we create employee recruitment-related advertising, including classified advertising and campaigns to improve a client's

overall image with prospective applicants, for companies seeking job applicants and recruiting firms. We also assist clients in developing internal communications programs.

Multicultural communications. Some of our agencies have developed expertise in creating advertising and communications services aimed at specific ethnic groups, particularly African-Americans and Hispanics in the United States.

Corporate and financial communications. We provide corporate and financial communications services designed to help clients deliver their message to investors and the public and, in particular, to help clients achieve their goals in connection with mergers and acquisitions, initial public offerings, spin-offs, proxy contests and similar matters. We also provide services aimed at helping clients address the communications and public relations aspects of publicized crises and other major events.

Public relations. Our public relations services are designed to assist clients with the management of their ongoing relations with the press and the public. These services include (i) strategic message and identity development to help clients position themselves in their markets and differentiate themselves from their competitors, (ii) product and company launch or re-launch services, which aim to create awareness of and position a product or company with customers and (iii) media relations services, which help clients enhance their brand recognition and image.

Design. Our design services are intended to enhance the visual symbols that affect a client's image and to ensure that the design and packaging of products are consistent with the means used to market them.

Interactive communications. Our interactive communications services consist primarily of website and intranet design, internet-related direct marketing and related services and banner advertisement design.

Business Structure

We provide SAMS services both through our traditional advertising networks and through independent operations. Our SAMS business units include the following:

Direct marketing/CRM and sales promotion. Our CRM, sales promotion and related operations include Frankel, marketing services subsidiaries Publicis Dialog and iLeo, the ARC marketing network and the Triangle Group.

Specialized advertising services. Our healthcare operations are centered around Nelson Communications, Klemtner Group and Medicus Group. These units together comprise the core of one of the largest healthcare communications networks worldwide. We are in the process of creating a single unit, to be called the Publicis Healthcare Group, to conduct our healthcare communications services. Other specialized agencies include Burrell Communications and Publicis Sanchez & Levitan (multicultural communications) and Media System/Talentvillage (human resources communications).

Corporate and financial communications and public relations. We provide these services primarily through Publicis Consultants, a specialized agency focusing upon corporate communications, financial communications, public relations and design, and Manning Selvage & Lee, a public relations agency. Publicis Consultants has offices in the United States (where its operations include Winner & Associates), as well as France and elsewhere in Europe. Manning Selvage & Lee has its headquarters in New York and offices in 24 countries around the world.

Other. Our SAMS units in other categories include Carmi & Ubertis Design and Carré Noir in design and ARC Interactive, iLeo, Semaphore Partners and Publicis Networks in interactive communications.

Media Operations

Services

Media buying. Our media buying services are often, though not always, provided in conjunction with other advertising services. Through our media buying operations, we analyze various media outlets, including television, print, radio, internet and outdoor venues, and demographic and ratings information. In light of this analysis, we help plan the most effective means of pursuing an advertising or communications strategy. We then book the media space necessary to implement the strategy, using our experience and buying power to obtain favorable rates for our clients.

Media sales. Our media sales operations sell advertising space in outdoor media, print, radio and movie theatres to advertising and media buying firms on behalf of media companies. In some instances, they sell space to advertising and media buying operations that are part of our group. They do so, however, on an arm's-length basis, dealing with those businesses on the same terms as other customers.

Business Structure

Media Buying. Our media buying operations consist primarily of ZenithOptimedia Group and Starcom MediaVest Group. ZenithOptimedia conducts media buying operations in 61 countries around the world. It has a strong presence in the United Kingdom, the United States, Germany, France and Spain. We own 75% of ZenithOptimedia Group; Cordiant owns the remaining 25%. Starcom MediaVest conducts media buying operations in 77 countries around the world, with a particularly strong presence in the United States.

Media Sales. We conduct media sales activities through Médias & Régies Europe through subsidiaries including Métrobus and Régie 1 (France), JC Decaux Nederland, a 50/50 joint venture with JC Decaux (Holland), Publisistemas (Spain) and Médiavision (France and international).

Research Programs

We have developed a number of programs designed to enhance the effectiveness of our communications services by providing anthropological, psychological and cultural insights into the behavior and attitudes of consumers and other target audiences. These programs include the following:

Getting It Right Together a strategic planning process developed within the Publicis Worldwide network, Getting It Right Together is designed to ensure that a viable strategic opportunity and/or brand concept is identified before creative work is initiated.

Context Analysis a media screening tool used by agencies in the Publicis Worldwide network involved in strategic planning. Context Analysis uses sociological methods to track new trends and analyze the way the media covers them.

Tweens a qualitative research tool intended to aid analysis of teenager behavior and lifestyles. Tweens is used by agencies in the Publicis Worldwide network.

The Ideas Brief a system developed by Saatchi & Saatchi to help an agency identify ideas for transforming a client's business, brand and reputation. The system has three parts: the Equity Onion, which is used to identify a brand's core values or essence, the Brand Axle, used to identify the extent to which a brand associated with one product can be successfully used to market other products, and the Brand Temple for multi-product companies that use several sub-brands.

The Ideas Toolkit a Saatchi & Saatchi program that facilitates the monitoring of the effectiveness of a communications program using anthropological and psychological methods.

Yurban a unit of Burrell Communications dedicated to researching marketing strategies aimed at urban youth.

Zoom Zoom (Zenith Optimisation of Media) is a series of tools used, among other things, to model the effectiveness of proposed advertising campaigns, evaluate media outlets and media-use strategies and track audience responses to major events.

The Brand Belief System a tool used in the Leo Burnett Worldwide network to analyse and develop the customer loyalty effects of a communications strategy.

Tardiis a program used to determine the optimal placement of commercials for a brand within a particular television schedule. This program (like Innovest, BattleField, Wear-out, Market Contact Audit and Passion Groups, all of which are described below) is used by StarcomMediaVest.

Innovest a system designed to identify and influence potential early adopters of products and services.

BattleField a tool that uses market share, pricing and other factors to predict the impact of changes in advertising spending or strategy on a brand's sales.

Wear-out a system that measures the decline in a television commercial's effectiveness over time.

Market Contact Audit a system designed to compare the expected effectiveness of different communications strategies and maximize their cost-effectiveness. Starcom MediaVest provides this system under license from Integration, the firm that developed it.

Passion Groups a qualitative and quantitative system designed to identify potential consumers through their interests and lifestyles rather than by demographic categorization.

Competition

Our principal competitors include major international advertising and communications groups such as Omnicom Group, Inc., the Interpublic Group, WPP Group plc and Havas Advertising, independent local advertising agencies in markets around the world and SAMS businesses that focus on specialized areas of communications services.

Advertising and communications markets are generally highly competitive and we continuously compete with national and international agencies for business. Competition may increase in the near future as a result of multinational clients' increasing consolidation of their advertising accounts with a very limited number of firms.

Governmental Regulation

Our business is subject to government regulation in France, the United States and elsewhere. As the owner of advertising agencies operating in the United States which create and place print, television, radio and internet advertisements, we are subject to the U.S. Federal Trade Commission Act. This statute regulates advertising in all media and requires advertisers and advertising agencies to have substantiation for advertising claims before disseminating advertisements. In the event that any advertising we create is found to be false, deceptive or misleading, the Federal Trade Commission Act could potentially subject us to liability.

In France, media buying activities are subject to the *Loi Sapin*, a law intended to require transparency in media buying transactions. Pursuant to the *Loi Sapin*, an advertising agency may not purchase advertising space from media companies and then resell the space on different terms to clients. Instead, the agency must act exclusively as the agent of its clients when purchasing advertising space. The *Loi Sapin* applies to advertising activities in France when both the media company and the client or the advertising agency are French or located in France. We are not aware of any existing, or contemplated, similar legislation in the other countries in which we operate.

Governmental authorities in a variety of countries have proposed limitations on the collection and use of information regarding internet users. In October 1998, the European Union adopted a directive that limits the collection and use of information regarding internet users in Europe. In addition to government activity, a number of industry and privacy advocacy groups are considering various new, additional or different self-

regulatory standards. Because our marketing services activities rely on the collection and use of client data, new regulations or standards imposed in this area could have an adverse impact on our operations.

Seasonality

Clients' advertising and communications expenditures typically fluctuate in response to actual or expected changes in consumer spending. Because consumer spending in many of our major markets is typically lower in the beginning of the year (following the holiday season) and in July and August (the most popular vacation months in Europe and North America) than at other times of the year, advertising and communications expenditures are typically lower as well. Accordingly, our results of operations are often stronger in the second and fourth quarters of the year than they are in the first and third quarters.

Raw Materials

Our business is not typically affected in any material respect by changes in the availability or prices of any raw materials.

Marketing Channels

We market our services primarily by analyzing the communications needs of our clients and prospective clients and by demonstrating to such clients and prospective clients how we propose to meet those needs. Our strong brands and reputation are key elements of our marketing strategy.

Organizational Structure

We conduct our operations through over 1,000 direct and indirect subsidiaries. Information concerning our consolidated subsidiaries is provided in note 29 to our financial statements.

Property, Plants and Equipment

We conduct operations in 229 cities around the world. In general, we lease, rather than own, the office properties we use. As of December 31, 2002, we owned real property assets with a net book value of \$52 million. Our principal real property asset is the building we own and use as our headquarters at 133 avenue des Champs-Élysées in Paris. We use approximately 12,000 square meters of office space in the building for advertising and communications activities.

Item 5: *Operating and Financial Review and Prospects*

The following discussion should be read in conjunction with the financial statements and related notes included elsewhere in this annual report. Our financial statements have been prepared in accordance with French GAAP, which differs in certain significant respects from U.S. GAAP. See note 30 to our financial statements for (i) a discussion of the principal differences between French GAAP and U.S. GAAP as they relate to us and (ii) a reconciliation to U.S. GAAP of our net income and shareholders' equity as calculated under French GAAP. The following discussion contains forward-looking statements that involve risks and uncertainties, including, but not limited to, those described under **Key Information** **Risk Factors**.

OVERVIEW

Our company grew dramatically in the 2000-2002 period, becoming one of the four largest advertising and communications groups in the world. This growth resulted primarily from acquisitions. Improvement in the performance of our existing businesses also contributed to our growth over the period, although some of this improvement was offset by weaker performances in 2002.

Group revenues for 2002 came to 2,926 million, a rise of 20.2% from 2,434 million in 2001. The 2002 total includes contributions from Zenith Media, consolidated from October 1, 2001, and Bcom3, consolidated over one quarter and five days in 2002. It also reflects the negative impact of exchange rates, particularly the euro's rise against the dollar. Organic revenue growth (i.e., growth excluding the effect of acquisitions, disposals and changes in exchange rates) was negative 3.9%. Excluding Bcom3, we showed a 3.4% organic decline in 2002; Bcom3 experienced an organic decline of 4.8% for the year as a whole and 6.3% in the final quarter.

By region (excluding Bcom3), we experienced organic declines of 5.2% in Europe and 3.7% in North America. Other geographical regions showed organic increases of 3.2% in the Asia/ Pacific region, 8.4% in Latin America, and 5.6% in the rest of the world.

Before amortization of goodwill, consolidated net income less minority interests came to 237 million, or 10% more than the 215 million reported in 2001. After amortization of goodwill, net income less minority interests came to 147 million in 2002, showing a 2.6% decline from 151 million in 2001.

Information concerning our principal acquisitions in the 2000-2002 period is provided under Information on the Company History and Development of the Company Principal Capital Expenditures and Divestitures. Acquisitions added 34% to our revenue growth in 2001 and 4% in 2002 excluding Bcom3. The Bcom3 acquisition added 560 million to our 2002 revenue, or 19% of our total for the year. Among the significant advertising or consultancy/media buying contracts we won in 2002 were the following:

North America Hotwire, Tower Records, Old National Bankcorp, Curves for Women, Denny's, Sara Lee/Champion, JustMySize, Ghirardelli Chocolate, Toyota Motor Sales (4 Runner, Matrix and Corolla), KSL Resorts, KitchenAid and Boost Mobileco;

Europe Hygena, Loewe, Bacardi, PMU and AGF in France; Kamis and Generali in Poland; Grupo Santander in Portugal; Migros, ICN and Pfister in Switzerland; the Ministry of Traffic in the Netherlands, Vobis Microcomputer and Berliner Sparkasse in Germany; the Army and Ferrero in the United Kingdom; Uni2 and Sara Lee/Sanex in Italy; Turespana, Banesto and Linea Directa in Spain; Nestlé (water) in Austria; Nestlé/Aquarel in the Czech Republic; Akbank/Axess in Turkey; T-Mobile and CPW/Cookie Crisp Cereal in the United Kingdom; Imperio Bonanca (insurance) in Portugal.

Asia/ Pacific the Victoria State Government, Nike and Nescafé in Australia; Coca-Cola in Korea and New Zealand; Akai and Playwin Infraves in India; Dell and Shenzhen Telecom in China; SmartTone Mobile in Hong Kong; the Singapore Navy; Petron Corporation in the Philippines.

South America Fumas, Visa, Extra supermarkets, ATL Telecom and Anatel in Brazil; Payless Shoes in Latin America; Turner International in Argentina.

Global/multi-country Hewlett-Packard/Compaq products and solutions (advertising and relationship marketing), Allied Domecq (Kahlua, Beefeater and Stolichnaya), General Mills/Pillsbury (for brands including Green Giant, Old El Paso and Betty Crocker); Chantelle (lingerie), the region of Sicily (Italy) and Bulgari (perfumes); Toyota Avensis and Tiscali (account extension).

OUTLOOK FOR 2003

The uncertainties now weighing on the worldwide economy may continue through the remainder of 2003. This uncertainty limits prospects for expansion of our business. In addition, most European countries continue to suffer from poor business conditions. However, the business environment has stabilized to some degree in the United States and has remained relatively positive in the Asia/ Pacific region and other parts of the world.

New Contracts

We expect that contracts won in 2002 will help improve our results in 2003 and subsequent years, particularly those listed above under Overview. In addition, we have won a number of new accounts since the beginning of 2003 in both advertising and media, including accounts with Miramax, Allied Domecq, DirecTV, Gateway Computers, Virgin Mobile, Visa, Cadbury, Royal Bank of Scotland, Enel, Toyota/Scion, Wyeth, BellSouth, Westpac, Mead Johnson and ConAgra/Healthy Choice. We expect that these new contracts will help to offset accounts lost in 2002 and early 2003, which included Mars, Burger King, Capital One, Delta Airlines, L'Oréal Plénitude, Earthlink and NRMA.

Other Factors

Among the factors that could cause our results of operations to differ materially from our expectations are those described under Key Information Risk Factors.

BASIS OF PRESENTATION

Critical Accounting Policies

Our consolidated financial statements are prepared in accordance with French GAAP, which requires the use of estimates and assumptions. We believe that, of our significant accounting policies (which are summarized in note 1 to our financial statements), the following involve the greatest degree of judgment and complexity, and are therefore most likely to affect our net income materially if various assumptions were changed significantly. For a discussion of certain similar accounting policies under U.S. GAAP, see Critical Accounting Policies under U.S. GAAP.

Allowance for Doubtful Accounts

Accounts receivable is presented net of our allowance for doubtful accounts. The allowance for doubtful accounts is assessed based on past experience, reviews of ageing and analysis of specific accounts.

Property and Equipment, Goodwill and Intangible Assets

We amortize property and equipment, goodwill, and intangible assets over their useful lives. Useful lives are based on our estimate of the period that the assets will generate revenue. Assets are reviewed for impairment whenever changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Deferred Taxes

We record a valuation allowance to reduce our deferred tax assets to the amount determined to be realizable. Significant management judgment is required in assessing the amount of valuation allowance required. In the event we were to determine that we would be able to realize our deferred tax assets in the future in excess of our net recorded amount, an adjustment to the deferred tax asset would increase income in the period such determination was made. Likewise, should we determine that we would not be able to realize all or part of our net deferred tax asset in the future, an adjustment to the deferred tax asset would be charged to income in the period such determination was made.

Revenue Recognition

Substantially all of our revenue is derived from commissions and fees for advertising and communication services. For fees, commissions and sales of technical advertising, revenue is realized on the date that the services are performed. For sales of media space, revenue is realized at the date of publication or broadcast. Some of our contractual arrangements with clients also include performance incentives that allow us to receive additional payments based upon our performance for the client measured against specified qualitative and

quantitative objectives. We recognize the incentive portion of the revenue under these arrangements when the client achieves the relevant goals.

Scope of Consolidation

Except where otherwise indicated, information regarding operations acquired in the 2000-2002 period is included in our financial statements only from the date of acquisition. For example, we include only four months of results for Saatchi & Saatchi in our 2000 financial statements because we acquired it at the beginning of September 2000 and three months (plus five days) of results for Bcom3 in our 2002 financial statements because we acquired it at the end of September 2002. We have not disposed of any material operations since the beginning of 2000.

CONSOLIDATED OPERATIONS 2002 COMPARED TO 2001

Our Company as a Whole

Revenue

Consolidated group revenues for the year ended December 31, 2002 totaled 2,926 million, up 20.2% from 2001. The increase was attributable primarily to the consolidation of Bcom3 in the fourth quarter (plus five days), as well as some other changes in the scope of consolidation, in particular the inclusion of Zenith Media for a full year (as opposed to three months in 2001). We note that the fourth quarter is traditionally the strongest period of the year for Bcom3, and therefore that its contribution in 2002 may not be fully representative of its performance over a full year. Exchange rates had a negative impact on our revenues, reducing the total by 77 million, mainly because of the steep rise of the euro against the dollar. On an organic basis, revenues declined 3.9% as the difficult business environment of 2001 continued, and in some respects worsened. The second quarter was particularly difficult, although the situation improved in some markets, especially North America and Asia (excluding Japan), over the remainder of the year. In general, demand for advertising and related services remained relatively strong in industries such as mass-market consumer goods and automobiles, but has become much weaker in the financial services, technology, tourism and transportation industries.

Excluding Bcom3, our revenues came to 2,366 million, a decline of 2.8%. Our stand-alone organic growth was negative 3.4% for the year, having gone as low as negative 4.8% in the second quarter before a partial recovery in the third and fourth quarters (when it was negative 3.9% and negative 1.3%, respectively). On a stand-alone basis, Bcom3 generated revenues of 1,996 million in 2002, essentially unchanged from 2001. Bcom3 experienced organic growth of negative 4.8% for the year.

Expenses

Total operating expenses rose 19% to 2.4 billion in 2002 from 2.0 billion in 2001. As a percentage of revenues, expenses fell from 83.2% in 2001 to 82.5% in 2002. This change resulted from an increase in payroll expenses from 56% of revenues in 2001 to 56.7% in 2002 offset by a decline in other operating expense from 27.2% of revenues in 2001 to 25.8% in 2002. The increase in payroll expenses reflects the disparity of compensation between Publicis and the former Bcom3 group. The steep decline in other expenses reflect major savings achieved through the streamlining of our organization during the year. We expect to reduce costs further through our vigorous cost-cutting program and further integration of Bcom3's administrative operations into ours.

Depreciation and Amortization

Depreciation and amortization on all assets other than goodwill rose from 84 million in 2001 to 104 million in 2002. This increase reflected the impact of recent acquisitions, including a number of SAMS businesses, an additional 25% interest in Zenith Media and, most significantly, Bcom3 in the final quarter.

Operating Income

For the reasons stated above, our operating income for the year rose 25.4% to 429 million. Operating income as a percentage of revenues was 14.7%, or 13.8% excluding Bcom3 (the difference being attributable to the fact that, as noted above, Bcom3 was consolidated over what is typically its most profitable quarter), compared to 14.1% in 2001.

Financial Income/Expense

Net interest fell from 30 million in 2001 to 28 million in 2002, or 6.7%, a decline resulting from lower interest rates and the positive effects of refinancing our debt with convertible and exchangeable bonds carrying low coupons. However, these benefits were in large part offset in the latter part of the year by the impact of bonds with attached equity warrants that we issued to finance the Bcom3 acquisition.

Exceptional Income/Charge

Exceptional items, principally costs relating to the closure of unprofitable agencies in several countries, partially offset by gains on certain property disposals, represented a net charge of 3 million in 2002, down from 8 million in 2001.

Income Tax

We incurred income tax of 132 million in 2002, up from 78 million in 2001. The effective tax rate came to 33.1%, showing a modest rise that reflects the high 39.5% income tax rate that applied to Bcom3. The rate applicable to the group excluding Bcom3 was 30.9%.

Income from Companies Accounted for by the Equity Method

Interests in the income of affiliates accounted for by the equity method dropped from 9 million to 3 million as a result of the full consolidation of Zenith Media following the merger of Zenith Media and Optimedia.

Goodwill Amortization

Amortization of goodwill amounted to 93 million in 2002, up from 65 million in 2001, due primarily to the acquisition of Bcom3 and an additional 25% interest in Zenith Media.

Minority Interests

Minority interests in income rose from 19 million in 2001 to 29 million in 2002, due primarily to the full consolidation of Zenith Media and the corresponding creation of a 25% minority interest in the ZenithOptimedia Group, as well as the addition of minority interests held by Bcom3.

Net Income and Earnings Per Share

Consolidated net income less minority interests amounted to 237 million before amortization of goodwill, a rise of 10% from 215 million in 2001. After amortization of goodwill, net income less minority interests was 147 million, down 2.6% from 2001. Net earnings per share came to 1.63 before amortization of goodwill, showing a rise of 5.2% from 2001. Diluted net earnings per share came to 1.51 before amortization of goodwill, a decline of 2.6% from 2001.

By Geographical Area

France

In France, where market conditions deteriorated significantly from the second quarter of 2002 through the end of the year, group revenues came to 381 million, compared to 383 million in 2001. The effect of poor conditions was largely offset by the Publicis Conseil group, which

benefited from a healthier cost

structure, and focused efforts on enhancing its creative offering and winning new clients. Also limiting the decline was the effect of some minor acquisitions by Publicis Dialog in France.

Europe Outside France

Our business in the rest of Europe generated revenues of 862 million, up from 714 million in 2001, primarily as a result of the Bcom3 acquisition, partially offset by generally adverse economic conditions. These conditions were responsible for a negative 5% organic growth rate in the region (excluding Bcom3). Spain, Germany, the Netherlands and the Scandinavian countries were particularly affected.

The most satisfactory performances of the Publicis Worldwide network were in the United Kingdom and Denmark. In contrast, Publicis Worldwide's revenues declined significantly in both Germany and the Netherlands. No sizeable new accounts were won in the Netherlands to offset the end of the European Central Bank's campaign for the launch of the euro. In Germany, Publicis Worldwide lost accounts with Wal-Mart and Citibank, while overall business suffered from the impact of the economic slump on advertising spending. Recession had a severe impact on Publicis Worldwide's operations in Spain and, to a lesser extent, Italy.

For Saatchi & Saatchi, revenues declined in the United Kingdom, while in the rest of Europe, agencies in Germany and Italy reported satisfactory revenue growth despite unfavorable economic conditions. All other Saatchi & Saatchi agencies generally faced adverse conditions, except in Denmark.

Bcom3's operations in the region showed negative revenue growth as well, due to difficult economic conditions compounded by the loss of the Mars account and reduced advertising expenditures by Fiat. Agencies in Italy, the United Kingdom, Scandinavia (particularly Norway) and Germany experienced the most severe declines.

North America

In North America, our revenues were 1,295 million in 2002, up from 1,035 in 2001 primarily as a result of Bcom3. Reflecting continued weakness in the overall U.S. economy, organic growth in the region was negative 3.7% for the year. Organic growth recovered to a positive 2.5% in the fourth quarter, however, after falling as low as negative 7.5% in the second quarter.

The advertising agencies in the Publicis Worldwide network—Publicis & Hal Riney, Publicis Evans, Publicis Bloom and Burrell—generated lower revenues in 2002 because of an adverse economic climate and some client losses. Publicis & Hal Riney suffered a particularly steep fall, due in part to the loss of the Saturn and First Union/Wachovia accounts. However, most agencies improved revenues in the second half, reporting year-on-year rises as a result of improving market conditions and new business wins, including the recently booked worldwide account for Hewlett-Packard/Compaq products and solutions.

For the Saatchi & Saatchi agencies, organic revenues were up slightly for the year, reflecting increased revenues from Procter & Gamble, Toyota/Lexus and General Mills, as well as the first benefits of new accounts with Pillsbury and KitchenAid. Declines in the revenues of Rowland, hit by a decrease of business with DuPont, were offset by good performances from New York and Los Angeles agencies, TeamOne and Conill Advertising, the Hispanic agency.

Leo Burnett, like other businesses in North America, reported a marked improvement at the end of the year. The main accounts lost during the year were Leo Burnett's USPS and D'Arcy's Mars and Burger King accounts.

Rest of World

In the rest of the world, our revenues were 388 million in 2002 compared to 302 million in 2001, primarily as a result of the Bcom3 acquisition. Organic growth for the region was 2.3%, reflecting modest improvements in market conditions in the Asia/Pacific region, Latin America and the Middle East.

Publicis Worldwide revenues in the Asia/Pacific region rose modestly, as a number of regional markets improved from the end of the first quarter, particularly Australia, New Zealand, Korea, the Philippines, India,

Thailand and Indonesia. However, business in other countries declined, particularly for agencies in China and Japan. Growth was relatively strong in the Middle East and South Africa. In Latin America, growth in Mexico, Chile, Colombia and Venezuela offset steep falls in Peru, Argentina and Uruguay. Revenues in Brazil were practically unchanged from the previous year.

Saatchi & Saatchi reported a significant increase in revenue in this category. This increase resulted from a good performance from the Puerto Rico agency, which offset declines in Brazil and Mexico. In the Asia/ Pacific region, Saatchi & Saatchi's revenues were up slightly, as good results from agencies in China, Taiwan, Thailand, Malaysia and India offset declines in Singapore, Australia and New Zealand.

Bcom3 revenues were down in the Asia/ Pacific region (where Leo Burnett lost Woolworth's Australian account) and in Latin America, particularly in Brazil, but higher in the Middle East and Africa. Starcom MediaVest's winning of a BellSouth account, and Leo Burnett's winning of a Visa account, improve the outlook for those operations in Latin America.

CONSOLIDATED OPERATIONS 2001 COMPARED TO 2000

Our Company as a Whole

Revenue

We generated 2.43 billion in revenue in 2001, up from 1.77 billion in 2000, a 37.5% increase. Including Saatchi & Saatchi for 12 months and Zenith Media for three months in both 2000 and 2001, but excluding Nelson Communications, which underwent major organizational changes, organic growth was 3.1%. This growth was significantly less than that generated in 2000, primarily because of the general economic slowdown that occurred in several major markets in 2001. Organic growth was particularly slow in the second half of the year, dropping from 6.0% in the first quarter to 5.1% in the second, 1.6% in the third and 0.5% in the fourth.

Growth resulting from acquisitions (net of disposals) was 34% in 2001. The inclusion of Saatchi & Saatchi and Nelson Communications for the full year (rather than for four and two months, respectively), and the inclusion of three months of results from Zenith Media, accounted for the majority of the growth in this category. Changes in exchange rates did not have a significant impact on our 2001 revenue growth.

Expenses

Total operating expenses rose 39% to 2.0 billion in 2001, up from 1.45 billion in 2000. As a percentage of revenue, expenses rose from 82.1% to 83.2%, due to increases in both payroll expenses (56% of revenue in 2001, up from 55.6% in 2000) and other operating expenses (27.1% of revenue, up from 26.6%). In each case, the increase resulted largely from the consolidation of recently-acquired businesses with less favorable revenue/expense ratios than our existing operations.

Depreciation and Amortization

Depreciation and amortization on all assets other than goodwill was 84 million in 2001, up from 59 million in 2000. This increase was the product of the numerous acquisitions we made over the course of 2000 and 2001, particularly in the United States.

Operating Income

For the reasons stated above, our operating income rose from 275 million in 2000 to 342 million in 2001. As a percentage of revenue, operating income rose slightly, from 14.0% to 14.1%.

Financial Income/Expense

Our net financial expense was 30 million in 2001, up from 11 million in 2000. This sharp increase reflected the added debt we incurred in connection with acquisitions made at the end of 2000 and in 2001 and a temporary increase in our working capital requirements in the first half of 2001.

Exceptional Income/Charge

We took a net extraordinary charge of 8 million (before tax) in 2001. This total consists of the following amounts: (i) net restructuring charges of 40 million (primarily severance payments related to staff cutbacks) and (ii) losses of 28 million relating to discontinued businesses (in particular, losses associated with internet communications), partially offset by a 60 million extraordinary capital gain that resulted from our effective contribution of a 25% interest in Optimedia to the Zenith Optimedia Group. After exceptional goodwill amortization of 16 million (relating largely to recently acquired internet-related operations) and a positive tax impact of 21 million, the charge for the year was 3 million.

Income Tax

We incurred income tax of 78 million in 2001, up from 96 million in 2000. Our effective rate of tax was 32%, compared to 35% in the previous year and an applicable statutory rate of 35.3%. The application of loss carryforwards at Saatchi & Saatchi in the United States and the United Kingdom accounts for the majority of both the decline from 2000 and the difference between the effective and statutory rates.

Income from Companies Accounted for by the Equity Method

Our income from equity-method investments rose from 5 million in 2000 to 9 million in 2001. This increase was due primarily to the inclusion of Zenith Media for eight months in 2001 but only four months in 2000.

Goodwill Amortization

Amortization of goodwill rose from 33 million in 2000 to 65 million in 2001 due to acquisitions made in 2000 and 2001.

Minority Interests

Minority interests in income fell from 31 million in 2000 to 19 million in 2001, largely as a result of a decline in the income earned by Médias & Régies Europe.

Net Income and Earnings Per Share

As a result of all of the above, our net income including minority interests rose 18% to 151 million in 2001. Excluding minority interests, amortization of goodwill and extraordinary items, our net income was 200 million in 2001, a 32.5% increase from 2000's total of 151 million. Basic earnings per share after taxes and before exceptional items and goodwill amortization rose by 3% to 1.44, while diluted earnings per share after taxes and before exceptional items and goodwill amortization came to 1.43, an increase of 4% compared to 2000.

By Geographical Area

France

Revenue in France was 383 million in 2001, up 12% from 2000's total of 342 million. This increase was due largely to a strong performance from Publicis Conseil, which reported revenue of 211 million, an increase of 8.6%. This more than offset a 2.5% decline in revenue at Médias & Régies Europe.

Europe Outside France

Excluding France, our revenue in Europe increased by 33.2% in 2001 to 714 million. This strong increase reflects primarily the inclusion of a full year of results from Saatchi & Saatchi and three months of results from Zenith Media. Despite generally unfavorable economic conditions, organic growth was fairly strong at 5.9%. Publicis Worldwide benefited from strong performances in the United Kingdom, the Netherlands, Germany, Switzerland, Finland and Greece. Revenue fell sharply, however, in Italy, Portugal and Central Europe. Saatchi & Saatchi experienced declines throughout Europe except Germany, where it won several new accounts. Staff cutbacks were implemented in a number of countries, particularly the United Kingdom, Germany and the Netherlands.

North America

Revenue in North America increased from 688 million in 2000 to 1,035 million in 2001, again largely due to the inclusion of results from Zenith Media and additional results from Saatchi & Saatchi. The economic slowdown in the United States and elsewhere, together with disruptions in business following the September 11 attacks, led to a decline in revenue on an organic basis (-1.2%). U.S. organic revenue growth generated by agencies in the Publicis Worldwide network was modestly negative, with Publicis & Hal Riney experiencing the most severe change. This decline was partially offset by substantial growth from Publicis agencies in Canada. Saatchi & Saatchi's revenue from the United States fell slightly, as below-expectations growth from its New York office offset successful performances by its Los Angeles office, healthcare unit Klemtner and multicultural agency Conill Advertising. Revenue from Fallon Worldwide's U.S. operations also fell markedly in 2001, in particular due to drastic cuts in spending by travel-related clients. Among SAMS-centered operations, Frankel and Nelson Communications both saw their U.S. revenue decline due to poor business conditions, and, in the case of Nelson Communications, the termination of some non-core operations. Zenith Media and Optimedia generated double-digit organic revenue growth, reflecting the gain of a number of new accounts. Restructuring measures, including staff cutbacks, were taken at a number of U.S. operations, and one office, Saatchi & Saatchi's office in San Francisco, was closed.

Rest of World

In other areas of the world, we generated revenue of 302 million in 2001, up 48% from 204 million in 2000, due again to the additional contribution of Saatchi & Saatchi. On an organic basis, overall growth was 7.0%. In the Asia/Pacific region, a strong performance by Saatchi & Saatchi partially offset a contraction at Publicis Worldwide. Saatchi & Saatchi generated gains in China, Japan, Malaysia and Thailand, which more than compensated for declines in Australia, New Zealand, Singapore and India. Publicis operations in the Philippines, New Zealand and Japan had successful years, but others in the region saw their revenue contract. Revenue in the Middle East region grew modestly in 2001, with both Publicis and Saatchi & Saatchi agencies recording gains despite declines in Israel. In Latin America, revenue was up strongly from 2000. Again, both the Publicis Worldwide and Saatchi & Saatchi Worldwide networks contributed significantly to this growth. Growth was strongest in Mexico, Brazil, Chile, Colombia, Venezuela and Puerto Rico, offsetting contraction in Peru and Argentina. However, income generated from the region fell, and Saatchi & Saatchi closed its Rio de Janeiro offices following the loss of a major account.

LIQUIDITY

We meet our need for liquidity primarily through a combination of cash generated from operations and bank loans.

Net cash flow from operating activities reflects funds generated from operations and changes in operating assets and liabilities. Net cash from operating activities was 574 million in 2002, up 1,204% from 44 million in 2001 (including an increase in self-financing ability from 259 million to 393 million). This increase reflected the consolidation of Bcom3. Changes in working capital requirement resulted in an inflow of 183 million following outflows in the two previous years. This reflected both our efforts to lower our working

capital requirements and the consolidation of Bcom3 in the final quarter (which, as noted above, is traditionally Bcom3's strongest period).

Net cash flow from investing activities includes acquisitions and divestitures of intangible and tangible assets, acquisitions of businesses, investments in companies accounted for using the equity method and net differences in other investments and marketable securities. Net cash used in investing activities was 139 million in 2002, compared to net cash provided by investing activities of 72 million in 2001. The change is largely attributable to the fact that Zenith Media had a 241 million cash surplus when we began to consolidate it in 2001, and there was no comparable event in 2002. Cash used in making acquisitions (net of cash from disposals) was basically unchanged for the year (75 million in 2002 compared to 77 million in 2001).

Net cash flow from financing activities includes dividends, changes in debt position and share repurchase programs. Net cash used in financing activities was 127 million in 2002, compared to net cash provided by financing activities of 101 million in 2001, a change resulting largely from changes in our accounting policies relating to treasury stock (see note 1 to our financial statements for a description of these changes) and the redemption of the CVRs issued in connection with our acquisition of Saatchi & Saatchi, offset in part by an increase in the amount of new borrowings. In January, 2002, we issued 690 million in principal amount of notes due 2018. These notes bear interest at 1% annually, with a yield to maturity of 2.75%. The notes are convertible into our shares; we can, at our option, satisfy this conversion right with either new or existing shares. In connection with our merger with Bcom3, we issued 857.8 million in notes with warrants attached to the former Bcom3 stockholders. These notes bear interest at 2.75% annually.

There are no significant legal or economic restrictions on the ability of our subsidiaries to transfer funds to us in the form of dividends, loans or advances.

Currently unused sources of liquidity include 5,310,120 shares of stock we own in the Interpublic Group. From 2003 until the end of 2007, our 2.0% notes due 2007 will be exchangeable for an aggregate of 4,885,950 of those shares.

We expect that we will be able to satisfy our cash requirements for the next 12 months from cash flow generated by operations and additional bank loans, either new or under existing lines of credit. With respect to acquisitions made in the ordinary course of our business, our general policy is to avoid dilution of existing shareholders by using cash or treasury shares to make acquisitions, although we may incur some additional indebtedness in connection with acquisitions.

CAPITAL RESOURCES AND INDEBTEDNESS

As of December 31, 2002, we had total outstanding financial indebtedness of 2,762 million (compared to 1,069 million as of December 31, 2001). This indebtedness was comprised of the following: 200 million in obligations under our 2% notes due 2007, 929 million in obligations under our 1.0% notes due 2018 (including 239 million in redemption premium), 646 million in obligations under bonds with attached equity warrants issued in the Bcom3 transaction, 303 million in bank loans, 490 million of bank overdrafts, 181 million in capitalized lease obligations and 13 million in accrued interest. Our cash and marketable securities as of December 31, 2002 came to 1,205 million, giving us a net financial indebtedness (excluding the redemption premium noted above) of 1,330 million.

Of the total indebtedness outstanding at the end of 2002, 751 million was due within one year, 93 million was due after more than one year but within five years, and the remainder was due after more than five years. Other than our obligations under the 2.0% notes due 2007, the 1.0% notes due 2018 and the Bcom3 stockholder notes with warrants, our debt bore interest at variable rates; the average annual interest rate for 2002 was 3.3%. Approximately 68% of the debt was denominated in euros and approximately 25% was denominated in U.S. dollars.

Our policy is to hold cash and cash equivalents in various currencies corresponding to the exposure of our various subsidiaries around the world. As we have only modest exposure to interest risk due to variable rate

debt, we generally do not use financial instruments to hedge this risk. We believe that our currency exchange rate risk is minimal as most of our commercial transactions are conducted in local currencies. See Quantitative and Qualitative Disclosures About Market Risk.

As described under Information on the Company Business Overview Seasonality, we often generate greater revenue in the second and fourth quarters of the year than we do in the first and third quarters. As a result, our financing needs are sometimes greater in the first and third quarters.

COMMITMENTS FOR CAPITAL EXPENDITURES

Our principal commitments for capital expenditures as of December 31, 2002 related to the following: (i) a put option pursuant to which Cordiant may sell to us its 25% stake in the Zenith Optimedia Group (for a price determined with reference to the performance of the Zenith Optimedia Group and relative valuations of our company and Cordiant, with a minimum price of 75 million pounds sterling), and (ii) earn-out provisions pursuant to which we may be required to pay former owners of acquired companies a maximum of 92 million. We intend to finance these expenditures through cash from operations and, if necessary, additional bank loans.

RESEARCH AND DEVELOPMENT

As described under Information on the Company Services and Business Structure Research Programs, we have a variety of programs designed primarily to use psychological, anthropological and other methods to assess and enhance the efficiency of our advertising and communications services. In addition, we have developed a number of systems that use advanced technology to address clients' needs, including Siren Technologies, an in-store updateable digital signage system, and BrandGuard, an integrated on-line marketing and communications system designed to enhance clients' control of their brand assets.

SUMMARY OF SIGNIFICANT DIFFERENCES BETWEEN FRENCH GAAP AND U.S. GAAP

Under U.S. GAAP, our net income (loss) amounted to (14) million in 2002, (647) million in 2001 and 34 million in 2000, compared to 147 million, 151 million and 128 million, respectively, under French GAAP. Under U.S. GAAP, shareholders' equity amounted to 3,846 million at December 31, 2002, 1,890 million at December 31, 2001 and 2,622 million at December 31, 2000, compared to 1,501 million, 283 million and 299 million, respectively, under French GAAP.

The differences between French GAAP and U.S. GAAP are more fully described in note 30 to our consolidated financial statements. In terms of their effect on our net income, the differences consist mainly of (1) the amortization of tangible assets, intangible assets and goodwill related to the business combination with Saatchi & Saatchi, which was treated as a purchase under U.S. GAAP but was accounted for using the derogatory method under French GAAP (which is similar to the pooling of interests method formerly available under U.S. GAAP), (2) the change in CVRs issued in connection with the business combination with Saatchi & Saatchi, which is recognized in earnings under U.S. GAAP and resulted in a charge of 31 million in 2002; under French GAAP, those rights were not recorded as a liability until December 31, 2001, (3) in 2001, the impairment charge of 584 million recognized in earnings to write down the carrying value of the goodwill related to the acquisition of Saatchi & Saatchi to fair value, (4) restructuring charges capitalized as part of net assets acquired for certain business combinations that are disallowed and charged to expense in 2001 and 2002 under U.S. GAAP, (5) changes in the fair values of certain embedded derivatives inherent in our 2.0% notes due 2007 which are recognized in earnings under U.S. GAAP, but are considered to be off-balance sheet commitments under French GAAP, (6) in accordance with the adoption of SFAS 142, as a result of the transitional impairment test, the net impairment charge of

160 million recorded as a Cumulative effect of accounting change on the consolidated statement of operations to write down the carrying value of intangibles with indefinite useful lives to their fair values, (7) the reversal of goodwill amortization expense recorded under French GAAP, as goodwill is no longer amortized under U.S. GAAP but reviewed annually for impairment, (8) the impact of provisions recorded in our French financial

statements in prior years that were not in accordance with U.S. GAAP requirements for recording provisions and contingencies and (9) compensation arrangements related to acquisitions, which were recorded using the purchase accounting method in our French financial statements and are recorded as compensation expense when incurred under U.S. GAAP.

In addition, classification differences between French GAAP and U.S. GAAP give rise to differences in operating income, relating in particular to the amortization of goodwill.

The differences between French GAAP and U.S. GAAP in terms of their effect on shareholders' equity at December 31, 2002, 2001 and 2000 relate primarily to (1) the accounting for the business combination with Saatchi & Saatchi, which was treated as a purchase under U.S. GAAP but was accounted for using the derogatory method under French GAAP, (2) the valuation of marketable securities, which are recorded at fair value under U.S. GAAP and historical cost under French GAAP, (3) the impact of goodwill related to an acquisition in 1993 written-off to shareholders' equity under previous French accounting guidance, (4) the difference in purchase price for the business combination with Bcom3 (i.e., at fair value of the securities issued in the exchange as of the date of announcement of the acquisition under U.S. GAAP, but as of the date of acquisition under French GAAP), (5) the accounting for Bcom3's 1997 sale-leaseback transaction, which is treated as a financing lease under U.S. GAAP with the building and the related financing obligation reflected at their fair value at the acquisition date, but treated as a capital lease under French GAAP with the related assets capitalized at their fair value at the acquisition date but only for the portion of the building leased-back by Bcom3 and the related debt consisting of the present value of the minimum lease payments, (6) the formation of ZenithOptimedia Group, the assets of which were revalued under French GAAP in 2002 and 2001 but were written up to fair value under U.S. GAAP in 2000 and (7) the fact that under U.S. GAAP, treasury shares are deducted from shareholders' equity at the amount at which they were repurchased, while under French GAAP, they are recorded as an investment if they are reserved for issuance upon the exercise of stock options.

In connection with our acquisition of Saatchi & Saatchi, we acquired approximately \$503 million in net operating loss carryforwards related to former Saatchi & Saatchi operations, of which \$411 million remained outstanding as of December 31, 2002. In our French financial statements, deferred taxes were not recognized with respect to these carryforwards due to uncertainty regarding their recoverability. For U.S. GAAP purposes, deferred tax assets have been recorded and a 100% valuation allowance has been provided because the recoverability of the deferred tax assets was not considered to satisfy the applicable "more likely than not" standard.

CRITICAL ACCOUNTING POLICIES UNDER U.S. GAAP

In addition to the accounting methods described in "Critical Accounting Policies under French GAAP," we believe that the application of the following U.S. critical accounting policies, which differ from those used for French GAAP, requires reliance upon significant judgments, estimates and assumptions. We believe that, of our significant accounting policies, the following involve the greatest degree of judgment and complexity, and are therefore most likely to affect our net income under U.S. GAAP materially if various assumptions were changed significantly.

Goodwill and Intangible Assets

Goodwill has been calculated under U.S. GAAP by comparing the fair value of the identifiable assets acquired with the fair value of the consideration, including associated transaction costs. Until 2002, such goodwill was amortized over 40 years. Effective January 1, 2002, goodwill and intangible assets deemed to have indefinite lives are no longer amortized but are subject to annual impairment tests due to our adoption of Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). Intangible assets with a definite life continue to be amortized over their useful lives and are tested for impairment whenever events or circumstances indicate that a carrying amount of an asset (asset group) may not be recoverable.

Deferred Taxes

In our French GAAP financial statements, deferred taxes have not been recognized due to the uncertainty of their recoverability. For U.S. GAAP purposes, deferred tax assets have been recorded and a 100% valuation allowance has been provided because the recoverability of the deferred tax assets was not considered to satisfy the applicable more likely than not standard.

Stock Compensation

Under U.S. GAAP, we account for stock options using the intrinsic value method prescribed by APB Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), and have adopted the disclosure provisions of SFAS 123, Accounting for Stock-Based Compensation (SFAS 123) and other interpretations. When stock options are granted to employees or directors with an exercise price inferior to the fair value of the underlying shares at the date of grant, the resulting premium is immediately reflected in shareholders' equity. This premium is offset in shareholders' equity by an equivalent deferred compensation amount. Therefore, there is no impact on total shareholders' equity. The deferred compensation amount is amortized as compensation expense in the income statement over the vesting period of the options.

Item 6: Directors, Senior Management and Employees

DIRECTORS AND SENIOR MANAGEMENT

We have a two-tier management structure pursuant to which a management board (*directoire*) manages our day-to-day affairs under the general supervision of a supervisory board (*conseil de surveillance*), the members of which are elected by shareholders. The members of our management board are also our senior managers. We refer to members of the supervisory board and management board collectively as directors.

Supervisory Board

The supervisory board has the responsibility of exercising whatever ongoing supervisory authority over the management and operations of our company it deems appropriate. Throughout the year it carries out such inspections as it considers appropriate and is given access to any documents it considers necessary. The supervisory board also reviews the annual accounts prepared by the management board and presents a report on those accounts to the shareholders at the annual shareholders' meeting. It authorizes the management board to take actions related to strategic decisions, including those related to transactions that could substantially affect the scope of our activities and significant agreements. In addition, under French law, the supervisory board holds certain specific powers, including the power to appoint the members of the management board. Our *statuts* provide that each member is elected by the shareholders at an ordinary general shareholders' meeting. Members of the supervisory board can be removed from office by a majority shareholder vote at any time. They meet as often as the interests of our company require. Pursuant to our *statuts*, each member of the supervisory board must own at least 200 of our shares.

The following table sets forth, for each member of our supervisory board, the member's current function in our company and principal business activities outside of our company, the date the member's current term of office is scheduled to expire and the date the member joined the supervisory board.

Elisabeth Badinter

Initially appointed	November 1987 (appointed as Chairperson of the Supervisory Board in April 1996)

Business Experience of Supervisory Board Members

Elisabeth Badinter, born on March 5, 1944, is the daughter of Marcel Bleustein-Blanchet. Ms. Badinter is a philosopher and lecturer at the Ecole Polytechnique, and is the author of numerous books. She has been a member of our supervisory board since 1987 and its chair since 1996.

Robert Badinter, born on March 30, 1928, is the husband of Elisabeth Badinter. Mr. Badinter has served as the president of France's Constitutional Court. He has also been a practising attorney. He is now a professor of law at the Paris I University (Panthéon Sorbonne).

Simon Badinter, born on June 23, 1968, is the son of Elisabeth Badinter and Robert Badinter. Mr. Badinter joined Médias & Régies Europe in 1991. He was appointed director of Médias & Régies Europe's international business development department in 1996.

Monique Bercault, born on January 13, 1931, has held a variety of positions with our company since joining us in 1953. In 1972, she was named head of human resources at the predecessor company of Médias & Régies Europe.

Michel Cicurel, born on September 5, 1947, is currently chair of Compagnie Financière Edmond de Rothschild Banque and Compagnie-Financière Saint-Honoré. He was previously a senior official in the French Treasury Department, after which he served as deputy general manager of Compagnie Bancaire, general manager of Cortal Bank, president of Duménil-Leblé Bank and administrator, general manager and vice president of Cerus.

Michel David-Weill, born on November 23, 1932, has held a variety of senior positions in the Lazard group, which he joined in 1961. Among other things, he is currently chair of Lazard LLC, chair and chief executive officer of Lazard Frères Banque and chair and managing partner of Maison Lazard SAS. He is also currently vice-chairman and director of the Danone Group.

Sophie Dulac, born on December 26, 1957, is the niece of Elisabeth Badinter and granddaughter of Marcel Bleustein-Blanchet. Ms. Dulac is the founder and manager of a recruitment counselling company. She has been a member of our supervisory board since 1997 and a vice president of our company since 1999.

Yutaka Narita, born on September 19, 1929, joined Dentsu in 1953. In 1971, he became Director of the Newspaper/ Magazine Division and later Director of one of Dentsu's Account Services Divisions. Since he became a member of the Dentsu Board of Directors in 1981, he served as Managing Director from 1983-1989 and was subsequently promoted to Senior Managing Director. In 1993 he became the ninth President of Dentsu, and, as of June 27, 2002, he became Chairman and CEO of Dentsu.

Fumio Oshima, born on August 19, 1937, has served as Managing Director of Dentsu since 1997 and Managing Director of Dentsu International Business Headquarters since 1999. He was appointed Senior Managing Director of Dentsu in June 2000, and, as of June 27, 2002, he was promoted to Executive Vice President of Dentsu. Previously, Mr. Oshima was Managing Director of an Account Planning Group and Executive Director of the Asian region. He has sat on the Dentsu Board of Directors since 1995.

Hélène Ploix, born on September 25, 1944, has served as president of the Banque Industrielle et Mobilière Privée, adviser to the French Prime Minister, director of the International Monetary Fund and the World Bank, deputy general manager of the Caisse des Dépôts et Consignations and president of the Caisse Autonome de Refinancement and CDC Participations. She has been president of Pechel Industries since 1997.

Felix George Rohatyn, born on May 29, 1928, served as the U.S. Ambassador to France from 1997 until 2000. He had previously been a managing director of Lazard Frères and Company. He joined Lazard Frères in 1948 and became a partner there in 1961. From 1968 to 1972, he also served as a member of the Board of Governors of the New York Stock Exchange. From 1975 to 1993, he was chair of the Municipal Assistance Corporation of the City of New York.

Robert Seelert, born on September 1, 1942, worked from 1966 to 1989 for General Foods Corporation, serving as president and chief executive officer of its Worldwide Coffee and International Foods subsidiary from 1986 until 1989. He served as president and chief executive officer of Topco Associates, Inc. from 1989 to 1991 and held the same positions for Kayser Roth Corporation from 1991 to 1994. He became chief executive officer of Cordiant in 1995 and took the same position with Saatchi & Saatchi in 1997. He was appointed chairman of Saatchi & Saatchi in 1999.

Amaury-Daniel de Sèze, born on May 7, 1946, has held senior operating and management positions in a number of major companies. He was appointed general manager of Volvo France in 1981 and served as its chairman from 1986 to 1993. From 1990 to 1993, he was also president of Volvo's European operations, senior vice president of AB Volvo and a member of the executive committee of the Volvo group (AB Volvo). He has served on the boards of the French Postal Service, Schneider, Sema Group, Bruxelles Lambert group, Poliet, Clemessy, Compagnie de Fives Lille and Eiffage, among others.

Henri-Calixte Suaudeau, born on February 4, 1936, joined our company in 1989 and served as president of our Drugstore subsidiary until 1999. Prior to 1989, he was an estate administrator and real estate valuation consultant for the French court system. He has led our real estate department since 1997.

Gérard Worms, born on August 1, 1936, began his career as a technical adviser in the French civil service. Beginning in 1972, he held general management positions at the Hachette group, the Rhone Poulenc group and then at Société Generale de Belgique. From 1990 to 1995, he served as chairman and chief executive officer of the Compagnie de Suez and chair of the Indosuez Bank. From 1995 to 1999, he was chairman of the Conseil des Commanditaires of Rothschild et Cie Banque (Paris).

Management Board

Under French law, the management board has broad powers to act on behalf of our company to further our corporate purposes, subject to those powers expressly granted by law to the supervisory board and to our shareholders. The management board must obtain the authorization of the supervisory board to enter into certain transactions. However, these restrictions cannot be used to rescind a transaction with a third party who has entered into the transaction in good faith.

Pursuant to our *statuts*, the management board must have at least two but no more than five members. Our supervisory board may fill any vacancies on the management board within two months. The supervisory board also appoints one of the members of the management board as chairperson. Under French law, the chairperson of the management board is appointed and may be removed as chairperson (but not as a member of the management board) at any time by the supervisory board with or without cause. A member of our management board may be removed by the shareholders or by the supervisory board. The management board meets as often as the interests of our company require. Under French law, members of the management board

Edgar Filing: PUBLICIS GROUPE SA - Form 20-F

must be natural persons, but need not be shareholders of our company. There is no limitation, other than applicable age limits, on the number of terms that a member of the management board may serve.

The following table sets forth, for each member of our management board, the member's current function in our company and principal business activities outside of our company, the date the member's current term of office is scheduled to expire and the date the member joined the management board.

Business Experience of Management Board Members

Maurice Lévy, born on February 18, 1942, joined our company in 1971 and was given responsibility for our data processing and information technology systems. He was successively appointed corporate secretary (1973), managing director (1976) and chair and chief executive officer (1981) of Publicis Conseil. He became vice chair of our company in 1986 and chair of our management board in 1988.

Bruno Desbarats-Bollet, born on June 6, 1943, began working for Publicis Conseil in 1970. He was appointed director of client service at Régie Presse, since renamed Médias & Régies Europe, in 1977. He became director, general manager and president of Régie Presse in 1984. His title became president of the management board of Médias & Régies Europe in 1999. He has served as a member of our management board since 1987.

Roger A. Haupt, born on November 14, 1947, served as Bcom3's chairman and chief executive officer, and he was a director of Bcom3 following the January 2000 business combination in which Bcom3 was formed. He became the president and chief operating officer of Publicis upon completion of Publicis's merger with Bcom3. Mr. Haupt was president and chief executive officer of The Leo Group in 2000, chief operating officer in 1999, chief administrative officer from 1997 to 1999, and an executive vice president from 1989 to

1997. He also served as vice chairman from 1996 to 2000. Mr. Haupt joined Leo Burnett in 1984 after working in various positions throughout Latin America.

Kevin Roberts, born on October 20, 1949, joined Saatchi & Saatchi Worldwide as chief executive officer and Cordiant as a director in 1997. In 1999, he became chief executive officer of Saatchi & Saatchi. Mr. Roberts had previously been a group marketing manager for Procter & Gamble, which he left in 1982 to become regional president of Pepsi-Cola Middle East. In 1987, he was appointed regional president of Pepsi-Cola Canada. He became chief operating officer and director of Lion Nathan Limited in 1989.

Bertrand Siguier, born on June 10, 1941, was a financial analyst at the Neuflyze Schlumberger Mallet Bank from 1967 to 1969. He joined our account management department in 1969. Throughout his tenure with us, Mr. Siguier has been involved with managing some of our most important client accounts. He served as deputy manager and international coordinator of Publicis Intermarco Farner from 1974 until 1979, when he became deputy managing director of our agency in London. He joined the board of directors of Publicis Conseil in 1982, serving there until his appointment as vice president of Publicis Communications in 1988. He has been a member of our management board since 1999.

ADDITIONAL INFORMATION

Except as noted above, there are no familial relationships between any of our directors. We have no agreements with any of our directors providing for benefits to be paid upon termination of employment, nor do any of our subsidiaries have any such agreements, except as follows: We have employment agreements with Kevin Roberts and Robert Seelert pursuant to which we would continue to provide salary and other benefits to the applicable director within the contract period if we terminate his employment for reasons other than those agreed upon in his contract. We also have an agreement with Roger Haupt pursuant to which we will pay Mr. Haupt a sum equal to approximately twice his annual remuneration (including bonus) if he resigns either at the end of 2003 or at the end of 2004. Except as described under Information on the Company History and Development of the Company Historical Background, none of our directors were selected pursuant to arrangements or understandings with major shareholders, customers, suppliers or others.

COMPENSATION

With respect to the 2002 fiscal year, we paid compensation to our directors in the amounts set forth in the following table (amounts are in euros and do not reflect deductions relating to taxes or social charges):

	Total Gross Compensation(1)	Including Base Compensation of
Management Board		
Maurice Lévy	1,795,300	480,000
Bruno Desbarats-Bollet	316,344	181,973
Roger Haupt(2)	638,406	252,137
Kevin Roberts	2,334,524	1,109,403
Bertrand Siguier	326,737	188,737
Supervisory Board		
Elisabeth Badinter	193,102	193,102
Sophie Dulac	7,622	7,622
Robert Badinter	7,622	7,622
Michel David-Weill	7,622	7,622
Henri-Calixte Suaudeau	136,389	136,389
Monique Bercault	7,622	7,622
Hélène Ploix	7,622	7,622
Gérard Worms	10,163	10,163
Amaury-Daniel de Sèze	7,622	7,622
Simon Badinter	285,497	212,085
Michel Cicurel	7,622	7,622
Robert L. Seelert	447,466	362,005
Felix George Rohatyn	7,622	7,622
Yutaka Narita		
Fumio Oshima		

- (1) Bonuses are paid to our directors based upon the achievement of performance indicators relating to our financial results, as assessed by our compensation committee.
- (2) The reported amounts reflect Mr. Haupt's compensation only from the date of the Bcom3 acquisition until December 31, 2002.

In addition, we granted Maurice Lévy and Bertrand Siguier options to purchase our shares (220,000 in the case of Mr. Lévy and 15,000 in the case of Mr. Siguier). These options have an exercise price of 29.79 per share, will become exercisable in 2006 and will expire in 2012.

We did not set aside or accrue any funds to provide pension, retirement or similar benefits for our directors in their capacities as such during the 2002 fiscal year.

BOARD PRACTICES

Our supervisory board has established an appointments and remuneration committee and an audit committee. The appointments and remuneration committee is currently comprised of Elisabeth Badinter, Henri-Calixte Suaudeau and Gérard Pédraglio. Elisabeth Badinter chairs the committee. The committee reviews and makes recommendations to the supervisory and management boards concerning the appointment of managers of our company and our principal subsidiaries and the remuneration of those managers.

The audit committee is comprised of Gérard Worms, Hélène Ploix and Jean-Paul Morin. Gérard Worms chairs the committee. The committee oversees the organization and execution of our audits with a view to ensuring the consistency and accuracy of the financial statements and reviews our financial procedures and the implementation of recommendations of our external auditors. The audit committee is also responsible for approving the budget for external audits.

EMPLOYEES

As of December 31, 2002, we employed approximately 35,681 people worldwide. Our employees are distributed geographically as follows:

France	3,810
Rest of Europe	10,417
North America	11,409
Rest of World	10,045

Our employees' membership in trade unions varies from country to country, and we are party to numerous collective bargaining agreements. As is generally required by law, we renegotiate our labor agreements in Europe annually in each country in which we operate. There is no material level of trade union membership in our U.S. operations. We believe that our relationship with our employees is good.

SHARE OWNERSHIP

None of our directors owns 1% or more of our shares except as described under Major Shareholders and Related Party Transactions. Major Shareholders, and except for Maurice Lévy, who, following the merger of Somarel, MLMS and MLMS 2 into our company, beneficially owns 4,465,728 of our shares (including 3,000,000 shares owned through *sociétés civiles* owned by Mr. Lévy and his family), or approximately 2.28% of our total outstanding shares. Our directors as a group (excluding Elisabeth Badinter) own approximately 6.19% of our shares. See Major Shareholders and Related Party Transactions. Major Shareholders for further information concerning ownership of our shares by Ms. Badinter. Our directors as a group also own options to purchase 1,076,227 of our shares (41,670 of which are currently exercisable). These options have exercise prices ranging from 4.91 to 33.18 per share and will expire between 2006 and 2015.

We have a number of stock option plans for the benefit of our directors, managers and other employees. In addition, before we acquired them, Saatchi & Saatchi and Nelson Communications had in place stock option plans for their directors and employees. When the acquisitions of each of those firms was completed, options under the relevant plans were converted into options to purchase our shares. See notes 26 and 29 to our financial statements for a summary of each of the plans we currently maintain.

Item 7: Major Shareholders and Related Party Transactions

MAJOR SHAREHOLDERS

As of June 1, 2003, to the best of our knowledge, no person held 5% or more of our shares, except as described below. All our shareholders have the same proportional voting rights with respect to the shares they hold, except that shares owned by the same shareholder in registered form for at least two years carry double voting rights.

On June 1, 2003, the percentage ownership in our company was as follows:

Shareholder	Shares Held	Percentage of Total Shares
Elisabeth Badinter	22,096,396	11.3%(1)
Dentsu	35,518,504	18.1%(2)
Treasury Stock	12,790,600	6.5%

- (1) Does not reflect the effect on voting power of the double voting rights provision of our *statuts* referred to above. Including the effect of that provision, Ms. Badinter held 20.5% of our voting rights.
- (2) Pursuant to an agreement between our company and Dentsu, its voting rights are capped at 15% of our total voting power.

Below we show the percentage ownership in our company of the persons listed above, and two additional shareholders, as of December 31, 1999, 2000 and 2001.

Shareholder	Percentage of Total Shares		
	1999	2000	2001
Société Anonyme Somarel	32.8%	22.4%	22.2%
Dentsu			
The Putnam Company	5.4%	6.8%	
Elisabeth Badinter(1)	8.2%	5.6%	5.6%
Treasury Stock	4.4%	5.1%	3.3%

- (1) Does not include Ms. Badinter's indirect interest in our company held through Somarel. Including her pro rata portion of the shares held by Somarel, her percentage ownership of our company as of December 31, 1999, 2000 and 2001 was 22.3%, 15.2% and 16.9%, respectively. See Related Party Transactions Somarel.

Voting Power of Founding Family, Directors and Staff

Giving effect to the provision of our *statuts* that gives double voting rights to shares owned by the same shareholder in registered form for at least two years, we estimate that at least 28% of the voting power of our company is held by descendants of Marcel Bleustein-Blanchet and our directors and senior employees. To the best of our knowledge, our company is not directly or indirectly owned or controlled by another corporation or any governmental entity.

Ownership by U.S. Holders

To the best of our knowledge, as of December 31, 2002, approximately 33 million, or 17%, of our shares (including shares represented by ADSs) were held in the United States by approximately 1,000 holders.

RELATED PARTY TRANSACTIONS

Except as described under Directors, Senior Management and Employees Directors and Senior Management Additional Information, our company (inclusive of its subsidiaries) has not, since January 1, 2002, engaged in any material transactions with related parties, nor has it agreed to engage in any such transactions other than as follows:

Somarel

Somarel, MLMS and MLMS 2 were merged into our company on May 15, 2003. Prior to this transaction, Somarel, which was owned by members of the Bleustein-Blanchet family and a number of institutional investors, and controlled by Elisabeth Badinter, held approximately 15.8% of our shares and approximately 27.5% of our voting rights. MLMS and MLMS 2 were shareholders in Somarel owned by employees of our company. Each of the three companies Somarel, MLMS and MLMS 2 were created to be investment vehicles in our company. None had any significant assets other than the shareholdings mentioned above. The purpose of the transaction was to simplify our shareholding structure, increase the public float of our shares and provide liquidity for shareholders in Somarel, MLMS and MLMS 2.

The principal economic terms of the transaction were as follows:

Each share of Somarel was exchanged for ten of our shares;

Each share of MLMS was exchanged for 10.25 of our shares; and

Each share of MLMS 2 was exchanged for 29 of our shares.

These exchange ratios were determined with reference to the net book values of Somarel, MLMS and MLMS 2 as of December 31, 2002 and a valuation of our shares based on an analysis of short, medium and long-term market prices of those shares and a comparison to market values of shares of similarly situated companies.

See Exhibit 99.1 to our Form 6-K filed with the SEC on April 21, 2003 for additional information regarding the Somarel transaction.

Dentsu

See Information on the Company History and Development of the Company Historical Background for a summary of the material terms of our agreements with Dentsu.

Item 8: Financial Information

CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

Consolidated Financial Statements

See our financial statements.

Litigation

In the ordinary course of our business, we are named, from time to time, as a defendant in various legal proceedings. We maintain liability insurance and believe that our coverage is sufficient to protect us adequately from any material financial loss as a result of any legal claims made against us.

Dividend Policy

On July 10, 2002, we paid a dividend of 0.22 per share, plus a tax credit of 0.11 per share, with respect to the 2001 fiscal year. This represents a 13% increase over the dividend paid with respect to the 2000 fiscal year. On May 15, 2003, we declared a dividend of 0.24 per share, plus a tax credit of 0.12 per share with respect to the 2002 fiscal year which we expect to pay in July 2003. Our current intention is to continue our dividend growth in order to reach a dividend yield close to the average for stocks listed on Euronext Paris. The payment and amount of any future dividends will depend on a number of factors, including our financial performance and net income, general business conditions and our business plans and investment policies. See Additional Information Memorandum and Articles of Association Rights, Preferences and Restrictions Applicable to Our Shares Dividends.

SIGNIFICANT CHANGES

See Operating and Financial Review and Prospects Outlook for 2003.

Item 9: *The Offer and Listing*

OFFER AND LISTING DETAILS

Market Price Information

Our shares trade on Euronext Paris and, since September 12, 2000, our ADSs have traded on the New York Stock Exchange. The tables below set forth, for the periods indicated, the reported high and low sales prices of our shares on the Euronext Paris in euros and the reported high and low sales prices of our ADSs on the New York Stock Exchange in dollars.

	Euronext Paris		NYSE

Item 10: Additional Information

MEMORANDUM AND ARTICLES OF ASSOCIATION

Objects and Purposes

Under Article 2 of our *statuts*, our corporate purposes are to:

produce and develop publicity;

organize shows and radio or television broadcasts, set up radio, television and other programs, use movie theaters, recording or broadcasting studios and projection and viewing rooms, publish documents and publish music, sketches, scripts and theater productions; and

carry out commercial, financial, industrial and real and movable property transactions directly or indirectly related to the above in order to foster our growth.

We may also acquire interests in other businesses, regardless of such businesses' purposes.

Directors

Our *statuts* provide that a member of our supervisory board must own at least 200 of our shares for as long as he or she serves as a director. Members of our management board are not required to own any of our shares.

Each director is eligible for reappointment upon the expiration of his or her term of office. Members of the supervisory board serve six year terms. Members over 75 years of age may not constitute more than one-third of the supervisory board. Should this limit be exceeded, the oldest member of the supervisory board will automatically be retired. Members of the management board serve four year terms. No member of the management board may serve after the ordinary shareholders' meeting following his or her 70th birthday. The members of the management board may be dismissed either by the supervisory board or by the shareholders at a general meeting. The members of the supervisory board may be dismissed only by the general meeting of shareholders.

Under the French commercial code, any transaction directly or indirectly between a company and one of its directors that cannot be reasonably considered in the ordinary course of business of the company is subject to the prior consent of the supervisory board. Any such transaction concluded without the prior consent of the supervisory board can be nullified if it causes prejudice to the company. An interested director, or a person acting on the director's behalf, can be held liable on this basis. The statutory auditor must be informed of the transaction within one month following its conclusion and must prepare a report to be submitted to the shareholders for approval at their next meeting. At the meeting, the interested director may not vote on the resolution approving the transaction, nor may his or her shares be taken into account in determining the outcome of the vote or whether a quorum is present. In the event the transaction is not ratified by the shareholders at a shareholders' meeting, it will remain enforceable by third parties against the company, but the company may in turn hold the interested director and, in some circumstances, the other directors, liable for any damages it may suffer as a result. In addition, the transaction may be canceled if it is fraudulent. In the case of transactions with directors that can be considered within the company's ordinary course of business, the interested director must provide a copy of the governing agreement to the chairperson of the supervisory board, and the members of the supervisory board and the statutory auditor must be informed of the principal terms of each such transaction. Similar limitations apply to transactions between a company and a holder of shares carrying 5% or more of its voting power (or, if such shareholder is a legal entity, the entity's parent, if any). Certain transactions between a corporation and one of its directors are prohibited under the French commercial code. Members of our supervisory board are not authorized, in the absence of a quorum, to vote compensation to themselves or other supervisory board members.

Rights, Preferences and Restrictions Applicable to Our Shares

Dividends

Dividends on our shares are distributed to shareholders pro rata. Outstanding dividends are payable to shareholders of record on the last business day before the date of payment. The dividend payment date is decided by the shareholders at an ordinary general meeting (or by the management board in the absence of such a decision by the shareholders). Under the French commercial code, we must pay any dividends within nine months of the end of our fiscal year unless otherwise authorized by court order. Subject to certain conditions, our management board can effect the distribution of interim dividends at any time until our financial statements for the relevant year are approved by shareholders. Dividends on shares that are not claimed within five years of the date of declared payment revert to the French government.

Voting Rights

Each of our shares carries the right to cast one vote in shareholder elections, except that a share held by the same shareholder in registered form for at least two years carries the right to cast two votes. There is no requirement in the French commercial code or our *statuts* that requires directors to serve concurrent terms. Accordingly, fewer than all of the members of our supervisory board will ordinarily stand for reelection at any particular shareholders' meeting.

Liquidation Rights

If our company is liquidated, any assets remaining after payment of our debts, liquidation expenses and all of our remaining obligations will be distributed first to repay in full the nominal value of our shares. Any surplus will be distributed pro rata among shareholders in proportion to the nominal value of their shareholdings.

Preferential Subscription Rights

Under the French commercial code, if we issue additional shares, or any equity securities or other specific kinds of additional securities carrying a right, directly or indirectly, to purchase equity securities issued by our company for cash, current shareholders will have preferential subscription rights to those securities on a pro rata basis. These preferential rights will require us to give priority treatment to those shareholders over other persons wishing to subscribe for the securities. The rights entitle the holder to subscribe to an issue of any securities that may increase our share capital by means of a cash payment or a set-off of cash debts. Preferential subscription rights are transferable during the subscription period relating to a particular offering, and may be listed on the Euronext Paris. A two-thirds majority of our shares entitled to vote at an extraordinary general meeting may vote to waive preferential subscription rights with respect to any particular offering. French law requires a company's board of directors and independent auditors to present reports that specifically address any proposal to waive preferential subscription rights. In the event of a waiver, the relevant securities issuance must be completed within the period prescribed by law. The shareholders may also decide at an extraordinary general meeting to give existing shareholders a non-transferable priority right to subscribe for the new securities during a limited period of time. Shareholders may also waive their own preferential subscription rights with respect to any particular offering.

Amendments to Rights of Holders

Shareholder rights can be amended only by action of an extraordinary general meeting of the class of shareholders affected. Two-thirds of the shares of the affected class voting either in person or by mail or proxy must approve any proposal to amend shareholder rights. The voting and quorum requirements for this type of special meeting are the same as those applicable to an extraordinary general meeting, except that the quorum requirements for a special meeting are 50% of the voting shares, or 25% upon resumption of an adjourned meeting.

Except as described under *Anti-Takeover Provisions*, our *statuts* do not contain any provisions that discriminate against existing or prospective holders of substantial numbers of our shares. See also *Anti-Takeover Effects of Applicable Law and Regulations*.

Ordinary and Extraordinary Meetings

In accordance with the French commercial code, there are two types of shareholders' general meetings: ordinary and extraordinary.

Ordinary general meetings of shareholders are required for matters that are not specifically reserved by law to extraordinary general meetings, such as:

electing, replacing and removing members of the supervisory board;

appointing independent auditors;

declaring dividends or authorizing dividends to be paid in shares;

approving the company's annual financial statements; and

issuing debt securities.

Extraordinary general meetings of shareholders are required for approval of matters such as amendments to our *statuts*, including any amendment required in connection with extraordinary corporate actions. Extraordinary corporate actions include:

changing our company's name or corporate purpose;

increasing or decreasing our share capital;

creating a new class of equity securities;

authorizing the issuance of investment certificates or convertible or exchangeable securities;

establishing any other rights to equity securities;

selling or transferring substantially all of our assets; and

voluntarily liquidating our company.

Calling Shareholders' Meetings

The French commercial code requires our management board to convene an annual ordinary general meeting of shareholders for approval of the annual accounts. This meeting must be held within six months of the end of each fiscal year. This period may be extended by an order of the President of the Tribunal de Commerce. The management board and the supervisory board may also convene an ordinary or extraordinary meeting of shareholders upon proper notice at any time during the year. If the management board and our supervisory board fail to convene an annual shareholders' meeting, our independent auditors or a court-appointed agent may call the meeting. Any of the following may request the court to appoint an agent:

one or several shareholders holding at least 5% of our share capital;

in cases of urgency, designated employee representatives or any interested party;

duly qualified associations of shareholders who have held their shares in registered form for at least two years and who together hold at least 1% of the voting rights of our company; or

in a bankruptcy, our liquidator or court-appointed agent may also call a shareholders meeting in some instances.

Shareholders holding more than 50% of our share capital or voting rights may also convene a shareholders meeting after a public offer to acquire control of our company or a sale of a controlling stake in our capital.

Notice of Shareholders Meetings

We must announce general meetings at least 30 days in advance by means of a preliminary notice published in the *Bulletin des Annonces Légales Obligatoires* (the BALO). The preliminary notice must first be sent to the *Commission des Opérations de Bourse* (the COB). The COB also recommends that a summary of such preliminary notice be published in a newspaper of national circulation in France. The preliminary notice must disclose, among other things, the time, date, and place of the meeting, whether the meeting will be ordinary or extraordinary, the agenda, a draft of the resolutions to be submitted to the shareholders, a description of the procedures which holders of bearer shares must follow to attend the meeting, the procedure for voting by mail, and a statement informing the shareholders that they may propose additional resolutions to the management board within ten days of the publication of the notice.

We must send a final notice containing the agenda and other information about the meeting at least 15 days prior to the meeting or at least six days prior to the resumption of any meeting adjourned for lack of a quorum. The final notice must be sent by mail to all registered shareholders who have held shares for more than one month prior to the date of the preliminary notice. The final notice must also be published in the BALO and in a newspaper authorized to publish legal announcements in the local administrative department in which our company is registered, with prior notice having been given to the COB.

In general, shareholders can take action at shareholders meetings only on matters listed in the agenda for the meeting. One exception to this rule is that shareholders may take action with respect to the dismissal of members of the supervisory board regardless of whether this action is on the agenda. Additional resolutions to be submitted for approval by the shareholders at the meeting may be proposed to the management board (within ten days of the publication of the preliminary notice in the BALO) by:

designated employee representatives;

one or several shareholders holding a specified percentage of shares; or

a duly qualified association of shareholders who have held their shares in registered form for at least two years and who together hold at least 1% of the voting rights in our company.

The management board must submit properly proposed resolutions to a vote of the shareholders.

During the two weeks preceding a meeting of shareholders, any shareholder may submit written questions to the management board relating to the agenda for the meeting. The management board must respond to these questions during the meeting.

Attendance and Voting at Shareholders Meetings

Each share confers on the shareholder the right to cast one vote, except that shares owned by the same shareholder in registered form for at least two years carry double voting rights. Shareholders may attend ordinary meetings and extraordinary shareholders meetings and exercise their voting rights subject to the conditions specified in the French commercial code and our *statuts*. There is no requirement that shareholders have a minimum number of shares in order to attend or to be represented at an ordinary or extraordinary general meeting.

To participate in any general meeting, a holder of shares held in registered form must have shares registered in his or her name in a shareholder account maintained by us or on our behalf by an agent appointed by us at least five days prior to the date set for the meeting. A holder of bearer shares must obtain a certificate from the accredited intermediary with whom the holder has deposited his or her shares. This certificate must indicate the number of bearer shares the holder owns and must state that these shares are not transferable until the time fixed for the meeting. The holder must deposit this certificate at the place specified in the notice of the meeting at least five days before the meeting.

Proxies and Votes by Mail

In general, all shareholders who have properly registered their shares or duly presented a certificate from their accredited financial intermediary may participate in general shareholders' meetings. Shareholders may participate in general meetings either in person or by proxy. Shareholders may vote in person, by proxy or by mail.

Proxies will be sent to any shareholder on request. To be counted, such proxies must be received at our registered office, or at any other address indicated on the notice convening the meeting, prior to the date of the meeting. A shareholder may grant proxies to his or her spouse or to another shareholder. A shareholder that is a corporation may grant proxies to a legal representative. Alternatively, the shareholder may send us a blank proxy without nominating any representative. In this case, the chair of the meeting will vote blank proxies in favor of all resolutions proposed by the management board and against all others.

With respect to votes by mail, we are required to send shareholders a voting form. The completed form must be returned to us at least three days prior to the date of the shareholders' meeting.

Quorum

The French commercial code requires that shareholders having at least 25% of the shares entitled to voting rights must be present in person or be voting by mail or by proxy to fulfill the quorum requirement for:

an ordinary general meeting; or

an extraordinary general meeting where an increase in our share capital is proposed through incorporation of reserves, profits or share premium.

The quorum requirement is one-third of the shares entitled to voting rights, determined on the same basis, for any other extraordinary general meeting.

If a quorum is not present at a meeting, the meeting is adjourned. When an adjourned meeting is resumed, there is no quorum requirement for an ordinary meeting or for an extraordinary general meeting where an increase in our share capital is proposed through incorporation of reserves, profits or share premium. However, only questions that were on the agenda of the adjourned meeting may be discussed and voted upon. In the case of any other reconvened extraordinary general meeting, shareholders having at least 25% of outstanding voting rights must be present in person or be voting by mail or proxy for a quorum. If a quorum is not present, the reconvened meeting may be adjourned for a maximum of two months. Any deliberation by the shareholders taking place without a quorum is void.

Majority

Holders of a simple majority of a company's voting power present, voting by mail or represented by proxy may pass any resolution on matters required to be considered at an ordinary general meeting, or concerning a capital increase by incorporation of reserves, profits or share premium at an extraordinary general meeting. At any other extraordinary general meeting, a two-thirds majority of the voting power present, voting by mail or represented by proxy is required.

A unanimous shareholder vote is required to increase liabilities of shareholders.

Abstention from voting by those present or those represented by proxy or voting mail is counted as a vote against the resolution submitted to the shareholder vote.

In general, a shareholder is entitled to one vote per share at any general meeting, except that shares owned by the same shareholder in registered form for at least two years carry double voting rights. Under the French commercial code, shares of a company held by entities controlled directly or indirectly by that company are not entitled to voting rights and are not considered for quorum purposes.

Limitations on Right to Own Securities

Our *statuts* contain no provisions that limit the right of shareholders to own our securities or hold or exercise voting rights associated with those securities. See Exchange Controls for a description of certain requirements imposed by the French commercial code.

Anti-Takeover Provisions

Our *statuts* provide double voting rights for shares held by the same shareholder for at least two years. Our *statuts* further provide that any person or group that fails to notify us within 15 days of acquiring or disposing of 1% or any multiple of 1% of our shares will be deprived of voting rights for shares in excess of the unreported fraction. In addition, our *statuts* provide that we may require a corporate entity holding shares representing more than 2.5% of our share capital or voting rights to disclose to us the identity of all persons holding, directly or indirectly, more than one-third of the share capital or voting rights of that entity. Shareholders who fail to comply with this requirement may be deprived of voting rights until the required disclosure is made. Finally, our shareholders have authorized our management board to increase our capital in response to a third party tender offer for our shares. The exercise of this authority would be subject to the control of the COB.

Anti-Takeover Effects of Applicable Law and Regulations

The French commercial code provides that any individual or entity, acting alone or in concert with others, that becomes the owner, directly or indirectly, of more than 5%, 10%, 20%, one-third, 50% or two-thirds of the outstanding shares or voting rights of a listed company in France, such as our company, or that increases or decreases its shareholding or voting rights above or below any of those percentages, must notify the company within 15 calendar days of the date it crosses such thresholds of the number of shares it holds and their voting rights. The individual or entity must also notify the *Conseil des Marchés Financiers* (the CMF) within five trading days of the date it crosses these thresholds.

French law and COB regulations impose additional reporting requirements on persons who acquire more than 10% or 20% of the outstanding shares or voting rights of a listed company. These persons must file a report with the company, the COB and the CMF within 15 days of the date they cross the threshold. In the report, the acquiror must specify its intentions for the following 12-month period, including whether or not it intends to continue its purchases, to acquire control of the company in question or to nominate candidates for the board of directors. The CMF makes the notice public. The acquiror must also publish a press release stating its intentions in a financial newspaper of national circulation in France. The acquiror may amend its stated intentions, provided that it does so on the basis of significant changes in its own situation or that of its shareholders. Upon any change of intention, it must file a new report.

To permit holders to give the required notice, we are required to publish in the BALO no later than 15 calendar days after the annual ordinary general shareholders meeting information with respect to the total number of voting rights outstanding as of the date of such meeting. In addition, if the number of outstanding voting rights changes by 5% or more between two annual ordinary general meetings, we are required to publish in the BALO, within 15 calendar days of such change, the number of voting rights outstanding and provide the CMF with written notice of such information. The CMF publishes the total number of voting rights so notified by all listed companies in a weekly notice (*avis*), noting the date each such number was last updated.

If any person fails to comply with the legal notification requirement, the shares or voting rights in excess of the relevant threshold will be deprived of voting rights for all shareholders meetings until the end of a two-year period following the date on which their owner complies with the notification requirements. In addition, any shareholder who fails to comply with these requirements may have all or part of his or her voting rights suspended for up to five years by the Commercial Court at the request of the chair, any shareholder or the COB, and may be subject to a fine.

The French commercial code authorizes French companies to require persons holding their shares in bearer form to disclose the beneficial owner(s) of those shares. The voting and dividend rights associated with the shares can be suspended until the required disclosure is made.

Under CMF regulations, and subject to limited exemptions granted by the CMF, any person or persons acting in concert that own in excess of one-third of the share capital or voting rights of a French listed company must initiate a public tender offer for the balance of the share capital of such company.

In addition, a number of provisions of the French commercial code allow corporations to adopt *statuts* that have anti-takeover effects, including provisions that allow:

limitations on the voting power of shareholders; and

shareholders' agreements that provide for preemptive rights in case of a sale of shares by a shareholder.

MATERIAL CONTRACTS

The principal terms of our material contracts are described under Information on the Company History and Development of the Company.

EXCHANGE CONTROLS

The French commercial code currently does not limit the right of nonresidents of France or non-French persons to own and vote shares. However, nonresidents of France must file an administrative notice with French authorities in connection with the acquisition of a controlling interest in our company. Under existing administrative rulings, ownership of 20% or more of our share capital or voting rights is regarded as a controlling interest, but a lower percentage might be held to be a controlling interest in some circumstances depending upon factors such as:

the acquiring party's intentions; and

the acquiring party's ability to elect directors, and financial reliance by us on the acquiring party.

French exchange control regulations currently do not limit the amount of payments that we may remit to nonresidents of France. Laws and regulations concerning foreign exchange controls do require, however, that all payments or transfers of funds made by a French resident to a nonresident be handled by an accredited intermediary. In France, all registered banks and most credit establishments are accredited intermediaries.

TAXATION

The following discussion is a summary description of the material U.S. and French tax consequences that may apply to you as a holder of our shares.

This discussion applies only to holders who are U.S. Tax Residents. A U.S. Tax Resident is a holder who:

is not a French tax resident;

is a tax resident of the United States pursuant to Article 4 of the Convention Between the Government of the United States of America and the Government of the French Republic for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital (which was signed on August 31, 1994 and generally became effective on January 1, 1996) (the Treaty);

is a citizen or resident of the United States for U.S. federal income tax purposes, is a United States domestic corporation or is otherwise subject to United States federal income taxation on a net income basis in respect of our shares; and

does not hold our shares in connection with a permanent establishment or a fixed base in France pursuant to Article 5 of the Treaty through which the holder carries on a business or performs personal services.

Further, this discussion applies only to holders for whom all the following requirements are met:

the holder owns, directly or indirectly, less than 10% of our share capital;

the holder is a U.S. Tax Resident;

the holder is entitled to the benefits of the Treaty under the limitations on benefits article of the Treaty (Article 30);

the ownership of our shares is not effectively connected with a permanent establishment or a fixed base in France;

the holder holds our shares as capital assets, and

the holder's functional currency is the U.S. dollar.

YOU ARE STRONGLY URGED TO CONSULT YOUR OWN TAX ADVISOR REGARDING THE CONSEQUENCES TO YOU OF ACQUIRING, OWNING OR DISPOSING OF OUR SHARES, RATHER THAN RELYING ON THIS SUMMARY. The summary may not apply to you or may not completely or accurately describe tax consequences to you. For example, special rules may apply to U.S. expatriates, insurance companies, tax-exempt organizations, financial institutions, persons subject to the alternative minimum tax, securities broker-dealers, traders in securities that elect to mark-to-market and persons holding their shares as part of a conversion transaction or constructive sale, among others. Those special rules are not discussed in this annual report. This description does not address all aspects of U.S. and French tax laws and tax treaties that may be relevant in light of the particular circumstances of a U.S. Tax Resident holder of our shares. This description is based on U.S. and French tax laws, conventions and treaties in force as of the date of this annual report, all of which are subject to change, possibly with retroactive effect, or different interpretations. Also, this summary does not discuss any tax rules other than U.S. federal income tax and French tax rules. Further, the U.S. and French tax authorities and courts are not bound by this summary and may disagree with its conclusions. The individual circumstances of each U.S. Tax Resident holder may affect the tax consequences of holding and disposing of our shares. The particular facts or circumstances of a U.S. Tax Resident holder that may so affect the consequences are not discussed here. All holders of our shares are advised to consult their own tax advisers as to the particular tax consequences to them of acquiring, owning and disposing of our shares, including their eligibility for the benefits of the Treaty, the applicability and effect of state, local, foreign and other tax laws and possible changes in tax laws.

Taxation of Dividends

Withholding Tax

Dividends paid to a shareholder having his or her tax residence outside France by a French company are generally subject to a 25% French withholding tax under French tax laws.

Under the Treaty, this withholding tax is reduced to 15% if all the following conditions are met:

- (i) our shares are beneficially owned by a U.S. Tax Resident,
- (ii) such ownership is not effectively connected with a permanent establishment or a fixed base that the holder has in France, and
- (iii) the holder has previously established that he or she is a U.S. Tax Resident in accordance with the following procedures:

the U.S. Tax Resident must complete French Treasury Form RF1 A EU-No. 5052 (or 5053 if the dividends do not give right to the *avoir fiscal*) and send it to the paying establishment before the date of payment of the dividend.

if the U.S. Tax Resident cannot complete French Treasury Form RF1 A EU-No. 5052 before the date of payment of the dividend (and provided that the dividend gives right to the *avoir fiscal*), he or she may complete a simplified certificate and send it before receiving such payment to the institution which holds the shares on its behalf. This certificate must state that the beneficial owner fulfills the following conditions:

the holder is a U.S. Tax Resident;

the holder's ownership of the shares is not effectively connected with a permanent establishment or a fixed base in France;

the holder owns all the rights attached to the full ownership of the shares including, among other things, the dividend rights;

the holder fulfills all the requirements under the Treaty to be entitled to the reduced rate of withholding tax, and

the holder claims the reduced rate of withholding tax.

If a U.S. Tax Resident has not completed French Treasury Form RF1 A EU-No. 5052 (or 5053) or the simplified certificate before the dividend payment date, the paying establishment will deduct French withholding tax at the rate of 25%. In that case, the holder may claim a refund of the excess withholding tax by completing French Treasury Form RF1 A-No. 5052 (or 5053) and sending it, by intermediary of the paying establishment, to the French tax authorities before December 31 of the second calendar year following the calendar year during which the withholding tax is levied.

Under (i) and (ii) above, the 15% withholding tax rate may also apply to dividends paid to a U.S. partnership or similar pass-through entity as described in article 4.2.(b)(iv) of the Treaty and whose income is subject to U.S. tax either in its hands or in the hands of its partners who are U.S. Tax Residents (U.S. Tax Resident Partnership).

Specific procedures will apply if our shares are held through a U.S. Tax Resident Partnership. U.S. Tax Residents who will own their shares through a U.S. Tax Resident Partnership are advised to consult their own tax advisors as to the conditions and formalities under which they may benefit from the above-mentioned reduction of the French withholding tax.

Avoir Fiscal

Under the Treaty, the following U.S. Tax Residents may be entitled to a payment from the French Treasury, called the *avoir fiscal*:

individuals;

U.S. domestic corporations, other than regulated investment companies, that own, directly or indirectly, less than 10% of our share capital;

U.S. corporations that are regulated investment companies and that own, directly or indirectly, less than 10% of our share capital, provided that less than 20% of the shares of these regulated investment companies are beneficially owned by persons who are neither citizens nor residents of the U.S.; or

U.S. Tax Resident Partnerships, but only to the extent that their partners qualify as eligible under the first or second points on this list and are subject to U.S. income tax with respect to such dividends and the related *avoir fiscal*.

The *avoir fiscal*, if any, is equal to:

50% of the dividends paid for (i) U.S. Tax Resident individuals or (ii) U.S. Tax Resident corporations owning at least 5% of the financial and voting rights in our company, provided that, among other conditions, such corporations subscribed for our shares upon issuance or committed themselves to hold the shares for at least

two years. This commitment requires specific French formalities to be observed before the payment of the first dividend; or

10% of the dividends paid for any other U.S. Tax Resident shareholder.

If the U.S. Tax Resident is eligible, he or she may claim a payment equal to the *avoir fiscal*, less a 15% withholding tax on this *avoir fiscal*, provided that all the following conditions are met:

- (i) the dividend, if received by a resident of France, would entitle such resident to a tax credit (*avoir fiscal*);
- (ii) our shares are beneficially owned by a U.S. Tax Resident;
- (iii) the holder's ownership of our shares is not effectively connected with a permanent establishment or a fixed base in France;
- (iv) the holder owns all the rights attached to the full ownership of our shares including, among other things, the dividend rights;
- (v) the holder, or its partners (in the case of U.S. Tax Resident Partnerships), is subject to U.S. income tax on the payment of the dividend and the related *avoir fiscal*; and
- (vi) the holder, or its partners (in the case of U.S. Tax Resident Partnerships), fulfills all the requirements under the Treaty to be entitled to the transfer of the *avoir fiscal*.

If a holder is entitled, the *avoir fiscal* may be claimed by completing French Treasury Form RF1 A EU-No. 5052 and (if not previously sent to claim the benefit of the 15% withholding tax rate) sending it, by intermediary of the paying establishment, to the French tax authorities before December 31 of the second year following the year during which the dividend is paid.

The *avoir fiscal* and any French withholding tax refund are generally expected to be paid within 12 months after the holder of our shares files Form RF1 A EU-No. 5052. However, they will not be paid before January 15 of the calendar year following the end of the calendar year in which the dividend is paid.

Specific procedures will apply if our shares are held through a U.S. Tax Resident Partnership. U.S. Tax Residents who will own our shares through a U.S. Tax Resident Partnership are advised to consult their own tax advisors as to the conditions and formalities under which they may benefit from the above-mentioned transfer of the *avoir fiscal*.

Other Entities

Additional specific rules apply to tax-exempt U.S. pension funds and various other U.S. entities, including certain state-owned institutions (with respect to dividends derived from the investment of retirement assets) and not-for-profit organizations mentioned in article 4.2.(b)(i) and (ii) of the Treaty and U.S. Tax Resident individuals (with respect to dividends they beneficially own and that are derived from individual retirement accounts).

These entities or persons may be eligible for a reduced withholding tax rate of 15% subject to the same withholding tax filing requirements as eligible U.S. Tax Resident holders, except that they may have to supply additional documentation evidencing their entitlements to these benefits. These entities or persons are not entitled to the full *avoir fiscal*. They may claim a partial *avoir fiscal* equal to 30/85 of the gross *avoir fiscal* less a 15% withholding tax on this partial *avoir fiscal*, provided that they own, directly or indirectly, less than 10% of our capital and that they satisfy the filing formalities specified in U.S. Internal Revenue Service regulations.

These entities or persons are advised to consult their own tax advisers as to the conditions under which they may benefit from the above-mentioned reduction of the French withholding tax and transfer of a partial *avoir fiscal*.

The Précompte

A French company must pay an equalization tax known as the *précompte* to the French Treasury if it distributes dividends which give right to the *avoir fiscal* out of:

Profits that have not been taxed at the ordinary corporate income tax rate; or

Profits that have been earned more than five years before the distribution.

The amount of the *précompte* is equal to 50% of the net dividends before withholding tax. If we pay the *précompte*:

the U.S. Tax Resident shareholders entitled to the full or partial transfer of the 10% *avoir fiscal* would also generally be entitled to the full or partial transfer of a specific tax credit equal to 80% of the *précompte* effectively paid by us (as opposed to the *précompte* paid by offsetting French and/or foreign tax credits) less a 15% withholding tax on both the 15% *avoir fiscal* and the 70% specific tax credit;

the U.S. Tax Resident shareholders that are not entitled to the full transfer of the *avoir fiscal* may generally be entitled to a refund from the French Treasury of the *précompte* effectively paid by us (as opposed to the *précompte* paid by offsetting French and/or foreign tax credits) with respect to the dividends distributed to them. Under the Treaty, the amount of the *précompte* refunded to U.S. Tax Residents is reduced by the 15% withholding tax and by any partial *avoir fiscal* (including any potential 70% specific tax credit). The refund of the *précompte* is subject to specific filing requirements; U.S. Tax Resident shareholders should consult their own tax advisors as to the conditions and filing requirements under which they may benefit from this refund.

Specific procedures will apply if our shares are held through a U.S. Tax Resident Partnership. U.S. Tax Residents who will own their shares through a U.S. Tax Resident Partnership are advised to consult their own tax advisors as to the conditions and formalities under which they may benefit from the above-mentioned provisions.

U.S. Federal Income Taxes

For U.S. federal income tax purposes, the gross amount of a dividend and any *avoir fiscal*, including any French withholding tax, will be included in your gross income as dividend income when payment is received by you, to the extent they are paid or declared paid out of our current or accumulated earnings and profits as calculated for U.S. federal income tax purposes. Dividends paid by our company will not give rise to any U.S. dividends received deduction. They will generally constitute foreign source passive income for foreign tax credit purposes. For recipients predominantly engaged in the active conduct of a banking, insurance, financing or similar business, dividends paid by our company will generally constitute foreign source financial services income for foreign tax credit purposes.

Also for U.S. federal income tax purposes, the amount of any dividend paid in euros, including any French withholding taxes, will be equal to the U.S. dollar value of the euros on the date the dividend is included in income, regardless of whether the payment is in fact converted into U.S. dollars. You will generally be required to recognize U.S. source ordinary income or loss when you sell or dispose of euros. You may also be required to recognize foreign currency gain or loss if you receive a refund under the Treaty of tax withheld in excess of the treaty rate. This foreign currency gain or loss will generally be U.S. source ordinary income or loss.

To the extent that any dividends paid exceed our current and accumulated earnings and profits as calculated for U.S. federal income tax purposes, the distribution will be treated as follows:

first, as a tax-free return of capital, which will cause a reduction in the adjusted basis of your shares. This adjustment will increase the amount of gain, or decrease the amount of loss, that you will recognize if you later dispose of those shares; and

second, the balance of the dividend in excess of the adjusted basis will be taxed as capital gain recognized on a sale or exchange.

French withholding tax imposed on the dividends you receive and on any *avoir fiscal* at 15% under the Treaty is treated as payment of a foreign income tax. You may take this amount as a credit against your U.S. federal income tax liability, subject to specific conditions and limitations.

For U.S. federal income tax purposes, the amount of the *précompte* will be included in your gross income as dividend income in the year you receive it. It will generally constitute foreign source passive income for foreign tax credit purposes. For recipients predominantly engaged in the active conduct of a banking, insurance, financing or similar business, the *précompte* will generally constitute foreign source financial services income for foreign tax credit purposes. The amount of any *précompte* paid in euros, including any French withholding taxes, will be equal to the U.S. dollar value of the euros on the date the *précompte* is included in income, regardless of whether the payment is in fact converted into U.S. dollars. You will generally be required to recognize a U.S. source ordinary income or loss when you sell or dispose of the euros.

On May 28, 2003, the Jobs and Growth Tax Relief Reconciliation Act of 2003 (the Act) was enacted. Under the Act, the maximum rate of tax applicable to qualified dividend income of an individual is 15 percent. Qualified dividend income includes dividends received during the taxable year from qualified foreign corporations if certain requirements are met. For example, in order to be eligible for the reduced rates, a shareholder must hold the stock with respect to which the dividend is paid for more than 60 days during the 120 day period that begins 60 days before the ex-dividend date for the dividend. In addition, a shareholder will not be entitled to the reduced rates if such shareholder is under an obligation to make related payments with respect to positions in substantially similar or related property (whether pursuant to a short sale, a hedge or otherwise). A qualified foreign corporation is a foreign corporation that is eligible for benefits of a comprehensive income tax treaty with the United States which the Secretary determines is satisfactory for purposes of the rules relating to the reduced tax on dividends and which includes an exchange of information program. The Joint Committee on Taxation stated that until the Treasury Department issues guidance regarding the determination of treaties as satisfactory for this purpose, a foreign corporation will be considered to be a qualified foreign corporation if it is eligible for the benefits of a comprehensive income tax treaty with the United States that includes an exchange of information program other than the current United States-Barbados income tax treaty. In addition, a foreign corporation is treated as a qualified foreign corporation with respect to any dividend paid by such corporation if the stock with respect to which the dividend is paid is readily tradable on an established securities market in the United States. Nevertheless, a foreign corporation is not a qualified foreign corporation if, for the taxable year in which the dividend was paid, or the preceding taxable year, the corporation is a foreign personal holding company (an FPHC), a foreign investment company (a FIC) or a passive foreign investment company (a PFIC). Publicis has not examined whether it is a FPHC, a FIC or a PFIC, but Publicis believes that it is not a FPHC, a FIC or a PFIC. Accordingly, Publicis believes that dividends paid by Publicis with respect to the ADSs traded on the New York Stock Exchange should be eligible for the reduced tax rates for a shareholder who meets the holding period and other requirements of the Act. Under the Act, in connection with determining a shareholder's foreign source income for purposes of the shareholder's foreign tax credit limitation, special rules apply to the receipt of qualified dividend income. All shareholders should consult their tax advisors to determine the consequences of the Act to them.

Taxation of Capital Gains

Under French tax law, capital gains realized upon the sale of our shares by holders who are not French residents for French tax purposes (and who do not hold their shares in connection with a permanent establishment or a fixed base in France) are not taxable in France provided that the vendor and any related persons have not directly or indirectly held more than 25% of rights to our earnings (*droits aux bénéfices sociaux*) at any time during the five years preceding the sale.

If the holder is a U.S. Tax Resident, the holder will not be subject to French tax on any capital gain if the holder sells or exchanges its shares, unless the holder has a permanent establishment or fixed base in France and the shares sold or exchanged were part of the business property of that permanent establishment or fixed base.

In general, for U.S. federal income tax purposes, you will recognize capital gain or loss if you sell or exchange your shares in the same manner as you would if you were to sell or exchange any other shares held as capital assets. Any gain or loss will generally be U.S. source gain or loss. If you are an individual, any capital gain will generally be subject to U.S. federal income tax at preferential rates if you meet the specified minimum holding periods.

PFIC

We believe that we will not be treated as a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for the current taxable year or for future taxable years. However, an actual determination of PFIC status is fundamentally factual in nature and cannot be made until the close of the applicable taxable year. We will be a PFIC for any taxable year in which either:

75% or more of our gross income is passive income; or

our assets that produce passive income or that are held for the production of passive income amount to at least 50% of the value of our total assets on average.

If we were to become a PFIC, the tax applicable to distributions on our shares and any gains you realize when you dispose of our shares may be less favorable to you. You should consult your own tax advisors regarding the PFIC rules and their effect on you if you purchase our shares.

French Estate and Gift Taxes

Under The Convention Between the United States of America and the French Republic for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Estates, Inheritance and Gifts of November 24, 1978, if an individual holder transfers its shares in our company by gift, or if they are transferred by reason of the holder's death, that transfer will only be subject to French gift or inheritance tax if one of the following applies:

the individual holder is domiciled in France at the time of making the gift, or at the time of the individual holder's death; or

the individual holder used our shares in conducting a business through a permanent establishment or fixed base in France, or the individual holder held our shares for that use.

French Wealth Tax

The French wealth tax does not generally apply to our shares if the holder is an individual who is a tax resident of the United States for purposes of the Treaty, provided that:

the individual holder does not own, alone or with related persons, directly or indirectly, shares, rights or interests the total of which gives right to at least 25% of our earnings; and

the shares are not held in connection with a permanent establishment or a fixed base in France.

Under French tax law, an individual having his or her tax residence outside France is taxable only on such individual's French assets. However, financial investments made by such individuals, provided they represent less than 5% of the share capital of the French company and are made in companies other than real property companies, are exempt from wealth tax.

United States Information Reporting and Backup Withholding

Dividend payments on our shares and proceeds from the sale, exchange or other disposition of the shares may be subject to information reporting to the U.S. Internal Revenue Service and possible U.S. backup withholding. U.S. federal backup withholding generally is a withholding tax imposed at the rate of 28% on specified payments to persons that fail to furnish required information. Backup withholding will not apply to a holder who furnishes a correct taxpayer identification number or certificate of foreign status and makes any other required certification, or who is otherwise exempt from backup withholding. Any U.S. persons required

to establish their exempt status generally must file Internal Revenue Service Form W-9, entitled Request for Taxpayer Identification Number and Certification.

Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability. You may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the U.S. Internal Revenue Service and furnishing any required information.

DOCUMENTS ON DISPLAY

We are subject to the periodic reporting and other informational requirements of the Exchange Act. Under the Exchange Act, we are required to file reports and other information with the SEC. Copies of reports and other information, when so filed, may be inspected without charge and may be obtained at prescribed rates at the public reference facilities maintained by the SEC at Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549. The public may obtain information regarding the Washington, D.C. Public Reference Room by calling the SEC at 1-800-SEC-0330. The public may also view our annual reports and other documents filed with the SEC on the internet at www.sec.gov. As a foreign private issuer, we are exempt from the rules under the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and our officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions in Section 16 of the Exchange Act.

ENFORCEABILITY OF CIVIL LIABILITIES AGAINST FOREIGN PERSONS

Our company is a corporation organized under the laws of France. The majority of our directors are citizens and residents of countries other than the United States, and the majority of our assets are located outside of the United States. Accordingly, it may be difficult for investors:

to obtain jurisdiction over our company or our directors in courts in the United States in actions predicated on the civil liability provisions of the U.S. federal securities laws;

to enforce judgments obtained in such actions against us or our directors;

to obtain judgments against us or our directors in original actions in non-U.S. courts predicated solely upon the U.S. federal securities laws; or

to enforce against us or our directors in non-U.S. courts judgements of courts in the United States predicated upon the civil liability provisions of the U.S. federal securities laws.

Each of the foregoing statements applies to our auditors as well.

Item 11: *Quantitative and Qualitative Disclosures About Market Risk*

As a result of our global operating activities and our financing activities, we are subject to various market risks relating primarily to foreign currency exchange rate risk and interest rate risk.

INTEREST RATE RISK

In the course of our operations, we are exposed to risks related to interest rate changes, primarily as a result of the credit facilities used to finance our investment activity and to maintain financial liquidity.

As of December 31, 2002, we had total outstanding financial indebtedness (under French GAAP) of 2,762 million. This indebtedness was comprised of the following: 200 million in obligations under our 2% notes due 2007, 929 million in obligations under our 1.0% notes due 2018 (including 239 million in redemption premium), 646 million in obligations under bonds with attached equity warrants issued in the Bcom3 transaction, 303 million in bank loans, 490 million of bank overdrafts, 181 million in capitalized lease obligations and 13 million in accrued interest. Of the total indebtedness outstanding at the end of 2002, 751 million was due within one year, 93 million was due after more than one year but within five years, and the remainder was due after more than five years. Other than our obligations under the 2.0% notes due 2007,

the 1.0% notes due 2018 and the Bcom3 stockholder notes with warrants, our debt bore interest at variable rates; the average annual interest rate for 2002 was 3.3%.

Based on the above information, a hypothetical increase of 1% in average interest rates on long-term borrowings at variable rates as of December 31, 2002 would result in an increase in annual interest expense of approximately 4.8 million.

Our 2.0% notes due 2007 are convertible into shares of the Interpublic Group that we currently hold as an investment (see Equity Markets Risk). The notes can be converted by holders beginning on June 30, 2003, subject to our right to repay them in cash. At our option, we can redeem the notes beginning on January 10, 2005 if the price of the Interpublic Group stock exceeds specified limits. The notes bear interest at a fixed rate of 2%. Under French GAAP, the notes are stated at their face value and interest expense is recognized at 2% of the stated value. Under U.S. GAAP, the holders' right to convert the notes into shares of the Interpublic Group, and our right to repay or redeem the notes, are considered embedded derivatives and are required to be recorded at fair value on our balance sheet, with fluctuations in the fair value recognized as income or an expense in our income statement. For the year ended December 31, 2002, income of approximately 11 million was recognized in connection with these embedded derivatives (compared to 5 million of expense recognized in 2001). If the market price of the Interpublic Group stock increases, it is expected that the corresponding fair value and related expense of these embedded derivative instruments will increase.

As of December 31, 2002, a hypothetical increase of 10% in the price of Interpublic Group stock would not result in a significant change in the fair value of the embedded derivatives.

As of December 31, 2002, approximately 68% of our debt was denominated in euros and 25% was denominated in U.S. dollars. Our policy is to hold cash and cash equivalents in various currencies corresponding to the exposure of our various subsidiaries around the world.

We generally do not use financial instruments to hedge interest rate risk.

FOREIGN CURRENCY EXCHANGE RATE RISK

We conduct operations in 109 countries around the world. The geographic diversity of our operations is reflected by the currencies that make up our results of operations. In 2002, more than half of our revenues were realized in currencies other than the euro, including approximately 43% in U.S. dollars. The majority of our subsidiaries carry out businesses that are essentially local, with almost all of their revenues received in local currency and almost all of their costs incurred in local currency. In addition, most of our acquisitions in the United States have been funded through local borrowings, resulting in financial expenses and repayment obligations in the same currency. For these reasons, our exposure to losses resulting from differences between the currencies in which we receive revenues and the currencies in which we incur costs tends to be limited. However, we cannot assure you that we will be able to avoid such differences in the future or that any such differences will not materially affect our results of operations.

For the reasons discussed above, we generally do not hedge our exposure to foreign currencies.

We hold assets and liabilities, earn income and pay expenses of our subsidiaries in a variety of currencies. Our consolidated financial statements are presented in euros. Therefore, when we prepare our financial statements, we must translate our assets, liabilities, income and expenses in currencies other than the euro into euros at then-applicable exchange rates. Consequently, increases and decreases in the value of the euro will affect the value of these items in our financial statements, even if their value has not changed in their original currency. In this regard, an increase in the value of the euro relative to other currencies may result in a decline in the reported value, in euros, of our interests held in those currencies. To the extent this has a negative effect on our financial condition as presented in our financial statements, it could cause the price of our shares to decline. Conversely, if the relative value of the euro to the U.S. dollar declines, the U.S. dollar equivalent of cash dividends paid in euros on our ADSs will decline as well.

EQUITY MARKETS RISK

Our exposure to equity markets risk relates primarily to our investment in equity securities of unconsolidated entities, particularly the Interpublic Group. At December 31, 2002, the market value of our quoted equity securities amounted to 71 million, compared to a carrying value for French GAAP purposes of 20 million.

Item 12: *Description of Securities Other Than Equity Securities*

Not applicable.

PART II

Item 13: *Defaults, Dividend Arrearages and Delinquencies*

None.

Item 14: *Material Modifications to the Rights of Security Holders and Use of Proceeds*

None.

Item 15: *Controls and Procedures*

Our Chief Executive Officer and our Chief Financial Officer have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-14(c)) as of a date within 90 days of the date of the filing of this annual report. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that, as of the evaluation date, our disclosure controls and procedures were effective to ensure that material information relating to us and our consolidated subsidiaries would be made known to them by others within these entities, particularly during the period in which this annual report was being prepared, in order to allow timely decisions regarding required disclosure.

There have been no significant changes in our internal controls or, to our knowledge, other factors that could significantly affect our internal controls subsequent to the evaluation date. Therefore, no corrective actions were taken.

CONSOLIDATED FINANCIAL STATEMENTS

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors

and Shareholders of Publicis Groupe, S.A.

We have audited the accompanying consolidated balance sheets of Publicis Groupe, S.A. and its subsidiaries, as of December 31, 2002, 2001 and 2000 and the related consolidated statements of income, changes in shareholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in France and in the United States. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Publicis Groupe, S.A. and its subsidiaries at December 31, 2002, 2001 and 2000, and the consolidated results of their operations and their cash flows for the years then ended in conformity with the accounting principles generally accepted in France, which differ in certain respects from those generally accepted in the United States (see Note 30 to the consolidated financial statements).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(amounts in millions of euros except per share data)

1. Summary of Significant Accounting Policies

Since January 1, 2000, the consolidated financial statements of Publicis Groupe S.A. and its subsidiaries (Publicis or the Group) have been prepared in accordance with French generally accepted accounting principles, including the new rules and accounting policies applicable to consolidated financial statements in France (*nouvelles règles et méthodes relatives aux comptes consolidés*), approved by the ministerial order of June 22, 1999, which enacted Rule 99-02 of the accounting rules and regulation committee (*Comité de Réglementation Comptable* or CRC).

The application of the new rules has been treated as a change in accounting policy in 2000. The overall net effect on shareholders' equity as at January 1, 2000 of this change is 8 million.

Commencing January 1, 2002, the Group applied CRC Rule 2000-06 in respect of liabilities. This change in methodology did not have a material impact on the financial statements at January 1, 2002.

1.1 Principles of Consolidation

Reporting Currency

Since January 1, 1999, Publicis has prepared and reported its consolidated financial statements in euros. All previous historical financial information has been restated in euros using the official conversion rate established on January 1, 1999 of 6.55957 French francs = 1 euro.

Scope of Consolidation

Publicis consolidates all subsidiaries over which it exercises exclusive direct or indirect control.

The companies over which Publicis exercises substantial influence, generally where the percentage of ownership and share of the voting rights is at least 20%, are accounted for by the equity method.

The list of the principal consolidated companies together with their method of consolidation is presented in note 29.

Translation of Accounts of Foreign Subsidiaries

The financial statements of subsidiaries located outside of the euro zone, where the functional currency is the local currency, are translated into euros as follows:

assets and liabilities are translated at year-end exchange rates;

statement of income items are translated at average exchange rates for the year;

translation gains and losses resulting from the application of these rates are recorded in retained earnings for the portion related to the Group interest, with the remainder recorded under minority interest.

Year-End

The Group, parent company and virtually all subsidiaries have a year-end of December 31.

Intercompany Transactions

Intercompany transactions, including related revenues and expenses, accounts receivable and accounts payable, are eliminated in consolidation.

F-7

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1.2 Significant Accounting Policies

Research Costs

Publicis records expenses related to studies and research in the period in which they are incurred.

These expenses relate primarily to the following: studies and tests related to advertising campaigns, costs resulting from the development of internet sites and related tools, research programs on consumer behavior and advertisers' needs in various areas, and studies and modeling conducted in order to optimize the use and choice of media purchases for the clients of the Group.

Goodwill

Goodwill arising on consolidation represents the difference between the acquisition cost of interests in consolidated companies and the Group's equity in the underlying net assets at the date of acquisition.

Goodwill is amortized on a straight-line basis according to the following principles:

goodwill related to media purchasing and sales subsidiaries is amortized over five years;

goodwill related to the international space purchasing network is amortized over a twenty year period;

goodwill related to communications subsidiaries is amortized over a period of 10 to 40 years based on the country, size, and the specific characteristics of each agency.

The carrying value of goodwill is reviewed for impairment when events and circumstances indicate that the carrying value may not be recoverable, based on the valuation criteria used at the time of the acquisition. If the fair value of the goodwill is lower than the carrying value, a provision is made to reduce the carrying value of the goodwill to the fair value.

Purchase Accounting and Goodwill

Upon acquisition of sole ownership of a business, the purchase price is allocated on a fair value basis to the identifiable assets and liabilities of the business acquired. The excess of the purchase price of such assets and liabilities, as recorded in the consolidated balance sheet, over their carrying value in the acquired entity's accounts is recorded as goodwill.

Other Intangible Assets

Other intangible assets are comprised primarily of client relationships, trademarks, client lists and software.

Trademarks with finite useful lives, client lists and identifiable components of client relationships are amortized over their estimated useful economic lives.

Trademarks with indefinite useful lives are not amortized.

Software consists of the following:

software purchased for internal use, which is stated at purchase cost;

internally developed software for sales and marketing purposes, which is used primarily by the Group's information systems services subsidiary, is stated at production cost.

Software is generally amortized over a period of one or two years and not in excess of three years.

Property and Equipment

Property and equipment is stated at historical acquisition cost. A limited number of assets have been revalued in accordance with French legislation; the value of such assets is not significant.

F-8

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Property and equipment is depreciated on a straight-line basis over the assets' estimated useful lives as described below:

Buildings: between 20 and 50 years.

Fixtures, fittings and general installations: 10 years.

Billboards: 4 to 7 years.

Office furniture and equipment: 5 to 10 years.

Vehicles: 4 years.

Computer hardware: 2 to 4 years.

Publicis records assets under capital leases in property and equipment with corresponding amounts recorded in financial debt. These assets are depreciated over the periods described above. In the statement of income, the lease rental expenses are replaced by the interest expense on the debt and the depreciation expense on the assets.

Investments in Non-Consolidated Affiliates

Investments in non-consolidated affiliates are recorded at the lower of historical acquisition cost and fair value. Fair value is determined on the basis of criteria such as revalued net assets, capitalized earnings, quoted stock prices, the outlook for the sector or industry and the strategic value of the investment to the Group.

Loans and Advances to Affiliates

Loans and advances to affiliates represent receivables from affiliates accounted for by the equity method or other non-consolidated affiliates.

A provision is recorded against these receivables when there is a recoverability risk resulting from the financial condition of the affiliates concerned. Such provisions are included in Provisions for long-term investments .

Inventory and Costs Billable to Clients

Inventory and costs billable to clients represent primarily work-in-progress related to advertising, consisting of technical, creative and production work (graphic design, TV and radio production, editing, etc.), which is billable, but has not yet been billed to clients. A provision for depreciation is recorded when expected revenue on completion is lower than the production costs incurred. Non-billed work or costs incurred relating to new client development activities are not capitalized except when expenses incurred during the proposal process may be billed to the client under the terms of the contract.

Accounts Receivable

Accounts receivable are recorded at their carrying value. An allowance for doubtful accounts is recognized for receivables for which there is a collection risk.

Accounts receivable denominated in foreign currencies are recorded at the year-end exchange rate. Unrealized foreign exchange gains and losses are recorded in the income statement.

Marketable Securities

The gross value of marketable securities is recorded at the lower of cost or market, which may be depreciated with reference to the average stock market price during the most recent month.

F-9

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Treasury Stock

Pursuant to the recommendations of the French Accounting Standards Council (CNC), treasury stock held in the Group's portfolio at year end is either deducted from shareholders' equity (as in the case of the multi-objective treasury stock purchase program), or recognized as an asset under marketable securities (if allocated exclusively to stock purchase option plans granted to employees), depending on its function.

Management Board decided in the second half of 2002 to cease exclusive allocation of treasury shares to stock option plans. As such, treasury stock is deducted from consolidated shareholders' equity at December 31, 2002. The treasury stock reclassification was first performed on the basis of the carrying value of treasury stock stated in the financial statements at June 30, 2002.

Pensions and Other Post-Employment Benefits

The Group applies the preferred method of rule 99-02 of the CRC, recognizing all pensions and post-employment benefits. The policies applied by Publicis are in accordance with the laws and regulations of the countries in which its subsidiaries are located, as described below:

in the U.K., the United States and Germany, the pensions and other post-employment benefit obligations are held in investment trusts managed by insurance companies. These plans may be either:

defined contribution plans: the amount of contributions by the Group to the investment funds is defined and recorded as expense during the period;

defined benefit plans: the benefit amounts to be received upon retirement are defined and accounted for by establishing a provision intended to cover the present value of the obligation to be paid to employees at retirement, as calculated by actuaries based upon years of service.

In France, employees are entitled to a lump sum payment upon retirement, based on years of service.

In Italy, employees are entitled to a lump sum payment upon termination, based on years of service.

Changes in the value of obligations as a result of updated assumptions (actuarial differences) are recognized in the statement of income on a time-apportioned basis.

Restructuring
