Edgar Filing: AMDOCS LTD - Form 6-K

1. BASIS OF PRESENTATION

Amdocs Limited (the "Company") is a leading provider of software products and services to the communications industry. The Company and its subsidiaries operate in one operating segment so as to help its customers move toward an integrated approach to customer management. The Company designs, develops, markets, supports and operates, and provides Managed Services for, information system solutions primarily to leading communications companies throughout the world.

The unaudited consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). In the opinion of the Company's management, all adjustments considered necessary for a fair presentation of the unaudited interim consolidated financial statements have been included herein and are of a normal recurring nature.

The preparation of financial statements during interim periods requires management to make numerous estimates and assumptions that impact the reported amounts of assets, liabilities, revenue and expenses. Estimates and assumptions are reviewed periodically and the effect of revisions is reflected in the results of operations of the interim periods in which changes are determined to be necessary.

The results of operations for the interim periods presented herein are not necessarily indicative of the results to be expected for the full fiscal year. These statements do not include all information and footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with GAAP. These statements should be read in conjunction with the Company's consolidated financial statements for the fiscal year ended September 30, 2004, set forth in the Company's Annual Report on Form 20-F filed on December 30, 2004 with the Securities and Exchange Commission.

Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation.

2. SIGNIFICANT ACCOUNTING POLICY

Accounting for Stock-Based Compensation

The Company follows Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB No. 25") and related Interpretations in accounting for its employee stock options. Pursuant to these accounting standards, the Company records deferred compensation for share options granted to employees at the date of grant based on the difference between the exercise price of the options and the market value of the underlying shares at that date. Deferred compensation is amortized to compensation expense over the vesting period of the underlying options in accordance with the accelerated expense attribution method.

As presented below, the Company determined pro forma net income and earnings per share information as if the fair value method described in Statements of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation", as amended by SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an Amendment of Financial Accounting Standards Board Statement No. 123", had been applied to its employee stock-based compensation. The Company utilized the Black-Scholes option-pricing model to estimate fair value,

Edgar Filing: AMDOCS LTD - Form 6-K

6

AMDOCS LIMITED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

(dollar and share amounts in thousands, except per share data)

which is one of several methods that can be used under SFAS No. 123. The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. Option valuation models require the input of highly subjective assumptions, including the expected share price volatility. The Company's options have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value estimates.

The fair value of options granted was estimated at the date of grant using the Black-Scholes pricing model with the following assumptions for the presented periods (all in weighted averages):

	THREE MONTHS ENDED DECEMBER 31,	
	2004	2003
Risk-free interest rate	3.30%	3.08%
Expected life of options	4.50	4.50
Expected annual volatility	0.638	0.691
Expected dividend yield	None	None
Fair value per option	\$12.47	\$12.43

The following table sets forth the pro forma effect of applying SFAS No. 123 on net income and earnings per share for the three months ended December 31, 2004 and 2003:

	THREE MONTHS ENDED DECEMBER 31,	
	2004	2003
Net income, as reported	\$69,443	\$53,068
Add: Stock-based employee compensation expense included in net income, net of related tax effects	58	5
Less: Total stock-based employee compensation expense determined under fair value method for all awards, net of related tax effects	(7,540)	(10,847)

Edgar Filing: AMDOCS LTD - Form 6-K

Pro forma net income	\$61,961 =====	\$42,226 =====
Basic earnings per share:		
As reported	\$ 0.34 =====	\$ 0.25 =====
Pro forma	\$ 0.31 =====	\$ 0.20 =====
Diluted earnings per share:		
As reported	\$ 0.32 =====	\$ 0.24 =====
Pro forma	\$ 0.29 =====	\$ 0.19 =====

The pro forma results for the three months ended December 31, 2003 have been revised due to the correction of the stock-based compensation amount for such period made during fiscal 2004. The correction resulted in a decrease in pro forma net income of \$4,135 and a decrease in pro forma diluted earnings per share of \$0.02 for such period.

7

AMDOCS LIMITED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

(dollar and share amounts in thousands, except per share data)

3. ADOPTION OF NEW ACCOUNTING STANDARDS

The Effect of Contingently Convertible Instruments on Diluted Earnings Per Share

In September 2004, the Emerging Issues Task Force ("EITF") reached a consensus on EITF Issue No. 04-8, "The Effect of Contingently Convertible Instruments on Diluted Earnings Per Share" ("Issue 04-8"). Issue 04-8 relates to contingently convertible debt instruments, which are generally convertible into common shares of the issuer after the common stock price has exceeded a predetermined threshold for a specified time period (market price trigger). According to the accounting treatment in effect prior to this quarter, the potential dilutive effect of the conversion feature was excluded from diluted earnings per share until the market price contingency was met. Under Issue 04-8, all instruments that have embedded conversion features that are contingent on market conditions indexed to an issuer's share price are required to be included in diluted earnings per share computations, if dilutive, regardless of whether the market conditions have been met. The effective date of Issue 04-8 is for reporting periods ending after December 15, 2004. The consensus is required to be applied retroactively to instruments outstanding at the date of adoption. Diluted earnings per share of all prior periods presented for comparative purposes are required to be restated to conform to the consensus guidance.

The Company adopted Issue 04-8 in the first quarter of fiscal 2005, which required the addition of 10,436 ordinary shares issuable upon conversion of the Company's 0.50% Convertible Senior Notes due 2024 (the "0.50% Notes"), to the diluted earnings per share calculation. The adoption of Issue 04-8 has no effect on the Company's previously reported quarterly diluted earnings per share for the three months ended December 31, 2003 as the Company had no outstanding contingently convertible debt instruments during that period.

Edgar Filing: AMDOCS LTD - Form 6-K

New Accounting Standard for Stock-Based Compensation

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123 (revised 2004), "Share-Based Payment", which is a revision of SFAS No. 123. SFAS 123(R) supersedes APB No. 25, and amends FASB Statement No. 95, "Statement of Cash Flows". Generally, the approach in Statement 123(R) is similar to the approach described in Statement 123. However, SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative.

The Company must adopt SFAS 123(R) no later than the first interim period beginning after June 15, 2005. Early adoption will be permitted in periods in which financial statements have not yet been issued.

SFAS 123(R) permits public companies to adopt its requirements using one of two methods:

1. A "modified prospective" method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS 123(R) for all share-based payments granted after the effective date and (b) based on the requirements of SFAS No. 123 for all awards granted to employees prior to the effective date of SFAS 123(R) that remain unvested on the effective date.
2. A "modified retrospective" method which includes the requirements of the modified prospective method described above, but also permits entities to restate based on the amounts previously recognized under SFAS No. 123 for purposes of pro forma disclosures either (a) all prior periods presented or (b) prior interim periods of the year of adoption.

(dollar and share amounts in thousands, except per share data)

As permitted by SFAS No.123, the Company currently accounts for share-based payments to employees using APB No. 25's intrinsic value method and, as such, generally recognizes no compensation cost for employee stock options. Accordingly, the adoption of the SFAS 123(R) fair value method will have a significant impact on the Company's results of operations, although it will have no impact on its overall financial position. The impact of adoption of SFAS 123(R) cannot be predicted at this time because it will depend on levels of share-based payments granted in the future. However, had the Company adopted SFAS 123(R) in prior periods, the impact of that standard would have approximated the impact of SFAS No. 123 as described in the disclosure of pro forma net income and earnings per share in Note 2 above. SFAS 123(R) also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after adoption. While the

Edgar Filing: AMDOCS LTD - Form 6-K

Company cannot estimate what those amounts will be in the future (because they depend on, among other things, when employees exercise stock options), the amount of operating cash flows recognized in prior periods for such excess tax deductions were \$3,094, \$262, and \$6,808 in fiscal years 2004, 2003 and 2002, respectively.

4. ACCOUNTS RECEIVABLE, NET

Accounts receivable, net consists of the following:

	AS OF	
	DECEMBER 31, 2004	SEPTEMBER 30, 2004
Accounts receivable -billed	\$272,839	\$242,254
Accounts receivable -unbilled	23,411	24,696
Less - allowances	(13,785)	(12,171)
Accounts receivable, net	\$282,465	\$254,779

9

AMDOCS LIMITED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

(dollar and share amounts in thousands, except per share data)

5. COMPREHENSIVE INCOME

Comprehensive income represents the change in shareholders' equity during a period from transactions and other events and circumstances from nonowner sources. It includes all changes in equity except those resulting from investments by owners and distributions to owners.

The following table sets forth the reconciliation from net income to comprehensive income for the following periods:

	THREE MONTHS ENDED DECEMBER 31,	
	2004	2003
Net income	\$69,443	\$53,068
Other comprehensive income (loss):		
Unrealized gain (loss) on foreign currency hedging contracts, net of tax	502	(3,199)
Unrealized loss on short-term interest-bearing investments, net of tax	(684)	(465)

Edgar Filing: AMDOCS LTD - Form 6-K

Comprehensive income	----- \$69,261 =====	----- \$49,404 =====
----------------------	----------------------------	----------------------------

6. INCOME TAXES

The provision for income taxes for the following periods consisted of:

	THREE MONTHS ENDED DECEMBER 31,	
	2004	2003
	-----	-----
Current	\$19,891	\$16,622
Deferred	(2,534)	(1,654)
	-----	-----
	\$17,357	\$14,968
	=====	=====

The effective income tax rate varied from the statutory Guernsey tax rate as follows for the following periods:

	THREE MONTHS ENDED DECEMBER 31,	
	2004	2003
	-----	-----
Statutory Guernsey tax rate	20%	20%
Guernsey tax-exempt status	(20)	(20)
Foreign taxes	20	22
	-----	-----
Effective income tax rate	20%	22%
	=====	=====

As a Guernsey corporation with tax-exempt status, the Company's overall effective tax rate is attributable solely to foreign taxes and for fiscal year 2005 is expected to approximate 20%.

As of December 31, 2004, deferred tax assets of \$12,141, derived from net capital and operating loss carry forwards related to some of the Company's subsidiaries, were offset by valuation allowances related to the uncertainty of realizing tax benefit for such losses. When realization of such tax benefits associated

Edgar Filing: AMDOCS LTD - Form 6-K

with such net capital and operating losses is deemed more likely than not, the valuation allowance will be released through income taxes.

7. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

	THREE MONTHS ENDED DECEMBER 31,	
	2004	2003
Numerator:		
Numerator for basic earnings per share - net income available to shareholders	\$ 69,443	\$ 53,068
Effect of assumed conversion of 0.50% convertible notes	984	--
Numerator for diluted earnings per share - net income available to shareholders and assumed conversions	\$ 70,427	\$ 53,068
Denominator:		
Denominator for basic earnings per share - weighted average number of shares outstanding	201,703	215,106
Effect of assumed conversion of 0.50% convertible notes	10,436	- (1)
Effect of dilutive stock options granted	5,309	5,488
Denominator for diluted earnings per share - adjusted weighted average shares and assumed conversions	217,448	220,594
Basic earnings per share	\$ 0.34	\$ 0.25
Diluted earnings per share	\$ 0.32	\$ 0.24

- (1) The adoption of Issue 04-8 had no impact on the reported diluted earnings per share for the three months ended December 31, 2003 as the 0.50% Notes were not outstanding during that period.

The weighted average effect of the repurchase of ordinary shares by the Company has been included in the calculation of basic earnings per share.

The effect of the 2% Convertible Notes due June 1, 2008 issued by the Company in May 2001 (the "2% Notes") on diluted earnings per share was anti-dilutive for the three months ended December 31, 2003 and 2004, and, therefore, was not included in the above calculation.

The effect of the 0.50% Notes on diluted earnings per share was included in the above calculation for the three months ended December 31, 2004 following the adoption of Issue 04-8. See Note 3.

Edgar Filing: AMDOCS LTD - Form 6-K

(dollar and share amounts in thousands, except per share data)

8. REPURCHASE OF SECURITIES

Ordinary Shares

On December 20, 2004, the Company announced that its Board of Directors had extended the share repurchase program for the additional repurchase of up to \$100,000 of the Company's ordinary shares in the open market or privately negotiated transactions and at times and prices the Company deems appropriate. No share repurchases under this program were made in the three months ended December 31, 2004.

9. ACQUISITION

CERTEN INC.

On July 2, 2003, the Company acquired from Bell Canada ("Bell") its 90% ownership interest in Certen (renamed Amdocs Canada Managed Services, Inc.) for approximately \$66,000 in cash. In addition, the Company had related transaction costs of approximately \$3,000. In the three months ended December 31, 2004, the Company corrected the allocation of the purchase price and recalculated a deferred tax asset related to the fair value of an acquired pension liability. The corrected purchase price allocation resulted in a decrease of \$4,069 in goodwill.

The following is the corrected allocation of the purchase price and deferred tax liability:

Purchase price	\$ 65,887
Estimated transaction costs	2,925

Total purchase price	68,812
Write-off of deferred revenue and allowance on Amdocs books, net of tax	(33,666)

Net amount for purchase price allocation	\$ 35,146
	=====
Allocation of purchase price:	
90% tangible assets acquired, net of capitalized Amdocs system on Certen's books	\$ 80,929
90% liabilities assumed	(241,460)

Net liabilities acquired	160,531
Customer arrangement	36,385
Adjustment to fair value of pension and other post-employment benefit liabilities	(12,605)
EITF 95-3 and other liabilities	(2,857)
Deferred taxes resulting from the difference between the assigned value of certain assets and liabilities and their respective tax bases	77,742

Edgar Filing: AMDOCS LTD - Form 6-K

Net fair value of liabilities acquired	(61,866)
Goodwill	97,012

	\$ 35,146

(dollar and share amounts in thousands, except per share data)

10. OPERATIONAL EFFICIENCY AND COST REDUCTION PROGRAMS

Fiscal Year Ended September 30, 2003

In the first quarter of fiscal 2003, the Company implemented a series of measures designed to reduce costs and improve productivity, with targeted quarterly savings of approximately \$8,000. As part of this plan, the Company reduced its workforce by approximately 400 employees, representing approximately 4% of the Company's worldwide workforce of 9,000 full-time employees, vacated facilities in different centers around the world and implemented other cost reduction measures, including travel cuts and reduction in other discretionary costs.

The restructuring charge associated with these actions and recorded in the first quarter of fiscal 2003 was \$9,956. Approximately \$6,029 of the total charge was paid in cash as of December 31, 2004. The remainder of the charge, comprised of facility related costs, is expected to be paid out through June 2008.

Details of \$9,956 Restructuring Charge:

In the first quarter of fiscal 2003, Company recorded a charge of \$4,011 related to employee separation costs in connection with the termination of employment of software information technology specialists and administrative professionals from various locations around the world. The Company recorded a charge of \$4,022 related to facilities, representing rent obligations relating to vacated facilities in Raanana, Israel and St. Louis, Missouri. The Company also recorded a provision of \$1,829 for asset write-offs, principally for leasehold improvements in Raanana, Israel and St. Louis, Missouri that were abandoned.

The restructuring charge is comprised of the following as of December 31, 2004:

	FACILITIES

Balance as of September 30, 2004	\$1,797
Cash payments	(106)

Balance as of December 31, 2004	\$1,691
	=====

Edgar Filing: AMDOCS LTD - Form 6-K

The financial savings of these actions, of approximately \$8,000 quarterly commencing in the second quarter of 2003, is reflected as a reduction in operating expense. These cost savings may not be permanent as increased activity levels resulting from, among other factors, acquisitions, new Managed Services agreements and increased revenue, may require an increase in headcount and other increased spending.

Fiscal Year Ended September 30, 2002

In the fourth quarter of fiscal 2002, the Company implemented a cost reduction program targeted to reduce costs by approximately \$30,000 quarterly in response to a decline of the forecasted revenue for the third and fourth quarters of fiscal 2002. The decline resulted from, among other factors, slowdowns in customer buying decisions in the third quarter of fiscal 2002, stemming from overall reductions in the capital investment budgets of many communications service providers, leading to fewer new contracts than expected, as well as from smaller than expected initial spending commitments and reduced discretionary spending under contracts with some customers.

13

AMDOCS LIMITED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

(dollar and share amounts in thousands, except per share data)

The restructuring charge associated with these actions and recorded in the fourth quarter of fiscal 2002 was \$20,919. Approximately \$17,139 of the total charge was paid in cash as of December 31, 2004. The remainder of the charge, comprised of facility related costs, is expected to be paid out through April 2012.

Details of \$20,919 Restructuring Charge:

In the fourth quarter of fiscal 2002, the Company recorded a charge of \$11,353 related to employee separation costs in connection with the termination of employment of approximately 1,000 employees, representing approximately 10% of the Company's worldwide workforce of 9,900 full-time employees. The actual number of employees terminated approximated original estimates. There was not a single group of employees or business function that was solely impacted by these measures; instead it impacted information technology specialists and administration professionals across a broad range of functions according to the areas with reduced activities. The Company recorded a charge of \$7,880 related to facilities, representing rent obligations relating to vacated facilities in various locations in Canada, Israel and the United States. The Company also recorded a provision of \$1,584 for asset write-offs, principally for leasehold improvements in Canada, Israel and the United States that were abandoned.

The restructuring charge is comprised of the following as of December 31, 2004:

	FACILITIES -----
Balance as of September 30, 2004	\$ 2,665

Edgar Filing: AMDOCS LTD - Form 6-K

Cash payments	(76)
Adjustments (1)	(1,675)

Balance as of December 31, 2004	\$ 914
	=====

- (1) Reflects adjustments of \$1,675 due to changes in previous estimates. These adjustments resulted in a decrease of restructuring liabilities related to facilities of \$1,675, which was credited to "cost of service" and "selling, general and administrative" expenses in the three months ended December 31, 2004.

The financial savings of these actions of approximately \$30,000 quarterly commencing in the first quarter of fiscal 2003, is reflected as a reduction in operating expense. These cost savings may not be permanent as increased activity levels resulting from, among other factors, acquisitions, Managed Services agreements and increased revenue, may require an increase in headcount and other increased spending.

In the first quarter of fiscal 2002, as part of a plan to achieve increased operational efficiency and to more closely monitor and reduce costs, the Company consolidated its Stamford, Connecticut data center into its Champaign, Illinois facility and closed the Stamford facility.

The restructuring charge associated with this action and recorded in the first quarter of fiscal 2002 was \$13,311. Approximately \$7,405 of the total charge was paid in cash as of December 31, 2004. The remainder of the charge, comprised of facility related costs, is expected to be paid out through August 2008.

Details of \$13,311 Restructuring charge:

Approximately \$6,255 of the total restructuring charge related to facilities and represented rent obligations outstanding for the Stamford site. Approximately \$4,126 of the total restructuring charge related to the write-off of leasehold improvements at the Stamford site that were abandoned. The

14

AMDOCS LIMITED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

(dollar and share amounts in thousands, except per share data)

Company also recorded a provision of \$2,530 related to employee separation costs in connection with the termination of employment of 166 employees. In the fourth quarter of fiscal 2004, the Company increased its accrual related to facilities by \$4,220 due to changes in its previous estimates.

The restructuring charge related to the consolidation of the Stamford and Champaign facilities is comprised of the following as of December 31, 2004:

FACILITIES

Edgar Filing: AMDOCS LTD - Form 6-K

Balance as of September 30, 2004	\$5,818
Cash payments	(297)

Balance as of December 31, 2004	\$5,521
	=====

The operating costs related to the Stamford site that were eliminated were approximately \$8,500 in its last quarter of activity.

11. EMPLOYEE BENEFITS

FASB Statement No. 132 (revised 2003), "Employers' Disclosures about Pensions and Other Postretirement Benefits", requires additional disclosures about assets, obligations, cash flows, and net periodic benefit cost of defined benefit pension plans and other post-retirement benefit plans.

The Company maintains non-contributory defined benefit plans that provide for pension, other retirement and post-employment benefits for some of its Canadian employees based on length of service and rate of pay. Contributions by the Company are based on various generally accepted actuarial methods and reflect actuarial assumptions concerning future investment returns, salary projections and future service benefits. Plan assets consist primarily of Canadian and other equities, government and corporate bonds, debentures and secured mortgages, which are held in pooled fund units established by Bell Canada Enterprises for the collective investment of registered pension plan assets.

The net periodic benefit cost under these plans for the three months ended December 31, 2004 and 2003, was as follows:

	THREE MONTHS ENDED DECEMBER 31, 2004		THREE MONTHS ENDED DECEMBER 31,
	PENSION BENEFITS	OTHER BENEFITS	PENSION BENEFITS
	-----	-----	-----
Service costs	\$ 547	\$ 66	\$ 495
Interest on benefit obligations	837	121	647
Expected return on plan assets	(686)	--	(553)
	-----	-----	-----
	\$ 698	\$187	\$ 589
	=====	=====	=====

In the three months ended December 31, 2004, the Company made no contributions. The Company expects that contributions for the fiscal year ending September 30, 2005 will approximate \$3,285 to the pension plan and \$89 for other benefits.

Edgar Filing: AMDOCS LTD - Form 6-K

(dollar and share amounts in thousands, except per share data)

12. CONTINGENCIES

Legal Proceedings

The Company is involved in various legal proceedings arising in the normal course of its business. Based upon the advice of counsel, the Company does not believe that the ultimate resolution of these matters will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Securities and Exchange Commission Investigation

The Company has been informed that the Midwest Regional Office of the SEC is conducting a private investigation into the events leading up to the Company's announcement in June 2002 of revised projected revenue for the third and fourth quarters of fiscal 2002. The investigation appears to be focused on, but is not explicitly limited to, the Company's forecasting beginning with its April 23, 2002 press release. Although the Company believes that it will be able to satisfy any concerns the SEC staff may have in this regard, the Company is unable to predict the duration, scope, or outcome of the investigation. The Company is cooperating fully with the SEC staff.

Guarantor's Accounting and Disclosure Requirements for Guarantees

The Company is a party to an agreement entered into prior to December 31, 2002 that includes an indemnification of one of its customers for any withholding tax that might be required under the customer's local tax laws from certain payments made to the Company under this agreement. The indemnification under this agreement expires in December 2005. As of December 31, 2004 and September 30, 2004, the maximum potential amount of the Company's future exposure under this guarantee as determined in accordance with Financial Accounting Standards Board Interpretation No. 45 "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" was \$4,717.

The Company generally sells its ClarifyCRM products with a limited warranty for a period of 90 days. The Company's policy is to accrue for warranty costs, if needed, based on historical trends in product failure. Based on the Company's experience, only minimal warranty services have been required and, as a result, the Company did not accrue any amounts for product warranty liability during the three months ended December 31, 2004 and 2003.

The Company generally indemnifies its customers against claims of intellectual property infringement made by third parties arising from the use of the Company's software. To date, the Company has incurred only minimal costs as a result of such obligations and has not accrued any liabilities related to such indemnification in its consolidated financial statements.

ITEM 2. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

FORWARD LOOKING STATEMENTS

Edgar Filing: AMDOCS LTD - Form 6-K

This section contains forward-looking statements (within the meaning of the United States federal securities laws) that involve substantial risks and uncertainties. You can identify these forward-looking statements by words such as "expect", "anticipate", "believe", "seek", "estimate", "project", "forecast", "continue", "potential", "should", "would", "could" and "may", and other words that convey uncertainty of future events or outcome. Statements that we make in this document that are not statements of historical fact also may be forward-looking statements. Forward-looking statements are not guarantees of future performance, and involve risks, uncertainties and assumptions that may cause our actual results to differ materially from the expectations that we describe in our forward-looking statements. There may be events in the future that we are not accurately able to predict, or over which we have no control. You should not place undue reliance on forward-looking statements. We do not promise to notify you if we learn that our assumptions or projections are wrong for any reason. We disclaim any obligation to update our forward-looking statements, except where applicable law may otherwise require us to do so.

Important factors that may affect these projections or expectations include, but are not limited to: changes in the overall economy; changes in competition in markets in which we operate; changes in the demand for our products and services; consolidation within the industries in which our customers operate; the loss of a significant customer; changes in the telecommunications regulatory environment; changes in technology that impact both the markets we serve and the types of products and services we offer; financial difficulties of our customers; losses of key personnel; difficulties in completing or integrating acquisitions; litigation and regulatory proceedings; and acts of war or terrorism. For a discussion of these important factors, please read the information set forth under the caption "Risk Factors" in our Annual Report on Form 20-F for fiscal 2004 that we have filed with the United States Securities and Exchange Commission ("SEC").

INTRODUCTION

In this section, we discuss the general financial condition and the results of operations for Amdocs and its subsidiaries including:

- the factors that affect our business,
- our revenue and costs for the three months ended December 31, 2004 and 2003,
- the reasons why such revenue and costs were different from period to period,
- the sources of our revenue,
- how all of this affects our overall financial condition,
- our capital expenditures for the three months ended December 31, 2004 and 2003, and
- the sources of our cash to pay for future capital expenditures and possible acquisitions.

In this section, we also analyze and explain the changes in the specific line items in our consolidated statements of income between the three-month periods ended December 31, 2004 and 2003. You should read this section in conjunction with our consolidated financial statements.

Edgar Filing: AMDOCS LTD - Form 6-K

OVERVIEW OF BUSINESS AND TREND INFORMATION

Our market focus is primarily the communications industry, and we are a leading provider of software products and services to that industry. Our products and services help our customers move toward an integrated approach to customer management, which we refer to as "Integrated Customer Management", or "ICM". Our portfolio of product offerings include billing and customer relationship management ("CRM"), order management, mediation, call rating, invoice calculation and preparation, bill formatting, collections, provisioning, content and partner relationship management, support solutions and customer interaction products, which we refer to, collectively, as "Integrated Customer Management Enabling Systems", or "ICM Enabling Systems" (previously known as CC&B Systems).

Our portfolio also includes a full range of directory sales and publishing systems, which we refer to as "Directory Systems", for publishers of both traditional printed yellow page and white page directories and electronic Internet directories.

Our ICM Enabling Systems are designed to meet the mission-critical needs of leading communications service providers throughout the entire customer lifecycle. We support a wide range of communications services, including wireline, wireless, cable, voice, video, data, broadband, content, electronic and mobile commerce and Internet Protocol ("IP") based services. We also support companies that offer multiple service packages, commonly referred to as bundled or convergent service packages.

Due to the complexity of our customers' projects and the expertise required for system support, we also provide information technology, or "IT", services, including extensive system implementation, , integration, modification, ongoing support, enhancement and maintenance services. In addition, we offer Managed Services, which include services such as system modernization and consolidation, the operation of data centers, ongoing support, maintenance services, system modification, the provision of billing services and communications facility management services, in all cases on either or a combination of a fixed or unit charge basis to our customers. We are also expanding to system integration and providing IT consulting services, such as profit enhancement.

Our business is conducted on a global basis. We maintain six development facilities located in Canada, Cyprus, India, Ireland, Israel and the United States. We expect our new development center in India to grow and support the overall activity of our business worldwide at comparatively lower operating costs.

As part of our strategy, we may pursue acquisitions and other initiatives in order to offer new products or services or otherwise enhance our market position or strategic strengths.

We derive our revenue principally from:

- the initial sales of licenses to use our products and related services, including modification, implementation and integration services,
- providing Managed Services and other related services for our solutions, and
- recurring revenue from ongoing support and maintenance provided to our customers, and from incremental license fees resulting from increases in a customer's business volume.

Revenue is recognized only when all of the following conditions have been

Edgar Filing: AMDOCS LTD - Form 6-K

met: (i) there is persuasive evidence of an arrangement; (ii) delivery has occurred; (iii) the fee is fixed and determinable; and (iv) collectability of the fee is reasonably assured. We usually sell our software licenses as part of an overall solution offered to a customer that combines the sale of software licenses with a broad range of services, which normally include significant customization, modification, implementation and integration. As a result, we generally recognize combined license and service revenue over the course of these long-term projects,

18

using the percentage of completion method of accounting. Initial license fee revenue is recognized as work is performed, using the percentage of completion method of accounting. Subsequent license fee revenue is recognized upon completion of specified conditions in each contract, based on a customer's subscriber level or number of users when greater than the level specified in the contract for the initial license fee. Service revenue that involves significant ongoing obligations, including fees for software customization, implementation and modification, also is recognized as work is performed, under the percentage of completion method of accounting. Revenue from software solutions that do not require significant customization and modification is recognized upon delivery or as services are provided. In Managed Services contracts, we typically recognize revenue from the operation of a customer's system either ratably over the service period or as services are performed. Revenue from ongoing support services is recognized as work is performed. Revenue from third-party hardware sales is recognized upon delivery and installation, and revenue from third-party software sales is recognized upon delivery. Maintenance revenue is recognized ratably over the term of the maintenance agreement. As a result of a significant portion of our revenue being subject to the percentage of completion accounting method, the size and timing of customer projects and our progress in completing such projects may significantly affect our annual and quarterly operating results.

Our business is subject to the effects of general global economic conditions and, in particular, market conditions in the communications industry. As a result of the slowdown in the communications industry during fiscal years 2003 and 2002, the market value, financial results and prospects, and capital spending levels of communications companies declined or degraded. During fiscal 2004, several communications service providers demonstrated a greater readiness to commit to new projects, and in the first quarter of fiscal 2005, we observed improvement in the markets that we serve. Communications service providers were increasingly willing to commit to new projects, both in wireline and wireless. As a result, we expect continued growth in the coming quarters.

We believe that we are a leading global provider of ICM Enabling Systems. We provide a broad set of products, with proven functionality and scalability, accompanied by a comprehensive range of business consulting, system implementation and integration services.

We believe that demand for our ICM Enabling Systems is driven by, among other key factors:

- the global use of communications services,
- the emergence of new communications products and services, especially IP, video, broadband, data and content services and IPTV (Internet Protocol Television),
- technological changes, such as the introduction of wireless Internet services via GPRS (General Packet Radio Services) and UMTS (Universal Mobile Telecommunications System) technology,

Edgar Filing: AMDOCS LTD - Form 6-K

- the ongoing consolidation within the communications industry,
- the business needs of communications service providers to reduce costs and retain high value customers, and
- a shift from in-house management to vendor solutions.

We also believe that additional drivers of demand are the continuing trend for communications service providers to offer their subscribers multiple service packages, commonly referred to as bundled or convergent services (combinations of voice, broadband, electronic and mobile commerce and IP services), and the ability of our ICM Enabling Systems to improve productivity.

19

Revenue from Managed Services arrangements is included in both license and service revenue from the sale of ICM Enabling Systems and Directory Systems. Managed Services projects are a significant part of our business, and generate substantial, long-term revenue streams, cash flow and operating income. In the initial period of our Managed Services projects, we generally invest in modernization and consolidation of the customer's systems. Invoices are usually structured on a periodic fixed or unit charge basis. As a result, Managed Services projects can be less profitable in the initial period. Margins tend to improve over time as we benefit from the operational efficiencies provided by system modernization and consolidation. We expect that our Managed Services relationships will generate margins comparable to sales of our other products and related license and services over the entire relationships. Revenue related to Managed Services agreements in each of the three-month periods ended December 31, 2004 and 2003 was approximately 40% of total revenue.

RESULTS OF OPERATIONS

The following table sets forth for the three months ended December 31, 2004 and 2003 certain items in our consolidated statements of income reflected as a percentage of total revenue:

	THREE MONTHS ENDED DECEMBER 31,	
	2004	2003
Revenue:

	387,691	361,326	26,365	7.3
Operating income	81,841	66,969	14,872	22.2
Interest income and other, net	4,959	1,067	3,892	364.8
Income before income taxes ...	86,800	68,036	18,764	27.6
Income taxes	17,357	14,968	2,389	16.0
Net income	\$ 69,443	\$ 53,068	\$ 16,375	30.9

REVENUE. Total revenue increased by \$41.2 million, or 9.6%, in the three months ended December 31, 2004 to \$469.5 million from \$428.3 million in the three months ended December 31, 2003. Approximately 70% of the increase in total

Edgar Filing: AMDOCS LTD - Form 6-K

revenue was due to an increase in business related to Managed Services customers, and the remainder was attributable to revenue from existing and new customers. Revenue related to Managed Services customers in the three months ended December 31, 2004 and 2003 was approximately 40% of total revenue. In the three months ended December 31, 2004, following the significant weakening of the U.S. dollar, total revenue was increased by approximately \$7 million.

License and service revenue from the sale of ICM Enabling Systems was \$407.5 million for the three months ended December 31, 2004, an increase of \$32.1 million, or 8.6%, over the three months ended December 31, 2003. Approximately 75% of the increase is attributable to an increase in business related to Managed Services customers, and the remainder was attributable to revenue from existing and new customers. License and service revenue from the sale of ICM Enabling Systems represented 86.8% and 87.7% of our total revenue in the three months ended December 31, 2004 and 2003, respectively. The demand for our ICM Enabling Systems is primarily driven by the need for communications companies to continue to integrate their billing, CRM and order management systems into an Integrated Customer Management approach. During fiscal 2004, several communications service providers demonstrated a greater readiness to commit to new projects, and in the first quarter of fiscal 2005, we observed improvement in the markets that we serve. Communications service providers were increasingly willing to commit to new projects, both in wireline and wireless.

License and service revenue from the sale of Directory Systems was \$62.0 million for the three months ended December 31, 2004, an increase of \$9.1 million, or 17.3%, over the three months ended December 31, 2003. Approximately 40% of the increase in Directory Systems revenue in the three months ended December 31, 2004 was attributable to an increase in business related to Managed Services customers, and the remainder was attributable to additional revenue from existing and new customers. License and service

21

revenue from the sale of Directory Systems represented 13.2% and 12.3% of our total revenue in the three months ended December 31, 2004 and 2003, respectively. We believe that we are a leading provider of Directory Systems in most of the markets we serve. We expect that our revenue from Directory Systems will slightly increase in fiscal 2005.

In the three months ended December 31, 2004, revenue from customers in North America, Europe and the rest of the world accounted for 67.9%, 23.4% and 8.7%, respectively, of total revenue compared to 66.4%, 26.7% and 6.9%, respectively, for the three months ended December 31, 2003. Approximately 85% of the increase in revenue from customers in North America in the three months ended December 31, 2004 is attributable to an increase in business related to Managed Services customers, and the remainder to the expansion of relationships with existing and new customers in North America. The decrease in revenue from customers in Europe in the three months ended December 31, 2004 was attributable to a decrease in revenue from existing customers. The increase in revenue from customers in the rest of the world in the three months ended December 31, 2004 was attributable to the expansion of relationships with existing and new customers in the rest of the world.

COST OF LICENSE. Cost of license mainly includes amortization of purchased computer software and intellectual property rights. Because such amortization is relatively stable from period to period and, absent impairment, is generally fixed in amount, an increase or decrease in license revenue will cause a significant fluctuation in cost of license as a percentage of license revenue. In the three months ended December 31, 2004, cost of license, as a percentage of license revenue, was 5.7%, compared to 6.8% in the three months ended December

Edgar Filing: AMDOCS LTD - Form 6-K

31, 2003.

COST OF SERVICE. The increase in cost of service in the three months ended December 31, 2004 was 8.4%, as compared to the 9.6% increase in our total revenue in the three months ended December 31, 2004, and resulted in a 0.7% increase in our gross margin, as a percentage of revenue. Our gross margin is affected by the Managed Services projects, which we expect to be less profitable in their initial period. In the three months ended December 31, 2004, following the significant weakening of the U.S. dollar, cost of service was increased by approximately \$7 million.

RESEARCH AND DEVELOPMENT. Research and development expense was primarily comprised of compensation expense attributed to research and development activities, which involve the development of new software modules and product offerings, either in conjunction with customer projects or as part of our internal product development program. Research and development expense increased by \$2.4 million, or 7.9%, in the three months ended December 31, 2004 to \$32.9 million from \$30.5 million in the three months ended December 31, 2003. Such increase in research and development expense was proportionally less than the increase in our total revenue, and research and development expense decreased, as a percentage of revenue, from 7.1% of revenue in the three months ended December 31, 2003 to 7.0% of revenue in the three months ended December 31, 2004. While we continue to upgrade our existing systems, in the first quarter of fiscal 2005, we focused significant research and development efforts on the integration between our products and a unified user interface in order to enable our customers to adopt an ICM approach. As part of these efforts we will launch Amdocs 6 in the second quarter of fiscal 2005. The majority of our research and development expenditures are directed to our ICM Enabling Systems, and the remainder to directory, content, mediation and order management solutions. Although we intend to continue to devote resources to research and development, our research and development budget, like all of our costs, is sensitive to our overall financial condition. We believe that our research and development efforts are a key element of our strategy and are essential to our success. However, an increase or a decrease in our total revenue would not necessarily result in a proportional increase or decrease in the levels of our research and development expenditures, which could affect our operating margin.

SELLING, GENERAL AND ADMINISTRATIVE. Selling, general and administrative expense increased by \$2.5 million, or 4.7%, in the three months ended December 31, 2004 to \$55.0 million, from \$52.5 million in the three months ended December 31, 2003. Selling, general and administrative expense is primarily comprised of compensation expense. The increase in selling, general and administrative expense in the first quarter of fiscal 2005 was attributable to overall increase in our operations, as well as to the increase in our selling and

22

marketing compensation, although the 4.7% increase was significantly less than the 9.6% increase in our total revenue.

AMORTIZATION OF PURCHASED INTANGIBLE ASSETS. Amortization of purchased intangible assets in the three months ended December 31, 2004 was \$3.7 million, compared to \$5.1 million in the three months ended December 31, 2003. The decrease in amortization of purchased intangible assets was due to purchased intangible assets that were fully amortized in fiscal 2004.

OPERATING INCOME. Operating income increased by \$14.9 million, or 22.2%, in the in the three months ended December 31, 2004, to \$81.8 million, or 17.4% of revenue, from \$67.0 million, or 15.6% of revenue, in the three months ended December 31, 2003. The increase in operating income in the first quarter of fiscal 2005 resulted from the 9.6% increase in our total revenue, and by the

Edgar Filing: AMDOCS LTD - Form 6-K

0.7% increase in our gross margin as a percentage of revenue.

INTEREST INCOME AND OTHER, NET. Interest income and other, net increased by \$3.9 million in the three months ended December 31, 2004 to \$5.0 million from \$1.1 million in the three months ended December 31, 2003. The increase in interest income and other, net, in the first quarter of fiscal 2005 is primarily attributable to the increase in market interest rates on our short-term interest-bearing investments, and to the decrease in our interest expense due to the redemption of our 2% Notes in June 2004, which was partially offset by interest expense on our 0.50% Notes issued in March 2004.

INCOME TAXES. Income taxes for the first quarter of fiscal 2005 were \$17.4 million on pretax income of \$86.8 million, an effective tax rate of 20% compared to 22% in the three months ended December 31, 2003. Our effective tax rate for fiscal year 2005 is expected to be approximately 20% due to the corporate income tax rates in the various countries in which we operate and the relative magnitude of our business in those countries. The reduction in our effective tax rate is due to our continued expansion into countries with lower effective tax rates.

NET INCOME. Net income was \$69.4 million in the first quarter of fiscal 2005, compared to a net income of \$53.1 million in the three months ended December 31, 2003. The increase in net income is primarily attributable to the 9.6% increase in our total revenue.

DILUTED EARNINGS PER SHARE. Diluted earnings per share were \$0.32 for the three months ended December 31, 2004, compared to \$0.24 in the three months ended December 31, 2003.

The shares issuable upon conversion of the 0.50% Notes were included in the diluted earnings per share calculation for the three months ended December 31, 2004 following the adoption of Issue 04-8, which required the addition of 10.4 million ordinary shares issuable upon conversion of our 0.50% Notes, to the diluted earnings per share calculation. The adoption of Issue 04-8 has no effect on our previously reported quarterly diluted earnings per share for the three months ended December 31, 2003 as the 0.50% Notes were not outstanding during that period.

LIQUIDITY AND CAPITAL RESOURCES

Cash, cash equivalents and short-term interest-bearing investments totaled \$1,257.4 million as of December 31, 2004, compared to \$1,190.7 million as of September 30, 2004. The increase is attributable to positive cash flows from operations. Net cash provided by operating activities amounted to \$83.0 million and \$82.7 million for the three months ended December 31, 2004 and 2003, respectively. We currently intend to retain our future operating cash flows to support the further expansion of our business, including investments related to Managed Services projects and acquisitions. We may also use a portion of our cash balances for future repurchases of our outstanding shares, as described below.

Our policy is to retain substantial cash balances in order to support the growth of the Company. We believe that our current cash balances, cash generated from operations and our current lines of credit will provide sufficient resources to meet our liquidity needs for at least the next fiscal year.

As of December 31, 2004, \$0.3 million and \$450.0 million aggregate principal amount of our 2% Notes and 0.50% Notes were outstanding, respectively.

Edgar Filing: AMDOCS LTD - Form 6-K

On December 20, 2004, we announced that our Board of Directors had extended our share repurchase program for the additional repurchase of up to \$100 million of our ordinary shares in the open market or privately negotiated transactions and at times and prices we deem appropriate. No share repurchases under this program were made in the three months ended December 31, 2004.

As of December 31, 2004, we had available short-term general revolving lines of credit totaling \$31.0 million, pursuant to which \$1.0 million of loans were outstanding. In addition, as of December 31, 2004 we had outstanding letters of credit and bank guarantees from various banks totaling \$14.4 million.

As of December 31, 2004, we had outstanding long-term obligations of \$18.1 million in connection with leasing arrangements.

We have contractual obligations for our convertible notes, financing arrangements, capital leases and non-cancelable operating leases that were summarized in a table of contractual obligations in our Annual Report on Form 20-F for the year ended September 30, 2004. Since September 30, 2004, there have been no material changes in contractual obligations outside the ordinary course of our business.

Our capital expenditures were approximately \$15.7 million in the three months ended December 31, 2004. Approximately 85% of these expenditures consisted of purchases of computer equipment and, the remainder, leasehold improvements. We funded our capital expenditures principally from operating cash flows. We do not anticipate any changes to this policy in the foreseeable future.

CURRENCY FLUCTUATIONS

We manage our foreign subsidiaries as integral direct components of our operations. The U.S. dollar is our functional currency. According to the salient economic factors indicated in SFAS No.52, "Foreign Currency Translation", our cash flow, sale price, sales market, expense, financing and intercompany transactions and arrangement indicators are denominated in the U.S. dollar. The operations of our foreign subsidiaries provide the same type of services with the same type of expenditure throughout the Amdocs group.

During the three months ended December 31, 2004, approximately 70% of our revenue and approximately 50% of our operating expenses were in U.S. dollars or linked to the U.S. dollar. Historically, the effect of fluctuations in currency exchange rates has had a minimal impact on our consolidated operations. As more of our customers seek contracts that are denominated in currencies other than the U.S. dollar, our exposure to fluctuations in currency exchange rates could increase. In managing our foreign exchange risk, we enter from time to time into various foreign exchange hedging contracts. We do not hedge all of our exposure in currencies other than the U.S. dollar, but rather our policy is to hedge significant net exposures in the major foreign currencies in which we operate. We periodically assess the applicability of the U.S. dollar as our functional currency by reviewing the salient indicators.

PART II OTHER INFORMATION

ITEM 1. CHANGES IN SECURITIES, USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES.

(b) Issuer Purchases of Equity Securities

Edgar Filing: AMDOCS LTD - Form 6-K

The following table provides information about purchases by the Company and its affiliated purchasers during the quarter ended December 31, 2004 of equity securities that are registered by the Company pursuant to Section 12 of the Securities Exchange Act of 1934:

ISSUER PURCHASES OF EQUITY SECURITIES

Ordinary Shares
