Item 2.02. Results of Operations and Financial Condition.

On July 26, 2005, Agere Systems issued a news release announcing its financial results for the quarter ended June 30, 2005. A copy of that news release is attached to this report as Exhibit 99.1.

The news release contains information about our net income, excluding gain or loss from the sale of, and income or loss from, discontinued operations; restructuring related charges included in costs, primarily increased depreciation; certain other non cash charges including equity compensation; net restructuring and other charges; purchased in-process research and development charges; amortization of acquired intangible assets; net gain or loss from the sale of operating assets; certain tax adjustments; cumulative effect of accounting changes and certain nonrecurring charges. We believe that information presented on this basis, while not a substitute for financial information prepared in accordance with generally accepted accounting principles, will allow investors to more easily compare our financial performance on an operating basis in different fiscal periods. In fiscal 2005, net income computed on this basis is one of the performance measures we will use to determine the level of employee bonuses.
