NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share and per share data)

NOTE 1 - Basis of Presentation:

The accompanying Consolidated Balance Sheets as of June 30, 2006 and December 31, 2005, and the Consolidated Statements of Operations and the Consolidated Statements of Cash Flows for the three and six month periods ended June 30, 2006 and 2005 are unaudited, but in the opinion of management include all adjustments necessary for a fair presentation of the financial position, the results of operations and cash flows for the periods presented and have been prepared in a manner consistent with the audited financial statements for the year ended December 31, 2005, as restated (See Note 2). Results of operations for interim periods are not necessarily indicative of annual results. These financial statements should be read in conjunction with the audited financial statements and footnotes for the year ended December 31, 2005, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (the SEC) on February 27, 2006.

NOTE 2 Equity-Based Compensation:

Equity Compensation Plans

The Company established stock option plans in 1989 (the 1989 Plan) and 1999 (the 1999 Plan) which provide for the granting of options to directors, officers and key employees to purchase Company common stock at its market value on the date the options are granted. Under the 1989 Plan, 12,600,000 shares were reserved for grant through March 1999. The 1989 Plan expired, but certain grants made under the 1989 Plan remain outstanding at June 30, 2006. On September 22, 1999, the stockholders ratified the 1999 Plan which authorized the grant of up to 8,000,000 shares of Common Stock. Options granted under the 1999 Plan generally become exercisable after one year in 20% increments per year and expire within ten years from the date of grant.

On May 19, 2005, the Board modified the 1999 Plan by deleting the provisions of the 1999 Plan that provided for a mandatory annual grant of 10,000 stock options to outside directors. Also, on May 19, 2005, the stockholders of the Company approved the 2005 Equity Compensation Plan (the 2005 Plan). Among other things, the 2005 Plan provides for the granting of restricted stock and restricted stock units (RSUs) of the Company. A maximum of 9,200,000 shares of common stock of the Company is authorized for the issuance of awards under the 2005 Plan.

Beginning on May 19, 2005, outside directors automatically receive a grant of RSUs equal to \$100 in value on the date of each Company annual meeting of stockholders. Newly appointed outside directors receive an initial grant of RSUs equal to \$150 in value on the date such director is appointed to the Company's Board. Such awards are governed by the 2005 Plan.

Options and restricted stock granted under the 2005 Plan generally vest in 25% increments per year, at the end of each year, and options expire within ten years from the date of grant. RSUs awarded to directors generally vest over a three-year period in equal one-third increments per year. Directors' RSUs vest automatically, in full, upon a change in control or upon their retirement, as defined in the 2005 Plan. RSUs are payable in shares of the Company's common stock. Recipients of restricted stock and RSUs are entitled to receive dividend equivalents (subject to vesting) when and if the Company pays a cash dividend on its common stock.

Restricted stock has the same cash dividend and voting rights as other common stock and is considered to be currently issued and outstanding. Restricted stock and RSUs have dividend equivalent rights equal to the cash dividend paid on common stock. RSUs do not have the voting rights of common stock, and the shares underlying the RSUs are not considered issued and outstanding.

At June 30, 2006 there were 10,308,339 shares available for grant under the Company's equity compensation plans.

For a more complete description of the provisions of the 2005 Plan, refer to the Company's proxy statement filed with the SEC on April 29, 2005 in which the 2005 Plan and a summary thereof are included.

Adoption of SFAS 123R

Prior to January 1, 2006, the Company accounted for equity-based compensation under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25 (APB No. 25), Accounting for Stock Issued to Employees, and the related Interpretations, as permitted by Financial Accounting Standards Board Statement No. 123, Accounting for Stock Based Compensation. No share based compensation expense was recognized in the Statement of Operations as all option grants had an exercise price equal to the market value of the underlying common stock on the date of grant and the number of shares was fixed, except for a non-cash stock compensation charge of \$391 recorded in 2004 in connection with the change in status of an employee to an independent contractor, and \$400 recorded in 2005 in connection with the grant of RSUs to certain individuals.

Effective January 1, 2006, the Company adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment (SFAS 123R). SFAS 123R eliminates the alternative set forth in APB 25 allowing companies to use the intrinsic value method of accounting and requires that companies record expense for stock compensation on a fair value based method. In connection with the adoption of SFAS 123R, the Company has elected to utilize the modified retrospective transition alternative and has restated all prior periods to reflect stock compensation expense in accordance with SFAS 123. The restatements for each of the 2005 fiscal quarters are, and will continue to be, included in the Company's 2006 quarterly filings on Forms 10-Q.

As a result of adopting SFAS 123R, the Company's income before income taxes was \$2,609 and \$2,668 lower for the three month periods ended June 30, 2006 and 2005, respectively, and \$5,540 and \$6,059 lower for the six month periods ended June 30, 2006 and 2005, respectively, than if it had continued to account for the share-based compensation under APB No. 25. Income taxes were \$1,069 and \$1,028 lower for the three month periods and \$2,198 and \$2,474 lower for the six month periods ended June 30, 2006 and 2005, respectively.

Prior to the adoption of SFAS 123R, the Company presented all tax benefits of deductions resulting from the exercise of stock options as operating cash flows in the Consolidated Statements of Cash Flows. SFAS 123R requires that cash flows resulting from tax deductions that are in excess of the compensation costs recognized for those options (known as Windfall Tax Benefits) be classified as financing cash flows.

The following is a summary of the adjustments to the consolidated financial statements as a result of these restatements:

Equity Compensation Activity

The Company has awarded RSUs to Board members and certain key executives, which vest over three and four years, respectively. The cost of the RSUs, which is determined to be the fair market value of the shares at the date of grant net of estimated forfeitures, is expensed ratably over the vesting period, or period to retirement eligibility if shorter. The Company's RSU activity during the period ended June 30, 2006 follows:

	2006	Aggregate	Weighted Average
	Shares	Grant Date	Grant Date
		Fair Value	Fair Value

As of June 30, 2006, there was \$ 2,156 of unearned compensation cost related to the RSUs granted. That cost is expected to be recognized over a weighted-average period of 1.71 years. The total compensation expense recognized related to RSUs was \$293 and \$29 for the three month periods ended June 30, 2006 and 2005, respectively, and \$610 and \$29 for the six month periods ended June 30, 2006 and 2005, respectively. These costs have been included in corporate, general and administrative expenses in the accompanying Statement of Operations.

The Company has awarded restricted shares of common stock to certain key employees. The awards have restriction periods tied solely to employment and vest over four years. The cost of restricted stock awards, which is determined to be the fair market value of the shares on the date of grant net of estimated forfeitures, is expensed ratably over the vesting period. The Company's restricted stock activity during the period ended June 30, 2006 follows:

Table of Contents

WESTWOOD ONE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share and per share data)

The aggregate intrinsic value of vested and exercisable options represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the second quarter of fiscal 2006 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on June 30, 2006. This amount changes based on the fair market value of the Company's stock.

As of June 30, 2006, there was \$20,093 of unearned compensation cost related to stock options granted under the plans. That cost is expected to be recognized over a weighted-average period of 2.65 years. The total compensation expense recognized related to options is as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
<u>Included In:</u>	2006	2005	2006	2005
Corporate General and Administrative Expenses	\$ 1,146	\$ 1,222	\$ 2,436	\$ 2,399

The aggregate estimated fair value of options vesting was \$1,668 and \$1,593 during the three months and \$3,297 and \$6,897 during the six months ended June 30, 2006 and 2005, respectively. The weighted average fair value of the options granted was \$5.58 and \$6.05 during the six months ended June 30, 2006 and 2005, respectively. The estimated fair value of options granted was measured on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

Three Months Ended	Six Months Ended
