ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On August 4, 2004, Credit Acceptance Corporation (the "Company") issued

## Edgar Filing: CREDIT ACCEPTANCE CORPORATION - Form 8-K

a press release announcing its financial results for the three and six months ended June 30, 2004. The press release, dated August 4, 2004, is attached as Exhibit 99.1 to this Form 8-K.

The financial information included in the press release includes a presentation of net income excluding certain items, in addition to the presentation of the Company's reported net income. The Company believes this information is helpful to investors in measuring the performance of the business, in that excluding the impact of certain items more accurately reflects the financial performance of the business and allows shareholders to better compare results between periods and make more informed assumptions about future results.

The financial information included in the press release also includes an adjusted return on capital analysis, which provides an additional perspective on the financial performance of the Company. The Company believes this information provides a useful measurement of how effectively the Company is utilizing its capital.

Finally, the financial information included in the press release includes a presentation of adjusted economic profit. Management uses adjusted economic profit to assess the Company's performance and the amount of value created for shareholders as well as to make capital allocation decisions. The Company believes this information is important to shareholders because it allows shareholders to compare the returns earned by the Company investing capital in its business with the return they could expect if the Company returned capital to shareholders and they invested in other securities.
