PROXY STATEMENT

Annual Meeting of Shareholders to be held May 24, 2007

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Credit Acceptance Corporation, a Michigan corporation (the Company), to be used at the Annual Meeting of Shareholders of the Company to be held on Thursday, May 24, 2007, for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders and in this Proxy Statement. This Proxy Statement and the enclosed form of Proxy were first sent or given to security holders on or about April 25, 2007.

Only shareholders of record at the close of business on March 30, 2007 (the Record Date) will be entitled to vote at the meeting or any adjournment or postponement thereof. Each holder of the 30,291,517 issued and outstanding shares of the Company's common stock (the Common Stock) on the Record Date is entitled to one vote per share. The presence, either in person or by properly executed proxy, of the holders of a majority of the outstanding shares of Common Stock is necessary to constitute a quorum at the Annual Meeting.

A proxy may be revoked at any time before it is exercised by giving a written notice to the Corporate Secretary of the Company bearing a later date than the proxy, by submitting a later-dated proxy or, if you are a shareholder of record or hold legal authority from a shareholder of record, by voting the shares represented by the proxy in person at the Annual Meeting. Unless revoked, the shares represented by each duly executed, timely delivered proxy will be voted in accordance with the specifications made. **If no specifications are made, such shares will be voted for the election of directors named in this Proxy Statement.** The Board of Directors does not intend to present any other matters at the Annual Meeting. However, should any other matters properly come before the Annual Meeting, it is the intention of such proxy holders to vote the proxy in accordance with their best judgment to the extent permitted by law.

If you withhold your vote with respect to the election of the directors, your shares will be counted for purposes of determining a quorum. Withheld votes will be excluded entirely from the vote on the election of directors and will therefore have no effect on the election.

If you own shares through a bank or broker in street name, you may instruct your bank or broker how to vote your shares. Broker non-votes occur when a bank, broker or other nominee holder has not received voting instructions with respect to a particular matter and the nominee holder does not have discretionary power to vote on that matter. The election of directors is considered a routine matter, so your bank or broker will have discretionary authority to vote your shares held in street name on that proposal.

The expenses of soliciting proxies will be paid by the Company. In addition to solicitation by mail, the officers and employees of the Company, who will receive no extra compensation therefore, may solicit proxies personally or by telephone. The Company will reimburse brokerage houses, custodians, nominees and fiduciaries for their expense in mailing proxy materials to principals.

MATTERS TO COME BEFORE THE MEETING**ELECTION OF DIRECTORS****Description of Nominees**

Five directors, constituting the entire Board of Directors, are to be elected at the Annual Meeting. Each director holds office until the next annual meeting of shareholders and until his or her successor has been elected and qualified. The nominees named below have been selected by the Board of Directors of the Company. If, due to circumstances not now foreseen, any of the nominees named below will not be available for election, the proxies will be voted for such other person or persons as the Board of Directors may select. Each of the nominees is currently a director of the Company.

The following sets forth information as to each nominee for election at the Annual Meeting, including their age, present principal occupation, other business experience during the last five years, directorships in other publicly-held companies, membership on committees of the Board of Directors and period of service as a director of the Company. The Board of Directors recommends a vote FOR each of the nominees for election. **Executed proxies will be voted FOR the election of the Board's nominees unless shareholders specify otherwise in their proxies.** The election of directors requires a plurality of the votes cast, so that only votes cast for directors are counted in determining which directors are elected. The five directors receiving the most for votes will be elected. Broker non-votes and withheld votes will be treated as shares present for purposes of determining the presence of a quorum but will have no effect on the vote for the election of directors.

COMPENSATION OF EXECUTIVE OFFICERS

Compensation Discussion and Analysis

The following Compensation Discussion and Analysis describes the elements of compensation for the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during 2006, as well as the other individuals included in the Summary Compensation Table on page 11. These individuals are referred to as the named executive officers. The Executive Compensation Committee establishes and reviews the compensation for the named executive officers, while implementation and day-to-day administration of the Company's compensation programs is performed by employees of the Company.

General Philosophy

The Executive Compensation Committee annually reviews and makes recommendations to the Board of Directors regarding executive compensation for the Chief Executive Officer and other executive officers of the Company as well as reviews and gives input into the compensation philosophies and programs for all employees. It is the philosophy of the Executive Compensation Committee that the executive compensation program should align the financial interests of the Company's executives with the long term interests of the Company and its shareholders and should attract and retain qualified executives to lead the Company toward its goals. To this end, the Executive

Compensation Committee believes executive officers should be treated as owners of the Company in terms of the way their variable compensation is calculated. In making compensation decisions, the Executive Compensation Committee focuses on creating a plan that creates a partnership between the Chairman of the Board, the CEO, and shareholders. As a result, in addition to their base salary, executive officers receive incentive compensation linked to

Table of Contents

Company performance that the Executive Compensation Committee believes benefits the shareholders, as described in more detail below.

Role of Executive Officers in Compensation Decisions

The Chief Executive Officer annually reviews the performance of each executive officer (other than the Chairman of the Board and the Chief Executive Officer whose performance is reviewed by the Executive Compensation Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Executive Compensation Committee. The Executive Compensation Committee can exercise its discretion in modifying any recommended adjustments or awards to executive officers. The Executive Compensation Committee delegates compensation decisions with regard to all other officers, other than Mr. Foss, to the Chief Executive Officer and may form and delegate authority to subcommittees when appropriate, provided any action taken by a subcommittee is subsequently reported to the Committee and ratified. The Committee may also delegate to the Chief Executive Officer, the Chief Financial Officer and the Chief Human Resources Officer the authority to grant options and make awards of shares under the Company's stock plans under conditions established by the Committee to the extent permitted by the relevant plan.

Compensation Peer Group

Total compensation is compared to a peer group of publicly-traded companies (collectively, the Compensation Peer Group). The companies comprising the Compensation Peer Group are:

AmeriCredit Corporation	National Instruments Corporation
Asset Acceptance Capital Corporation	NCO Group, Inc.
Arbitron, Inc.	Portfolio Recovery Associates, Inc.
Citizens Banking Corporation	Pre-Paid Legal Services, Inc.
HomeBanc Corporation	Sterling Bancshares, Inc.
John Wiley & Sons, Inc.	Valassis Communications, Inc.
Keane, Inc.	Vertrue, Inc.
Metris Companies, Inc.	World Acceptance Corporation
Mobile Mini, Inc.	

The Company looked at compensation data for three separate groups of companies: (1) companies operating in the financial services industry, (2) companies whose culture and compensation practices were known by the Company and (3) companies selected from Fortune magazine's The 100 Best Companies to Work For list. For each of the three groups, companies were selected so that the average company size represented was comparable to the Company in terms of market value and profitability.

2006 Executive Compensation Components

For the fiscal year ended December 31, 2006, the principal components of compensation for named executive officers were:

- a base salary;
- non-equity incentive compensation; and
- equity incentive compensation (restricted shares).

Base Salary. The Company provides named executive officers and other employees with a base salary to compensate them for services rendered during the fiscal year. Base salary ranges for each of the named executive officers are determined based on the responsibilities and required skills as well as data from the Compensation Group. The base salary level for each executive officer was then determined by reviewing the executive officer's individual performance for the prior year. Salaries are reviewed annually.

Non-Equity Incentive Compensation. Cash bonuses were awarded to the named executive officers based upon Company performance. Mr. Foss does not receive any form of incentive compensation due to his significant ownership percentage of the Company. His base salary compensates him for the services that he renders to the

Table of Contents

Company during the year. Variable compensation awards for 2006 for the named executive officers, other than Mr. Foss, were based on a formula that considers both the amount of adjusted economic profit generated in 2006 and the percentage change in adjusted economic profit in 2006 as compared to 2005. Adjusted economic profit is defined for this purpose as net income (adjusted for non-recurring items and certain non-gaap adjustments as included in the Company's earnings releases and adjustments to reflect carrying costs of stock options) less a cost of equity equal to 10% of average equity. The Company determines the carrying cost of a stock option as follows: the strike price of the option multiplied by a 10% capital cost. The Executive Compensation Committee believes that variable compensation awards based on measures that directly impact adjusted economic profit properly align the executives' incentives with the Company's performance, because the Executive Compensation Committee believes that improvements in adjusted economic profit will create increased shareholder value. The cash portion of the named executive officers' 2006 bonuses were calculated as follows: 8.0% of the change in adjusted economic profit year over year plus 0.8% of the 2006 adjusted economic profit for Mr. Roberts, the Chief Executive Officer; 3.4% and 0.34% for Mr. Jones, the President of the Company; 4.0% and 0.4% for Mr. Knoblauch, the Chief Operating Officer; and 2.0% and 0.2% for Mr. Booth, the Chief Financial Officer. The bonus amounts were approved by the Compensation Committee on February 22, 2007.

Equity Incentive Compensation. The Company currently has one plan, the Incentive Compensation Plan (the Incentive Plan), under which grants of equity-based awards may be made. Although the Incentive Plan permits the Executive Compensation Committee to grant a wide variety of equity based compensation and has wide latitude to determine the terms of such awards, the Executive Compensation Committee has granted shares of restricted stock to executive officers, having concluded that restricted share grants align the interests of management with those of the Company's shareholders over time.

The Executive Compensation Committee's practice is to determine the dollar amount of equity compensation and to then grant a number of restricted shares having a fair market value equal to that amount on the date of grant based on the average of the high and low sale prices of the stock on such date. With the exception of significant promotions and new hires, the Executive Compensation Committee generally makes these awards at the first meeting of the Compensation Committee each year following the availability of the financial results for the prior year. These grants were made on April 13, 2006, for the fiscal year ended December 31, 2005, and on February 22, 2007, for the fiscal year ended December 31, 2006.

Restricted share grants were determined based upon the same factors that determine the cash portion of variable compensation. Specifically, the dollar amount each restricted share grant was determined by multiplying the cash award by 2.0 and subtracting an amount that considers the value of outstanding stock options previously granted to each executive officer. The number of shares granted was determined based on the average of the high and low sale prices of the Company's common stock on February 22, 2007, which was \$26.30 per share. Mr. Foss, for the reasons cited above, did not receive a restricted stock grant.

Recipients of the restricted share grants have full rights as shareholders other than the right to transfer the shares prior to vesting. The restricted shares granted for 2006 performance will vest in accordance with the following schedule, provided that the named executive officer is employed with the Company through those dates:

1/3 of the original number of restricted shares will vest on the first anniversary of the grant date;

1/3 of the original number of restricted shares will vest on the second anniversary of the grant date; and

1/3 of the original number of restricted shares will vest on the third anniversary of the grant date.

If employment is involuntarily terminated within six months following a change in control of the Company, the shares are not forfeited but, instead, will continue to vest on the schedule set forth above.

2007 Executive Compensation Components

On February 22, 2007, the Executive Compensation Committee approved an award of 300,000 restricted share units to Mr. Roberts, the Chief Executive Officer. Each restricted share unit represents and has a value equal to one share of common stock of the Company. The restricted share units will be earned over a five year period starting in 2007, based upon the compounded annual increase in the Company's adjusted economic profit. Adjusted economic

Table of Contents

profit is defined for the purposes of the restricted share unit vesting calculation as net income (adjusted for non-recurring items and certain non-gaap adjustments as included in the Company's earnings releases and adjustments to reflect carrying costs of stock options) less a cost of equity. The cost of equity is determined based on a formula that considers the risk of the business (assessed at 5% + the average 30 year treasury rate) and the risk associated with the Company's use of debt. The actual formula utilized for determining the cost of equity is as follows: $(\text{the average 30 year treasury rate} + 5\%) + [(1 - \text{tax rate}) \times (\text{the average 30 year treasury rate} + 5\% - \text{the pre-tax average cost of debt rate}) \times (\text{average debt} / (\text{average equity} + \text{average debt} \times \text{tax rate}))]$. Each year, 20% of the grant is eligible to vest. In 2007, if adjusted economic profit improves at least 10% as compared to 2006, 100% of the restricted share units eligible to vest will vest. If adjusted economic profit growth in 2007 is greater than 0% but less than 10% then half of the eligible restricted share units will vest. In 2008 through 2011, if the compounded growth in economic profit measured from 2006 is 10% or greater, then 100% of the restricted share units eligible to vest will vest, including the restricted share units that did not vest in prior years. During this same period, if compounded growth in economic profit is greater than 0% but less than 10%, then half of the eligible restricted share units will vest, including restricted share units that did not vest in prior years. As a result of this grant, Mr. Roberts will not participate in other annual cash bonuses or annual restricted share grants over the five year period. Any earned shares will be distributed to Mr. Roberts on February 22, 2014. In the event of a change in control of the Company, the award will fully vest at the target amount and the value will be payable in cash within 30 days after the change in control. During the performance period (2007-2011) the Company will credit Mr. Roberts, on each date that the Company pays a cash dividend to holders of common stock generally, an additional number of restricted share units equal to the total number of whole restricted share units and additional share units previously credited multiplied by the dollar amount of the cash dividend paid per share of common stock by the Company on such date, divided by the closing price of a share of common stock on such date. The restricted share units may not be sold, transferred, pledged, assigned or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Mr. Roberts will have no voting rights or right to transfer the restricted share units or the underlying shares until shares of common stock are vested and issued to him.

On February 22, 2007, the Executive Compensation Committee also determined the 2007 annual bonus and restricted share formulas for the Company's executive officers. Bonus amounts will be based on the percentage growth in adjusted economic profit generated by the Company in 2007 as compared to 2006. The Company defines adjusted economic profit as the amount of net operating profit after-tax (net income plus the after-tax cost of interest adjusted for non-recurring items and certain non-gaap adjustments as included in the Company's earnings releases and adjustments to reflect carrying costs of stock options) less a cost of capital. The cost of capital will be computed for both 2006 and 2007 based upon the average amount of capital invested (average debt plus average shareholders equity) multiplied by 6.5%. The Company decided to use 6.5% as the cost of capital for the other executive officers to remove the impact of changes in leverage. For each executive officer, the cash portion of the bonus will be computed based upon the following formula: $(\text{the percentage change in adjusted economic profit}) \times (\text{a multiplier}) \times (\text{the executive officers base salary})$. The multiplier will be 7.5 for Mr. Jones and Mr. Knoblauch and 5.0 for Mr. Booth, the Chief Financial Officer. Restricted share grants will be equivalent to the cash portion of the variable compensation award, less an amount that considers the value of outstanding stock options. Mr. Roberts, the Chief Executive Officer, will not be eligible for a cash or restricted share grant incentive award due to his restricted share unit award agreement mentioned above.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, restricts the deductibility of executive compensation paid to the Company's Chief Executive Officer and any of the four other most highly compensated executive officers at the end of any fiscal year to not more than \$1 million in annual compensation (including gains from the exercise of certain stock option grants). Certain performance-based compensation is exempt from this limitation if it complies with the various conditions described in Section 162(m). The Incentive Plan has been

structured to cause compensation paid under the Incentive Plan to comply with these conditions and be exempt from the Section 162(m) restriction on deductibility.

It is possible that other components of the Company's compensation program may result in payments to executive officers that would be subject to the restriction on deductibility. However, the Executive Compensation Committee believes that it may be appropriate from time to time to exceed the limitations on deductibility under

Table of Contents

Section 162(m) to ensure that executive officers are compensated in a manner that it believes to be consistent with the best interests of the Company and its shareholders, and reserves the authority to approve non-deductible compensation in appropriate circumstances. The Executive Compensation Committee does not expect the nondeductible amount of executive compensation to be material to the Company. As a result, the Executive Compensation Committee has concluded that no further action with respect to qualifying such compensation for deductibility is necessary at this time. The Executive Compensation Committee intends to evaluate from time to time the advisability of qualifying future executive compensation programs for exemption from the Section 162(m) restriction on deductibility. Because of ambiguities and uncertainties as to the application and interpretation of Section 162(m), no assurance can be given that compensation intended by the Executive Compensation Committee to satisfy the requirements for deductibility under Section 162(m) will in fact be deductible.

Executive Compensation Committee Report

The Executive Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis above with management and, based on such review and discussions, the Executive Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

CERTAIN RELATIONSHIPS AND TRANSACTIONS

In the normal course of business, the Company has maintained business relationships and engaged in certain transactions with companies owned by Donald Foss, the Company's majority shareholder and Chairman and a member of Mr. Foss' immediate family (the Foss Companies), and with certain automotive dealerships owned by Keith McCluskey, the Company's former President (the McCluskey Dealerships). Mr. McCluskey resigned from the Company effective September 1, 2006.

Contract Assignments

In the normal course of its business, the Company makes dealer loans to the Foss Companies, which totaled approximately \$17.9 million at December 31, 2006. The total amount of cash advanced for the year ended December 31, 2006 was \$13.8 million. The Company makes dealer loans to the Foss Companies and non-affiliated dealer-partners on the same basis.

In the normal course of its business, the Company makes dealer loans to the McCluskey Dealerships, which totaled approximately \$4.5 million at December 31, 2006. The total amount of cash advanced for the year ended December 31, 2006 was \$4.0 million. The Company makes Dealer Loans to the McCluskey Dealerships and non-affiliated dealer-partners on the same basis.

Indebtedness

Pursuant to an employment agreement with the Company's former President dated April 19, 2001, the Company loaned the McCluskey Dealerships approximately \$850,000. Obligations under this note, including all principal and interest, were paid in full on August 16, 2006. In addition, pursuant to the employment agreement, the Company loaned Mr. McCluskey \$478,000. The note, including all principal and interest, is due on April 19, 2011, bears interest at 5.22% beginning January 1, 2002, and is unsecured. The balance of the note including accrued interest was approximately \$610,575 as of March 31, 2007 (which was the largest amount outstanding since January 1, 2006). \$25,291 of interest accrued on the note during 2006, which was added to the outstanding principal amount owed.

Other

The Company paid for air transportation services provided by a company owned by the Company's majority shareholder and Chairman totaling \$0.1 million for the year ended December 31, 2006.

Beginning in 2000, the Company offered a line of credit arrangement to certain dealerships who were not participating in the Company's core program. The Company ceased offering this program to new dealerships in the third quarter of 2001 and has been reducing the amount of capital invested in this program since that time. Beginning in 2002, entities owned by the Company's majority shareholder and Chairman began offering secured lines of credit to third parties in a manner similar to the Company's prior program. In December of 2004, the Company's majority shareholder and Chairman sold his ownership interest in these entities but he continues to have indirect control over these entities and has the right or obligation to reacquire the entities under certain circumstances until December 31, 2014 or the repayment of the related purchase money note.

In accordance with its written charter, the Audit Committee reviews and approves all of the Company's transactions with directors and executive officers of the Company and with firms that employ directors, as well as any other material related party transactions. Any such transaction would be reviewed by the Committee in light of whether it resulted in a conflict of interest for the individual and whether such transaction is fair to and in the best interest of the

Company. The terms of the transactions described above under Contract Assignments were previously approved by the Audit Committee; therefore, the Committee does not intend to re-approve these transactions and relationships unless they no longer occur in the ordinary course of the Company's business and the terms change such that the transactions no longer occur on the same terms as transactions with non-affiliated dealers.

INDEPENDENT ACCOUNTANTS

General

The Audit Committee has appointed Grant Thornton LLP (Grant Thornton) as the Company s independent accountants to perform an integrated audit of the consolidated financial statements of the Company and the effectiveness of the Company s internal controls over financial reporting for 2007. Grant Thornton has served as the Company s independent accountants since their appointment by the Audit Committee on July 20, 2005, and acted as the Company s independent accountant in 2006 to audit the financial statements included in the Company s Annual Report on Form 10-K for the year ended December 31, 2006. Representatives of Grant Thornton will be present at the meeting to respond to questions from the shareholders and will be given the opportunity to make a statement.

Change in Independent Accountants

On June 24, 2005, the Audit Committee dismissed Deloitte & Touche LLP (Deloitte) as its independent registered public accounting firm, and on July 21, 2005 engaged Grant Thornton as its new independent registered public accounting firm to audit the Company s financial statements for the year ended December 31, 2005.

Deloitte did not issue an opinion with respect to the Company s financial statements for the year ended December 31, 2004. The audit report of Deloitte on the consolidated financial statements of the Company for the year ended December 31, 2003 did not contain an adverse opinion or a disclaimer of opinion, nor was it qualified or modified as to uncertainty, audit scope, or accounting principles.

During 2003 and 2004 and the subsequent interim period through the date of Deloitte s dismissal, there were no disagreements with Deloitte on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement(s), if not resolved to the satisfaction of Deloitte, would have caused Deloitte to make reference to the subject matter of the disagreement(s) in connection with its reports on the Company s financial statements for such years, except as described in the following two paragraphs:

On April 8, 2005, Deloitte informed the Company that it believed the Company should not account for loans as an originator of loans to consumers (Consumer Loans) but should instead account for its loans as a lender to its dealer-partners (Dealer Loans). The Company did not believe that there was only a single proper interpretation of GAAP for the Company s core business model given its unique characteristics, and accordingly, believed that both the Company s current methodology and Deloitte s proposed methodology were acceptable under GAAP. The Company had historically accounted for Consumer Loans as a loan originator.

On April 26, 2005, the Company submitted a letter to the staff of the Office of the Chief Accountant of the Securities and Exchange Commission requesting guidance from the SEC related to the proper accounting methodology for the Company s loan portfolio. On June 24, 2005, the Company received a response from the SEC to its request. The SEC informed the Company that it saw no reason to disagree with the position taken by Deloitte with respect to the proper method for recording automobile loans. In view of Deloitte s and the SEC s positions, the Company agreed to change its method for recording such loans and, as a result, was required to restate its previously reported financial results. The Audit Committee discussed the subject matter of the disagreement with Deloitte, and the Company authorized Deloitte to respond fully to the inquiries of the Company s successor auditors concerning this disagreement.

During 2003 and 2004 and the subsequent interim period through the date of Deloitte s dismissal, there were no reportable events, as defined in Item 304(a)(1)(v) of Regulation S-K, except as noted in the following paragraph:

During the course of the Company's 2004 year-end closing process, the Company identified errors in its accounting for income taxes in prior periods related primarily to its foreign subsidiaries. As a result of these errors, the Company concluded that a deficiency in internal controls related to income taxes existed at December 31, 2004, and that such deficiency constituted a material weakness, as defined by the Public Company Accounting Oversight Board's Auditing Standard No. 2. As a result of the material weakness related to income taxes, management was unable to conclude that the Company's internal controls over financial reporting were effective as of December 31, 2004. As a result of these errors, Deloitte advised the Company and the Audit Committee that it believed that the

Table of Contents

Company's financial statements for the year ended December 31, 2003 should be restated. Deloitte also communicated to the Audit Committee of the Board of Directors that it believed these errors were a result of a material weakness in internal control over accounting for income taxes. The Company concurred with Deloitte's conclusions.

The Company provided Deloitte with a copy of the foregoing disclosures. The Company requested that Deloitte furnish it with a letter addressed to the SEC stating whether or not it agrees with the above statements and if not, the respects in which it does not agree. Deloitte has provided such a letter.

During the years ended December 31, 2003, and December 31, 2004, and through July 20, 2005, neither the Company nor anyone acting on its behalf consulted with Grant Thornton regarding either: (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the Company's financial statements; or (ii) any matter that was either the subject of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a reportable event (as described in Item 304(a)(1)(v) of Regulation S-K). During 2003, prior to becoming the Company's independent accountants, the Company discussed a draft response to a routine SEC comment letter with Grant Thornton. The Company was charged approximately \$1,000 for the discussions with Grant Thornton.

Fees Paid to Independent Accountants

The following table provides a summary of the aggregate fees billed by Grant Thornton for 2006 and 2005 (in thousands):

	2006	2005
Audit fees(1)	\$ 627	\$ 653
Audit-related fees(2)	111	
Tax fees		
All other fees		
Total fees	\$ 738	\$ 653

- (1) Includes fees for the audit of the Company's annual consolidated financial statements, the audit of the effectiveness of the Company's internal controls over financial reporting, the attestation of management's report on the effectiveness of internal controls over financial reporting, and the review of the Company's interim consolidated financial statements.
- (2) Includes fees for the audit of the Company's employee benefit plan, agreed-upon procedures for the Company's debt securitizations, assistance with the Company's implementation of FIN 48, and assistance with the Company's response to a comment letter received from the Securities and Exchange Commission.

The Audit Committee has considered whether the provision of these services is compatible with maintaining the independence of Grant Thornton and satisfied itself as to the maintenance of the auditors' independence.

Policy for Pre-Approval of Audit and Non-Audit Services

The Audit Committee's policy is to pre-approve all audit services and all non-audit services that the Company's independent accountants are permitted to perform for the Company under applicable federal securities regulations. The Audit Committee's policy utilizes an annual review and general pre-approval of certain categories of specified services that may be provided by the independent accountants, up to predetermined fee levels. Any proposed services not qualifying as a pre-approved specified service, and pre-approved services exceeding the predetermined fee levels, require further specific pre-approval by the Audit Committee. The Audit Committee has delegated to the Chairman of the Audit Committee the authority to pre-approve audit and non-audit services proposed to be performed by the independent accountants. Since May 6, 2003, all services provided by the Company's independent auditors were pre-approved by the Audit Committee. The policy has not been waived in any instance.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 (the Exchange Act) requires the Company s officers and directors, and persons who own more than 10% of a registered class of the Company s equity securities, to file reports of ownership and changes in ownership with the SEC. Officers, directors and greater than 10% shareholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file. Based solely on its review of the copies of such forms received since January 1, 2006, and written representations from certain reporting persons, the Company believes that all filing requirements applicable to its officers, directors, and greater than 10% beneficial owners were complied with except for late filings previously disclosed and that Messrs. McCluskey and Craig each filed late one Form 4 reporting one transaction.
