### NATCO GROUP INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

##### (1) BASIS OF PRESENTATION

The accompanying condensed consolidated interim financial statements and related disclosures are unaudited and have been prepared by NATCO Group Inc., ("the Company") pursuant to generally accepted accounting principles for interim financial statements and the rules and regulations of the Securities and Exchange Commission. As permitted by these regulations, certain information and footnote disclosures that would typically be required in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. However, the Company's management believes that these statements reflect all the normal recurring adjustments necessary for a fair presentation, in all material respects, of the results of operations for the periods presented, so that these interim financial statements are not misleading. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Form 10-K filing for the year ended December 31, 2000.

To prepare financial statements in accordance with generally accepted accounting principles, the Company's management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses incurred during the reporting period. Actual results could differ from those estimates. Furthermore, certain reclassifications have been made to fiscal year 2000 amounts in order to present these results on a comparable basis with amounts for fiscal year 2001.

References to "NATCO" and "the Company" are used throughout this document and relate collectively to NATCO Group Inc. and its consolidated subsidiaries.

##### (2) CAPITAL STOCK

On February 1, 2001, NATCO issued 8,520 shares of Class B Common Stock to the former shareholders of The Cynara Company ("Cynara"), in connection with the achievement of certain performance criteria defined in the November 1998 purchase agreement. Goodwill was increased \$85,000 as a result of this transaction.

##### (3) EARNINGS PER SHARE

Basic earnings per share was computed by dividing net income by the weighted average number of shares outstanding for the period. Diluted earnings per common and common equivalent share was computed by dividing net income by the weighted average number of common and common equivalent shares outstanding for the period. For purposes of this calculation, outstanding employee stock options were considered common stock equivalents. Included in diluted shares were common stock equivalents related to employee stock options of 295,276 shares for the quarter ended March 31, 2001, and 697,912 for the quarter ended March 31, 2000. Anti-dilutive stock options were excluded from the calculation of common stock equivalents. The impact of these anti-dilutive shares would have been a reduction of 10,731 shares for the quarter ended

## Edgar Filing: NATCO GROUP INC - Form 10-Q

March 31, 2001. There were no anti-dilutive stock options for the quarter ended March 31, 2000.

### (4) ACQUISITIONS

On March 19, 2001, the Company acquired all the outstanding share capital of Axsia Group Limited ("Axsia"), a privately held company based in the United Kingdom, for approximately \$42.8 million, net of cash acquired. Axsia specializes in the design and supply of water reinjection systems for oil and gas fields, oily water treatment, oil separation, hydrogen production and other process equipment systems. This acquisition was financed with borrowings under NATCO's term loan facility, and was accounted for using the purchase method of accounting. Results of operations for Axsia have been included in NATCO's condensed consolidated financial statements since the date of acquisition. The excess of the purchase price over the fair values of the net assets acquired is being amortized over a twenty-year period. Goodwill and accumulated amortization related to the Axsia acquisition were \$48.1 million and \$75,000, respectively, at March 31, 2001. Although the Axsia purchase price allocation has not yet been finalized, NATCO's management does not believe that the final purchase price allocation will differ materially from that as of March 31, 2001.

6

7

Assuming the Axsia acquisition occurred on January 1, of the respective year, the unaudited pro forma results of the Company for the three-month periods ended March 31, 2001 and 2000, would have been as follows:

	Pro Forma Results Three Months Ended	
	March 31, 2001	March 31, 2000
	(unaudited)	
	(in thousands, except per share data)	
Revenues	\$77,857	\$61,497
Income (loss) before income taxes	12	(2,538)
Net loss	(242)	(2,076)
Net loss per share:		
Basic	\$ (0.02)	\$ (0.16)
Diluted	\$ (0.02)	\$ (0.15)

These pro forma results assume debt service costs associated with the Axsia acquisition, net of tax effect, calculated at the Company's effective tax rate for the applicable period, and nondeductible goodwill amortization. Although prepared on a basis consistent with NATCO's condensed consolidated financial statements, these pro forma results do not purport to be indicative of the actual results which would have been achieved had the acquisition been consummated on January 1, for the respective periods, and are not intended to be a projection of future results.

## Edgar Filing: NATCO GROUP INC - Form 10-Q

### (5) UNUSUAL CHARGES

Pursuant to an employment agreement, an executive officer was entitled to a bonus upon the occurrence of any sale or public offering of the Company. The bonus equaled one and one-half percent (1.5%) of the value of all securities owned by stockholders of the Company prior to the sale or offering, including common stock valued at the price per share received in either the sale or public offering, and any debt held by such stockholders. In July 1999, the Company amended the employment agreement to eliminate the bonus and agreed to lend the officer \$1.2 million to purchase 136,832 shares of common stock. Per the agreement, the officer would receive a bonus equal to the outstanding principal and interest of the note upon the sale or public offering of the Company. During February 2000, after the Company completed an initial public offering of its Class A common stock, NATCO recorded expense of \$1.3 million in settlement of its obligation under this agreement. The officer used the proceeds, net of tax, to repay the Company approximately \$665,000. The outstanding balance of this note, including accrued interest, at March 31, 2001, was approximately \$625,000. The loan accrues interest at 6% annually.

During the first quarter of 2000, NATCO incurred relocation charges of approximately \$208,000 associated with the consolidation of an existing Company facility with a facility that was acquired in connection with the acquisition of Porta-Test International, Inc. ("Porta-Test").

### (6) INVENTORIES

Inventories consisted of the following amounts:

	March 31, 2001	December 31, 2000
	-----	-----
	(unaudited)	
	(in thousands)	
Finished goods	\$ 7,449	\$ 7,641
Work-in-process	15,450	10,403
Raw materials and supplies	14,092	11,203
	-----	-----
Inventories at FIFO	36,991	29,247
Excess of FIFO over LIFO cost	(575)	(570)
	-----	-----
	\$36,416	\$28,677
	=====	=====

### (7) COSTS AND ESTIMATED EARNINGS ON UNCOMPLETED CONTRACTS

Cost and estimated earnings on uncompleted contracts were as follows:

Edgar Filing: NATCO GROUP INC - Form 10-Q

	March 31, 2001	December 31, 2000
	-----	-----
	(unaudited)	
	(in thousands)	
Cost incurred on uncompleted contracts	\$128,731	\$ 67,477
Estimated earnings	48,986	34,475
	-----	-----
Less billings to date	177,717	101,952
	147,673	91,301
	-----	-----
Included in the accompanying balance sheet under the caption:		
Trade accounts receivable	\$ 30,044	\$ 10,651
	=====	=====

(8) SHORT-TERM DEBT

In conjunction with the purchase of Porta-Test in January 2000, the Company issued a one-year promissory note for \$1 million denominated in Canadian dollars, which accrued interest at 15% per annum. On January 24, 2001, the note was repaid along with accrued interest.

During February 2000, the Company issued a one-year promissory note for \$338,000, with interest payable per annum at 10%, in conjunction with the acquisition of Modular Production Equipment, Inc. ("MPE"). In February 2001, the Company paid \$206,000 as principal and interest. The remaining balance of the obligation was charged as a purchase adjustment as permitted by the MPE purchase agreement.

(9) LONG-TERM DEBT

The consolidated borrowings of the Company were as follows:

	March 31, 2001	December 31, 2000
	-----	-----
	(unaudited)	
	(in thousands)	
BANK DEBT		
Term loan with variable interest rate (7.23% at March 31, 2001) and quarterly payments of principal (\$1,750) and interest, due March 16, 2006	\$50,000	\$ --
Revolving credit bank loans with variable interest rate (8.58% at December 31, 2000) and quarterly payment of interest, due November 30, 2001	--	14,959
Revolving credit bank loans with variable interest rate (7.93% at March 31, 2001) and quarterly payment of interest, due March 15, 2004	6,881	--
Less current installments	(7,000)	--
	-----	-----
Long-term debt	\$49,881	\$14,959
	=====	=====

## Edgar Filing: NATCO GROUP INC - Form 10-Q

On March 16, 2001, the Company entered into a new credit facility that consisted of a \$50.0 million term loan, a \$35.0 million U.S. revolving facility, a \$10.0 million Canadian revolving facility and a \$5.0 million U.K. revolving facility. The term loan matures on March 15, 2006, and each of the revolving facilities matures on March 15, 2004.

Amounts borrowed under the term loan currently bear interest at a rate of 7.23% per annum. Amounts borrowed under the revolving portion of the facility bear interest as follows:

- o until April 1, 2002, at a rate equal to, at the Company's election, either (1) LIBOR plus 2.25% or (2) a base rate plus 0.75%; and
- o on and after April 1, 2002, at a rate based upon the ratio of funded debt to EBITDA and ranging from, at the Company's election, (1) a high of LIBOR plus 2.50% to a low of LIBOR plus 1.75% or, (2) a high of a base rate plus 1.0% to a low of a base rate plus 0.25%.

NATCO will pay commitment fees of 0.50% per year until April 1, 2002 and 0.30% to 0.50% per year, depending upon the ratio of funded debt to EBITDA, on and after April 1, 2002, in each case on the undrawn portion of the facility.

The revolving credit facility is guaranteed by all the Company's domestic subsidiaries and is secured by a first priority lien on all inventory, accounts receivable and other material tangible and intangible assets. NATCO has also pledged 65% of the voting stock of its active foreign subsidiaries.

8

9

Borrowings of \$50.0 million under the term loan were used primarily for the acquisition of Axsia. The remaining borrowings, along with additional borrowings under the revolving credit facility, were used to repay \$16.5 million outstanding under a predecessor revolving credit and term loan facility.

The Company maintains a working capital facility for export sales that provides for aggregate borrowings of \$10.0 million, subject to borrowing base limitations, of which no borrowings were outstanding as of March 31, 2001. The Company had issued letters of credit under this facility that totaled \$7.2 million as of March 31, 2001. The export sales credit facility is secured by specific project inventory and receivables, and is partially guaranteed by the EXIM Bank. The export sales credit facility loans mature in July 2003.

As of March 31, 2001, the Company was in compliance with all restrictive debt covenants. NATCO had letters of credit outstanding under the revolving credit facilities totaling \$15.2 million at March 31, 2001. These letters of credit constitute contract performance and warranty collateral and expire at various dates through December 2002.

### (10) INCOME TAXES

NATCO's effective income tax rate for the quarter ended March 31, 2001 was 41.3%, which exceeded the amount that would have resulted from applying the U.S. federal statutory tax rate, and was due primarily to non-deductible goodwill amortization expense of \$526,000. A tax benefit of \$159,000 associated with the exercise of employee stock options was allocated to equity during the quarter ended March 31, 2001.

### (11) INDUSTRY SEGMENTS

## Edgar Filing: NATCO GROUP INC - Form 10-Q

The accounting policies of the reportable segments were consistent with the policies used to prepare the Company's condensed consolidated financial statements for the respective periods presented. The Company evaluates the performance of its operating segments based on income before net interest expense, income taxes, depreciation and amortization expense, accounting changes, and nonrecurring items.

In the first quarter of 2001, the Company changed the presentation of its reportable segments by combining the traditional production equipment and services business segment with the NATCO Canada business segment, to form the North American Operations business segment. This change has been retroactively reflected in all periods presented.

In July 2000, the Company changed its presentation of certain assets acquired from Cynara in November 1998, and the related operating results, for segment reporting purposes. The majority of the assets were reclassified to the North American operations business segment from the engineered systems business segment. This change has been retroactively reflected in all periods presented.

Summarized financial information concerning the Company's reportable segments is shown in the following table.

	NORTH AMERICAN OPERATIONS -----	ENGINEERED SYSTEMS -----	AUTOMATION & CONTROL SYSTEMS -----
			(unaudited, in thousands)
THREE MONTHS ENDED			
MARCH 31, 2001			
Revenues from unaffiliated customers	\$33,191	\$17,957	\$11,762

Total assets	66,604	29,681	17,869
Capital expenditures	576	1,136	91
Depreciation and amortization	842	216	136

### (12) DERIVATIVE ARRANGEMENTS

As of March 31, 2001, the Company was party to several foreign currency derivative arrangements as a result of the acquisition of Axsia on March 19, 2001. Specifically, the Company held foreign currency forward contracts used as a hedge against fluctuations in foreign currency exchange rates. In accordance

## Edgar Filing: NATCO GROUP INC - Form 10-Q

with Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities", the Company's policy is to record these contracts on the balance sheet at fair market value and to record any changes in fair value as charges to income in the current period. The Company had no derivative financial instruments as of January 1, 2001.

The objective of these derivative arrangements is to absorb the impact of possible exchange rate changes for Axsia projects that were required to settle in a currency other than British pounds sterling. Under these derivative arrangements, the Company agreed to purchase or sell British pounds sterling at a contractual strike price in exchange for a specified amount of the local currency. For example, when a customer remits local currency in settlement of a receivable balance, NATCO sells the local currency and buys pounds sterling at the specified strike price. Based upon the current exchange rate, a gain or loss is recorded on the underlying asset and is offset by a gain or loss on the derivative forward contract. Similarly, the Company purchases units of the local currency in order to settle commitments with its vendors. Based upon the current exchange rate, a gain or loss on the underlying liability is recorded, as well as an offsetting gain or loss on the derivative forward contract. The nature of these derivative arrangements provides a hedge to mitigate exchange rate exposure.

The following table summarizes the Company's commitments to purchase or sell British pounds sterling under derivative forward contracts as of March 31, 2001:

CONTRACT TYPE	DATES	LOCAL CURRENCY	LOCAL CURRENCY AMOUNT	STRIKE PRICE RANGE
Buy	4/1/2001 to 5/31/2001	Euros	1,568,000	1.5588 to
Buy	4/1/2001 to 4/30/2001	US dollars	2,790,000	1.4690 to
Sell	4/1/2001 to 1/31/2002	Euros	2,158,564	1.5623 to
Sell	4/1/2001 to 2/28/2002	US dollars	57,293,286	1.4706 to
Sell	5/1/2001 to 9/30/2001	Kuwaiti dinars	153,000	

At March 31, 2001, the Company confirmed the fair market value of its forward contracts with the counter-party financial institutions. The Company intends to fulfill these foreign currency contract commitments that extend through February 2002. NATCO does not currently intend to enter into new derivative arrangements as part of its risk management strategy.

### (13) COMMITMENTS AND CONTINGENCIES

The Porta-Test purchase agreement, executed in January 2000, contains a provision to calculate a payment to certain former stockholders of Porta-Test Systems, Inc. for a three-year period ended January 24, 2003, based upon sales of a limited number of specified products designed by or utilizing technology that existed at the time of the acquisition. Liability under this arrangement is contingent upon attaining certain performance criteria, including gross margins and sales volumes for the specified products. The payment is made annually on the anniversary date of the acquisition. As of March 31, 2001, the Company had accrued approximately \$240,000 related to its obligation under this arrangement with a corresponding increase in goodwill. Any future liabilities incurred under this arrangement will also result in an increase in goodwill.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

## FORWARD-LOOKING STATEMENTS

Management's Discussion and Analysis includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (each a "Forward-Looking Statement"). The words "believe," "expect," "plan," "intend," "estimate," "project," "will," "could," "may" and similar expressions are intended to identify Forward-Looking Statements. Forward-Looking Statements in this document include, but are not limited to, discussions regarding indicated trends in the level of oil and gas exploration and production and the effect of such conditions on the Company's results of operations (see "--Industry and Business Environment"), future uses of and requirements for financial resources (see "--Liquidity and Capital Resources"), and anticipated backlog levels for 2001 (see "--Liquidity and Capital Resources"). The Company's expectations about its business outlook, customer spending, oil and gas prices and the business environment for the Company and the industry in general are only its expectations regarding these matters. No assurance can be given that actual results may not differ materially from those in the Forward-Looking Statements herein for reasons including, but not limited to: market factors such as pricing and demand for petroleum related products, the level of petroleum industry exploration and production expenditures, the effects of competition, world economic conditions, the level of drilling activity, the legislative environment in the United States and other countries, policies of the Organization of Petroleum Exporting Countries, conflict in major petroleum producing or consuming regions, the development of technology which could lower overall finding and development costs, weather patterns and the overall condition of capital and equity markets for countries in which the Company operates.

The following discussion should be read in conjunction with the financial statements, related notes and other financial information appearing elsewhere in this Form 10-Q. Readers are also urged to carefully review and consider the various disclosures advising interested parties of the factors that affect the Company, including without limitation, the disclosures made under the caption "Risk Factors" and the other factors and risks discussed in the Company's Registration Statement on Form S-1/A and subsequent reports filed with the Securities and Exchange Commission. The Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any Forward-Looking Statement to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any Forward-Looking Statement is based.

## OVERVIEW

References to "NATCO" and "the Company" are used throughout this document and relate collectively to NATCO Group Inc. and its consolidated subsidiaries.

NATCO's operations are organized into three separate business segments: North American operations, a segment which primarily provides standardized components, replacement parts and used components and equipment servicing; engineered systems, a segment which primarily provides customized, large scale integrated oil and gas production systems; and automation and control systems, a segment which provides control panels and systems that monitor and control oil and gas production.

## Edgar Filing: NATCO GROUP INC - Form 10-Q

NATCO recognizes revenues from significant contracts (contracts greater than \$250,000 and longer than four months in duration) and all automation and control systems contracts and orders on the percentage of completion method. The Company records revenues and profits on other sales as shipments are made. Earned revenue is based on the percentage that costs incurred to date bear to total estimated costs. If estimated total costs on any contract or work-in-process indicate a loss, the Company recognizes the entire loss immediately. NATCO generally recognizes revenue and earnings to which the percentage of completion method applies over a period of two to six quarters. Customers typically retain an interest in uncompleted projects.

### ACQUISITIONS

On March 19, 2001, the Company acquired all the outstanding share capital of Axsia Group Limited ("Axsia"), a privately held company based in the United Kingdom, for approximately \$42.8 million, net of cash acquired. Axsia specializes in the design and supply of water reinjection systems for oil and gas fields, oily water treatment, oil separation, hydrogen production and other process equipment systems. This acquisition was financed with borrowings under NATCO's term loan facility, and was accounted for using the purchase method of accounting. Results of operations for Axsia have been included in NATCO's condensed consolidated financial statements since the date of acquisition. The excess of the purchase price over the fair values of the net assets acquired is being amortized over a twenty-year period. Goodwill and accumulated amortization related to the Axsia acquisition were \$48.1 million and \$75,000, respectively, at March 31, 2001. The purchase price allocation has not yet been finalized, but NATCO's management does not believe that the final purchase price allocation will differ materially from that as of March 31, 2001.

11

12

### INDUSTRY AND BUSINESS ENVIRONMENT

NATCO is a leading provider of equipment, systems and services used in the production of crude oil and natural gas, primarily at the wellhead, to separate oil and gas within a production stream and to remove contaminants. The Company's products and services are used in onshore and offshore fields in most major oil and gas producing regions of the world. Separation and decontamination of a production stream is needed at almost every producing well in order to meet the specifications of transporters and end users.

One indicator of capital spending in the oil and gas industry is commodity prices. Energy prices were low in 1998 and 1999 and began to rise steadily in mid-year as production cuts by OPEC and other oil producing countries reduced excess inventory levels. Energy prices remained high until the spring of 2000 when these same producers elected to increase production to bring energy prices down to more sustainable levels. The average price of oil per barrel during 2000, using the West Texas Intermediate spot price, was approximately \$30, and the average natural gas price per MMBtu during 2000, using the NYMEX Henry Hub price, was approximately \$4 per MMBtu. The spot price of these commodities as of March 31, 2001 was approximately \$27 per barrel of oil and \$5 per MMBtu of natural gas.

Another indicator of capital spending in the oil and gas industry is the number of operating rigs in the U.S. and Canada, which has increased from 1,019 at March 31, 2000 to 1,519 at March 31, 2001, as published by Baker Hughes.

The increase in oil prices has had a positive effect on the Company's overall sales in 2000 and 2001. The recent price and rig count improvements have

## Edgar Filing: NATCO GROUP INC - Form 10-Q

contributed to improved overall industry conditions and should also cause NATCO's customers to continue to increase their exploration and development efforts. Although energy price and rig count increases are indicators that additional oil and gas production may occur throughout 2001, there can be no assurance that overall production will increase, that an increase in production trends will continue through 2001 or that such an increase in production would result in an increase in revenues for the Company.

The following discussion of NATCO's historical results of operations and financial condition should be read in conjunction with the Company's condensed consolidated financial statements and notes thereto.

### RESULTS OF OPERATIONS

In the first quarter of 2001, the Company changed its presentation of its reportable segments by combining the traditional production equipment and services business segment with the NATCO Canada business segment, to form the North American operations business segment. This change has been retroactively reflected in all periods presented.

In July 2000, the Company changed its presentation of certain assets that were acquired from The Cynara Company ("Cynara") in November 1998, and the related operating results, for segment reporting purposes. The majority of the assets were reclassified to the North American operations business segment from the engineered systems business segment. This change has been retroactively reflected in all periods presented.

Three Months Ended March 31, 2001 Compared to Three Months Ended March 31, 2000

Revenues. Revenues of \$62.9 million for the three months ended March 31, 2001 increased \$11.1 million, or 21%, from \$51.9 million for the three months ended March 31, 2000. The following table summarizes revenues by business segment for the quarters ended March 31, 2001 and 2000, respectively.

	Three Months Ended March 31,		Change	Percentage Change
	2001	2000		
	-----			
				-----
	(unaudited)			
	(in thousands, except percentage change)			
North American Operations	\$34,601	\$27,623	\$ 6,978	25%
Engineered Systems	17,965	16,848	1,117	7%
Automation and Control Systems	12,807	9,645	3,162	33%
Corporate and Other	(2,463)	(2,261)	(202)	(9)%
	-----	-----	-----	
Total	\$62,910	\$51,855	\$11,055	21%
	-----	-----	-----	

North American operations revenues increased \$7.0 million, or 25%, for the quarter ended March 31, 2001, as compared to the quarter ended March 31, 2000, due to a continued increase in oilfield activity as a result of an overall increase in oil and gas prices,

Edgar Filing: NATCO GROUP INC - Form 10-Q

12

13

which began in 2000. The Company experienced increased demand for its production process equipment, domestic parts and services, export parts and services and CO2 membrane technology products. These increases in equipment sales were offset slightly by a decline in Canadian operations, as several large projects in process during the first quarter of 2000 were completed. Affiliated revenues for this business segment were constant at approximately \$1.4 million for the quarters ended March 31, 2001 and 2000.

Revenues for the engineered systems business segment increased \$1.1 million, or 7%, for the quarter ended March 31, 2001, as compared to the quarter ended March 31, 2000. This increase was primarily due to the acquisition of Axsia in March 2001, which provided revenues of \$3.9 million since the date of acquisition. This increase was partially offset due to a decline in revenues recognized under long-term engineering projects, including the Carigali-Triton Operating Company SDN BHD ("CTOC") contract, which provided \$10.0 million of revenue for the quarter ended March 31, 2000 as compared to \$8.4 million for the quarter ended March 31, 2001. Engineered systems revenues of \$18.0 million for the quarter ended March 31, 2001 included approximately \$8,000 of affiliated revenues. No affiliated revenues were included in the results of this business segment for the quarter ended March 31, 2000.

Revenues for the automation and control systems business segment increased \$3.2 million, or 33%, for the quarter ended March 31, 2001, as compared to the respective period in 2000. This increase in revenues was the result of higher demand for the Company's products and an increase in field services for both time and materials and quote job projects. Affiliated revenues of approximately \$1.0 million and \$892,000 were included in the results for the quarters ended March 31, 2001 and 2000, respectively.

The change in revenues for corporate and other represents the elimination of revenues of affiliates as discussed above.

Gross Profit. Gross profit for the quarter ended March 31, 2001 increased \$2.9 million, or 22%, to \$16.0 million, compared to \$13.1 million for the quarter ended March 31, 2000. As a percentage of revenue, gross margins remained constant at 25% for the three months ended March 31, 2001 and 2000. The following table summarizes gross profit by business segment for the quarters then ended:

	Three Months Ended March 31,			Percentage Change
	2001	2000	Change	
	(unaudited)			
	(in thousands, except percentage change)			
North American Operations	\$ 8,406	\$ 5,601	\$2,805	50%
Engineered Systems	5,186	5,798	(612)	(11)%
Automation and Control Systems	2,401	1,719	682	40%
	-----	-----	-----	
Total	\$15,993	\$13,118	\$2,875	22%
	-----	-----	-----	

## Edgar Filing: NATCO GROUP INC - Form 10-Q

Gross profit for the North American operations business segment increased \$2.8 million, or 50%, for the quarter ended March 31, 2001, as compared to the respective period in 2000. This increase in margin was due primarily to a 25% increase in revenues and favorable sales mix, including higher sales of domestic and export part and services and CO2 membrane operations products, which generally provide higher margins than standard production equipment. As a percentage of revenue, gross margins were 24% and 20% for the quarters ended March 31, 2001 and 2000, respectively.

Gross profit for the engineered systems business segment for the quarter ended March 31, 2001 decreased approximately \$612,000, or 11%, primarily due to a decline in large engineered systems projects, as compared to the quarter ended March 31, 2000. This decline was partially offset by the margin contribution of Axsia, which provided approximately \$689,000 since the date of acquisition. Gross margin for engineered systems represented 29% and 34% of the segment's revenues for the quarters ended March 31, 2001 and 2000, respectively.

Gross profit for the automation and control systems business segment increased \$682,000, or 40%, for the quarter ended March 31, 2001, as compared to the quarter ended March 31, 2000. This increase was directly related to a 33% increase in revenues and more favorable margins earned on quote job projects due to higher demand for services. Gross margin as a percentage of revenue for the quarters ended March 31, 2001 and 2000, was 19% and 18%, respectively.

Selling, General and Administrative Expense. Selling, general and administrative expense of \$11.1 million increased \$1.6 million, or 17%, for the quarter ended March 31, 2001, as compared to the respective period in 2000. This increase was largely related to the execution of NATCO's business plan and included: (1) results of operations for Porta-Test, MPE, Engineering Specialties Inc. ("ESI"), and Axsia, as applicable, based upon the timing of the acquisitions, as 2001 results include a full three-months of activity for the 2000 acquisitions and Axsia activity since inception, March 19, 2001, (2) increased spending for technology and product development, and (3) continued investment in pre-order engineering expenses.

13

14

Depreciation and Amortization Expense. Depreciation and amortization expense of \$1.6 million for the quarter ended March 31, 2001, increased \$323,000, or 25%, compared to \$1.3 million for the quarter ended March 31, 2000. Depreciation expense of \$972,000 for the quarter ended March 31, 2001, increased \$54,000, or 6%, as compared to the respective period for 2000. This increase was primarily due to capital expenditures in 2000 of approximately \$8.1 million, which included a significant upgrade to the manufacturing facility in Pittsburg, California, completed in the fourth quarter of 2000. This increase was partially offset by a change in accounting estimate in the second quarter of 2000 to extend the service life of certain operational assets. Amortization expense of \$631,000 for the quarter ended March 31, 2001, increased \$269,000, or 74%, as compared to \$362,000 for the quarter ended March 31, 2000. This increase was primarily due to amortization of goodwill associated with the Porta-Test, MPE and ESI acquisitions that were purchased in January, February and April of 2000, respectively. In addition, the acquisition of Axsia in March 2001 provided amortization expense of approximately \$75,000. Also, amortization expense increased due to an increase in goodwill related to the acquisition of The Cynara Company ("Cynara") in November 1998. Pursuant to the Cynara purchase agreement, NATCO issued 8,520 shares and 418,145 shares of the Company's Class B common stock during February 2001 and June 2000, respectively, to Cynara's former shareholders based upon the achievement of certain performance criteria, and the cost of such shares was charged to goodwill.

## Edgar Filing: NATCO GROUP INC - Form 10-Q

Unusual Charges. Unusual charges for the quarter ended March 31, 2000 were \$1.5 million. This charge was primarily for compensation expense associated with the employment agreement of an executive officer. The terms of the agreement entitled the officer to a sum equal to an outstanding note and accrued interest, totaling \$1.2 million at December 31, 1999, upon the sale of the Company's Class A common stock in an initial public offering. NATCO completed its initial public offering on January 27, 2000, and, per the agreement, the Company recorded compensation expense for the amount of the note and accrued interest, including related payroll burdens, totaling \$1.3 million. In addition, the Company recorded relocation expenses totaling \$208,000 associated with the consolidation of an existing Company facility with a facility that was acquired with the acquisition of Porta-Test. No unusual charges were recorded for the quarter ended March 31, 2001.

Interest Expense. Interest expense was \$706,000 for the quarter ended March 31, 2001, as compared to \$336,000 for the respective period in 2000. This 110% increase in interest expense was due primarily to an increase in long-term debt under the new term loan and revolving credit facilities from \$2.3 million at March 31, 2000 to \$56.9 million at March 31, 2001. NATCO retired \$27.9 million of long-term debt under the Company's old term loan facility during February 2000 utilizing the proceeds from its initial public offering of the Company's Class A common stock. In March 2001, the Company borrowed \$50.0 million against its new term loan facility to acquire Axsia and to retire borrowings under its predecessor revolving credit facility.

Provision for Income Taxes. Income tax expense of \$968,000 for the quarter ended March 31, 2001, increased \$822,000 from \$146,000 for the quarter ended March 31, 2000. The primary reason for this increase in tax expense was an increase in income before income taxes, which was \$2.3 million for the quarter ended March 31, 2001, as compared to \$340,000 for the respective period in 2000. The effective tax rate declined from 42.8% in 2000 to 41.3% in 2001.

### LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2001, the Company had cash and working capital of \$3.7 million and \$34.6 million, respectively, as compared to cash and working capital of \$1.0 million and \$49.1 million, respectively, at December 31, 2000.

Net cash provided by operating activities for the quarter ended March 31, 2001 was \$12.0 million, compared to net cash used in operations of \$5.2 million for the quarter ended March 31, 2000. The increase in cash provided by operating activities during the three months ended March 31, 2001, was due to an increase in customer advance payments and other current liabilities and higher net income, partially offset by an increase in inventories.

Net cash used in investing activities for the quarter ended March 31, 2001 was \$49.2 million, of which \$48.1 was used to acquire Axsia and \$1.3 million was used for capital expenditures. For the quarter ended March 31, 2000, \$9.9 million was used for investing activities primarily to acquire Porta-Test and MPE and for capital expenditures.

Net cash provided by financing activities for the quarter ended March 31, 2001 was \$40.1 million, as compared to net cash provided by financing activities for the quarter ended March 31, 2000 of \$15.9 million. The primary source of funds for financing activities for the quarter ended March 31, 2001 was term loan borrowings of \$50.0 million, partially offset by net repayments under revolving and short-term debt facilities of \$8.8 million. The primary source of funds for financing activities during the quarter ended March 31, 2000 was the issuance of the Company's Class A common stock through an initial public offering and the exercise of an over-allotment option by NATCO's underwriters, which provided \$37.7 million and \$10.5 million, respectively. These proceeds were

15

used primarily to retire \$27.9 million of outstanding debt under a term loan arrangement, to repay \$3.0 million borrowed under the revolving credit agreement for the purchase of Porta-Test, and to repay \$2.9 million of debt assumed in the acquisitions of Porta-Test and MPE.

On March 16, 2001, the Company entered into a new credit facility that consisted of a \$50.0 million term loan, a \$35.0 million U.S. revolving facility, a \$10.0 million Canadian revolving facility and a \$5.0 million U.K. revolving facility. The term loan matures on March 15, 2006, and each of the revolving facilities matures on March 15, 2004.

Amounts borrowed under the term loan facility currently bear interest at 7.23% per annum. Amounts borrowed under revolving facility bear interest as follows:

- o until April 1, 2002, at a rate equal to, at the Company's election, either (1) LIBOR plus 2.25% or (2) a base rate plus 0.75%; and
- o on and after April 1, 2002, at a rate based upon the ratio of funded debt to EBITDA and ranging from, at the Company's election, (1) a high of LIBOR plus 2.50% to a low of LIBOR plus 1.75% or, (2) a high of a base rate plus 1.0% to a low of a base rate plus 0.25%.

As of March 31, 2001, the weighted average interest rate of the Company's borrowings under the revolving credit agreement was 7.93%.

NATCO will pay commitment fees of 0.50% per year until April 1, 2002 and 0.30% to 0.50% per year, depending upon the ratio of funded debt to EBITDA, on and after April 1, 2002, in each case on the undrawn portion of the facility.

The revolving credit facility is guaranteed by all the Company's domestic subsidiaries and is secured by a first priority lien on all inventory, accounts receivable and other material tangible and intangible assets. NATCO has also pledged 65% of the voting stock of its active foreign subsidiaries.

On March 19, 2001, NATCO borrowed \$50.0 million under term the loan portion of this new facility and used \$45.0 million to purchase all the outstanding share capital of Axsia. The remaining borrowings were used to repay \$16.5 million outstanding under a predecessor revolving credit and term loan facility. As of March 31, 2001, the Company had borrowings of \$50.0 million outstanding under the term loan facility.

As of March 31, 2001, the Company was in compliance with all restrictive debt covenants. NATCO had letters of credit outstanding under the revolving credit facilities totaling \$15.2 million at March 31, 2001. These letters of credit constitute contract performance and warranty collateral and expire at various dates through December 2002.

The Company maintains a working capital facility for export sales that provides for aggregate borrowings of \$10.0 million, subject to borrowing base limitations, of which no borrowings were outstanding as of March 31, 2001. The Company had issued letters of credit under this facility that totaled \$7.2 million as of March 31, 2001. The export sales credit facility is secured by specific project inventory and receivables, and is partially guaranteed by the EXIM Bank. The export sales credit facility loans mature in July 2003.

The Company's sales backlog at March 31, 2001 was \$88.8 million and included backlog of \$47.2 million related to Axsia, which was acquired on March

## Edgar Filing: NATCO GROUP INC - Form 10-Q

19, 2001. In addition, backlog at March 31, 2001 included \$4.1 million related to the CTOC project, which contributed \$48.4 million to backlog at March 31, 2000. Excluding the impact of the Axsia acquisition and the CTOC project, backlog at March 31, 2001 was \$37.5 million as compared to \$29.1 million at March 31, 2000. Management believes that the backlog will continue to improve throughout 2001 as additional engineered systems projects are awarded.

At March 31, 2001, borrowing base limitations reduced the Company's available borrowing capacity under the term loan and revolving credit agreement and export sales credit agreement to \$20.3 million and \$2.9 million, respectively. However, NATCO's management believes that the Company's operating cash flow, supported by its borrowing capacity, will be adequate to fund operations throughout 2001. Should the Company decide to pursue additional acquisition opportunities during the remainder of 2001, the determination of the Company's ability to finance these acquisitions will be a critical element of the analysis of the opportunities.

15

16

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's operations are conducted around the world in a number of different countries. Accordingly, future earnings are exposed to changes in foreign currency exchange rates when transactions are denominated in currencies other than the Company's functional currencies, the primary currencies in which the Company conducts its business in various jurisdictions. The majority of the Company's foreign currency transactions are denominated in the Canadian dollar and British pounds sterling, which are the functional currencies of NATCO Canada and Axsia, respectively. At NATCO Canada, contracts are generally denominated and settled in the functional currency, thereby mitigating risks associated with currency fluctuations. At Axsia, contracts may be denominated and settled in currencies other than the functional currency. The Company has entered into certain currency forward contract arrangements whereby the Company purchases foreign currencies at a specified strike price in order to hedge exposure to currency fluctuations on contracts denominated in currencies other than the functional currency. The Company's policy is to record these contracts and their underlying balance sheet accounts at fair market value and to record any changes in fair value as charges to income in the current period. The nature of these derivative arrangements is to offset any negative impact of changes in foreign currency exchange rates, as any gain or loss recorded on the underlying asset or liability would be offset by a contrasting gain or loss on the derivative asset or liability. As such, these contracts are an effective hedge to mitigate exchange rate exposure related to these transactions. At March 31, 2001, the Company obtained the fair market value of the forward contracts from the counter-party financial institutions. The Company intends to fulfill these contractual commitments. NATCO does not intend to enter into new derivative arrangements as part of its risk management strategy.

The Company's financial instruments are subject to change in interest rates, including its revolving credit and term loan facility and its working capital facility for export sales. At March 31, 2001, the Company had borrowings of \$50.0 million outstanding under the term loan portion of the revolving credit and term loan facility, at an interest rate of 7.23%. Borrowings, which bear interest at floating rates, outstanding under the revolving credit agreement at March 31, 2001, totaled \$6.9 million. As of March 31, 2001, the weighted average interest rate of the Company's borrowings under its revolving credit facility was 7.93%. There were no borrowings outstanding under the working capital facility for export sales at March 31, 2001.

## Edgar Filing: NATCO GROUP INC - Form 10-Q

Based on past market movements and possible near-term market movements, the Company's management does not believe that potential near-term losses in future earnings, fair values or cash flows from changes in interest rates are likely to be material. Assuming the Company's current level of borrowings, a 100 basis point increase in interest rates under its variable interest rate facilities would decrease the Company's current quarter net income and cash flow from operations by less than \$100,000. In the event of an adverse change in interest rates, the Company could take action to mitigate its exposure. However, due to the uncertainty of actions that could be taken and the possible effects, this calculation assumes no such actions. Furthermore, this calculation does not consider the effects of a possible change in the level of overall economic activity that could exist in such an environment.

16

17

### PART II

#### ITEM 1. LEGAL PROCEEDINGS

The Company is a party to various routine legal proceedings that are incidental to its business activities. The Company insures against the risk of these proceedings to the extent deemed prudent by its management, but the Company offers no assurance that the type or value of this insurance will meet the liabilities that may arise from any pending or future legal proceedings related to its business activities. The Company's management does not, however, believe the pending legal proceedings, individually or taken together, will have a material adverse effect on the Company's results of operations or financial condition.
