  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 2.02 Results of Operations and Financial Condition.**

On February 6, 2007, Nabors Industries Ltd. (the Company ) issued a press release announcing its preliminary results of operations for the three and twelve month periods ending December 31, 2006. A copy of that release is furnished herewith as Exhibit 99.1 in accordance with General Instruction B.2 to Form 8-K. As previously announced, the Company is conducting a voluntary further review of its historical stock option award practices. The results are preliminary and subject to change based upon the outcome of the review.

The press release furnished as an exhibit to this report includes forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. Such forward-looking statements are subject to certain risks and uncertainties, as disclosed by the Company from time to time in its filings with the Securities and Exchange Commission, including uncertainties associated with the outcome of the review of historical stock option award practices described above. As a result of these factors, the Company s actual results may differ materially from those indicated or implied by such forward-looking statements.

The Company also presented in the press release non-GAAP financial measures under Regulation G. The Company presented its adjusted income (loss) derived from operating activities for all periods presented in the release. The components of adjusted income (loss) derived from operating activities are computed by using amounts which are determined in accordance with accounting principles generally accepted in the United States of America ( GAAP ). Adjusted income (loss) derived from operating activities is computed by subtracting direct costs, general and administrative expenses, depreciation and amortization, and depletion expense from Operating revenues and then adding Earnings from unconsolidated affiliates. As part of our press release information we have provided a reconciliation of adjusted net income and adjusted income (loss) derived from operating activities to income before income taxes, which is its nearest comparable GAAP financial measure.

The Company included its adjusted income (loss) derived from operating activities in the release because management evaluates the performance of our business units and the consolidated company based on several criteria, including adjusted income (loss) derived from operating activities, and because it believes this financial measure is an accurate reflection of the ongoing profitability of the Company. The Company included the adjusted net income number because management believes the non-GAAP financial measure to be more indicative of the Company s on-going operating results and financial condition.
