Allied Capital Corporation
Notice of Annual Meeting of Stockholders

To the Stockholders:

The 2008 Annual Meeting of Stockholders of Allied Capital Corporation (the Company) will be held at the Westin Embassy Row Hotel, 2100 Massachusetts Avenue, NW, Washington, DC on April 25, 2008, at 10:00 a.m. (Eastern Time) for the following purposes:

1. To elect five directors of the Company who will serve for three years, or until their successors are elected and qualified;
2. To ratify the selection of KPMG LLP to serve as the independent registered public accounting firm for the Company for the year ending December 31, 2008;
3. To approve a proposal to authorize the Company, with approval of its Board of Directors, to sell shares of its common stock at prices below the Company's then current net asset value per share in one or more offerings; and
4. To transact such other business as may properly come before the meeting and any adjournments or postponements thereof.

You have the right to receive notice of and to vote at the meeting if you were a stockholder of record at the close of business on February 11, 2008. Whether or not you expect to be present in person at the Meeting, please sign the enclosed proxy and return it promptly in the envelope provided, or register your vote by telephone or through the Internet. Instructions are shown on the proxy card. In the event there are not sufficient votes for a quorum or to approve or ratify any of the foregoing proposals at the time of the Annual Meeting, the Annual Meeting may be adjourned in order to permit further solicitation of the proxies by the Company.

By order of the Board of Directors,

Miriam G. Krieger
Senior Vice President and
Corporate Secretary

Washington, DC
March 14, 2008

This is an important meeting. To ensure proper representation at the Meeting, please complete, sign, date and return the proxy card in the enclosed, self-addressed envelope, vote your shares by telephone, or vote via the Internet. Even if you vote your shares prior to the Meeting, you still may attend the Meeting and vote your shares in person.

THE IMPORTANCE OF VOTING YOUR SHARES PROMPTLY

Annually, we solicit your input on matters that are important to all stockholders, and we invest substantial resources preparing and mailing these materials, so that you may carefully consider the issues and cast a vote. **It is imperative that you vote your shares, no matter how many shares you own.**

Unlike many companies where the majority of the outstanding shares are held by institutional investors, Allied Capital has approximately 179,000 stockholders, approximately 66% of whom are retail investors who generally hold smaller numbers of shares than institutional investors. **As a result of these demographics, it is important that every stockholder cast a vote, so that we can achieve a quorum and hold the Annual Meeting of Stockholders.** If fewer than 50% of the outstanding shares vote their shares on the matters at hand, then the Company will be required to adjourn the meeting and incur additional expenses to continue to solicit additional votes.

For this reason, we have engaged a proxy solicitor, who may call you and ask you to vote your shares. **The proxy solicitor will not attempt to influence how you vote your shares, but only ask that you take the time to cast a vote.** You may also be asked if you would like to vote over the telephone and to have your vote transmitted to our proxy tabulation firm.

Whether you choose to vote on the telephone with our solicitor, over the Internet at www.proxyvote.com, via telephone at (800) 690-6903, or through the proxy card you received with these materials, we simply ask that you vote your shares today.

Please vote your shares today to avoid the risk of adjournment of the meeting and the incurrence of additional solicitation expenses.

Availability of Proxy and Annual Meeting Materials

This proxy statement and the accompanying annual report are also available at www.alliedcapital.com. Among other things, the proxy contains:

- the date, time and location of the meeting;
- a description of the matters being submitted to stockholders for a vote; and
- information concerning attending the meeting and voting in person.

Electronic Delivery of Allied Capital Stockholder Communications

We are pleased to offer to our stockholders the benefits and convenience of electronic delivery of annual meeting materials, including:

- Email delivery of the proxy statement, annual report, and related materials instead of bulky hard copy delivery;
- Efficient stockholder voting on-line; and
- Reduction of printing and mailing costs associated with traditional delivery methods.

If you would like to sign up for electronic delivery for future stockholder mailings, please visit www.icsdelivery.com/ald/index.html to enroll. Your electronic delivery enrollment will be effective until you choose to cancel it. If you have questions about electronic delivery, please call Allied Capital Investor Relations toll-free at (888) 818-5298 or send an email to ir@alliedcapital.com.

PROXY STATEMENT

General

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Allied Capital Corporation (the Company or Allied Capital) for use at the Company's 2008 Annual Meeting of Stockholders (the Meeting) to be held on April 25, 2008, at 10:00 a.m. (Eastern Time) at the Westin Embassy Row Hotel, 2100 Massachusetts Avenue, Washington, DC and at any adjournments or postponements thereof. This proxy statement, the accompanying proxy card, and the Company's Annual Report to Stockholders for the year ended December 31, 2007, are first being sent to stockholders on or about March 14, 2008.

We encourage you to vote your shares, either by voting in person at the Meeting or by granting a proxy (*i.e.*, authorizing someone to vote your shares). If you properly sign and date the accompanying proxy card or otherwise provide voting instructions, either via the Internet or the telephone, and the Company receives it in time for the Meeting, the persons named as proxies will vote the shares registered directly in your name in the manner that you specified. **If you give no instructions on the proxy card, the shares covered by the proxy card will be voted FOR the election of the nominees as directors and FOR the other matters listed in the accompanying Notice of Annual Meeting of Stockholders.**

If you are a stockholder of record (*i.e.*, you hold shares directly in your name), you may revoke a proxy at any time before it is exercised by notifying the proxy tabulator, Broadridge Financial Solutions, Inc., in writing. Please send your notification to Allied Capital Corporation, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717, and submit a properly executed, later-dated proxy or vote in person at the Meeting. Any stockholder of record attending the Meeting may vote in person whether or not he or she has previously voted his or her shares. If your shares are held for your account by a broker, bank, or other institution or nominee (Broker Shares), you may vote such shares at the Meeting only if you obtain proper written authority from your institution or nominee and present it at the Meeting.

Stockholders of record may also vote either via the Internet or by telephone. Specific instructions to be followed by stockholders of record interested in voting via the Internet or the telephone are shown on the enclosed proxy card. The Internet and telephone voting procedures are designed to authenticate the stockholder's identity and to allow stockholders to vote their shares and confirm that their instructions have been properly recorded.

Annual Meeting Admission

If you plan to attend the Meeting, an admission ticket and photo identification will be required for admission to the Meeting. If you are a stockholder of record, your ticket is attached to your proxy card. If your shares are held in the name of a broker or other nominee and you do not have an admission ticket, please bring with you a legal proxy or letter from the broker, trustee, bank, or nominee confirming

your beneficial ownership of the shares as of the record date, February 11, 2008, along with your photo identification.

Purpose of Meeting

At the Meeting, you will be asked to vote on the following proposals:

1. To elect five directors of the Company who will serve for three years, or until their successors are elected and qualified;
2. To ratify the selection of KPMG LLP to serve as the independent registered public accounting firm for the Company for the year ending December 31, 2008;
3. To approve a proposal to authorize the Company, with approval of its Board of Directors, to sell shares of its common stock at prices below the Company's then current net asset value per share in one or more offerings; and
4. To transact such other business as may properly come before the Meeting and any adjournments or postponements thereof.

Voting Securities

You may vote your shares at the Meeting only if you were a stockholder of record at the close of business on February 11, 2008, the record date. On February 11, 2008, there were 162,002,393 shares of the Company's common stock outstanding. Each share of common stock is entitled to one vote.

The Company's 401(k) Plan owns a total of 177,260 shares, representing less than 1% of the Company's total outstanding shares. The Administrator of the 401(k) Plan will vote the shares on behalf of the participants pursuant to their instructions.

Quorum Required

A quorum must be present at the Meeting for any business to be conducted. The presence at the Meeting, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the record date will constitute a quorum. Abstentions will be treated as shares present for quorum purposes. Broker shares for which the nominee has not received voting instructions from the record holder and does not have discretionary authority to vote the shares on certain proposals (which are considered broker non-votes with respect to such proposals) will be treated as shares present for quorum purposes.

If a quorum is not present at the Meeting, the stockholders who are represented may adjourn the Meeting until a quorum is present. The persons named as proxies will vote those proxies for such adjournment, unless marked to be voted against any proposal for which an adjournment is sought, to permit the further solicitation of proxies.

Vote Required

Election of Nominee Directors. The affirmative vote of a majority of the votes cast at the Meeting in person or by proxy is required to elect each of the five nominees as directors. Votes withheld on the matter will not be included in determining the number of votes cast and, as a result, will have no effect on this proposal.

Ratification of Independent Registered Public Accounting Firm. The affirmative vote of a majority of the votes cast at the Meeting in person or by proxy is required to ratify the appointment of KPMG LLP to serve as the Company's independent registered public accounting firm. Abstentions will not be included in determining the number of votes cast and, as a result, will not have any effect on the result of the vote.

Approval of a Proposal to Authorize the Company to Sell Shares of its Common Stock at Prices Below the Company's Then Current Net Asset Value Per Share in one or more offerings. The affirmative vote of (1) a majority of the outstanding shares of common stock entitled to vote at the meeting; and (2) a majority of the outstanding shares of common stock entitled to vote at the meeting that are not held by affiliated persons of the Company is required to approve this proposal. For purposes of this proposal, the Investment Company Act of 1940, or 1940 Act, defines "a majority of the outstanding shares" as: (1) 67% or more of the voting securities present at the Meeting if the holders of more than 50% of the outstanding voting securities of such company are present or represented by proxy; or (2) 50% of the outstanding voting securities of the Company, whichever is the less. Abstentions and broker non-votes will have the effect of a vote against this proposal.

Additional Solicitation. If there are not enough votes to approve any proposals at the Meeting, the stockholders who are represented may adjourn the Meeting to permit the further solicitation of proxies. The persons named as proxies will vote those proxies for such adjournment, unless marked to be voted against any proposal for which an adjournment is sought, to permit the further solicitation of proxies. Those proxies voted against any proposal for which an adjournment is sought will be voted against such adjournment. Abstentions and broker non-votes will not be voted and thus will not have any effect on the result of the vote for adjournment.

Also, a stockholder vote may be taken on one or more of the proposals in this Proxy Statement prior to any such adjournment if there are sufficient votes for approval of such proposal(s).

Information Regarding This Solicitation

The Company will bear the expense of the solicitation of proxies for the Meeting, including the cost of preparing, printing, and mailing this proxy statement, the accompanying Notice of Annual Meeting of Stockholders, and the proxy card. The Company has requested that brokers, nominees, fiduciaries, and other persons holding shares in their names, or in the name of their nominees, which are beneficially owned by others, forward the proxy materials to, and obtain proxies from, such beneficial owners. The Company will reimburse such persons for their reasonable expenses in so doing.

In addition to the solicitation of proxies by mail, proxies may be solicited in person and by telephone, facsimile transmission, or telegram by directors, officers, or regular employees of the Company (without special compensation therefor). The Company has also retained Georgeson Shareholder Communications, Inc. to assist in the solicitation of proxies for a fee of approximately \$7,000, plus out-of-pocket expenses. Any proxy given pursuant to this solicitation may be revoked by notice

from the person giving the proxy at any time before it is exercised. Any such notice of revocation should be provided in writing and signed by the stockholder in the same manner as the proxy being revoked and delivered to the Company's proxy tabulator.

Security Ownership of Management and Certain Beneficial Owners

The following table sets forth, as of March 4, 2008, each stockholder who owned more than 5% of the Company's outstanding shares of common stock, each current director, each nominee for director, each named executive officer of the Company listed in the Summary Compensation Table, and directors and executive officers as a group. Unless otherwise indicated, the Company believes that each beneficial owner set forth in the table has sole voting and investment power. Certain shares beneficially owned by the Company's directors and executive officers may be held in accounts with third-party brokerage firms, where such shares may from time to time be subject to a security interest for margin credit provided in accordance with such brokerage firm's policies.

The Company's directors are divided into two groups—interested directors and independent directors. Interested directors are interested persons as defined in Section 2(a)(19) of the 1940 Act.

PROPOSAL 1.
ELECTION OF DIRECTORS

Pursuant to the Company's bylaws, the Board of Directors may modify the number of members of the Board provided that the number of directors will not be fewer than three or greater than fifteen, unless otherwise permitted by law. Directors are elected in three classes for a staggered term of three years for each class, with the term of office of only one of the three classes of directors expiring each year. Directors serve until their successors are elected and qualified.

The Class I directors, Messrs. Firestone, Garcia, Hebert and Racicot and Ms. van Roijen have been nominated for election by the Board of Directors for a three-year term expiring in 2011. Each Class I director has agreed to serve as a director if elected and has consented to be named as a nominee. No person being nominated as a director is being proposed for election pursuant to any agreement or understanding between any such person and the Company.

A stockholder can vote for or withhold his or her vote from any or all of the nominees. **In the absence of instructions to the contrary, it is the intention of the persons named as proxies to vote such proxy FOR the election of all the nominees named below. If any of the nominees should decline or be unable to serve as a director, it is intended that the proxy will be voted for the election of such person or persons as are nominated as replacements.** The Board of Directors has no reason to believe that any of the persons named will be unable or unwilling to serve.

**The Board of Directors of the Company Recommends that
Stockholders Vote for the Election of the Nominees Named in this Proxy Statement.**

Information about the Directors

Certain information, as of March 4, 2008, with respect to each of the five nominees for election at the Meeting, as well as each of the current directors, is set forth below, including their names, ages, a brief description of their recent business experience, including present occupations and employment, certain directorships that each nominee holds, and the year in which each nominee became a director of the Company or any of its predecessor companies.

The Board of Directors of each consolidated subsidiary will be composed of all of the Company's directors. The business address of each nominee and director listed below is 1919 Pennsylvania Avenue, NW, Washington, DC 20006.

Prior to joining Allied Capital, Ms. Sweeney was employed by Ernst & Young, Coopers & Lybrand, and the Division of Enforcement of the Securities and Exchange Commission. She has served as a director of the Company since 2004.

Brooks H. Browne

Age 58. Mr. Browne has been a private investor since 2002. Mr. Browne was the President of Environmental Enterprises Assistance Fund from 1993 to 2002 and served as a director from 1991 to 2005. He currently serves as Chairman of the Board for Winrock International, a non-profit organization. He has served as a director of the Company or one of its predecessors since 1990.

Robert E. Long

Age 76. Mr. Long has been the Chief Executive Officer and a director of GLB Group, Inc., an investment management firm, since 1997 and President of Ariba GLB Asset Management, Inc., the parent company of GLB Group, Inc., since 2005. He has been the Chairman of Emerald City Radio Partners, LLC since 1997. Mr. Long was the President of Business News Network, Inc. from 1995 to 1998, the Chairman and Chief Executive Officer of Southern Starr Broadcasting Group, Inc. from 1991 to 1995, and a director and the President of Potomac Asset Management, Inc. from 1983 to 1991. Mr. Long is a director of AmBase Corporation, CSC Scientific, Inc., and Advanced Solutions International, Inc. He has served as a director of the Company or one of its predecessors since 1972. Mr. Long is the father of Robert D. Long, an executive officer of the Company.

Director Compensation

The following table sets forth compensation that the Company paid during the year ended December 31, 2007, to its directors. The Company's directors are divided into two groups—interested directors and independent directors. Interested directors are interested persons as defined in Section 2(a)(19) of the 1940 Act.

(1) Reflects the annual grant of 5,000 options. Options granted vested immediately. The fair value of the options was estimated on the grant date for financial reporting purposes using the Black-Scholes option pricing model and pursuant to the requirements of FASB Statement No. 123 (Revised), or SFAS 123R. See Note 2 to the Company's Consolidated Financial Statements included in the Company's annual report on Form 10-K for the year ended December 31, 2007, for the assumptions used in determining SFAS 123R values.

(2) Mr. Walton and Ms. Sweeney did not receive any compensation for serving on the Board of Directors. See Summary Compensation Table below.

(3) There were no above market or preferential earnings on the non-qualified deferred compensation plans. See Non-Qualified Deferred Compensation below.

(4) Represents the SFAS 123R expense related to stock options cancelled in connection with the option cancellation payment (OCP). See Equity Compensation Plan Information—Option Cancellation and the OCP below.

During 2007, our Board of Directors adopted and implemented the following compensation structure for non-officer directors, which is also effective for 2008. Each non-officer director receives an annual retainer of

\$100,000. In addition, each member of each committee receives an annual retainer of \$45,000 to attend the meetings of the committee, with a maximum of \$90,000 to be paid to any one director for committee retainers. Each committee chair also receives an annual retainer of \$5,000. In addition, members who serve on special purpose committees receive \$3,000 per meeting. We also reimburse directors for expenses related to meeting attendance. Directors who are employees receive no additional compensation for serving on our Board of Directors or its committees.

For 2007, directors could choose to defer any portion of their cash compensation through the 2005 Allied Capital Non-Qualified Deferred Compensation Plan, and could choose to have such deferred income invested in shares of the Company's common

stock through a trust, which is owned by the Company. See **Non-Qualified Deferred Compensation** for additional information.

Non-officer directors are eligible for stock option awards under our Amended Stock Option Plan pursuant to an exemptive order from the Securities and Exchange Commission, or Commission, which was granted in September 1999. The terms of the order provided for a one-time grant of 10,000 options to each non-officer director on the date that the order was issued, or on the date that any new director is elected by stockholders to the Board of Directors. Thereafter, each non-officer director will receive 5,000 options each year on the date of the Annual Meeting of Stockholders at the fair market value on the date of grant. See **Amended Stock Option Plan**. The options granted to our directors vest immediately.

Corporate Governance

Director Independence

In accordance with rules of the New York Stock Exchange, or NYSE, the Board of Directors annually determines the independence of each director. No director is considered independent unless the Board of Directors has determined that he or she has no material relationship with the Company. The Company monitors the status of its directors and officers through the activities of the Company's Corporate Governance / Nominating Committee and through a questionnaire to be completed by each director no less frequently than annually, with updates periodically if information provided in the most recent questionnaire has changed.

In order to evaluate the materiality of any such relationship, the Board of Directors uses the definition of director independence set forth in the NYSE Listed Company Manual. Section 303A.00 of the NYSE Listed Company Manual provides that business development companies, or BDCs, such as the Company, are required to comply with all of the provisions of Section 303A applicable to domestic issuers other than Sections 303A.02, the section that defines director independence. Section 303A.00 provides that a director of a BDC shall be considered to be independent if he or she is not an interested person of the Company, as defined in Section 2(a)(19) of the 1940 Act. Section 2(a)(19) of the 1940 Act defines an interested person to include, among other things, any person who has, or within the last two years had, a material business or professional relationship with the Company.

The Board has determined that each of the directors is independent and has no relationship with the Company, except as a director and stockholder of the Company, with the exception of William L. Walton, Joan M. Sweeney and Robert E. Long. Mr. Walton and Ms. Sweeney are interested persons of the Company due to their positions as officers of the Company and Mr. Long is an interested person of the Company because he is the father of an executive officer of the Company. During its assessment of director independence, the Board also considered a donation of \$25,000 by the Company to the American Enterprise Institute where Mr. Pollock serves as a Resident Fellow. The Board of Directors determined that the donation did not impair Mr. Pollock's status as an independent director.

Committees of the Board of Directors

The Board of Directors of the Company has established an Executive Committee, an Audit Committee, a Compensation Committee, and a Corporate Governance/ Nominating Committee. In January 2008, the Board of Directors also established a Board Investment Review Committee. From time to time, the Board may establish special purpose committees to address particular matters on behalf of the Board. The Audit Committee, Compensation Committee, and Corporate Governance/ Nominating Committee each operate pursuant to a committee charter. The charter of each Committee is available on the Company's web site at www.alliedcapital.com in the Investor Resources section and is also available in print to any stockholder or other interested party who requests a copy.

During 2007, the Board of Directors of the Company held 29 Board meetings and 108 committee meetings. All directors attended at least 75% of the aggregate number of meetings of the Board and of the respective committees on which they served. Each director makes a diligent effort to attend all Board and committee meetings, as well as the Annual Meeting of Stockholders. Each of the directors was present at the Company's 2007 Annual Meeting of Stockholders.

The Company has designated the Chairman of the Corporate Governance/ Nominating Committee as the Presiding Director to preside at all executive sessions of non-management directors. In his absence, the Chairman of the Audit Committee has been designated to serve in such capacity. Executive sessions of non-management directors are held regularly.

The following table indicates the current members of the committees of the Board of Directors. All of the Company's directors are independent directors, except for Messrs. Walton and Long, and Ms. Sweeney, who are interested persons as defined in Section 2(a)(19) of the 1940 Act.

⁽¹⁾ Permanent member for 2008.

The Executive Committee. The Executive Committee has and may exercise those rights, powers, and authority that the Board of Directors from time to time grants to it, except where action by the Board is required by statute, an order of the Commission, or the Company's charter or bylaws. During 2007, the Executive Committee was delegated authority from the Board to review and approve certain investments. The Executive Committee met 42 times during 2007.

The Board Investment Review Committee. In January 2008, the Board established a Board Investment Review Committee and delegated authority to it to review and approve certain types of investments, a role previously undertaken by the Executive Committee. The Board Investment Review Committee is composed of five permanent members, who have been appointed to serve for the year, and three additional members, each of whom will serve during at least one quarter during the year on a rotating schedule.

The Audit Committee. The Audit Committee operates pursuant to a charter approved by the Board of Directors and meets the requirements of Section 3(a)(58)(A) of the Securities Exchange Act of 1934, or the Exchange Act. The charter sets forth the responsibilities of the Audit Committee. The primary function of the Audit Committee is to serve as an independent and objective party to assist the Board of Directors in fulfilling its responsibilities for overseeing and monitoring the quality and integrity of the Company's financial statements, the adequacy of the Company's system of internal controls, the review of the independence, qualifications and performance of the Company's independent registered public accounting firm, and the performance of the Company's internal audit function. The Audit Committee met 18 times during 2007. None of the members of the Audit Committee is an interested person of the Company as defined in Section 2(a)(19) of the 1940 Act, pursuant to the requirements of the rules promulgated by the NYSE. In addition, the Company's Board of Directors has determined that Ms. Bates and Messrs. Browne, Garcia and Harper are audit committee financial experts as defined under Item 407(d)(5) of Regulation S-K of the Exchange Act as each meets the experience requirements of Rule 10A-3 of the Exchange Act.

The Compensation Committee. The Compensation Committee approves the compensation of the Company's executive officers, and reviews the amount of salary and bonus for each of the Company's other officers and employees. In addition, the Compensation Committee approves stock option grants for the Company's officers under the Company's Amended Stock Option Plan, and determines other compensation arrangements for employees. None of the members of the Compensation Committee is an interested person of the Company as defined in Section 2(a)(19) of the 1940 Act, pursuant to the requirements of the rules promulgated by the NYSE. The Compensation Committee met 13 times during 2007. See Executive Compensation Compensation Discussion and Analysis Establishing Compensation Levels for additional information regarding the Compensation Committee.

The Corporate Governance/ Nominating Committee. The Corporate Governance/ Nominating Committee recommends candidates for election as directors to the Board of Directors and makes recommendations to the Board as to the Company's corporate governance policies. None of the members of the Corporate Governance/Nominating Committee is an interested person of the Company as

defined in Section 2(a)(19) of the 1940 Act, pursuant to the requirements of the rules promulgated by the NYSE. The Corporate Governance/ Nominating Committee met six times during 2007.

The Corporate Governance/ Nominating Committee will consider qualified director nominees recommended by stockholders when such recommendations are submitted to the care of the Corporate Secretary in accordance with the Company's bylaws, Corporate Governance Policy, and any other applicable law, rule or regulation regarding director nominations. When submitting a nomination to the Company for consideration, a stockholder must provide certain information that would be required under applicable Commission rules, including the following minimum information for each director nominee: full name, age and address; principal occupation during the past five years; current directorships on publicly held companies and investment companies; number of shares of Company common stock owned, if any; and, a written consent of the individual to stand for election if nominated by the Board of Directors and to serve if elected by the stockholders.

In evaluating director nominees, the Corporate Governance/ Nominating Committee considers the following factors:

the appropriate size and composition of the Company's Board of Directors;

whether or not the person is an interested person of the Company as defined in Section 2(a)(19) of the 1940 Act;

the needs of the Company with respect to the particular talents and experience of its directors;

the knowledge, skills, and experience of nominees in light of prevailing business conditions and the knowledge, skills, and experience already possessed by other members of the Board;

familiarity with national and international business matters;

experience with accounting rules and practices;

the capacity and desire to represent the balanced, best interests of the stockholders as a whole and not a special interest group or constituency;

the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members; and

all applicable laws, rules, regulations, and listing standards.

The Corporate Governance/ Nominating Committee's goal is to assemble a Board of Directors that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience.

Other than the foregoing, there are no stated minimum criteria for director nominees, although the Corporate Governance/ Nominating Committee may also consider such other factors as it may deem to be in the best interests of the Company and its stockholders. The Corporate Governance/ Nominating Committee also believes it appropriate for certain key members of the Company's management to participate as members of the Board.

The Corporate Governance/ Nominating Committee identifies nominees by first evaluating the current members of the Board of Directors willing to continue in

service. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board with that of obtaining a new perspective. The Corporate Governance/ Nominating Committee considers the age limit guideline included in the Company's Corporate Governance Policy, which suggests that a director should not stand for re-nomination after age 72, but that the Board may, in its discretion, ask a director to stand for re-nomination if the Board believes that such director will continue to make significant contributions to the work of the Board.

If any member of the Board does not wish to continue in service or if the Corporate Governance/ Nominating Committee or the Board decides not to re-nominate a member for re-election, or if the Corporate Governance/ Nominating Committee recommends to expand the size of the Board of Directors, the Corporate Governance/ Nominating Committee identifies the desired skills and experience of a new nominee in light of the criteria above. Current members of the Corporate Governance/ Nominating Committee and the Board of Directors provide suggestions as to individuals meeting the criteria of the Corporate Governance/ Nominating Committee. Consultants may also be engaged to assist in identifying qualified individuals.

Communication with the Board of Directors

Stockholders and other interested parties with questions about the Company are encouraged to contact Allied Capital's Investor Relations department. However, if stockholders or other interested parties feel their questions have not been addressed, they may communicate with the Company's Board of Directors, including the Presiding Director, by sending their communications to:

Certain Relationships and Related Transactions

The Company has procedures in place for the review, approval and monitoring of transactions involving the Company and certain related persons of the Company. As a BDC, the Company is prohibited by the 1940 Act from participating in transactions with any persons affiliated with the BDC, including, officers, directors, and employees of the BDC and any person controlling or under common control with the BDC, or the Affiliates, absent a Commission exemptive order.

In the ordinary course of business, the Company enters into transactions with portfolio companies that may be considered related party transactions. In order to ensure that the Company does not engage in any prohibited transactions with any persons affiliated with Company, the Company has implemented the following procedures:

Every proposed transaction must have a completed write-up and a transaction analysis, which should identify all parties to the transaction, including any selling stockholders.

Each transaction is screened by officers of the Company for any possible affiliations, close or remote, between the proposed portfolio investment, the Company, companies controlled by the Company, and any Affiliates of the Company.

All Affiliates are notified by officers of the Company of any proposed transactions and the parties involved in the transaction, and are asked to notify the Private Finance General Counsel or the Chief Compliance Officer or any other officer of the Company who has been designated to serve in this capacity (each a Screening Officer).

A Screening Officer analyzes all potential affiliations between the proposed portfolio investment, the Company, companies controlled by the BDC, and any Affiliates of the Company to determine if prohibited affiliations exist.

A Screening Officer obtains the advice of legal counsel whenever there is uncertainty as to whether particular persons involved in a proposed transaction are Affiliates of the Company.

A Screening Officer reviews the terms of each transaction to review whether any affiliated person could receive brokerage commissions that exceed the provisions of the 1940 Act.

No agreement shall be entered into unless and until a Screening Officer is satisfied that no affiliations prohibited by the 1940 Act exist or, if such affiliations exist, appropriate actions have been taken to seek Board review and approval or exemptive relief for such transaction. The Board of Directors reviews these procedures on an annual basis.

In addition, the Company's Code of Business Conduct, which is annually reviewed and approved by the Board of Directors and acknowledged in writing by all employees, requires that all employees and directors avoid any conflict, or the appearance of a conflict, between an individual's personal interests and the interests of the Company. Pursuant to the Code of Business Conduct, each employee and director must disclose any conflicts of interest, or actions or relationships that might give rise to a conflict, to the Chief Legal Officer or Chief Compliance Officer. In the event that either of these officers is involved in the action or relationship giving rise to the conflict of interest, the individual is directed to disclose the conflict to another member of the Company's senior management team. The Corporate Governance/ Nominating Committee is charged with monitoring and making recommendations to the Board of Directors regarding policies and practices relating to corporate governance. Certain actions or relationships that might give rise to a conflict of interest are reviewed and approved by the Board of Directors.

The following table sets forth certain information, as of March 4, 2008, regarding indebtedness to the Company in excess of \$120,000 of any person serving as a director or executive officer of the Company and of any nominee for election as a director at any time since January 1, 2007. All of such indebtedness results from loans made by the Company to enable the exercise of stock options. The loans are required to be fully collateralized and are full recourse against the borrower and have varying terms not exceeding ten years. The interest rates charged generally reflect the applicable federal rate on the date of the loan.

As a BDC under the 1940 Act, the Company is entitled to provide and has provided loans to officers of the Company in connection with the exercise of stock options. However, as a result of provisions of the Sarbanes-Oxley Act of 2002, the Company has been prohibited from making new loans to its executive officers since July 30, 2002.

Section 16(a) Beneficial Ownership Reporting Compliance

Pursuant to Section 16(a) of the Exchange Act, the Company's directors and executive officers, and any persons holding 10% or more of its common stock, are required to report their beneficial ownership and any changes therein to the Commission and the Company. Specific due dates for those reports have been established, and the Company is required to report herein any failure to file such reports by those due dates. Based on the Company's review of Forms 3, 4, and 5 filed by such persons, the Company believes that during 2007 all Section 16(a) filing requirements applicable to such persons were met in a timely manner, with the exception of a Form 4 for Mr. Scott Binder, which was filed one day late, due to an administrative error.

Executive Compensation Compensation Discussion and Analysis

Overview of the Compensation Program

Compensation Philosophy. Allied Capital's compensation and benefits programs are designed with the goal of providing compensation that is fair, reasonable and competitive. The programs are intended to help the Company align the compensation paid to its executive officers with the achievement of certain corporate and executive performance objectives that have been established to achieve the long-term objectives of the Company. The Company also believes that the compensation programs should enable the Company to attract, motivate, and retain key officers who will contribute to the Company's future success.

The design of the Company's compensation programs is based on the following three guiding factors:

Achievement of Corporate and Individual Performance Objectives The Company believes that the best way to accomplish alignment of compensation with the interests of its stockholders is to link pay to individual performance and individual contributions to the returns generated for stockholders. Compensation is determined on a discretionary basis and is dependent on the achievement of certain corporate and individual performance objectives that have been established to achieve long-term objectives of the Company. When individual performance exceeds expectations and performance goals established during the year, pay levels for the individual are expected to be above competitive market levels. When individual performance falls below expectations, pay levels are expected to be below competitive levels.

Competitiveness and Market Alignment The Company's compensation and benefits programs are designed to be competitive with those provided by companies with whom it competes for talent and to be sufficient to attract the best talent from an increasingly competitive market for top performers in the private equity industry. Benefit programs are designed to provide competitive levels of protection and financial security and are not based on performance. As part of its annual review process, the Compensation Committee reviews the competitiveness of the Company's current compensation levels of its key employees and executives with a third-party compensation consultant against the competitive market and relative to overall corporate performance during the year. The Compensation Committee also reviews tally sheets annually, which illustrate all components of compensation for the named executive officers, or NEOs.

Alignment with Requirements of the 1940 Act The Company's compensation program must align with the requirements of the 1940 Act, which imposes certain limitations on the structure of a BDC's compensation program. For example, the 1940 Act prohibits a BDC from maintaining a stock option plan and a profit sharing arrangement simultaneously. As a result, if a BDC has a stock option plan, it is prohibited from using a carried interest formula, a common form of compensation in the private equity industry, as a form of compensation. Because of these and other similar limitations imposed by the 1940 Act, the Compensation Committee is limited as to the type of compensation arrangements that can be utilized in order to attract, retain and motivate employees.

Components of Total Compensation. The Compensation Committee determined that the compensation packages for 2007 for the NEOs, who are identified in the Summary Compensation Table, should generally consist of the following five key components:

Annual base salary;

Annual cash bonus;

Stock options, priced at current market value;

Individual Performance Award, or IPA, which is a cash award that is generally determined at the beginning of the year based upon the individual performance of the officer, which during 2006 and 2007 was used exclusively to purchase shares of the Company's common stock in the market through a deferred compensation plan; and

Individual Performance Bonus, or IPB, which is a cash award that is generally determined at the beginning of the year based upon the individual performance of the officer and is paid as current compensation during the year.

Base Salary. Base salary is designed to attract and retain experienced executives who can drive the achievement of the Company's goals and objectives. While an executive's initial base salary is determined by an assessment of competitive market levels, the factors used in determining increases in base salary include individual performance, changes in role and/or responsibility and changes in the competitive market environment.

The Company has entered into employment agreements with William L. Walton, the Company's Chairman and Chief Executive Officer, Joan M. Sweeney, the Company's Chief Operating Officer, and Penni F. Roll, the Company's Chief Financial Officer. See Employment Agreements below for information regarding the material terms of these agreements.

Annual Cash Bonus. The annual cash bonus is designed to reward those executives that have achieved certain corporate and individual performance objectives and have contributed to the achievement of certain long-term objectives of the Company. The amount of the annual cash bonus is determined by the Compensation Committee on a discretionary basis. The annual cash bonus, when combined with base salary and the IPA and IPB described below, is benchmarked against a range of compensation that is competitive between the median (50th percentile) and 75th percentile of market compensation levels based on the performance of the individual.

Stock Options. The Company's principal objective in awarding stock options to the officers and directors of the Company is to align each optionee's interests with the success of the Company and the financial interests of its stockholders by linking a portion of such optionee's compensation with the performance of the Company's stock and the value delivered to stockholders. The Compensation Committee evaluates a number of criteria, including the past service of each such optionee to the Company, the present and potential contributions of such optionee to the success of the Company, and such other factors as the Compensation Committee shall deem relevant in connection with accomplishing the purposes of the Amended Stock Option Plan, including the recipient's current stock holdings, years of service, position with the Company, and other factors. The Compensation Committee does not apply a formula assigning specific weights to any of these factors when making its determination. The Compensation Committee awards stock options on a subjective basis and such awards depend in each case on the performance of the officer under consideration, and in the case of new hires, their potential performance.

IPA. Following the enactment of The Sarbanes-Oxley Act of 2002, the Company was no longer permitted to provide loans to executive officers for the exercise of stock options, as is statutorily provided for in the 1940 Act. This was a

significant development, since a substantial component of the total return to stockholders comes in the form of the dividend paid on the Company's common stock. Under the former loan program, an officer could exercise vested stock options with a loan for the purpose of buying the underlying shares and would then receive dividends on the shares obtained through such exercise and pay the Company interest on the loan until maturity. The loan program caused the officers to share in the risk of ownership of the stock, since the loan would have to be repaid. As such, under the loan program, there was a balance of the benefits and risks of share ownership for the officers.

When the loan program was discontinued, the Compensation Committee established a long-term incentive compensation program whereby the Compensation Committee of the Board of Directors determines an IPA for certain officers annually, generally at the beginning of each year. In determining the award for any one officer, the Compensation Committee considers individual performance factors, as well as the individual's contribution to the returns generated for stockholders, among other factors. Stockholders approved the Non-Qualified Deferred Compensation Plan II, or DCP II, through which the IPA is administered, in 2004. See *Non-Qualified Deferred Compensation* for additional detail regarding the determination by the Board of Directors to terminate the Company's deferred compensation arrangements in 2008. For 2008, the Compensation Committee has determined that the IPAs will be paid in cash generally in two equal installments during the year to eligible officers, as long as the recipient remains employed by the Company.

IPB. As a result of changes in the Internal Revenue Code of 1986, as amended (the Code), regarding non-qualified deferred compensation plans, as well as an increase in the competitive market for recruiting and retaining top performers in private equity firms, beginning in 2005 the Board of Directors determined that a portion of the IPA should be paid as an IPB. The IPB is determined annually, generally at the beginning of the year, and is distributed in cash in equal installments to award recipients throughout the year as long as each recipient remains employed by the Company. If a recipient terminates employment during the year, any remaining cash payments under the IPB would be forfeited. In determining an IPB award for any one officer, the Committee considers individual performance factors, as well as the individual's contribution to the returns generated for stockholders, among other factors.

Employment Agreements and Severance Arrangements. The Company entered into employment agreements in 2004 with Mr. Walton and Mmes. Sweeney and Roll. These agreements were reviewed in 2007 and amended to comply with regulatory changes in the Code and to address other tax related matters. Pursuant to each of these agreements, if the executive's employment is terminated without cause during the term of the agreement, or within 24 months of a change of control, the executive shall be entitled to severance pay. See *Severance and Change of Control Arrangements* for more detail.

401(k) Plan. The Company maintains a 401(k) Plan. All employees who are at least 21 years of age have the opportunity to contribute pre-tax or after-tax salary deferrals to the 401(k) Plan, up to \$15,500 annually for the 2008 plan year, and to direct the investment of these contributions. Plan participants who are age 50 or older during the 2008 plan year are eligible to defer an additional \$5,000 during 2008. The 401(k) Plan allows eligible participants to invest in the Allied Capital Stock

Fund, consisting of Allied Capital common stock and cash, among other investment options. On March 4, 2008, the 401(k) Plan held less than 1% of the outstanding shares of the Company.

During the 2007 plan year, the Company contributed up to 5% of each participant's eligible compensation for the year, up to maximum compensation of \$225,000, to each participant's plan account on the participant's behalf, which fully vested at the time of the contribution. For 2007, the Company's contribution with respect to compensation in excess of \$225,000 will be made in cash to the participant in the first quarter of 2008.

For the 2008 plan year, the Company amended its 401(k) Plan to provide that the Company will match 100% of the first 4% of deferral contributions made by each participant up to \$230,000 of eligible compensation. No excess contribution will be made for 2008.

Insurance. The Company makes available to all employees health insurance, dental insurance, and group life and disability insurance. Prior to the Sarbanes-Oxley Act of 2002, the Company provided split dollar life insurance arrangements for certain senior officers. The Company has subsequently terminated its obligations to pay future premiums with respect to existing split-dollar life insurance arrangements.

Perquisites. The Company provides only limited perquisites such as Company-paid parking to its NEOs. The Company utilizes corporate aircraft for business use in an effort to improve the efficiency of required business travel. Imputed income determined in accordance with the Internal Revenue Service requirements is reflected in an NEO's aggregate compensation for income tax purposes for any business trip on which a non-employee family member or guest accompanies the NEO. For compensation disclosure purposes, the value of such travel by non-employee family members or guests is calculated by allocating costs incurred. With respect to travel by non-employee family members or guests, this is computed by allocating direct and indirect expenses, other than depreciation, on a per hour basis. Direct and indirect expenses generally include crew compensation and expenses, fuel, oil, catering expenses, hangar, rent, insurance, landing and similar fees, and maintenance costs.

Establishing Compensation Levels

Role of the Compensation Committee. The Compensation Committee is comprised entirely of independent directors who are also non-employee directors as defined in Rule 16b-3 under the Exchange Act and independent directors as defined by NYSE rules.

The Compensation Committee operates pursuant to a charter that sets forth the mission of the Compensation Committee and its specific goals and responsibilities. The Compensation Committee's mission is to evaluate and make recommendations to the Board regarding the compensation of the Chief Executive Officer and other executive officers of the Company, and their performance relative to their compensation, and to assure that they are compensated effectively in a manner consistent with the compensation philosophy discussed earlier, internal equity considerations, competitive practice, and the requirements of applicable law and the appropriate regulatory bodies. In addition, the Compensation Committee evaluates

and makes recommendations to the Board regarding the compensation of the directors, including their compensation for services on Board committees.

The Compensation Committee's charter reflects these goals and responsibilities, and the Compensation Committee annually reviews and revises its charter as necessary. To assist in carrying out its responsibilities, the Compensation Committee periodically receives reports and recommendations from management and from a third-party compensation consultant that it selects and retains. The Compensation Committee may also, from time to time, consult with legal, accounting or other advisors all in accordance with the authority granted to the Compensation Committee in its charter.

Role of Management. The key members of management involved in the compensation process are the Chief Executive Officer, the Chief Operating Officer and the Director of Human Resources. Management proposes certain corporate and individual performance objectives for executive management that could be established to achieve long-term objectives of the Company and used to determine total compensation, and these proposals are presented to the Compensation Committee for review and approval. Management also participates in the discussion of peer companies to be used to benchmark NEO compensation, and recommends the overall funding level for the annual cash bonus, IPA and IPB. Management's recommendations are presented to the Compensation Committee for review and approval.

Role of the Compensation Consultant. The Compensation Committee annually retains a third-party compensation consultant to assess the competitiveness of the current and proposed compensation levels of the Company's NEOs in light of competitive market practices. The Compensation Committee has engaged Ernst & Young LLP's Performance and Reward Practice or its predecessor (the Compensation Consultant) for this purpose for more than five years.

The Compensation Consultant attends Compensation Committee meetings, meets with the Compensation Committee without management present and provides third-party data, advice and expertise on current and proposed executive and director compensation. At the direction of the Compensation Committee, the Compensation Consultant prepares an analysis of compensation matters including positioning of programs in the competitive market, including peer group review, and the design of plans consistent with the Compensation Committee's compensation philosophy.

Ernst & Young, LLP provides consulting and other services to the Company, however, the Compensation Committee believes this does not compromise the Compensation Consultant's ability to provide an independent perspective on executive compensation. During 2007, the Compensation Consultant was paid \$128,689 for its services to the Compensation Committee.

Assessment of Market Data, Peer Comparisons and Benchmarking of Compensation. The Compensation Consultant assists the Compensation Committee with the assessment of the compensation practices of comparable companies. Given the Company's structure as a publicly traded, internally managed BDC coupled with the fact that most of the Company's direct competitors are privately held private equity partnerships, specific compensation information with respect to the Company's direct competitors typically is not publicly available. There are a limited number of

published survey sources that have a primary focus on the private equity industry and that provide annualized information on long-term incentive plans in the industry, which typically take the form of carried interest.

As a part of the annual assessment of compensation, the Compensation Committee and the Compensation Consultant analyze NEO compensation information relative to:

a peer group of publicly traded companies, as determined by the Compensation Committee, including internally managed BDCs, deemed similar to the Company in terms of industry segment, company size and competitive industry and geographic market for executive talent;

published survey data on similarly sized private equity firms; and

an estimation of aggregate compensation levels paid by externally managed publicly traded BDCs and similar pass-through structures, such as real estate investment trusts.

Through this process, the Compensation Committee benchmarks the Company's compensation for NEOs, including the CEO, to the median (50th percentile) through the 75th percentile of competitive market data. However, the Compensation Committee is unable to benchmark the compensation data of individual NEOs from the externally managed companies because no individual compensation data is available.

The Company's peer group is the same peer group used for its 2006 analysis and is composed of the following nine publicly traded companies in the financial services industry:

AllianceBernstein Holding L.P.
American Capital Strategies, Ltd.
CapitalSource Inc.
CIT Group Inc.
Federated Investors, Inc.

Friedman, Billings, Ramsey Group, Inc.
iStar Financial, Inc.
Legg Mason, Inc.
T. Rowe Price Group, Inc.

While comparisons to compensation levels at the Company's peer group is helpful in assessing the overall competitiveness of its executive compensation program, the Company believes that its executive compensation program also must be internally consistent and equitable in order for the Company to achieve its investment objectives and to continue to attract and retain outstanding employees.

The Compensation Committee uses the private equity published survey data to assess the market for investment professionals, but also considers each individual's contribution to the Company that year to assess internal pay equity. As a result, the composition of the Company's NEOs, excluding the Chief Executive Officer and the Chief Financial Officer, may change from year to year.

Review of Tally Sheets. The Compensation Committee annually reviews tally sheets that illustrate all components of the compensation provided to the Company's NEOs, including base salary, annual cash bonus, IPAs and IPBs, stock option awards, perquisites and benefits and the accumulated balance under non-qualified deferred compensation plans. Furthermore, the Compensation Committee annually reviews tally sheets prepared by the Compensation Consultant that illustrate the aggregate

amounts that may be paid as the result of certain events of termination under employment agreements including a change of control for Mr. Walton and Mmes. Sweeney and Roll. The purpose of these tally sheets is to bring together, in one place, all of the elements of actual and potential future compensation for its executives who have employment agreements, as well as information about wealth accumulation, so that the Compensation Committee may analyze both the individual elements of compensation as well as the aggregate total amount of actual and projected compensation. The Compensation Committee also provides a full report of all compensation program components to the Board of Directors, including the review and discussion of the tally sheets.

Assessment of Corporate and Individual Performance. The Compensation Committee considered certain corporate and individual performance measures that have been established to achieve long-term total return to stockholders. The corporate and individual performance measures for 2007 included, among others, the following:

Setting strategic direction;

Maintaining the highest ethical standards, internal controls and adherence to regulatory requirements;

Maintaining appropriate dividend payouts to shareholders with the appropriate balance of interest and fee income and capital gain harvest;

Maintaining a conservative balance sheet and investment grade status;

Continually innovating and improving the Company's investment process;

Maintaining portfolio credit quality and improving overall portfolio performance;

Continually innovating and improving financial and operating services provided to portfolio companies; and

Attracting and retaining the best and brightest talent, developing potential successors for future leadership roles. During 2007, the Company achieved numerous strategic investment and operational goals and objectives, including, among other things:

Invested \$1.8 billion;

Generated \$268.5 million in net realized capital gains;

Paid \$407.3 million in dividends to stockholders, a 7% increase in dividends per share over 2006;

Established the Allied Capital Senior Debt Fund, L.P. with an initial closing of \$125 million in equity capital commitments; and

Partnered with GE Commercial Finance to establish the \$3.6 billion Unitranche Fund LLC.

Compensation Determination

In identifying prevailing market competitive compensation and benefit levels for similarly situated companies, Allied Capital employs the three-pronged approach discussed above. In determining the individual compensation for the Company's NEOs, the Compensation Committee considers the total compensation to be awarded to each NEO and may exercise discretion in determining the portion allocated to the various components of total compensation and there is no pre-determined weighting of any specific components. The Company believes that the focus on total compensation provides the ability to align pay decisions with short- and long-term needs of the business. This approach also allows for the flexibility needed to recognize differences in performance by providing differentiated pay.

Individual compensation levels for NEOs are determined based on individual performance and the achievement of certain corporate and executive performance objectives that have been established to achieve long-term objectives of the Company. Increases to base salary are awarded to recognize an executive for assuming additional responsibilities and his/her related performance, to address changes in the external competitive market for a given position, or to achieve an appropriate competitive level due to a promotion to a more senior position.

In determining the amount of an executive's variable compensation—the annual cash bonus, IPA and IPB—the Compensation Committee uses market-based total compensation guidelines described above, which are the proxy peer group analysis, private equity published survey data, and estimates of and comparisons to compensation paid by externally managed publicly traded pass-through companies. Within those guidelines, the Committee considers the overall funding available for such awards, the executive's performance, and the desired mix between the various components of total compensation. The Company does not use a formula-based approach in determining individual awards or weighting between the components. Rather, discretion is exercised in determining the overall total compensation to be awarded to the executive. As a result, the amounts delivered in the form of an annual cash bonus, IPA and IPB are designed to work together in conjunction with base salary to deliver an appropriate total compensation level to the NEO.

The Company believes that the discretionary design of its variable compensation program supports its overall compensation objectives by allowing for significant differentiation of pay based on individual performance and by providing the flexibility necessary to ensure that pay packages for its NEOs are competitive relative to its market.

Determination of 2007 Compensation for the CEO and other NEOs. The compensation of the Chief Executive Officer and other NEOs is determined based on the achievement of certain corporate and individual performance objectives discussed above. 2007 was a year of continued progress in achieving the objectives that contribute to the long-term success of the Company. Among other things described above, the Company invested \$1.8 billion, generated \$268.5 million in net realized gains, and paid \$407.3 million in dividends to stockholders. The Compensation Committee acknowledged the fact that, while management had achieved numerous strategic investment and operational goals and objectives for the year, market conditions had resulted in a significant reduction in the Company's stock price during

the latter half of 2007, which adversely affected total return to stockholders for the year.

Mr. Walton is paid an annual base salary of \$1,500,000, the same rate that has been in effect since February 2004. Mr. Walton received an annual bonus for 2007 of \$2,150,000, a 22% reduction from the annual bonus that was paid for 2006. Mr. Walton also received a 2007 IPA of \$1,475,000 and a 2007 IPB of \$1,475,000, which were the same amounts as the prior year. Mr. Walton received a grant of 186,000 stock options in 2007; he did not receive a stock option grant in 2006.

Ms. Sweeney is paid an annual base salary of \$1,000,000, the same rate that has been in effect since February 2004. Ms. Sweeney received an annual bonus for 2007 of \$1,300,000, a 13% reduction from the annual bonus that was paid for 2006. Ms. Sweeney also received a 2007 IPA of \$750,000 and a 2007 IPB of \$750,000, which were the same amounts as the prior year. Ms. Sweeney received a grant of 139,500 stock options in 2007; she did not receive a stock option grant in 2006.

For 2007, Ms. Roll was paid an annual base salary of \$525,000, the same rate that has been in effect since 2006. Ms. Roll received an annual bonus for 2007 of \$850,000, the same annual bonus that she received in 2006, in recognition of the Company's performance and her individual performance. Ms. Roll also received a 2007 IPA of \$350,000 and a 2007 IPB of \$350,000. Ms. Roll received a grant of 139,500 stock options in 2007.

For 2007, Mr. Russell was paid an annual base salary of \$550,000. Mr. Russell received an annual bonus for 2007 of \$2,475,000 in recognition of the Company's performance and his individual performance. Mr. Russell also received a 2007 IPA of \$475,000 and a 2007 IPB of \$475,000. Mr. Russell received a grant of 186,000 stock options in 2007.

For 2007, Mr. Scheurer was paid an annual base salary of \$600,000. Mr. Scheurer received an annual bonus for 2007 of \$1,700,000 in recognition of the Company's performance and his individual performance. Mr. Scheurer also received a 2007 IPA of \$550,000 and a 2007 IPB of \$550,000. Mr. Scheurer received a grant of 139,500 stock options in 2007.

After reviewing the 2007 peer group information, tally sheets and the achievement of corporate and executive performance measures for each of these executives, the Compensation Committee determined that the total compensation levels for each of these executives was within a competitive range to existing market levels and remained consistent with the Compensation Committee's expectations.

Stock Option Practices

The Company's principal objective in awarding stock options to the officers and directors of the Company is to align each optionee's interests with the success of the Company and the financial interests of its stockholders by linking a portion of such optionee's compensation with the performance of the Company's stock and the value delivered to stockholders. The Compensation Committee awards stock options on a subjective basis and such awards depend in each case on the performance of the officer under consideration, and in the case of new hires, their potential performance. Stock options are priced at the closing price of the stock on the date the option is granted. See Amended Stock Option Plan.

Restricted Stock

In October 2007, the Company filed an exemptive application with the Commission to permit the issuance of restricted stock to the Company's employees and non-officer directors. If the Company were to receive an order from the Commission to permit such issuance, the Company would be required to seek the approval of stockholders before it may issue restricted stock. Assuming the Corporation obtained stockholder approval, the Board of Directors would consider the issuance of restricted stock together with the issuance of stock options as another form of equity compensation.

Target Ownership Program

During 2006, the Board of Directors established a target ownership program to encourage share ownership by the Company's senior officers, so that the interests of the officers and stockholders are aligned. Generally, officers have five years to achieve their target ownership level, which is determined on an individual basis by the Compensation Committee and adjusted annually to reflect increases in base salary, if any. The Compensation Committee considers these target ownership levels and each individual's progress toward achieving his or her target ownership in connection with its annual compensation review. See Target Ownership for additional information related to the target ownership program.

Impact of Regulatory Requirements Tax Deductibility of Pay

Section 162(m) of the Code places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any one year, which applies with respect to certain of its most highly paid executive officers for 2007. There is an exception to the \$1,000,000 limitation for performance-based compensation meeting certain requirements. To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Compensation Committee has not adopted a performance-based compensation policy. The total compensation for each of Messrs. Walton, Russell, Scheurer and Ms. Sweeney is above the \$1,000,000 threshold for 2007; accordingly, for 2007, a portion of their total compensation, including salaries, bonuses, IPBs, and other compensation is not deductible by the Company.

Compensation Committee Report

The Compensation Committee, composed entirely of independent directors, reviewed and discussed the above Compensation Discussion and Analysis with the Company's management. Based on the Compensation Committee's deliberations and discussions with management, the Compensation Committee recommends that the Board of Directors include the Compensation Discussion and Analysis in the Company's Proxy Statement.

Summary Compensation Table

The following table sets forth compensation that the Company paid during the years ended December 31, 2007 and 2006, to its principal executive officer, principal financial officer and each of the three highest paid executive officers of the Company (collectively, the Named Executive Officers or NEOs) in each capacity in which each NEO served. Certain of the NEOs served as both officers and directors.

⁽¹⁾ This column includes annual cash bonus, IPA, IPB and for 2007 the excess 401(k) Plan contribution, which represents the excess amount of the 5% employer contribution over the IRS limit of how much an employer may contribute to the 401(k) plan which was paid in cash for 2007. For 2006, this excess contribution was contributed to the 2005 DCP I. For a discussion of these compensation components, see Compensation Discussion and Analysis above. The following table provides detail as to the composition of the bonus received by each of the NEOs:

(2) The following table sets forth the amount included in the Option Awards column with respect to prior year awards and the 2007 awards. See Note 2 to our 2007 consolidated financial statements for the assumptions used in determining SFAS 123R values. See the Grants of Plan-Based Awards table for the full fair value of the options granted to NEOs in 2007. The amount recognized for financial statement reporting purposes represents the SFAS 123R fair value of options awarded in prior and current years that vested in 2007, which are non-cash expenses.

(3) There were no above market or preferential earnings on the non-qualified deferred compensation plans. See Non-Qualified Deferred Compensation below.

(4) All Other Compensation is composed of the following:

	Year	Company Contribution to 401(k) Plan	Employer Contribution to 2005 DCP I ^(A)	SFAS 123R Expense Related to the OCP ^(B)	Other ^(C)
Mr. Walton	2007	\$ 11,250		\$ 3,612,697	\$ 34,455

Mr. Scheurer	2007	\$ 11,250		\$ 1,287,492	\$ 9,615

- (A) Because the IRS limits the amount an employer may contribute to a 401(k) plan on behalf of each participant, for 2006 the Company contributed the excess amount of the 5% employer contribution over this limit to the 2005 DCP I on behalf of the participant. For 2007, this excess contribution was paid in cash to the participant and is included as a bonus in 2007.
- (B) Because the weighted average market price of the Company's common stock at the commencement of the tender offer was higher than the market price at the close of the tender offer, SFAS 123R required the Company to record stock option expense related to the stock options cancelled. This is a non-cash expense deemed to be compensation for financial reporting purposes.
- (C) This amount includes perquisites such as Company-paid parking and the imputed income value of split dollar life insurance arrangements. For Messrs. Walton and Scheurer, the amount also includes the premiums associated with executive long-term disability insurance. In addition, the amount includes \$23,994 for Mr. Walton and \$2,370 for Ms. Sweeney, and \$1,241 for Mr. Russell related to the allocated costs associated with the travel of non-employee family members or guests when they have accompanied the NEOs on trips for business purposes. The value of this perquisite is different than each NEO's imputed income, which is calculated in accordance with IRS requirements.

Employment Agreements

The Company entered into employment agreements in 2004 with William L. Walton, the Company's Chairman and CEO, Joan M. Sweeney, the Company's Chief Operating Officer, and Penni F. Roll, the Company's Chief Financial Officer. These agreements were amended in 2007 to comply with Section 409A of the Code and to address other tax-related matters. Each of the agreements provides for a three-year term that extends one day at the end of every day during its length, unless either party provides written notice of termination of such extension. In that case, the agreement would terminate three years from such notification.

Each agreement specifies each executive's base salary compensation during the term of the agreement. The Compensation Committee has the right to increase the base salary during the term of the employment agreement. In addition, each employment agreement states that the Compensation Committee may provide, at their sole discretion, an annual cash bonus. This bonus is to be determined with reference to each executive's performance in accordance with performance criteria to be determined by the Compensation Committee in its sole discretion. Under each

agreement, each executive is also entitled to participate in the Company's Amended Stock Option Plan, and to receive all other awards and benefits previously granted to each executive, including the payment of life insurance premiums.

The executive has the right to voluntarily terminate employment at any time with 30 days' notice, and in such case, the employee will not receive any severance pay. Among other things, the employment agreements prohibit the solicitation of employees from the Company in the event of an executive's departure for a period of two years. See

Severance and Change in Control Arrangements for a discussion of

the severance and change in control arrangements set forth in each of these agreements.

Amended Stock Option Plan

The Company's Amended Stock Option Plan, or Option Plan, is intended to encourage stock ownership in the Company by officers and directors, thus giving them a proprietary interest in the Company's performance, to reward outstanding performance, and to provide a means to attract and retain persons of outstanding ability to the service of the Company. The Option Plan was last approved by stockholders in May 2007.

As discussed in the Compensation Discussion and Analysis, the Company's Compensation Committee believes that stock-based incentive compensation is a key element of officer and director compensation. The Compensation Committee's principal objective in awarding stock options to the eligible officers of the Company is to align each optionee's interests with the success of the Company and the financial interests of its stockholders by linking a portion of such optionee's compensation with the performance of the Company's stock and the value delivered to stockholders.

Stock options are granted under the Option Plan at a price not less than the prevailing market value at the grant date and will have realizable value only if the Company's stock price increases. The Compensation Committee determines the amount and features of the stock options, if any, to be awarded to optionees. The Compensation Committee evaluates a number of criteria, including the past service of each such optionee to the Company, the present and potential contributions of such optionee to the success of the Company, and such other factors as the Compensation Committee shall deem relevant in connection with accomplishing the purposes of the Option Plan, including the recipient's current stock holdings, years of service, position with the Company, and other factors. The Compensation Committee does not apply a formula assigning specific weights to any of these factors when making its

determination. The Compensation Committee awards stock options on a subjective basis and such awards depend in each case on the performance of the officer under consideration, and in the case of new hires, their potential performance. Pursuant to the 1940 Act, options may not be repriced for any participant.

All rights to exercise options terminate 60 days after an optionee ceases to be (i) a non-officer director, (ii) both an officer and a director, if such optionee serves

in both capacities, or (iii) an officer (if such officer is not also a director) of the Company for any reason other than death or total and permanent disability. If an optionee's employment is terminated for any reason other than death or total and permanent disability before expiration of his option and before he has fully exercised it, the optionee has the right to exercise the option during the balance of a 60-day period from the date of termination. If an optionee dies or becomes totally and permanently disabled before expiration of the option without fully exercising it, he or she or the executors or administrators or legatees or distributees of the estate shall, as may be provided at the time of the grant, have the right, within one year after the optionee's death or total and permanent disability, to exercise the option in whole or in part before the expiration of its term.

All outstanding options will become fully vested and exercisable upon a Change of Control. For purposes of the Option Plan, a Change of Control means (i) the sale or other disposition of all or substantially all of the Company's assets; or (ii) the acquisition, whether directly, indirectly, beneficially (within the meaning of Rule 13d-3 of the Exchange Act), or of record, as a result of a merger, consolidation or otherwise, of securities of the Company representing fifteen percent (15%) or more of the aggregate voting power of the Company's then outstanding common stock by any person (within the meaning of Section 13(d) and 14(d) of the Exchange Act), including, but not limited to, any corporation or group of persons acting in concert, other than (A) the Company or its subsidiaries and/or (B) any employee pension benefit plan (within the meaning of Section 3(2) of the Employee Retirement Income Security Act of 1974) of the Company or its subsidiaries, including a trust established pursuant to any such plan; or (iii) the individuals who were members of the Board of Directors as of the Effective Date (the Incumbent Board) cease to constitute at least two-thirds ($\frac{2}{3}$) of the Board of Directors; provided, however, that any director appointed by at least two-thirds ($\frac{2}{3}$) of the then Incumbent Board or nominated by at least two-thirds ($\frac{2}{3}$) of the Corporate Governance/ Nominating Committee of the Board of Directors (a majority of the members of the Corporate Governance/ Nominating Committee are members of the then Incumbent Board or appointees thereof), other than any director appointed or nominated in connection with, or as a result of, a threatened or actual proxy or control contest, shall be deemed to constitute a member of the Incumbent Board.

The Option Plan is designed to satisfy the conditions of Section 422 of the Code so that options granted under the Option Plan may qualify as incentive stock options. To qualify as incentive stock options, options may not become exercisable for the first time in any year if the number of incentive options first exercisable in that year multiplied by the exercise price exceeds \$100,000.

On February 1, 2008, options to purchase 7.1 million shares were granted with an exercise price of \$22.96 per share. The options vest ratably over a three-year period beginning on June 30, 2009. The estimated expense included in the Grants of Plan-Based Awards table, above, does not include any expense related to the options granted in 2008.

Option Cancellation and the OCP

In connection with the Company's 2006 Annual Meeting of Stockholders, the stockholders approved the issuance of up to 2,500,000 shares of the Company's common stock in exchange for the cancellation of vested in-the-money stock options granted to certain officers and directors under the Amended Stock Option Plan. Under the initiative, which was reviewed and approved by the Company's Board of Directors, all optionees who held vested stock options with exercise prices below the market value of the stock (or in-the-money options), were offered the opportunity to receive cash and unregistered common stock in exchange for their voluntary cancellation of their vested stock options. The sum of the cash and common stock to be received by each optionee would equal the in-the-money value of the stock option cancelled. On July 18, 2007, the Company completed a tender offer to all optionees who held vested in-the-money stock options as of June 20, 2007. The Company accepted for cancellation 10.3 million vested options held by employees and non-officer directors, which in the aggregate had a weighted average exercise price per share of \$21.50. This resulted in a total OCP of approximately \$105.6 million, of which \$52.8 million was paid in cash to satisfy required tax liabilities and \$52.8 million was paid through the issuance of 1.7 million unregistered shares of the Company's common stock, determined using the Weighted Average Market Price of \$31.75, which represented the volume-weighted average price of the Company's common stock over the fifteen trading days preceding the

first day the offer period. The NEOs received the following OCPs in connection with their participation in the tender offer:

- (1) Executive contributions are based on the IPAs earned during the 2007 plan year (net of FICA tax) and contributed to the 2005 DCP II. There are no other executive deferrals.
- (2) Company contributions (net of FICA tax) are based on the excess 401(k) employer contribution made to the 2005 DCP I in 2007 (for the 2006 plan year) and allocated to the participant's account.
- (3) Includes interest and dividend income and realized and unrealized gains and losses on all deferred compensation arrangements.
- (4) The Executive and Company contributions are also reflected in the Summary Compensation Table.
- (5) During 2007, the Company's Board of Directors determined to terminate the Company's deferred compensation arrangements, and the balances will be distributed to the participants in 2008. See "Termination of Deferred Compensation Arrangements" below.

The 2005 Deferred Compensation Plan I. The 2005 Allied Capital Corporation Non-Qualified Deferred Compensation Plan, or 2005 DCP I, is an unfunded plan, as defined in the Code, that provides for the voluntary deferral of compensation by directors, employees and consultants of the Company. Prior to 2005, such voluntary deferrals were made to the Allied Capital Corporation Non-Qualified Deferred Compensation Plan, or DCP I. Any director, senior officer, or consultant of the Company is eligible to participate in the 2005 DCP I at such time and for such period as designated by the Board of Directors. The 2005 DCP I is administered through a grantor trust, and the Company funds this plan through cash contributions.

The 2005 Deferred Compensation Plan II. The 2005 Allied Capital Corporation Non-Qualified Deferred Compensation Plan II, or 2005 DCP II, is an unfunded plan, as defined in the Code, that provides for the deferral of compensation by the Company's officers. All IPA contributions made for 2005, 2006, and 2007 were made into 2005 DCP II. Prior to 2005, IPA contributions were made to the Allied Capital Corporation Non-Qualified Deferred Compensation Plan II (DCP II).

The IPAs were generally deposited in the trust in equal installments, on a quarterly basis, in the form of cash. The Compensation Committee designed both DCP II and 2005 DCP II to require the trustee to use the cash to purchase shares of the Company's common stock in the open market. A participant only vests in the award as it is deposited into the trust. The Compensation Committee, in its sole discretion, designates the senior officers who were to receive IPAs and participate in 2005 DCP II. During any period of time in which a participant has an account in either DCP II or 2005 DCP II, any dividends declared and paid on shares of common stock allocated to the participant's accounts were reinvested in shares of the Company's common stock.

The Compensation Committee of the Company's Board of Directors administers all of the Company's deferred compensation arrangements. The Board of Directors reserves the right to amend, terminate, or discontinue DCP II and 2005 DCP II, provided that no such action will adversely affect a participant's rights under the plans with respect to the amounts contributed to his or her deferral accounts.

Termination of Deferred Compensation Arrangements. In December 2007, the Company's Board of Directors made a determination that it is in the best interests of the Company to terminate its deferred compensation arrangements (each individually a Plan, or collectively, the Plans). The Board of Directors' decision was primarily in response to increased complexity resulting from recent changes in the regulation of deferred compensation arrangements.

The Board of Directors resolved that DCP I and DCP II will be terminated in accordance with the provisions of each of these Plans, and the accounts under these Plans will be distributed to participants in full on March 18, 2008, the termination and distribution date, or as soon as is reasonably practicable thereafter.

The Board of Directors also resolved to amend and restate 2005 DCP I and 2005 DCP II to provide for termination of each of these Plans and distribution of the accounts under these Plans on March 18, 2008, or as soon as is reasonably practicable thereafter, in full in accordance with the transition rule for payment elections under Section 409A of the Code.

Distributions from the Plans will be made in cash or shares of the Company's common stock, net of required withholding taxes. The assets of the rabbi trust related to DCP I and 2005 DCP I are primarily invested in assets other than shares of the Company's common stock. At December 31, 2007, the liability to participants related to DCP I and 2005 DCP I was valued at \$21.1 million in the aggregate, and that liability is fully funded by assets held in the rabbi trust.

The assets of the rabbi trust related to DCP II and 2005 DCP II are primarily invested in shares of the Company's common stock. At December 31, 2007, the liability to participants related to DCP II and 2005 DCP II was valued at \$31.4 million in the aggregate, and that liability is fully funded by assets held in the rabbi trust. At December 31, 2007, the rabbi trust held approximately 1.4 million shares for DCP II and 2005 DCP II.

The account balances in the Plans reflect a combination of participant elective compensation deferrals and non-elective employer contributions, including contributions related to previously earned IPAs. As of March 4, 2008, the account balances of the NEOs related to these Plans were \$7.0 million for Mr. Walton,

\$3.5 million for Ms. Sweeney, \$1.3 million for Ms. Roll, \$1.0 million for Mr. Russell, and \$2.6 million for Mr. Scheurer.

Changes in Method of Payment of IPA for 2008. As a result of the termination of the Company's deferred compensation arrangements, the Compensation Committee is considering the Company's compensation structure and other changes that may be implemented if the Company obtains Commission and stockholder approval to issue restricted stock. For 2008, the Compensation Committee has determined that the IPAs will be paid in cash in two equal installments during the year to eligible officers, rather than contributed to a deferred compensation plan and invested in shares of the Company's common stock.

The total of 2008 IPAs and IPBs are estimated to be \$19.2 million. The 2008 IPAs for the named executive officers are: Mr. Walton \$1,475,000; Ms. Sweeney \$850,000; Ms. Roll \$350,000; Mr. Russell \$475,000; and Mr. Scheurer \$550,000. The 2008 IPBs for the named executive officers are: Mr. Walton \$1,475,000; Ms. Sweeney \$850,000; Ms. Roll \$350,000; Mr. Russell \$475,000; and Mr. Scheurer \$550,000.

Severance and Change of Control Arrangements

The Company entered into employment agreements in 2004 with Mr. Walton, and Ms. Sweeney and Ms. Roll. These agreements were reviewed in 2007 and amended to comply with Section 409A and to address other tax-related matters. Each of the agreements provides for a three-year term that extends one day at the end of every day during its length, unless either party provides written notice of termination of such extension. In that case, the agreement would terminate three years from such notification. The following tables quantify the potential payments and benefits upon termination of the Company for each of the NEOs with an employment agreement, assuming the NEO's employment terminated on December 31, 2007, given the NEO's compensation and service level as of that date, excluding \$11,366,271 for Mr. Walton, \$5,832,948 for Ms. Sweeney and \$2,247,601 for Ms. Roll representing each NEO's current deferred compensation balances, which will be distributed to each NEO in 2008 pursuant to the Board of Director's determination in December 2007 to terminate the Company's deferred compensation arrangements. Due to the number of factors that affect these calculations, including the price of the Company's common stock, any actual amounts paid or distributed may be different.

By Executive For Good Reason or By Company Without Cause. Pursuant to each of those agreements, if the executive resigns without good reason or his/her employment is terminated with cause, the executive will not receive any severance pay. If, however, employment is terminated by the Company without cause or by the executive for good reason, the executive will be entitled to severance pay for a period not to exceed 36 months. Severance pay will include three times the average base salary for the preceding three years, plus three times the average bonus compensation for the preceding three years, plus a lump sum severance amount, plus certain benefits for a period of one year. These benefits include COBRA premiums for Mr. Walton, Ms. Sweeney and Ms. Roll and their eligible family members for the maximum period of continuation coverage provided under COBRA, and also include the full cost for substantially equivalent health and dental insurance benefits for six months after such maximum continuation coverage expires at the sole expense of the Company. These benefits also include participation in the Company's stock option plan, split-dollar life insurance plan, executive long term disability plan, and deferred compensation plan, if applicable. Severance payments will generally be paid in a lump sum no earlier than six months after separation.

Change of Control. In the event of a change of control, in addition to the severance value described above, Mr. Walton, Ms. Sweeney and Ms. Roll would each be entitled to a tax equalization payment to offset any applicable excise tax penalties imposed on the executive under Section 4999 of the Code. Under the terms of the Option Plan, all outstanding options will vest immediately upon a change of control. See Amended Stock Option Plan above for the definition of change of control.

Death or Disability. If employment is terminated as a result of death or disability (as defined in the executives employment agreements) and no notice of non-renewal has been given, the executive will be entitled to severance pay equal to one times his/her average base salary for the preceding three years, plus one times his/her average bonus compensation for the preceding three years, plus a lump sum severance amount, plus certain benefits previously described for a period of one year.

Notice of Non-Renewal. If a notice of non-renewal has been given prior to death or disability of the executive, then instead of using a one times multiple of the average base salary and average bonus compensation as described above, the severance amount that relates to base salary and bonus compensation would be calculated using the number of years remaining between the date of the executive's death or disability and the third anniversary of the notice of non-renewal, but in no event less than one year. Any severance relating to disability will be paid in a lump sum no earlier than six months after separation. Any severance relating to death will be paid in two installments: 75% of such pay will be paid at the time of separation and 25% will be paid on the first anniversary of such separation.

If the term of employment expires in accordance with the agreement after the delivery of a non-renewal notice by either party, the executive would continue to be employed for three years after the notice of non-renewal (unless otherwise terminated under the agreement). At the end of the three-year term, the executive would receive severance pay equal to one times the average base salary for the preceding three years, plus one times the average bonus compensation for the preceding three years, plus a lump sum severance amount, plus the benefits previously described. Severance payments will be paid in a lump sum no earlier than six months after separation.

If any provision of the employment agreements would cause the executive to incur any additional tax under Section 409A of the Code or any regulations or Treasury guidance promulgated thereunder, the Company will reform the provision in a manner that maintains, to the extent possible, the original intent of the applicable provision without violating the provisions of Section 409A of the Code. In addition, in such a situation, the Company will notify and consult with the executives prior to the effective date of any such change.

Indemnification Agreements

The Company has entered into indemnification agreements with its directors and certain senior officers of the Company including each of the NEOs. The indemnification agreements are intended to provide these directors and senior officers the maximum indemnification permitted under Maryland law and the 1940 Act. Each indemnification agreement provides that the Company shall indemnify the director or officer who is a party to the agreement (an

Indemnitee), including the advancement of legal expenses, if, by reason of his or her corporate status, the Indemnitee is, or is threatened to be, made a party to or a witness in any threatened, pending, or completed proceeding, other than a proceeding by or in the right of the Company.

Target Ownership

During 2006, our Board of Directors established a target ownership program, which requires senior officers to achieve and retain certain stock ownership levels commensurate with their positions within the Company. From the inception of the target ownership program in 2006, officers have five years to achieve the required ownership levels. Individuals who are hired or promoted after the implementation of the target ownership program would be required to achieve the target ownership level within the later of five years from the date of hire or three years from the date

of promotion to the relevant title. Many of the Company's senior officers already own a substantial number of shares of the Company and few have chosen to sell shares over their tenure with the Company. The Board of Directors believes that it is in the best interest of stockholders to encourage share ownership by the Company's senior officers, so that the interests of officers and stockholders are aligned.

The Board of Directors has determined target ownership levels for the Company's senior officers, as follows:

Senior Officer	Multiple of Base Salary	Minimum Share Ownership Range
Chief Executive Officer	5x	250,000 shares
Management Committee Members	4x	55,000 - 130,000 shares
Managing Directors and Executive Vice Presidents who are not members of the Management Committee	3x	21,500 - 45,000 shares
Principals	2x	10,000 - 20,500 shares

Target ownership amounts represent the lesser of a multiple of base salary or a specified number of shares. Minimum share ownership requirements are determined on an individual basis and are adjusted annually by the Compensation Committee.

The Company's Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, as well as certain other senior officers, have met their target ownership levels set forth above. See "Security Ownership of Management and Certain Beneficial Owners".

In addition, pursuant to the Company's Corporate Governance Policy, each non-officer director is required to own \$100,000 worth of shares, and directors are required to achieve this target ownership level within five years of joining the Board or (in the case of those directors who were serving on the Board at the time the policy was adopted by the Board) by February 2011. The majority of the Company's directors have achieved this target ownership level.

PROPOSAL 2. RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee and the independent members of the Board of Directors have appointed KPMG LLP as the Company's independent registered public accounting firm for the year ending December 31, 2008. If the stockholders ratify the selection of KPMG LLP as the Company's accountants, KPMG LLP also will be the independent registered public accounting firm for the consolidated subsidiaries of the Company, if required.

KPMG LLP has advised the Company that neither the firm nor any present member or associate of it has any material financial interest, direct or indirect, in the Company or its subsidiaries.

The Company expects that a representative of KPMG LLP will be present at the Meeting and will have an opportunity to make a statement if he or she so chooses and will be available to respond to appropriate questions.

Unless marked to the contrary, the shares represented by the enclosed proxy card will be voted for ratification of the selection of KPMG LLP as the independent registered public accounting firm of the Company.

**The Board of Directors recommends that
stockholders vote to ratify the selection of KPMG LLP as the
independent registered public accounting firm of the Company.**

Fees Paid to KPMG LLP for 2007 and 2006

The following are aggregate fees billed to the Company by KPMG LLP during 2007 and 2006.

	Fiscal Year Ended December 31	
	2007	2006
Audit Fees	\$ 1,730,000	\$ 1,663,338
Audit-Related Fees	185,200	212,500
Tax Fees	28,500	34,250
All Other Fees		
Total Fees:	\$ 1,943,700	\$ 1,910,088

Audit Fees. Audit fees consist of fees billed for professional services rendered for the audit of the Company's year-end consolidated financial statements and reviews of the interim consolidated financial statements included in quarterly reports and services that are normally provided by KPMG LLP in connection with statutory and regulatory filings. These services also include the required audits of the Company's internal controls over financial reporting.

Audit-Related Fees. Audit-related fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees. These services include attest services that are not required by statute or regulation, consultations concerning financial accounting and reporting standards, and fees related to requests for documentation and information from regulatory and other government agencies.

Tax Fees. Tax fees consist of fees billed for professional services for tax compliance. These services include assistance regarding federal, state, and local tax compliance.

All Other Fees. All other fees would include fees for products and services other than the services reported above.

Report of the Audit Committee

As part of its oversight of the Company's financial statements, the Audit Committee reviewed and discussed with both management and the Company's independent registered public accounting firm all of the Company's financial statements filed with the Commission for each quarter during 2007 and as of and for the year ended December 31, 2007. Management advised the Audit Committee that all financial statements were prepared in accordance with U.S. generally accepted accounting principles (GAAP), and reviewed significant accounting issues with the Audit Committee. The Audit Committee also discussed with the independent

registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 114, *The Auditor's Communication With Those Charged With Governance*, by the Auditing Standards Board of the American Institute of Certified Public Accountants.

The Audit Committee of the Board has established a pre-approval policy that describes the permitted audit, audit-related, tax, and other services to be provided by KPMG LLP, the Company's independent registered public accounting firm. Pursuant to the policy, the Audit Committee pre-approves the audit and non-audit services performed by the independent registered public accounting firm in order to assure that the provision of such service does not impair the firm's independence.

Any requests for audit, audit-related, tax, and other services that have not received general pre-approval must be submitted to the Audit Committee for specific pre-approval, irrespective of the amount, and cannot commence until such approval has been granted. Normally, pre-approval is provided at regularly scheduled meetings of the Audit Committee. However, the Audit Committee may delegate pre-approval authority to one or more of its members. The member or members to whom such authority is delegated shall report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Audit Committee does not delegate its responsibilities to pre-approve services performed by the independent registered public accounting firm to management.

The Audit Committee received and reviewed the written disclosures from the independent registered public accounting firm required by Independence Standard No. 1, *Independence Discussions with Audit Committees*, as amended, by the Independence Standards Board, and has discussed with the firm its independence. The Audit Committee has reviewed the audit fees paid by the Company to the independent registered public accounting firm. It has also reviewed non-audit services and fees to assure compliance with the Company's and the Audit Committee's policies restricting the independent registered public accounting firm from performing services that might impair its independence. The Audit Committee also reviewed the requirements and the Company's compliance with Section 404 of the Sarbanes-Oxley Act of 2002 including the Public Company Accounting Oversight Board's Auditing Standard No. 5 regarding the audit of internal controls over financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the financial statements as of and for the year ended December 31, 2007, be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, for filing with the Commission. The Audit Committee also recommended the selection of KPMG LLP to serve as the independent registered public accounting firm of the Company for the year ending December 31, 2008.

PROPOSAL 3.
**APPROVAL TO AUTHORIZE THE COMPANY TO SELL SHARES OF
COMMON STOCK BELOW NET ASSET VALUE PER SHARE**

The Company is a closed-end investment company that has elected to be regulated as a business development company (BDC) under the 1940 Act. The 1940 Act prohibits the Company from selling shares of its common stock at a price below the current net asset value per share of such stock, or NAV, unless its stockholders approve such a sale and the Company's Board of Directors make certain determinations.

Pursuant to this provision, the Company is seeking the approval of its common stockholders so that it may, in one or more public or private offerings of its common stock, sell or otherwise issue shares of its common stock at a price below its then current NAV, subject to certain conditions discussed below. If approved, the authorization would be effective for a twelve month period expiring on the earlier of the anniversary of the date of this Meeting or the date of the Company's 2009 Annual Meeting of Stockholders, which is expected to be held in April 2009.

Reasons to Offer Common Stock below NAV. The Company believes that market conditions will continue to provide attractive opportunities to deploy capital. Over the past several months, U.S. credit markets, including middle market lending, have experienced significant turbulence spurred in large part by the sub-prime residential mortgage crisis and concerns generally about the state of the U.S. economy. This has led to significant stock price volatility for capital providers such as the Company and has made access to capital more challenging for many firms, particularly those (unlike the Company) who have relied heavily on secured lending facilities. However, the change in market conditions also has had beneficial effects for capital providers, including more reasonable pricing of risk and more appropriate contractual terms. Accordingly, for firms that continue to have access to capital, the current environment should provide investment opportunities on more favorable terms than have been available in recent periods. The Company's ability to take advantage of these opportunities is dependent upon its access to equity capital.

As a BDC and a regulated investment company (RIC) for tax purposes, the Company is dependent on its ability to raise capital through the issuance of common stock. RICs generally must distribute substantially all of their earnings to stockholders as dividends in order to achieve pass-through tax treatment, which prevents the Company from using those earnings to support new investments. Further, BDCs must maintain a debt to equity ratio of less than 1:1, which requires the Company to finance its investments with at least as much equity as debt in the aggregate. The Company maintains sources of liquidity through a portfolio of liquid assets and other means, but generally attempts to remain close to fully invested and does not hold substantial cash for the purpose of making new investments. Therefore, to continue to build the Company's investment portfolio, and thereby support maintenance and growth of the Company's dividends, the Company endeavors to maintain consistent access to capital through the public and private equity markets enabling it to take advantage of investment opportunities as they arise.

The Company's common stock has historically traded at a premium above NAV. The following table lists the high and low closing sales prices for our common stock,

and the closing sales price as a percentage of NAV. On March 4, 2008, the last reported closing sale price of our common stock was \$22.03 per share.

Third Quarter	\$17.90	\$32.87	\$27.10	184%	151%
Fourth Quarter	\$17.54	\$30.90	\$21.15	176%	121%

(1) Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low sales prices. The net asset values shown are based on outstanding shares at the end of each period.

(2) Calculated as the respective high or low closing sales price divided by NAV.

Although the Company has experienced a share price above NAV for a significant period of time, there can be no assurance that this will continue. The unprecedented nature of the current credit market dislocation and uncertainty surrounding the U.S. economy has led to significant stock market volatility, particularly with respect to the stock of financial services companies. During times of increased price volatility, the Company's common stock may periodically trade at a smaller premium above or possibly below its NAV, which is not uncommon for business development companies like the Company. The Company's common stock at various times in recent months has traded closer to NAV than it has in several years. As noted above, however, the current market dislocation has created, and we believe will continue to create, favorable opportunities to invest, including opportunities that, all else being equal, may increase NAV over the longer-term, even if financed with the issuance of common stock below NAV. Stockholder approval of the proposal to sell shares below NAV subject to the conditions detailed below will provide the Company with the flexibility to invest in such opportunities.

The Board of Directors believes that having the flexibility to issue its common stock below NAV in certain instances is in the best interests of stockholders. If the Company were unable to access the capital markets as attractive investment opportunities arise, the Company's ability to grow over time and continue to pay steady or increasing dividends to stockholders could be adversely affected. It could also have the effect of forcing the Company to sell assets that the Company would not otherwise sell, and such sales could occur at times that are disadvantageous to sell. Even if the Company is able to access the capital markets, there is no guarantee

that the Company will grow over time and continue to pay steady or increasing dividends.

Conditions to Sales Below NAV. If stockholders approve this proposal, the Company will only sell shares of its common stock at a price below NAV per share if the following conditions are met:

a majority of the Company's independent directors who have no financial interest in the sale have approved the sale; and

a majority of such directors, who are not interested persons of the Company, in consultation with the underwriter or underwriters of the offering if it is to be underwritten, have determined in good faith, and as of a time immediately prior to the first solicitation by or on behalf of the Company of firm commitments to purchase such securities or immediately prior to the issuance of such securities, that the price at which such securities are to be sold is not less than a price which closely approximates the market value of those securities, less any underwriting commission or discount, which could be substantial.

Key Stockholder Considerations. Before voting on this proposal or giving proxies with regard to this matter, stockholders should consider the potentially dilutive effect of the issuance of shares of the Company's common stock at a price that is less than the NAV per share and the expenses associated with such issuance on the NAV per outstanding share of the Company's common stock. Any sale of common stock at a price below NAV would result in an immediate dilution to existing common stockholders. This dilution would include reduction in the NAV per share as a result of the issuance of shares at a price below the NAV per share and a proportionately greater decrease in a stockholder's interest in the earnings and assets of the Company and voting interest in the Company than the increase in the assets of the Company resulting from such issuance. The Board of Directors of the Company will consider the potential dilutive effect of the issuance of shares at a price below the NAV per share when considering whether to authorize any such issuance.

The 1940 Act establishes a connection between common share sale price and NAV because, when stock is sold at a sale price below NAV per share, the resulting increase in the number of outstanding shares reduces net asset value per share. Stockholders should also consider that they will have no subscription, preferential or preemptive rights to additional shares of the common stock proposed to be authorized for issuance, and thus any future issuance of common stock will dilute such stockholders' holdings of common stock as a percentage of shares outstanding to the extent stockholders do not purchase sufficient shares in the offering or otherwise to maintain their percentage interest. Further, if current stockholders of the Company do not purchase any shares to maintain their percentage interest, regardless of whether such offering is above or below the then current NAV, their voting power will be diluted.

Example of Dilutive Effect of the Issuance of Shares Below NAV. Company XYZ has 1,000,000 total shares outstanding, \$15,000,000 in total assets and \$5,000,000 in total liabilities. The NAV per share of the common stock of Company XYZ is \$10.00. The following table illustrates the reduction to NAV and the dilution

experienced by Shareholder A following the sale of 40,000 shares of the common stock of Company XYZ at \$9.50 per share, a price below its NAV per share.

	Prior to Sale Below NAV	Following Sale Below NAV	Percentage Change
Reduction to NAV			
Total Shares Outstanding	1,000,000	1,040,000	4.0%
NAV per share	\$ 10.00	\$ 9.98	(0.2)%
Dilution to Existing Shareholder			
Shares Held by Shareholder A	10,000	10,000 ⁽¹⁾	0.0%
Percentage Held by Shareholder A	1.00%	0.96%	(3.8)%
Total Interest of Shareholder A	\$ 100,000	\$ 99,808	(0.2)%

⁽¹⁾ Assumes that Shareholder A does not purchase additional shares in equity offering of shares below NAV.

Required Vote. Approval of this proposal requires the affirmative vote of (1) a majority of the outstanding shares of common stock entitled to vote at the Meeting; and (2) a majority of the outstanding shares of common stock entitled to vote at the Meeting that are not held by affiliated persons of the Company, which includes directors, officers, employees, and 5% stockholders. For purposes of this proposal, the 1940 Act defines a majority of the outstanding shares as: (1) 67% or more of the voting securities present at the Meeting if the holders of more than 50% of the outstanding voting securities of the Company are present or represented by proxy; or (2) 50% of the outstanding voting securities of the Company, whichever is the less. Abstentions and broker non-votes will have the effect of a vote against this proposal.

The Board of Directors recommends that you vote FOR the proposal to authorize the Company to sell shares of its common stock during the next year at a price below the Company's then current NAV per share.

Other Business

The Board of Directors knows of no other business to be presented for action at the Meeting. If any matters do come before the Meeting on which action can properly be taken, it is intended that the proxies shall vote in accordance with the judgment of the person or persons exercising the authority conferred by the proxy at the Meeting. The submission of a proposal does not guarantee its inclusion in the Company's Proxy Statement or presentation at the Meeting unless certain requirements are met.

2009 Annual Meeting of Stockholders

Any stockholder proposals submitted pursuant to the Commission's Rule 14a-8 for inclusion in the Company's proxy statement and form of proxy for the 2008 annual meeting of stockholders must be received by the Company on or before November 14, 2008. Such proposals must also comply with the requirements as to form and substance established by the Commission if such proposals are to be included in the proxy statement and form of proxy. Any such proposal should be

mailed to: Allied Capital Corporation, 1919 Pennsylvania Avenue, N.W., Washington, D.C. 20006, Attention: Corporate Secretary.

Stockholder proposals or director nominations to be presented at the 2009 annual meeting of stockholders, other than stockholder proposals submitted pursuant to the Commission's Rule 14a-8, must be delivered to, or mailed and received at, the principal executive offices of the Company not less than ninety (90) days in advance of the one year anniversary of the date the Company's proxy statement was released to stockholders in connection with the previous year's annual meeting of stockholders. For the Company's 2009 annual meeting of stockholders, the Company must receive such proposals and nominations no later than December 14, 2008. If the date of the annual meeting has been changed by more than thirty (30) calendar days from the date contemplated at the time of the previous year's proxy statement, stockholder proposals or director nominations must be so received not later than the tenth day following the day on which such notice of the date of the 2009 annual meeting of stockholders or such public disclosure is made. Proposals must also comply with the other requirements contained in the Company's bylaws, including supporting documentation and other information. Proxies solicited by the Company will confer discretionary voting authority with respect to these proposals, subject to Commission rules governing the exercise of this authority.
