**Item 5. Other Events**

On February 5, 2004, Callon Petroleum Company issued the press release attached as Exhibit 99.1 announcing that the company has hedged a total of 5.4 million mmBtu (million British thermal units) of natural gas production during the 15-month period from January 2004 through March 2005. The natural gas hedges were implemented through derivative transactions in the form of no-cost collars. The company also announced it has hedged approximately one million barrels of crude oil production during the 12-month period from February 2004 through January 2005. The crude oil hedges were implemented through derivative transactions in a combination of swaps and no-cost collars.
