PROXY STATEMENT
FOR 2006 ANNUAL MEETING OF STOCKHOLDERS

General Information

This proxy statement is furnished to the stockholders of Dynavax Technologies Corporation, a Delaware corporation, in connection with the solicitation by our Board of Directors of proxies in the accompanying form for use in voting at the annual meeting of stockholders to be held on Wednesday, June 14, 2006, at 8:00 a.m., Pacific Time, at the company's executive offices at 2929 Seventh Street, Suite 100, Berkeley, California, and any adjournment or postponement thereof. The shares represented by proxies received, properly marked, dated, executed and not revoked will be voted at the annual meeting.

Our Internet Web site address is www.dynavax.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act are available free of charge through our Web site as soon as reasonably practicable after they are electronically filed with, or furnished to, the Securities and Exchange Commission. We will also provide the reports in paper form free of charge upon request. All materials filed by us with the Commission also can be obtained at the Commission's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 or through the Commission's Web site at www.sec.gov. You may obtain information on the operation of the Public Reference Room by calling 1-800-SEC-0330.

Solicitation, Record Date and Voting Procedures

The solicitation of proxies will be conducted by mail and we will bear all attendant costs. These costs will include the expense of preparing and mailing proxy materials for the annual meeting and reimbursements paid to brokerage firms and others for their expenses incurred in forwarding solicitation material regarding the annual meeting to beneficial owners of our common stock. We may conduct further solicitation personally, telephonically or by facsimile through our officers, directors and regular employees, none of whom will receive additional compensation for assisting with the solicitation.

The close of business on April 24, 2006 has been fixed as the record date for determining the holders of shares of our common stock entitled to notice of and to vote at the annual meeting. As of the close of business on the record date, we had 30,495,215 shares of common stock outstanding and entitled to vote at the annual meeting. The presence at the annual meeting of a majority of these shares of our common stock, either in person or by proxy, will constitute a quorum for the transaction of business at the annual meeting. An automated system administered by our transfer agent will tabulate votes cast by proxy and a representative of the transfer agent will act as inspector of elections to tabulate votes cast in person at the annual meeting. Each outstanding share of common stock on the record date is entitled to one vote on all matters.

Under the General Corporation Law of the State of Delaware, an abstaining vote and a broker's non-vote are counted as present and are, therefore, included for purposes of determining whether a quorum of shares is present at the annual meeting. Abstentions are included in determining the number of shares voted on the proposals submitted to stockholders (other than the election of directors) and will have the same effect as a "no" vote on such proposals. A broker's non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular matter because the nominee does not have the discretionary voting power with respect to that matter and has not received instructions from the beneficial owner. Broker's non-votes, and shares as to which proxy authority has been withheld with respect to any matter, are generally not deemed to be entitled to vote for purposes of determining whether stockholders' approval of that matter has been obtained.

With respect to our proposal 1 of this proxy statement, the director nominees will be elected by a plurality of the votes of shares of our common stock represented and voted at the annual meeting, and abstentions and broker non-votes will have no effect on the outcome of the election of director nominees. With respect to proposal 2 of this proxy statement, the affirmative vote of a majority of shares of our common stock represented and voted at the annual meeting is required for approval. Abstentions will have the same effect as no votes on proposal 2, whereas broker non-votes will have no effect on such proposals.

The Proxy

The persons named as proxyholders, Dino Dina, M.D. and Deborah A. Smeltzer, were selected by our Board of Directors and currently serve as named executive officers.

All shares represented by each properly executed, unrevoked proxy received in time for the annual meeting will be voted in the manner specified therein. If no specification is made on the proxy as to any one or more of the proposals, the common stock represented by the proxy will be voted as to the proposal for which no specification is given as follows: FOR the election of the director nominees named in this proxy statement; FOR the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for the 2006 fiscal year; and, with respect to any other matters that may come before the annual meeting, at the discretion of the proxyholders. We do not presently know of any other business to be conducted at the annual meeting.

Revocability of Proxy

If the shares of common stock are held in your name, you may revoke your proxy given pursuant to this solicitation at any time before the proxy card is voted by: (i) delivering to us (to the attention of our Secretary), at the address of our principal executive offices, a written notice of revocation or a duly executed proxy bearing a later date, or (ii) attending the annual meeting and voting in person. If your shares are held in street name, you should follow the directions provided by your broker regarding how to revoke your proxy. Your attendance at the annual meeting after having executed and delivered a valid proxy card will not in and of itself constitute a revocation of your proxy. You will be required to give oral notice of your intention to vote in person to the inspector of elections at the annual meeting.

PROPOSAL ONE ELECTION OF DIRECTORS

Our bylaws authorize the number of directors to be not less than six or more than eleven. The number of directors on our Board of Directors is currently fixed at nine. As of March 31, 2006, eight seats on the board have been filled. The board is divided into three classes: Class I, Class II and Class III. Each director serves a three-year term. The board is currently composed of three Class I directors (Drs. Dina, Carson and Gilbert), whose terms will expire upon the election and qualification of directors at the annual meeting of stockholders to be held in 2007, three Class II directors (Mr. Leschly, Dr. Plotkin and Ms. Buc), whose terms will expire at the annual meeting of stockholders to be held in 2008, and two Class III directors (Dr. Oronsky and Mr. Janney), whose term will expire at this annual meeting. At each annual meeting of stockholders, directors will be elected for full terms of three years to succeed those directors whose terms are expiring.

At this annual meeting, the stockholders will elect two Class III directors. Dr. Oronsky and Mr. Janney have been nominated to serve a three-year term, until the annual meeting of stockholders to be held in 2009, or until their successors are elected or appointed and qualified, or until their earlier resignation or removal. Director Independence

Our Board of Directors has determined that the director nominees, Mr. Janney and Dr. Oronsky, are independent as that term is defined in Rule 4200 of the listing standards of the National Association of Securities Dealers.

Director Independence

Our Board of Directors has determined that all non-employee directors of the board, consisting of Messrs. Janney and Leschly, Ms. Buc, and Drs. Carson, Gilbert, Oronsky, and Plotkin are independent as that term is defined in Rule 4200 of the listing standards of the National Association of Securities Dealers. In

making this determination, our Board of Directors considered transactions and relationships between each director or his or her immediate family and the company and our subsidiaries, including those reported in the section below captioned, *Certain Relationships and Related Transactions*. The purpose of this review was to determine whether any such relationships or transactions were material and, therefore, inconsistent with a determination that the director is independent. As a result of this review, our board affirmatively determined, based on its understanding of such transactions and relationships, that all of our non-employee directors are independent of the company and, therefore, a majority of the members of our board is independent, under the standards set forth by the Nasdaq rules.

Compensation Committee Interlocks

No member of our compensation committee serves as a member of the Board of Directors or compensation committee of any entity that has one or more executive officers serving as a member of our Board of Directors or compensation committee.

Relationships Among Directors or Executive Officers

There are no family relationships among any of our directors or executive officers.

Meetings and Committees of the Board of Directors

During 2005, our Board of Directors met 10 times in meetings or telephonically. Dr. Plotkin attended fewer than 75% of the Board of Director meetings held in 2005 following his appointment to the board. The Company held several special meetings by teleconference to discuss the results of clinical trials and financing opportunities. The Company as a matter of practice attempts to contact directors unable to attend meetings scheduled on short notice to brief them on the content and ensure their input on key decisions is received and considered at such meetings.

It is the policy of our board to encourage members of the board to attend the annual stockholder's meetings and it is the policy of our board that at the conclusion of each meeting of the board that the independent directors shall meet separately with no members of management present, and that the Chairman of our nominating committee shall act as the chair of such meetings of the independent directors.

Compensation Committee

The compensation committee held 4 meetings in 2005. The compensation committee currently consists of Mr. Janney and Ms. Buc, with Ms. Buc serving as the chair. Mr. Louis C. Bock, the former Chairman of the Compensation Committee, resigned from our Board of Directors on August 19, 2005. Our Board of Directors has determined that all current members of the compensation committee are independent as that term is defined in Rule 4200 of the listing standards of the National Association of Securities Dealers. The committee's functions are to establish and apply our compensation policies with respect to our executive officers. Additional duties and powers of the compensation committee are set forth in its charter, which was adopted and approved in November 2003 and a copy of which is available on our website at <http://www.dynavax.com>.

Audit Committee

The audit committee held 8 meetings in 2005. The audit committee currently consists of Drs. Gilbert and Oronsky and Mr. Janney, with Dr. Gilbert serving as the chair. The audit committee is directly responsible for the appointment, compensation, retention and oversight of our independent registered public accounting firm, and for approving the audit and non-audit services performed by our independent registered public accounting firm. In addition, the audit committee is responsible for reviewing and evaluating our accounting principles and our system of internal accounting controls, and the development, evaluation and monitoring of our corporate governance processes and principles. The committee also is responsible for developing, implementing and monitoring compliance of our code of business conduct and ethics and making recommendations to the board of revisions to the code from time to time as appropriate. The audit committee

has also established procedures for (a) the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or auditing matters, and (b) the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters. Additional duties and powers of the audit committee are set forth in its amended and restated charter, which was adopted and approved in April 2004, a copy of which is available on our website at <http://www.dynavax.com>.

After considering transactions and relationships between each member of the audit committee or his immediate family and the company and our subsidiaries and reviewing the qualifications of the members of the audit committee, our Board of Directors has determined that all current members of the audit committee are (1) independent as that term is defined in Section 10A of the Exchange Act; (2) independent as that term is defined in Rule 4200 of the listing standards of the National Association of Securities Dealers; and (3) financially literate and have the requisite financial sophistication as required by the Nasdaq rules applicable to issuers listed on the Nasdaq National Market. Furthermore, our Board of Directors has determined that Dr. Gilbert qualifies as an audit committee financial expert, as defined by the applicable rules of the Exchange Act, based on, among other things, Dr. Gilbert's experience of having served as chief financial officer of two public biotech companies, and that in those capacities she has acquired the relevant experience and expertise and has the attributes set forth in the applicable rules as being required for an audit committee financial expert.

Nominating Committee

The nominating committee held 1 meeting in 2005. The nominating committee consists of Mr. Janney and Dr. Oronsky, with Dr. Oronsky serving as the chair. Our Board of Directors has determined that all current members of the nominating committee are independent as that term is defined in Rule 4200 of the listing standards of the National Association of Securities Dealers. The nominating committee is to assist the board in all matters relating to the establishment, implementation and monitoring of policies and processes regarding the recruitment and nomination of candidates to the board and committees of the board. Additional duties and powers of the nominating committee are set forth in its charter, which was adopted and approved in February 2004, a copy of which is available on our website at <http://www.dynavax.com>.

Qualifications of Directors

Our Board of Directors has not established any special qualifications or any minimum criteria for director nominees. In considering candidates for the board, the nominating committee will consider the entirety of each candidate's credentials. However, as specified in the charter for the nominating committee, the nominating committee shall consider certain qualifications such as the nominee's personal and professional integrity, ability, judgment, broad experience in business, finance or administration, familiarity with our industry, ability to serve the long-term interests of our stockholders and sufficient time available to devote to our affairs. The nominating committee will also use its best efforts to seek to ensure that the composition of our Board of Directors at all times adheres to the independence requirements applicable to companies listed on the Nasdaq National Market, as well as other regulatory requirements applicable to us.

Director Nomination Process

We do not have a formal director nomination process.

Continuing Directors

Generally, the nominating committee identifies nominees by first evaluating the current members of the board willing to continue in service. Current members of the board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination. The nominating committee will balance the value of continuity of service by existing members of the board with that of obtaining a new perspective.

New Directors

Generally, once a need to add a new board member is identified, the nominating committee will initiate a search by working with staff support, seeking input from board members and senior management and hiring a consultant or search firm, if necessary. After a slate of possible candidates is identified, members of the nominating committee, other members of the board and senior management have the opportunity to interview the prospective candidate(s). The remaining members of the board who do not interview the prospective candidate(s) are kept informed of the progress. The nominating committee ultimately recommends the best candidate(s) the committee members determine after the selection process for approval by the full board.

Compensation of Directors**Compensation in 2005**

On April 14, 2005, we adopted a Compensation Plan (the Plan) for our board of directors. The purpose of the Plan is to enhance our ability to attract and retain directors through an option and cash compensation program that is commensurate with current industry practices. Dr. Dina, who is our only employee director, does not participate in the Plan and receives no compensation for his service on the board. Under the Plan, each of our non-employee directors receives the following compensation:

Cash Compensation. The Plan provides that each director and the chair of the board will receive an annual retainer and additional cash compensation for each board meeting attended in person or by telephone. In addition, the Plan provides that the chair of the audit committee, compensation committee and nominating committee will each receive an annual retainer. Directors attending committee meetings will receive additional cash compensation for each committee meeting attended in person or by telephone.

Equity Compensation. The Plan provides that each director and the chair of the board receive a non-qualified stock option to purchase shares of common stock on April 14, 2005. These options vest and become exercisable in four equal installments on each anniversary of the grant date. The exercise price per share of these options is equal to the fair market value of our common stock on the date of grant. In addition, upon the date of each annual stockholders meeting (beginning with the 2006 meeting), each non-employee director and the chair of the board who has been a member of our Board of Directors prior to the date of the stockholders' meeting will receive a subsequent grant of options to acquire shares of our common stock, pro-rated from the non-employee director's election date. These options will vest and become exercisable in full on the first anniversary of the grant date.

2005 cash and equity compensation are summarized in the table below:

	Annual Retainer	Board	Compensation Committee	Audit Committee	Nominating Committee	Initial Option Grant	Annual Option Grant
Directors (1)	\$ 20,000					20,000	10,000
Chairman of the Board	\$ 30,000					30,000	10,000
Compensation committee chair	\$ 6,000						
Audit committee chair	\$ 15,000						
Nominating committee chair	\$ 3,000						
In-person meetings		\$ 2,000	\$ 1,000	\$ 1,500	\$ 1,000		
Telephonic meetings		\$ 500	\$ 500	\$ 500	\$ 500		

- (1) Also effective on April 14, 2005, each director then currently on the board who received an initial grant to purchase less than 20,000 shares of common stock upon election or appointment to the board, received a grant for the difference so that said board member's initial grant equals 20,000 shares.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and persons who own more than 10% of our common stock (collectively, Reporting Persons) to file

initial reports of ownership and changes in ownership of our common stock with the Securities and Exchange Commission. Copies of these reports are also required to be delivered to us.

We believe, based solely on our review of the copies of such reports received or written representations from certain Reporting Persons, that during the fiscal year ended December 31, 2005, all Reporting Persons complied with all applicable filing requirements.

Communications with the Board

Our Board of Directors believes that full and open communication between stockholders and members of our board is in our best interests and the best interests of our stockholders. Stockholders can contact any director or committee of the board by writing to our Secretary, c/o Dynavax Technologies Corporation, 2929 Seventh Street, Suite 100, Berkeley, California 94710. The Secretary will determine the extent to which such stockholder communications should be disseminated to other members of the board and what response, if any, should be made to such communications. Comments or complaints relating to our accounting, internal accounting controls or auditing matters may be referred directly to our audit committee by writing to the Chairman of the audit committee, c/o Dynavax Technologies Corporation, 2929 Seventh Street, Suite 100, Berkeley, California 94710.

Stockholder Proposals

The Company will consider stockholder proposals properly submitted to us, and the nominating committee will consider recommendations of qualified director nominee(s), in accordance with the procedures set forth below. In order to have a proposal considered for the 2007 annual meeting, a stockholder must submit its proposal and other relevant information in writing to the attention of our Secretary at our principal executive offices no earlier than March 16, 2007 and no later than April 15, 2007. The stockholder must submit the following relevant information: (1) a brief description of the business desired to be brought before the annual meeting and the reasons for conducting such business at the annual meeting; (2) the name and address, as they appear on our books, of the stockholder proposing such business; (3) the class and number of shares of our common stock which are beneficially owned by the stockholder; (4) any material interest of the stockholder in such business; and (5) any other information that is required to be provided by the stockholder pursuant to Regulation 14A under the Exchange Act, in the stockholder's capacity as a proponent to the proposal.

With respect to recommendations of director nominee(s), the stockholder must submit the following relevant information in writing to the attention of our Secretary at its principal executive offices no earlier than March 16, 2007 and no later than April 15, 2007: (1) the name, age, business and residence address of the prospective candidate; (2) the principal occupation or employment of the prospective candidate (3) the class and number of shares of our common stock, if any, which are beneficially owned by the prospective candidate; (4) the name and address, as they appear on our books, of the stockholder making the recommendation; (5) the class and number of shares of our common stock which are beneficially owned by the stockholder making the recommendation; and (6) any other information that is required to be provided by the stockholder pursuant to Regulation 14A under the Exchange Act. Once the nominating committee receives the stockholder recommendation, it may deliver to the prospective candidate a questionnaire that requests additional information about the candidate's independence, qualifications and other matters that would assist the nominating committee in evaluating the candidate, as well as certain information that must be disclosed about the candidate in our proxy statement or other regulatory filings, if nominated.

The nominating committee will not evaluate candidates differently based on who has made the proposal. The committee will consider candidates for the board from any reasonable source, including stockholder recommendations. No consultants or search firms were used for the slate of director nominees at this annual meeting since all directors nominated are for re-election, and, accordingly, no fees have been paid to consultants or search firms in the past fiscal year associated with the directors nominated.

Greater detail about the submission process for stockholder proposals are set forth in our bylaws, a copy of which may be obtained by making a written request to our Secretary at the address of our principal executive offices.

We have not received a director nominee recommendation from any stockholder (or group of stockholders) that beneficially owns more than five percent of our common stock.

Code of Business Conduct and Ethics

Our Board of Directors adopted a code of business conduct and ethics in December 2003 and adopted revisions to the code in April 2005. The code satisfies the requirements under the Sarbanes-Oxley Act of 2002, as well as Nasdaq rules applicable to issuers listed on the Nasdaq National Market. The code, among other things, addresses issues relating to conflicts of interests, including internal reporting of violations and disclosures, and compliance with applicable laws, rules and regulations. The purpose of the code is to deter wrongdoing and to promote, among other things, honest and ethical conduct and to ensure to the greatest possible extent that our business is conducted in a legal and ethical manner. Any waivers to the code with respect to our executive officers and directors may be granted only by the audit committee. Any waivers to the code with respect to the remainder of the employees may be granted by the corporate compliance officer, which is currently our Chief Financial Officer. Any waivers to the code and any amendments to the code applicable to our Chief Executive Officer, Chief Financial Officer, principal accounting officer, controller or persons performing similar functions, will be posted on our web site. There have been no waivers to the code as of March 31, 2006. Our audit committee has also established procedures for (a) the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or auditing matters, and (b) the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters.

Options granted under our 2004 stock incentive plan are exercisable in accordance with their vesting schedule. Options granted under our 1997 equity incentive plan, as amended, are exercisable immediately and subject to a repurchase option in favor of the company in respect of shares that are unvested upon termination of the optionee's employment, at the per share exercise price. Employee Benefit Plans

1997 Equity Incentive Plan

The 1997 equity incentive plan was approved by our Board of Directors and our shareholders in January 1997. As of March 31, 2006, we had a total of 1,530,465 shares of common stock reserved for issuance under the 1997 plan.

Under the 1997 plan, the board was able to grant incentive stock options to employees, including officers and employee directors. Non-qualified stock options, stock bonuses and restricted stock may be granted to employees, directors, and consultants. The Board of Directors or a committee designated by the board administers our 1997 plan, including selecting the persons eligible under our 1997 plan that were granted awards under our 1997 plan, determining the number of shares to be subject to each award, determining the exercise price of each award and determining the vesting and exercise periods of each award. The exercise price of all incentive stock options granted under our 1997 plan must be at least equal to the fair value of the common stock on the date of grant. The exercise price of all non-qualified stock options granted under our 1997 plan shall be determined by the board, but in no event may be less than 85% of the fair value on the date of grant. With respect to any participant who owns stock possessing more than 10% of the voting power of all our classes of stock, the exercise price of any incentive stock option or nonstatutory stock option granted must equal at least 110% of the fair value on the grant date and the maximum term of any these options must not exceed five years. The maximum term of an incentive stock option or nonstatutory stock option granted to any participant who does not own stock possessing more than 10% of the voting power of all our classes of stock must not exceed ten years. The purchase price of restricted stock issued under our 1997 plan shall be determined by the board, but in no event may be less than 85% of the fair market value on the date of issuance. With respect to any participant who owns stock possessing more than 10% of the voting power of all our classes of stock, the purchase price of restricted stock must equal at least 100% of the fair market value on the date of issuance. The board may grant stock bonuses under our 1997 plan in consideration for past services rendered to the company or for its benefit.

If an optionee's status as an employee, director or consultant terminates for any reason other than death or disability, the optionee may exercise their vested options within 90 days following the termination, or for such longer period specified in the option agreement. In the event the optionee dies while the optionee is an employee, director or consultant of our company, the options vested as of the date of death may be exercised prior to the earlier of their expiration date or 18 months from the date of the optionee's death, or for such longer period specified in the option agreement. In the event the optionee becomes disabled while the optionee is an employee, director or consultant of our company, the options vested as of the date of disability may be exercised prior to the earlier of their expiration date or 12 months from the date of the optionee's disability, or for such longer period specified in the agreement.

Restricted stock and stock bonuses granted under our 1997 plan may be subject to a repurchase option in our favor upon termination of the holder's status as an employee, director or consultant. With respect to restricted stock or stock bonuses, if the holder's status as an employee, director or consultant terminates for any reason, we may repurchase some or all of the unvested shares of restricted stock or stock bonuses from the holder within ninety days following termination of the holder's employment or relationship as director or consultant, as applicable, or any longer period agreed to by us and the holder of the restricted stock or stock bonus. We may repurchase the unvested shares of restricted stock or stock bonus at a repurchase price equal to the original purchase price paid for the shares of restricted stock or the fair market value of the common stock at the time the stock bonus is granted.

The type and maximum number of shares available under our 1997 plan, as well as the number and type of shares subject to, and per share exercise or purchase price of, outstanding awards under our 1997 plan will be appropriately adjusted in the event of certain corporate transactions affecting us which do not involve the receipt of consideration by the company.

In the event of a corporate transaction where the acquiror assumes or replaces awards granted under the 1997 plan, awards issued under the 1997 plan will not be subject to accelerated vesting unless provided otherwise by agreement with the holder of the award. In the event of a corporate transaction where the acquiror does not assume or replace awards granted under the 1997 plan, outstanding awards will become fully vested and if applicable, exercisable, immediately prior to the consummation of the corporate transaction and will terminate upon consummation of the corporate transaction. However, awards that are assumed will automatically become fully vested and, if applicable, exercisable if the holder of the award is terminated by the acquiror without cause or terminates for good reason within 2 years after a corporate transaction.

Under the 1997 plan, a corporate transaction is defined as:

a dissolution, liquidation or sale of all or substantially all of the assets of the company;

a merger or consolidation in which our company is not the surviving entity; or

a reverse merger in which the company is the surviving corporation but the shares of our common stock outstanding immediately preceding the merger are converted by virtue of the merger into other property.

The 1997 plan will terminate automatically in 2007 unless terminated earlier by our Board of Directors. The Board of Directors has the authority to amend or terminate the 1997 plan, subject to stockholder approval of some amendments. However, no action may be taken which will adversely affect any option previously granted under the 1997 plan, without the optionee's consent.

Upon completion of our initial public offering in February 2004, we have made no further grants under our 1997 plan.

2004 Stock Incentive Plan

Upon completion of our initial public offering in February 2004, we adopted the 2004 stock incentive plan, which our stockholders approved prior to the completion of the public offering. We originally reserved 3,500,000 shares of our common stock for issuance under our stock incentive plan, subject to adjustment for any future stock split, stock dividend or other similar change in our common stock or our capital structure. As

was commenced on the first business day of 2005, during the term of our 2004 stock incentive plan, the number of shares of stock reserved for issuance under the 2004 stock incentive plan (including issuance as incentive stock options) will be increased annually by a number equal to the lesser of (a) 2% of the total number of shares outstanding as of that date, (b) 400,000 shares, or (c) a lesser number of shares determined by the board. In 2005 and 2006, the Board of Directors reserved an additional 800,000 shares of stock for issuance under the 2004 stock incentive plan. As of March 31, 2006, we have 4,300,000 shares of stock reserved for issuance under the 2004 plan.

Our 2004 stock incentive plan provides for the grant of stock options, restricted stock, stock appreciation rights, dividend equivalent rights, performance units and performance shares, collectively referred to as awards. Stock options granted under the 2004 stock incentive plan may be either incentive stock options intended to qualify under the provisions of Section 422 of the Internal Revenue Code, or non-qualified stock options. Incentive stock options may be granted only to employees. Awards other than incentive stock options may be granted to employees, directors and consultants.

The Board of Directors or a committee designated by the board, referred to as the plan administrator, administers our 2004 stock incentive plan, including selecting the optionees, determining the number of shares to be subject to each award, determining the exercise or purchase price of each award and determining the vesting and exercise periods of each award.

The exercise price of all incentive stock options granted under our 2004 stock incentive plan must be at least equal to 100% of the fair market value of the common stock on the date of grant. If, however, incentive stock options are granted to an employee who owns stock possessing more than 10% of the voting power of all classes of our stock or the stock of any parent or subsidiary of us, the exercise price of any incentive stock option granted must equal at least 110% of the fair market value on the grant date and the maximum term of these incentive stock options must not exceed five years. The maximum term of an incentive stock option granted to any other participant must not exceed ten years. The plan administrator will determine the term and exercise or purchase price of all other awards granted under our 2004 stock incentive plan.

Under the 2004 stock incentive plan, incentive stock options may not be sold, pledged, assigned, hypothecated, transferred or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised during the lifetime of the participant only by the participant. Other awards shall be transferable by will or by the laws of descent or distribution and to the extent and in the manner provided in the award agreement to the participant's immediate family. The 2004 stock incentive plan permits the designation of beneficiaries by holders of awards, including incentive stock options.

In the event a participant in our 2004 stock incentive plan terminates employment or is terminated by us without cause, any options that have become exercisable prior to the time of termination will remain exercisable for 90 days from the date of termination (unless a shorter or longer period of time is determined by the plan administrator upon grant of the option). In the event a participant in our 2004 stock incentive plan is terminated by us for cause, any options which have become exercisable prior to the time of termination will immediately terminate. If termination was caused by death or disability, any options which have become exercisable prior to the time of termination, will remain exercisable for twelve months from the date of termination (unless a shorter or longer period of time is determined by the plan administrator upon grant of the option). In no event may a participant exercise the option after the expiration date of the option.

Awards granted under our 2004 stock incentive plan will automatically become fully vested immediately prior to the consummation of certain corporate events affecting the company if these awards are not assumed or replaced in connection with the corporate event. Awards that are assumed or replaced will not be accelerated. In addition, a grantee's awards then outstanding will automatically become fully vested if the grantee is terminated without cause or terminates employment for good reason within twelve months after certain corporate events affecting the company.

Unless terminated sooner, our 2004 stock incentive plan will automatically terminate in 2014. Our Board of Directors has authority to amend or terminate our 2004 stock incentive plan. No amendment or termination of the 2004 stock incentive plan shall adversely affect any rights under awards already granted to a participant

unless agreed to by the affected participant. To the extent necessary to comply with applicable provisions of federal securities laws, state corporate and securities laws, the Internal Revenue Code, the rules of any applicable stock exchange or national market system, and the rules of any non-U.S. jurisdiction applicable to awards granted to residents therein, we shall obtain stockholder approval of any such amendment to the 2004 stock incentive plan in such a manner and to such a degree as required.

2004 Non-Employee Director Option Plan

Our 2004 non-employee director stock option program was adopted as part of the 2004 stock incentive plan and is subject to the terms and conditions of the 2004 stock incentive plan. The 2004 non-employee director stock option program is a discretionary program under the 2004 stock incentive plan and is not subject to stockholder approval. The purpose of the 2004 non-employee director stock option program will be to enhance our ability to attract and retain the best available non-employee directors, to provide them additional incentives and, therefore, to promote the success of our business.

The 2004 non-employee director stock option program became effective in February 2004 and was amended as of April 14, 2005. Effective on April 14, 2005, each non-employee director and the chair of the board will receive a non-qualified stock option to purchase 20,000 and 30,000 shares of common stock, respectively. Each non-employee director currently on the board who received an initial grant to purchase less than 20,000 shares of common stock upon election or appointment to the board, shall receive a grant for the difference so that said board member's initial grant equals 20,000 shares. These options vest and become exercisable in four equal installments on each anniversary of the grant date. The exercise price per share of these options is equal to the fair market value of our common stock on the date of grant. In addition, upon the date of each annual stockholders' meeting (beginning with the 2006 meeting), each non-employee director and the chair of the board who has been a member of our Board of Directors prior to the date of the stockholders' meeting will receive a subsequent grant of 10,000 options to acquire shares of our common stock, pro-rated from the non-employee director's election date. These options will vest and become exercisable in full on the first anniversary of the grant date.

The 2004 non-employee director stock option program is administered by the board or a committee designated by the board made up of two or more non-employee directors so that such awards would be exempt from Section 16(b) of the Exchange Act, the administrator is referred to as the program administrator. Subject to the foregoing terms, the program administrator shall determine the terms and conditions of awards, and construe and interpret the terms of the program and awards granted under the program. Non-employee directors may also be granted additional awards under the 2004 stock incentive plan, subject to the discretion of the administrator of our 2004 stock incentive plan.

Unless terminated sooner, the 2004 non-employee director stock option program will terminate automatically in 2014 when the 2004 stock incentive plan terminates. Our Board of Directors has the authority to amend, suspend or terminate the 2004 non-employee director stock option program. No amendment or termination of the 2004 non-employee director stock option program shall adversely affect any rights under options already granted to a non-employee director unless agreed to by the affected non-employee director. Under current law, stockholder approval is not required for any amendment of the 2004 non-employee director stock option program.

2004 Employee Stock Purchase Plan

Upon completion of our initial public offering in February 2004, we adopted our 2004 employee stock purchase plan, which our stockholders approved prior to the completion of the initial public offering. Our 2004 employee stock purchase plan is intended to qualify as an Employee Stock Purchase Plan under Section 423 of the Internal Revenue Code. Our 2004 employee stock purchase plan provides our employees with an opportunity to purchase common stock through payroll deductions. An aggregate of 250,000 shares of common stock were originally reserved for issuance and is available for purchase under our 2004 employee stock purchase plan, subject to adjustment for a stock split, or any future stock dividend or other similar change in our common stock or our capital structure. As was commenced on the first business day of 2005,

during the term of our 2004 employee stock purchase plan, the number of shares of stock reserved for issuance under the 2004 employee stock purchase plan will be increased annually by a number equal to the lesser of (a) 1% of the total number of shares outstanding as of that date, (b) 250,000 shares, or (c) a lesser number of shares determined by the board. In 2005, the Board of Directors reserved an additional 250,000 shares of stock for issuance under the 2004 employee stock purchase plan. As of March 31, 2006, we have 449,956 shares of stock reserved for issuance under the employee stock purchase plan.

The Board of Directors or a committee designated by the board, referred to as the plan administrator, administers our 2004 employee stock purchase plan. All of our employees whose customary employment is for more than five months in any calendar year and more than 20 hours per week are eligible to participate in an offer period under our 2004 employee stock purchase plan. Employees hired after the consummation of our initial public offering who meet the foregoing requirement will be eligible to participate in an offer period under our 2004 employee stock purchase plan, subject to a 5-day waiting period after hiring. Non-employee directors, consultants, and employees subject to the rules or laws of a foreign jurisdiction that prohibit or make impractical their participation in an employee stock purchase plan are not eligible to participate in our 2004 employee stock purchase plan.

Our 2004 employee stock purchase plan will designate offer periods, purchase periods and exercise dates. Offer periods will generally be overlapping periods of 24 months. The initial offer period began on the effective date of our 2004 employee stock purchase plan, which was the effective date of the registration statement relating to our Initial Public Offering, and will end on February 14, 2006. Additional offer periods will commence each February 15 and August 15. Purchase periods will generally be six-month periods within an offer period, with the initial purchase period commencing on the effective date of the registration statement relating to our Initial Public Offering and ending on August 15, 2004. Thereafter, purchase periods will commence each February 15 and August 15. Exercise dates are the last day of each purchase period. In the event we merge with or into another corporation, sell all or substantially all of our assets, or enter into other transactions in which all of our stockholders before the transaction own less than 40% of the total combined voting power of our outstanding securities following the transaction, the plan administrator may elect to shorten the offer periods then in progress.

On the first day of each offer period, a participating employee will be granted a purchase right. A purchase right is a form of option to be automatically exercised on the exercise dates within the offer period, during which offer period authorized deductions are to be made from the pay of participants and credited to their accounts under our 2004 employee stock purchase plan. When the purchase right is exercised, the participant's withheld salary is used to purchase shares of common stock. Participants in the initial offer period will be eligible to purchase shares during the first purchase period through direct payment rather than payroll deductions. The price per share at which shares of common stock are to be purchased under our 2004 employee stock purchase plan during any purchase period is the lesser of:

85% of the fair market value of the common stock on the date of the grant of the option, which is the commencement of the offer period; or

85% of the fair market value of the common stock on the exercise date, which is the last day of a purchase period.

The participant's purchase right is exercised in this manner on each exercise date arising in the offer period. If, on the first day of any purchase period, the fair market value of the common stock is lower than the fair market value of the common stock on the first day of the offer period underlying the purchase period, the original offer period will be terminated, and the participant in the original offer period will be automatically enrolled in a new offer period effective the same date.

Payroll deductions may range from 1% to 10% in whole percentage increments of a participant's regular base pay, exclusive of bonuses, overtime, annual awards, other incentive payments, reimbursements or other expense allowances. Except for the first purchase period of the initial offer period, participants may not make direct cash payments to their accounts. The maximum number of shares of common stock that any employee may purchase under our 2004 employee stock purchase plan during a purchase period is 2,500 shares. The

Internal Revenue Code imposes additional limitations on the amount of common stock that may be purchased during any calendar year.

Unless terminated sooner, the 2004 employee stock purchase plan will terminate automatically in 2014. The plan administrator has authority to amend or terminate our 2004 employee stock purchase plan. The plan administrator may terminate any offer period on any exercise date or establish a new exercise date with respect to any offer period then in progress if the plan administrator determines that the termination of the offer period is in the best interests of the Company and its stockholders. To the extent necessary to comply with applicable provisions of federal securities laws, state corporate and securities laws, the Internal Revenue Code, the rules of any applicable stock exchange or national market system, and the rules of any non-U.S. jurisdiction applicable to awards granted to residents therein, we shall obtain stockholder approval of any such amendment to the 2004 employee stock purchase plan in such a manner and to such a degree as required.

401(k) Plan

In September 1997, we implemented a 401(k) plan covering some of our employees eligible to participate in the 401(k) plan. Under the 401(k) plan, eligible employees may elect to reduce their current compensation up to the prescribed annual limit under the Internal Revenue Code, which is \$14,000 in 2005, and contribute these amounts to the 401(k) plan. We may make contributions to the 401(k) plan on behalf of eligible employees. Employees are fully vested in their contributions and contributions we may make under the 401(k) plan immediately. The 401(k) plan is intended to qualify under Section 401 of the Internal Revenue Code so that contributions by employees or by us to the 401(k) plan, and income earned on the 401(k) plan contributions, are not taxable to employees until withdrawn from the 401(k) plan, and so that contributions by us, if any, will be deductible by us when made. The trustee under the 401(k) plan, at the direction of each participant, invests the 401(k) plan employee salary deferrals from among selected investment options. We have not made any matching contributions to the 401(k) plan through December 31, 2005; however, we may make matching contributions to the 401(k) plan in the future. We retain the right to amend or terminate the 401(k) plan at any time.

Compensation Committee Report on Executive Compensation

Notwithstanding anything to the contrary set forth in any of the Company's previous filings under the Securities Act of 1933 or the Exchange Act of 1934 that might incorporate future filings, including this proxy statement, with the Securities and Exchange Commission, in whole or in part, the following report shall not be deemed to be incorporated by reference into any such filings, nor shall the following report be deemed to be incorporated by reference into any future filings under the Securities Act or the Exchange Act.

The compensation committee of the Company's Board of Directors, which is comprised solely of independent, non-employee board members, has the authority and responsibility to establish the overall compensation strategy for the Company, including salary and bonus levels, administer the Company's incentive compensation and benefit plans, 401(k) plans, and stock option and purchase plans, and review and make recommendations to the Board of Directors with respect to the Company's executive compensation. The compensation committee currently consists of Mr. Janney and Ms. Buc, with Ms. Buc serving as the chair. Mr. Louis C. Bock, the former Chairman of the Compensation Committee, resigned from our Board of Directors on August 19, 2005.

Compensation Policy. The Company's compensation policy, as established by the compensation committee, states that the executive officers' total annual cash compensation should vary with the performance of the Company and that long-term incentives awarded to such officers should be aligned with the interest of the Company's stockholders. The Company designed its executive compensation program to attract and retain executive officers who will contribute to the Company's long-term success, to reward executive officers who contribute to the Company's financial performance and to link executive officer compensation and stockholder interests through the grant of stock options under the 2004 stock incentive plan.

Compensation of the Company's executive officers consists of three principal components: salary, bonus and long-term incentive compensation consisting of stock option grants.

Salary. The base salaries of the Company's executive officers are reviewed annually and are set by the compensation committee. When setting base salary levels, in a manner consistent with the compensation committee's policy outlined above, the committee considers competitive market conditions for executive compensation, the Company's performance and the performance of the individual executive officer.

Bonus. In 2005, the Board of Directors approved a formal annual bonus plan for the executive officers of the Company, with bonuses targeted for the executive officers in a range between 35% and 40% of each executive officer's respective annual base salary. For the fiscal year ended December 31, 2005, the compensation committee evaluated the performance of the Chief Executive Officer and the other executive officers of the Company based on achievement of corporate and individual goals and set the bonuses payable in accordance with the approved bonus plan. Corporate goals may include, but are not limited to, research and development milestones, financing activities and business collaborations or other transactions. The Board of Directors or the compensation committee may modify the criteria or select other performance factors with respect to bonuses paid to executive officers for any given fiscal year.

Long-term Incentive Compensation. The Company believes that stock option grants (1) align executive officer interests with stockholder interests by creating a direct link between compensation and stockholder return; (2) give executive officers a significant, long-term interest in the Company's success; and (3) help retain key executive officers in a competitive market for executive talent.

The 2004 stock incentive plan authorizes the Board of Directors, or a committee thereof, to grant stock options to employees and consultants of the Company, including the executive officers. Stock option grants are made from time to time to executive officers whose contributions have or will have a significant impact on the Company's long-term performance. The Company's determination of whether stock option grants are appropriate is based upon individual performance measures established for each individual on an annual basis. Details on stock options granted to the named executive officers in 2005 are provided in the table entitled "Option Grants in Last Fiscal Year" contained in this proxy statement.

Compensation of Chief Executive Officer. The Board of Directors considered the following factors in evaluating the performance of, and setting the bonus compensation for, Dr. Dina, the Company's Chief Executive Officer and President: (1) the changes in the financial performance of the Company from the prior year, (2) his contribution to an enhanced research and development strategy in response to changing market trends, (3) his contribution to the hiring and retention of top management personnel, and (4) the time and effort that Dr. Dina individually applied in connection with the execution of his duties. The compensation committee believes that the salary, bonus and long-term incentive compensation paid to Dr. Dina for the fiscal year ended December 31, 2005 were appropriate based on the above criteria.

Compensation Policy Regarding Deductibility. Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to publicly held companies for compensation exceeding \$1 million paid to certain of the corporation's executive officers. The limitation applies only to compensation which is not considered to be performance-based. The 1997 equity incentive plan and the 2004 stock incentive plan are structured so that any compensation deemed paid to an executive officer in connection with the exercise of option grants made under the respective plan will qualify as performance-based compensation which will not be subject to the \$1 million limitation. The compensation committee is aware of the limitations imposed by Section 162(m), and the exemptions available therefrom, and will address the issue of deductibility when and if circumstances warrant, and may use such exemptions in addition to the exemption contemplated under the 1997 plan and the 2004 stock incentive plan.

Report of the Audit Committee of the Board of Directors

Notwithstanding anything to the contrary set forth in any of the Company's previous filings under the Securities Act of 1933, or the Exchange Act of 1934, that might incorporate future filings, including this proxy statement, with the Securities and Exchange Commission, in whole or in part, the following report shall not be deemed to be incorporated by reference into any such filings, nor shall the following report be deemed to be incorporated by reference into any future filings under the Securities Act or the Exchange Act.

Role of the Audit Committee

We, the members of the Audit Committee, assist the Board of Directors in its oversight of the Company's accounting and financial reporting policies and procedures. We also evaluate the performance and independence of the Company's independent registered public accounting firm, currently Ernst & Young LLP. We operate under a written charter that the Board of Directors adopted and we approved in April 2004. The charter sets out the functions we are to perform and is available on the Company's website at <http://www.dynavax.com>.

Specifically, among other things, the charter requires us to:

- review and monitor the accounting and financial reporting process;

- review and monitor the policies and procedures adopted by the Company to fulfill its responsibilities regarding the reliability of the Company's financial statements;

- review and evaluate the Company's accounting principles and the Company's system of internal accounting controls;

- appoint, compensate and oversee the work of the Company's independent registered public accounting firm;

- approve all audit and non-audit services performed by the Company's independent registered public accounting firm; and

- review the independence of the Company's independent registered public accounting firm.

Management is responsible for the financial reporting process, including the system of internal controls, and for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States. Ernst & Young LLP, the Company's independent registered public accounting firm, is responsible for auditing those financial statements. However, the members of the audit committee are not professionally engaged in the practice of accounting or auditing. The audit committee relies, without independent verification, on the information provided to the committee and on the representations made by management and the independent registered public accounting firm.

Meetings Held in 2005

During 2005, the Audit Committee met on eight occasions. We also met periodically throughout the year in executive sessions with Ernst & Young LLP without the presence of the Company's management. During the course of these meetings, and at other times during 2005, we:

- reviewed on a continuing basis the adequacy of the Company's system of internal controls, including discussing the Company's internal controls periodically with management and with Ernst & Young LLP;

- During 2005, management completed the documentation, testing and evaluation of its system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. The Audit Committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the Audit Committee received periodic updates provided by management and Ernst & Young LLP at regularly scheduled Audit Committee meetings. At the

conclusion of the process, the Audit Committee reviewed a report by management on the effectiveness of internal control over financial reporting. The Audit Committee also reviewed Ernst & Young's Report of Independent Registered Public Accounting Firm included in the Annual Report on Form 10-K related to its audit of management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting.

reviewed and discussed with management and Ernst & Young LLP the annual audited financial statements before filing the Company's Annual Report on Form 10-K with the SEC, addressing the acceptability of the Company's accounting principles and such other matters as the Statement on Auditing Standards No. 61 (Communication with Audit Committees) requires us to discuss, and recommended to the Board that the financial statements should be included in the Annual Report;

reviewed and discussed with management and Ernst & Young LLP the Company's quarterly unaudited financial statements before the issuance of its quarterly earnings press releases and the filing of its Quarterly Reports on Form 10-Q with the SEC;

discussed with management and Ernst & Young LLP significant financial reporting issues and judgments made in connection with the preparation of the Company's audited financial statements;

discussed with the Company's management and Ernst & Young LLP the process used for the Company's Chief Executive Officer and Chief Financial Officer to make the certifications required by the SEC and the Sarbanes-Oxley Act of 2002 in connection with the Annual Report on Form 10-K and Quarterly Reports on Form 10-Q;

appointed and oversaw the work and compensation of Ernst & Young LLP;

reviewed and provided guidance with respect to the external audit and the Company's relationship with Ernst & Young LLP by (1) reviewing Ernst & Young LLP's proposed audit scope, approach, compensation and independence; (2) obtaining statements from Ernst & Young LLP regarding relationships and services with the Company which may impact independence as required by Independence Standards Board Standard No. 1,

Independence Discussions with Audit Committees; (3) discussing with Ernst & Young LLP the financial statements and audit findings, including any significant adjustments, management judgments and accounting estimates, significant new accounting policies and disagreements with management; and (4) obtaining assurance from Ernst & Young LLP that the requirements of Section 10A of the Securities Exchange Act of 1934 have been met; and

reviewed, in conjunction with the Company's legal counsel, all legal matters that could have a significant impact on the Company's financial statements or compliance policies.

Recommendation

Based on our reviews and discussions as described above, and based on the report of Ernst & Young LLP, we recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, for filing with the SEC. We also recommended to the Board that Ernst & Young LLP be appointed as the Company's independent registered public accounting firm for 2006. In making this recommendation, we considered whether Ernst & Young LLP's provision of services other than audit services are compatible with maintaining independence of our outside accountants. Although we have the sole authority to appoint the independent registered public accounting firm, we continued the long-standing practice of recommending that the Board ask the stockholders at their annual meeting to ratify the appointment of Ernst & Young LLP as the independent registered public accounting firm.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**Transactions with Directors, Executive Officers and Affiliates**

We have entered into indemnification agreements with each of our directors and officers. These indemnification agreements require us to indemnify these individuals to the fullest extent permitted by Delaware law.

In December 1998, the Company entered into a research agreement with the Regents of the University of California, or UC, on behalf of the University of California, San Diego. The university-nominated representative on the evaluation committee created to oversee aspects of this agreement is Dr. Dennis Carson, a member of the Company's Board of Directors and a holder of 360,119 shares of the Company's common stock as of March 31, 2006. Dr. Carson also received payments of \$11,667 in 2005 and \$35,000 in 2004 and 2003 for consulting services provided to the Company.

All of the transactions set forth above were made at arms-length. We intend that all future transactions between us and our officers, directors, principal stockholders and their affiliates will be approved by a majority of our Board of Directors, including a majority of the independent and disinterested outside directors on our Board of Directors, and will be on terms no less favorable to us than could be obtained from unaffiliated third parties.

PROPOSAL TWO RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Ernst & Young LLP has been selected by our Board of Directors to be our independent registered public accounting firm for the fiscal year ending December 31, 2006. In the event that ratification of this selection of an independent registered public accounting firm is not approved by a majority of shares of common stock voting at the annual meeting in person or by proxy, management will review its future selection of an independent registered public accounting firm.

A representative of Ernst & Young LLP is expected to be present at the Annual Meeting. The representative will have an opportunity to make a statement and will be able to respond to appropriate questions.

Required Vote

The affirmative vote of the holders of a majority of the shares of our common stock present or represented at the annual meeting is required to approve the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2006. Abstentions will have the same effect as no votes on this proposal, whereas broker non-votes will have no effect.

PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

Audit-Related Fees		
Tax Fees (2)	\$ 41,027	\$ 24,474
All Other Fees (3)	\$ 1,500	

- (1) Audit fees include fees for the audit of our consolidated financial statements and interim reviews of our quarterly financial statements, registration statements and consents and other services related to SEC matters, including compliance with the provisions of Sarbanes-Oxley section 404 in fiscal 2005.
- (2) Tax fees represent fees for professional services provided in connection with the preparation of our federal, state and foreign tax returns and advisory services for other tax compliance matters.
- (3) All other fees represent subscription fees for an online accounting research tool.

Audit and Non-Audit Services Pre-Approval Policy

The Audit Committee has adopted a policy relating to the approval of all audit and non-audit services that are to be performed by our independent registered public accounting firm. This policy generally provides that we will not engage our independent registered public accounting firm to render audit or non-audit services unless the service is specifically approved in advance by the Audit Committee or the engagement is entered into pursuant to pre-approval procedures established by the Audit Committee. The Audit Committee pre-approved all services provided by Ernst & Young LLP during 2005.

Our Audit Committee has considered whether the independent registered public accounting firm's provision of non-audit services to our Company is compatible with maintaining the registered public accounting firm's independence, and concluded that such independence has not been impaired.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF

THE SELECTION OF ERNST & YOUNG LLP.

OTHER MATTERS

Annual Report

Our annual report for the fiscal year ended December 31, 2005 has been mailed concurrently with the mailing of these proxy materials to all stockholders entitled to notice of, and to vote at, the annual meeting.

Form 10-K

Our annual report on Form 10-K for the fiscal year ended December 31, 2005 is included in the annual report for the fiscal year ended December 31, 2005, which is mailed concurrently with the mailing of these proxy materials. Householding of Annual Meeting Materials

In December 2000, the Securities and Exchange Commission adopted new rules that permit us to send a single set of annual reports and proxy statements to any household at which two or more stockholders reside if we believe they are members of the same family. Each stockholder will continue to receive a separate proxy card. However, upon written request to our Secretary at the address of our principal executive offices, you may revoke your decision to household, and we will deliver a separate copy of the annual report or proxy statement, as applicable, to you at the shared address within 30 days of your request.

A number of brokerage firms have already instituted householding. If your family has multiple accounts of our stock, you may have received householding notification from your broker. Please contact your broker directly if you have questions, require additional copies of the proxy statement or annual report, or wish to revoke your decision to household, and thereby receive multiple reports.

Other Matters

Our Board of Directors knows of no other business which will be presented at the annual meeting. If any other business is properly brought before the annual meeting, it is intended that proxies in the enclosed form will be voted in respect thereof in accordance with the judgments of the proxyholders.

It is important that the proxies be returned promptly and that your shares be represented. Stockholders are urged to mark, date, execute and promptly return the accompanying proxy card in the enclosed envelope.
