Our Business

Advanced Environmental Recycling Technologies, Inc. (AERT) develops, manufactures and markets composite building materials that are used in place of traditional wood products for exterior applications in building and remodeling homes and for certain other industrial or commercial building purposes. Our products are made from approximately equal amounts of waste wood fiber and reclaimed polyethylene plastics, have been extensively tested, and are sold by leading national companies such as the Weyerhaeuser Company (Weyerhaeuser), Lowe's Companies, Inc. (Lowe's) and Therma-Tru Corporation. Our customers are primarily regional and national door and window manufacturers, Weyerhaeuser, our primary decking customer, and regional building product distributors. Since our inception in 1989, we have sold approximately \$477 million of products into the North American marketplace through March 31, 2007. Our composite building materials are marketed as a substitute for wood and plastic filler materials for standard door components, windowsills, brick mould, fascia board, and decking under the trade names LifeCycle®, MoistureShield®, MoistureShield® CornerLoc®, Weyerhaeuser ChoiceDek® Premium, ChoiceDek® Premium Colors, MoistureShield® outdoor decking and Basics® outdoor decking. We operate manufacturing facilities in Springdale, Lowell, and Tontitown, Arkansas; Junction, Texas and Alexandria, Louisiana. We also operate a warehouse and reload complex in Lowell, Arkansas.

Table of Contents

Risk Factors

Our business is subject to a number of risks, including but not limited to the following:

We may have insufficient working capital to achieve our growth objectives

Though we had a working capital surplus of \$365,604 at June 30, 2007, we had a working capital deficit of \$3,466,129 at December 31, 2006, and a deficit of \$687,039 at December 31, 2005. The working capital deficit was the result of losses from operations, our decision to finance capital projects with cash generated from operations, and our need to fund rapid growth in sales.

We may be unable to secure an adequate quantity and quality of raw materials at economical prices

The largest component of our raw material costs is scrap polyethylene. The price that we must pay for these materials is related to the market prices of natural gas and petroleum, which have been rising and volatile in recent years. Our future profitability is contingent on us being able to manage raw material costs under these circumstances.

The loss of one or more of our key customers could cause a substantial reduction in our revenues and profits

We could be materially adversely affected if we were to lose one or more of our large existing customers. Our principal customer for our decking material is Weyerhaeuser, which accounted for 81% and 77% of our sales in 2006 and 2005, respectively. A few large door and window construction companies have historically purchased substantially all of our industrial component products. A loss of any one of our large customers would adversely affect our sales and profitability.

If we are unable to comply with certain debt covenants, our financial position and operations could be adversely affected

Our \$14.4 million bond agreement contains financial covenants which include a current ratio of not less than 1.00 to 1.00, a requirement that not more than 10% of accounts payable be in excess of 75 days past the invoice date, and a requirement that we maintain a long-term debt service coverage ratio for the preceding four quarters of at least 2.00 to 1.00. We were not in compliance with the first two of these covenants at December 31, 2006, and were not in compliance with the second two of these covenants as of June 30, 2007; however, the first two of those covenants were waived by the bondholder as of December 31, 2006 through and including December 31, 2007, and the debt service covenant ratio was waived for the quarter ended June 30, 2007. There is no assurance that we will be able to comply with these debt covenants in the future, or that the bondholder will waive or modify the covenants in the future. If we are unable to comply with the covenants or obtain a waiver or modification of the covenants in the future, then the bond debt, currently in the amount of \$12.1 million, could immediately become due and payable, the bondholder could foreclose on the property used to secure the debt, and the bondholder could claim our revenues pledged as part of the bond agreement.

In June 2007, the Company renewed its \$15.0 million bank line of credit through September 16, 2007. The line is secured by the Company's inventory, accounts receivable, chattel paper, general intangibles and other current assets, as well as by fixtures and equipment, and is provided by Liberty Bank of Arkansas at a variable interest rate of prime plus one hundred basis points, which was 9.25% at June 30, 2007. The full amount of the line is guaranteed as to payment by our largest stockholder, Marjorie S. Brooks, who also guarantees \$4 million on our 2003 industrial development bond owned by Allstate Investments. The revolving credit facility includes debt service coverage ratio, current ratio, and accounts payable and accounts receivable aging covenants substantially similar to those under our 2003 bond agreements and customary restrictions on dividends and the incurrence of additional debt or liens, among other matters.

Restrictions regarding increased manufacturing capabilities could restrain our business growth

We increased our net sales by \$10.5 million in 2006, \$23.7 million in 2005, and \$20.1 million in 2004. Our products have seen significant growth, and our customers have significant established expansion plans. Our primary customers and markets are large, and continued sales growth will require significant capital expenditures for additional production equipment and manufacturing facilities. Although our goal is to become the number one composite producer in North America, there is no assurance that we will be able to secure the necessary financing, attain the necessary operational execution, or that the equipment and facilities will become operational in a timely manner to meet that goal.

Table of Contents

Our growth is limited by the availability of human capital resources

Future profitable growth will require us to recruit and retain qualified associates. We compete with many larger companies in the labor market, many of which offer more attractive compensation packages than we are able to economically provide. Though we have adopted equity compensation plans to aid in our efforts to recruit and retain qualified associates, the accounting treatment for those plans results in a reduction in our earnings.

Declines in construction activity may adversely affect our business

Our products are sold in the home improvement and new home construction markets. These markets are subject to significant fluctuations in activity and to periodic downturns caused by general economic conditions, as has been the case since mid-2006. Slowdowns in construction activity have an adverse effect on the demand for our products.

Fire disruptions may adversely affect our business

Our raw materials and manufacturing processes involve a greater than average risk of fire loss or disruption. Through the Company's history, we have experienced several fires, some of which severely disrupted our manufacturing operations. There was an accidental fire at our Junction, Texas facility in March 2003, which caused substantial damage and temporarily shut down plant operations. Although we have increased security and increased fire protection equipment at our facilities, another major fire could occur and materially adversely affect our operations.

Covenants in our bond agreements could restrict our ability to borrow, which could impair the improvement and expansion of our operations

Certain covenants in our bond agreements restrict the types and amounts of additional indebtedness that we may incur, including a requirement that, with certain exceptions, we may only incur additional indebtedness to the extent it would satisfy a debt incurrence coverage ratio of 250% of income before interest, taxes, depreciation and amortization to debt service. Those restrictions could inhibit our ability to improve and expand our current operations. Additionally, our ability to secure adequate working capital to support our day-to-day operations as we grow could be limited by the covenants in our bond agreements.

Future sales of shares could be dilutive and impair our ability to raise capital

The conversion of a significant number of our outstanding derivative securities into Class A common stock could adversely affect the market price of the stock. As of June 30, 2007, there were warrants outstanding for 2,834,340 shares of Class A common stock at an average exercise price of \$1.67, and options outstanding for 1,529,000 shares of Class A common stock at an average exercise price of \$1.59. The exercise or conversion of a material amount of such securities will result in a dilution in interest for our other security holders. The convertible securities whether converted into stock or not, could impair our ability to obtain additional capital because of the potential for dilution. Also, the holders of such securities may be expected to exercise their rights at a time when we would in all likelihood be able to obtain needed capital through a new offering of our securities on terms more favorable than those provided by the outstanding securities.

Plan Of Distribution

This prospectus covers the resale of shares of Class A common stock by the selling stockholders and their pledgees, donees, assignees and other successors in interest (all of whom may be selling stockholders). The selling stockholders may sell their shares on the Nasdaq Capital Market, in the over-the-counter market or through any other facility on which the shares are traded, or in private transactions. These sales may be at market prices or at negotiated prices. The selling stockholders may use the following methods when selling shares:

ordinary brokerage transactions and transactions in which the broker or dealer solicits purchasers;

block trades in which the broker or dealer attempts to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker dealer as principal and resale by the broker or dealer for its account in connection with this prospectus;

privately negotiated transactions;

any combination of these methods of sale; or

any other legal method.

The selling stockholders may also pledge their shares, enter into put or call options or enter into other transactions with broker-dealers or others which require delivery to those persons of shares covered by this prospectus.

Brokers, dealers or other agents participating in the distribution of the shares of Class A common stock may receive compensation in the form of discounts or commissions from the selling stockholders, as well as the purchaser if they act as agent for the purchaser. The discount or commission in a particular transaction could be more than the customary amount. We know of no existing arrangements between any selling stockholder and any underwriter, broker, dealer or agent relating to the sale or distribution of the shares.

The selling stockholders and any brokers or dealers that participate in the sale of the shares may be deemed to be underwriters within the meaning of the Securities Act. Any discounts, commissions or other compensation received by these persons and any profit on the resale of the shares by them as principals might be deemed to be underwriters compensation. The selling stockholders may agree to indemnify any broker, dealer or agent that participates in the sale of the shares against various liabilities, including liabilities under the Securities Act.

At the time a particular offer of shares is made, to the extent required we will file a supplement to this prospectus which identifies the number of shares being offered, the name of the selling stockholders, the name of any participating broker or dealer, the amount of discounts and commissions, and any other material information.

The selling stockholders and any other person participating in a distribution will be subject to the applicable provisions of the Exchange Act and its rules and regulations. For example, the anti-manipulative provisions of Regulation M may limit the ability of the selling stockholders or others to engage in stabilizing and other market making activities.

The selling stockholders may also sell their shares in accordance with Rule 144 under the Securities Act, rather than in connection with this prospectus, so long as they meet the criteria and conform to the requirements of the rule.

We will not receive any of the proceeds from the sale of the shares by the selling stockholders. We will pay the registration and other offering expenses related to this offering, but the selling stockholders will pay all underwriting discounts and brokerage commissions incurred in connection with the offering.

Disclosure of Commission Position on Indemnification for Securities Act Liabilities

Section 145 of the Delaware General Corporation Law permits us to indemnify directors, officers, employees or agents against judgments, fines, amounts paid in settlement, and reasonable costs, expenses and counsel fees paid or incurred in connection with any proceeding, other than an action by or in the right of us, to which such director, officer or employee or his legal representative may be a party, provided such director, officer or employee shall have acted in good faith and shall have reasonably believed (a) in the case of a civil proceeding, that his conduct was in or not opposed to our best interests, or (b) in the case of a criminal proceeding, that he had no reasonable cause to believe his conduct was unlawful. In connection with an action by or in the right of us against a director, officer, employee or agent, we have the power to indemnify such director, officer, employee or agent for reasonable expenses incurred in connection with such suit (a) if such person acted in good faith and in a manner not opposed to our best interest, and (b) if found liable to us, only if ordered by a court of law. Section 145 provides that such section is not exclusive of any other indemnification rights granted by us to directors, officers, employees or agents.

Our Certificate of Incorporation provides for mandatory indemnification of directors, officers and employees to the fullest extent permitted by Section 145, unless we prove that the person seeking indemnification did not meet the standard set forth above. Our Certificate permits us to indemnify agents to the extent authorized from time to time by our Board of Directors. The right to indemnification is a contract right and includes the right to be paid by us the expenses incurred in defending any such proceeding in advance of its final disposition, provided that the indemnitee undertakes to repay all amounts so advanced if it is ultimately determined that such indemnitee is not entitled to be indemnified for such expenses.

Our Certificate of Incorporation also contains a provision eliminating the liability of a director to us or our stockholders for monetary damages for breach of fiduciary duty as a director, other than liability for (a) breach of the director's duty of loyalty to us or our stockholders, (b) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (c) unlawful payment of a dividend or unlawful stock purchase or redemption, or (d) any transaction from which the director derived an improper personal benefit.

We also maintain directors and officers liability insurance for the benefit of our directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons controlling the registrant pursuant to the foregoing provisions, we have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is therefore unenforceable.

Item 4. Description of Securities.

Not applicable.

Item 5. Interests of Named Experts and Counsel.

Not applicable.

Item 6. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law permits the Registrant to indemnify directors, officers, employees or agents against judgments, fines, amounts paid in settlement, and reasonable costs, expenses and counsel fees paid or incurred in connection with any proceeding, other than an action by or in the right of the Registrant, to which such director, officer or employee or his legal representative may be a party, provided such director, officer or employee shall have acted in good faith and shall have reasonably believed (a) in the case of a civil proceeding, that his conduct was in or not opposed to the best interests of the Registrant, or (b) in the case of a criminal proceeding, that he had no reasonable cause to believe his conduct was unlawful. In connection with an action by or in the right of the Registrant against a director, officer, employee or agent, the Registrant has the power to indemnify such director, officer, employee or agent for reasonable

expenses incurred in connection with such suit (a) if such person acted in good faith and in a manner not opposed to the best interest of the Registrant, and (b) if found liable to the Registrant, only if ordered by a court of law. Section 145 provides that such section is not exclusive of any other indemnification rights granted by the Registrant to directors, officers, employees or agents.

The Certificate of Incorporation of the Registrant provides for mandatory indemnification of directors, officers and employees to the fullest extent permitted by Section 145, unless the Registrant proves that the person seeking indemnification did not meet the standard set forth above. The Certificate permits the Registrant to indemnify agents to the extent authorized from time to time by the Board of Directors. The right to indemnification is a contract right and includes the right to be paid by the Registrant the expenses incurred in defending any such proceeding in advance of its final disposition, provided that the indemnitee undertakes to repay all amounts so advanced if it is ultimately determined that such indemnitee is not entitled to be indemnified for such expenses.

The Certificate of Incorporation of the Registrant also contains a provision eliminating the liability of a director to the Registrant or its stockholders for monetary damages for breach of fiduciary duty as a director, other than liability for (a) breach of the director's duty of loyalty to the corporation or its stockholders, (b) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (c) unlawful payment of a dividend or unlawful stock purchase or redemption, or (d) any transaction from which the director derived an improper personal benefit.

We also maintain directors and officers liability insurance for the benefit of our directors and officers.

Item 7. Exemption from Registration Claimed.

All of the restricted securities issued by us to the selling stockholders who are reoffering and reselling such restricted securities pursuant to this registration Statement were issued in reliance upon the exemption from registration under Section 4(2) of the Securities Act relating to sales by an issuer not involving any public offering, or was not subject to registration as not involving the payment of any consideration for restricted stock awards and so not involving an offer or sale under applicable law. We believe, due to the nature of the relationship of these persons to us and the isolated nature of the transactions, that each issuance of the shares of Class A common stock as restricted stock awards held by such persons was exempt from registration under the Securities Act as a private placement pursuant to Section 4(2) of that Act or was not subject to registration as not involving the payment of any consideration for restricted stock awards and so not involving an offer or sale under applicable law.

Item 9. Undertakings.

(a) The undersigned registrant hereby undertakes:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - i. To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;
 - ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement.
 - iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided however, That:

- A. Paragraphs (a)(1)(i) and (a)(1)(ii) of this section do not apply if the registration statement is on Form S-8, and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement; and
 - B. Paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) of this section do not apply if the registration statement is on Form S-3 or Form F-3 and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.
2. That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
 3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
 4. If the registrant is a foreign private issuer, to file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A. of Form 20-F at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Act need not be furnished, *provided* that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (a)(4) and other information necessary to ensure that all other information in the prospectus is

at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3, a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the Act or Rule 3-19 of this chapter if such financial statements and information are contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Form F-3.

5. That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

- i. If the registrant is relying on Rule 430B (230.430B of this chapter):
 - A. Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
 - B. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or
 - ii. If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
6. That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:
 - i. Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
 - ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
 - iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

- iv. Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.
- 7. The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the

securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

8. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
