[DATE]

Dear Brooks Automation Supplier,

Today Brooks Automation announced very important news – the signing of a definitive agreement to acquire Helix Technology of Mansfield, Massachusetts. This important strategic combination of two highly complementary companies broadens our integrated systems offerings, enabling us to better meet the needs of our combined worldwide customer base. This transaction creates the largest subsystems supplier in the semiconductor industry with a market capitalization of more than \$1.1 billion (based on the closing price of Brooks' stock on July 8, 2005) and trailing 12-month revenues of more than \$720 million.

Many of you may recognize Helix as a market leader in highly specialized vacuum technology used in semiconductor and other vacuum-based processes. We view Helix's products and services as highly complementary and additive to our existing offerings. As such, we do not anticipate any product rationalizations.

Brooks will continue to put the needs of our customers as our top priority. While changes are inevitable with a transaction of this magnitude, we will work quickly to determine the exact nature of changes, which are not known at present, and assess potential new opportunities for our dedicated suppliers. For the present time, all contracts, purchase orders, shipping locations and relationships will remain the same, as will the current Brooks personnel with whom you deal. Going forward, we will solicit your input about the new opportunities available for your Company as our plans solidify.

Sincerely,

Bill Keller
Senior Vice-President of Global Operations
Brooks Automation, Inc.
