- FSA Financial Security Assurance, Inc.
- MBIA MBIA Insurance Corp. of Illinois

XLCA - XL Capital Assurance, Inc.

The Trust invests primarily in debt securities issued by Michigan municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at February 28, 2009, 45.6% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.0% to 18.5% of total investments.

- (1) Security (or a portion thereof) has been pledged as collateral for open swap contracts.
- (2) Security represents the underlying municipal bond of a tender option bond trust.
- (3) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

A summary of financial instruments outstanding at February 28, 2009 is as follows:

Futures Contracts

Expiration Date	Contracts	Aggregate Position Cost				Value	Net Unrealized Appreciation	
06/09 06/09	3 U.S. Treasury Note 5 U.S. Treasury Bond	S. Treasury Note Short S. Treasury Bond Short	\$	(366,393) (638,108)	\$	(360,093) (616,719)	\$	6,300 21,389
							\$	27,689

Interest Rate Swaps

			Annual	Floating	Effective Date/		
	ľ	Notional	Fixed Rate Paid By	Rate	Termination	Un	Net realized
Counterparty	1	Amount	Trust	Paid To Trust	Date	Dep	reciation
Merrill Lynch Capital				3-month USD-	April 1, 2009 /		
Services, Inc.	\$	400,000	4.682%	LIBOR-BBA	April 1, 2039	\$	(89,443)

The effective date represents the date on which the Trust and the counterparty to the interest rate swap contract begin interest payment accruals.

At February 28, 2009, the Trust had sufficient cash and/or securities to cover commitments under these contracts.

Table of Contents

The Trust is subject to interest rate risk in the normal course of pursuing its investment objectives. Because the Trust holds fixed-rate bonds, the value of these bonds may decrease if interest rates rise. To hedge against this risk, the Trust may enter into interest rate swap contracts. The Trust may also purchase and sell U.S. Treasury futures contracts to hedge against changes in interest rates.

At February 28, 2009, the aggregate fair value of derivative instruments in an asset position and in a liability position whose primary underlying risk exposure is interest rate risk was \$27,689 and \$89,443, respectively.

The cost and unrealized appreciation (depreciation) of investments of the Trust at February 28, 2009, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 45,863,697
Gross unrealized appreciation Gross unrealized depreciation	\$ 1,389,720 (5,782,766)
Net unrealized depreciation	\$ (4,393,046)

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements, established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At February 28, 2009, the inputs used in valuing the Trust s investments, which are carried at value, were as follows:

	Valuation Inputs	Investments in Securities		Other Financial Instruments*		
Level 1	Quoted Prices	\$		\$	27,689	
	Other Significant Observable					
Level 2	Inputs		42,595,651		(89,443)	
Level 3	Significant Unobservable Inputs					
Total		\$	42,595,651	\$	(61,754)	

* Other financial instruments are futures and swap contracts not reflected in the Portfolio of Investments, which are valued at the unrealized appreciation (depreciation) on the instrument.

The Trust held no investments or other financial instruments as of November 30, 2008 whose fair value was determined using Level 3 inputs.

For information on the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to the Trust s most recent financial statements included in its semiannual or annual report to shareholders.

Item 2. Controls and Procedures

(a) It is the conclusion of the registrant s principal executive officer and principal financial officer that the effectiveness of the registrant s current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission s rules and forms and that the information required to be disclosed by the registrant has been accumulated and communicated to the registrant s principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant s internal controls over financial reporting during the fiscal quarter for which the report is being filed that have materially affected, or are reasonably likely to materially affect the registrant s internal control over financial reporting.
