**UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q**

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2009.

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

**Commission file number: 0-15752
CENTURY BANCORP, INC.**

(Exact name of registrant as specified in its charter)

COMMONWEALTH OF MASSACHUSETTS

04-2498617

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

400 MYSTIC AVENUE, MEDFORD, MA

02155

(Address of principal executive offices)

(Zip Code)

(781) 391-4000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by section 13 or 15 (d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 30, 2009, the Registrant had outstanding:

Class A Common Stock, \$1.00 par value 3,503,197 Shares
Class B Common Stock, \$1.00 par value 2,027,100 Shares

Table of Contents

Century Bancorp, Inc.
Notes to Unaudited Consolidated Interim Financial Statements
Three Months Ended March 31, 2009 and 2008

Note 1. Basis of Financial Statement Presentation

The consolidated financial statements include the accounts of Century Bancorp, Inc. (the Company) and its wholly-owned subsidiary, Century Bank and Trust Company (the Bank). The consolidated financial statements also include the accounts of the Bank's wholly-owned subsidiaries: Century Subsidiary Investments, Inc. (CSII); Century Subsidiary Investments, Inc. II (CSII II); and Century Subsidiary Investments, Inc. III (CSII III). CSII, CSII II, CSII III are engaged in buying, selling and holding investment securities. The Company also owns 100% of Century Bancorp Capital Trust II (CBCT II). CBCT II is an unconsolidated subsidiary of the Company.

All significant intercompany accounts and transactions have been eliminated in consolidation. The Company provides a full range of banking services to individual, business and municipal customers in Massachusetts. As a bank holding company, the Company is subject to the regulation and supervision of the Federal Reserve Board. The Bank, a state chartered financial institution, is subject to supervision and regulation by applicable state and federal banking agencies, including the Federal Reserve Board, the Federal Deposit Insurance Corporation (the FDIC) and the Commonwealth of Massachusetts Commissioner of Banks. The Bank is also subject to various requirements and restrictions under federal and state law, including requirements to maintain reserves against deposits, restrictions on the types and amounts of loans that may be granted and the interest that may be charged thereon, and limitations on the types of investments that may be made and the types of services that may be offered. Various consumer laws and regulations also affect the operations of the Bank. In addition to the impact of regulation, commercial banks are affected significantly by the actions of the Federal Reserve Board as it attempts to control the money supply and credit availability in order to influence the economy. All aspects of the Company's business are highly competitive. The Company faces aggressive competition from other lending institutions and from numerous other providers of financial services. The Company has one reportable operating segment.

The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and to general practices within the banking industry. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ from those estimates. The Company's Quarterly report on Form 10-Q should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008, as filed with the Securities and Exchange Commission.

Material estimates that are susceptible to change in the near-term relate to the allowance for loan losses. Management believes that the allowance for loan losses is adequate based on independent appraisals and review of other factors associated with the loans. While management uses available information to recognize loan losses, future additions to the allowance for loan losses may be necessary based on changes in economic conditions. In addition, regulatory agencies periodically review the Company's allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance for loan losses based on their judgments about information available to them at the time of their examination.

Whenever necessary prior period amounts were reclassified to conform with the current period presentation.

Table of Contents**Note 2. Recent Market Developments**

The financial services industry is facing unprecedented challenges in the face of the current national and global economic crisis. The global and U. S. economies are experiencing significantly reduced business activity as a result of, among other factors, disruptions in the financial system during the past year. Dramatic declines in the housing market during the past year, with falling home prices and increasing foreclosures and unemployment, have resulted in significant write-downs of asset values by financial institutions, including government-sponsored entities and major commercial and investment banks. These write-downs, initially of mortgage-backed securities but spreading to credit default swaps and other derivative securities, have caused many financial institutions to seek additional capital; to merge with larger and stronger institutions; and, in some cases, to fail. The Company is fortunate that the markets it serves have been impacted to a lesser extent than many areas around the country.

In response to the financial crises affecting the banking system and financial markets, there have been several recent announcements of federal programs designed to purchase assets from, provide equity capital to, and guarantee the liquidity of the industry.

On October 3, 2008, the Emergency Economic Stabilization Act of 2008 (the EESA) was signed into law. The EESA authorizes the U.S. Treasury to, among other things, purchase up to \$700 billion of mortgages, mortgage-backed securities, and certain other financial instruments from financial institutions for the purpose of stabilizing and providing liquidity to the U.S. financial markets. The Company does not expect to participate in the sale of any of our assets into these programs. EESA also immediately increases the FDIC deposit insurance limit from \$100,000 to \$250,000 through December 31, 2009.

On October 14, 2008, the U.S. Treasury announced that it will purchase equity stakes in a wide variety of banks and thrifts. Under this program, known as the Troubled Asset Relief Program Capital Purchase Program (the TARP Capital Purchase Program), the U.S. Treasury will make \$250 billion of capital available (from the \$750 billion authorized by the EESA) to U.S. financial institutions in the form of preferred stock. In conjunction with the purchase of preferred stock, the U.S. Treasury will receive warrants to purchase common stock with an aggregate market price equal to 15% of the preferred investment. Participating financial institutions will be required to adopt the U. S. Treasury's standards for executive compensation, dividend restrictions and corporate governance for the period during which the Treasury holds equity issued under the TARP Capital Purchase Program. The U.S. Treasury also announced that nine large financial institutions have already agreed to participate in the TARP Capital Purchase Program. Subsequently, a number of smaller institutions have participated in the TARP Capital Purchase Program. On December 18, 2008, the Company announced in a press release, it had received preliminary approval from the U.S. Treasury to participate in the TARP Capital Purchase Program, in an amount up to \$30 million in the form of Century Bancorp, Inc. preferred stock and warrants to purchase Class A common stock. In light of uncertainty surrounding additional restrictions that may be imposed on participants under pending legislation, the Company, on January 14, 2009, informed the U.S. Treasury that it would not be closing on the transaction on January 16, 2009, as originally scheduled.

On October 14, 2008, the U. S. Treasury and the FDIC jointly announced a new program, known as the Temporary Liquidity Guarantee Program (TLGP), to strengthen confidence and encourage liquidity in the nation's banking system. The TLGP consists of two programs: the Debt Guarantee Program (DGP) and the Transaction Account Guarantee Program (TAGP). Under the DGP, the FDIC will guarantee certain newly issued senior unsecured debt of participating banks, thrifts and certain holding companies issued from October 14, 2008 through October 31, 2009, which debt matures on or prior to December 31, 2012, up to a fixed maximum amount per participant. In addition, under the TAGP, the FDIC will fully guarantee deposits in noninterest bearing transaction accounts without dollar limitation through December 31, 2009. Institutions opting to participate in the DGP will be charged a 50-, 75- or 100-basis point fee (depending on maturity) for the guarantee of eligible debt, and a 10-basis point assessment will be applicable to deposits in noninterest bearing transaction accounts at institutions participating in the TAGP that exceed the existing deposit insurance limit of \$250,000. The Company opted to participate in both the DGP and the TAGP.

Table of Contents**Note 3. Stock Option Accounting**

Stock option activity under the Company's stock option plan is as follows:

	Amount	March 31, 2009 Weighted Average Exercise Price
Shares under option:		
Outstanding at beginning of year	81,037	\$ 27.42
Cancelled	(400)	27.57
Outstanding at end of period	80,637	\$ 27.42
Exercisable at end of period	80,637	\$ 27.42
Available to be granted at end of period	190,909	

On March 31, 2009, the outstanding options to purchase 80,637 shares of Class A common stock have exercise prices between \$15.063 and \$35.010, with a weighted average exercise price of \$27.42 and a weighted average remaining contractual life of 3.5 years. The average intrinsic value of options exercisable at March 31, 2009 had an aggregate value of \$0.

The Company uses the fair value method to account for stock options. All of the Company's stock options are vested and there were no options granted during the first three months of 2009.

Note 4. Employee Benefits

The Company provides pension benefits to its employees under a noncontributory, defined benefit plan which is funded on a current basis in compliance with the requirements at the Employee Retirement Income Security Act of 1974 (ERISA) and recognizes costs over the estimated employee service period.

The Company also has a Supplemental Executive Insurance/Retirement Plan (the Supplemental Plan) which is limited to certain officers and employees of the Company. The Supplemental Plan is accrued on a current basis and recognizes costs over the estimated employee service period.

Executive officers of the Company or its subsidiaries who have at least one year of service may participate in the Supplemental Plan. The Supplemental Plan is voluntary and participants are required to contribute to its cost. Individual life insurance policies, which are owned by the Company, are purchased covering the lives of each participant.

Components of Net Periodic Benefit Cost for the Three Months Ending March 31,

	Pension Benefits		Supplemental Insurance/ Retirement Plan	
	2009	2008	2009	2008
	(In thousands)			
Service cost	\$ 196	\$ 205	\$ 113	\$ 28
Interest	308	287	233	194
Expected return on plan assets	(281)	(333)		
Recognized prior service cost (benefit)	(29)	(29)	27	16
Recognized net actuarial losses	171	53	35	13

Net periodic benefit cost	\$ 365	\$ 183	\$ 408	\$ 251
---------------------------	--------	--------	--------	--------

Due to recent market conditions we anticipate that the net periodic pension cost may continue to increase due to a decline in the return of plan assets.

Page 9 of 27

Table of Contents

Contributions

The Company previously disclosed in its financial statements for the year ended December 31, 2008 that it expected to contribute \$1,275,000 to the Pension Plan in 2009. As of March 31, 2009, \$318,750 of the contribution had been made. The Company expects to contribute an additional \$956,250 by the end of the year.

Effective December 31, 2006, the Company adopted SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans An Amendment of FASB Statements No. 87, 88, 106, and 132(R), which requires the Company to recognize the overfunded or underfunded status of a single employer defined benefit pension or postretirement plan as an asset or liability on its balance sheet and to recognize changes in the funded status in comprehensive income in the year in which the change occurred. However, gains or losses, prior service costs or credits, and transition assets or obligations that had not yet been included in net periodic benefit cost as of the end of 2006, the fiscal year in which the Statement was initially applied were to be recognized as components of the ending balance of accumulated other comprehensive income, net of tax. During 2006, the Company recorded an additional \$2,158,000 pension liability adjustment, net of tax, through stockholders equity, as a result of the adoption of SFAS 158. The Company recognized \$123,000, net of tax during the first three months of 2009, as amortization of amounts previously recognized in accumulated other comprehensive income. SFAS 158 also requires the Company to measure plan assets and benefit obligations as of the date of the Company s fiscal year end effective for fiscal years ending after December 15, 2008. As a result of the change in the measurement date, the Company recorded an additional \$433,000 pension liability adjustment as of January 1, 2008.

Note 5. Fair Value Measurements

In September 2006, the FASB issued SFAS 157, Fair Value Measurements, which among other things, requires enhanced disclosures about assets and liabilities carried at fair value. SFAS 157 is effective for fiscal years beginning after November 15, 2007. FASB Staff Position 157-2 delays the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008. These elements were adopted on January 1, 2009. SFAS 157 establishes a hierarchal disclosure framework associated with the level of pricing observability utilized in measuring financial instruments at fair value. The three broad levels defined by the SFAS 157 hierarchy are as follows:

Level I Quoted prices are available in active markets for identical assets or liabilities as of the reported date. The type of financial instruments included in Level I are highly liquid cash instruments with quoted prices such as G-7 government, agency securities, listed equities and money market securities, as well as listed derivative instruments.

Level II Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these financial instruments include cash instruments for which quoted prices are available but traded less frequently, derivative instruments whose fair value have been derived using a model where inputs to the model are directly observable in the market, or can be derived principally from or corroborated by observable market data, and instruments that are fair valued using other financial instruments, the parameters of which can be directly observed. Instruments which are generally included in this category are corporate bonds and loans, mortgage whole loans, municipal bonds and OTC derivatives.

Table of Contents

Level III Instruments that have little to no pricing observability as of the reported date. These financial instruments do not have two-way markets and are measured using management's best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation. Instruments that are included in this category generally include certain commercial mortgage loans, certain private equity investments, distressed debt, non-investment grade residual interests in securitizations, as well as certain highly structured OTC derivative contracts.

The Company has evaluated SFAS 157 and the results of the fair value hierarchy required by SFAS 157 as of March 31, 2009 are as follows:

	Carrying Value	Fair Value Measurements Using		Significant Other Unobservable Inputs (Level 3)
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	
(In thousands)				
Financial Instruments Measured at Fair Value on a Recurring Basis:				
Securities AFS	\$538,487	\$ 587	\$ 512,862	\$ 25,038

Financial Instruments Measured at Fair Value on a Non-recurring Basis:

Impaired Loans	4,871	4,871
----------------	-------	-------

Impaired loan balances in the table above represent those collateral dependent loans where management has estimated the credit loss by comparing the loan's carrying value against the expected realizable fair value of the collateral, in accordance with SFAS 114 (as amended). Specific provisions relates to impaired loans recognized for the three month period ended March 31, 2009 for the estimated credit loss amounted to \$1.0 million.

The changes in Level 3 securities for the first quarter of 2009 is shown in the table below:

	2009 (In thousands)
Balance at December 31, 2008	\$ 3,470
Purchases	957
Maturities	(450)
Reclassification	21,061
Balance at March 31, 2009	\$ 25,038

There was a \$21.1 million reclassification of failed auction rate securities to Level 3 during the first quarter of 2009 due to the lack of an active market. The amortized cost of Level 3 securities was \$27.3 million with an unrealized loss of \$2.2 million. The securities in this category are generally equity investments, municipal securities with no readily determinable fair value or failed auction rate securities. Management evaluated the fair value of these securities based on an evaluation of the underlying issuer, prevailing rates and market liquidity.

Note 6. Recent Accounting Developments

FASB Staff Position FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairments (FSP FAS 115-2 and FAS 124-2). On April 9, 2009, the FASB issued FSP FAS 115-2 and FAS 124-2 which is intended to provide greater clarity to investors about the credit and noncredit component of an OTTI event and to more effectively communicate when an OTTI event has occurred. The FSP applies to debt securities and requires that the total OTTI be presented in the statement of income with an offset for the amount of impairment that

is recognized in other comprehensive income, which is the noncredit component. Noncredit component losses are to be recorded in other comprehensive income if an investor can assess that

Table of Contents

(a) it does not have the intent to sell or (b) it is more likely than not that it will have to sell the security prior to its anticipated recovery. The FSP is effective for interim and annual periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The FSP will be applied prospectively with a cumulative effect transition adjustment as of the beginning of the period in which it is adopted (January 1, 2009 if the Company early adopts). An entity early adopting this FSP must also early adopt FSP FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly. The adoption of FSP FAS 115-2 and FAS 124-2 could have a material effect on the Company's results of operations to the extent that the Company has material other-than-temporary impairment charges in the future.

FSP FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP FAS 157-4). On April 9, 2009, FASB issued FSP FAS 157-4 which provides additional guidance on determining whether a market for a financial asset is not active and a transaction is not distressed for fair value measurements under FASB Statement No. 157, Fair Value Measurements. The FSP will be applied prospectively and retrospective application will not be permitted. The FSP will be effective for interim and annual periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. An entity early adopting this FSP must also early adopt FSP FAS 115-2 and FAS 124-2. The Company has not yet determined the impact of adopting FSP FAS 157-4. The Company will adopt the FSP in the second quarter of 2009.

Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations (SFAS 141R) and Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51 (SFAS 160). In December 2007, the FASB issued SFAS 141R and SFAS 160. These statements require significant changes in the accounting and reporting for business acquisitions and the reporting of noncontrolling interests in subsidiaries. Among many changes under SFAS 141R, an acquirer will record 100% of all assets and liabilities at fair value for partial acquisitions, contingent consideration will be recognized at fair value at the acquisition date with changes possibly recognized in earnings, and acquisition related costs will be expensed rather than capitalized. SFAS 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary. Key changes under the standard are that noncontrolling interests in a subsidiary will be reported as part of equity, losses allocated to a noncontrolling interest can result in a deficit balance, and changes in ownership interests that do not result in a change of control are accounted for as equity transactions and, upon a loss of control, gain or loss is recognized and the remaining interest is remeasured at fair value on the date control is lost. SFAS 141R applies prospectively to business combinations for which the acquisition is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The effective date for applying SFAS 160 is also the first annual reporting period beginning on or after December 15, 2008. Adoption of these statements will affect the Company's accounting for any business acquisitions occurring after the effective date and the reporting of any noncontrolling interests in subsidiaries existing on or after the effective date.

SFAS No. 162 (SFAS 162), The Hierarchy of Generally Accepted Accounting Principles. In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles. This statement identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This Statement shall be effective 60 days following the Security and Exchange Commission's approval of the Public Company Accounting Oversight Board (PCAOB) amendments to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. The

Table of Contents

Company has not yet determined the impact of the adoption of SFAS 162 to the Company's statement of financial position or results of operations.

FSP FAS 142-3, Determination of the Useful Life of Intangible Assets. In April 2008, the FASB issued FSP FAS 142-3, Determination of the Useful Life of Intangible Assets. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142 (SFAS 142), Goodwill and Other Intangible Assets. The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under FASB Statement No. 141 (revised 2007) (SFAS 141R), Business Combinations, and other U.S. generally accepted accounting principles (GAAP). This Statement is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those years. Early application is not permitted. The Company has determined that the impact of the adoption of FSP FAS 142-3 to the Company's statement of financial position or results of operations is immaterial.

FSP EITF 03-6-01, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities. In June 2008, the FASB issued FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities. This FSP addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share (EPS) under the two-class method described in paragraphs 60 and 61 of FASB Statement No. 128 (SFAS 128), Earnings per Share. The guidance in this FSP applies to the calculation of EPS under SFAS 128 for share-based payment awards with rights to dividends or dividend equivalents. Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of EPS pursuant to the two-class method. This Statement is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those years. All prior-period EPS data presented shall be adjusted retrospectively (including interim financial statements, summaries of earnings and selected financial data) to conform with the provisions of this FSP. Early application is not permitted. The Company has determined that the impact of the adoption of FSP EITF 03-6-1 to the Company's statement of financial position or results of operations is immaterial.

FSP FAS 132(R)-1, Employers' Disclosures about Postretirement Benefit Plan Assets. In December 2008, the FASB issued FSP FAS 132(R)-1, Employers' Disclosures about Postretirement Benefit Plan Assets. The FSP requires disclosure of additional information about investment allocation, fair values of major asset categories of assets, the development of fair value measurements, and concentrations of risk. The FSP is effective for fiscal years ending after December 15, 2009; however, earlier application is permitted. The Company will adopt the FSP upon its effective date and will report the required disclosures in our Form 10-K for the period ending December 31, 2009.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

Except for the historical information contained herein, this Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 as amended and Section 21E of the Securities Exchange Act of 1934 as amended. Investors are cautioned that forward-looking statements are

Table of Contents

inherently uncertain. Actual performance and results of operations may differ materially from those projected or suggested in the forward-looking statements due to certain risks and uncertainties, including, without limitation, (i) the fact that the Company's success is dependent to a significant extent upon general economic conditions in New England, (ii) the fact that the Company's earnings depend to a great extent upon the level of net interest income (the difference between interest income earned on loans and investments and the interest expense paid on deposits and other borrowings) generated by the Bank and thus the Bank's results of operations may be adversely affected by increases or decreases in interest rates, (iii) the fact that the banking business is highly competitive and the profitability of the Company depends upon the Bank's ability to attract loans and deposits within its market area, where the Bank competes with a variety of traditional banking and other institutions such as credit unions and finance companies, and (iv) the fact that a significant portion of the Company's loan portfolio is comprised of commercial loans, exposing the Company to the risks inherent in loans based upon analyses of credit risk, the value of underlying collateral, including real estate, and other more intangible factors, which are considered in making commercial loans. Accordingly, the Company's profitability may be negatively impacted by errors in risk analyses, and by loan defaults, and the ability of certain borrowers to repay such loans may be adversely affected by any downturn in general economic conditions. These factors, as well as general economic and market conditions, may materially and adversely affect the market price of shares of the Company's common stock. Because of these and other factors, past financial performance should not be considered an indicator of future performance. The forward-looking statements contained herein represent the Company's judgment as of the date of this Form 10-Q, and the Company cautions readers not to place undue reliance on such statements.

Executive Overview

Century Bancorp, Inc. (together with its bank subsidiary, unless the context otherwise requires, the Company) is a Massachusetts state chartered bank holding company headquartered in Medford, Massachusetts. The Company is a Massachusetts corporation formed in 1972 and has one banking subsidiary (the Bank): Century Bank and Trust Company formed in 1969. The Company had total assets of approximately \$2.0 billion as of March 31, 2009. The Company presently operates 22 banking offices in 16 cities and towns in Massachusetts ranging from Braintree in the south to Beverly in the north. The Bank's customers consist primarily of small and medium-sized businesses and retail customers in these communities and surrounding areas, as well as local governments and institutions throughout Massachusetts.

During 2007, the Company entered into a lease agreement to open a branch located on Riverside Avenue in Medford, Massachusetts. The branch opened on April 14, 2008.

On August 17, 2007, the Company sold the building which houses one of its branches located at 55 High Street, Medford, Massachusetts for \$1.5 million at market terms.

The Bank relocated this branch to 1 Salem Street (formerly 3 Salem Street), Medford, Massachusetts. This sale resulted in a gain of \$1,321,000. The branch opened on May 5, 2008.

During 2008, the Company entered into a lease agreement to open a branch located on Main Street in Winchester, Massachusetts. The branch opened during October 2008.

During October 2008, the Company received regulatory approval to close a branch on Albany Street in Boston, Massachusetts. This branch closed in January 2009.

The Company's results of operations are largely dependent on net interest income, which is the difference between the interest earned on loans and securities and interest paid on deposits and borrowings. The results of operations are also affected by the level of income and fees from loans, deposits, as well as operating expenses, the provision for loan losses, the impact of federal and state income taxes and the relative levels of interest rates and economic activity.

Table of Contents

The Company offers a wide range of services to commercial enterprises, state and local governments and agencies, non-profit organizations and individuals. It emphasizes service to small and medium-sized businesses and retail customers in its market area. The Company makes commercial loans, real estate and construction loans and consumer loans, and accepts savings, time, and demand deposits. In addition, the Company offers to its corporate and institutional customers automated lock box collection services, cash management services and account reconciliation services, and actively promotes the marketing of these services to the municipal market. Also, the Company provides full service securities brokerage services through its division, Investment Services at Century Bank, in conjunction with Linsco/Private Ledger Corp. (LPL), an unaffiliated registered securities broker-dealer and investment advisor. The Company is also a provider of financial services, including cash management, transaction processing and short term financing to municipalities in Massachusetts and Rhode Island. The Company has deposit relationships with approximately 40% of the 351 cities and towns in Massachusetts.

Earnings for the first quarter ended March 31, 2009 were \$1,886,000, or \$0.34 per share diluted, compared to net income of \$1,800,000, or \$0.32 per share diluted, for the first quarter ended March 31, 2008.

Net interest income totaled \$10.8 million for the quarter ended March 31, 2009 as compared to \$10.2 million for 2008. The 5.5% increase in net interest income for the period is mainly due to a 21.2% increase in the average balances of earning assets, combined with a similar increase in deposits. The increased volume was somewhat offset by a decrease of twenty-five basis points in the net interest margin. The net interest margin decreased from 2.82% on a fully taxable equivalent basis in 2008 to 2.57% on the same basis for 2009.

Throughout 2007 and 2008, the Company had seen improvement in its net interest margin, however, the first quarter of 2009 reflects a decrease in the net interest margin as illustrated in the graph below:

Page 15 of 27

Table of Contents

The primary factors accounting for the increase in the net interest margin for 2007 and 2008 are:

a continuing decline in the cost of funds as a result of increased pricing discipline related to deposits,

an increase in average loans outstanding during 2008,

the maturity of lower-yielding investment securities,

an increase in the slope of the yield curve,

an increase in the loan yield due to an increase in prepayment fees, particularly in the second quarter of 2007, and

an increase in investment yields due, in part, to taking advantage of elevated yields in the municipal auction rate securities market.

The primary factor accounting for the decrease in the net interest margin for the first quarter of 2009 was a large influx of deposits, primarily from municipalities, and a corresponding increase in short-term investments. The Company is in the process of deploying these funds in higher yielding assets.

While management will continue its efforts to improve the net interest margin, there can be no assurance that certain factors beyond its control, such as the prepayment of loans and changes in market interest rates, will continue to positively impact the net interest margin.

The provision for loan losses increased by \$1.2 million from \$700,000 to \$1.9 million as a result of increases in loans on nonaccrual as well as continued deterioration in overall economic conditions such as increased unemployment. The Company capitalized on favorable market conditions and realized \$978,000 of net gains on sales of investments. The Company's effective tax rate declined from 30.0% in 2008 to 12.8% in 2009 primarily as a result of an increase in tax-exempt income.

Financial Condition

Loans

On March 31, 2009, total loans outstanding, net, were \$842.1 million, an increase of 0.7% from the total on December 31, 2008. At March 31, 2009, commercial real estate loans accounted for 40.4% and residential real estate loans, including home equity loans, accounted for 35.6% of total loans.

Commercial and industrial loans decreased to \$133.7 million at March 31, 2009 from \$141.4 million on December 31, 2008. Construction loans increased to \$60.5 million at March 31, 2009 from \$59.5 million on December 31, 2008.

Table of Contents**Allowance for Loan Losses**

The allowance for loan loss at March 31, 2009 was \$12.5 million as compared to \$11.1 million at December 31, 2008. This increase was due to the provision for loan losses exceeding net loan charge offs for the three month ended March 31, 2009 as shown in the table below. The provision for loan losses increased by \$1.2 million from \$700,000 to \$1.9 million, this increase in the provision was due to an increase in nonperforming loans as well as current uncertainties in the economy such as increased unemployment. Also, the level of the allowance for loan losses to total loans increased from 1.33% at December 31, 2008 to 1.49% at March 31, 2009. This increase in the ratio is primarily a result of an increase in non-performing assets to \$14.7 million from \$3.7 million on December 31, 2008. The increase in nonperforming assets was primarily as a result of two loan relationships totaling \$9.6 million with specific reserves of \$600,000, one primarily commercial real estate and one construction.

The following table summarizes the changes in the Company's allowance for loan losses for the periods indicated:

	(In thousands)	
	Three months ended March	
	31,	
	2009	2008
Allowance for loan losses, beginning of period	\$ 11,119	\$ 9,633
Loans charged off	(640)	(625)
Recoveries on loans previously charged-off	193	65
Net charge-offs	(447)	(560)
Provision charged to expense	1,850	700
Allowance for loan losses, end of period	\$ 12,522	\$ 9,773

During 2009, the Company has experienced increased levels of nonaccruing loans. Due to current uncertainties in the economy, this trend may continue if borrowers are negatively impacted by future economic conditions. Management continually monitors trends in the loan portfolio to determine the appropriate level of allowance for loan losses. At the current time, management believes that the allowance for loan losses is adequate.

Nonperforming Assets

The following table sets forth information regarding nonperforming assets held by the Bank at the dates indicated:

	March 31,	December 31,
	2009	2008
	(Dollars in thousands)	
Nonaccruing loans	\$ 14,659	\$ 3,661
Loans past due 90 days or more and still accruing	\$	\$ 89
Other real estate owned	\$	\$
Nonaccruing loans as a percentage of total loans	1.74%	.44%

Cash and Cash Equivalents

Cash and cash equivalents remained relatively stable during the first quarter of 2009.

Table of Contents**Short-term Investments**

Short-term investments increased mainly as a result of increases in interest bearing deposits. Interest bearing deposits increased mainly because of increases in savings and NOW deposits and money market accounts. The increase was primarily from deposits from municipalities.

Investments

Management continually evaluates its investment alternatives in order to properly manage the overall balance sheet mix. The timing of purchases, sales and reinvestments, if any, will be based on various factors including expectation of movements in market interest rates, deposit flows and loan demand. Notwithstanding these events, it is the intent of management to grow the earning asset base mainly through loan originations while funding this growth through a mix of retail deposits, FHLB advances, and retail repurchase agreements.

	March 31, 2009	December 31, 2008
	(In thousands)	
Securities Available-for-Sale (at Fair Value)		
U.S Treasury	\$ 2,007	\$ 2,028
U.S. Government Sponsored Enterprises	87,006	161,292
U.S. Government Agency and Sponsored Enterprise Mortgage-backed Securities	389,490	260,132
Privately Issued Mortgage-backed Securities	7,224	9,026
Obligations of States and Political Subdivisions	49,865	60,259
Other Bonds and Equity Securities	2,895	2,848
Total Securities Available-for-Sale	\$ 538,487	\$ 495,585

During the first quarter of 2009 the Company capitalized on favorable market conditions and realized \$978,000 of net gains on sales of investments. The sales of investments represented six U.S. Government Sponsored Enterprise bonds totaling \$31.0 million.

Debt securities of Government Sponsored Enterprises primarily refer to debt securities of Fannie Mae and Freddie Mac. Control of these enterprises was directly taken over by the U.S. Government in the 3rd quarter of 2008.

Securities Held-to-Maturity (at Amortized Cost)

U.S. Government Sponsored Enterprises	\$ 42,600	\$ 44,000
U.S. Government Agency and Sponsored Enterprise Mortgage-backed Securities	189,030	140,047
Total Securities Held-to-Maturity	\$ 231,630	\$ 184,047

At March 31, 2009 and December 31, 2008, all mortgage-backed securities are obligations of U.S. Government Sponsored Enterprises.

Table of Contents

Debt securities of Government Sponsored Enterprises primarily refer to debt securities of Fannie Mae and Freddie Mac. Control of these enterprises was directly taken over by the U.S. Government in the 3rd quarter of 2008.

Securities Available-for-Sale

The securities available-for-sale portfolio totaled \$538.5 million at March 31, 2009, an increase of 8.7% from December 31, 2008. Purchases of securities available-for-sale totaled \$173.0 million for the three months ended March 31, 2009. The portfolio is concentrated in United States Government Sponsored Enterprises, Mortgage-backed Securities and Obligations issued by States and Political Subdivisions and had an estimated weighted average remaining life of 3.65 years. Excluding auction rate municipal obligations (ARS) and variable rate demand notes (VRDN), which have maturities of up to 30 years, but reprice frequently, the estimated average remaining life is 2.28 years.

Included in Obligations Issued by States and Political Subdivisions as of March 31, 2009, are \$28.3 million of ARS s and \$15.0 million of VRDN s with unrealized losses of \$2.2 million for ARS s. VRDN s fair value is estimated to equal the cost. These debt securities were issued by governmental entities, but are not necessarily debt obligations of the issuing entity. Of the total of \$43.3 million of ARS s and VRDN s, \$20.0 million are obligations of governmental entities and the remainder is obligations of large non-profit entities. These obligations are variable rate securities with long-term maturities whose interest rates are set periodically through an auction process for ARS s and by prevailing market rates for VRDN s. Should the auction not attract sufficient bidders, the interest rate adjusts to the default rate defined in each obligation s underlying documents. The Company increased its holdings in these types of securities during the second and third quarters of 2008 to take advantage of yields available at that time due to market disruption. Although many of these issuers have bond insurance, the Company purchased the securities based on the creditworthiness of the underlying obligor. Based on the creditworthiness of the underlying obligors, management does not believe that any of these securities are other-than-temporarily impaired. As of March 31, 2009 the weighted average taxable equivalent yield on these securities was 2.17%. At the time of purchase, these securities generally had higher yields. The overall yield has declined due to an overall decline in prevailing short-term interest rates as well as declining spreads to market rates.

In the case of a failed auction, the Company may not have access to funds as only a limited market exists for failed ARS s. As of March 31, 2009, three of the Company s ARS s were purchased subsequent to their failure with a fair value of \$11.3 million and an amortized cost of \$13.3 million. These securities were issued by governmental entities, and are the debt of non-profit organizations which the Company believes to be creditworthy. Securities issued by governmental entities were purchased prior to their failure with a fair value of \$9.8 million and amortized cost of \$10.0 million.

The majority of the Company s securities AFS are classified as Level 2. The fair values of these securities are obtained from a pricing service, which provides the Company with a description of the inputs generally utilized for each type of security. These inputs include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. Market indicators and industry and economic events are also monitored.

Securities available-for-sale totaling \$25.0 million, or 1.28% of assets are classified as Level 3. These securities are generally failed auction rate securities, equity investments or obligations of states and political subdivisions with no readily determinable fair value. Failed auction rate securities were reclassified to level 3 during the first quarter of 2009 due to the lack of an active market. Fair values for Level 3 securities are generally arrived at based upon a review of market trades, if any, as well as an analysis of the security based upon market liquidity and prevailing market interest rates.

Table of Contents

Securities Held-to-Maturity

The securities held-to-maturity portfolio totaled \$231.6 million on March 31, 2009, an increase of 25.9% from the total on December 31, 2008. These purchases were made to take advantage of rising rates and the somewhat steeper yield curve. The portfolio is concentrated in United States Government Sponsored Enterprises and Mortgage-backed Securities and had an estimated weighted average remaining life of 2.1 years.

Federal Home Loan Bank of Boston stock

The Company owns Federal Home Loan Bank of Boston (FHLBB) stock which is considered a restricted equity security. As a voluntary member of the FHLBB, the Company is required to invest in stock of the FHLBB in an amount equal to 4.5% of its outstanding advances from the FHLBB. Stock is purchased at par value. As and when such stock is redeemed, the Company would receive from the FHLBB an amount equal to the par value of the stock. At its discretion, the FHLBB may declare dividends on the stock. On April 10, 2009, the FHLBB Boston reiterated to its members that, while it currently meets all its regulatory capital requirements, it is focusing on preserving capital in response to ongoing market volatility, and accordingly, has suspended its quarterly dividend and has extended the moratorium on excess stock repurchases. It also announced that it had taken a write-down of \$381.7 million in other-than-temporary impairment charges on its private-label mortgage-backed securities. This resulted in a net loss of \$115.8 million for the year ended December 31, 2008. In the future, if additional unrealized losses are deemed to be other-than-temporary, the associated impairment charges could exceed the FHLBB's current level of retained earnings and possibly put into question whether the fair value of the FHLBB stock owned by the Company is less than par value. The FHLBB has stated that it expects and intends to hold its private-label mortgage-backed securities to maturity. The Company will continue to monitor its investment in FHLBB stock.

Deposits and Borrowed Funds

On March 31, 2009, deposits totaled \$1.47 billion, representing a 16.3% increase in total deposits from December 31, 2008. Total deposits increased primarily as a result of increases in money market accounts and savings and NOW deposits. Money market accounts and savings and NOW deposits increased mainly because the Company competed more aggressively for these types of deposits during the first three months of the year. Borrowed funds totaled \$274.2 million compared to \$351.1 million at December 31, 2008. Borrowed funds decreased due to the maturity of short-term borrowings.

Table of Contents**Results of Operations**

The following table sets forth the distribution of the Company's average assets, liabilities and stockholders' equity, and average rates earned or paid on a fully taxable equivalent basis for each of the three-month periods indicated.

	March 31, 2008		Three Months Ended		March 31, 2009	
	Average Balance	Interest(1)	Average Yield/ Rate	Average Balance	Interest(1)	Average Yield/ Rate
ASSETS						
Interest-earning assets:						
Loans(2)	\$ 835,240	\$ 12,352	5.95%	\$ 735,099	\$ 12,378	6.76%
Securities available-for-sale(5):						
Taxable	471,604	4,764	4.04	388,626	4,328	4.45

Total interest-bearing liabilities	1,491,428	8,791	2.39%	1,192,536	9,530	3.21%
Non interest-bearing liabilities						

Edgar Filing: CENTURY BANCORP INC - Form 10-Q

Demand deposits	273,439	259,395
Other liabilities	29,703	20,752
Total liabilities	1,794,570	1,472,683
Stockholders' equity	122,019	121,395
Total liabilities & stockholders' equity	\$ 1,916,589	\$ 1,594,078

Net interest income on a fully taxable equivalent basis	11,494	10,374
Less taxable equivalent adjustment	(702)	(142)
Net interest income	\$ 10,792	\$ 10,232

Net interest spread (3)	2.18%	2.22%
Net interest margin (4)	2.57%	2.82%

(1) On a fully taxable equivalent basis calculated using a federal tax rate of 34%.

(2) Nonaccrual loans are included in average amounts outstanding.

(3) Interest rate spread represents the difference between the weighted average yield on interest-earning assets and the weighted average cost of interest-bearing liabilities.

(4) Net interest margin represents net interest income as a

percentage of
average
interest-earning
assets.

- (5) Average balances
of securities
available-for-sale
calculated
utilizing
amortized cost.

Table of Contents

The following table presents certain information on a fully-tax equivalent basis regarding changes in the Company's interest income and interest expense for the periods indicated. For each category of interest-earning assets and interest-bearing liabilities, information is provided with respect to changes attributable to changes in rate and changes in volume.

	Three Months Ended March 31, 2009 Compared with March 31, 2008 Increase/(Decrease) Due to Change in		
	Volume	Rate	Income Increase (Decrease)
	(dollars in thousands)		
Interest income:			
Loans	\$ 1,554	\$ (1,580)	\$ (26)
Securities available-for-sale			
Taxable	864	(428)	436
Tax-exempt	407	(81)	326
Securities held-to-maturity			
Taxable	212	106	318
Federal funds sold	(1,215)		(1,215)
Interest-bearing deposits in other banks	544	(2)	542
Total interest income	2,366	(1,985)	381
Interest expense:			
Deposits:			
NOW accounts	129	(376)	(247)
Savings accounts	233	(204)	29
Money market accounts	823	(478)	345
Time deposits	372	(680)	(308)
Total interest-bearing deposits	1,557	(1,738)	(181)
Securities sold under agreements to repurchase	64	(372)	(308)
Other borrowed funds and subordinated debentures	(154)	(96)	(250)
Total interest expense	1,467	(2,206)	(739)
Change in net interest income	\$ 899	\$ 221	\$ 1,120

Net Interest Income

For the three months ended March 31, 2009, net interest income on a fully taxable equivalent basis totaled \$11.5 million compared to \$10.4 million for the same period in 2008, an increase of \$1.1 million or 10.8%. This increase in net interest income for the period is mainly due to a 21.2% increase in the average balances of earning assets, combined with a similar increase in deposits. The increased volume was somewhat offset by a decrease of twenty-five basis points in the net interest margin. The net interest margin decreased from 2.82% on a fully taxable equivalent basis in 2008 to 2.57% on the same basis for 2009.

There can be no assurance that certain factors beyond its control, such as the prepayment of loans and changes in market interest rates, will continue to positively impact the net interest margin. Management believes that the relatively flat yield curve environment will continue to present challenges as deposit and borrowing costs may have the potential to increase at a faster rate than corresponding asset categories.

Table of Contents

Provision for Loan Losses

For the three months ended March 31, 2009, the loan loss provision was \$1.9 million compared to a provision of \$700,000 for the same period last year for an increase of \$1.2 million. The increase in the provision was due to an increase in nonperforming loans as well as current uncertainties in the economy such as increased unemployment. The level of the allowance for loan losses to total loans increased from 1.33% at December 31, 2008 to 1.49% at March 31, 2009. This increase in the ratio is primarily a result of an increase in nonperforming loans. The increase in nonperforming loans caused an increase in both specific loan loss reserves and general allowance allocations.

Non-Interest Income and Expense

Other operating income for the quarter ended March 31, 2009 was \$4.7 million compared to \$3.4 million for the same period last year. The increase in other operating income was mainly attributable to an increase in net gain on sales of investments of \$878,000. Also, other income increased by \$360,000. This increase consisted mainly of \$354,000 increase in the growth of cash surrender values on life insurance policies. Also, there was a \$41,000 increase in service charges on deposit accounts. Service charges on deposit accounts increased mainly because of an increase in fees charged.

For the quarter ended March 31, 2009, operating expenses increased by \$1.1 million or 10.3% to \$11.5 million, from the same period last year. The increase in operating expenses for the quarter was mainly attributable to an increase of \$598,000 in salaries and employee benefits, \$489,000 in other expenses and \$81,000 in occupancy expenses. Other expenses increased mainly as a result of an increase in FDIC assessments, bank processing charge and legal expenses. FDIC assessments increased as a result of an increase in the deposit assessment rate, an increase in deposit balances and usage of a one-time credit during 2008. Salaries and employee benefits increased mainly as a result of increases in staffing levels and an increase in pension expense. Occupancy expenses increased mainly as a result of increases in rent expense associated with retail branch expansion, depreciation and real estate taxes. Equipment expenses decreased by \$102,000.

The FDIC increased the annual assessment rate to between 12 and 16 basis points for well capitalized banks, which we anticipate will increase our annual FDIC premiums by approximately \$1.2 million during 2009 as compared to 2008. During 2008, the Company paid approximately 5.3 basis points for FDIC deposit insurance. Also, the FDIC approved an interim rule in February 2009 that will institute a one-time special assessment of 20 cents per \$100 of domestic deposits on the banking industry in order to quickly restore its Deposit Insurance Fund. The Company estimates that this one-time special assessment that was announced would result in approximately \$2.7 million in additional non-interest expense during 2009. In the event, the special assessment were reduced from 20 basis points to 10 basis points, which is currently being discussed, we estimate that the Company would record approximately \$1.34 million in additional non-interest expense.

Income Taxes

For the first quarter of 2009, the Company's income tax expense totaled \$276,000 on pretax income of \$2.2 million for an effective tax rate of 12.8%. For last year's corresponding quarter, the Company's income tax expense totaled \$770,000 on pretax income of \$2.6 million for an effective tax rate of 30.0%. The effective income tax rate decreased for the current quarter mainly as a result of an increase in tax exempt income as a percentage of taxable income compared to the first quarter of the prior year.

Table of Contents**Item 3. Quantitative and Qualitative Disclosure about Market Risk**

Market risk is the risk of loss from adverse changes in market prices and rates. The Company's market risk arises primarily from interest rate risk inherent in its lending and deposit taking activities. To that end, management actively monitors and manages its interest rate risk exposure. The Company's profitability is affected by fluctuations in interest rates. A sudden and substantial increase or decrease in interest rates may adversely impact the Company's earnings to the extent that the interest rates tied to specific assets and liabilities do not change at the same speed, to the same extent, or on the same basis. The Company monitors the impact of changes in interest rates on its net interest income using several tools. The Company's primary objective in managing interest rate risk is to minimize the adverse impact of changes in interest rates on the Company's net interest income and capital, while structuring the Company's asset-liability structure to obtain the maximum yield-cost spread on that structure. Management believes that there has been no material changes in the interest rate risk reported in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008, filed with the Securities and Exchange Commission. The information is contained in the Form 10-K within the Market Risk and Asset Liability Management section of Management's Discussion and Analysis of Results of Operations and Financial Condition.

Item 4. Controls and Procedures

The Company's management, with participation of the Company's principal executive and financial officers, has evaluated its disclosure controls and procedures as of the end of the period covered by this quarterly report. Based on this evaluation, the Company's management, with participation of its principal executive and financial officers, have concluded that the Company's disclosure controls and procedures effectively ensure that information required to be disclosed in the Company's filings and submissions with the Securities and Exchange Commission under the Exchange Act is accumulated and reported to Company management (including the principal executive officers and the principal financial officer) as appropriate to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission. In addition, the Company has evaluated its internal control over financial reporting and during the first quarter of 2009 there has been no change in its internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II Other Information

Item 1 Legal proceedings At the present time, the Company is not engaged in any legal proceedings which, if adversely determined to the Company, would have a material adverse impact on the Company's financial condition or results of operations. From time to time, the Company is party to routine legal proceedings within the normal course of business. Such routine legal proceedings, in the aggregate, are believed by management to be immaterial to the Company's financial condition and results of operation.

Item 1A Risk Factors Please read Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008. There have been no material changes since this 10-K was filed. These risks are not the only ones facing the Company. Additional risks and uncertainties not currently known to the Company or that the Company currently deems to be immaterial also may materially adversely effect the Company's business, financial condition and operating results.

Table of Contents**Item 2** Unregistered Sales of Equity Securities and Use of Proceeds

(a) (b) Not applicable.

(c) The following table sets forth information with respect to any purchase made by or on behalf of Century Bancorp, Inc. or any affiliated purchaser, as defined in 204.10b-18(a)(3) under the Exchange Act, of shares of Century Bancorp, Inc. Class A common stock during the indicated periods:

Period	Total number of shares purchased	Issuer Purchases of Equity Securities		
		Weighted Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs (1)
January 1 - January 31, 2009		\$		297,303
February 1 - February 28, 2009		\$		297,303
March 1 - March 31, 2009	3,800	\$ 11.48	3,800	293,503

(1) On July 8, 2008, the Company announced a reauthorization of the Class A common stock repurchase program to repurchase up to 300,000 shares. The Company placed no deadline on the repurchase program. There were no shares purchased other than through a publicly announced plan or program.

Item 3 Defaults Upon Senior Securities None**Item 4** Submission of Matters to a vote of Security Holders Special meeting held on January 9, 2009.

Number of Votes For	Number of Votes Against	Number of Votes Abstained
------------------------	-------------------------------	---------------------------------

To authorize 100,000 shares of preferred stock of the Company, \$1.00 par value per share, and to authorize the Board of Directors of the Company to create classes or series and the distinguishing designation thereof and the preferences, limitations, and relative rights applicable thereto.

1,912,050
