**Fair Value Measurements**

During the current fiscal period, the Fund adopted the provisions of Statement of Financial Accounting Standards No. 157 (SFAS No. 157) Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements. In determining the value of the Fund's investments various inputs are used. These inputs are summarized in the three broad levels listed below:

Level 1 Quoted prices in active markets for identical securities.

Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the Fund's fair value measurements as of March 31, 2009:

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

**Derivative Instruments and Hedging Activities**

During the current fiscal period, the Fund adopted the provisions of Statement of Financial Accounting Standards No. 161 (SFAS No. 161) Disclosures about Derivative Instruments and Hedging Activities . This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to better understand: a) how and why a fund uses derivative instruments; b) how derivative instruments are accounted for; and c) how derivative instruments affect a fund's financial position, results of operations and cash flows, if any. The Fund records derivative instruments at fair value with changes in fair value recognized in the Statement of Operations. Even though the Fund's investments in derivatives may represent economic hedges, they are considered to be non-hedge transactions for SFAS No. 161 disclosure purposes.

The table below presents the fair value of all derivative instruments held by the Fund as of March 31, 2009, the location of these instruments on the Statement of Assets and Liabilities, and the primary underlying risk exposure.

Underlying Risk	Derivative Instrument	Location on the Statement of Assets and Liabilities			
		Asset Derivatives		Liability Derivatives	
		Location	Fair Value	Location	Fair Value
Equity Price	Options		\$	Call options written, at value	\$ 6,011,654
Equity Price	Futures	Receivable for variation margin on futures contracts*	580,425		
Total			\$ 580,425		\$ 6,011,654

\* Represents cumulative appreciation (depreciation) of futures contracts as reported in the Portfolio of Investments and not the current day's variation margin presented in the Statement of Assets and Liabilities.

**Income Tax Information**

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing certain gains and losses on investment transactions and the recognition of unrealized gain or loss for tax (mark-to-market) on futures contracts. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset value of the Fund.

At March 31, 2009, the cost of investments (excluding call options written) was \$217,625,284.

Gross unrealized appreciation and gross unrealized depreciation of investments at March 31, 2009, were as follows:

Gross unrealized:	
Appreciation	\$ 3,719,526
Depreciation	(46,756,340)
Net unrealized appreciation (depreciation) of investments	\$ (43,036,814)

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
  - (2) Non-income producing.
  - (3) Ratings: Using the higher of Standard & Poor's Group ( Standard & Poor's ) or Moody's Investor Service, Inc. ( Moody's ) rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
  - (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for call options written and investments in derivatives.
  - (5) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by \$100.
