November 14, 2001

SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

Form 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2001**

Or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
FOR THE TRANSITION PERIOD FROM \_\_\_\_\_ to \_\_\_\_\_, 20 \_\_\_\_\_.**

Commission file number: 0-27925

**Netzee, Inc.**

*(Exact name of registrant as specified in its charter)*

**Georgia**

*(State or other jurisdiction of incorporation or organization)*

**58-2488883**

*(I.R.S. Employer Identification No.)*

**6190 Powers Ferry Road, Suite 400, Atlanta, Georgia 30339**

*(Address of principal executive offices)*

**(770) 850-4000**

*(Registrant's telephone number including area code)*

**N/A**

*(Former name, former address and former fiscal year,  
if changed since last report)*

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. As of November 1, 2001, there were 3,364,985 shares of the Registrant's Common Stock outstanding.

**NETZEE, INC. AND SUBSIDIARIES**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. ORGANIZATION AND NATURE OF BUSINESS**

**Overview**

We are a provider of integrated Internet banking products and services as well as Internet commerce solutions to financial institutions and their customers through our suite products. The suite provides cost-effective, outsourced, secure and scalable Internet banking and Internet commerce products that enable financial institutions to offer to their customers a wide array of financial products and services over the Internet. Included in the suite are full-service Internet banking, bill payment, cash management, Internet commerce services, custom web site design and hosting, branded portal design, access to brokerage services, implementation and marketing services, as well as financial analytic and financial information tools.

**Formation and Acquisitions**

Direct Access Interactive, Inc. ( Direct Access or the Predecessor ) was incorporated on October 10, 1996. On March 9, 1999, Direct Access was purchased by The InterCept Group, Inc. ( InterCept ). Direct Access was operated as a separate subsidiary of InterCept. On August 6, 1999, Direct Access purchased the remote banking operations of SBS Corporation ( SBS ). SBS provided automated technology products and services to community financial institutions nationwide. Direct Access was later merged with and into Netzee. On September 3, 1999, we purchased the Internet banking divisions of TIB The Independent BankersBank ( TIB ) and The Bankers Bank, and we acquired Dyad Corporation and subsidiaries ( Dyad ) and Call Me Bill, LLC ( Call Me Bill ). Call Me Bill provided 24-hour electronic bill payment services to financial institutions customers. On December 15, 1999, we purchased DPSC Software, Inc. ( DPSC ), which provided regulatory reporting, and related software to community financial institutions.

On March 7, 2000, we purchased Digital Visions, Inc. ( DVI ), which provided Internet-based information and analytic tools to financial institutions. In July 2000, we acquired Card Plus, Inc., ( Card Plus ), which provided outsourced software and systems development as well as related consulting services. In November 2000, we acquired the Internet banking and bill payment businesses of John H. Harland Company ( Harland ). In March 2001, we acquired the Internet banking assets of HomeCom Communications, Inc., ( HomeCom ). We collectively refer to Call Me Bill, DPSC, Dyad, the remote banking operations of SBS, the Internet banking divisions of the two bankers banks, DVI, Card Plus, the Internet banking and bill payment businesses of Harland and the Internet banking assets of HomeCom as the Acquired Operations.

**Dispositions**

On February 2, 2001, we sold to InterCept certain assets related to the regulatory reporting business acquired from DPSC in 1999, and InterCept assumed certain of the related operating liabilities (see Note 2).

On May 8, 2001, we sold to iPay, LLC ( iPay ), a related party, certain assets related to our bill payment operations formerly located in Elizabethtown, Kentucky, and iPay assumed certain of the related operating liabilities (see Note 2).

### **Basis of Presentation**

The accompanying statements have been prepared in accordance with generally accepted accounting principles for interim financial information and the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, which are of a normal recurring nature, required to present fairly our financial position, results of operations and cash flows at the dates and for the periods presented. Interim results of operations are not necessarily indicative of results to be expected for a 12-month period. The interim financial statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2000.

The unaudited consolidated financial statements include the accounts of Netzee and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

All share and per share figures in this filing have been restated to reflect our one-for-eight reverse stock split effected on May 16, 2001.

### **Recent Accounting Pronouncements**

In June 2001, the Financial Accounting Standards Board ( FASB ) approved Statement of Financial Accounting Standards ( SFAS ) No. 141, Business Combinations. SFAS No. 141 prospectively prohibits the pooling of interest method of accounting for business combinations initiated after June 30, 2001. Additionally, SFAS No. 141 requires additional disclosure regarding the reasons for a business combination and the allocation of the purchase price for business combinations accounted for as a purchase subsequent to June 30, 2001.

In June 2001, the FASB also approved SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 requires companies to cease the amortization of goodwill that existed at June 30, 2001. SFAS No. 142 established a new method of testing goodwill for impairment on an annual basis or on an interim basis if an event occurs or circumstances change that would change the fair value of goodwill from its carrying value. SFAS No. 142 also creates additional criteria for allocating the purchase price of acquired business to additional identifiable intangible assets. SFAS No. 142 becomes effective for our fiscal year beginning January 1, 2002. We are currently assessing the impact of adopting SFAS No. 142 to determine the effect, if any, it may have on the consolidated results of operations and financial position as amortization of goodwill will cease for our fiscal year beginning January 1, 2002 and periodic impairment losses may be recognized. The cumulative impact of adopting SFAS No. 142 will be reported as a change in accounting principle in our fiscal 2002 consolidated financial statements.

In June 1998, the FASB issued SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 133 established accounting and reporting standards for derivative instruments, including instruments embedded in other contracts. SFAS No. 133 requires that an entity recognize all derivatives as either assets or liabilities measured based on their fair values. SFAS becomes effective for our fiscal year ended December 31, 2001. We adopted SFAS No. 133 on January 1, 2001. Since we do not utilize these instruments or participate in these activities, SFAS No. 133 had no impact on our consolidated financial statements for the nine months ended September 30, 2001.

In the fourth quarter of fiscal 2000, we adopted Staff Accounting Bulletin ( SAB ) No. 101, Revenue Recognition , which establishes guidelines for revenue recognition and enhances revenue recognition disclosure requirements. Pursuant to this guideline, up-front fees associated with certain product implementations are now being recognized over the term of the underlying agreement, rather than upon the completion of product implementation. The cumulative impact of adopting SAB No. 101 was recorded as of January 1, 2000 and is reported as a cumulative effect of change in accounting principle for the nine months ended September 30, 2000.

## 2. ACQUISITION AND DISPOSITIONS

### Acquisition of HomeCom

During March 2001, we purchased certain assets of HomeCom's Internet banking businesses and assumed certain of HomeCom's operating liabilities related to the businesses. The purchase price was approximately \$420,000 in cash and related acquisition expenses. The transaction was accounted for as a purchase. The excess of purchase price over the net tangible assets acquired was allocated to acquired technology and is being amortized over three years. The results of operations of HomeCom have been included in the consolidated financial statements from the effective date of the acquisition and are not material to the results of our operations.

### Disposition of DPSC Assets

On February 2, 2001, we sold to InterCept certain of the regulatory reporting assets acquired from DPSC in 1999 and InterCept assumed certain of the related operating liabilities, for total consideration of approximately \$16.5 million, including liabilities assumed of approximately \$2.4 million. We received cash proceeds of approximately \$14.1 million.

In connection with the sale of these assets, we recorded a non-cash loss of approximately \$5.7 million. This non-cash loss is included in the net loss on sales of assets in our Consolidated Statement of Operations.

### Disposition of Certain Bill Payment Assets

On May 8, 2001, we sold certain assets related to a portion of our bill payment operations formerly located in Elizabethtown, Kentucky to iPay, a related party, and iPay assumed certain of the related operating liabilities. Net proceeds from the sale were approximately \$1.3 million in cash, of which \$50,000 was placed in escrow for indemnification and other purposes.

In connection with the sale of these assets, we recorded a gain of approximately \$1.2 million. This gain is included in the net loss on sales of assets in our Consolidated Statement of Operations.

### Pro Forma Results of Operations

The following summary presents unaudited pro forma results of operations assuming that each of the acquisitions of the Acquired Operations as discussed in Note 1, and the dispositions of DPSC and of certain bill payment assets occurred on January 1, 2000. These pro forma results do not necessarily reflect the results which would have actually been achieved had these acquisitions and dispositions occurred as of this date.

	For the Nine Months Ended	
	September 30, 2000	September 30, 2001
Total revenue	\$ 20,264,368	\$ 19,591,280
Net loss attributable to common shareholders	(53,146,466)	(47,007,352)
Basic and diluted loss per share	\$ (19.80)	\$ (14.03)

## 3. RESTRUCTURING COSTS

In the fourth quarter of 2000, we initiated a restructuring of management with the termination of certain management employees. Consequently, a restructuring charge of approximately \$590,000 was recorded in accordance with Emerging Issues Task Force (EITF) 94-3, Liability Recognition for Cost to Exit an Activity (Including Certain Costs Incurred in a Restructuring). This amount was comprised of \$375,000 in non-cash stock-based compensation associated with the accelerated vesting of restricted stock, and approximately \$215,000 in severance and payroll-related items.

## Edgar Filing: NETZEE INC - Form 10-Q

During the first quarter of fiscal 2001, we finalized and announced restructuring plans to reduce expenses through the consolidation of our Internet and bill payment operations. This restructuring has resulted in the closure of our

offices in Alabama, Kentucky, Texas and Tennessee, as well as the downsizing of offices in Connecticut. Total staff reductions will be approximately 165 employees. Consequently, a restructuring charge of approximately \$1,860,000 was recorded for the quarter ended March 31, 2001 in accordance with EITF 94-3. This amount was comprised of approximately \$740,000 in severance and payroll-related items and approximately \$1,120,000 in lease and other contract termination costs.

In connection with this restructuring, we have accrued approximately \$1.1 million as additional purchase price for the acquisition of assets from Harland as a result of the termination of employees and the closing of offices obtained in that acquisition in accordance with EITF 95-3,

Recognition of Liabilities in Connection with a Purchase Business Combination. This amount is comprised of approximately \$1,060,000 for severance and payroll-related items and approximately \$50,000 for office lease and other contract termination costs.

During the second quarter of fiscal 2001, we incurred additional costs related to the termination of certain employees who were not notified of their termination during the first quarter. These costs for severance and payroll related items totaled approximately \$150,000. This was offset by the reversal of certain lease termination costs totaling approximately \$475,000 resulting from our ability to terminate certain long-term lease obligations under more favorable terms than originally anticipated.

In connection with this restructuring at September 30, 2001, we had expended approximately \$3.2 million consisting of approximately \$2.7 million in severance and payroll related costs and approximately \$540,000 in contract and lease termination costs. During the nine months ended September 30, 2001, we had terminated approximately 135 employees of an anticipated 165 to be terminated as the result of the restructuring plan. At September 30, 2001, we had approximately \$350,000 in restructuring costs remaining as a liability, consisting of approximately \$240,000 in future severance benefits and other payroll-related costs and \$110,000 in additional contract and lease termination costs.

#### **4. PREFERRED STOCK**

In December 1999, we issued 500,000 shares of Series A 8% Convertible Preferred Stock, no par value, for \$13.00 per share. The Series A Preferred Stock was convertible at the option of the shareholder, in whole or in part, into 51,384 split-adjusted shares of common stock. In addition, if the average closing price of our common stock had equaled or exceeded a split-adjusted price of \$208.00 per share for any four-week period, we would have been permitted to redeem all of the Series A Preferred Stock for cash or 51,384 split-adjusted shares of common stock. If we had elected to redeem the Series A Preferred Stock for cash, the holder had the option to receive payment in common stock. Series A Preferred Stock dividends were cumulative and were payable when declared by the Board of Directors, at the rate of \$1.04 per share. We accrued \$24,200 in dividends on the shares of Series A Preferred Stock for the period from December 15, 1999 to December 31, 1999. During 2000, we paid \$24,200 in accrued dividends.

In September 2000, we exchanged all 500,000 shares of Series A 8% Convertible Preferred Stock for 500,000 shares of Series B 8% Convertible Preferred Stock, no par value. The rights, preferences and limitations of the Series B Preferred Stock are substantially identical to those of the Series A Preferred Stock, except that upon conversion of the Series B Preferred Stock or upon the liquidation of Netzee, a holder of the Series B Preferred Stock is entitled to receive all accrued but unpaid dividends thereupon.

As of June 15, 2002, the shares of Series B Preferred Stock will be subject to the right of the holder thereof to require us to repurchase all of such shares at a price of \$13.00 per share, plus all accrued and unpaid dividends thereupon. As of September 30, 2001, we have accrued \$910,000 in dividends on the shares of Series B Preferred Stock.

#### **5. BASIC AND DILUTED NET LOSS PER SHARE**

Basic and diluted net loss per share has been computed in accordance with SFAS No. 128, Earnings per Share, using net loss divided by the weighted average number of shares of common stock outstanding for the period presented. Potentially dilutive options to purchase 319,609 shares of common stock with a weighted average exercise

price of \$53.04 per share and 458,749 shares of common stock with a weighted average exercise price of \$65.28 per share were outstanding at September 30, 2001 and September 30, 2000, respectively, and have been excluded from the presentation of diluted net loss per share as they are antidilutive. Additionally, approximately 51,384 shares of common stock issuable upon conversion of the preferred stock for the periods ended September 30, 2000 and September 30, 2001, as well as 102,343 and 39,267 shares of common stock issuable upon the achievement of certain performance targets associated with the DVI and Card Plus acquisitions outstanding at September 30, 2000 and September 30, 2001, respectively, have been excluded from the presentation of diluted net loss per share as they are antidilutive. All share and per share figures have been restated to reflect our one-for-eight reverse stock split effected on May 16, 2001.

## **6. RELATED-PARTY BORROWINGS**

In conjunction with the acquisition of DPSC in December 1999, we received a commitment for a \$15 million line of credit from InterCept. On March 24, 2000, pending the finalization of the line of credit, we issued a promissory note to InterCept in the principal amount of approximately \$7.8 million, which reflected the amount borrowed under terms consistent with the commitment as of that date. This note bore interest at a rate of prime plus 2% and was secured by substantially all of our assets. Accrued interest under this note was payable monthly beginning May 1, 2000. The borrowings were used to fund working capital requirements and for the repayment of notes payable assumed in the DVI acquisition.

In May 2000, the \$15 million line of credit agreement with InterCept was finalized. At that time the outstanding principal balance due on the promissory note issued to InterCept was transferred to the line of credit. The line of credit bore interest at a rate of prime plus 2% and was secured by substantially all of our assets. Accrued interest under the line of credit was payable quarterly beginning July 1, 2000. The principal balance was payable at maturity on May 31, 2003.

On September 29, 2000, we entered into an acquisition agreement with Harland to acquire Harland's Internet banking and bill payment businesses. Simultaneously with the signing of the acquisition agreement, we borrowed \$5.0 million from Harland pursuant to a promissory note. The note bore interest at a rate of prime plus 2% and was secured by substantially all of our assets. Accrued interest under the note was payable quarterly beginning January 1, 2001. The principal balance was payable at maturity on September 29, 2005. Subsequent to September 29, 2002, Harland had the right to demand full payment of the note and all accrued interest with 30 days' notice.

In conjunction with the sale of the former DPSC assets to InterCept on February 2, 2001, we converted our \$15 million line of credit with InterCept and our \$5 million promissory note with Harland into a \$20 million joint credit facility (\$15 million funded by InterCept and \$5 million funded by Harland). The terms of the credit facility remain consistent with the terms of the former InterCept line of credit and Harland promissory note, except that both InterCept and Harland now have the right (instead of just InterCept) to enforce the covenants contained in the line of credit agreement. The joint credit facility will mature on November 2, 2002. Proceeds from the disposition of the DPSC assets were utilized to pay down this facility.

On May 8, 2001, we sold certain assets related to a portion of our bill payment operations formerly located in Elizabethtown, Kentucky to iPay, a related party, and iPay assumed certain of the related operating liabilities. Net proceeds from the sale were approximately \$1.3 million in cash and the majority of these proceeds were used to pay down our joint credit facility. As a result of this sale, Harland's portion of the joint credit facility was permanently reduced by \$225,000. The total credit facility is now \$19,775,000 and amounts borrowed thereunder are funded approximately 76% by InterCept and approximately 24% by Harland. As of September 30, 2001, the outstanding balance on the line of credit was approximately \$13.1 million and we were in compliance with the covenants of the credit facility.

## **7. LONG-LIVED ASSET IMPAIRMENT**

In accordance with the provisions of SFAS No. 121, Accounting for the Impairment of Long-Lived Assets, we perform an impairment test with regards to a long-lived asset when a triggering event occurs which may indicate that the carrying value of the asset is unrealizable. Our policy for the completion of such analysis is to compare the

undiscounted cash flows expected to be generated from the long-lived asset over its useful life to the carrying value of the asset. SFAS No. 121 also requires that when a group of assets being tested for impairment was acquired as part of a business combination using the purchase method of accounting, any cost in excess of net assets acquired that arose as part of the transaction must be included as part of the asset group. During the third quarter of 2001, management determined that a triggering event had occurred with respect to certain intangible assets upon the decision to dispose of certain assets and/or terminate certain operations related primarily to assets acquired from DVI in 2000. The estimated future cash flows expected to be generated by these acquired assets was determined to be less than the carrying amount, and allocated cost was determined to be in excess of net assets acquired. Therefore, these acquired assets were determined to be impaired in accordance with SFAS No. 121. Consequently, the original cost bases of these assets were reduced to reflect the potential expected future cash flows related to these assets at the date of the analysis, which resulted in a \$12.1 million asset impairment loss.

## 8. SUBSEQUENT EVENTS

### Restructuring costs

Subsequent to September 30, 2001, we have continued our efforts to reduce costs and concentrate on our core operations. As a result, we have eliminated approximately 10 percent of our current workforce. As part of the restructuring plan, we expect to record a charge to earnings in the fourth quarter of 2001. The charge relates primarily to further work force reductions. We expect to finalize these plans by December 31, 2001.

### *Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations*

The following discussion contains statements which constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements include all statements that are not statements of historical fact regarding the intent, belief or expectations of Netzee and its management with respect to, among other things: (1) whether we can successfully combine the operations we have acquired, and operations we may acquire, to create or continue improvements in our financial condition; (2) our ability to implement our restructuring and cost savings plans; (3) trends affecting our operations, financial condition and business; (4) our growth and operating strategies; (5) our ability to achieve our sales, income, cash flow and cost-saving objectives; (6) the continued and future acceptance of and demand for our products and services by our customers; and (7) our ability to remain in compliance with all the terms, conditions and covenants under our credit facility. The words may, will, anticipate, believe, intend, plan, strategy and similar expressions are intended to identify forward-looking statements. Such forward-looking statements are not guarantees of future performance and actual results may differ materially from those projected in the forward-looking statements as a result of risks related to the integration of acquired assets and businesses; the assets and businesses we have sold or may plan to sell; our ability to achieve, manage or maintain positive cash flow or growth, and execute our business strategy, including our restructuring and cost savings plans; our ability to develop, test and implement enhanced and new products and services; our ability to sell our products and services to financial institution customers and their customers; our ability to respond to competition; the volatility associated with Internet-related companies; our ability to obtain adequate funding and various other factors discussed in detail in the section entitled Factors that May Affect Our Future Results of Operations or Financial Condition in our Form 10-K for the fiscal year ended December 31, 2000, as filed with the Securities and Exchange Commission on April 2, 2001, and in our subsequent quarterly and current reports that we have filed with the SEC. We are not obligated to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

## Overview

For our outsourced suite of products and services, we charge a fixed monthly fee based on the number and type of products and services purchased by the financial institution. We also charge variable fees that are based on the number of end users and the number of transactions for certain products and services. We generally provide products and services under contracts with terms ranging from three to five years. Revenues from these types of arrangements are recognized over the term over which the related services are provided.

We charge fees for our in-house Internet banking product under either a perpetual license agreement which includes an up-front software fee, implementation fees and recurring monthly fees based on the number of active users and user generated transactions, or under a three to five-year subscription that includes annual subscription and maintenance fees. Revenues from the software and implementation component of those types of arrangements are recognized in accordance with Statement of Position No. 97-2 Software Revenue Recognition. Recurring fees represent post-contract customer support and are recognized over the period in which the support services are provided.

Our costs of services, license, hardware, implementation and maintenance are comprised of the initial equipment and personnel costs required to implement Internet and telephone banking products and services for our financial institution customers, ongoing personnel and system maintenance costs associated with our data and call centers, royalties paid to information providers, and personnel, production and shipping costs associated with our fulfillment business.

Selling and marketing expenses include marketing expenses, sales commissions and related costs as well as sales employee compensation and benefits. Commissions are paid to sales personnel based on products and services sold.

General and administrative expenses include employee compensation and benefits and general office expenses incurred in the ordinary course of business, but exclude non-cash stock based compensation and restructuring costs.

Restructuring costs include charges related to severance and other payroll-related items as well as certain office lease and other contract termination costs resulting from our plan to reduce costs through the consolidation of our Internet and bill payment operations.

We use EBITDA as a metric to measure our on-going operating performance. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Even though we use EBITDA to measure our on-going operating performance, it is not an accepted measure of profitability under generally accepted accounting principles.

Depreciation consists of depreciation of property, equipment and capitalized software development costs.

Amortization of intangible assets relates to goodwill, acquired technology and other intangible assets resulting from our acquisitions. Intangible assets are being amortized over lives ranging from two to five years.

Stock-based compensation consists of amortization of deferred compensation for certain stock options with an exercise price below the initial public offering price and compensation expense for stock sold or awarded to employees at prices below the initial public offering price.

We also use cash loss as a metric to measure our on-going operating performance. Cash loss is defined as net loss attributable to common shareholders, excluding the effects of amortization of intangible assets, amortization of stock-based compensation, net loss on sales of assets and long-lived asset impairment charges. Even though we use cash loss to measure our on-going operating performance, it is not an accepted measure of profitability under generally accepted accounting principles.

We have incurred operating loss carry-forwards through September 30, 2001. Due to the uncertainty of the realizability of the net operating losses, we have not reflected an income tax benefit in our statements of operations, and we have recorded a valuation for the full amount of our net operating loss carry-forwards.

Although we have experienced significant growth in customers and revenues, we have incurred substantial operating losses and negative cash flows from operations. We incurred net losses of approximately \$22.1 and \$17.8 million for the three months ended September 30, 2001 and September 30, 2000 respectively, and approximately \$52.4 and \$52.0 million for the nine months ended September 30, 2001 and September 30, 2000, respectively. Depreciation, amortization, amortization of stock-based compensation, net loss on sales of assets, and long-lived asset impairment charges accounted for approximately 98% and 82% of the net loss attributable to common shareholders for the three months ended September 30, 2001 and September 30, 2000, respectively, and approximately 88% and 81% for the nine months ended September 30, 2001 and September 30, 2000, respectively.

We incurred cash losses, excluding restructuring costs, of approximately \$1.1 million and \$3.7 million for the three months ended September 30, 2001 and September 30, 2000, respectively, and approximately \$7.9 and \$11.0 million for the nine months ended September 30, 2001 and September 30, 2000 respectively. Including restructuring costs, we incurred cash losses of approximately \$1.1 million and \$3.7 million for the three months ended September 30, 2001 and September 30, 2000, respectively, and approximately \$6.3 and \$11.0 million for the nine months ended September 30, 2001 and September 30, 2000, respectively.

**Results of Operations**

The following tables set forth the results of our operations for the three months and the nine months ended September 30, 2000 and 2001, selected cash flow information for the nine months ended September 30, 2000 and 2001, and selected balance sheet information as of December 31, 2000 and September 30, 2001. These operating results are not necessarily indicative of our future results.

**Three Months Ended September 30, 2001 Compared to Three Months Ended September 30, 2000**

*Revenues*

Total revenues increased by approximately \$1.0 million or 19%, from approximately \$5.2 million for the three months ended September 30, 2000 to approximately \$6.2 million for the three months ended September 30, 2001. This increase consisted primarily of an increase in monthly maintenance and service revenues due primarily to the increase in the number of financial institution customers, and an increase in the number of end users of our financial institution customers utilizing our products. This increased customer base is a result of new customer implementations, additional product sales to existing customers, and customers obtained during the fourth quarter of 2000 from certain of the Acquired Operations, and is partially offset by decreases resulting from the sale of our regulatory reporting and certain bill payment assets.

*Cost of services, license, hardware, implementation and maintenance*

Cost of services, license, hardware, implementation and maintenance increased by approximately \$720,000, or 28%, from approximately \$2.6 million for the three months ended September 30, 2000 to approximately \$3.3 million for the three months ended September 30, 2001. The increase in the cost of services, license, hardware, implementation and maintenance was due primarily to an increase in the total number of institutional customers for which we have implemented our products and costs associated with certain of the Acquired Operations during the fourth quarter of 2000.

As a percentage of revenue, cost of services, license, hardware, implementation and maintenance increased to 53% from 50% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000. Correspondingly, our gross margin decreased from 50% to 47% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000. These changes were due primarily to the sale of our regulatory reporting business in February 2001, which generated higher margins relative to our remaining non-core businesses, partially offset by cost reductions from the consolidation of our data center operations.

*Selling and marketing expenses*

Selling and marketing expenses decreased by approximately \$1.6 million, or 67%, from approximately \$2.3 million for the three months ended September 30, 2000 to approximately \$772,000 for the three months ended September 30, 2001. The decrease in selling and marketing expenses was primarily due to a decrease in sales personnel, lower new sales volume and sales commissions on new sales in 2001 as compared to 2000 and a decrease in our external advertising expenditures. As a percentage of revenue, selling and marketing expenses decreased to 12% from 45% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000.

*General and administrative expenses*

General and administrative expenses decreased by approximately \$600,000, or 23%, from approximately \$3.0 million for the three months ended September 30, 2000 to approximately \$2.4 million for the three months ended September 30, 2001. The decrease in general and administrative expenses was primarily due to a reduction in general operating expenses resulting from our restructuring efforts. As a percentage of revenue, general and administrative expenses decreased to 38% from 58% for the three months ended September 30, 2001, as compared to the three months ended September 30, 2000.

*EBITDA loss*

EBITDA loss for the three months ended September 30, 2001, was approximately \$205,000, or \$0.06 per share on 3.4 million weighted average shares outstanding compared to \$2.7 million, or \$1.00 per share on 2.7 million weighted average shares outstanding for the same period last year. The improvement is primarily due to increases in revenue as well as cost reductions resulting from our restructuring efforts. As a percentage of revenue, EBITDA loss decreased to 3% from 52% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000.

*Depreciation*

Depreciation for the three months ended September 30, 2001 was approximately \$525,000 compared to approximately \$522,000 for the three months ended September 30, 2000. Depreciation expense increased due to the depreciation of acquired assets and from depreciation associated with capital acquisitions used to support our growth during the prior year. This was offset by the elimination of depreciation costs associated with assets that were sold during the first half of 2001. As a percentage of revenue, depreciation expenses decreased to 8% from 10% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000.

*Interest expense, net*

Net interest expense decreased by approximately \$64,000, or 23%, from approximately \$282,000 for the three months ended September 30, 2000 to approximately \$218,000 for the three months ended September 30, 2001. This decrease was due primarily to a lower effective interest rate on average debt balances for the three months ended September 30, 2001, as compared to the three months ended September 30, 2000. As a percentage of revenue, net interest expense decreased to 3% from 5% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000.

*Cash loss*

For the three months ended September 30, 2001, cash loss decreased to \$1.1 million, or \$0.32 per share, on 3.4 million weighted average shares outstanding, compared with \$3.7 million, or \$1.34 per share on 2.7 million weighted average shares outstanding reported for the same period a year ago. This decrease was due primarily to increases in revenues as well as decreases in other operating expenses resulting from our restructuring efforts. As a percentage of revenue, cash loss decreased to 16% from 70% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000.

*Amortization expense*

Amortization expense decreased by approximately \$4.8 million, or 36%, from approximately \$13.4 million for the three months ended September 30, 2000 to approximately \$8.6 million for the three months ended September 30, 2001. Amortization expense decreased primarily due to the write-down of certain intangible assets during the fourth quarter of 2000, combined with the elimination of the amortization related to the regulatory reporting assets that were sold in February 2001. These were partially offset by the additional amortization expense resulting from certain of the Acquired Operations purchased during the fourth quarter of 2000.

*Stock-based compensation*

Stock-based compensation decreased by approximately \$463,000, or 61%, from approximately \$763,000 for the three months ended September 30, 2000 to approximately \$300,000 for the three months ended September 30, 2001. Stock-based compensation expense declined due to the forfeiture of certain stock options by terminated employees and the accelerated vesting of a restricted stock award during the fourth quarter of 2000, each associated with our restructuring efforts.

*Long-lived asset impairment*

Long-lived asset impairment was approximately \$12.1 million for the three months ended September 30, 2001. Long-lived asset impairment charges resulted primarily from the write down of certain intangible assets related to certain acquisitions in 2000, and the closure of certain operations.

**Nine Months Ended September 30, 2001 Compared to Nine Months Ended September 30, 2000**

*Revenues*

Total revenues increased approximately \$7.7 million, or 62%, from approximately \$12.4 million for the nine months ended September 30, 2000 to approximately \$20.1 million for the nine months ended September 30, 2001. This increase consisted primarily of an increase in monthly maintenance and service revenues due primarily to the increase in the number of financial institution customers, and an increase in the number of financial institution customers utilizing our products. This increased customer base is a result of new customer implementations, additional product sales to existing customers, and customers obtained during the fourth quarter of 2000 from certain of the Acquired Operations, and is partially offset by decreases resulting from the sale of our regulatory reporting and certain bill payment assets.

*Cost of services, license, hardware, implementation and maintenance*

Cost of services, license, hardware, implementation and maintenance increased by approximately \$5.1 million, or 81%, from approximately \$6.3 million for the nine months ended September 30, 2000 to approximately \$11.4 million for the nine months ended September 30, 2001. The increase in the cost of services, license, hardware, implementation and maintenance was due primarily to an increase in the total number of institutional customers for which we have implemented our products and costs associated with certain of the Acquired Operations during the fourth quarter of 2000.

As a percentage of revenue, cost of services, license, hardware, implementation and maintenance increased to 57% from 51% for the nine months ended September 30, 2001 as compared to the nine months ended September 30, 2000. Correspondingly, our gross margin decreased to 43% from 49% for the nine months ended September 30, 2001 as compared to the nine months ended September 30, 2000. These changes were due primarily to the sale of our regulatory reporting business in February 2001, which generated higher margins relative to our remaining non-core businesses, partially offset by cost reductions from the consolidation of our data center operations.

*Selling and marketing expenses*

Selling and marketing expenses decreased by approximately \$4.2 million, or 57%, from approximately \$7.3 million for the nine months ended September 30, 2000 to approximately \$3.1 million for the nine months ended September 30, 2001. The decrease in selling and marketing expenses was primarily due to a decrease in sales personnel, lower new sales volume and sales commissions paid on new sales in 2001 as compared to 2000 and a decrease in our external advertising expenditures compared to levels in the prior year. As a percentage of revenue, selling and marketing expenses decreased to 16% from 59% for the nine months ended September 30, 2001 as compared to the nine months ended September 30, 2000.

*General and administrative expenses*

General and administrative expenses increased by approximately \$1.7 million, or 23%, from approximately \$7.5 million for the nine months ended September 30, 2000 to approximately \$9.2 million for the nine months ended September 30, 2001. The increase in general and administrative expenses was primarily due to increases in overall business and operating activities, an increase in the number of employees and facilities obtained during 2000 from certain of the Acquired Operations and an increase in management, support staff, and general operating expenses resulting from our growth over the prior year. Additionally, due to our growth over the prior year, we experienced increased product development costs and higher insurance costs as compared to the prior year. These increases were partially offset by reductions in personnel and facility costs resulting from our restructuring and office consolidation efforts. As a percentage of revenue, general and administrative expenses decreased to 46% from 60% for the nine months ended September 30, 2001, as compared to the nine months ended September 30, 2000.

*EBITDA loss*

EBITDA loss for the nine months ended September 30, 2001, was approximately \$5.3 million, or \$1.57 per share on 3.4 million weighted average shares outstanding compared to \$8.8 million, or \$3.27 per share on 2.7 million weighted average shares outstanding for the same period last year. As a percentage of revenue, EBITDA loss decreased to 27% from 71% for the three months ended September 30, 2001 as compared to the three months ended September 30, 2000.

EBITDA loss, excluding restructuring costs for the nine months ended September 30, 2001 was approximately \$3.7 million, or \$1.11 per share, compared with \$8.8 million, or \$3.27 per share in the same period last year. The improvement is primarily due to increased revenues as well as cost reductions resulting from our restructuring efforts.

*Restructuring costs*

Restructuring costs for the nine months ended September 30, 2001 consisted of severance and payroll related items, as well as certain office lease and contract termination costs. During the first quarter of 2001, we finalized and announced a plan to reduce our operating expenses through the consolidation of our Internet banking and bill payment operations. This plan has resulted in the closure of our offices in Alabama, Kentucky, Tennessee, and Texas, as well as a reduction in our operations in Connecticut.

*Depreciation*

Depreciation increased by approximately \$300,000, or 24%, from approximately \$1.2 million for the nine months ended September 30, 2000 to approximately \$1.5 million for the nine months ended September 30, 2001. This increase was primarily due to the depreciation of acquired assets and from depreciation associated with capital acquisitions used to support our growth during the prior year. This was partially offset by the elimination of depreciation costs associated with assets that were sold during the first half of 2001. As a percentage of revenue, depreciation expenses decreased to 8% from 10% for the nine months ended September 30, 2001 as compared to the nine months ended September 30, 2000.

*Interest expense, net*

Net interest expense increased by approximately \$119,000, or 20%, from approximately \$579,000 for the nine months ended September 30, 2000 to approximately \$698,000 for the nine months ended September 30, 2001. This increase was due primarily to a higher average debt balance during the first part of 2001 as compared to the same period in 2000, partially offset by a lower effective interest rate on average debt balances for the nine months ended September 30, 2001, as compared to the nine months ended September 30, 2000. As a percentage of revenue, net interest expense decreased to 3% from 5% for the nine months ended September 30, 2001 as compared to the nine months ended September 30, 2000.

*Cash loss*

For the nine months ended September 30, 2001, cash loss decreased to \$7.9 million, or \$2.34 per share, on 3.4 million weighted average shares outstanding, compared with \$11.0 million, or \$4.08 per share on 2.7 million weighted average shares outstanding reported for the same period a year ago. As a percentage of revenue, cash loss decreased to 40% from 88% for the nine months ended September 30, 2001 as compared to the nine months ended September 30, 2000.

Excluding restructuring costs, cash loss decreased to \$6.3 million, or \$1.89 per share for the nine months ended September 30, 2001 compared to approximately \$11.0 million, or \$4.08 per share for the comparable period in 2000. This decrease was due primarily to increases in revenues as well as decreases in other operating expenses resulting from our restructuring efforts.

*Amortization expense*

Amortization expense decreased by approximately \$11.4 million, or 30%, from approximately \$38.3 million for the nine months ended September 30, 2000 to approximately \$26.9 million for the nine months ended September 30, 2001. Amortization expense decreased primarily due to the write-down of certain intangible assets during the fourth quarter of 2000, combined with the elimination of the amortization related to the regulatory reporting assets that was sold in February 2001. These were partially offset by the additional amortization expense resulting from certain of the Acquired Operations purchased during 2000.

*Stock-based compensation*

Stock-based compensation decreased by approximately \$1.3 million, or 56%, from approximately \$2.3 million for the nine months ended September 30, 2000 to approximately \$1.0 million for the nine months ended September 30, 2001. Stock-based compensation expense declined due to the forfeiture of certain unvested stock options by terminated employees and the accelerated vesting of a restricted stock award during the fourth quarter of 2000. Each of these items related to our restructuring efforts.

*Net loss on sale of assets*

Net loss on sale of assets was approximately \$4.6 million for the nine months ended September 30, 2001 and resulted primarily from the sale of our regulatory reporting assets in February 2001, partially offset by the gain on certain bill payment assets sold in May 2001.

*Long-lived asset impairment*

Long-lived asset impairment was approximately \$12.1 million for the nine months ended September 30, 2001. Long-lived asset impairment charges resulted primarily from the write down of certain intangible assets related to certain acquisitions in 2000, and the closure of certain operations.

**Liquidity and Capital Resources**

Our operating activities used cash of approximately \$8.2 million and \$10.5 million for the nine months ended September 30, 2001 and September 30, 2000, respectively. Cash used in operating activities for the nine months ended September 30, 2001 resulted primarily from our net operating losses, the payment of restructuring related costs and the recognition of previously collected deferred revenue. This was partially offset by the collection of receivables during the nine months ended September 30, 2001. Cash used in operating activities for the nine months ended September 30, 2000 resulted primarily from our operating losses and the payment of accounts payable and accrued liabilities. This was partially offset by the advance collection of deferred revenue.

Our investing activities provided cash of approximately \$13.4 million and used cash of approximately \$3.6 million for the nine months ended September 30, 2001 and September 30, 2000, respectively. Cash provided by investing activities for the nine months ended September 30, 2001 resulted primarily from the disposition of our regulatory reporting assets and certain bill payment assets in February 2001 and May 2001, respectively. This was partially offset by the purchase of property, equipment and costs associated with capitalized software development as well as our acquisition of assets from HomeCom in March 2001. Cash used in investing activities for the nine months ended September 30, 2000 resulted from our investment in property, equipment and capitalized software for our data centers.

Our financing activities used cash of approximately \$5.8 million and provided cash of approximately \$8.1 million for the nine months ended September 30, 2001 and September 30, 2000, respectively. Cash used in financing activities for the nine months ended September 30, 2001 resulted primarily from repayments on our credit facility with proceeds from the sale of our regulatory reporting and certain bill payment assets offset by additional borrowings from our credit facility and the repayment of shareholder notes. Cash provided by financing activities for the nine months ending September 30, 2000 resulted from additional borrowings from our credit facility, borrowings from a note payable, the repayment of shareholder notes, and proceeds from the exercise of warrants. This was partially offset by the payments of notes payable assumed in the acquisition of DVI and repayments on our credit facility.

Our working capital deficit as of September 30, 2001 was approximately \$1.0 million compared to a working capital deficit of \$5.5 million at December 31, 2000. This increase in working capital is primarily due to proceeds from the sale of our regulatory reporting assets and certain bill payment assets, offset by our operating and capital requirements as well as the classification of our redeemable preferred stock as a current liability. We calculate our working capital balances by taking our current assets net of current liabilities plus borrowings available on our credit facility.

In February 2001, we completed the sale of certain of our regulatory reporting assets acquired from DPSC in 1999. As a result, we received cash proceeds of approximately \$14.1 million. We used approximately \$11.8 million of the proceeds to pay down principal balances on the \$20 million joint credit facility. The balance of the proceeds was used to fund operations as well as to pay certain closing costs and certain liabilities related to the sale.

In connection with this sale, we converted our \$15 million line of credit with InterCept and our \$5 million promissory note with Harland into a \$20 million joint credit facility (\$15 million funded by InterCept and \$5 million funded by Harland). The terms of the credit facility remain consistent with the terms of the former line of credit and promissory note, except that both InterCept and Harland now have the right (instead of just InterCept) to enforce the covenants contained in the line of credit agreement. The joint credit facility will mature on November 2, 2002.

In May 2001, we sold certain bill payment assets related to our Kentucky office. We received cash proceeds of \$1,275,000, which were primarily used to pay down our credit facility. In connection with this sale, Harland's portion of the joint credit facility was permanently reduced to \$4,775,000, reducing the total credit facility to \$19,775,000. InterCept's portion of the credit facility remained at \$15 million. The facility will now be funded approximately 76% by InterCept and 24% by Harland. As of September 30, 2001, we had an outstanding balance under this credit facility, including accrued interest, of approximately \$13.1 million, with approximately \$6.7 million available under the line and we were in compliance with the covenants of the credit facility.

In December 1999, we issued 500,000 shares of preferred stock in connection with our acquisition of DPSC. These shares of preferred stock permit us to repurchase all such shares at a price of \$13.00 per share, plus accrued but unpaid dividends thereon, subject to certain conditions, none of which have currently been met. In addition, the holder of the preferred stock has the right, beginning on June 15, 2002, to require us to repurchase such stock at \$13.00 per share, plus accrued but unpaid dividends thereon. As a result, we have classified our redeemable preferred stock as a current obligation on our balance sheet at September 30, 2001. Any repurchase of preferred shares will require the approval of our creditors pursuant to the terms of our credit facility. We believe that it is unlikely that this option will be exercised as such exercise would place us in default with the restrictive covenants included in our credit facility. The preferred stock obligation is subordinate to our obligations to our creditors under the credit facility.

On March 2, 2000 warrants to purchase 57,735 shares of common stock were exercised. Proceeds from the exercise of the warrants totaled approximately \$1.5 million.

We believe that our existing capital resources, together with cash provided by our operations and borrowings under our credit facility, will be sufficient to fund our operating capital requirements for the next 12 months, assuming that we are not required to repurchase our preferred stock. If we are unable to achieve our cost savings goals, if our working capital requirements exceed our current expectations, if cash provided by our operations is less than anticipated, if we are required to repurchase our preferred stock, or if we make additional acquisitions, we may need to raise additional capital either through debt or equity sources before that time. We cannot be sure that we will be able to obtain the additional financing necessary to satisfy these additional capital requirements or to implement our growth strategy on acceptable terms or at all. If we cannot obtain this financing on terms acceptable to us, we may be forced to curtail some planned business expansion, we may be unable to fund our ongoing operations, or we may have to cease operations altogether. Alternatively, we may be required to reduce the level of spending on capital and operating expenses in order to utilize our existing financing and sources of liquidity to operate the business on a reduced scale.

### **Item 3. *Quantitative and Qualitative Disclosures about Market Risk***

We do not use derivative financial instruments in our operations and do not have operations subject to fluctuations in foreign currency exchange rates. We have a joint line of credit with InterCept and Harland that has an interest rate that fluctuates based on the prime rate as published in the Wall Street Journal, plus 2%. As of September 30, 2001,

we had approximately \$13.1 million outstanding on this facility which exposed us to interest rate risk. Interest rate risk reflects the fact that increases in interest rates, which may increase the interest rate on our borrowings, would make it more costly to borrow funds thereunder and may impede our acquisition and growth strategies if we determine the costs associated with borrowing funds are too high to implement these strategies. These increased costs may also hinder our ability to fund our working capital requirements.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

As reported in our Form 10-Q for the quarter ended June 30, 2001, on November 1, 1999, Independent Banker's Bank of Florida ("IBBF") filed a lawsuit against Netzee that is currently pending in the U.S. District Court for the Middle District of Florida. In this lawsuit, IBBF claims that we violated the terms of a marketing agreement between IBBF and SBS, a company acquired by our predecessor. We terminated this marketing agreement after the acquisition of SBS in August 1999. In the lawsuit, IBBF claims that the marketing agreement did not permit Netzee to terminate the agreement and that Netzee has breached certain exclusivity provisions of the agreement. IBBF is now seeking between approximately \$500,000 and \$1 million in damages and attorney's fees, as well as an injunction prohibiting Netzee from marketing certain of its products to IBBF's respondent banks in Florida. We believe that under the terms of the marketing agreement we were allowed to terminate this agreement and thus our conduct following the termination was not in violation of the agreement. We therefore are vigorously defending all of the claims made by IBBF against us. Cross-motions for summary judgment were filed in September 2001 and are presently pending before the court.

### **Item 1. Changes in Securities and Use of Proceeds**

On August 1, 2001, we issued a total of 28,572 additional shares of our common stock to the former shareholders of Card Plus in accordance with the earn-out provisions of the July 2000 asset purchase agreement. All of these shares were placed in escrow for indemnification and other purposes. The shares of common stock issued in this transaction were not registered under the Securities Act of 1933, as amended, in reliance upon the exemption provided by Section 4(2) thereof and Rule 506 of Regulation D promulgated thereunder, as a transaction by an issuer not involving any public offering. We affixed appropriate legends to share certificates, and we did not engage in any general solicitation or advertising in connection with offers or sales of these securities.

### **Item 3. Defaults upon Senior Securities**

Not applicable.

### **Item 4. Submission of Matters to a Vote of Security Holders**

Not applicable.

### **Item 5. Other Information**

On May 25, 2001, the Securities and Exchange Commission declared effective a registration statement covering 40,000 shares of common stock to be sold on behalf of the former shareholders of Card Plus. This registration statement was prepared and filed pursuant to the exercise of registration rights that we granted to such former shareholders. On October 18, 2001, the Securities and Exchange Commission declared effective an amendment to this registration statement de-registering all shares that remained unsold as of such date.
