**NOTES TO THE UNAUDITED CONDENSED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**

NOTE 1. BASIS OF PRESENTATION

Interim Financial Data

The accompanying unaudited condensed interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with instructions to Form 10-QSB and Regulation S-B. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, management believes the accompanying unaudited condensed interim consolidated financial statements contain all adjustments, consisting of only normal recurring adjustments, necessary to present fairly the consolidated financial position of the Consulier Engineering, Inc. and subsidiaries (Consulier) as of September 30, 2004, the results of its operations for the three and nine months ended September 30, 2004 and 2003 and cash flows for the nine months ended September 30, 2004 and 2003. The results of operations and cash flows for the period are not necessarily indicative of the results of operations or cash flows that can be expected for the year. For further information, refer to the consolidated financial statements and footnotes thereto included in Consulier's annual report on Form 10-KSB for the year ended December 31, 2003.

Basis of Consolidation

The condensed interim consolidated financial statements include Consulier and its wholly-owned subsidiaries, Consulier International, Inc., (CII) and C-6 Products, Inc., (C-6) (collectively known as the Company). All intercompany balances and transactions between Consulier and its wholly-owned subsidiaries have been eliminated upon consolidation.

Inventories

Inventories, stated at the lower of cost (first-in, first-out basis) or market, consist of Captain Cra-Z Soap finished goods.

NOTE 1. BASIS OF PRESENTATION (CONTINUED)

Investments Partnership and Limited Liability Companies

The Company's investments in partnership and limited liability companies (LLC), all of which are less than 50% interests, are accounted for using the equity method. The Company owns less than 20% in the partnership investment, however, the Company has the ability to significantly influence this investee in conjunction with a general partner (a related party who is the primary shareholder of Consulier). Income or loss is allocated to Consulier based on the partnership and LLC agreements. The Company reviews its partnership and limited liability companies investments for other than temporary declines in value on a monthly basis by analyzing the underlying investee's actual revenue, earnings capacity and estimated future undiscounted cash flows.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

In January 2003 (as revised December 2003), the FASB issued FASB Interpretation 46 (FIN 46), Consolidation of Variable Interest Entities. FIN 46 clarifies the application of Accounting Research Bulletin 51, Consolidated Financial Statements , for certain entities that do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties or in which equity investors do not have the characteristics of a controlling financial interest (variable interest entities). Variable interest entities within the scope of FIN 46 will be required to be consolidated by their primary beneficiary. The primary beneficiary of a variable interest entity is determined to be the party that absorbs a majority of the entity's expected losses, receives a majority of its expected returns, or both. The Company is currently evaluating the impact, if any, of FIN 46 on its financial position, results of operations and cash flows.

NOTE 2. DISCONTINUED OPERATIONS

Effective December 31, 2002, the Company sold 70% of the common stock of its wholly-owned subsidiary, Southeast Automotive Acquisition Corporation (Southeast), to executive officers of Southeast, in exchange for 45,000 shares of the Company's common stock, and a promissory note (the Note) of approximately \$1,600,000 payable to the Company by Southeast for its pre-existing debt to the Company, collateralized by Southeast's assets, the common stock in Southeast and the purchasers' personal guarantees, limited to the cash in Southeast at December 31, 2002 of approximately \$228,000. The Note bears interest at 6% and is payable in monthly installments of principal and interest of approximately \$9,600 beginning February 20, 2003 through January 2033. Southeast's activities included primarily the sales of automobile parts in the automotive after-market.

On June 29, 2003, the Company transferred its remaining 30% ownership of the common stock of Southeast to the former executive officers of Southeast in consideration of their agreement to amend the Note to reflect an original principal balance of \$1,764,581 with a term of 40 years from June 2003, with a balloon payment of \$206,916 due on May 20, 2043; the remaining terms of the Note were unchanged. On June 30, 2003, the Company sold and assigned the Note to the majority stockholder of Consulier, together with its security interest for consideration of \$1,762,575, the then current unpaid principal balance and accrued interest due on the Note.

Since the Note was sold and assigned, the Company is no longer considered to be the primary beneficiary. As such, Southeast is considered to be divested as of the assigned date of the Note, June 30, 2003, and as a result the Company reflected the operations and disposal of Southeast as discontinued operations. Net sales for Southeast during the nine months ended September 30, 2003 totaled \$1,021,644.

NOTE 3. INVESTMENTS PARTNERSHIP AND LIMITED LIABILITY COMPANIES

The limited partnership and limited liability company interests consist of Consulier's investments in AVM, L.P., BioSafe Systems, LLC and Systems Technologies, LLC.

NOTE 3. INVESTMENTS PARTNERSHIP AND LIMITED LIABILITY COMPANIES (CONTINUED)**AVM, L.P.**

Consulier owns approximately 10% of AVM L.P.'s (AVM) capital as of September 30, 2004 and 2003. Based on capital and earnings distributions provided in the partnership agreement, Consulier was allocated approximately 8.5% of AVM's earnings during the three-month and nine-month periods ended September 30, 2004 and 2003. Under the partnership agreement, Consulier may withdraw all or any portion of its capital account upon 30 days written notice. AVM's general partner may also expel Consulier from the partnership through payment of the balance of Consulier's capital account. Following is a summary of the result of operations of AVM and the income allocated to the Company:

NOTE 3. INVESTMENTS PARTNERSHIP AND LIMITED LIABILITY COMPANIES (CONTINUED)**Systems Technologies, LLC**

During August 2002, Consulier purchased a 14.25% interest in Systems Technologies, LLC, a Nevada limited liability company (ST, LLC) for \$1,425,000. Consulier made additional contributions of \$4,057,005 to increase its investment during 2003. During the nine months ended September 30, 2004, Consulier made additional contributions of \$4,240,000. As of September 30, 2004, Consulier's interest in ST, LLC totaled 34%. ST, LLC is a member of Patient Care Technology Systems, LLC, a California limited liability company (PCTS). ST, LLC's primary asset is its approximate 75% (at September 30, 2004) investment in PCTS. The original ST, LLC operating agreement provided that the losses from ST, LLC be allocated to ST, LLC's initial members and then to Consulier based on investment percentages. Effective April 1, 2003, this agreement was amended and provides that Consulier receives allocated losses to the extent of capital contributions from inception. Consequently, the loss allocated to Consulier is greater than 34%. Consulier's principal stockholder owns approximately 51% of ST, LLC, and together with Consulier's 34%, the combined ownership aggregates 85%. Management has evaluated ST, LLC's (primarily PCTS's) projections and related assumptions regarding their operations. In this regard, management periodically compares actual results to these projections. Should actual results be significantly less than the projection, a write down might be necessary.

Consulier can require Consulier's principal stockholder to purchase its interest in ST, LLC for cash equal to Consulier's remaining capital investment in ST, LLC at any time with 60 days written notice.

Following is a summary of operations of PCTS and the losses allocated to Consulier:

	Three Months Ended September 30, (in thousands)		Nine Months Ended September 30, (in thousands)	
	(Unaudited)		(Unaudited)	
	2004	2003	2004	2003

Consulier's share of losses	<u>\$(2,139)</u>	<u>\$(1,927)</u>	<u>\$(5,001)</u>	<u>\$(3,101)</u>

Net investment in ST, LLC at September 30, 2004 was approximately \$88,000.

NOTE 5. SEGMENT INFORMATION

The Company's continuing operations are currently comprised of three segments; distribution, investing and corporate activities. These operating units are managed from the Company's Riviera Beach facility. As discussed in Note 2, Discontinued Operations, the Company sold its automotive part distribution as of June 30, 2003.

Detailed below are the results of operations by segment and the discontinued operations for the three and nine months ended September 30, 2004 and 2003.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

RESULTS OF OPERATIONS

The following compares the results of operations for the three and nine months ended September 30, 2004 with the three and nine months ended September 30, 2003:

During the quarter ended September 30, 2004, sales decreased \$95,878 from the comparable amounts recorded during the quarter ended September 30, 2003. Sale of old inventory accounted for the higher sales volume during 2003. Loss from continuing operations for the third quarter of 2004 was \$1,005,776, or \$.20 per share, compared to a loss of \$520,883, or \$.11 per share, for the third quarter of 2003.

During the nine months ended September 30, 2004, sales decreased \$105,634 from the comparable amounts recorded during the quarter ended September 30, 2003. Sale of old inventory accounted for the higher sales volume during 2003. Loss from continuing operations for the nine months ended September 30, 2004 was \$1,978,032, or \$.40 per share, compared to a loss of \$571,518, or \$.11 per share, for the nine months ended September 30, 2003.

During the quarter ended September 30, 2004, other income (loss)/(expense) increased by approximately (\$935,000) from the comparable amounts for the quarter ended September 30, 2003. This was primarily a result of the decrease in investment income related party of approximately \$801,000.

Investment in BioSafe Systems, LLC (BioSafe) Equity in the income of BioSafe was approximately \$284,000 in the third quarter of 2004, compared to income of approximately \$216,000 for the quarter ended September 30, 2003. This represents the Company's 40% interest in BioSafe's net income of approximately \$715,000 in the third quarter of 2004, compared to income of approximately \$534,000 in the third quarter of 2003.

Investment in Systems Technologies, LLC (ST, LLC) Equity in the loss of ST, LLC was approximately \$2,139,000 in the third quarter of 2004, compared to a loss of approximately \$1,927,000 in the third quarter of 2003. This additional loss relates primarily to ST, LLC's continued activities in regard to obtaining new contracts and implementation at new sites. Management continues to monitor these activities as it relates to budget amounts. Should actual results be significantly less than the projected amounts, a write down of the investment might be necessary. See Liquidity and Capital Resources and Future Outlook sections below. The Company maintains an open option to sell its interest in ST, LLC to the primary stockholder of the Company, at remaining cost, as noted in the accompanying financial statements.

Investment in AVM, L.P. (AVM) Equity in the income of AVM was \$395,000 in the third quarter of 2004, compared to income of approximately \$1,197,000 for the quarter ended September 30, 2003. This represents the Company's 8.5% interest in AVM's net income of approximately \$4,630,000 in the third quarter of 2004, compared to income of approximately \$14,090,000 in the third quarter of 2003.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2004, Consulier's cash totaled \$70,690 as compared to \$1,002,613 at December 31, 2003. Net cash provided by operations was \$384,485 for the nine months ended September 30, 2004 compared to \$654,852 of net cash used in the nine months ended September 30, 2003. Net cash used in investing activities was primarily due to additional investments in ST, LLC of \$4,240,000 offset by the distribution of approximately \$2,140,000 from AVM and BioSafe during the nine months ended September 30, 2004.

Consulier can require Consulier's principal stockholder to purchase its interest in ST, LLC for cash equal to Consulier's remaining capital investment (dollar for dollar) in ST, LLC at any time with 60 days written notice. Consulier has contributed to ST, LLC approximately \$9,722,000 since inception and has a remaining net investment at September 30, 2004 of approximately \$88,000.

The ability of Consulier to continue to generate cash flow in excess of its normal operating requirements depends almost entirely on the performance of its limited partnership investment in AVM. Consulier cannot, with any degree of assurance, predict whether there will be a continuation of the net return experienced in the period that the AVM limited partnership interest has been owned. However, Consulier does not expect that the rate of return will decline to the point where Consulier has negative cash flow. Furthermore, although AVM has given Consulier no indication of any intention on its part to redeem the partnership interest, there can be no assurance that AVM will not do so in the future.

The Company has a \$2,000,000 line of credit from a bank available, which has not been used. It is anticipated that the cash requirements for ST, LLC will reduce in the future as the sales increase within that limited liability company.

FUTURE OUTLOOK

Based on AVM's recent operations and operating results over the past five years, management expects continued annualized returns in 2004 on Consulier's limited partnership investments. However, there is no guarantee that the annualized return in the fourth quarter of 2004 will be maintained.

Consulier International, Inc. has been developing new retail and distribution outlets locally, nationally and internationally. There are several trade shows scheduled for marketing the Captain Cra-Z Hand and All Purpose Cleaner throughout 2004 and the internet web site continues to be a good lead generator with applications for distribution being received through the site from countries all over the world and new marketing materials are being developed.

The impact of oil prices as they relate to freight rates and as a component of plastic containers have generated some pricing pressure. BioSafe continues to remain optimistic that 2004 growth, projected over the 2003 reported volumes, can be maintained at historic year-to-year

growth rates. Third quarter 2004 volumes were 41% ahead of the similar period in the prior year. Strong performances in their combined Agricultural and Post Harvest market segments, with the substantial initial success of the GreenClean granular Aquatic algaecide product to account for the substantial sales growth experienced in the quarter. Additionally, a more concentrated, professional grade product has been introduced during the period. Sales are anticipated to increase as the product gains acceptance in the market.

The Company intends to substantially increase its investment in ST, LLC over the next three to five years. While the exact amount of the Company's future investment has not been quantified at this time, it is expected that the additional investment is to be between \$5 million and \$7 million. The exact amount will be based upon market acceptance of Patient Care Technology Systems, LLC's (PCTS) Amelior™ products and the need for investment funds. During the 3rd quarter PCTS continued to expand its customer base by adding two new sites with combined patient volumes of 65,000 annual visits. Through the end of the 3rd quarter PCTS customers served a total of approximately 93,000 Emergency Room patients using the AmeliorED product.

PCTS expects to complete the acquisition of HealthcareIT, the nation's leading passive tracking solution provider during the 4th quarter. This acquisition will add approximately 35 sites to the PCTS installed base, serving over 1 Million patients a year. In addition, PCTS plans to integrate the HealthcareIT product into its AmeliorED product to provide the most comprehensive Emergency Room solution available today.

During the 4th quarter PCTS also expects to sign 5 new sites and install 3 additional systems, adding approximately 50,000 patient visits for the quarter. At the end of fiscal year 2004, PCTS solutions are expected to serve over 1,250,000 patients through over 45 hospitals around the U.S. and the PCTS product offering will now cover the Emergency Department, Operating Room and other high acuity areas of the hospital. PCTS will continue to focus on an aggressive expansion of its sales efforts, partnerships and acquisitions. During 2005, PCTS plans to expand its product scope to incorporate solutions for other high acuity departments such as Labor & Delivery and ICU. PCTS plans to implement their expansion plans in the high acuity market through a broader product offering by developing strategic partnership with vendors that offer unique and advanced technologies that are designed to enhance patient safety.

ITEM 3. CONTROLS AND PROCEDURES

Our management have conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15e and 15d-15(e) promulgated under the Securities and Exchange Act of 1934, as amended), as of the end of the fiscal quarter covered by this report. Based upon that evaluation, our management has concluded that our disclosure controls and procedures are effective for timely gathering, analyzing and disclosing the information we are required to disclose in our reports filed under the Securities and Exchange Act of 1934, as amended. There have been no significant changes made in our internal controls or in other factors that could significantly affect our internal controls during the fiscal quarter covered by this report.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

As of September 30, 2004, there were no legal proceedings pending against the Company or its subsidiaries nor did the Company have any knowledge of any proceedings which were being contemplated, except a personal injury claim concerning a fall from a lifeguard stand manufactured by the Company (prior to 2000 in a previous line of business). Although the outcome of any litigation cannot be guaranteed with certainty and the Company maintains insurance coverage for this type of claim, there is a good likelihood that the Company will succeed in its defense of this claim.
