Report of Independent Registered Public Accounting Firm

Retirement Committee  
HCA Inc.

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of the HCA 401(k) Plan as of December 31, 2004 and 2003, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 2, the financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits (modified cash basis) as of December 31, 2004 and 2003, and the changes therein (modified cash basis) for the years then ended, on the basis of accounting described in Note 2.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules (modified cash basis) of delinquent participant contributions for the year ended December 31, 2004 and assets (held at end of year) as of December 31, 2004, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules (modified cash basis) have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

End of year	\$ 3,857,872,090	\$ 3,046,550,684

See accompanying notes.

HCA 401(k) Plan

Notes to Financial Statements  
(Modified Cash Basis)

December 31, 2004

**1. Description of the Plan**

The following description of the HCA 401(k) Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan, established January 1, 1983, which provides retirement benefits for all eligible employees of HCA Inc. or its affiliates (the Company or HCA), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participants are eligible to participate on the first day of the month following two months of continuous employment and upon attaining age twenty-one.

**Contributions and Vesting**

Participants may defer from 1% to 50% of eligible salary to the Plan. Such amounts, along with earnings thereon, are fully vested at all times. The Company, in its sole discretion, may limit the contributions of highly compensated employees. Participants who have attained age 50 before the close of the Plan year are eligible to make catch-up contributions subject to Internal Revenue Code limitations.

The Company contributes to the Plan a matching employer contribution of \$0.50 for every dollar of participant deferrals, up to the first 3.0% of eligible compensation deferred (Matching Contribution). The Company may, at its sole discretion, make a Stock Bonus Contribution or a Profit Sharing Contribution to the Plan for any Plan year, which will be shared among active participants for the Plan year. Participants are 100% vested in all Company Matching Contributions after three years of vesting service. The Plan provides for a vesting schedule relative to the Stock Bonus Contribution and Profit Sharing Contribution that occurs ratably beginning with three years of vesting service, with 100% vesting occurring after seven years of vesting service. Participants will be fully vested upon retirement, death or disability, without regard to years of vesting service.

HCA 401(k) Plan

Notes to Financial Statements (continued)  
(Modified Cash Basis)

**1. Description of the Plan (continued)**

**Participant Loans**

Participants may borrow from their accounts a minimum of \$1,000, but borrowings may not exceed the lesser of \$50,000, reduced by all other outstanding loans, or 50% of the participant's total vested account balance. Loan terms range from one to five years (ten years if loan is used to acquire a principal residence). The loans are secured by the balance in the respective participant's account and bear interest at rates commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

**Participant Accounts**

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions. Additionally, each participant's account is credited/charged with Plan earnings/losses and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Benefit Payments**

A participant can only receive a distribution in the form of a lump sum payment. Upon the death of a participant, the vested account balance will be distributed in a single lump sum. Hardship withdrawals are permitted under the Plan.

**Administrative Expenses**

In accordance with the Plan document, expenses incurred to administer the Plan are paid by the Plan unless paid by the Company, at the Company's discretion.

HCA 401(k) Plan

Notes to Financial Statements (continued)  
(Modified Cash Basis)

**1. Description of the Plan (continued)**

**Plan Termination**

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. Upon termination of the Plan, each participant will be fully vested in the value of his/her account after payment of any accrued expenses and liabilities of the Plan.

**Plan Merger**

The Healthtrust, Inc. 401(k) Retirement Program and the EPIC Healthcare Group, Inc. Profit Sharing Plan, which were participants in the Master Trust, merged into the Plan effective midnight December 31, 2003. On January 1, 2004, the Plan reflected assets transferred in at fair value of \$474,655,201.

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements and supplemental schedules have been prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. Under this basis, investment assets are reported at fair value, net realized and unrealized appreciation (depreciation) in fair value of investments is recognized, contributions are recognized when received rather than as earned, and benefits and expenses are recognized when paid. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

**Valuation of Investments**

The Plan's investments in the HCA Inc. Master Retirement Trust (Master Trust) are participant directed and stated at fair value, except for certain investment contracts held in the Interest Income Fund. Securities traded on a national securities exchange, including HCA Inc. common stock, are valued at the last reported sales price on the primary exchange on the last business day of the Plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. When such prices are unavailable, The Northern Trust Company (the Trustee) determines a valuation from the market maker dealing in that particular security. Real estate, joint ventures, and other limited partnerships owned by the Master Trust are valued at the appraised values available as of the last business day of the Plan year. The fair value of participation units owned

HCA 401(k) Plan

Notes to Financial Statements (continued)  
(Modified Cash Basis)

**2. Summary of Significant Accounting Policies (continued)**

**Valuation of Investments (continued)**

by the Master Trust in the collective trust funds are based on quoted redemption values on the last business day of the Plan year. Investments in the insurance general account are reported at contract value. Participant loans are valued at their outstanding balance, which approximates fair value.

Investment contracts held in the Master Trust are wrapper contracts with insurance companies that generally change the investment characteristic of underlying securities (including investments in the Fixed Income Pool) to those of guaranteed investment contracts. The investment contracts are fully benefit-responsive and are recorded at their contract values. The contract values represent participant contributions (less any participant withdrawals), reinvested income and accruals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, withdrawals influenced by Company-initiated events, such as in connection with the sale of a business, may result in a distribution at other than contract value. There are no reserves against contract values for credit risk of contract issuers or otherwise. The contract value of the investment contracts at December 31, 2004 and 2003 was \$235,963,009 and \$222,744,868, respectively. The fair value of the investment contracts at December 31, 2004 and 2003 was \$261,581,824 and \$245,436,378, respectively. The crediting interest rate for these investment contracts is reset quarterly by the issuer and ranged from 5.702% to 6.391% during 2004 and 5.687% to 5.822% during 2003. The crediting interest rates were 6.391% at December 31, 2004 and 5.702% at December 31, 2003.

**Derivative Financial Instruments**

The Master Trust, through activities of certain of its investment managers, uses derivative financial instruments in connection with its normal trading activities in an effort to improve investment returns, manage exposure to fluctuations in interest rates or otherwise manage risk. A derivative financial instrument is a security or contractual agreement that derives its value from some other security, commodity, currency, or index. The Master Trust is invested in various types of derivative financial instruments including forward contracts, futures contracts, swaps, options, investment contracts, and collateralized mortgage obligations.

The Master Trust's equity and fixed income investment managers are permitted to hedge the currency risks of their foreign security investments. In addition, certain equity and fixed income investment managers are permitted to use derivative instruments as part of their investment

HCA 401(k) Plan

Notes to Financial Statements (continued)  
(Modified Cash Basis)

**2. Summary of Significant Accounting Policies (continued)**

**Derivative Financial Instruments (continued)**

strategies. These strategies use derivative instruments to replicate the risk/return profile of assets, asset classes, equity or fixed income market indices and to assist in the management of the risk exposure of the investment portfolio. The investment managers are prohibited from using derivatives for speculative purposes and any hedged positions are not permitted to exceed the level of exposure in the related Master Trust assets. Changes in fair value of the derivative financial instruments are recorded separate from the related investment (see Note 3 - Investments). As such, a change in fair value of the derivative financial instruments, including associated investment income (loss), may offset or reflect an inverse relationship with a change in fair value, including associated investment income (loss), in the related investment. The Master Trust's investment managers are required to combine such changes in the fair value, including associated investment income (loss), of the derivative financial instruments with those of the related investments to determine the effectiveness of their strategies.

The Master Trust is exposed to risks from unfavorable changes in interest rates or market values of the securities underlying the derivative financial instruments. The Master Trust is also exposed to credit risk in the event of nonperformance by the counterparties to the derivative instruments. However, the Master Trust seeks to minimize its exposure to credit loss by requiring settlement with the counterparties as frequently as daily and/or requiring settlement based upon pre-established dollar amount limits with those counterparties. The Master Trust does not anticipate nonperformance by the counterparties and generally does not require counterparty collateral.

**Use of Estimates**

The preparation of financial statements requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Reclassifications**

Certain prior year amounts have been reclassified to conform to the current year presentation.

## HCA 401(k) Plan

Notes to Financial Statements (continued)  
(Modified Cash Basis)**3. Investments**

All of the Plan's investments (except participant loans) are in the Master Trust, which invests in a variety of investments and was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. The Master Trust includes several Master Trust Investment Accounts (or "Investment Pools"). Each participating retirement plan has an undivided interest in the Investment Pool selected by the Plan. The Investment Pools that the Plan invests in are disclosed separately. At December 31, 2004 and 2003, the Plan's interest in the net assets of the Master Trust was approximately 62.18% and 54.65%, respectively. Investment income and expenses are allocated to the Plan based upon each plan's share of elected investments and the income and expenses earned/charged on those investments.

The following table presents the net assets of the Master Trust at December 31:

	2004	2003
Investments, at fair value:		
Money market securities	\$ 179,592,156	\$ 182,917,851

HCA 401(k) Plan

Notes to Financial Statements (continued)  
(Modified Cash Basis)

**4. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**5. Income Tax Status**

The Plan has received its most recent determination letter from the Internal Revenue Service dated May 13, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

**6. Transactions with Parties-In-Interest**

Transactions with parties-in-interest include purchases and sales of assets through the Trustee, contributions from the Company, dividends received on HCA Inc. common stock and fees paid during the year for accounting and other services.

**7. Securities Lending**

The Master Trust lends its securities under securities borrowing agreements on terms which permit it to lend its securities to other entities for a premium. At December 31, 2004 and 2003, the Master Trust had securities on loan of \$516,868,775 and \$339,535,135, respectively, and the total value of cash collateral provided to the Master Trust was \$492,522,476 and \$334,348,948, respectively. The fair value of the securities loaned is measured against the cash collateral on a periodic basis. The amount of net investment gain for the years ended December 31, 2004 and 2003 from securities lending was \$815,877 and \$547,677, respectively.

**8. Subsequent Event**

Effective January 1, 2005, the Plan was amended to reduce the age requirement for participation in the Plan from age 21 to age 18.
