The Company's principal assets include the capital stock of its wholly-owned subsidiaries: BankAtlantic, its banking subsidiary; and Ryan Beck Holdings, Inc., a holding company that wholly owns Ryan Beck & Co., Inc. (Ryan Beck), an investment banking firm which is a federally registered broker-dealer. BankAtlantic, a federal savings bank headquartered in Fort Lauderdale, Florida, is a community-oriented bank which provides traditional retail banking services and a wide range of commercial banking products and related financial services through a network of 81 branches or stores located in Florida. Ryan Beck is a full service broker-dealer headquartered in Florham Park, New Jersey. Ryan Beck provides financial advice to individuals, institutions and corporate clients through 43 offices in 14 states. Ryan Beck also engages in the underwriting, distribution and trading of tax-exempt, equity and debt securities.

All significant inter-company balances and transactions have been eliminated in consolidation.

In management's opinion, the accompanying consolidated financial statements contain such adjustments as are necessary for a fair presentation of the Company's consolidated financial condition at June 30, 2006, December 31, 2005 and June 30, 2005, the consolidated results of operations for the three and six months ended June 30, 2006 and 2005, the consolidated stockholders' equity and comprehensive income and cash flows for the six months ended June 30, 2006. The results of operations for the three and six months ended June 30, 2006 are not necessarily indicative of results of operations that may be expected for the year ended December 31, 2006. The consolidated financial statements and related notes are presented as permitted by Form 10-Q and should be read in conjunction with the notes to the consolidated financial statements appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 and the Company's Form 10-Q for the three months ended March 31, 2006.

Certain amounts for prior periods have been reclassified to conform to the statement presentation for 2006.

BankAtlantic performed a review of the classification of its loan participations in its financial statements for the year ended December 31, 2005. Based on the review, BankAtlantic concluded that certain loan participations should have been accounted for as secured borrowings instead of participations sold. As a consequence, participations aggregating approximately \$165.4 million that were previously recorded as participations sold were corrected in the Company's June 30, 2005 financial statements to reflect such amount as loans receivable and secured borrowings. Effective April 1, 2006, the loan participation agreements were amended which resulted in the affected loan participations being accounted for as loan sales with a corresponding reduction in secured borrowings.

**Allowance for Loan Losses** - The allowance for loan losses reflects management's estimate of probable incurred credit losses in the loan portfolios. Loans are charged off against the allowance when management believes the loan is not collectible. Recoveries are credited to the allowance.

The allowance consists of two components. The first component of the allowance is for high-balance non-homogenous loans that are individually evaluated for impairment. The process for identifying loans to be evaluated individually for impairment is based on management's identification of classified loans. Once an individual loan is found to be impaired, a valuation allowance is assigned to the loan based on one of the following three methods: (1) present value of expected future cash flows, (2) fair value of collateral less costs to sell, or (3) observable market price. Non-homogenous loans that are not impaired are assigned an allowance based on common characteristics with homogenous loans.

The second component of the allowance is for homogenous loans in which groups of loans with common characteristics are evaluated to estimate the inherent losses in the portfolio. Homogenous loans have certain characteristics that are common to the entire portfolio so as to form a basis for estimating losses as it relates to the group. Management segregates homogenous loans into groups such as residential real estate, small business mortgage, small business non-mortgage, low-balance commercial loans, certain unimpaired non-homogenous loans and various types of consumer loans. The allowance for homogenous loans has a quantitative amount and a qualitative amount. The methodology for the quantitative component is based on a three year charge-off history by loan type adjusted by an expected recovery rate. A three year period was considered a reasonable time frame to track a loan's performance

from the event of loss through the recovery period. The methodology for the qualitative component is determined by considering the following factors:

**Table of Contents**

**BankAtlantic Bancorp, Inc. and Subsidiaries**

Delinquency and charge-off levels and trends;

Problem loans and non-accrual levels and trends;

Lending policy and underwriting procedures;

Lending management and staff;

Nature and volume of portfolio;

Economic and business conditions;

Concentration of credit;

Quality of loan review system; and

External factors

Based on an analysis of the above factors a qualitative dollar amount is assigned to each homogenous loan product. These dollar amounts are adjusted, if necessary, at period end based on directional adjustments by each category.

The unassigned component that was part of the Company's allowance for loan losses in prior periods was calculated based on the entire loan portfolio considering the above factors and was incorporated into the qualitative components of homogenous loans described above.

**2. Stock Based Compensation**

The Company has stock based compensation plans under which restricted stock, incentive stock options and non-qualifying stock options were awarded to officers, employees and directors and affiliate employees. Options available for grant under all stock options plans except for the 2005 Restricted Stock and Option Plan (the "Plan") were canceled during 2005. The Plan provides for the issuance of up to 6,000,000 shares of Class A common stock for restricted stock or option awards.

Effective January 1, 2006, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004), Share-Based Payment (SFAS 123R), using the modified prospective transition method. Under this transition method, share-based compensation expense for the three and six months ended June 30, 2006 includes compensation expense for all share-based compensation awards granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provision of SFAS No. 123, Accounting for Stock-Based Compensation (SFAS 123). Share-based compensation expense for all stock-based compensation awards granted after January 1, 2006 is based on the grant-date fair value estimated in accordance with the provisions of SFAS 123R. The Company recognizes these compensation costs on a straight-line basis over the requisite service period of the award, which is generally the option vesting term of five years, except for options granted to directors which vest immediately. Prior to the adoption of SFAS 123R and during the three and six months ended June 30, 2005, the Company recognized share-based compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees (APB 25) and related interpretations. No compensation was recognized when option grants had an exercise price equal to the market value of the underlying common stock on the date of grant.

In addition, prior to the adoption of SFAS 123R, the tax benefits of stock option exercises were classified as operating cash flows. Since the adoption of SFAS 123R, tax benefits resulting from tax deductions in excess of the compensation cost recognized for options are classified as operating and financing cash flows. As the Company adopted the modified prospective transition method, the prior period cash flow statement was not adjusted to reflect current period presentation.

As of June 30, 2006, approximately \$902,000 of total unrecognized compensation cost was related to unvested restricted stock compensation. The cost is expected to be recognized over a weighted-average period of approximately 5 years. The fair value of shares vested during the three and six months ended June 30, 2006 was \$401,000 and \$433,000, respectively.

The Company recognizes stock based compensation costs based on the grant date fair value. The grant date fair value for stock options is calculated using the Black-Scholes option pricing model net of an estimated forfeiture rate and recognizes the compensation costs for those shares expected to vest on a straight-line basis over the requisite service period of the award, which is generally the option vesting term of five years. The Company based its estimated forfeiture rate of its unvested options at January 1, 2006 on its historical experience during the preceding five years.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

The Company formulated its assumptions used in estimating the fair value of employee options granted subsequent to January 1, 2006 in accordance with guidance under SFAS 123R and the guidance provided by the Securities and Exchange Commission ( SEC ) in Staff Accounting Bulletin No. 107 ( SAB 107 ). As part of this assessment, management determined that the historical volatility of the Company's stock should be adjusted to reflect the spin-off of Levitt Corporation ( Levitt ) on December 31, 2003 because the Company's historical volatility prior to the Levitt spin-off was not a good indicator of future volatility. Management reviewed the Company's stock volatility subsequent to the Levitt spin-off along with the stock volatility of other companies in its peer group. Based on this information, management determined that the Company's stock volatility was similar to its peer group subsequent to the Levitt spin-off. As a consequence, management began estimating the Company's stock volatility over the estimated life of the stock options granted using peer group experiences instead of the Company's historical data. As part of its adoption of SFAS 123R, the Company examined its historical pattern of option exercises in an effort to determine if there were any patterns based on certain employee populations. From this analysis, the Company could not identify any patterns in the exercise of its options. As such, the Company used the guidance of SAB 107 to determine the estimated term of options issued subsequent to the adoption of SFAS 123R. Based on this guidance, the estimated term was deemed to be the midpoint of the vesting term and the contractual term ((vesting term + original contractual term)/2).

As of June 30, 2006, there was \$8.9 million of total unearned compensation cost related to the Company's non-vested Class A common stock options. The cost is expected to be recognized over a weighted average period of 2.3 years. The aggregate intrinsic value of options outstanding and options exercisable as of June 30, 2006 was \$20.3 million and \$14.1 million, respectively. The total intrinsic value of options exercised during the six months ended June 30, 2006 and 2005 was \$13.0 million and \$12.8 million, respectively.

All options granted during 2006 vest in five years and expire ten years from the date of grant, except that options granted to directors vested immediately. The stock options were granted at an exercise price that equaled the fair value of the Class A common stock at the date of grant. Included in the above grants were options to acquire 5,000 shares of the Company's Class A common stock that were granted to affiliate employees. These options are valued at period end with the change in fair value recorded as an increase or reduction in compensation expense.

During the six months ended June 30, 2006 and 2005, the Company accepted 316,076 shares of Class A common stock with a fair value of \$4.3 million and 62,253 shares of Class A common stock with a fair value of \$1.1 million, respectively, as consideration for the exercise price of stock options. Also during the six months ended June 30, 2006 and 2005, the Company accepted 194,872 and 196,962 shares of Class A common stock with a fair value of \$2.7 million and \$3.5 million, respectively, for payment of optionees' minimum statutory withholding taxes related to option exercises.

During the second quarter of 2006, the Board of Directors approved the repurchase of up to 6,000,000 shares of the Company's Class A Common Stock, which constitutes approximately 10% of the total of its Class A and Class B Common Stock presently outstanding. The timing and amount of repurchases will depend on market conditions, share price, trading volume and other factors, and there is no assurance that the Company will repurchase shares during any period. No termination date was set for the buyback program. Shares may be purchased on the open market or through private transactions. During the three months ended June 30, 2006, the Company purchased and retired 250,000 shares of Class A common stock at an average price per share of \$14.50.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****4. Advances from the Federal Home Loan Bank**

During the three and six months ended June 30, 2006, BankAtlantic prepaid \$433.5 million and \$484.0 million of fixed rate Federal Home Loan Bank ( FHLB ) advances. Of this amount, \$394.0 million had an average interest rate of 5.44% and were scheduled to mature in 2008, and the remaining \$90.0 million had an average interest rate of 4.79% and were scheduled to mature between 2009 and 2011. During the three months ended June 30, 2006, BankAtlantic incurred prepayment penalties of \$1.0 million upon the repayment of \$368.5 million of advances and recorded a gain of \$1.1 million upon the repayment of \$65.0 million of advances. During the six months ended June 30, 2006, BankAtlantic incurred prepayment penalties of \$1.4 million upon the repayment of \$394.0 million of advances and recorded a gain of \$1.5 million upon the repayment of \$90.0 million of advances.

BankAtlantic prepaid these advances as part of a market risk strategy to reduce the effects of an asset sensitive portfolio on the net interest margin by shortening the average maturity of its outstanding interest-bearing liabilities.

Of the remaining FHLB advances outstanding at June 30, 2006, \$47.0 million mature between 2008 and 2010 and have a fixed weighted average interest rate of 5.83%, \$980 million are LIBOR-based floating rate advances that mature between 2006 and 2007 and had a weighted average interest rate of 5.23% and \$100 million are callable adjustable rate advances that bear interest at a LIBOR-based floating rate which adjusts quarterly, have maturities between 2009 and 2012 and currently have a weighted average interest rate of 4.79%.

**5. Impairment of Office Properties and Equipment**

During May 2005, the Company opened its new Corporate Center, which serves as its corporate headquarters. As a result of the corporate headquarters relocation and the contemplated demolition of the old corporate headquarters building, the Company recorded an impairment charge for the \$3.7 million carrying value of the building and equipment in its Consolidated Statement of Operations for the three and six months ended June 30, 2005. The building and equipment were included in the BankAtlantic reportable segment.

**6. Defined Benefit Pension Plan**

At December 31, 1998, the Company froze its defined benefit pension plan ( Plan ). All participants in the Plan ceased accruing service benefits beyond that date. The Company is subject to future pension expense or income based on future actual plan returns and actuarial values of the Plan obligations to employees. Under the Plan, net periodic pension expense incurred includes the following components (in thousands):

	<b>For the Three Months Ended June 30,</b>		<b>For the Six Months Ended June 30,</b>	
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>

**10. Related Parties**

The Company, Levitt and Bluegreen Corporation ( Bluegreen ) may be deemed to be affiliates. The controlling shareholder of the Company and Levitt is BFC Financial Corporation ( BFC ), and Levitt owns 31% of the outstanding common stock of Bluegreen. The majority of BFC s common stock is owned or controlled by the Company s Chairman, Chief Executive Officer and President, and the Company s Vice Chairman, both of whom are also directors of the Company, executive officers and directors of BFC and Levitt, and directors of Bluegreen. The Company, BFC, Levitt and Bluegreen share various office premises and employee services, pursuant to the arrangements described below.

The Company maintains service arrangements with BFC, pursuant to which the Company provides office facilities to BFC and its affiliates and the Company is compensated based on its costs. As of January 1, 2006, certain of the Company s human resources, risk management and investor relations employees were hired by BFC. As a consequence, BFC began providing the back-office support functions provided by these employees to the Company and Levitt. Included in non-interest income during the three and six months ended June 30, 2006 was \$107,000 and \$204,000, respectively, of revenues from BFC for office facilities overhead. Included in non-interest expense for the three and six months ended June 30, 2006 was \$301,000 and \$537,000, respectively, of expenses associated with back-office support services provided by BFC to the Company. When former employees are transferred to an affiliate Company, the Company has elected, in accordance with the terms of the Company s stock option plans, not to cancel the stock options held by those former employees. As a consequence, as of June 30, 2006, options to acquire 128,621 shares of the Company s Class A common stock held by affiliate employees were outstanding with a weighted average exercise price of \$12.62. Of these outstanding options, 117,584 options with a weighted average exercise price of \$13.48 were unvested resulting in the Company recording \$33,000 and \$66,000 of compensation expense associated with these unvested options during the three and six months ended June 30, 2006. Additionally, the Company in prior periods has issued options to acquire shares of the Company s Class A stock to employees of affiliated companies. As of June 30, 2006, 177,977 options to acquire shares of the Company s Class A common stock granted to these affiliate employees were outstanding with weighted average exercise prices of \$8.92. Of these outstanding options, 140,621 options with a weighted average exercise price of \$4.03 were unvested resulting in the Company recording \$30,000 and \$60,000 of compensation expense associated with these unvested options during the three and six months ended June 30, 2006. During the six months ended June 30, 2006 and 2005 former employees exercised 51,464 and 41,146 of options, respectively, to acquire Class A common stock at a weighted average exercise price of \$3.28 and \$3.52, respectively.

During 2005, the Company maintained service arrangements with BFC and Levitt, pursuant to which the Company provided human resources, risk management, project planning, system support and investor and public relations services to Levitt and BFC. For such services, the Company was compensated on a cost plus 5% basis. Additionally, the Company rented office space to Levitt and BFC on a month-to-month basis and received rental payments at agreed upon rates that may not have been equivalent to market rates. These amounts were included in non-interest income in the Company s statement of operations for the three and six months ended June 30, 2005.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

The table below shows the service fees and rent payments from Levitt and BFC to the Company for office space rent and back-office support functions for the three and six months ended June 30, 2005 (in thousands):

Service Fees	\$ 132	\$ 280	\$ 412
Rent	44	12	56
Total	\$ 176	\$ 292	\$ 468

Additionally, during the three and six months ended June 30, 2005 Levitt paid BankAtlantic \$26,000 and \$56,000, respectively, for project management services. Additionally, the Company recognized expenses of \$36,000 and \$184,000 during the three and six months ended June 30, 2005, respectively, for risk management services provided by Bluegreen. For these services the Company paid or was compensated, as applicable, on a cost plus 5% basis.

BankAtlantic has entered into repurchase agreements with Levitt and BFC in aggregate amounts of \$13.0 million, \$6.2 million and \$13.0 million at June 30, 2006, December 31, 2005 and June 30, 2005, respectively. The Company recorded \$147,000 and \$299,000, respectively, of interest expense associated with these repurchase agreements during the three and six months ended June 30, 2006 compared to \$107,000 and \$256,000, respectively, during the corresponding 2005 periods.

During the second quarter of 2005, BFC sold 5.45 million shares of its Class A common stock in an underwritten public offering at a price of \$8.50 per share. Ryan Beck participated as lead underwriter in this offering and received \$1.2 million of investment banking fees for its services.

**11. Segment Reporting**

Operating segments are defined as components of an enterprise about which separate financial information is available that is regularly reviewed by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Reportable segments consist of one or more operating segments with similar economic characteristics, products and services, production processes, type of customer, distribution system and regulatory environment. The information provided for Segment Reporting is based on internal reports utilized by management. Results of operations are reported through three reportable segments: BankAtlantic, Ryan Beck and Parent Company. The Parent Company includes the operations of BankAtlantic Bancorp as well as acquisition related expenses.

The following summarizes the aggregation of the Company's operating segments into reportable segments:

Reportable Segment	Operating Segments Aggregated
BankAtlantic	Banking operations
Ryan Beck	Investment banking and brokerage operations
Parent Company	BankAtlantic Bancorp's operations, costs of acquisitions and financing activities

The accounting policies of the segments are generally the same as those described in the summary of significant accounting policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. Intersegment transactions are eliminated in consolidation.

Commercial lines of credit	104,443	119,639	100,204

Standby letters of credit are conditional commitments issued by BankAtlantic to guarantee the performance of a customer to a third party. BankAtlantic's standby letters of credit are generally issued to customers in the construction industry guaranteeing project performance. These types of standby letters of credit had a maximum exposure of \$48.7 million at June 30, 2006. BankAtlantic also issues standby letters of credit to commercial lending customers guaranteeing the payment of goods and services. These types of standby letters of credit had a maximum exposure of \$21.3 million at June 30, 2006. These guarantees are primarily issued to support public and private borrowing arrangements and have maturities of one year or less. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. BankAtlantic may hold certificates of deposit and residential and commercial liens as collateral for such commitments. Included in other liabilities at June 30, 2006, December 31, 2005 and June 30, 2005 was \$230,000, \$183,000 and \$144,000, respectively, of unearned guarantee fees. There were no obligations associated with these guarantees recorded in the financial statements.

**13. Branch Sale**

During 2005, the Company invested in a rental real estate joint venture. The business purpose of this joint venture was to manage certain rental property with the intent to sell the property in the foreseeable future. The Company was entitled to receive an 8% preferred return on its investment and 35% of any profits after return of the Company's investment

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

and the preferred return. In January 2006, the Company recorded a gain of approximately \$600,000 and received a capital distribution of its \$4.5 million investment in the joint venture as the underlying rental property in the joint venture was sold.

In March 2006, the Company invested \$4.1 million in another rental real estate joint venture. The business purpose of this joint venture is to manage certain rental property with the intent to sell the property in the foreseeable future. The Company receives an 8% preferred return on its investment and 50% of any profits after return of the Company's investment and the preferred return.

The remaining investments in unconsolidated subsidiaries consist of the Company's investments in eleven statutory business trusts that were formed as financing vehicles solely to issue trust preferred securities.

**16. Nonmonetary Transactions**

During the second quarter of 2006, BankAtlantic completed an exchange of branch facilities with a financial institution. The transaction was a real estate for real estate exchange with no cash payments involved. The transaction was accounted for at the fair value of the branch facility transferred and BankAtlantic recognized a \$1.8 million gain in connection with the exchange.

During the second quarter of 2006, MasterCard International ( MasterCard ) completed an initial public offering ( IPO ) of its common stock. Pursuant to the IPO, member financial institutions received cash and Class B Common Stock for their interest in MasterCard. BankAtlantic received \$458,000 in cash and 25,587 shares of Mastercard's Class B Common Stock. The \$458,000 cash proceeds were reflected in the Company's Consolidated Statement of Operations in Securities activities, net. The Class B Common Stock received was accounted for as a nonmonetary transaction and recorded at historical cost.

**17. Settlement of Compliance Matter**

In April 2006, the Company entered into a deferred prosecution agreement with the Department of Justice relating to deficiencies identified in BankAtlantic's Bank Secrecy Act and anti-money laundering compliance programs, and at the same time entered into a cease and desist order with the Office of Thrift Supervision, and a consent with FinCEN relating to these compliance deficiencies. Under the agreement with the Department of Justice, BankAtlantic made a payment of \$10 million to the United States Treasury. The Office of Thrift Supervision and FinCEN have each independently assessed a civil money penalty of \$10 million. Under the OTS order and the FinCEN consent, the OTS and FinCEN assessments were satisfied by the \$10 million payment made pursuant to the agreement with the Department of Justice. BankAtlantic Bancorp established a \$10 million reserve during the fourth quarter of 2005 with respect to these matters and the payment has no impact on 2006 financial results. Provided that BankAtlantic complies with its obligations under the deferred prosecution agreement for a period of 12 months, the Department of Justice has agreed to take no further action in connection with this matter. BankAtlantic has been advised that the cease and desist order issued by the Office of Thrift Supervision and the FinCEN consent will have no effect on BankAtlantic's ongoing operations and growth, provided that BankAtlantic remains in full compliance with the terms of the orders.

**18. New Accounting Pronouncements**

In June 2006, the FASB issued FIN No. 48 ( Accounting for Uncertainty in Income Taxes – an interpretation of FASB No. 109 ). FIN 48 provides guidance for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that a company has taken or expects to take on a tax return. FIN 48 substantially changes the accounting policy for uncertain tax positions and is likely to cause greater volatility in the Company's provision for income taxes. The interpretation also revises disclosure requirements including a tabular presentation to reflect the roll-forward of unrecognized tax benefits. The interpretation for the Company is effective as of January 1, 2007 and any changes in net assets that results from the application of this interpretation should be reflected as an adjustment to retained earnings. Management is currently in the process of determining whether it has taken or expects to take any uncertain tax positions and evaluating the requirements of this interpretation.

In March 2006, the FASB issued SFAS No. 156, ( Accounting for Servicing of Financial Assets – An Amendment of FASB Statement No. 140 ). This Statement amends FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, with respect to the accounting for separately recognized servicing assets and servicing liabilities. The Company currently does not own servicing financial assets or liabilities

and Management believes that the adoption of this Statement will not have an impact on the Company's financial statements.

**Table of Contents****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The objective of the following discussion is to provide an understanding of the financial condition and results of operations of BankAtlantic Bancorp, Inc. and its wholly-owned subsidiaries (the Company, which may also be referred to as we, us, or our) for the three and six months ended June 30, 2006 and 2005, respectively. The principal assets of the Company consist of its ownership of these subsidiaries, which include BankAtlantic, a federal savings bank headquartered in Fort Lauderdale, Florida, and its subsidiaries (BankAtlantic), and Ryan Beck Holdings, Inc., the holding company for Ryan Beck & Co., Inc., a brokerage and investment banking firm located in Florham Park, New Jersey, and its subsidiaries (Ryan Beck).

Except for historical information contained herein, the matters discussed in this document contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve substantial risks and uncertainties. When used in this document, the words anticipate, believe, estimate, may, intend, expect and expressions identify certain of such forward-looking statements. Actual results, performance, or achievements could differ materially from those contemplated, expressed, or implied by the forward-looking statements contained herein. These forward-looking statements are based largely on the expectations of the Company and are subject to a number of risks and uncertainties that are subject to change based on factors which are, in many instances, beyond the Company's control. These include, but are not limited to, risks and uncertainties associated with: the impact of economic, competitive and other factors affecting the Company and its operations, markets, products and services; credit risks and loan losses, and the related sufficiency of the allowance for loan losses, including the impact on the credit quality of our loans from changes in the real estate market in our trade area; changes in interest rates and the effects of, and changes in, trade, monetary and fiscal policies and laws including their impact on BankAtlantic's net interest margin; adverse conditions in the stock market, the public debt market and other capital markets and the impact of such conditions on our activities and the value of our assets; BankAtlantic's seven-day banking initiatives, new store expansion program, and other growth, marketing or advertising initiatives not resulting in continued growth of low cost deposits or producing results which justify their costs; successfully opening the anticipated number of new stores in 2006 and 2007 and achieving growth and profitability at the stores; and the impact of periodic testing of goodwill and other intangible assets for impairment. Past performance, actual or estimated new account openings and growth rate may not be indicative of future results. Further, this document contains forward-looking statements with respect to Ryan Beck & Co., which are subject to a number of risks and uncertainties including but not limited to the risks and uncertainties associated with its operations, products and services, changes in economic or regulatory policies, its ability to recruit and retain financial consultants, the volatility of the stock market and fixed income markets, as well as its revenue mix, the success of new lines of business, including that the expansion of its municipal finance, investment banking and capital markets areas, including the associated increased headcount, will produce results which justify the increased expenses; and additional risks and uncertainties that are subject to change and may be outside of Ryan Beck's control. Moreover, this document also contains forward-looking statements with respect to the pursuit of a financial transaction regarding the Company's investment in Ryan Beck, which are subject to a number of risks and uncertainties including but not limited to the fact that a financial transaction may not be consummated when anticipated, if at all, or may be consummated on terms different than those currently contemplated. In addition to the risks and factors identified above, reference is also made to other risks and factors detailed in reports filed by the Company with the Securities and Exchange Commission. The Company cautions that the foregoing factors are not exclusive.

**Critical Accounting Policies**

Management views critical accounting policies as accounting policies that are important to the understanding of our financial statements and also involve estimates and judgments about inherently uncertain matters. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated statements of financial condition and assumptions that affect the recognition of income and expenses on the consolidated statement of operations for the periods presented. Actual results could differ significantly from those estimates. Material

estimates that are particularly susceptible to significant change in subsequent periods relate to the determination of the allowance for loan losses, evaluation of goodwill and other intangible assets for impairment, the valuation of real estate acquired in connection with foreclosure or in satisfaction of loans, the valuation of the fair value of assets and liabilities in the application of the purchase method of accounting, the amount of the deferred tax asset valuation allowance, accounting for contingencies, and assumptions used in the valuation of stock based compensation. The seven accounting policies that we have identified as critical accounting policies are: (i) allowance for loan losses; (ii) valuation of securities as well as the determination of other-than-temporary declines in value; (iii) impairment of goodwill and other indefinite life intangible assets; (iv) impairment of long-lived assets; (v) accounting for business combinations; (vi) accounting for contingencies; and (vii)

accounting for share-based compensation. For a more detailed discussion of these critical accounting policies see Critical Accounting Policies appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

**Share-based Compensation**

The Company adopted SFAS 123R as of January 1, 2006 and elected the modified-prospective method, under which prior periods are not restated. Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the requisite service period, which is the vesting period. See note 2 Stock Based Compensation for further information regarding the Company's accounting policies for stock based compensation under FAS 123R.

The Company currently uses the Black-Scholes option pricing model to determine the fair value of stock options. The determination of the fair value of option awards on the date of grant using the Black Scholes option-pricing model is affected by the stock price and assumptions regarding the expected stock price volatility over the expected term of the awards, expected term of the awards, risk-free interest rate and expected dividends. If circumstances require that the Company alters the assumptions used for estimating stock-based compensation expense in future periods or if the Company decides to use a different valuation model, the recorded expenses in future periods may differ significantly from the amount recorded in the current period and could affect net income and earnings per share.

The Black-Scholes option-pricing model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. These characteristics are not present in the Company's option awards. Existing valuation models, including the Black-Scholes and lattice binomial models, may not provide reliable measures of the fair values of stock options. As a consequence, the Company's estimates of the fair values of stock option awards on the grant dates may be materially different than the actual values realized on those option awards in the future. Employee stock options may expire worthless while the Company records compensation expense in its financial statements. Also, amounts may be realized from exercises of stock options that are significantly higher than the fair values originally estimated on the grant date and recorded in the Company's financial statements.

**For the Three Months Ended June 30, 2006 Compared to the Same 2005 Period:**

Net income decreased 66.9% to \$8.1 million for the second quarter 2006, down from \$24.5 million earned in the 2005 quarter. The decrease in the 2006 quarter was primarily due to Ryan Beck's financial performance and a substantial increase in BankAtlantic's non-interest expense. Non-interest expenses at BankAtlantic increased to support BankAtlantic's new branch expansion program, extended hours convenience model and aggressive marketing program. These initiatives involve incremental costs that resulted in lower earnings than those in prior periods. These declines in earnings were partially offset by a decline in the Parent Company net loss resulting from gains on the sales of equity securities.

The substantial decrease in Ryan Beck segment earnings during the current quarter was due to lower revenue generated in the investment banking area compared to the 2005 quarter. Included in the 2005 quarter were fees from the completion of a large mutual to stock transaction, in which Ryan Beck served as the lead underwriter. This transaction was the largest single transaction in Ryan Beck's history and contributed significantly to net income of \$13.0 million in the 2005 quarter. The net loss at Ryan Beck during the current quarter was due to continued weakness in its capital markets and investment banking activities, as well as compensation costs and direct expenses associated with the expansion of those activities, including expansion of municipal finance and trading areas, principally in late 2005.

BankAtlantic's segment net income was negatively impacted by a 24% increase in non-interest expense, mainly in compensation, occupancy, advertising and operating expenses relating to the branch expansion, several new initiatives designed to enhance customer service and convenience and an aggressive marketing campaign.

The increase in Parent Company segment net income primarily resulted from securities activities gains. The Parent Company sold appreciated equity securities in managed funds in order to offset higher interest expense on its floating rate junior subordinated debentures.

**For the Six Months Ended June 30, 2006 Compared to the Same 2005 Period:**

Net income decreased 67% from the same 2005 period. The decline in net income primarily resulted from the items discussed above as well as a \$3.1 million recovery from loan losses in 2005 compared to a \$143,000 provision during 2006.

**Table of Contents**

**BankAtlantic Bancorp, Inc. and Subsidiaries**

**For the Three Months Ended June 30, 2006 Compared to the Same 2005 Period:**

The decrease in tax equivalent net interest income primarily resulted from a decline in average interest earning assets partially offset by an improvement in the tax equivalent net interest margin.

BankAtlantic's average interest earning asset balances significantly declined primarily due to a strategy implemented during the latter half of 2005 to limit earning asset growth in the current flat yield curve environment. Management expects to continue this strategy of limiting asset growth and increasing low cost deposits in a flat or inverted yield curve environment. Also contributing to the decline in earning assets was a management decision to curtail condominium construction lending during 2005. As a consequence of this management decision and a slow-down in real estate construction in Florida, average commercial real estate balances declined significantly. The average balance declines were partially offset by higher consumer and small business loan average balances resulting from the sale of loan products to new low cost deposit customers.

The improvement in the tax equivalent net interest margin primarily resulted from an increase in low cost deposits and secondarily from higher earning asset yields. Low cost deposits are savings, NOW and demand deposits and these average deposit balances increased from \$1,969 million during the three months ended June 30, 2005 to \$2,239 million during the current quarter. Low cost deposits balances grew 13.7% from June 2005 to the current quarter.

The margin improvement from the second quarter of 2005 was achieved in a flat yield curve environment from growth in low cost deposits and higher earning asset yields. While further margin improvements will depend largely on the future pattern of interest rates, management believes that the expected continued growth in low cost deposits should result in a gradual improvement in BankAtlantic's margin in subsequent periods.

BankAtlantic experienced increases in both interest earning asset yields and interest bearing liability rates during the current quarter. The prime interest rate has increased from 4.00% in June 2004 to 8.25% at June 30, 2006. This increase has favorably impacted yields on earning assets, which was partially offset by higher rates on borrowings.

Charge-offs from continuing loan products were favorably impacted by low charge-offs in all loan product categories during the three and six months ended June 30, 2006 compared to the same 2005 periods. The majority of the continuing loan product charge-offs during the 2005 quarter resulted from a \$300,000 charge-off of a small business loan while approximately \$400,000 of charge-offs in discontinued loan products related to an aviation lease. The majority of the 2006 charge-offs were associated with two small business loans. The lower charge-offs from discontinued loan products during the 2006 quarter resulted from declining portfolio balances. The remaining balance of these discontinued loan products declined to \$593,000 from \$1.2 million a year earlier.

During the three months ended June 30, 2006, BankAtlantic recorded a recovery from loan losses reflecting net recoveries for the quarter partially offset by slightly higher loan loss provisions established as a result of estimated inherent losses in our loan portfolio from the effect of higher short-term interest rates on borrowers' ability to service debt. During the six months ended June 30, 2006, the provision for loan losses was also affected by unfavorable trends

in home equity loan-to-value ratios.

The provision for loan losses during the 2005 quarter primarily resulted from an increase in the perceived credit risk in the home equity loan portfolio. Management increased the allowance for home equity loans based on an analysis of the portfolio which included a review of the portfolio loan-to-value ratios.

The provision for loan losses was a net recovery during the six month period ended June 30, 2005 due to the commercial business loan recovery, declining reserves for discontinued loan products and the repayment of a large classified loan.

Non-performing assets remain at historically low levels. Non-performing assets to total loans, tax certificates and reposessed assets were 0.17% at June 30, 2006 and December 31, 2005. The ratio was slightly lower as of June 30, 2005 at 0.16%. The improvement in nonaccrual loans at June 30, 2006 compared to December 31, 2005 resulted from declines in non-performing residential loans. The majority of non-accrual loans were residential loans, which amounted to \$4.0 million at June 30, 2006, compared to \$6.0 million and \$4.4 million at December 31, 2005 and June 30, 2005, respectively. The increase in real estate owned was associated with tax certificate activities. Historically BankAtlantic has profited from the sale of reposessed tax lien properties.

The higher other service charges and fees during the first three and six months of 2006 reflect the opening of new deposit accounts, including approximately 58,000 new accounts during the second quarter of 2006 compared to 49,000 during the comparable 2005 period and 135,000 new accounts during the six months ended June 30, 2006 compared to 104,000 during the same 2005 period. New ATM and check cards are issued with new checking and savings accounts and

therefore the increase in accounts results in increases in interchange fees, annual fees and transaction fees on our customers use of other banks ATM s.

The higher revenues from service charges on deposits during the three and six months ended June 30, 2006 primarily resulted from an increase in the number of checking accounts discussed above and secondarily from a higher frequency of overdrafts per account reflecting a change in policy which allows certain customers to incur debit card overdrafts.

Real estate income (loss) reflects the activity of a venture acquired as part of a financial institution acquisition during 2002. The decrease in real estate income during the current quarter resulted from a decline in units sold. During the current quarter, the venture closed on one unit and during the same 2005 period the venture closed on 8 units. During the six months ended June 30, 2006, the venture closed on 9 units and during the same 2005 period the venture closed on 20 units. The real estate development loss during the 2006 six month period reflects higher development and capitalized interest costs associated with units sold during the period. The higher development costs primarily resulted from an increase in the cost of building materials and a combination of higher labor costs and labor shortages resulting from the active real estate market, exacerbated by damage throughout the area from hurricanes over the past two years. During the second quarter of 2006 we received an appraisal of the properties held in the real estate inventory. The appraisal reflected that the estimated fair value of the real estate inventory was greater than the carrying amount. It is possible that we may experience additional losses at this development, depending on the rate of future sales, sales prices and development costs.

Securities activities, net during the three and six months ended June 30, 2006 resulted from proceeds received in connection with the MasterCard International initial public offering. Securities activities, net during the corresponding 2005 periods represents the gain on sales of mortgage-backed securities available for sale.

Gains associated with debt redemption were the result of gains realized on the prepayment of \$75 million of FHLB advances during the current quarter. The advances were scheduled to mature between 2008 and 2011 and had an average rate of 4.93%. During the six months ended June 30, 2006, \$100 million of FHLB advances were redeemed. These advances were scheduled to mature between 2008 and 2011 and had a weighted average interest rate of 4.83%. BankAtlantic prepaid these advances as part of a market risk strategy to reduce the net effect of an asset sensitive portfolio on its net interest margin by shortening the average maturity of its outstanding interest-bearing liabilities.

Gain on sale of properties during the three and six months ended June 30, 2006 primarily resulted from an exchange of branch facilities with a financial institution. The financial institution had a surplus branch facility from a recent acquisition and BankAtlantic was searching for a suitable branch site at that general location. As consideration, for this surplus branch BankAtlantic exchanged a small branch with the financial institution and recorded a gain equal to the appraised value of the branch transferred less its carrying value. The gain on sale of properties during the three and six months ended June 30, 2005 resulting from the sale of a lot adjacent to a branch.

The increase in other income during the three months ended June 30, 2006 reflects increased fees associated with higher balances and increased earnings credit from a third party teller check outsourcing servicer. Other income during the six months ended June 30, 2005 was favorably impacted by a \$922,000 gain on the sale of a branch acquired in March 2002 in connection with the acquisition of a financial institution.

The significant increase in BankAtlantic's non-interest expense primarily resulted from the branch expansion and renovation initiatives, increased advertising and promotion expenditures to maintain low cost deposit growth and the hiring of additional personnel for future store expansion and to maintain high customer service levels.

The substantial increase in employee compensation and benefits resulted primarily from Florida's Most Convenient Bank initiatives and the expansion of BankAtlantic's branch network. During the second quarter of 2006, BankAtlantic began hiring branch personnel for the anticipated opening of 14 stores during the latter half of 2006. Also, BankAtlantic hired personnel to support a second call center facility that began operation during the 2006 second quarter. Additionally, during the fourth quarter of 2005, BankAtlantic extended its branch hours and expanded its number of branches open to midnight. As a result of these initiatives, the number of full time equivalent employees increased to 2,638 at June 30, 2006 from 1,719 at June 30, 2005. Also contributing to the increased compensation costs were higher employee benefit costs, recruitment expenditures and temporary agency costs associated with maintaining a larger work force. Included in employee compensation costs for the three and six months ended June 30, 2006 was \$749,000 and \$1.4 million, respectively, of share-based compensation costs recorded as part of the Company's adoption of SFAS 123R. No such costs were recorded in 2005.

The significant increase in occupancy and equipment reflects higher building maintenance expenses required to support the renovated and expanded branch network, and higher costs associated with extended branch weekend and weekday hours. BankAtlantic also incurred increased occupancy costs associated with the opening of its new corporate center and expanded back-office facilities, which includes rent expense for the opening of a second call center and BankAtlantic University. BankAtlantic also incurred higher data processing costs related to new accounts. As a consequence of the above growth, depreciation, building repairs and maintenance and rent expense increased from \$6.6 million for the three months ended June 30, 2005 to \$9.2 million for the comparable 2006 period. During the same three month period, data processing expense increased from \$979,000 to \$1.6 million. Depreciation, building repairs and maintenance and rent expense increased from \$12.5 million to \$17.4 million and data processing expense increased from \$1.9 million to \$3.1 million, for the six months ended June 30, 2005 and 2006, respectively.

During the fourth quarter of 2005, BankAtlantic significantly expanded its advertising campaign in an effort to maintain the growth rates of low cost deposits. The additional expenditures for advertising include branch grand

opening promotions as well as television, print media and radio advertising. During the 2006 quarter, BankAtlantic opened 58,000 new low cost deposit accounts, an increase of 19% over the corresponding 2005 quarter, and during the six months ended June 30, 2006, BankAtlantic opened 135,000 new low cost deposits accounts representing a 29% increase over the 2005 six month period.

The cost associated with debt redemption was the result of a prepayment penalty incurred during the three and six months ended June 30, 2006 when BankAtlantic prepaid \$358.5 million and \$384 million, respectively, of FHLB advances scheduled to mature in 2008 that had an average interest rate of 5.43% and 5.45%, respectively. BankAtlantic prepaid these advances as part of a market risk strategy to reduce the effect of an asset sensitive portfolio on its net interest margin by shortening the average maturity of its outstanding interest-bearing liabilities.

The lower expenses for professional fees during the 2006 periods, compared to the 2005 periods, primarily resulted from consulting costs and professional fees during the 2005 period associated with the compliance efforts relating to anti-terrorism and anti-money laundering laws and regulations. These professional fees declined as a result of BankAtlantic's implementation of compliance procedures and the conclusion of related investigations by regulatory authorities.

The 2005 quarter includes a \$3.7 million impairment charge associated with a decision to vacate and raze the Bank's former headquarters.

BankAtlantic incurred a significant increase in check losses directly related to the increased number of low cost deposit accounts and the volume of checking account overdrafts. Also contributing to the losses was an increased number of fraudulent check cashing schemes and counterfeiting during the 2006 periods compared to 2005.

The increase in other non-interest expense during the quarter relates to an additional \$308,000 in loan expense, \$229,000 of fees remitted for maintaining attorney escrow accounts, and higher general operating expenses such as telephone, postage and check printing expense related to a significant increase in the number of customer accounts and the extended hours of the branch network. During the six month period the increase in non-interest expense reflects an \$115,000 increase in loan expense and a \$486,000 increase in attorney escrow accounts. The remaining increase in expenses for the period resulted from higher general operating expenses.

The lower effective tax rate during the three and six months ended June 30, 2006 compared to the same 2005 periods resulted from an increase in tax exempt income and a lower effective State income tax rate. Average tax exempt investments increased from \$351.2 million and \$368.3 million, respectively during the three and six months ended June 30, 2005 to \$398.4 million and \$395.8 million, respectively during the same 2006 periods. The lower State income tax effective rate reflects a change in earnings from State tax jurisdictions.

**For the Three and Six Months Ended June 30, 2006 Compared to the Same 2005 Period:**

Ryan Beck recorded a loss of \$2.4 million and \$3.9 million for the three and six months ended June 30, 2006, respectively, compared to a profit of \$13.0 million and \$15.6 million for the same 2005 periods. The 2006 net loss primarily resulted from lower revenues from investment banking and principal transactions activities, as well as

increased compensation costs and direct expenses associated with the expansion in late 2005 of investment banking and capital markets activities, including expansion of municipal finance and trading areas. The 2005 net income was impacted significantly from one large investment banking transaction which contributed significant investment banking fees, principal transactions and commissions to the three and six month performance.

Net interest income was relatively flat for the three and six months ended June 30, 2006, compared to the same 2005 periods. Included in interest income is Ryan Beck's participation in interest income associated with approximately \$247 million of customer margin debit balances. Principal transactions revenue decreased by 36% and 15% compared to the same three and six month periods in 2005, respectively, primarily due to a decrease in equity gross sales credits associated with the large investment banking transaction mentioned above. This decrease was partially offset by an increase in equity and fixed income trading gains during the three and six months ended June 30, 2006.

Investment banking revenue decreased by 87% and 81% compared to the same three and six month periods ended June 30, 2005. The decrease resulted principally from the large underwriting transaction which occurred in the second quarter of 2005 along with decreased deal activity in the markets where Ryan Beck does business.

**Table of Contents**

**BankAtlantic Bancorp, Inc. and Subsidiaries**

Commission revenue increased by 12% and 13% from the same three and six months ended June 30, 2005, attributable mainly to increased equity transactions, and managed money fee revenues.

Other income is primarily comprised of rebates received on customer money market balances and inactive fees received on customer accounts.

Employee compensation and benefits decreased by 15% and 2% from the same three and six month periods of 2005, primarily due to a decrease in discretionary incentive compensation and commission expense as a result of the decreased investment banking revenue in 2006 versus 2005. This decrease was partially offset by increased salaries and guaranteed bonuses associated with the firm's capital markets and investment banking unit expansion.

Advertising and market development decreased 32% and 4% from the same three and six month periods of 2005, mainly due to reductions in Ryan Beck's advertising campaign which ran through the second quarter of 2005 offset by increased travel and entertainment expenses caused primarily by the expansion of Ryan Beck's capital markets business.

Professional fees increased 20% and 28% from the same three and six month periods of 2005. The increase is primarily due to an increase in legal expenses and settlement reserves.

Communications increased 12% and 17% from the same three and six month periods of 2005. This increase was primarily due to the addition of offices and the increase in capital markets personnel in 2006.

The increase in floor brokerage, exchange and clearing fees of 6% and 11% from the same three and six month periods of 2006 is due to an increase in transactional business in 2006 compared to 2005. This increase was reflected in the 3% and 5% increase in tickets processed for the quarter to 245,000 for 2006 versus 237,000 for 2005 and for the six month period to 510,000 for 2006 versus 485,000 for 2005.

The effective tax rate decreased by 1.62% from the three months ended June 30, 2005 and increased by 2.76% from the six month period ended June 30, 2006. The change in the effective rates during the three and six months ended June 30, 2006 primarily resulted from changes in the fair value of corporate owned life insurance and an increase in tax exempt income due to the expansion of the municipal finance trading area.

During the three months ended June 30, 2006, interest and dividend income consisted of \$593,000 of interest and dividends on managed fund investments, and \$69,000 of interest income associated with a BankAtlantic repurchase agreement account. During the six months ended June 30, 2006, interest and dividend income consisted of \$1.1 million of interest and dividends on managed fund investments, and \$137,000 of interest income associated with a BankAtlantic repurchase agreement account.

During the three months ended June 30, 2005, interest and dividend income consisted of interest on loans to Levitt of \$92,000, interest and dividends from managed funds of \$485,000, and interest income associated with a BankAtlantic repurchase agreement account of \$35,000. During the six months ended June 30, 2005, interest and dividend income consisted of interest on loans to Levitt of \$557,000, interest and dividends from managed funds of \$675,000, and interest income associated with a BankAtlantic repurchase agreement account of \$59,000.

Interest expense increased during the three and six months of 2006, compared to the same 2005 period, as a result of higher interest rates during 2006 compared to 2005. The Company's junior subordinated debentures average balances were \$263.3 million during the three and six months ended June 30, 2006 and 2005, of which \$128.9 million accrue interest at floating rates.

Income from unconsolidated subsidiaries during the three and six months ended June 30, 2006 represents \$156,000 and \$306,000, respectively, of equity earnings from trusts formed to issue trust preferred securities as part of trust preferred securities financings and \$122,000 and \$792,000, respectively, of equity earnings from a rental real estate joint venture.

Income from unconsolidated subsidiaries during the three months ended June 30, 2005 represents equity earnings from trusts formed to issue trust preferred securities.

Securities activities during the three and six months ended June 30, 2006 represent gains from managed funds. During the 2006 quarter and six month period, the Parent Company sold \$33.8 and \$40.3 million, respectively, of equity securities from its portfolio for gains as shown on the above table. The proceeds from the sale of equity securities were reinvested in equity securities. The gains on the securities partially offset higher interest expense on junior subordinated debentures. The Parent Company anticipates continuing this strategy in subsequent periods.

Other income during the three and six months ended June 30, 2005 represented fees received by the Company for

investor relations and risk management services provided by the Company to Levitt and BFC. During 2006, these services were provided to the Company by BFC and are reflected in other expenses.

The Company's compensation expense during the three and six months ended June 30, 2006 represents salaries and bonuses for executive officers of the Company as well as recruitment expenses. Additional compensation expense during 2006 also included payroll taxes associated with the exercise of stock options and \$198,000 and \$425,000, respectively, of share-based compensation costs for the three and six months ended June 30, 2006.

The Company's compensation expense during 2005 represents salaries for investor relations, risk management and executive management personnel as well as additional payroll taxes from the exercise of stock options. This expense was partially offset by income received from Levitt and BFC for these services performed by the Company's employees.

The increase in professional fees during the 2006 second quarter compared to the same 2005 period resulted from equity securities portfolio management fees and additional 2005 internal control compliance costs assessed during 2006. The reduction in professional fees during the six months ended June 30, 2006 resulting from costs incurred related to internal control and compliance with Section 404 of the Sarbanes Oxley Act being allocated to the Company's subsidiaries during 2006. These expenses were not allocated to the Company's subsidiaries during 2005.

The increase in other expenses during the three and six months ended June 30, 2006 compared to 2005 primarily resulted from fees paid to BFC for investor relations, risk management and executive management personnel services provided to the Company by BFC. These expenses were primarily reflected in compensation expense during the 2005 period.

**BankAtlantic Bancorp Consolidated Financial Condition**

Total assets at June 30, 2006 were \$6.4 billion compared to \$6.5 billion at December 31, 2005. The changes in components of total assets from December 31, 2005 to June 30, 2006 are summarized below:

Decrease in securities owned associated with Ryan Beck's trading activities;

Decline in securities available for sale reflecting an investment strategy to limit asset growth in response to the relatively flat yield curve during the period;

Higher investment securities balances due to purchases of tax certificates at annual auctions;

Lower investment in FHLB stock related to repayments of FHLB advances;

Decline in loan receivable balances associated with lower commercial real estate loan balances primarily resulting from a decision to cease condominium lending, and \$112 million of participations sold being treated as loan sales instead of secured borrowings as a result of management's decision to amend the related participation agreements;

Increase in accrued interest receivable resulting from higher rates on earning assets during the period partially offset by lower earning asset balances;

Decline in investment in unconsolidated subsidiaries due to a capital distribution from an investment in a rental real estate joint venture partially offset by a \$4.1 million investment in another rental real estate joint venture during the first quarter of 2006;

Increase in office properties and equipment associated with BankAtlantic's branch expansion initiatives;

Increase in deferred tax asset primarily resulting from a decline in other comprehensive income; and

Increase in other assets from higher accrued revenues at Ryan Beck as well as higher prepaid expenses and leasehold improvement allowances.

The Company's total liabilities at June 30, 2006 were \$5.9 billion compared to \$6.0 billion at December 31, 2005. The changes in components of total liabilities from December 31, 2005 to June 30, 2006 are summarized below:

Higher deposit account balances resulting from growth in low-cost deposits;

Decrease in FHLB advances balances reflecting redemptions of long term advances as part of a strategy to reduce asset sensitivity in our net interest margin;

Decrease in secured borrowings (associated with loan participations sold without recourse that are accounted for as secured borrowings) due to loan repayments and a management decision to amend participation sold agreements to qualify as loan sales instead of secured borrowing arrangements;

Increase in short-term borrowings to fund redemptions of FHLB advances and the purchase of tax certificates;

Increase in securities sold but not yet purchased and due to clearing agents relating to Ryan Beck's trading activities;

Declines in other liabilities associated with a reduction in Ryan Beck's accrued employee compensation and benefits reflecting the payout of 2005 annual bonuses during the first quarter of 2006 as well as the reduction in

a \$10 million reserve for the AML/BSA compliance matters based on payment of that amount.

Stockholders' equity at June 30, 2006 was \$520.7 million compared to \$516.3 million at December 31, 2005. The increase was primarily attributable to: earnings of \$14.8 million, a \$8.9 million increase in additional paid in capital related to the issuance of common stock and associated tax benefits upon the exercise of stock options, a \$2.2 million increase in additional paid-in-capital associated with the expensing of share-based compensation. The above increases in stockholders' equity were partially offset by a \$3.6 million reduction in additional paid in capital for the purchase and retirement of Class A common stock, \$4.7 million of common stock dividends, a \$6.4 million change in accumulated other comprehensive loss, net of income tax benefits, and a \$7.0 million reduction in additional paid in capital from the acceptance of Class A common stock as consideration for the payment of withholding taxes and the exercise price associated with the exercise of Class A stock options.

#### **BankAtlantic Bancorp, Inc. Liquidity and Capital Resources**

In May 2006, the Company's Board of Directors approved the repurchase of up to 6,000,000 shares of its Class A common stock. No termination date was set for the buyback program. The shares will be purchased on the open market, although the Company may purchase shares through private transactions. The Company plans to fund the share repurchase program primarily through the sale of equity securities from its securities portfolio. During the six months ended June 30, 2006 the Company repurchased and retired 250,000 shares of Class A common stock at a redemption price of \$3.6 million.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

The Company's principal source of liquidity is dividends from BankAtlantic and, to a lesser extent, Ryan Beck. The Company also obtains funds through the issuance of equity and debt securities, borrowings from financial institutions, and liquidation of equity securities and other investments. The Company uses these funds to contribute capital to its subsidiaries, pay dividends, pay debt service, repay borrowings, purchase equity securities, invest in rental real estate joint ventures and fund operations. The Company's annual debt service associated with its junior subordinated debentures is approximately \$20.6 million. The Company's estimated current annual dividends to common shareholders are approximately \$9.3 million. During the six months ended June 30, 2006, the Company received \$10.0 million of dividends from BankAtlantic. The declaration and payment of dividends and the ability of the Company to meet its debt service obligations will depend upon the results of operations, financial condition and cash requirements of the Company, as well as indenture restrictions and the ability of BankAtlantic to pay dividends to the Company. These payments are subject to regulations and OTS approval and are based upon BankAtlantic's regulatory capital levels and net income.

As previously disclosed, the Company would like to monetize a portion of the Company's investment in Ryan Beck. To that end, Ryan Beck Holdings, Inc. filed a registration statement with the Securities and Exchange Commission in April 2006 for an initial public offering of shares of its Class A Common Stock. The Company expects to retain a substantial interest in Ryan Beck subsequent to the public offering or any other financial transaction. The Company has postponed the Ryan Beck initial public offering due to a combination of current equity market conditions and Ryan Beck's recent financial performance. The Company anticipates that it will move forward with efforts to monetize a portion of its investment in Ryan Beck when market conditions and Ryan Beck's performance improves.

Ryan Beck did not pay any dividends to the Company during 2005, and except in connection with any possible financial transaction, it is not expected that Ryan Beck will make dividend payments to the Company in the foreseeable future.

The Company has invested \$80.3 million in equity securities with a money manager. The equity securities had a fair value of \$85.6 million as of June 30, 2006. It is anticipated that these funds will be invested in this manner until needed to fund the operations of the Company and its subsidiaries, which may include acquisitions, BankAtlantic's branch expansion and renovation strategy, retirement of Class A common stock or other business purposes. The Company has also utilized this portfolio of equity securities as a source of liquidity to pay debt service on its borrowings.

The Company has established revolving credit facilities aggregating \$30 million with two independent financial institutions. The credit facilities contain customary financial covenants relating to regulatory capital, debt service coverage and the maintenance of certain loan loss reserves. These facilities are secured by the common stock of BankAtlantic. At June 30, 2006, the Company was in compliance with all covenants contained in the facilities. The Company had no outstanding borrowings under these credit facilities at June 30, 2006.

**BankAtlantic Liquidity and Capital Resources**

BankAtlantic's liquidity will depend on its ability to generate sufficient cash to support loan demand, to meet deposit withdrawals, to fund branch expansion and asset growth, and to pay operating expenses. BankAtlantic's securities portfolio provides an internal source of liquidity through its short-term investments as well as scheduled maturities and interest payments. Loan repayments and sales also provide an internal source of liquidity.

BankAtlantic's primary sources of funds are deposits; principal repayments of loans, tax certificates and investment securities; proceeds from the sale of loans and securities available for sale; proceeds from securities sold under agreements to repurchase and federal funds purchased; advances from FHLB; interest payments on loans and securities; and other funds generated by operations. These funds were primarily utilized to fund loan disbursements and purchases, deposit outflows, repayments of securities sold under agreements to repurchase, repayments of advances from FHLB, purchases of tax certificates and investment securities, payments of maturing certificates of deposit, acquisitions of properties and equipment, operating expenses and dividends to the Company. The FHLB has granted BankAtlantic a line of credit capped at 40% of assets subject to available collateral, with a maximum term of ten years. BankAtlantic had utilized its FHLB line of credit to borrow \$1.1 billion as of June 30, 2006. The line of

credit is secured by a blanket lien on BankAtlantic's residential mortgage loans and certain commercial real estate and consumer loans. BankAtlantic's remaining available borrowings under this line of credit were approximately \$1.2 billion at June 30, 2006. BankAtlantic has established lines of credit for up to \$582.9 million with other banks to purchase federal funds of which \$205 million was outstanding as of June 30, 2006. BankAtlantic has also established a \$6.0 million potential advance with the Federal Reserve Bank of Atlanta. During the 2005 third quarter, BankAtlantic became a participating institution in the Federal Reserve Treasury Investment Program and at June 30, 2006, \$19.3 million of short term borrowings were outstanding under

this program. BankAtlantic also has various relationships to acquire brokered deposits, which may be utilized as an alternative source of liquidity, if needed. At June 30, 2006, BankAtlantic had no outstanding brokered deposits.

BankAtlantic's commitments to originate and purchase loans at June 30, 2006 were \$350.4 million and \$145.0 million, respectively, compared to \$421.2 million and \$13.0 million, respectively, at June 30, 2005. Additionally, BankAtlantic had no commitments to purchase mortgage-backed securities.

At June 30, 2006, BankAtlantic had investments and mortgage-backed securities of approximately \$223.4 million pledged against securities sold under agreements to repurchase (retail and wholesale), \$26.3 million pledged against public deposits, \$50.4 million pledged against the Federal Reserve Treasury Investment Program, and \$57.3 million pledged against treasury tax and loan accounts.

BankAtlantic in 2004 began a de novo branch expansion strategy under which it opened 8 branches during the past 18 months. At June 30, 2006, BankAtlantic had \$6.2 million of commitments to purchase land for branch expansion. BankAtlantic has entered into operating land leases and has purchased various parcels of land for future branch construction throughout Florida. BankAtlantic plans to open up to 12 branches during the latter half of 2006, subject to required regulatory approvals. The estimated cost of opening and relocating these branches is expected to be approximately \$40 million. BankAtlantic has announced that it intends to open up to 24 branches during 2007. The capital expenditures for this branch expansion are estimated to be approximately \$80 million.

**Ryan Beck & Co., Inc. Liquidity and Capital Resources**

Ryan Beck's primary sources of funds during the six months ended June 30, 2006 were clearing broker borrowings, proceeds from the sale of securities owned, proceeds from securities sold but not yet purchased, loan repayments and fees from customers. These funds were primarily utilized to pay operating expenses and fund capital expenditures. As part of the Gruntal transaction in 2002, Ryan Beck acquired all of the membership interests in The GMS Group, LLC ( GMS ). During 2003, Ryan Beck sold GMS for \$22.6 million, receiving cash proceeds of \$9.0 million and a \$13.6 million promissory note. The note is secured by the membership interests in GMS and requires GMS to maintain certain capital and financial ratios. The promissory note was repaid in full in June 2006.

In the ordinary course of business, Ryan Beck borrows funds under agreements with its clearing brokers and pledges securities owned as collateral primarily to finance its trading inventories. The amount and terms of the borrowings are subject to the lending policies of the clearing brokers and can be changed at the clearing brokers' discretion. Additionally, the amount financed is also impacted by the market value of the securities pledged as collateral.

Ryan Beck enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include futures, mortgage-backed to-be-announced securities (TBAs) and securities purchased and sold on a when-issued basis (when-issued securities). These derivative financial instruments are used to meet the needs of customers, conduct trading activities, and manage market risks and are, therefore, subject to varying degrees of market and credit risk. Derivative transactions are entered into for trading purposes or to economically hedge other positions or transactions.

Ryan Beck is subject to the net capital provision of Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital. Additionally, Ryan Beck, as a market maker, is subject to supplemental requirements of Rule 15c3-1(a) 4, which provides for the computation of net capital to be based on the number of and price of issues in which markets are made by Ryan Beck, not to exceed \$1.0 million. Ryan Beck's regulatory net capital was \$26.0 million, which was \$25.0 million in excess of its required net capital of \$1.0 million at June 30, 2006.

Ryan Beck operates under the provisions of paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission as a fully disclosed introducing broker and, accordingly, customer accounts are carried on the books of the clearing brokers. However, Ryan Beck safe keeps and redeems municipal bond coupons for the benefit of its customers. Accordingly, Ryan Beck is subject to the provisions of SEC Rule 15c3-3 relating to possession or control and customer reserve requirements and was in compliance with such provisions at June 30, 2006.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****Item 3. Quantitative and Qualitative Disclosures about Market Risk****Market Risk**

Market risk is defined as the risk of loss arising from adverse changes in market valuations which arise from interest rate risk, foreign currency exchange rate risk, commodity price risk and equity price risk. Our primary market risk is interest rate risk and our secondary market risk is equity price risk.

(1) Hybrid adjustable rate mortgages (ARM) earn fixed rates for designated periods and adjust annually thereafter based on the one year U.S. Treasury note rate.

The majority of BankAtlantic's assets and liabilities are monetary in nature, subjecting it to significant interest rate risk because its assets and liabilities reprice at different times, market interest rates change differently among each rate indices and certain interest earning assets, primarily residential loans, may be prepaid before maturity as interest rates change.

BankAtlantic has developed a model using standard industry software to measure our interest rate risk. The model performs a sensitivity analysis that measures the effect on net interest income of changes in interest rates. The model measures the impact that parallel interest rate shifts of 100 and 200 basis points would have on net interest income over a 12 month period.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

The model calculates the change in net interest income by:

- i. Calculating interest income and interest expense from existing assets and liabilities using current repricing, prepayment and volume assumptions,
- ii. Estimating the change in expected net interest income based on instantaneous and parallel shifts in the yield curve to determine the effect on net interest income; and
- iii. Calculating the percentage change in net interest income calculated in (i) and (ii).

Management has made estimates of cash flow, prepayment, repricing and volume assumptions that it believes to be reasonable. Actual results will differ from the simulated results due to changes in interest rates that differ from the assumptions in the simulation model.

Certain assumptions by the Company in assessing the interest rate risk were utilized in preparing the following table. These assumptions related to:

Interest rates,

Loan prepayment rates,

Deposit decay rates,

Re-pricing of certain borrowings, and

Reinvestment in earning assets.

Presented below is the estimated change in BankAtlantic's estimated net interest income over a twelve month period based on assumed changes in interest rates calculated utilizing the Company's model:

**As of June 30, 2006**

<b>Changes in Rate</b>	<b>Net Interest Income</b>	<b>Percent Change</b>
+200 bp	\$ 250,501	-2.92%
+100 bp	\$ 257,152	-0.34%
0	\$ 258,041	0.00%
-100 bp	\$ 257,936	-0.04%
-200 bp	\$ 253,124	-1.91%

Our tax equivalent net interest margin improved to 4.14% in the first six months of 2006 vs. 3.89% in the comparable 2005 period. The improvement is primarily attributable to an increase in low cost deposits funding the repayment of short term borrowings. This margin improvement is particularly significant in light of the flatness of the current yield curve. While further margin improvement will depend largely on the future pattern of interest rates, we believe our high level of low cost deposits and the expected continued growth in those deposits, coupled with the general positioning of our balance sheet for rising interest rates should enable BankAtlantic's margin to show gradual improvement in subsequent periods.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries*****Equity Price Risk***

We also maintain a portfolio of equity securities in our Parent Company that subjects us to equity pricing risks which would arise as the values of our equity investments change in conjunction with market or economic conditions. The change in fair values of equity investments represents instantaneous changes in all equity prices. The following are hypothetical changes in the fair value of our available for sale equity securities at June 30, 2006 based on percentage changes in fair value. Actual future price appreciation or depreciation may be different from the changes identified in the table below (dollars in thousands):

<b>Percent Change in Fair Value</b>	<b>Available for Sale Securities Fair Value</b>	<b>Dollar Change</b>
20%	\$ 111,223	\$ 18,537
10%	\$ 101,955	\$ 9,269
0%	\$ 92,686	\$
-10%	\$ 83,417	\$ (9,269)
-20%	\$ 74,149	\$ (18,537)

Excluded from the above table is \$1.8 million of investments in private companies and a \$5.0 million investment in a limited partnership for which no current market exists. The limited partnership invests in companies in the financial services industry. The ability to realize on or liquidate these investments will depend on future market conditions and is subject to significant uncertainty.

**Ryan Beck Market Risk**

The Company, through its broker/dealer subsidiary Ryan Beck, is exposed to market risk arising from trading and market making activities. Ryan Beck's market risk is the potential change in value of financial instruments caused by fluctuations in interest rates, equity prices, credit spreads and other market forces. Ryan Beck's management monitors risk in its trading activities by establishing limits and reviewing daily trading results, inventory aging, pricing, concentration and securities ratings. Ryan Beck uses a variety of tools, including aggregate and statistical methods. Value at Risk ( VaR ) is the principal statistical method used and measures the potential loss in the fair value of a portfolio due to adverse movements in underlying risk factors. Substantially all the trading inventory is subject to measurement using VaR.

Ryan Beck uses an historical simulation approach to measuring VaR using a 99% confidence level, a one day holding period and the most recent three months average volatility. The 99% VaR means that, on average, one would not expect to exceed such loss amount more than one time every one hundred trading days if the portfolio were held constant for a one-day period.

Modeling and statistical methods rely on approximations and assumptions that could be significant under certain circumstances. As such, the risk management process also employs other methods such as sensitivity to interest rates and stress testing.

The following table sets forth the high, low and average VaR for Ryan Beck for the six months ended June 30, 2006 (in thousands):

	<b>High</b>	<b>Low</b>	<b>Average</b>
VaR	\$ 415,528	\$ 94,069	\$ 214,023
Aggregate Long Value	202,976	90,909	148,846
Aggregate Short Value	\$ 148,920	\$ 35,063	\$ 82,821

**Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934) . Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934) are effective.

**Changes in Internal Control over Financial Reporting**

In addition, we reviewed our internal control over financial reporting, and there have been no changes in our internal control over financial reporting that occurred during our second fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II OTHER INFORMATION****Item 1A. Risk Factors.**

There have been no material changes from the risk factors disclosed in the Risk Factors section of the Company's Annual Report on Form 10-K for the year ended December 31, 2005 and in Item 1A of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2006.
