BLUE CHIP VALUE FUND

ANNUAL REPORT
TO STOCKHOLDERS

DECEMBER 31, 2002

PORTFOLIO MANAGER COMMENTARY

Dear Fellow Stockholders:

Once again, this has been a challenging year for the Blue Chip Value Fund. While the Fund held its own during the difficult first half of our fiscal year, the second half proved more frustrating. In what could be termed a tale of two quarters, corporate malfeasance, geopolitical tensions and high-profile bankruptcies sent the S&P 500 Index to a 17.28% decline in the third quarter, its worst quarterly performance since the fourth quarter of 1987. Following a bottom in early October, the market then engineered a solid relief rally before losing steam in late December, leaving the S&P 500 up 8.44% for the fourth quarter. In both instances, the environment was characterized by extremely high levels of volatility, in large part due to sudden and severe swings in investor sentiment.

Against this highly emotional backdrop, the Fund's net asset value (NAV) declined 20.60% for the fiscal year ended December 31, 2002, modestly outperforming the 22.09% drop of its benchmark, the S&P 500 Index. With respect to market performance, the Fund ended the year trading at a discount to NAV after having started the year at a premium. This resulted in a negative market price return of 32.19%. Although no one celebrates a decline in value, this is the third consecutive year that the Fund's NAV performance has bested its benchmark, in a period which coincides with the well-documented downturn in the financial markets. Nevertheless, recent losses are not the kind of results we are accustomed to reporting.

In our view, investing is a long-term process that requires consistent discipline and the ability to follow that discipline through various market cycles and short-term market phenomenon. Our investment discipline is characterized by identifying businesses where, in our opinion, strong management teams exhibit the ability to generate improving returns on their invested assets. When the intrinsic value of this type of business in our opinion exceeds its current share price, we believe we have an excellent long-term investment.

2

Since we last reported at mid-year, our better performing investments were among the consumer staples, cyclicals and energy sectors. Unusually high valuations limited our exposure to staples, whose market basket finished down

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30D

10% for the period. However, our holdings in the sector were up on average 1.5%, bolstered by a 23% second-half advance for food and household products leader Sara Lee Corp. In consumer cyclicals, our defensive, valuation-sensitive holdings, which included discount apparel retailer TJX Companies, outperformed the market basket by 4%. Meanwhile, strong fundamentals and visible cash flows led us to overweight energy, where our holdings outperformed the market basket by 5%. Overall, our best performing sector for the year was communications. Although we cut back our investments in the sector as values declined, the Fund's holdings outpaced the market average by 16%.

The widely-covered bankruptcy filings of WorldCom and Adelphia Communications produced two violent sell-offs during the third quarter. Although neither company was held in the Fund, considerable damage was inflicted upon global banking giant J.P. Morgan Chase & Co., causing us to liquidate the position in the third quarter. Further contributing to our weaker third quarter performance was insurance brokerage AON Corp., whose turnaround efforts unexpectedly reversed course. The capital goods sector also came under pressure as, it appears, investors increasingly eschewed stable businesses for higher risk names that had fallen dramatically. Although defense contractors Raytheon Co. and General Dynamics Corp. outperformed earlier in the year, their presence worked against us during the second half. Even so, our holdings in the sector were up 1.7% for the year, while the market basket closed down 20.2%.

Looking ahead, we believe our fourth quarter gains may be an indication that the market is finally discounting an economic recovery. However, it appears to us that war fears and credit concerns continue to have a dampening effect, curbing the propensity of businesses to hire and invest capital. For that reason, we remain somewhat cautious on the sustainability of gains in areas such as technology, telecommunications, and certain consumer-related businesses, sectors that drove the late-period advance. We are watchful for opportunities to

3

trim positions in these groups, while adding to holdings that were overlooked but whose intrinsic value we perceive is still visibly higher than their current market value. The strength of our investment philosophy gives us reason to believe that the Fund will meet and, hopefully, exceed your expectations.

Consistent with this belief, your Board of Directors is engaged in the process of reviewing the risks and rewards of raising additional capital for the Blue Chip Value Fund through borrowing. The ultimate goal of this investment would be to enhance your stockholder returns. What makes this opportunity worth considering are the unusual circumstances of being able to borrow at forty-year low interest rates, while at the same time, being able to invest in stock prices that have been down for three years in a row. We will continue to assess the alternatives and will keep you informed of our final decision.

Thank you for your continued investment in the Blue Chip Value Fund.

Sincerely,

/s/ Mark M. Adelman

WHY DIVIDEND REINVESTMENT IS IMPORTANT

A very important component of a stockholder's total return comes from the reinvestment of distributions as the chart above demonstrates. Please read the following summary of the Fund's Dividend Reinvestment and Cash Purchase Plan and call us at (800) 624-4190 or visit www.blu.com to obtain an enrollment form or if you have any additional questions.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Blue Chip Value Fund, Inc.'s (the "Fund") Dividend Reinvestment and Cash Purchase Plan offers stockholders the opportunity to reinvest dividends and capital gain distributions in additional shares of the Fund. A stockholder may also make additional cash investments under the Plan. There is no service charge for participation.

Participating stockholders will receive additional shares issued at a price equal to the net asset value per share as of the close of the New York Stock Exchange on the record date ("Net Asset Value"), unless at such time the Net Asset Value is higher than the market price of the Fund's common stock, plus brokerage commission. In this case, the Fund will attempt, generally over the next 10 business days (the "Trading Period"), to acquire shares of the Fund's common stock in the open market at a price plus brokerage commission which is less than the Net Asset Value. In the event that prior to the time such acquisition is completed, the market price of such common stock plus commission equals or exceeds the Net Asset Value, or in the event that such market purchases are unable to be completed by the end of the Trading Period, then the balance of the distribution shall be completed by issuing additional shares at Net Asset Value.

Participating stockholders may also make additional cash investments (minimum \$50 and maximum \$10,000 per month) by check or money order (or by wire for a \$10 fee) to acquire additional shares of the Fund. Please note, however,

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30D

that these additional shares will be purchased at market value plus brokerage commission (without regard to net asset value) per share.

A stockholder owning a minimum of 50 shares may join the Plan by sending an Enrollment Form to the Plan Agent at Mellon Investor Services, LLC, Overpeck Centre, 85 Challenger Road, Ridgefield Park, NJ, 07660.

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends or distributions, even though the stockholder does not receive the cash. Participants must own at least 50 shares at all times.

7

A stockholder may elect to withdraw from the Plan at any time on 15-days' prior written notice, and receive future dividends and distributions in cash. There is no penalty for withdrawal from the Plan and stockholders who have withdrawn from the Plan may rejoin in the future.

The Fund may amend the Plan at any time upon 30-days prior notice to participants.

Additional information about the Plan may be obtained from Blue Chip Value Fund, Inc. by writing to 1225 17th Street, 26th Floor, Denver, CO 80202, by telephone at (800) 624-4190 or by visiting us at www.blu.com.

If your shares are registered with a broker, you most likely can still participate in the Dividend Reinvestment Plan. Please contact your broker about how to participate and to inquire if there are any fees which may be charged by the broker to your account.

BLUE CHIP VALUE FUND, INC.

NOTES TO FINANCIAL STATEMENTS
December 31, 2002

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30D

Blue Chip Value Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION - Each investment security is generally valued at the last sale price at period end reported by the principal exchange on which the issue was traded or, if no sale is reported, at a value based on the average closing bid and asked price. When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities of the Fund may be valued at fair value determined in good faith by or under the direction of the Board of Directors. Short-term securities having a remaining maturity of 60 days or less are valued at amortized cost which approximates market value.

FEDERAL INCOME TAXES - The Fund intends to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. Therefore, no provision has been made for federal income taxes.

The Fund had available for federal income tax purposes unused capital loss carryovers of approximately \$15,485,000, which will expire in 2010.

The Fund intends to elect to defer to its fiscal year ending December 31, 2003, approximately \$468,000 of losses recognized during the period November 1, 2002 to December 31, 2002, which will expire in 2011 if unutilized.

INVESTMENT TRANSACTIONS - Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions and unrealized appreciation and depreciation of investments are determined on the first-in, first-out basis for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date. Interest income, which includes interest earned on money market funds, is accrued and recorded daily.

24

DISTRIBUTIONS TO STOCKHOLDERS - Distributions to stockholders are recorded on the ex-dividend date. Distributions are classified to conform to the tax reporting requirements of the Internal Revenue Code. If the Fund's total distributions for the year (exclusive of long-term capital gains dividends) exceed its net investment income and short-term capital gains for such year, a portion of such distributions may constitute a non-taxable return of capital.

The Fund distributes at least 2.5% of its net asset value quarterly to its stockholders.

CLASSIFICATION OF DISTRIBUTIONS TO STOCKHOLDERS - The Fund adjusts classifications of distributions to stockholders to reflect the differences between financial statement amounts and distributions determined in accordance with income tax regulations. Accordingly, during the year ended December 31, 2002, amounts have been reclassified to reflect a decrease in paid in capital of \$13,857,137 and a decrease in overdistributed net investment income of \$13,857,137. Net assets of the Fund were unaffected by the reclassifications.

The tax character of the distributions paid during the years December 31, 2002 and December 31, 2001 was as follows:

YEAR ENDED DECEMBER 31,

Actual results could differ from those estimates.
